Source: Actual figures from Daily Treasury Statement; estimates based upon 1949 Budget document, including effect of proposed legislation.

- 1/ Excludes amounts for public debt retirement which are chargeable to the sinking fund, etc., under special provisions of law. Includes transfers to trust accounts and net expenditures of wholly owned Government corporations, under appropriate classifications. Expenditure classifications in these tables are based on the Daily Treasury Statement, and therefore differ somewhat from those in the 1949 Budget document.
- 2/ Represents appropriations equal to "Social security -- employment taxes" collected and deposited as provided under Sec. 201 (a) of the Social Security Act Amendments of 1939. See also Table 7, following. Figures were revised in the February 1948 issue of the "Treasury Bulletin" to reflect the present classification of certain expenditures reimbursed from the Federal Old-Age and Survivors Insurance Trust Fund.
- 3/ Includes public works undertaken by the Veterans Administration.
- 4/ For further detail, see tables under "Internal Revenue Collections".
- 5/ Receipts of Victory taxes withheld pursuant to the Revenue Act of 1942 are classified as "Other" income and profits taxes.
- 6/ Excludes railroad unemployment insurance contributions, which are included in "All other receipts".
- 7/ At present consists largely of proceeds from the sale of surplus property; also includes deposits resulting from renegotiation of war contracts (for detail see "Treasury Bulletin" for February 1948, page 5), and recoveries of U. S. investment in capital funds (see tables on "Cash Income and Outgo" in the current issue of the "Treasury Bulletin").
- 8/ Department of the Army expenditures, including expenditures for the Department of the Air Force, which are being made from Army appropriations pending transfer of funds pursuant to the Act of July 26, 1947, but excluding expenditures for the following: payments under the Armed Forces Leave Act, UNRRA, and care and disposal of surplus property, shown elsewhere in this table; international finance and aid, shown in Table 4; rivers and harbors and flood control, included under "Public Works" in Table 5; and Panama Canal, included under "Miscellaneous" in Table 5.
- 9/ Department of the Navy expenditures except those for payments under the Armed Forces Leave Act and for UNRRA, shown elsewhere in this table, and those for international finance and aid, shown in Table 4.
- 10/ Beginning March 1948, includes reimbursement for expenditures by the

Departments of the Army and the Navy for care and handling of surplus property overseas.

- 11/ National defense and related activities of R.F.C. and its affiliates. After July 1, 1947, expenditures for these purposes were not segregated from the other expenditures of the Corporation and its affiliates, which are included under "Miscellaneous" expenditures in Table 5.
- 12/ For detail prior to July 1, 1947, see "Treasury Bulletin" for February 1948, page 7. Current figures consist solely of Office of Selective Service Records.
- 13/ Includes expenditures from prior year appropriations which are not shown separately in the Daily Treasury Statement but are included under the Department of the Army.
- 14/ Department of Agriculture expenditures except those for UNRRA, surplus property disposal, other national defense and related activities prior to July 1947; international finance and aid; and forest roads and trails, included under "Public works" in this table.
- 15/ For more detail of these expenditures, see Tables 7, 8, and 9 following. Tax refunds shown there are excluded from expenditures in this table and included in Table 1 preceding under "Refunds of taxes and duties".
- 16/ Federal Works Agency expenditures except those for surplus property disposal, other national defense and related activities prior to July 1947, and assistance to Greece and Turkey. Includes also rivers and harbors and flood control, forest roads and trails, Bureau of Reclamation, and Tennessee Valley Authority.
- 17/ Housing and Home Finance Agency expenditures except those for surplus property disposal, and for other national defense and related activities prior to July 1947.
- 18/ Not classified separately for fiscal years after 1945. For additional information for earlier years, see "Treasury Bulletin" for August 1945, page 6.
- 19/ Includes expenditures for executive departments not included elsewhere and legislative and judicial functions; Government contributions to Federal employees' retirement; atomic energy; aids to education, labor, finance, commerce and industry; Civil Aeronautics; Panama Canal; Post Office deficiency; stock-piling; and, for 1948 and 1949 estimates, a reserve for contingencies.

1/ Original call and maturity dates are used.

2/ Prior to the refunding operation of March 1, 1946, maturing issues were either paid off in full or the holders were given the privilege of exchange into another security in full. Beginning with that operation, some maturities have been split by the Treasury into a

stated portion for cash retirement with the remainder covered by an offering of an exchange security.

3/ Beginning with the November 1947 operation, arrangements were made between the Treasury and the Federal Reserve System whereby all or a part of the System's holdings of certain maturing and called securities would be presented for cash redemption.

r Revised.

## UNITED STATES SAVINGS BONDS

United States savings bonds were first offered for sale in March 1935. Series A-D were sold from March 1935 to April 1941. Series E, F, and G bonds have been on sale since May 1, 1941. For information on the terms and conditions of these bonds, see "Treasury Bulletin" issues for December 1947, page 31, and October 1935, pages A-4 and A-5. Sales and redemption data by States are published at the end of each calendar and each fiscal year after June 30, 1947. Sales by denominations are also published semi-annually after December 31, 1947.

In the following tables sales figures are quoted at issue price, and redemptions and amounts outstanding at current redemption values. Amounts of Series G outstanding are quoted at par. Matured bonds which have been redeemed are included in the figures on redemptions. Matured bonds outstanding are reflected in the interest-bearing debt until all bonds of the series have matured, when they are transferred to matured debt upon which interest has ceased.

1/ Beginning with June 1947, Series E sales include small amounts of unclassified sales consisting of Series E, F, and G. These amounts are substantially less than the sales reported as unclassified in the Daily Treasury Statement. The greater part of that item consists of sales for which information is available as to the series but not the year of issue. On the basis of that information such

sales are included in this table according to series. Prior to June 1947, it was possible to distribute by series all sales reported as unclassified in the Daily Treasury Statement.  
2/ Series E redemptions include small amounts of unclassified Series A-D redemptions beginning with October 1944, and small amounts also of unclassified F and G redemptions, beginning with June 1947.  
3/ Not calculated for matured series.

## TREASURY SAVINGS NOTES

Treasury savings notes have been issued in three series: Series A from August 1, 1941, through June 22, 1943; Series B from August 1, 1941, through September 12, 1942; and Series C on continuous sale since September 14, 1942. For details concerning terms and conditions, investment yields, and tax payment or redemption values of Series C notes, see "Treasury Bulletin" for October 1945, pages A-4 and A-5. For similar information regarding Series A and B notes, see "Annual Report of the Secretary of the Treasury" for 1942, pages 207 and 220. For sales and redemptions of Series A and B notes by fiscal years

and months, see "Treasury Bulletin" for February 1946, pages 42 and 43.

In the following tables sales and redemptions of Treasury savings notes are shown at par value. Matured notes redeemed (either for cash or for tax payment) are included in the figures on redemptions. Matured notes outstanding are reflected in the interest-bearing debt until all notes of the series have matured, when they are transferred to matured debt upon which interest has ceased, in accordance with the practice of the Daily Treasury Statement.

## TREASURY SURVEY OF OWNERSHIP, FEBRUARY 29, 1948

The Treasury Survey of Ownership covers securities issued by the United States Government and by Federal agencies. The banks and insurance companies included in the Survey account for approximately 95 percent of such securities held by all banks and insurance companies in the United States. Data were first published for March 31, 1941.

Information on the distribution of ownership by types of banks and insurance companies is published each month. Additional information showing the holdings of commercial banks distributed according to Federal Reserve member-bank classes and nonmember banks has been published at less frequent intervals. Currently, this information is published for June 30 and December 31.

- 4/ Included in the average yield of long-term taxable Treasury bonds as shown in Table 1 under "Yields of Treasury and Corporate Bonds"
- 5/ Issues which commercial banks may not acquire prior to a specified date (with minor exceptions).
- 6/ All partially tax-exempt except Panama Canal bonds, which are wholly tax-exempt.
- 7/ These securities are not shown until date of issue.

8/ Excludes issues completely held by Farm Credit Administration agencies. The proprietary interest of the United States in the Federal land banks ceased on June 26, 1947.

9/ Yield to maturity. Market convention treats the yield to earliest call date as more significant when an issue is selling above par; the yield to maturity as more significant when an issue is selling at or below par.

# YIELDS OF TREASURY SECURITIES MAR. 31, 1948

Based on Mean of Closing Bid and Asked Quotations

*Explanation: The points represent yields to call when prices are above par, and to maturity date when prices are at par or below. The smooth curves for the various classes of points are fitted by eye. Issues for which an exchange offer has been made or which are due or callable in less than 3 months are excluded.*

Note: Treasury bonds included in the averages, beginning with December 1935, are those neither due nor callable for fifteen years. Prior to that time, for years shown in this table, the bonds included were neither due nor callable for twelve years. For a discussion of the composition of these averages, see the "Treasury Bulletin" for March 1944, page 58; for the composition of the high-grade corporate bond average, see the "Treasury Bulletin" for July 1947, page 59, and January 1945, page 56. Treasury bond yields are computed on the basis of the mean of closing bid and ask quotations in the over-the-counter market, beginning September 2, 1941. Prior to that time, yields were computed on the basis of closing prices on the New York Stock Exchange, except that on days when an issue did not sell the yield was computed on the mean of closing bid and ask quotations on the Exchange. Corporate bond yields are computed on the basis of closing prices on the New York Stock

Exchange and the New York Curb Exchange; on days when an issue does not sell, the price of the last preceding sale is used.

- 1/ For definition of taxable and partially tax-exempt bonds, see footnotes to the "Treasury Survey of Ownership" in this issue of the "Treasury Bulletin". The partially tax-exempt series was discontinued on December 15, 1945, because there were no longer any bonds in this category with fifteen or more years to maturity or first call.
- 2/ Average revised beginning November 1, 1944. Old average for November 1944 was 2.56%.
- 3/ Average revised beginning April 1, 1947. Old average for April 1947 was 2.47%.
- 4/ Market closed.

## CAPITAL MOVEMENTS

Information relating to capital movements between the United States and foreign countries is presented in four sections. Section I contains the principal types of data on capital movements by years from 1935, and currently by months. Each type of data is then broken down into its chief components in the same chronological detail.

Section II supplies a geographic breakdown by principal countries for recent months. The total net capital movement is given first and then the principal categories are shown separately. In addition, at this point, the total outstanding claims on and liabilities to foreign countries are each presented.

Section III presents details with respect to capital movements and short-term claims and liabilities as

of the latest month for which the data are available.

Section IV contains data for recent months on outstanding contracts of banks for forward purchases and sales of foreign exchange.

The data in these four sections are based on reports filed each month by banks, bankers, and brokers throughout the United States. The reports are collected, checked, and tabulated by the twelve Federal Reserve Banks. The totals are then forwarded to the Treasury Department for consolidation and publication.

Publication of detailed figures on capital movements was discontinued between the March 1942 and the November 1945 issues of the "Treasury Bulletin", but data omitted during that period were supplied in the November 1945 issue and supplement.
