Reporting Bases

Data on receipts, expenditures, and debt which appear in the "Treasury Bulletin" are based largely on two Treasury financial reports, the "Daily Statement of the United States Treasury" and the "Monthly Statement of Receipts and Expenditures of the United States Government." Certain monetary statistics are based at least in part on the "Circulation Statement of United States Money." Where these statements are given as sources for individual tables, they are cited by name only. Their respective reporting bases are described below. For other data in the Bulletin, information on sources or reporting bases is given in connection with the tables themselves.

The monthly statement of receipts and expenditures was first published for February 1954, and replaced the daily statement as the primary source of information on budget results and other receipt and expenditure data classified by type of account. At the same time, the daily statement was changed to a statement of cash deposits and withdrawals affecting the account of the Treasurer of the United States. Both publications have provided comparative figures on their respective bases from the beginning of the fiscal year 1953. The announcement of February 17, 1954, with respect to these reporting changes may be found in the April 1954 issue of the Bulletin.

The monthly statement shows all receipts and expenditures of the Government, including those made from cash accounts held outside the United States Treasury. The information is compiled from reports by the Treasurer of the United States and by all other collecting and disbursing agencies, including those agencies which maintain checking accounts in commercial banks. These reports cover transactions recorded in the accounts of the agencies during the reporting period. The net of the transactions as compiled from these reports is reconciled in the monthly statement to changes in the balance in the Treasurer's account and in cash held outside the Treasurer's account and changes in the public debt outstanding.

Receipts of taxes and customs duties are reported on a collections basis. Other receipts are reported partially on a collections basis and partially on a deposits basis. Expenditures, except interest on the public debt, are reported on the basis of checks issued or cash payments made by disbursing officers. Transactions of an interfund or intragovernmental nature are included on the same basis even though the actual issuance of checks may not be involved. Interest on the public debt is included on an accrual basis beginning with figures for June 1955 and the fiscal year 1955. Prior to that, it was included on a due and payables basis. The same reporting basis as that in the monthly statement provides the fiscal year figures for the Treasury's "Combined Statement of Receipts, Expenditures and Balances of the United States Government" and for actual receipts and expenditures in the "Budget of the United States Government."

The daily statement on the new basis was first issued for February 17, 1954. In the deposits and withdrawals as shown, no distinction is made as to the type of accounts (budget, trust, etc.). The deposits are on the basis of certificates of deposit cleared through the account of the Treasurer of the United States. Total withdrawals are on the basis of checks paid or cash disbursements made out of the Treasurer's account. Some of the withdrawal classifications shown are reported on the basis of mailed reports of checks issued and are adjusted by means of clearing accounts to the total of checks paid. Except for relatively minor amounts, noncash interfund and other intragovernmental transactions are excluded. The public debt figures in the daily statement also are on a "clearance" basis, with the exception of those issuance and retirement transactions reported on the basis of telegrams from Federal Reserve Banks. Noncash debt transactions are included, however.

The daily statement before February 17, 1954, covered not only transactions cleared through the Treasurer's account but also certain Government agency transactions which were handled through commercial bank accounts, and included noncash interfund and other intragovernmental transactions. It provided information similar to that in the present daily statement with respect to the status of the Treasurer's account, and similar to that in the present end-of-month daily statement with respect to debt issuance, retirement, and amount outstanding. Receipts and expenditures, however, were classified by type of account, and the budget results shown in the daily statement were used as the basis for reflecting the results under the President's budget program as enacted by the Congress.

Receipts were on the basis of deposits as they cleared the Treasurer's account. Expenditures cleared through the Treasurer's account were reported on two successive bases. Through 1946 they were on the basis of checks paid by the Treasurer of the United States. Beginning with 1947, expenditures made through the facilities of the Treasury Department's Division of Disbursement were on the basis of checks issued, while certain others, principally those of the Department of Defense and its predecessor organizations, were on the basis of checks paid. Transactions handled through commercial bank accounts, consisting of market transactions in public debt and guaranteed securities, were as reported by the agencies. Interest on the public debt was included on a due and payable basis beginning with November 1949 and on a checks-paid basis prior to that time.

The circulation statement reflects transactions through the Treasurer's account which affect monetary stocks of gold and silver and the amounts of coin and currency in the money supply of the country. It is issued later than the daily statement, however, and the figures are based on transactions consummated during the reporting period even though some may not have cleared the Treasurer's account during that period.

Treasury Financing Operations

Cash Offering for \$3 Billion

On September 12 the Treasury Department announced an offering on September 16 of three securities for cash subscription. Offered were an additional \$750 million, or thereabouts, of 4 percent Treasury certificates of indebtedness of Series C-1958 (first offered July 22, 1957); \$1,750 million, or thereabouts, of new 4 percent Treasury notes, Series B-1962, dated September 26, 1957, redeemable at the option of the holder on February 15, 1960 on three months' advance notice, and maturing August 15, 1962; and \$500 million, or thereabouts, of new 12-year 4 percent Treasury bonds, dated October 1, 1957, and maturing October 1, 1969. The announcement stated that, in addition, up to \$100 million of each issue might be allotted to Government investment accounts. The certificates were offered at par plus accrued interest from August 1 to September 26, 1957. The subscription books were open for one day only.

Subscriptions accepted totaled \$3,290 million and in addition \$300 million was allotted to Government investment accounts, equally apportioned among the three issues. Allotments to the public were as follows. Subscriptions in excess of \$100,000 to the certificates were allotted 22 percent, and to the notes 28 percent, but in both cases not less than \$100,000. Subscriptions for \$100,000 or less were allotted in full. Certificates allotted amounted to \$833 million and notes allotted, \$1,901 million. Subscriptions to the bonds in excess of \$50,000 were allotted 10 percent but not less than \$50,000, and subscriptions for \$50,000 or less were allotted in full. Bonds allotted totaled \$557 million. Subscribers were offered the privilege of deferring payment for not more than 50 percent of the amount allotted until October 21, 1957, but

very few investors elected to take advantage of that offer.

Commercial banks, which for this purpose are defined as banks accepting demand deposits, were permitted to subscribe for their own account without deposit, but were restricted in each case to an amount not exceeding 50 percent of the combined capital, surplus, and undivided profits of the subscribing bank. A payment of 2 percent of the amount of securities subscribed for was required on all other subscriptions. Any commercial bank qualified as a depository was permitted to make payment for the new securities by credit in its Treasury tax and loan account up to the amount for which it was qualified in excess of existing deposits.

Both commercial banks and other lenders were requested to refrain from making unsecured loans, or loans collateralized in whole or in part by the securities subscribed for, to cover the 2 percent deposits required to be paid when subscriptions were entered. Subscribing banks were required to certify on all subscriptions entered for account of their customers that no such loans had been made; and that the banks had no beneficial interest in their customers' subscriptions, and that the customers had no beneficial interest in the banks' own subscriptions.

Terms of the certificates of indebtedness, Series C-1958, were summarized in the August Bulletin, page A-1. The new notes bear interest from September 26, 1957, at the rate of 4 percent per annum, payable on a semiannual basis on February 15 and August 15, 1958, and thereafter on those monthly dates in each year until the principal amount becomes payable. They were issued in bearer form only and in denominations of \$1,000,

Treasury Financing Operations - (Continued)

\$5,000, \$10,000, \$100,000, \$1,000,000, \$100,000,000, and \$500,000,000. The new bonds of 1969 bear interest from October 1, 1957, at the rate of 4 per cent per annum, payable semiannually on April 1 and October 1 in each year until the principal amount becomes payable at maturity. They were issued in bearer form with interest coupons attached or registered as to principal and interest, and in denominations of \$500, \$1,000, \$5,000, \$10,000, \$100,000, and \$1,000,000.

Treasury 91-Day Bills Refunded

New issues of Treasury bills totaled \$6.8 billion in September, refunding equivalent weekly amounts of \$1.8 billion on September 5 and 12 and \$1.6 billion on September 19 and 26. The average rates of discount on the new issues were 3.571 per cent for September 5; 3.575 percent for September 12; 3.632 percent for September 19; and 3.534 percent for September 26.

Note: Details of Treasury market financing operations are shown elsewhere in this issue of the "Treasury Bulletin," in the tables on "Offerings," "Allotments,"

and "Disposition," respectively, of marketable issues of bonds, notes, and certificates of indebtedness, and in the table "Offerings of Treasury Bills."

Source: Actual figures through 1952 are from the daily Treasury statement and thereafter from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates are from the midyear review of the 1958 Budget, released October 1, 1957, including effects of proposed legislation.

1/ For further detail, see tables under "Internal Revenue Collections."

2/ Breakdown was not made in the daily Treasury statement and the monthly statement for years prior to 1954.

3/ Beginning January 1951, the distribution of receipts between individual income taxes and old-age and disability insurance taxes is made in accordance with provisions of Sec. 201 of the Social Security Act, as amended (42 U.S.C. 401), for transfer to the Federal Old-Age and Survivors Insurance Trust Fund (see footnote 11), and after December 1956 also for transfer to the Federal Disability

Insurance Trust Fund (see footnote 12).

4/ Taxes on employers and employees under the Federal Insurance Contributions Act, as amended (26 U.S.C. 3101-3125), and, beginning with the taxable year 1951, tax on self-employed individuals under the Self-Employment Contributions Act, as amended (26 U.S.C. 1401-1403). The Social Security Act Amendments of 1956, approved August 1, 1956, increased the rates of tax applicable to wages paid and taxable years beginning after December 31, 1956, to provide for disability insurance (see footnote 12).

5/ Taxes on carriers and their employees under the Railroad Retirement Tax act, as amended (26 U.S.C. 3201-3233).

6/ Tax on employers of 4 or more under the Federal Unemployment Tax Act, as amended (26 U.S.C. 3301-3308); with respect to service performed before January 1, 1956, the tax was imposed on employers of 8 or more. Remaining footnotes on page 5.

Source: Totals by major functions for 1953-57 are from the Midyear Review of the 1958 Budget, released October 1, 1957. Detailed classifications are not available from that source, and figures shown through 1956 are those which appeared in the 1958 Budget document, Special Analysis L, except as noted. Detailed figures for 1957 and 1958 are based on reports by Government disbursing officers and are classified by individual appropriation items. The details for 1957 will not necessarily add to the revised totals. Expenditures are net of public enterprise fund receipts.

1/ Revised for transfer in Midyear Review of the defense support part of the mutual security program from "Economic and technical development" to "Major national security."

2/ See footnote 5.

3/ Expenditures for 1957 and 1958 include those made from "Readjustment Benefits, Veterans' Administration," applicable to functional classification 102, the separate amounts of which cannot be readily determined.

4/ See footnote 3.

5/ Expenditures for 1957 and 1958 include those for emergency assistance to Pakistan -- wheat, and to friendly peoples, applicable to functional classification 152; for emergency feed program -- cost of commodities, applicable to functional classification 352; for loan to Secretary of Agriculture for conservation program, applicable to functional classification 354; and for transfers and other costs for eradication of foot-and-mouth disease and brucellosis in cattle, applicable to functional classification 355. These expenditures were made from "Commodity Credit Corporation Capital Fund" and the separate amounts cannot be readily determined.

6/ Expenditures for 1957 and 1958 include those for farm housing made from "Loans, Farmers' Home Administration, Agriculture," applicable to functional classification 517, the separate amount of which cannot

be readily determined.

7/ For shift of Federal intermediate credit banks from budget to trust account classification effective January 1957, see Table 2, footnote 8.

8/ Excludes Federal-aid highway expenditures, which are made from the Highway Trust Fund beginning with 1957 (see Table 1, footnote 14); corresponding expenditures for previous years are included in budget expenditures.

9/ See footnote 11.

10/ See footnote 14.

11/ Expenditures for 1957 and 1958 include those for community facilities -- grants, loans, and advances, applicable to functional classification 515 and loans for Alaska and prefabricated housing, applicable to functional classification 517. These expenditures were made from "Revolving fund, Liquidating Programs, Office of the Administrator, Housing and Home Finance Agency" and the separate amounts cannot be readily determined.

12/ See footnote 6.

13/ Expenditures for 1957 and 1958 include those for disaster loans and relief made from "Revolving Fund, Small Business Administration," applicable to functional classification 521, the separate amounts of which cannot be readily determined.

14/ Expenditures for 1957 and 1958 include those for lending program -- public agencies, made from "Reconstruction Finance Corporation Liquidation, Treasury" and applicable to functional classification 515, the separate amounts of which cannot be readily determined.

15/ See footnote 13.

* Less than \$500,000.

p Preliminary.

r Revised to include distribution of \$89 million, formerly shown as undistributed, for which information by detailed classifications is not yet available.

Footnotes to Table 1.- (Continued)

Footnotes 1 through 6 follow Table 1..

7/ Through 1953, contributions to the Railroad Unemployment Insurance Administration Fund were carried in the daily Treasury statement as miscellaneous receipts, while the 1958 Budget document, Special Analysis L, includes them in employment taxes through 1952. Beginning 1954 the contributions are credited direct to the trust account. For amounts of the contributions included in budget receipts, see "Treasury Bulletin" for February 1954, page 7.

8/ In the 1958 Budget document, Special Analysis L, and the Midyear Review internal revenue taxes not otherwise classified are included in miscellaneous receipts.

9/ Beginning 1955, the figures shown reflect adjustments to correct prior estimates, pursuant to the provisions of Sec. 201 (a) of the Social Security Act, as amended (42 U.S.C. 401 (a)), in millions of dollars as follows:

Fiscal year or month	Income tax withheld	Income tax not withheld	Old-age insurance taxes transferred
1955	-	-	-300
1956	+249	-4	-246
1957	+136	-1	-134

10/ Beginning 1957, includes collections under increased rates in the Highway Revenue Act of 1956 (see footnote 14).

11/ Amounts appropriated to the Federal Old-Age and Survivors Insurance Trust Fund are equivalent to the amounts of taxes collected and deposited for old-age insurance (42 U.S.C. 401 (a)). Beginning January 1951, the amounts transferred currently for appropriation to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury pursuant to the provisions of Sec. 201 (a) of the act as amended, and are adjusted in later transfers on the basis of wage and self-employment income records maintained in the Social Security Administration. The amount of old-age insurance tax refunds is paid from the trust fund as a reimbursement to the general fund.

12/ The Federal Disability Insurance Trust Fund was established by the Social Security Act Amendments of 1956, approved August 1, 1956 (42 U.S.C. 401 (b)). The act appropriated to the trust fund amounts

equivalent to specified percentages of the wages and self-employment income, respectively, which are taxed for old-age insurance, and provided that the amounts appropriated should be transferred from time to time to the trust fund on the same basis as transfers to the Federal Old-Age and Survivors Insurance Trust Fund. Rates of tax were increased by the percentages appropriated to the Federal Disability Insurance Trust Fund, the increase being applicable to wages paid and taxable years beginning after December 31, 1956.

13/ Excludes the Government's contribution for creditable military service (45 U.S.C. 228c-1 (n)). Beginning 1952, amounts are appropriated to the Railroad Retirement Account equal to the amount of taxes under the Railroad Retirement Tax Act deposited in the Treasury, less refunds, during each fiscal year (65 Stat. 222 and 66 Stat. 371), and transfers are made currently. Previously, annual appropriations were based, in effect, on estimated tax collections, with any necessary adjustments made in succeeding appropriations.

14/ The Highway Revenue Act of 1956, approved June 29, 1956 (23 U.S.C. 173) established a Highway Trust Fund from which are to be made, as provided by appropriation acts, Federal-aid highway expenditures after June 30, 1956, and before July 1, 1972. The act appropriated to this fund amounts equivalent to specified percentages of receipts from certain excise taxes on motor fuels, motor vehicles, tires and tubes, and use of certain vehicles, and provided that the amounts appropriated should be transferred currently to the trust fund on the basis of estimates by the Secretary of the Treasury with proper adjustments to be made in subsequent transfers. The use tax was imposed by the act and rates were increased for the other taxes. Previous to the fiscal year 1957 corresponding excise tax receipts were included in net budget receipts, and Federal-aid highway expenditures were included in budget expenditures.

15/ Interest on refunds is included in expenditures in Table 2. Reimbursement by Federal Old-Age and Survivors Insurance Trust Fund for refunds of taxes for the fiscal year (see footnote 11) is netted against internal revenue refunds for the month in which the reimbursement is made.

* Less than \$500,000.

Source: Actual figures through 1952 are from the daily Treasury statement and thereafter from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page 11); estimates are from the midyear review of the 1958 Budget, released October 1, 1957, including effects of proposed legislation.

^{1/} Prior to 1951 net investment in public debt securities by certain trust accounts and by deposit fund accounts is included in trust and deposit fund account expenditures and excluded from net investment by Government agencies (See Tables 3 and 4).

^{2/} Under a revised classification in the monthly statement, effective July 1, 1955, the security transactions of Government-sponsored

enterprises are included in deposit fund account expenditures (net) and excluded from net investment by Government agencies in public debt securities (see Table 4) and from net redemption or sale of obligations of Government agencies in the market (see Table 5). Figures previously published for the fiscal year 1955 have been revised to the new classification basis.

^{3/} Includes guaranteed securities beginning 1955 (see Table 4).

1/ Beginning 1955 excludes net transactions of Government-sponsored enterprises (see Table 3).

2/ Total includes sales of \$10 million by the Tennessee Valley Authority, under proposed legislation.

3/ Beginning January 1957, Federal intermediate credit banks are classified as trust enterprise funds instead of public enterprise funds as before.

(see "Budget Receipts and Expenditures," Table 2, footnote 6). Adjustments for this change in classification are incorporated in the January figures.

4/ Management and liquidation program.

5/ Secondary market operations.

6/ Net redemption, or sale (-), by Government-sponsored enterprises beginning 1955 is included in deposit fund expenditures in Table 3.

CASH INCOME AND OUTGO

The cash income and outgo data appearing in the "Treasury Bulletin," beginning with the February 1956 issue, are on a basis consistent with receipts from and payments to the public as derived in the 1957 and subsequent Budgets of the United States, Special Analysis A. Reconciliation to cash deposits and withdrawals in the account of the Treasurer of the United States is shown on the same basis as in the Budget documents. There is also shown the amount of net cash borrowing from, or repayment of borrowing to, the public. By these arrangements, data in accordance with the Budget classifications are made available month by month. Figures for back years have been revised where necessary in order to make them as nearly comparable with the Budget classifications as available data will permit. For this reason certain of the figures differ somewhat from those published in earlier Budget documents as well as in the Bulletin.

The Budget series of cash transactions is designed to provide information on the flow of money between the public and the Federal Government as a whole, and therefore includes transactions not cleared through the Treasurer's account. Receipts and payments include transactions both in budget accounts and in trust and deposit fund accounts. Operations of Government-sponsored enterprises are included in payments on a net basis as reflected in Treasury reports. Major intragovernmental transactions which are reported as both expenditures and receipts are eliminated from both. Noncash items which represent accrued obligations of the Government to make payments in the future are also eliminated from expenditures but are added later when actual payments are made. Receipts from the exercise of monetary authority (mostly seigniorage on silver) are excluded as not

representing cash received from the public. Federal cash borrowing from the public includes net borrowing by the Treasury through public debt transactions and also net borrowing by Government agencies and Government-sponsored enterprises through sales of their own securities. It excludes changes in the public debt which do not represent direct cash borrowing from the public. The net effect of all these transactions with the public is reflected in changes in the balance in the Treasurer's account and in cash held outside the Treasury.

Cash transactions through the Treasurer's account are similar in general concept to those included in the Budget series, but are limited in coverage to transactions which affect the balance in that account. On the other hand, they include receipts from the exercise of monetary authority, which are excluded from receipts from the public in the Budget series.

Beginning with figures for the fiscal year 1953, the series of transactions with the public is based on the "Monthly Statement of Receipts and Expenditures of the United States Government," which is compiled from reports by all collecting and disbursing officers and includes those transactions not cleared through the Treasurer's account. Cash deposits and withdrawals in the Treasurer's account, beginning with the figures for the same year, are reported in daily Treasury statements. For those years prior to 1953 both cash transactions series are based on a single source, namely, the earlier basis of daily Treasury statements which reported separate classifications for budget results, trust account transactions, etc.

CASH INCOME AND OUTGO

Footnotes to Table 3

- 1/ For further detail, see "Budget Receipts and Expenditures," Table 1.
- 2/ For further detail, see "Trust Account and Other Transactions," Table 2.
- 3/ Treated as noncash refund deductions from receipts when issued and as cash refund deductions when redeemed.
- 4/ Consists of seigniorage on silver and increment resulting from reduction in the weight of the gold dollar; excluded from receipts from the public but included in cash deposits in the Treasurer's account.
- * Less than \$500,000. P Preliminary.
- r Revised.

Footnotes to Table 4

- 1/ For further detail, see "Budget Receipts and Expenditures," Table 2.
- 2/ For further detail, see "Trust Account and Other Transactions," Tables 3, 4, and 5. Includes net change in balances in Government-sponsored enterprise deposit fund accounts with the Treasurer of the United States.
- 3/ Net operating expenditures, or receipts (-), as measured by funds provided by or applied to net security transactions reflected in Treasury reports (see Table 7). To a large extent, these Government-sponsored enterprises secure funds for their operations by direct borrowing from the public or by cashing Federal securities which they hold, and they apply the net income received from operations to repayment of borrowing from the public or to investment in Federal securities. On that basis, net expenditures for operations are shown in this table in terms of the combined net of disinvestment in Federal securities and sale of agency obligations in the market, and net receipts from operations are shown in terms of the combined net of investment in Federal securities and redemption of agency obligations in the market.
- 4/ Not reported prior to 1954.
- 5/ Consists of only those market transactions not cleared through the Treasurer's account.
- 6/ See Table 7, footnote 1.
- 7/ Does not include revolving fund receipts representing acquired securities amounting to \$1,643,070 (par value).
- r Revised. p Preliminary.

Footnotes to Table 5

- 1/ Federal intermediate credit bank franchise tax through December 1956 and, beginning 1953, also reimbursement by Panama Canal Company for expenses and services.
- 2/ Includes reimbursement by Federal Old-Age and Survivors Insurance Trust Fund for administrative expenses and, beginning fiscal year 1953, also for refunds of taxes (treated as an offset to refunds rather than being credited to receipts); reimbursement by Federal Disability Insurance Trust Fund and Highway Trust Fund for administrative expenses and by Highway Trust Fund for refunds of taxes; reimbursement by the District of Columbia; and Federal intermediate credit bank franchise tax after December 1956.
- 3/ Consists of payment of earnings and repayment of capital stock to the Treasury through 1952, and beginning 1955, payment of franchise tax by banks for cooperatives.
- 4/ Includes relatively small amounts of deductions from salaries paid by trust funds and Government-sponsored enterprises.
- 5/ Consists of payments to employees' retirement funds representing United States and Government corporation shares of contributions; payments to the Railroad Retirement Account (for creditable military service), the Unemployment Trust Fund, veterans' life insurance funds, trust fund for technical services and other assistance under the agricultural conservation program, and District of Columbia; and awards of Indian Claims Commission.
- 6/ Includes District of Columbia share of contributions to the Civil Service retirement fund; payments to Federal Old-Age and Survivors Insurance Trust Fund by Railroad Retirement Board, and by Federal Disability Insurance Trust Fund estimated for 1958; transfers from Civil Service retirement fund to Foreign Service retirement fund except 1957 and 1958 actual expenditures; and transfers from Railroad Unemployment Insurance Administration Fund to Unemployment Trust Fund through 1955.
- * Less than \$500,000. p Preliminary.
- r Revised.

Footnotes to Table 6

- 1/ Accrued discount on savings bonds and bills less interest paid on savings bonds and bills redeemed.
- 2/ Public debt interest due and accrued beginning June 30, 1955, effective date of the change in accounting and reporting from a due and payable basis to an accrual basis; for 1954, consists only of public debt interest checks and coupons outstanding; net increase, or decrease (-). Not reported as a separate clearing account prior to 1954; interest reported when paid by Treasurer prior to November 1949.
- 3/ Treated as noncash expenditures at the time of issuance of the securities and as cash expenditures at the time of their redemption; net issuance, or redemption (-).
- 4/ Issued in 1936 in exchange for adjusted service certificates held by veterans of World War I. The bonds matured in 1945.
- 5/ Issued in 1947 in payment for accumulated leave. The last of these bonds matured in 1951.
- 6/ Part of the United States subscription to the capital of the International Bank for Reconstruction and Development and to the International Monetary Fund was paid in the form of noninterest-bearing, nonnegotiable notes payable on demand (see 1947 Annual Report of the Secretary of the Treasury, pages 48, 350, and 385). The last of the notes issued to the Bank was redeemed in 1950.
- 7/ By wholly owned Government enterprises; beginning 1951, such net investments are reported separately and are not included in expenditures (see "Trust Account and Other Transactions," Table 4).
- 8/ Checks outstanding less deposits in transit, and changes in other accounts; net increase, or decrease (-). For public debt interest included prior to 1954, see footnote 2.
- * Less than \$500,000. p Preliminary.

Footnotes to Table 7

- 1/ In this table, beginning 1954, in accordance with treatment in Budget documents, net investment in United States securities by Government-sponsored enterprises includes a small amount by other enterprises regarded as representing net transactions with the public. In Table 4 under "Trust Account and Other Transactions," these amounts are included in trust and deposit fund account investment.
- 2/ Does not include investments representing acquired securities amounting to \$1,643,070 (par value) and donation of securities amounting to \$45,800 (par value).
- 3/ Accrued discount on savings bonds and bills, which is included in the principal of the public debt, less interest paid on savings bonds and bills redeemed.
- 4/ Treated as noncash transactions at the time of issuance and as cash transactions at the time of redemption; net issuance, or redemption (-).
- 5/ Excluded from borrowing because the transactions are treated as expenditures in Table 6.
- 6/ Excluded from borrowing because the transactions are treated as deductions from receipts in Table 3.
- 7/ Market transactions in public debt securities and agency obligations.
- * Less than \$500,000. p Preliminary.

Note: The computed annual interest charge represents the amount of interest that would be paid if each interest-bearing issue outstanding at the end of each month or year should remain outstanding for a year at the applicable annual rate of interest. The charge is computed for each issue by applying the appropriate annual interest rate to the amount outstanding on that date. The aggregate charge for all interest-bearing issues constitutes the total computed annual interest charge. The average annual interest rate is computed

by dividing the computed annual interest charge for the total, or for any group of issues, by the corresponding principal amount.

1/ Excludes guaranteed securities held by the Treasury.

2/ Total includes "Other bonds"; see Table 2.

3/ Included in debt outstanding at face amount, but discount value is used in computing annual interest charge and annual interest rate.

4/ The annual interest charge and annual interest rate on United States savings bonds are computed on the basis of the rate to maturity applied against the amount outstanding.

1/ The securities shown in this table were issued to the Treasury to finance Government corporations and other agencies with the Treasury itself raising the necessary funds through public debt operations. To avoid duplication, these securities are not included in the guaranteed debt outstanding as shown in preceding tables.

2/ Excludes securities issued under Defense Production Act.

3/ From September 1950 through July 1954, consists of notes of the Housing and Home Finance Administrator, issued to borrow for the Association. Beginning August 1954, consists of liabilities taken over by the Association from the Administrator in accordance with the act approved August 2, 1954, and notes issued by the Association under authority of that act (12 U.S.C. 1720, 1723 (d)); and beginning September 1954, also securities transferred from the Reconstruction Finance Corporation (see footnote 6). Prior to September 1950, the Association was financed from funds of the Reconstruction Finance Corporation, which owned the capital stock.

4/ Consists of notes issued to borrow for the urban renewal program (formerly slum clearance program); the prefabricated housing loans program from September 1950, when it was transferred from the Reconstruction Finance Corporation, through November 1954; college housing loans beginning July 1951; and public facility loans beginning January 1956. Notes issued to borrow for the Federal National Mortgage Association from September 1950 through July 1954 are shown under the Association.

5/ Established in the Department of State by Executive Order No. 10610, dated May 9, 1955, and effective at the close of business June 30, 1955, as successor to the Foreign Operations Administration. Data for earlier periods are for predecessor agencies. Beginning September 1956, figures exclude notes previously issued by the Administrator in connection with informational media guarantees. The obligation of these notes was assumed by the Director of the United

States Information Agency, pursuant to the act approved July 18, 1956 (22 U. S. C. 1442), and the notes together with others issued for the same purpose are included in "Other."

6/ Excludes securities issued under Defense Production Act of 1950; includes securities issued under Federal Civil Defense Act of 1950 through November 1953, after which they were taken over by the Secretary of the Treasury, pursuant to the act approved July 30, 1953 (15 U.S.C. 609), and are included under "Other." See also footnote 3. During September 1954, under Reorganization Plan No. 2 of 1954, the remaining securities issued by the Corporation to the Treasury were transferred as follows: \$42 million to Export-Import Bank of Washington, \$92 million to Federal National Mortgage Association, and \$14 million to Small Business Administration.

7/ For Farmer's Home Administration program.

8/ Consists of notes of the Administrator, General Services Administration beginning January 1951 (Administrator, Defense Materials Procurement Agency, January 1952 through July 1953) for defense materials procurement; Reconstruction Finance Corporation, January 1951 through September 1953 (after which its activities under this act were transferred to the Secretary of the Treasury), and the Secretary of the Treasury beginning October 1953; the Secretary of the Interior (Defense Minerals Exploration Administration) beginning June 1951; the Export-Import Bank of Washington beginning April 1952; and the Secretary of Agriculture beginning June 1954.

9/ Consists of notes issued by Secretary of the Army (Natural Fibers Revolving Fund), 1950-51; Secretary of the Treasury beginning December 1953 (see footnote 6); Small Business Administration beginning September 1954; and for informational media guarantees by the United States Information Agency beginning September 1956 (see footnote 5); also revenue bonds issued by Saint Lawrence Seaway Development Corporation, beginning November 1954.

^{1/} On account of withheld taxes and sales of Government securities.^{2/} Beginning December 1954, Post Office Department and Postmasters' disbursing accounts are no longer treated as liability accounts of the

Treasurer of the U. S., but are classified and treated in the same manner as other disbursing accounts, in accordance with the change in method of reporting Post Office Department transactions.

STATUTORY DEBT LIMITATION

The Second Liberty Bond Act, as amended (31 U.S.C. 757 b), provides that the face amount of obligations issued under authority of that act, and the face amount of obligations guaranteed as to principal and interest by the United States (except guaranteed obligations held by the Secretary of the Treasury), shall not exceed in the aggregate \$275 billion outstanding at any one time, except that this amount was increased by \$6 billion be-

ginning on August 28, 1954, and ending on June 30, 1956, by acts approved August 28, 1954, and June 30, 1955; and by \$3 billion beginning on July 1, 1956, and ending on June 30, 1957, by an act approved July 9, 1956. Obligations issued on a discount basis, and subject to redemption prior to maturity at the option of the owner, are included in the statutory debt limitation at current redemption values.

1/ It should be noted that callable issues appear twice in this column, once in the year of first call and again in the year of final maturity. Callable issues with respect to which a definite notice of call has been made, however, are listed as fixed maturities. For date of issue of each security, see "Market Quotations"; for tax

status, see "Treasury Survey of Ownership."

2/ Not called for redemption on September 15, 1957. Will mature on March 15, 1958.

3/ Not called for redemption on September 15, 1957. Callable on four months' notice on March 15, 1958, succeeding interest payment date.

4/ Redeemable at option of holder on August 1, 1959, on 3 month's notice.

1/ Consists of all public cash subscriptions and subscriptions by United States Government investment accounts.

2/ For maturing securities exchanged for the new issues, see Table 5.

3/ The 2-1/2% bonds dated February 15, 1953, were reopened with all the bonds of the series identical in all respects, as an exchange offering for the 2-1/8% notes which matured December 1, 1953.

4/ Total exchanges in the two offerings amounted to \$2,368 million.

5/ Exchange offering available to owners of nonmarketable 2-3/4% Treasury Bonds, Investment Series B-1975-80, dated April 1, 1951. For further information on the original offering see "Treasury Bulletin" for April 1951, page A-1. Amounts shown are as of September 30, 1957.

6/ The bond offering was made available for exchange of Series F and G savings bonds maturing from May 1 through December 31, 1953.

7/ Total allotments on cash subscriptions were limited to approximately \$1,000 million. Nonbank subscriptions in amounts up to and including \$5,000 were allotted in full. All other subscriptions were allotted 20 percent. Commercial banks' subscriptions were restricted to an amount not exceeding 5 percent of their time deposits as of December 31, 1952. The Treasury also reserved the right to allot limited amounts of these bonds to Government investment accounts, which subscribed to a total amount of \$118 million. Payment for the bonds allotted could be made with accrued interest at any time not later than July 31, 1953.

8/ Also designated tax anticipation certificates, acceptable at par plus accrued interest to maturity in payment of income and profits taxes due March 15, 1954.

9/ Subscriptions for amounts up to and including \$100,000 were allotted in full. Subscriptions for amounts over \$100,000 were allotted 67 percent but in no case less than \$100,000.

10/ Subscriptions for amounts up to and including \$10,000 were allotted in full. Subscriptions for amounts over \$10,000 were allotted in full. Subscriptions from mutual savings banks, insurance companies, pension and retirement funds, and State and local governments were allotted 24 percent. All others, including commercial banks, were allotted 16 percent but not less than \$10,000 on any one subscription.

11/ Subscriptions for amounts up to and including \$10,000 were allotted in full. All other subscriptions were allotted 22 percent but in no case less than \$10,000.

12/ Also designated tax anticipation certificates, acceptable at par plus accrued interest to maturity in payment of income and profits taxes due March 15, 1955.

13/ Subscriptions for amounts up to and including \$50,000 were allotted in full. Subscriptions for amounts over \$50,000 were allotted 40 percent but in no case less than \$50,000.

14/ The 1-1/8% certificates dated August 15, 1954, were reopened with all the certificates of the series identical in all respects, as an exchange offering for the 1-7/8% notes which matured December 15, 1954, the 2% bonds which matured December 15, 1954, and the 2% bonds which were called for redemption on December 15, 1954. Total exchanges in the two offerings amounted to \$8,477 million.

15/ Subscriptions for amounts up to and including \$50,000 were allotted in full. Subscriptions for amounts over \$50,000 were allotted 50 percent but in no case less than \$50,000.

16/ The 3% bonds dated February 15, 1955, were reopened with all the bonds of the series identical in all respects, as an additional cash offering on July 11, 1955. The total amount issued in the two operations was \$2,745 million.

17/ Also designated tax anticipation certificates, acceptable at par plus accrued interest to maturity in payment of income and profits taxes due June 15, 1955.

18/ The 2% notes dated May 17, 1955, were reopened with all the notes of the series identical in all respects, as an exchange offering for the 1-1/8% certificates maturing August 15, 1955. Total exchanges in the two offerings amounted to \$10,015 million.

19/ Cash subscriptions for \$100,000 or less were allotted in full. Subscriptions for more than \$100,000 were allotted 62 percent but in no case less than \$100,000.

20/ Also designated tax anticipation certificates, acceptable at par plus accrued interest to maturity in payment of income and profits taxes due March 15, 1956.

21/ Subscriptions for \$100,000 or less were allotted in full. Subscriptions for more than \$100,000 were allotted 19 percent but in no case less than \$100,000.

22/ Subscriptions from savings-type investors totaled \$749 million and were allotted 65 percent. Subscriptions from all other investors totaled \$970 million and were allotted 30 percent. Subscriptions for \$25,000 or less were allotted in full. Subscriptions for more than \$25,000 were allotted not less than \$25,000. In addition to the amount allotted to the public, \$25 million of the bonds were allotted to Government investment accounts. Savings-type investors were given the privilege of deferring payment for the bonds, provided that not less than 25 percent of the bonds allotted were paid for by July 20, 1955, not less than 60 percent by September 1, 1955, and full payment by October 3, 1955.

23/ Also designated tax anticipation certificates acceptable at par plus accrued interest to maturity in payment of income and profits taxes due June 15, 1956.

UNITED STATES SAVINGS BONDS

United States savings bonds were first offered in March 1935 and began to mature in March 1945. Series A-D were sold between March 1935 and the end of April 1941, and Series E, F, and G were first offered in May 1941. When Series E began to mature on May 1, 1951, owners of the matured bonds were offered three options: To redeem the bonds in cash in accordance with the original terms; to retain them with an extended maturity of 10 years at specified rates of interest accrual; or to exchange them for Series G bonds. A number of changes became effective May 1, 1952. The principal ones were: The rate of interest accrual on Series E was increased, especially for the near term, with corresponding changes in extended Series E; and Series F and G were replaced by two new issues, Series J and K, also at higher interest rates. A new current-income bond, Series H, similar in interest return to Series E, was offered beginning June 1. Details

of these changes appear in the May 1952 Bulletin, page A-1. Series F and G began to mature on May 1, 1953. For the exchange offering made to holders of these bonds maturing through December 31, 1953, see the May 1953 issue, page A-1. Sales of Series J and K were discontinued after April 30, 1957. An increase in interest rates on Series E and H was announced on April 20, 1957, retroactive to February 1. Details of the changes appear in the May 1957 Bulletin, page A-1. In the tables which follow, Series A-F and J sales are included at issue price and total redemptions and amounts outstanding at current redemption values. Series G, H, and K are included at face value throughout. Matured bonds which have been redeemed are included in redemptions. Matured F and G bonds outstanding are included in the interest-bearing debt until all bonds of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

- 1/ Details by series on a cumulative basis and by periods for Series A-D combined will be found in the February 1952 and previous issues of the "Treasury Bulletin."
- 2/ Includes exchanges of matured Series E bonds for Series G bonds beginning May 1951 and for Series K bonds beginning May 1952.
- 3/ Sales of Series J and K were discontinued at the close of business on April 30, 1957.
- 4/ Includes both matured and unmaturred bonds; see Table 4.
- 5/ Includes total value of redemptions not yet classified between matured and unmaturred bonds.
- 6/ A change in procedure, beginning in June 1954, for processing redeemed savings bonds has resulted in a high level of redemptions not yet classified between matured and unmaturred bonds. This increase temporarily obscures the relationship between the redemption columns showing sales price and accrued discount in Tables 2 through 4 and also the relationship between the matured and unmaturred sections of Table 4.

(See also footnote 5). The subsequent distribution of this high level of unclassified redemptions may be large enough in any month to show redemptions of matured bonds for a series in Table 4 which are greater than the total redemptions of that series as shown in Table 3, and to show a negative in the unmaturred section of Table 4. Reductions were made in issues and redemptions of Series E, H, F, G, J, and K in July 1954 to compensate for the erroneous inclusion of reissue transactions in June 1954 as reported in the daily Treasury statement. The amounts involved were as follows: \$18 million for issues of Series E and H and \$17 million for issues of Series F, G, J, and K; and \$35 million for unclassified retirements.

- 8/ Sales began June 1, 1952.
- 9/ Comparable data are not available prior to January 1950.
- 10/ Includes exchanges of Series 1941 F and G savings bonds for Treasury 3-1/4% bonds of 1978-83.
- * Less than \$500,000.

Source: Daily Treasury statement for total amounts outstanding; reports from agencies and trust funds for securities held by U. S. Government investment accounts; and reports from Federal Reserve System for securities held by Federal Reserve Banks.

1/ Includes certain obligations not subject to statutory limitation. For amounts subject to limitation, see page 1.

2/ Includes accounts under the control of certain U. S. Government agencies whose investments are handled outside the Treasury; excludes Federal land banks after June 26, 1947, when the proprietary interest of the United States in these banks ended.

3/ The total amount of interest-bearing securities held by private investors is calculated by deducting from the total amount outstanding the amount held by U. S. Government investment accounts and Federal Reserve Banks.

4/ Excludes guaranteed securities held by the Treasury.

5/ All public marketable issues.

6/ Consists of Commodity Credit Corporation demand obligations stated as of the close of the previous month.

* Less than \$500,000.

1/ Consists of purchases or sales made by the Treasury of securities issued or guaranteed by the U. S. Government for (1) trust funds which by law are under the control of the Secretary of the Treasury or of the Treasurer of the United States, and (2) accounts under the control of certain U. S. Government agencies whose investments are handled through the facilities of the Treasury Department. It will be noted that these

transactions differ from those reflected in Table 1 because they exclude those Government investment accounts for which investments are not handled by the Treasury. Table 2 also includes purchases under Section 19 of the Second Liberty Bond Act, as amended (31 U.S.C. 754a), and excludes the Exchange Stabilization Fund.

TREASURY SURVEY OF OWNERSHIP, JULY 31, 1957

The Treasury Survey of Ownership covers securities issued by the United States Government and by Federal agencies. The banks and insurance companies included in the Survey account for approximately 95 percent of such securities held by all banks and insurance companies in the United States. Data were first published for March 31, 1941, in the May 1941 "Treasury Bulletin."

Distribution of ownership by types of banks and insurance companies is published each month. Holdings by commercial banks distributed according to Federal Reserve member-bank classes and nonmember banks are published for June 30 and December 31. Holdings by corporate pension trust funds are published quarterly and first appeared in the March 1954 Bulletin for quarters beginning December 31, 1949.

1/ Includes certain obligations not subject to statutory debt limitation.
For amount subject to limitation, see page 1.

2/ Excludes trust departments.

3/ Includes trust companies and, beginning with figures for July 1949,
also includes stock savings banks. Previously, those banks were
reported as a separate classification.

4/ Includes those banks and insurance companies not reporting in the
Treasury Survey.

5/ United States savings bonds, Series E, F, and J, are shown at current
redemption value. They were reported at maturity value by the banks
and insurance companies included in the Treasury Survey but have been
adjusted to current redemption value for use in this statement.

6/ Includes \$77 million depository bonds held by commercial banks not
included in the Treasury Survey.

7/ Holdings by reporting investors not available.

8/ Excludes guaranteed securities held by the Treasury.

9/ Federal securities fall into three broad classes with respect to the

imposition of Federal income taxes on income derived from them.

"Wholly" tax-exempt securities are those with the income exempt
from both normal tax and surtax. "Partially" tax-exempt securities
are those with the income exempt from the normal tax except that in
the case of partially tax-exempt Treasury bonds, interest derived
from \$5,000 of principal amount owned by any one holder is also
exempt from the surtax. "Taxable" securities are those with the
income subject to normal tax and surtax.

10/ Includes Federal Housing Administration debentures; see footnote 11.

11/ A small indeterminate amount of these debentures is partially tax-
exempt.

12/ Includes only publicly offered issues.

13/ The proprietary interest of the United States in these banks ended
in July 1951.

14/ The proprietary interest of the United States in these banks ended
in June 1947.

* Less than \$500,000.

MARKET QUOTATIONS ON TREASURY SECURITIES, AUGUST 30, 1957

Current market quotations shown here are over-the-counter closing bid quotations in the New York market for the last trading day of the month, as reported to the Treasury by the Federal Reserve Bank of New York. The securities listed include all regularly quoted

public marketable securities issued by the United States Government except Panama Canal bonds. Outstanding issues which are guaranteed by the United States Government are excluded because they are not regularly quoted in the market.

^{4/} Beginning April 1953, prices are closing bid quotations in the over-the-counter market. Prices for prior dates are the mean of closing bid and ask quotations, except that before October 1, 1939, they are closing prices on the New York Stock Exchange. "When issued" prices

included in history beginning October 1, 1939. Dates of highs and lows in the case of recurrence are the latest dates.

^{5/} Included in the average of taxable Treasury bonds due or callable from 10 to 20 years beginning April 1, 1953, as shown under "Average Yields of Long-Term Bonds."

^{6/} Included in the average of taxable Treasury bonds due or callable 20 years and after, as shown under "Average Yields of Long-Term Bonds."

MARKET QUOTATIONS ON TREASURY SECURITIES, AUGUST 30, 1957

YIELDS OF TAXABLE TREASURY SECURITIES, AUG. 30, 1957 Based on Closing Bid Quotations

Explanation: The points represent yields to call when prices are above par, and to maturity date when prices are at par or below. The smooth curves for the various classes of points are fitted by eye. Issues for which an exchange offer has been made or which are due or callable in less than 3 months are excluded.

Source: Beginning April 1953, Treasury bond yields are reported to the Treasury by the Federal Reserve Bank of New York, based on closing bid quotations in the over-the-counter market. Yields for prior periods were computed on the basis of mean of closing bid and ask quotations. Moody's Investor Service is the source for the average of Aaa corporate bonds. For definition of taxable bonds, see footnotes to the "Treasury Survey of Ownership" in this issue of the "Treasury Bulletin."

1/ Prior to April 1953, the single series on long-term taxable Treasury bonds included the following: April 1952 through March 1953, bonds neither due nor callable for 12 years; October 1941 through March 1952, bonds neither due nor callable for 15 years.

2/ The long-term taxable Treasury bond average was revised beginning April 1, 1952; see footnote 1. The old average for April 1952 was 2.62 percent.

3/ Annual average is based on the single long-term series January through March (see footnote 1) and the 10-20 year series thereafter.

4/ Average covers 8-1/2 months beginning April 15, the inception date of this series.

5/ Includes the 3% bond of February 15, 1955, first quoted on January 28, 1955.

Sources: Internal Revenue Service reports for detail of collections by type of tax; daily Treasury statement for budget receipts from internal revenue through the fiscal year 1952, and the monthly statement of receipts and expenditures of the Government for receipts thereafter (for explanation of reporting bases in these publications, see page II). Certain detail by type of tax is available only from returns filed with the Internal Revenue Service. The figures shown include collections for credit to special accounts for certain island possessions, as reported by the Internal Revenue Service. Beginning with the fiscal year 1955, they include the amounts of tax collected in Puerto Rico upon articles of merchandise of Puerto Rican manufacture coming into the United States. Figures for 1954 have been revised to the same basis. Figures for previous years include only amounts collected at ports of entry into the United States.

1/ Differences between the amounts of internal revenue reported by the Internal Revenue Service as collections for given periods and the amounts reported in Treasury statements as budget receipts for the same periods arose because of differences in the time when payments were included in the respective reports. Tax payments are included in budget receipts when they are reported as credits to the account of the Treasurer of the United States. Prior to July 1954, they were included in Internal Revenue Service collection reports after the returns to which they applied had been received in internal revenue offices. Under procedure begun in 1950 with withheld income tax and old-age insurance taxes and later extended to railroad retirement taxes and many excises, these taxes are paid currently into Treasury depositaries and the depositary receipts, as evidence of each payment, are attached to quarterly returns to the Internal Revenue Service. Under this procedure, the payments are included in budget receipts in the

month in which the depositary receipts are issued to the taxpayers. Revised accounting procedures effective July 1, 1954, extended the same practice to Internal Revenue Service collection reports.

- 2/ Monthly and fiscal year 1957 figures include social security tax on self-employment income, which is levied and collected as part of the individual income tax beginning with the taxable year 1951. Prior fiscal year figures exclude this tax, on the basis of estimates beginning 1952 (see footnote 3), and it is included under "Old-age and disability insurance."
- 3/ In Internal Revenue Service reports beginning January 1951, current collections have not been separated as to type of tax but the breakdown shown for fiscal years is based on estimates made in accordance with provisions of Sec. 201 of the Social Security Act, as amended (42 U.S.C. 401), for transfer of tax receipts to the trust funds (see "Budget Receipts and Expenditures," Table 1).
- 4/ Beginning with the fiscal year 1955, collections shown include undistributed depositary receipts and unapplied collections. For excise taxes these receipts are included in the total only. Total collections include "Taxes not otherwise classified," (see Table 2).
- 5/ Budget receipts for 1956 were reduced by \$3,566 thousand representing tax collections transferred to the Government of Guam pursuant to the act approved August 1, 1950 (64 Stat. 392), but this amount was included in collections reported by the Internal Revenue Service. Beginning with 1957, such collections are excluded also in Internal Revenue Service reports.
- 6/ Repealed for years ending after June 30, 1945. Beginning 1951, included under "Miscellaneous excise taxes."
- 7/ Detail is reported by quarters beginning with the fiscal year 1956. Preliminary.

Source: Internal Revenue Service reports for detail of collections by type of tax; monthly statement of receipts and expenditures of the Government for budget receipts from internal revenue. Certain detail by type of tax is available only on the basis of returns filed with the Internal Revenue Service. The figures shown include collections for credit to special accounts for certain island possessions, as reported by the Internal Revenue Service.

1/ Includes social security tax on self-employment income, which is levied and collected as part of the individual income tax. For estimated fiscal year breakdown, see Table 1.

2/ For estimated fiscal year breakdown between income tax withheld and social security taxes, see Table 1.

3/ The amount of depositary receipts issued during the period less the amount received with the returns and distributed by class of tax. In the case of excise taxes, it is not possible to classify the

depositary receipts by type of tax until the returns are received. Accordingly, the amount of such undistributed depositary receipts is included only in the total of excise taxes.

4/ Includes advance payments of estate and gift taxes not further classified in the amounts of \$16,116,000 and \$19,381,000 for 1955 and 1956, respectively.

5/ Includes unidentified and excess collections and profit from sale of acquired property. These collections were included with "Other excise taxes" prior to the August 1956 issue of the Bulletin.

CAPITAL MOVEMENTS

Data relating to capital movements between the United States and foreign countries have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, Executive Order 10033 of February 8, 1949, and Treasury regulations promulgated thereunder. Information covering the principal types of data and the principal countries is reported monthly, and is published regularly in the "Treasury Bulletin." Supplementary information is published at less frequent intervals. Reports by banks, bankers, securities brokers and dealers, and industrial and commercial concerns in the United States are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury. Beginning April 1954, data reported by banks in the Territories and possessions of the United States are included in the published data.

The term "foreigner" as used in these reports covers all institutions and individuals domiciled outside the United States and its Territories and possessions, the official institutions of foreign countries, wherever such institutions may be located, and international organizations. "Short-term" refers to original maturities of one year or less, and "long-term" refers to all other maturities. A detailed discussion of the reporting coverage, statistical presentation, and definitions appeared in the June 1954 issue of the "Treasury Bulletin."

pages 45-47. As a result of changes in presentation introduced in that issue, not all breakdowns previously published will be exactly comparable to those now presented.

The first three sections which follow are published monthly. They provide summaries, by periods and by countries, of data on short-term banking liabilities to and claims on foreigners and transactions in long-term securities by foreigners, and present detailed breakdowns of the latest available preliminary data.

Section IV provides supplementary data in five tables which appear at less frequent intervals. Table 1, short-term foreign liabilities and claims reported by non-financial concerns, is published quarterly in the January, April, July, and October issues of the Bulletin. Table 2, long-term foreign liabilities and claims reported by banks and bankers, and Table 3, estimated gold reserves and dollar holdings of foreign countries and international institutions, are published quarterly in the March, June, September, and December issues. Table 4, foreign credit and debit balances in brokerage accounts, appears semi-annually in the March and September issues. Table 5, short-term liabilities to foreigners in countries and areas not regularly reported separately by banking institutions, is presented annually in the April issue.
