Treasury Financing Operations

Refunding of Five Securities

On January 27, 1954, the Secretary of the Treasury announced the offering on February 1 of issues of 7-year, 9-month 2-1/2 percent bonds and one-year 1-5/8 percent certificates of indebtedness in exchange for certificates of indebtedness maturing February 15 and Treasury notes maturing March 15. In addition, the new bonds were offered to holders of three bond issues maturing or to be called for redemption on June 15, 1954. The five issues were outstanding in the amount of nearly \$20.8 billion. Subscription books were closed at the close of business on February 3.

Subscriptions for the new offerings totaled \$18.2 billion, of which \$11.2 billion were for the 2-1/2 percent bonds and \$7.0 billion for the 1-5/8 percent certificates. Holders of the bonds who did not subscribe to the offering will have an opportunity later to exchange their holdings for another Treasury issue, probably short-term, it was stated in the announcement on February 10 of the results of the refinancing.

The results are summarized as follows:

1/ Commercial banks and Federal Reserve Banks reporting to the Treasury on the ownership of Government securities. The ownership figures for November 30 are the latest published for commercial banks.

2/ Not eligible.

Terms of the offerings are summarized in the following paragraphs.

Holders of the maturing certificates and notes were offered the choice of the new certificates or the new bonds. Holders of the three bond issues were given an opportunity to exchange their holdings for the new bonds only, and the announcement stated that the Treasury would issue calls for redemption on June 15, 1954, of the two bond issues callable on that date. Cash subscriptions to the two new issues were not received.

The new bonds, designated 2-1/2 percent Treasury bonds of 1961, were exchanged for any of the five listed securities tendered singly or in combinations aggregating \$500 or multiples thereof. Exchanges

were made par for par in the case of the maturing certificates and at par with an adjustment of interest as of February 15, 1954, in the case of the other issues eligible for exchange. Bonds of the new issue are dated February 15, 1954, and bear interest from that date at the rate of 2-1/2 percent per annum, payable on a semiannual basis on November 15, 1954, and thereafter on May 15 and on November 15 in each year until the principal amount becomes payable at their maturity on November 15, 1961. They were issued both in bearer and registered form, in denominations of \$500, \$1,000, \$5,000, \$10,000, \$100,000, and \$1,000,000.

The new certificates, designated 1-5/8 percent Treasury certificates of indebtedness of Series A-1955, were exchanged for the 2-1/4 percent certificates of

Series A-1954 maturing February 15 or for the 1-3/8 percent notes maturing March 15. Exchanges were made par for par in the case of the maturing certificates and at par with an adjustment of interest as of February 15, 1954, in the case of the maturing notes. Certificates of the new issue are dated February 15, 1954, and bear interest from that date at the rate of 1-5/8 percent per annum, payable at their maturity on February 15, 1955. They were issued in bearer form only, in denominations of \$1,000, \$5,000, \$10,000, \$100,000, and \$1,000,000. Any premium paid on the acquisition of these certificates in the market may be amortized in accordance with Section 125 of the Internal Revenue Code.

It was stated also in the announcement of January 27 that while the amount of the public debt outstanding in relation to the statutory limit of \$275 billion precluded the sale of a longer term

bond for cash at that time, consideration was being given to such an offering at a later date.

Other Treasury Bonds Callable on June 15, 1954

In addition to the announcement concerning the calls of the two bond issues eligible for refunding, the January 27 announcement stated that the option to call the 2 percent bonds of 1951-55 and the 2 percent bonds of 1952-54 (due December 15, 1954) for redemption on June 15, 1954, would not be exercised.

Treasury 91-Day Bills Refunded

Weekly maturities of 91-day Treasury bills in January totaled \$6.0 billion. They were refunded in full in four equivalent issues of \$1.5 billion each. The average rates of discount on the new issues were 1.314 percent for January 7; 1.336 percent for January 14; 1.208 percent for January 21; and 0.998 percent for January 28.

Note: Details of Treasury market financing operations are shown elsewhere in this issue of the "Treasury Bulletin", in the tables on "Offerings" and "Dis-

position", respectively, of marketable issues of bonds, notes, and certificates of indebtedness, and in the table "Offerings of Treasury Bills".

Source: Actual figures from Daily Treasury Statement; estimates based on 1955 Budget document, released January 21, 1954. More detailed information with respect to the figures on this page is given in succeeding tables.

- 1/ Gross receipts less appropriations to the Federal Old-Age and Survivors Insurance Trust Fund and refunds of receipts, and also, beginning with the fiscal year 1954, appropriations of receipts to the Railroad Retirement Account.
- 2/ Transactions of the Foreign Economic Cooperation Trust Fund, established under Section 114 (f) of the Economic Cooperation Act of 1948 (62 Stat. 150), are consolidated with budget expenditures. Beginning with the fiscal year 1951, investments of wholly owned Government corporations in public debt securities are excluded from budget expenditures, and included with other such investments under "Trust Account and Other Transactions".
- 3/ Excess of receipts, or expenditures (-).

- 4/ For outstanding checks and interest coupons, and telegraphic reports from Federal Reserve Banks; excess of receipts, or expenditures (-). For current month detail, see section on "Statutory Debt Limitation" in each issue of the Bulletin. The limitations in effect during the period covered by this table and the date when each became effective are as follows: March 28, 1942, \$125 billion; April 11, 1943, \$210 billion; June 9, 1944, \$260 billion; April 3, 1945, \$300 billion; and June 26, 1946, \$275 billion. Guaranteed securities are included under the limitation beginning April 3, 1945. Savings bonds are included at current redemption value beginning June 26, 1946; prior to that time they were included at maturity value. In the debt outstanding, savings bonds are carried at current redemption value. Revised to exclude from net budget receipts and budget expenditures the appropriations to the Railroad Retirement Account (see footnote 1, and also Table 1 on page 2).

^{g/} Amounts appropriated to the Federal Old-Age and Survivors Insurance Trust Fund are equivalent to the amounts of taxes collected and deposited for old-age insurance (42 U.S. C. 401 (a)). The Social Security Act Amendments of 1950 (Public Law 734), approved August 28, 1950, changed in certain respects the basis of transferring the appropriated funds to the trust fund. Effective January 1, 1951, the old-age insurance taxee on employers and employees and the withheld income tax are paid into the Treasury in combined amounts without separation as to type of tax. The old-age insurance tax on self-employment income, imposed by Public Law 734, is levied and collected as part of the individual income tax, beginning with the taxable year 1951. Beginning January 1951, the amounts transferred currently as appropriations to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury

as required by law, and are adjusted in later transfers on the basis of wage and self-employment income records maintained in the Social Security Administration. For purposes of this table, the amounts credited to the trust fund beginning January 1951 represent estimated receipts of old-age insurance taxee for corresponding periods. Accordingly, these amounts are included under employment taxes and excluded from total income and profits taxes as shown. The breakdown needed for excluding appropriate amounts from individual income tax withheld and not withheld has been estimated only on a fiscal year basis. Figures for June 1953 include adjustments by increase in amounts transferred as appropriations as follows: \$53 million based on records of self-employment income for calendar year 1951 and \$39 million based on records of wages earned in the quarters ending September 30 and December 31, 1952. Beginning December 29, 1953, transfers of appropriations were suspended until adjustments amounting to \$25 million had been completed; the unadjusted amount as of December 31 was \$1 million.

2/ Beginning 1952, amounts appropriated to the Railroad Retirement Account are equal to the amount of taxes under the Railroad Retirement Tax Act (28 U.S.C. 1500-1538) covered into the Treasury (minus refunds) during each fiscal year (65 Stat. 222 and 66 Stat. 371), and transfers are made currently. Appropriations prior to the fiscal year 1954 were included in budget expenditures as transfers to trust accounts.

10/ Interest on refunds is included in Table 5 under "Miscellaneous".

11/ Expenditures are "net", after allowance for reimbursements to appropriations, receipts of revolving fund appropriations, and receipts credited to disbursing accounts of corporations and agencies having authority to use collections without formal covering into the Treasury. The figures include transfers to trust accounts. They exclude net investments of wholly owned Government corporations and agencies in public debt securities beginning 1951 (when these investments were grouped with those of trust funds and accounts), and public debt retirements chargeable to the sinking fund, etc., under special provisions of law. Payments to the Treasury, principally by wholly owned Government corporations, for retirement of capital stock and disposition of earnings are excluded from both receipts and expenditures. Further information on these capital transfers may be found in the 1952 Annual Report of the Secretary of the Treasury, pages 512 and 513.

12/ Beginning November 1949, interest on the public debt is reported as an expenditure when such interest becomes due and payable, as distinguished from the previous practice of showing the expenditure on the basis of interest paid by the Treasurer of the United States.

13/ Includes public works undertaken by the Veterans' Administration.

14/ Includes transactions relating to the Foreign Economic Cooperation Trust Fund (see page 1).

15/ Net transactions by the Departments of the Air Force and the Army relating to "Deposit Fund accounts" are included under "Trust Account and Other Transactions" instead of "Budget Receipts and Expenditures" beginning 1952.

16/ Includes retired pay for the military services beginning September 1949.

17/ Department of the Air Force expenditures, excluding those made on behalf of this department out of appropriations to the Department of the Army.

18/ Department of the Army expenditures, excluding the following: those included elsewhere in Table 3; international finance and aid, shown in Table 4; river and harbor works and flood control, included in Table 5 under "Public works"; and Panama Canal. Defense expenditures of the Panama Canal through 1947 are included in Table 3 under "Other"; non-defense expenditures are included in Table 5 under "Miscellaneous". Figures include certain expenditures on behalf of the Department of the Air Force (see footnote 17).

19/ Department of the Navy expenditures, excluding those included elsewhere in Table 3 and those for international finance and aid shown in Table 4.

20/ Not classified separately prior to 1947.

21/ Through 1947 includes "war" and "national defense" expenditures of various departments and agencies, including the Reconstruction Finance Corporation; expenditures of the United States Maritime Commission, the War Shipping Administration, the Selective Service System, and the National Advisory Committee for Aeronautics (1947 only). After 1947 consists of: United States Maritime Commission, and War Shipping Administration in liquidation, through 1949; Selective Service System; National Advisory Committee for Aeronautics; and certain small Defense Department items.

22/ Excludes Bank expenditures under the Mutual Security Act and the preceding Economic Cooperation Act of 1948, as amended.

23/ Under the Financial Agreement of December 6, 1945. First repayment became due on December 31, 1951, when payments were made of \$44 million principal and \$75 million interest. Payments on December 31, 1952, were \$45 million principal and \$74 million interest.

24/ Act of October 10, 1951 (64 Stat. 373).

25/ Prior to July 1951, consists of expenditures under the Economic Cooperation Act.

26/ Prior to July 1951, consists of expenditures for mutual defense assistance.

27/ Includes principally relief to countries devastated by war, various other foreign relief programs, international children's emergency funds, and loan for construction and furnishing of United Nations Headquarters.

28/ Department of Agriculture expenditures, excluding those included in Tables 3 and 4 and those for forest development roads and trails, included in Table 5 under "Public works"; includes also expenditures of the Farm Credit Administration after it ceased to be part of the Department of Agriculture and became an independent agency.

29/ Department of Commerce expenditures, excluding those included in Tables 3 and 4 and those for public roads included in Table 5 under "Public works"; includes U. S. Maritime Commission for eleven months of 1950, until it was abolished and its functions were transferred into the Department of Commerce by Reorganization Plan No. 21 of 1950.

30/ Housing and Home Finance Agency expenditures, excluding those in Table 3; beginning September 1950, includes Federal National Mortgage Association and prefabricated housing loans program, which were transferred from the Reconstruction Finance Corporation by Reorganization Plans Nos. 22 and 23 of 1950.

31/ Consists of expenditures for the following: Bureau of Reclamation; Tennessee Valley Authority; river and harbor works and flood control under the Department of the Army; public roads under the Department of Commerce, except assistance to Greece and Turkey; forest development roads and trails under the Department of Agriculture; public buildings under General Services Administration, consisting of construction only, beginning 1950; Bureau of Community Facilities in the Federal Works Agency until the Bureau was abolished; and other Federal Works Agency expenditures except those in Table 3 until the Agency was abolished.

32/ Excludes "war" and "national defense" expenditures, included in Tables 3 through 1947. See also footnote 30. Beginning October 1953, excludes activities under the Federal Civil Defense Act of 1950 and under Title III of the Defense Production Act of 1950, as amended, these functions having been transferred to the Secretary of the Treasury pursuant to the Reconstruction Finance Corporation Liquidation Act (Public Law 163), approved July 30, 1953, and Executive Order No. 10489, dated September 26, 1953.

33/ Figures relate to activities under the Social Security Act, Railroad Retirement Act, and Railroad Unemployment Insurance Act (see pages 6 and 7).

34/ Includes expenditures for executive departments and other agencies not included elsewhere and for legislative and judicial functions.

* Less than \$500,000.

r Revised to exclude from net budget receipts and budget expenditures the appropriations to the Railroad Retirement Account, beginning with the fiscal year 1954, in conformity with their treatment in the 1955 Budget document.

Source: Bureau of Accounts (figures as published in the Daily Treasury Statement through June 1953).

1/ Excess of expenditures in covered by appropriations by Congress.

2/ Taxes on employers and employees under the Federal Insurance Contributions Act and later amendments (26 U.S.C. 1400-1432); and tax on self-employment income under the Social Security Act Amendments of 1950 (26 U.S.C. 480-482). The tax on self-employment income is levied and collected as part of the individual income tax beginning with the taxable year 1951. Beginning January 1951, the receipts shown here are based on estimates (see footnote 4).

3/ Tax on employers of 8 or more under the Federal Unemployment Tax Act and later amendments (26 U.S.C. 1600-1611). Figures exclude certain credits not to exceed 90 percent of the total tax which are allowed with respect to contributions by the taxpayer to a State fund under a State unemployment compensation law.

4/ Appropriation to the Federal Old-Age and Survivors Insurance Trust Fund equivalent to the amount of taxes collected and deposited for old-age insurance (42 U.S.C. 401 (e); see also footnote 2). The Social Security Act Amendments of 1950 (Public Law 73⁴), approved August 28, 1950, changed in certain respects the basis of transferring the appropriated funds to the trust fund. Source: Actual figures based on Daily Treasury Statement; estimates based on 1955 Budget document, released January 21, 1954.

1/ The U. S. subscription to the capital of the International Monetary Fund was paid in part from the Exchange Stabilization Fund (see "Treasury Bulletin" for September 1947, page 17).

2/ Consists of seigniorage on silver and increment resulting from reduction in weight of the gold dollar. This item is part of the

cash budget receipts shown in these tables, but is excluded from the Budget document figures for "Receipts from the public".

3/ In addition to this decrease in the general fund balance, the Exchange Stabilization Fund was drawn down by \$1,800 million for subscription to the capital of the International Monetary Fund.

1/ Excludes postal savings bonds.

2/ It should be noted that callable issues appear twice in this column, once in the year of first call and again in the year of final maturity. Callable issues with respect to which a definite notice of call has been made, however, are listed as fixed maturities. For date of issue of each security, see "Market Quotations"; for tax

status, see "Treasury Survey of Ownership".

3/ Bank restricted issues may not be acquired by commercial banks (with minor exceptions) prior to specified dates; see "Debt Outstanding", Table 2, footnote 1.

4/ For January 27, 1954, announcement with respect to bonds callable for redemption on June 15, 1954, see page A-1 in this issue of the "Treasury Bulletin".

UNITED STATES SAVINGS BONDS

United States savings bonds were first offered in March 1935 and began to mature in March 1945. Series A-D were sold between March 1935 and the end of April 1941, and Series E, F, and G were first offered in May 1941. When Series E began to mature on May 1, 1951, owners of the matured bonds were offered three options: To redeem the bonds in cash in accordance with the original terms; to retain them with an extended maturity of 10 years at specified rates of interest accrual; or to exchange them for Series G bonds. A number of changes became effective May 1, 1952. The principal ones were: The rate of interest accrual on Series E was increased, especially for the near term, with corresponding changes in extended Series E; and Series F and G were replaced by two new issues, Series J and K, also at higher interest rates. A new non-current-income bond, Series H, similar in interest return to Series E, was offered beginning June 1. For

details of these changes see "Treasury Bulletin" for May 1952, page A-1. Series F and G began to mature on May 1, 1953. For the exchange offering made to holders of these bonds maturing through December 31, 1953, see the May 1953 issue, page A-1. The Treasury invited holders of Series F and G which began to mature in January 1954 to reinvest the proceeds in other series of savings bonds. In the tables which follow, Series A-F and J are included at issue price and total redemptions and amounts outstanding at current redemption values. Series G, H, and K are included at face value throughout. Matured bonds which have been redeemed are included in redemptions. Matured F and G bonds outstanding are included in the interest-bearing debt until all bonds of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

Source: Daily Treasury Statement.

1/ Details by series on a cumulative basis and by periods for Series A-D combined will be found in the February 1952 and previous issues of the "Treasury Bulletin".

2/ Includes exchanges of matured Series E bonds for Series G bonds beginning May 1951 and for Series K bonds beginning May 1952.

3/ Includes both matured and unmatured bonds; see Table 4.

4/ Because of a change in procedure in July 1953 for processing redeemed savings bonds, the amount of redemptions not yet classified at the end of July as between matured and unmatured was larger than normal. This situation was reversed in subsequent months as these redemptions were

classified. Since the unclassified redemptions are included in these tables at issue price, the relation between issue price and accrued discount is somewhat distorted also.

5/ Sales began June 1, 1952.

6/ Comparable data are not available prior to January 1950.

7/ Includes redemptions not yet classified between matured and unmatured.

8/ Includes exchanges of Series 1941 F and G savings bonds for Treasury 3-1/4% bonds of 1978-83.

Note: These figures are estimates, based on Daily Treasury Statement and reports from Federal Reserve Banks and Bureau of the Public Debt.

^{1/} Sales of Series H bonds began June 1, 1952.

^{2/} Sale was authorized on June 1944, to Armed Forces only, and discontinued after March 31, 1950.

^{3/} Sales began in October 1945.

^{4/} Sales of \$10,000 denomination Series E bonds were authorized on May 1, 1952, and \$5,000 and \$10,000 Series H bonds on June 1, 1952.

^{5/} Includes exchangees of matured Series E bonds for Series G bonds beginning May 1951 and for Series K bonds beginning May 1952.

^{6/} Because redemptions of pieces by denominations are adjusted to dollar redemptions at issue price as shown in the Daily Treasury Statement, the totals shown here are overstated in July and understated in subsequent months. See also footnote 4 to Table 3.

TREASURY SAVINGS NOTES

Treasury tax and savings notes have been issued as follows: Tax Series A from August 1, 1941, through June 22, 1943; Tax Series B from August 1, 1941, through September 12, 1942; Savings Series C (originally designated Tax Series C) from September 14, 1942, through August 31, 1948; Savings Series D from September 1, 1948, through May 14, 1951; Savings Series A from May 15, 1951, through May 14, 1953; Savings Series B from May 15, 1953, through September 25, 1953; and a new Savings Series C from October 1 through October 23, 1953, when sale of these notes was suspended.

Details concerning terms and conditions for purchase and redemption and information on investment yields of Savings Series C appear in the October 1953 issue of the

"Treasury Bulletin", page A-1. Similar information with respect to the offering of the earlier series was published currently in the "Treasury Bulletin", and appears also in the "Annual Report of the Secretary of the Treasury" for appropriate years.

In the following tables sales and redemptions of Treasury savings notes are shown at par value. Matured notes redeemed (either for cash or for tax payment) are included in the figures on redemptions. Matured notes outstanding are reflected in the interest-bearing debt until all notes of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

^{1/} Excludes trust departments.^{2/} Includes trust companies and, beginning with figures for July 1949, also includes stock savings banks. Formerly these banks were shown as a separate classification, but they are no longer so reported.^{3/} Includes those banks and insurance companies not reporting in the Treasury Survey.^{4/} United States savings bonds, Series E, F, and J, are shown at current redemption values. They were reported at maturity value by the banks and insurance companies included in the Treasury Survey but have been adjusted to current redemption values for use in this statement.^{5/} Holdings by reporting agencies not available.^{6/} Excludes guaranteed securities held by the Treasury.^{7/} Issues which commercial banks may not acquire prior to specified dates (with minor exceptions); see "Debt Outstanding", Table 2, footnote 1.^{8/} Federal securities fall into three broad classes with respect to the imposition of Federal income taxes on income derived from them. "Wholly" tax-exempt securities are those with the income exempt from both normal

tax and surtax. "Partially" tax-exempt securities are those with the income exempt from the normal tax except that in the case of partially tax-exempt Treasury bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax. "Taxable" securities are those with the income subject to normal tax and surtax.

^{9/} Includes Federal Housing Administration debentures; see footnote 10. ^{10/} A small indeterminate amount of these debentures is partially tax-exempt.

^{11/} Includes \$145.4 million depositary bonds held by commercial banks not included in the Treasury Survey.

^{12/} The proprietary interest of the United States in these banks ended in July 1951.

^{13/} Excludes issue completely held by Farm Credit Administration agencies. The proprietary interest of the United States in these banks ended in June 1947.

* Less than \$500,000.

MARKET QUOTATIONS ON TREASURY SECURITIES, DECEMBER 31, 1953

Current market quotations shown here are over-the-counter closing bid quotations in the New York market for the last trading day of the month, as reported to the Treasury by the Federal Reserve Bank of New York. The securities listed include all regularly quoted

public marketable securities issued by the United States Government except Panama Canal bonds. Outstanding issues which are guaranteed by the United States Government are excluded because they are not regularly quoted in the market.

1/ Excess of price over zero yield.

2/ Tax Anticipation Series.

3/ Beginning April 1953, prices are closing bid quotations in the over-the-counter market. Prices for prior dates are the mean of closing bid and ask quotations, except that before October 1, 1939, they are closing prices on the New York Stock Exchange. "When issued" prices are included in history beginning October 1, 1939. Dates of highs and lows in case of recurrence are the latest dates.

4/ Not called for redemption on December 15, 1953. Callable on four months' notice on June 15, 1954.

5/ Yield to first call date. Yields are computed to call date when the

price is above par and to maturity when the price is at or below par.
6/ Not called for redemption on December 15, 1953. Will mature on June 15, 1954.

7/ Included in the average of taxable Treasury bonds due or callable from 12 to 20 years beginning April 15, 1953, as shown under "Average Yields of Long-Term Bonds".

8/ First quoted April 15, 1953. This issue is listed under a new long-term taxable Treasury bond class due or callable 20 years and after as shown under "Average Yields of Long-Term Bonds".

9/ For definition, see "Debt Outstanding and General Fund", Table 2, footnote 1.

YIELDS OF TAXABLE TREASURY SECURITIES, DEC. 31, 1953
Based on Closing Bid Quotations

Explanation: The points represent yields to call when prices are above par, and to maturity date when prices are at par or below. The smooth curves for the various classes of points are fitted by eye. Issues for which on exchange after has been made or which are due or callable in less than 3 months are excluded

1/ Beginning April 1953, Treasury bond yields are reported to the Treasury by the Federal Reserve Bank of New York, based on closing bid quotations in the over-the-counter market. Yields for prior periods were computed on the basis of the mean of closing bid and ask quotations. For definition of taxable bonds, see footnotes to the "Treasury Survey of Ownership" in this issue of the "Treasury Bulletin".

2/ Prior to April 1953, the single series on long-term taxable Treasury bonds included the following: April 1952 through March 1953, bonds neither due nor callable for 12 years; October 1941 through March 1952, bonds neither due nor callable for 15 years. For a discussion of the composition of these Treasury bond averages, see the "Treasury Bulletin"

for March 1944, page 58.

3/ Moody's Investors Service average of Aaa corporate bonds. This series supersedes the Treasury average of high-grade corporate bonds previously shown in this table, which was discontinued after March 1953.

4/ Average covers 8-1/2 months beginning April 15, the inception date of this series.

5/ The long-term taxable Treasury bond average was revised beginning April 1, 1952, see footnote 2. The old average for April 1952 was 2.62 percent.

6/ Market closed.

Source: Daily Treasury Statement for total receipts from internal revenue; reports by the Internal Revenue Service for collections by type of tax. Detail by type of tax is available only on a collection basis. Receipts on the Daily Treasury Statement basis are compiled from the latest daily reports from Government depositaries; they do not coincide with amounts reported by the Internal Revenue Service because of the lag in deposits of collections and because certain taxes are paid directly into the depositaries.

1/ Excludes collections for credit to certain trust accounts for island possessions; includes corporation income tax on Alaska Railroad (repealed by Public Law 386, approved June 10, 1952, for taxable years ending after that date).

2/ Includes excess profits taxes formerly shown separately as follows: unjust enrichment through 1947 (thereafter these collections are included under "Miscellaneous taxes"); declared value (repealed for years ending after June 30, 1946); Excess Profits Tax Act of 1940 (Title II of the Second Revenue Act of 1940, which was repealed for

years ending after December 31, 1945). Includes also excess profits taxes on Army and Navy contracts under the Vinson Act as amended (34 U.S.C. 496) and income tax on business income of exempt organizations, imposed by the Revenue Act of 1951, approved October 20, 1951.

3/ Monthly figures include old-age insurance tax on self-employment income, which is levied and collected as part of the individual income tax beginning with the taxable year 1951. Fiscal year figures exclude this tax, on the basis of estimates beginning 1952, and it is included under "Old-age insurance taxes".

4/ Withheld income tax and old-age insurance taxes on employers and employees are paid into the Treasury in combined amounts beginning January 1951, so that current collections are not separable as to type of tax. The breakdown is estimated for fiscal years beginning 1951.

5/ Repealed for years ending after June 30, 1945. Beginning July 1950, included under "Miscellaneous taxes".

Sources: Daily Treasury Statement for total receipts from internal revenue; reports by the Internal Revenue Service for collections by type of tax. Detail by type of tax is available only on a collection basis. Receipts on the Daily Treasury Statement basis are compiled from the latest daily reports from Government depositories; they do not coincide with amounts reported by the Internal Revenue Service because of the lag in deposits of collections and because certain taxes are paid directly into the depositories.

1/ Excludes collections for credit to certain trust accounts for island possessions; includes corporation income tax on Alaska Railroad (repealed by Public Law 386, approved June 10, 1952, for taxable years ending after that date).

2/ Includes excess profits taxes on Army and Navy contracts imposed by the Vinson Act as amended (34 U.S.C. 496), and income tax on business income of exempt organizations, imposed by the Revenue Act of 1951, approved October 20, 1951.

3/ Includes old-age insurance tax on self-employment income, imposed by the Social Security Act Amendments of 1950 (Public Law 734), approved August 28, 1950. The tax is levied and collected as part of the

individual income tax beginning with the taxable year 1951. For estimated fiscal year breakdown, see Table 1.

4/ Beginning January 1951, withheld income tax and social security employment taxes on employers and employees are paid into the Treasury in combined amounts without separation as to type of tax, pursuant to the Social Security Act Amendments of 1950. For estimated fiscal year breakdown, see Table 1.

5/ Collections in fiscal year 1954 are not comparable month by month with those in the prior year because of the institution of quarterly returns with credit against them of receipts for interim payments made directly into Government depositories.

6/ Repealed, effective November 1, 1951, by Revenue Act of 1951. Beginning July 1952, included with other repealed taxes under "Miscellaneous taxes".

7/ Effective November 1, 1951, under Revenue Act of 1951.

8/ Applies to diesel oil used in highway vehicles; effective November 1, 1951, under Revenue Act of 1951.

CAPITAL MOVEMENTS

Data relating to claims on foreigners and liabilities to foreigners, and capital movements between the United States and foreign countries, have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, and Treasury regulations thereunder. Information covering the principal types of data and the principal countries is reported each month by banks and bankers and securities brokers and dealers in the United States. This information is published regularly in the "Treasury Bulletin". Supplementary information is published at less frequent intervals. All reports are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury.

The term "foreigners" as used in these reports covers all institutions and individuals (including United States citizens) domiciled outside the United States, as well as international organizations, wherever domiciled, created by treaty or convention between sovereign states. "Short-term" refers to original maturities of one year or less, and "long-term" refers to all other maturities. A detailed discussion of the reporting coverage, basis of reporting, and derivation of capital movements figures appeared in the April 1950 issue of the "Treasury Bulletin", pages 50-52. Revised report forms and regulations became effective with

the data for January 1950. Attention is called to the fact that although the grand total figures on the revised reporting basis are reasonably comparable with those for preceding months, data for individual countries in some instances are not comparable because of certain changes in coverage and geographical classification.

The supplementary information, contained in Section IV, is presented in three tables appearing at different times. Table 1 gives data by countries on short-term claims on and liabilities to foreigners as reported quarterly by exporters, importers, and industrial and commercial concerns in the United States. This information was published for the first time in the October 1949 issue of the "Treasury Bulletin" and begins with data for September 30, 1946. Table 2 supplies information by countries on long-term claims on and liabilities to foreigners as reported by banks and bankers in the United States. This table appeared for the first time in the December 1949 issue. Data are for the end of the calendar year beginning with 1942. Table 3 gives information on short-term liabilities to countries not regularly reported separately by banks and bankers. This table appeared for the first time in the April 1950 issue. The data have been requested at irregular intervals, the earliest date being October 1943.
