Treasury Financing Operations

Tax Certificate Offering

A cash offering of \$2-3/4 billion, or thereabouts, of 2-1/4 percent tax anticipation certificates of indebtedness was announced by the Secretary of the Treasury on September 29. The certificates are dated October 11, 1955, and will mature June 22, 1956. They will be receivable at par plus accrued interest to maturity in payment of income and profits taxes on June 15, 1956. The subscription books were open for one day only, on October 3.

Subscriptions totaled more than \$8,778 million and allotments \$2,970 million. Subscriptions in excess of \$100,000 were allotted 32 percent but not less than \$100,000. Those for \$100,000 or less were allotted in full. Approximately \$1.3 billion was allotted to nonbank subscribers on original issue.

Commercial banks, which for this purpose are defined as banks accepting demand deposits, were permitted to subscribe for their own account without deposit, but were restricted in each case to an amount not exceeding 50 percent of the combined capital, surplus, and undivided profits of the subscribing bank. A payment of 5 percent of the amount of certificates subscribed for, not subject to withdrawal until after allotment, was required on all other subscriptions. Commercial banks qualified as depositaries were permitted to make payment for the new certificates by credit in Treasury tax and loan accounts.

Commercial banks and other lenders were re-

quested to refrain from making unsecured loans or loans collateralized in whole or in part by the certificates subscribed for, to cover the 5 percent deposits required to be paid when subscriptions were entered. A certification by the subscribing bank that no such loan was made was required on each subscription entered by it for account of its customers. A certification that the bank had no beneficial interest in its customers' subscriptions, and that no customers had any beneficial interest in the bank's own subscription, also was required.

The new securities, designated Series C-1956, Tax Anticipation Series, will bear interest at the rate of 2-1/4 percent per annum, payable with the principal at maturity. They were issued in bearer form only, in denominations of \$1,000, \$5,000, \$10,000, \$100,000, and \$1,000,000.

Treasury 91-Day Bills

Weekly 91-day bills issued in September totaled \$8.0 billion. They refunded \$7.5 billion of maturing bills of like maturities and made available \$0.5 billion in cash. Each offering was for \$1.6 billion and each maturity amounted to \$1.5 billion. The close of September marked the end of the quarter during which, by weekly increases of \$100 million, the bills issued exceeded those maturing by a total of \$1.3 billion. On the new September issues the average rates of discount were 2.088 percent for September 1; 2.135 percent for September 8; 2.104 percent for September 15; 1.981 percent for September 22; and 2.122 percent for September 29.

Note: Details of Treasury market financing operations are shown elsewhere in this issue of the "Treasury Bulletin," in the tables on "Offerings" and "Dis-

position," respectively, of marketable issues of bonds, notes, and certificates of indebtedness, and in the table "Offerings of Treasury Bills."

Source: Actual figures are from the old daily Treasury statement through the fiscal year 1952 and the calendar year 1953; actual figures on the new reporting basis (see footnote 6) are from the new daily Treasury statement and the "Monthly Statement of Receipts and Expenditures of the United States Government"; estimates are based on the "Review of the 1956 Budget," released August 25, 1955. More detailed information with respect to the figures on this page is given in succeeding tables.

- 1/ Gross receipts less transfers of tax receipts to the Federal Old-Age and Survivors Insurance Trust Fund and the Railroad Retirement Account, and refunds of receipts.
- 2/ Transactions of the Foreign Economic Cooperation Trust Fund, established under Section 114 (f) of the Economic Cooperation Act of 1948 (62 Stat. 150), are consolidated with budget expenditures. Beginning with the fiscal year 1951, net investment by wholly owned Government enterprises in public debt securities is excluded from budget expenditures, and is included with other such investment under "Trust account and other transactions."
- 3/ Consists of transactions of trust and deposit funds, investment by Government agencies in public debt securities, and redemption or sale of obligations of Government agencies in the market; excess of receipts, or expenditures (-).
- 4/ For checks outstanding, telegraphic reports from Federal Reserve Banks, public debt interest accrued and unpaid beginning July 1955 (previously

included from November 1949 as interest checks and coupons outstanding), and deposits in transit and cash held outside the Treasury beginning with the fiscal year 1954; net increase, or decrease (-).

- 5/ For current month detail, see section on "Statutory Debt Limitation" in each issue of the Bulletin. The limitations in effect during the period covered by this table and the date when each became effective are as follows: March 28, 1942, \$125 billion; April 11, 1943, \$210 billion; June 9, 1944, \$260 billion; April 3, 1945, \$300 billion; June 26, 1946, \$275 billion; and August 28, 1954, \$281 billion (temporary increase ending on June 30, 1956). Guaranteed securities are included under the limitation beginning April 3, 1945. Savings bonds are included at current redemption value beginning June 26, 1946; prior to that time they were included at maturity value. In the debt outstanding, savings bonds are carried at current redemption value.

- 6/ New reporting basis as announced February 17, 1954 (see April 1954 "Treasury Bulletin," page A-2), beginning with the fiscal year 1953 and the calendar year 1954. The new daily Treasury statement shows cash deposits and withdrawals in the account of the Treasurer of the United States. The new monthly statement includes agency transactions not cleared through the Treasurer's account, and shows receipts when they are received by collecting officers and expenditures when checks are issued or payments are made by disbursing officers.

Source: Actual figures through 1952 are from the old daily Treasury statement; actual figures on the new reporting basis are from the "Monthly Statement of Receipts and Expenditures of the United States Government"; estimates are based on the "Review of the 1956 Budget," released August 25, 1955.

1/ For further detail, see tables under "Internal Revenue Collections." 2/ Breakdown was not made in the daily Treasury statement for years prior to 1954.

3/ Beginning January 1951, the distribution of receipts between individual income taxes and old-age insurance taxes is made in accordance with provisions of Sec. 109 (a) (2) of the Social Security Act Amend-

ments of 1950, for transfer to the Federal Old-Age and Survivors Insurance Trust Fund (see footnote 11).

4/ Tax on employers and employees under the Federal Insurance Contributions Act, as amended (26 U.S.C. 1400-1432) and, beginning with the taxable year 1951, tax on self-employed individuals under the Self-Employment Contributions Act (26 U.S.C. 480-482).

5/ Tax on carriers and their employees under the Railroad Retirement Tax Act (26 U.S.C. 1500-1538).

6/ Tax on employers of 8 or more under the Federal Unemployment Tax Act, as amended (26 U.S.C. 1600-1611).

^{14/} Through 1953, contributions to the Railroad Unemployment Insurance Administration Fund were carried in the daily Treasury statement as miscellaneous receipts, while the 1956 Budget document includes them in employment taxes through 1952. This difference in classification accounts for the difference in figures from the two sources. Beginning 1954 the contributions are credited direct to the trust account. For amounts of the contributions included in budget receipts, see "Treasury Bulletin" for February 1954, page 7.

^{8/} As announced February 17, 1954; see page 1, footnote 6.^{9/} In the 1956 Budget, internal revenue taxes not otherwise classified are included in miscellaneous receipts.

^{10/} Includes proceeds from sale of surplus property and from Government-owned securities; seigniorage; deposits resulting from renegotiation of war contracts (see "Treasury Bulletin" for February 1948, page 5); and railroad unemployment insurance contributions for administrative expenses through 1953, after which they are carried as trust account receipts under the Railroad Retirement Board.

^{11/} Amounts appropriated to the Federal Old-Age and Survivors Insurance Trust Fund are equivalent to the amounts of taxes collected and deposited for old-age insurance (42 U.S.C. 401 (a)). The Social Security Act Amendments of 1950, approved August 28, 1950 (64 Stat. 477), changed in certain respects the basis of transferring the appropriated funds to the trust fund. Beginning January 1951, the amounts transferred currently as appropriations to the

trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury pursuant to the provisions of Sec. 109 (a) (2) of the Amendments of 1950, and are adjusted in later transfers on the basis of wage and self-employment income records maintained in the Social Security Administration. Transfers for the fiscal year 1955 were reduced in February by \$300 million as an adjustment for excess transfers to the trust fund of \$90 million in 1952 and \$210 million in 1953. The amount of old-age insurance tax refunds is paid from the trust fund as a reimbursement to the general fund.

BUDGET RECEIPTS AND EXPENDITURES

Footnotes to Tables 1 through 5 - (Continued)

- 12/ Excludes the Government's contribution for creditable military service under the act of April 8, 1942 (56 Stat. 204). Beginning 1952, amounts are appropriated to the Railroad Retirement Account equal to the amount of taxes under the Railroad Retirement Tax Act deposited in the Treasury, less refunds, during each fiscal year (65 Stat. 222 and 66 Stat. 371), and transfers are made currently. Previously, annual appropriations were based, in effect, on estimated tax collections, with any necessary adjustments made in succeeding appropriations.
- 13/ Interest on refunds is included in Table 5 under "Other." Expenditures are "net," after allowance for reimbursements to appropriations, receipts of revolving fund appropriations, and receipts credited to disbursing accounts of corporations and agencies having authority to use collections without formal covering into the Treasury. The figures include transfers to trust accounts. They exclude net investment by wholly owned Government corporations and agencies in public debt securities beginning 1951 (when such investment was grouped with that of trust funds and accounts), and public debt retirements chargeable to the sinking fund, etc., under principal provisions of law. Payments to the Treasury, principally by wholly owned Government corporations, for retirement of capital stock and disposition of earnings are excluded from both receipts and expenditures. Further information on these capital transfers may be found in the 1954 Annual Report of the Secretary of the Treasury, page 418.
- 15/ Beginning with June and the fiscal year 1955, interest on the public debt is reported on an accrual basis; previously, beginning with November 1949, it was reported on a due and payable basis; for earlier periods it was reported as an expenditure when paid by the Treasurer of the United States.
- 16/ Prior to July 1955 consists of Veterans' Administration expenditures, including the direct loan program. Thereafter includes expenditures of the American Battle Monuments Commission and certain expenditures of the Department of Labor.
- 17/ Includes transactions relating to the Foreign Economic Cooperation Trust Fund (see page 1).
- 18/ Net transactions by the Department of the Air Force and the Army relating to "Deposit fund accounts" are included under "Trust Account and Other Transactions" instead of "Budget Receipts and Expenditures," beginning 1952.
- 19/ A more detailed breakdown became effective in the monthly statement for March 1955 which resulted in a shift between "Economic and technical assistance" on the one hand and "Mutual military program" and "Other" national security (direct forces support) on the other. Figures for the reclassified items are not available by month for the whole year but are included in the total for the fiscal year.
- 20/ Includes estimate of interest on unvested trust funds and interest on refunds of taxes. Actual expenditures for these two items are included in Table 5 under "Other."
- 21/ Consists of expenditures by the Office of the Secretary of Defense; retired pay for the military services beginning September 1949, prior to which it is included in expenditures of the Departments of the Army, Navy, and Air Force; other interservice activities beginning July 1954; and payments under the Armed Forces Leave Act beginning July 1955 (they were included in "Other" expenditures in Table 5 for fiscal years 1953 through 1955).
- 22/ Excludes certain expenditures made on behalf of the Department of the Air Force out of 1949 and prior year appropriations to the Department of the Army.
- 23/ Includes certain expenditures on behalf of the Department of the Air Force (see footnote 22).
- 24/ Consists of expenditures from funds appropriated to the President under the Mutual Security Act, approved October 10, 1951 (22 U.S.C. 1651), and the preceding Economic Cooperation Act; and Greek-Turkish assistance through 1953.
- 25/ Consists of expenditures of the Atomic Energy Commission.
- 26/ Prior to 1953 consists of payments under the Armed Forces Leave Act, and expenditures for surplus property disposal; beginning 1954, consists of direct forces support under the Mutual Security Act.
- 27/ Estimate covers all military functions of the Department of Defense.
- 28/ Combined estimate for the mutual security programs of military assistance and direct forces support is \$2,150 million.
- 29/ Figures centered between columns are total expenditures of the Department of State. Through the fiscal year 1955, no breakdown of these expenditures was available in the monthly statement. Beginning July 1955, the classification "Conduct of foreign affairs" includes the bulk of the expenditures of the State Department, and the expenditures of the Tariff Commission and the Commission on Foreign Economic Policy. "Foreign information and exchange" includes expenditures of the United States Information Agency, the educational exchange activities of the State Department, and the Emergency Fund for International Affairs.
- 30/ Consists of expenditures from funds appropriated to the President under the Mutual Security Act, and the preceding Economic Cooperation Act.
- 31/ Excludes Bank expenditures under the Mutual Security Act and the preceding Economic Cooperation Act of 1948, as amended.
- 32/ Includes expenditures for government and relief in occupied areas through 1952, after which expenditures for this purpose made by the Department of State (the greater part currently) are included under "Conduct of foreign affairs," and those made by other agencies (principally the Department of the Army) are not included in this table. Also includes credit to the United Kingdom, 1948; civilian relief in Korea; expenditures of the United Nations Relief and Rehabilitation Administration through 1950; loan for construction and furnishing of United Nations headquarters; and various other foreign relief and aid programs.
- 33/ Through the fiscal year 1955, consists of expenditures of the Department of Health, Education, and Welfare except the Office of Education, and of the corresponding component organizations before the establishment of this Department on April 11, 1953; the Government's contribution under the Railroad Retirement Act for creditable military service, and certain other Railroad Retirement Board expenditures through 1953; and beginning 1950, the school lunch program under the Department of Agriculture. Beginning July 1955, with the more detailed information available in the monthly statement, certain expenditures of the Department of Health, Education, and Welfare have been reclassified under other headings, and expenditures of the Bureau of Indian Affairs, the Bureau of Employees Compensation, and Justice Department pertaining to the Federal prison system are included under this heading.
- 34/ Consists of expenditure of the Housing and Home Finance Agency; Federal Civil Defense Administration; disaster relief; and, beginning July 1955, National Capital Housing Authority.
- 35/ Consists of expenditures of the Department of Agriculture except the Forest Service and the school lunch program; and of the Farm Credit Administration.
- 36/ Through the fiscal year 1955, consists of expenditures of the Department of the Interior; the Tennessee Valley Authority; the Corps of Engineers in the Department of the Army (river and harbor control and flood control); and the Forest Service in the Department of Agriculture. Beginning July 1955, excludes the Bureau of Indian Affairs and the Office of Territories from the Department of the Interior, and includes appropriate expenditures of the Department of State, Federal Power Commission, and other agencies.
- 37/ Through the fiscal year 1955, consists of expenditures of the Civil Aeronautics Administration, Civil Aeronautics Board, Bureau of Public Roads, and maritime activities, all now in the Department of Commerce; the Coast Guard in the Treasury Department; and the Post Office Department. Figures prior to 1954 include net expenditures of certain working funds of the Post Office Department in addition to the Postal Service Fund (advances to cover the postal deficit). Effective with 1954, net expenditures of that Department, including the Postal Service Fund, are on the basis of cash receipts and expenditures recorded in the account of the Department. Beginning July 1955, includes also expenditures of the Interstate Commerce Commission, Federal Communications Commission, Coast and Geodetic Survey, National Advisory Committee for Aeronautics, and other agencies.
- 38/ Through the fiscal year 1955, consists of expenditures of the Department of Commerce except those included under "Transportation and Communication"; the Reconstruction Finance Corporation (as in liquidation by the Treasury Department beginning July 1954); Federal Facilities Corporation beginning July 1954; the Small Business Administration; the Economic Stabilization Agency; and funds appropriated to the President for the expansion of defense production. Beginning July 1955, with the more detailed information available in the monthly statement, expenditures of the Securities and Exchange Commission, Federal Trade Commission, and other agencies are also included in this category; and certain Department of Commerce expenditures such as the Bureau of the Census and the National Bureau of Standards have been reclassified under other headings.
- 39/ Includes expenditures for executive departments and other agencies not included elsewhere and for legislative and judicial functions.
- 40/ Includes estimate for education and general research. Actual expenditures for this function are included in this table under "Other."
- 41/ The combined estimate for commerce and manpower is \$2,760 million. This includes estimates for housing and community development; transportation and communication; finance, commerce, and industry; and labor and manpower. Actual expenditures for labor and manpower are included in this table under "Other."
- 42/ Estimate for general Government expenditures is \$1,667 million, and the reserve for contingencies is \$100 million. Estimates for education and general research, for labor and manpower, and for other expenditures included under this heading are not available separately and are grouped with other estimates. (See footnotes 20, 40, and 41).

Source: Actual figures through 1952 are from the old daily Treasury statement; actual figures on the new reporting basis are from the "Monthly Statement of Receipts and Expenditures of the United States Government"; estimates are based on the "Review of the 1956 Budget," released August 25, 1955.

1/ Prior to 1951 net investment in public debt securities by certain trust accounts and by deposit fund accounts is included in trust and deposit fund account expenditures and excluded from net investment by Government agencies (See tables 3 and 4); for treatment of security transactions of Government-sponsored enterprises beginning 1955, see footnote 4.

2/ Excludes Foreign Economic Cooperation Trust Fund (see page 1).

3/ As announced February 17, 1954; see page 1, footnote 6.
4/ Under a revised classification in the monthly Treasury statement, effective July 1, 1955, the security transactions of Government-sponsored enterprises are included in deposit fund account expenditures (net) and excluded from net investment by Government agencies in public debt securities (see Table 4) and from net redemption or sale of obligations of Government agencies in the market (see Table 5). Figures previously published for the fiscal year 1955 have been revised to the new classification basis.

1/ Consists of Civil Service and Foreign Service retirement funds.
2/ Includes Adjusted Service Certificate Fund, District of Columbia, Indian tribal funds, increment resulting from reduction in the weight of the gold dollar, and through 1950 seigniorage on silver under the Silver Purchase Act of 1934. Thereafter any such seigniorage is included with other seigniorage under budget receipts. Beginning

with the fiscal year 1954, the Railroad Unemployment Insurance Administration Fund is classified as a trust account, instead of being handled through budget accounts as formerly (see "Budget Receipts and Expenditures," Table 1, footnote 10).

3/ Excludes Foreign Economic Cooperation Trust Fund (see page 1).
4/ As announced February 17, 1954; see page 1, footnote 6.

TREASURY CASH INCOME AND OUTGO

The cash income and outgo of the Federal Government are presented from two points of view in the tables which follow, in line with the differences in reporting bases between the new daily Treasury statement, first issued on February 17, 1954, and the "Monthly Statement of Receipts and Expenditures of the United States Government," initiated at the same time (see April 1954 "Treasury Bulletin," page A-2). The bases differ both in coverage and in timing of the reports.

In coverage the new daily statement reports only transactions which clear through the Treasurer's account. The monthly statement includes transactions of all Government agencies, regardless of whether the transactions clear through the Treasurer's account. In addition, the monthly statement classifies the transactions to show separately budget results and trust account transactions. The net results are then reconciled to changes in the Treasurer's cash balance and in the public debt outstanding as reported in the daily statement.

For the transactions included in both statements, there are differences in the timing of the reports. Receipts in the monthly statement are principally on a collection basis, while those in the daily statement are on a clearance basis; expenditures in the monthly statement are on a checks-issued basis, while those in the daily statement are on a checks-paid basis. Thus an individual transaction near the end of a month may be reported during that month in one statement and not until the following month in the other. These timing differences tend to correct themselves over a period, but for a given date they must be taken into account in reconciling data from the two reports.

Cash transaction figures prior to 1953 are derived from a single source, the old daily Treasury statement, which resembled the present monthly statement in coverage and in classification of transactions, but for timing was based on information in hand at the end of the reporting period. In the tables which follow, figures from the old daily statement have been adjusted to a coverage as close

as possible to that of the new daily by excluding those agency transactions in public debt securities and in agency obligations in the market which were not cleared through the Treasurer's account.

Table 1 summarizes cash flows through the Treasurer's account as reported in the daily statement. They are grouped in three categories -- cash income, or deposits; cash outgo, or withdrawals; and cash borrowing or repayment of borrowing. The three taken together account for the change in the Treasurer's cash balance.

Tables 2, 3, and 4 show the derivation of these same three categories of cash flows on a monthly statement basis, covering transactions of all Government agencies. These three categories taken together account for the change in cash balance on the monthly statement basis, which includes not only the balance in the Treasurer's account but also the cash held outside the Treasury and the items in transit represented by the clearing accounts. Since there are now reported figures for the cash flows in the Treasurer's account, it is possible to calculate for each category -- income, outgo, and borrowing -- the difference due to differences in reporting bases. The sum of these differences, or reconciliation adjustments, in the three categories, with signs appropriate for their effect on the cash balance, equals the difference in balances between the monthly statement and daily statement. This difference is the combined total of the monthly statement clearing accounts plus cash held outside the Treasury.

The calculated reconciliation adjustment figures in the tables include both coverage and timing differences. It is no longer possible from the information as reported to the Treasury to segregate the two kinds of differences even for securities transactions. But such segregation is not regarded as significant for purposes of this analysis, so long as the overall coverage is secured for transactions not cleared through the Treasurer's account, and the figures are on a consistent reporting basis.

Source: Actual figures are based on the daily Treasury statement, except the memorandum item, which is from the "Monthly Statement of Receipts and Expenditures of the United States Government"; estimates are based on the "Review of the 1956 Budget," released August 25, 1955. Figures in the first four columns of this table may differ somewhat from those originally published in the daily Treasury statement because of subsequent reclassification of certain transactions.

1/ Consists of seigniorage on silver and increment resulting from reduction in weight of the gold dollar. This item is part of the cash budget receipts shown in these tables, but is excluded from the Bureau of the Budget figures for "Receipts from the public."

Source: Actual figures through 1952 are based on the old daily Treasury statement; actual figures on the new reporting basis are based on the "Monthly Statement of Receipts and Expenditures of the United States Government" and the new daily Treasury statement; estimates are based on the "Review of the 1956 Budget," released August 25, 1955. The monthly statement figures for a given month appear in the Bulletin issue following that which carries corresponding daily statement figures in Table 1.

1/ For further detail, see "Budget Receipts and Expenditures," Table 1. Deduction from budget receipts of the tax refunds represented by these bonds is treated as a noncash deduction at the time of issuance of the bonds and as a cash deduction at the time of redemption of the bonds (see Table 4); net issuance, or redemption (-).

2/ By Federal Old-Age and Survivors Insurance Trust Fund through October 1948. Thereafter includes also reimbursements from the District of Columbia and Panama Canal Company.

3/ For explanation, see headnote.

4/ Includes proceeds of ship sales carried in trust accounts pending allocation to budget receipts from sale of surplus property, transfers between trust accounts, and payment of earnings or repayment of

capital stock to the Treasury by corporations not wholly owned. Figures for 1948 include \$8 million of armed forces leave bonds redeemed for insurance premiums; after August 31, 1947, these bonds were redeemable for cash.

6/ Reflects transactions of all Government agencies regardless of whether the transactions cleared through the account of the Treasurer of the United States.

7/ For explanation of differences in reporting bases beginning 1953, see headnote. The net of these differences for all transactions in a given period is reflected in the combined net of the change in clearing account items which reconciles to the Treasurer's cash plus the change in cash held outside the Treasury, as reported in the monthly Treasury statement. Cash outside the Treasury includes cash in the hands of disbursing officers, and commercial bank balances of Government agencies. Reporting differences relating to receipt transactions are shown in this table; excess of receipts on monthly statement bases is deducted. Prior to 1953 no adjustment is made for any receipts not cleared through the Treasurer's account.

* Less than \$500,000.

2/ For further detail, see "Trust Account and Other Transactions," Table 1.

3/ Treated as noncash expenditures at the time of issuance and as cash expenditures at the time of redemption; net issuance, or redemption (-).

4/ Issued in 1947 in payment for accumulated leave. The last of these bonds matured in 1951.

5/ Issued in 1936 in exchange for adjusted service certificates held by veterans of World War I. The bonds matured in 1945.

6/ Part of the United States subscription to the capital of the International Bank for Reconstruction and Development and to the International Monetary Fund was paid in the form of noninterest-bearing, nonnegotiable notes payable on demand (see 1947 Annual Report of the Secretary of the Treasury, pages 48, 350, and 385). The last of

the notes issued to the Bank was redeemed in 1950.

7/ For explanation, see headnote.

8/ Accrued discount on savings bonds and bills less interest paid on savings bonds and bills redeemed.

9/ Through 1950, consists of net investment in public debt securities, or net sale (-), included partly in budget expenditures and partly in trust and deposit fund account expenditures (see "Trust Account and Other Transactions," Table 4). Beginning 1955, consists of deposit fund expenditures of Government-sponsored enterprises for net investment in public debt securities and net redemption of agency obligations in the market (see "Trust Account and Other Transactions," Table 3).

10/ Reflects transactions of all Government agencies regardless of whether the transactions cleared through the account of the Treasurer of the United States.

^{1/} The securities shown in this table were issued to the Treasury to finance Government corporations and other agencies with the Treasury itself raising the necessary funds through public debt operations. To avoid duplication, these securities are not included in the guaranteed debt outstanding as shown in preceding tables.

^{2/} Consists of notes of the Administrator, General Services Administration beginning January 1951 (Administrator, Defense Materials Procurement Agency, January 1952 through July 1953) for defense materials procurement; Reconstruction Finance Corporation January 1951 through September 1953 (after which its activities under this act were transferred to the Secretary of the Treasury), and the Secretary of the Treasury beginning October 1953; the Secretary of the Interior (Defense Materials Exploration Administration) beginning June 1951; the Export-Import Bank of Washington beginning April 1952; and the Secretary of Agriculture beginning June 1954.

^{3/} Excludes securities issued under Defense Production Act.

^{4/} From September 1950 through July 1954, consists of notes of the Housing and Home Finance Administrator issued to borrow for the Association. Beginning August 1954, consists of liabilities taken over by the Association from the Administrator in accordance with Public Law 560, approved August 2, 1954, and notes issued by the Association under authority of that act; and beginning September 1954, also securities transferred from the Reconstruction Finance Corporation (see footnote 7). Prior to September 1950, the Association was financed from funds of the Reconstruction Finance Corporation, which owned the capital stock.

^{5/} Established in the Department of State by Executive Order No. 10610, dated May 9, 1955, and effective at the close of June 30, 1955, as successor to the Foreign Operations Administration. Date for earlier

periods are for predecessor agencies.

^{6/} Consists of notes issued to borrow for the urban renewal program (formerly slum clearance program), the prefabricated housing loans program from September 1950, when it was transferred from the Reconstruction Finance Corporation, through November 1954; and housing loans for educational institutions beginning July 1951. Notes issued to borrow for the Federal National Mortgage Association are shown under the Association.

^{7/} Excludes securities issued under Defense Production Act of 1950; includes securities issued under Federal Civil Defense Act of 1950 through November 1953, after which they were taken over by the Secretary of the Treasury, pursuant to the act approved July 30, 1953 (67 Stat. 230), and are included under "Other." During September 1954, under Reorganization Plan No. 2 of 1954, the remaining securities issued by the Corporation to the Treasury were transferred as follows: \$42 million to Export-Import Bank of Washington, \$92 million to Federal National Mortgage Association, and \$14 million to Small Business Administration.

^{8/} For Farmers' Home Administration program.

^{9/} Consists of notes issued by Federal Farm Mortgage Corporation and Home Owners' Loan Corporation prior to 1950, Virgin Islands Company, 1948-49, Secretary of the Army (Natural Fibers Revolving Fund) 1949-51, Secretary of the Treasury beginning 1953 (see footnote 7), and Small Business Administration beginning September 1954; advances under agreements with Veterans' Administration for direct loan program beginning August 1950; and revenue bonds issued by Saint Lawrence Seaway Development Corporation, beginning November 1954.

^{10/} Notes outstanding in the amount of \$9,365 million, including interest, were canceled on June 30, 1948 (62 Stat. 1187).

1/ On account of withheld taxes and sales of Government securities.

2/ Beginning December 1954, Post Office Department and Postmasters' disbursing accounts are no longer treated as liability accounts of the

Treasurer of the U. S., but are classified and treated in the same manner as other disbursing accounts, in accordance with the change in method of reporting Post Office Department transactions (see page 5, footnote 37).

STATUTORY DEBT LIMITATION

The Second Liberty Bond Act, as amended (31 U.S.C. 757 b), provides that the face amount of obligations issued under authority of that act, and the face amount of obligations guaranteed as to principal and interest by the United States (except guaranteed obligations held by the Secretary of the Treasury), shall not exceed in the aggregate \$275 billion outstanding at any one time,

except that this amount was increased by \$6 billion beginning on August 28, 1954, and ending on June 30, 1956, by acts approved August 28, 1954, and June 30, 1955. Obligations issued on a discount basis, and subject to redemption prior to maturity at the option of the owner, are included in the statutory debt limitation at current redemption values.

1/ It should be noted that callable issues appear twice in this column, once in the year of first call and again in the year of final maturity. Callable issues with respect to which a definite notice of

call has been made, however, are listed as fixed maturities. For date of issue of each security, see "Market Quotations"; for tax status, see "Treasury Survey of Ownership."

1/ Consists of all public cash subscriptions and subscriptions by United States Government investment accounts.

2/ Nonbank subscriptions were allotted in full. Commercial banks' subscriptions for amounts up to and including \$100,000 for their own account also were allotted in full. Commercial banks' subscriptions for amounts over \$100,000 for their own account were allotted \$100,000 on each subscription.

3/ The 2% certificates dated August 15, 1952, were reopened, with all certificates of the series identical in all respects, as an exchange offering for the 1-7/8% certificates which matured December 1, 1952. Total exchanges in the two offerings amounted to \$2,882 million.

4/ Exchange offering available to owners of nonmarketable 2-3/4% Treasury Bonds, Investment Series B-1975-80, dated April 1, 1951. For further information on the original offering see "Treasury Bulletin" for April 1951, page A-1. Amounts shown are as of September 30, 1955.

5/ Amount shown includes exchanges by Federal Reserve System Open Market Account amounting to \$714 million.

6/ The 2-1/2% bonds dated February 15, 1953, were reopened with all the bonds of the series identical in all respects, as an exchange offering for the 2-1/8% notes which matured December 1, 1953. Total exchanges in the two offerings amounted to \$2,368 million.

7/ Holders of the 1-7/8% certificates which matured February 15, 1953, were offered a choice of exchanging the securities for either the one-year certificate or the five-year, ten-month bonds.

8/ The bond offering was made available for exchange of Series F and G savings bonds maturing from May 1 through December 31, 1953.

9/ Total allotments on cash subscriptions were limited to approximately \$1,000 million. Nonbank subscriptions in amounts up to and including \$5,000 were allotted in full. All other subscriptions were allotted 20 percent. Commercial banks' subscriptions were restricted to an amount not exceeding 5 percent of their time deposits as of December 31, 1952. The Treasury also reserved the right to allot limited amounts of these bonds to Government investment accounts, which subscribed to a total amount of \$118 million.

10/ Also designated tax anticipation certificates, acceptable at par plus accrued interest to maturity in payment of income and profits taxes due March 15, 1954.

11/ Subscriptions for amounts up to and including \$100,000 were allotted in full. Subscriptions for amounts over \$100,000 were allotted 67 percent but in no case less than \$100,000.

12/ Holders of the 2% bonds which matured September 15, 1953, were offered a choice of exchanging the securities for either the one-year certificates or the three-and-one-half-year notes.

13/ Subscriptions for amounts up to and including \$10,000 were allotted in full. Subscriptions from mutual savings banks, insurance companies, pension and retirement funds, and State and local governments were allotted 24 percent. All others, including commercial banks, were allotted 16 percent but not less than \$10,000 on any one subscription. Footnotes 14 through 34 on page 25.

UNITED STATES SAVINGS BONDS

United States savings bonds were first offered in March 1935 and began to mature in March 1945. Series A-D were sold between March 1935 and the end of April 1941, and Series E, F, and G were first offered in May 1941. When Series E began to mature on May 1, 1951, owners of the matured bonds were offered three options: To redeem the bonds in cash in accordance with the original terms; to retain them with an extended maturity of 10 years at specified rates of interest accrual; or to exchange them for Series G bonds. A number of changes became effective May 1, 1952. The principal ones were: The rate of interest accrual on Series E was increased, especially for the near term, with corresponding changes in extended Series E; and Series F and G were replaced by two new issues, Series J and K, also at higher interest rates. A new current-income bond, Series H, similar in interest return to Series E, was offered beginning June 1. For

details of these changes see "Treasury Bulletin" for May 1952, page A-1. Series F and G began to mature on May 1, 1953. For the exchange offering made to holders of these bonds maturing through December 31, 1953, see the May 1953 issue, page A-1. The Treasury invited holders of Series F and G which began to mature in January 1954 to reinvest the proceeds in other series of savings bonds. In the tables which follow, Series A-F and J sales are included at issue price and total redemptions and amounts outstanding at current redemption values. Series G, H, and K are included at face value throughout. Matured bonds which have been redeemed are included in redemptions. Matured F and G bonds outstanding are included in the interest-bearing debt until all bonds of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

1/ Details by series on a cumulative basis and by periods for Series A-D combined will be found in the February 1952 and previous issues of the "Treasury Bulletin."

2/ Includes exchanges of matured Series E bonds for Series G bonds beginning May 1951 and for Series K bonds beginning May 1952.

3/ Includes both matured and unmatured bonds; see Table 4.

4/ Includes total value of redemptions not yet classified between matured and unmatured bonds.

5/ A change in procedure, beginning in June 1954, for processing redeemed savings bonds has resulted in a high level of redemptions not yet classified between matured and unmatured bonds. This increase temporarily obscures the relationship between the redemption columns showing sales price and accrued discount in Tables 2 through 4 and also the relationship between the matured and unmatured sections of Table 4. (See also footnote 4.) The subsequent distribution of this

high level of unclassified redemptions may be large enough in any month to show redemptions of matured bonds for a series in Table 4 which are greater than the total redemptions of that series as shown in Table 3, and to show a negative in the unmatured section of Table 4.

6/ Reductions were made in issues and redemptions of Series E, H, F, G, J, and K in July 1954 to compensate for the erroneous inclusion of reissue transactions in June 1954 as reported in the daily Treasury statement. The amounts involved were as follows: \$18 million for issues of Series E and H and \$17 million for issues of Series F, G, J, and K; and \$35 million for unclassified retirements.

7/ Sales began June 1, 1952.

8/ Comparable data are not available prior to January 1950.

9/ Includes exchanges of Series 1941 F and G savings bonds for Treasury 3½% bonds of 1978-83.

* Less than \$500,000.

TREASURY SAVINGS NOTES

Treasury tax and savings notes have been issued as follows: Tax Series A from August 1, 1941, through June 22, 1943; Tax Series B from August 1, 1941, through September 12, 1942; Savings Series C (originally designated Tax Series C) from September 14, 1942, through August 31, 1948; Savings Series D from September 1, 1948, through May 14, 1951; Savings Series A from May 15, 1951, through May 14, 1953; Savings Series B from May 15, 1953, through September 25, 1953; and a new Savings Series C from October 1, through October 23, 1953, when sale of these notes was suspended. Details concerning terms and conditions for purchase and redemption and information on investment yields of Savings Series C appear in the October 1953 issue of the "Treasury Bulletin," page A-1.

Similar information with respect to the offering of the earlier series was published currently in the "Treasury Bulletin," and appears also in the "Annual Report of the Secretary of the Treasury" for appropriate years.

In the following tables sales and redemptions of Treasury savings notes are shown at par value. Matured notes redeemed (either for cash or for tax payment) are included in the figures on redemptions. Matured notes outstanding are reflected in the interest-bearing debt until all notes of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

Source: Daily Treasury statement for total amounts outstanding; reports from agencies and trust funds for securities held by U. S. Government investment accounts; and reports from Federal Reserve System for securities held by Federal Reserve Banks.

1/ Includes certain obligations not subject to statutory limitation.

For amounts subject to limitation, see page 1.

2/ Includes accounts under the control of certain U. S. Government agencies whose investments are handled outside the Treasury; excludes Federal land banks after June 26, 1947, when the proprietary interest of the United States in these banks ended.

3/ The total amount of interest-bearing securities held by private investors is calculated by deducting from the total amount outstanding the amount held by U. S. Government investment accounts and Federal Reserve Banks.

4/ Excludes guaranteed securities held by the Treasury.

5/ All public marketable issues.

6/ Consists of Commodity Credit Corporation demand obligations stated as of the close of the previous month.

* Less than \$500,000.

1/ Consists of purchases or sales made by the Treasury of securities issued or guaranteed by the U. S. Government for (1) trust funds which by law are under the control of the Secretary of the Treasury or of the Treasurer of the United States, and (2) accounts under the control of certain U. S. Government agencies whose investments are handled through the facilities of the Treasury Department. It will be noted that these

transactions differ from those reflected in Table 1 because they exclude those Government investment accounts for which investments are not handled by the Treasury. Table 2 also includes purchases under Section 19 of the Second Liberty Bond Act, as amended (31 U.S.C. 754 a), and excludes the Exchange Stabilization Fund. * Less than \$50,000.

1/ United States savings bonds, Series A-F and J, are included at current redemption value.

2/ Securities issued or guaranteed by the U. S. Government, excluding guaranteed securities held by the Treasury. For amounts subject to statutory debt limitation, see page 1.

3/ Consists of commercial banks, trust companies, and stock savings banks in the United States and in Territories and island possessions. Figures exclude securities held in trust departments.

4/ Holdings by Federal land banks are included under "Miscellaneous investors" instead of "U. S. Government investment accounts" after June 26, 1947, when the proprietary interest of the United States in these banks ended.

5/ Includes partnerships and personal trust accounts. Nonprofit institu-

tions and corporate pension trust funds are included under "Miscellaneous investors."

6/ Exclusive of banks and insurance companies.

7/ Consists of trust, sinking, and investment funds of State and local governments and their agencies, and Territories and island possessions.

8/ Includes savings and loan associations, nonprofit institutions, corporate pension trust funds, dealers and brokers, and investments of foreign balances and international accounts in this country. Beginning December 1946, includes investments by the International Bank for Reconstruction and Development and the International Monetary Fund in special noninterest-bearing notes issued by the U. S. Government.

TREASURY SURVEY OF OWNERSHIP, JULY 31, 1955

The Treasury Survey of Ownership covers securities issued by the United States Government and by Federal agencies. The banks and insurance companies included in the Survey account for approximately 95 percent of such securities held by all banks and insurance companies in the United States. Data were first published for March 31, 1941, in the May 1941 "Treasury Bulletin."

Distribution of ownership by type of banks and insurance companies is published each month. Holdings by commercial banks distributed according to Federal Reserve member-bank classes and nonmember banks are published for June 30 and December 31. Holdings by corporate pension trust funds are published quarterly and first appeared in the March 1954 Bulletin for quarters beginning December 31, 1949.

1/ Includes certain obligations not subject to statutory debt limitation. For amount subject to limitation, see page 1.

2/ Excludes trust departments.

3/ Includes trust companies and, beginning with figures for July 1949, also includes stock savings banks. Previously, these banks were reported as a separate classification.

4/ Includes those banks and insurance companies not reporting in the Treasury Survey.

5/ United States savings bonds, Series E, F, and J, are shown at current redemption value. They were reported at maturity value by the banks and insurance companies included in the Treasury Survey but have been adjusted to current redemption value for use in this statement.

6/ Holdings by reporting agencies not available.

7/ Excludes guaranteed securities held by the Treasury.

8/ Federal securities fall into three broad classes with respect to the imposition of Federal income taxes on income derived from them. "Wholly" tax-exempt securities are those with the income exempt from both normal tax and surtax. "Partially" tax-exempt securities are

those with the income exempt from the normal tax except that in case of partially tax-exempt Treasury bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax. "Taxable" securities are those with the income subject to normal tax and surtax.

9/ Includes Federal Housing Administration debentures; see footnote 10/. A small indeterminate amount of these debentures is partially tax-exempt.

10/ Includes \$103.2 million depositary bonds held by commercial banks not included in the Treasury Survey.

11/ Central Bank for Cooperatives debentures.

12/ The proprietary interest of the United States in these banks ended in July 1951.

13/ Excludes issues completely held by Farm Credit Administration agencies. The proprietary interest of the United States in these banks ended in June 1947.

* Less than \$500,000.

MARKET QUOTATIONS ON TREASURY SECURITIES, AUGUST 31, 1955

Current market quotations shown here are over-the-counter closing bid quotations in the New York market for the last trading day of the month, as reported to the Treasury by the Federal Reserve Bank of New York. The securities listed include all regularly quoted

public marketable securities issued by the United States Government except Panama Canal bonds. Outstanding issues which are guaranteed by the United States Government are excluded because they are not regularly quoted in the market.

1/ Not quoted on August 31, 1955.

2/ Tax anticipation series.

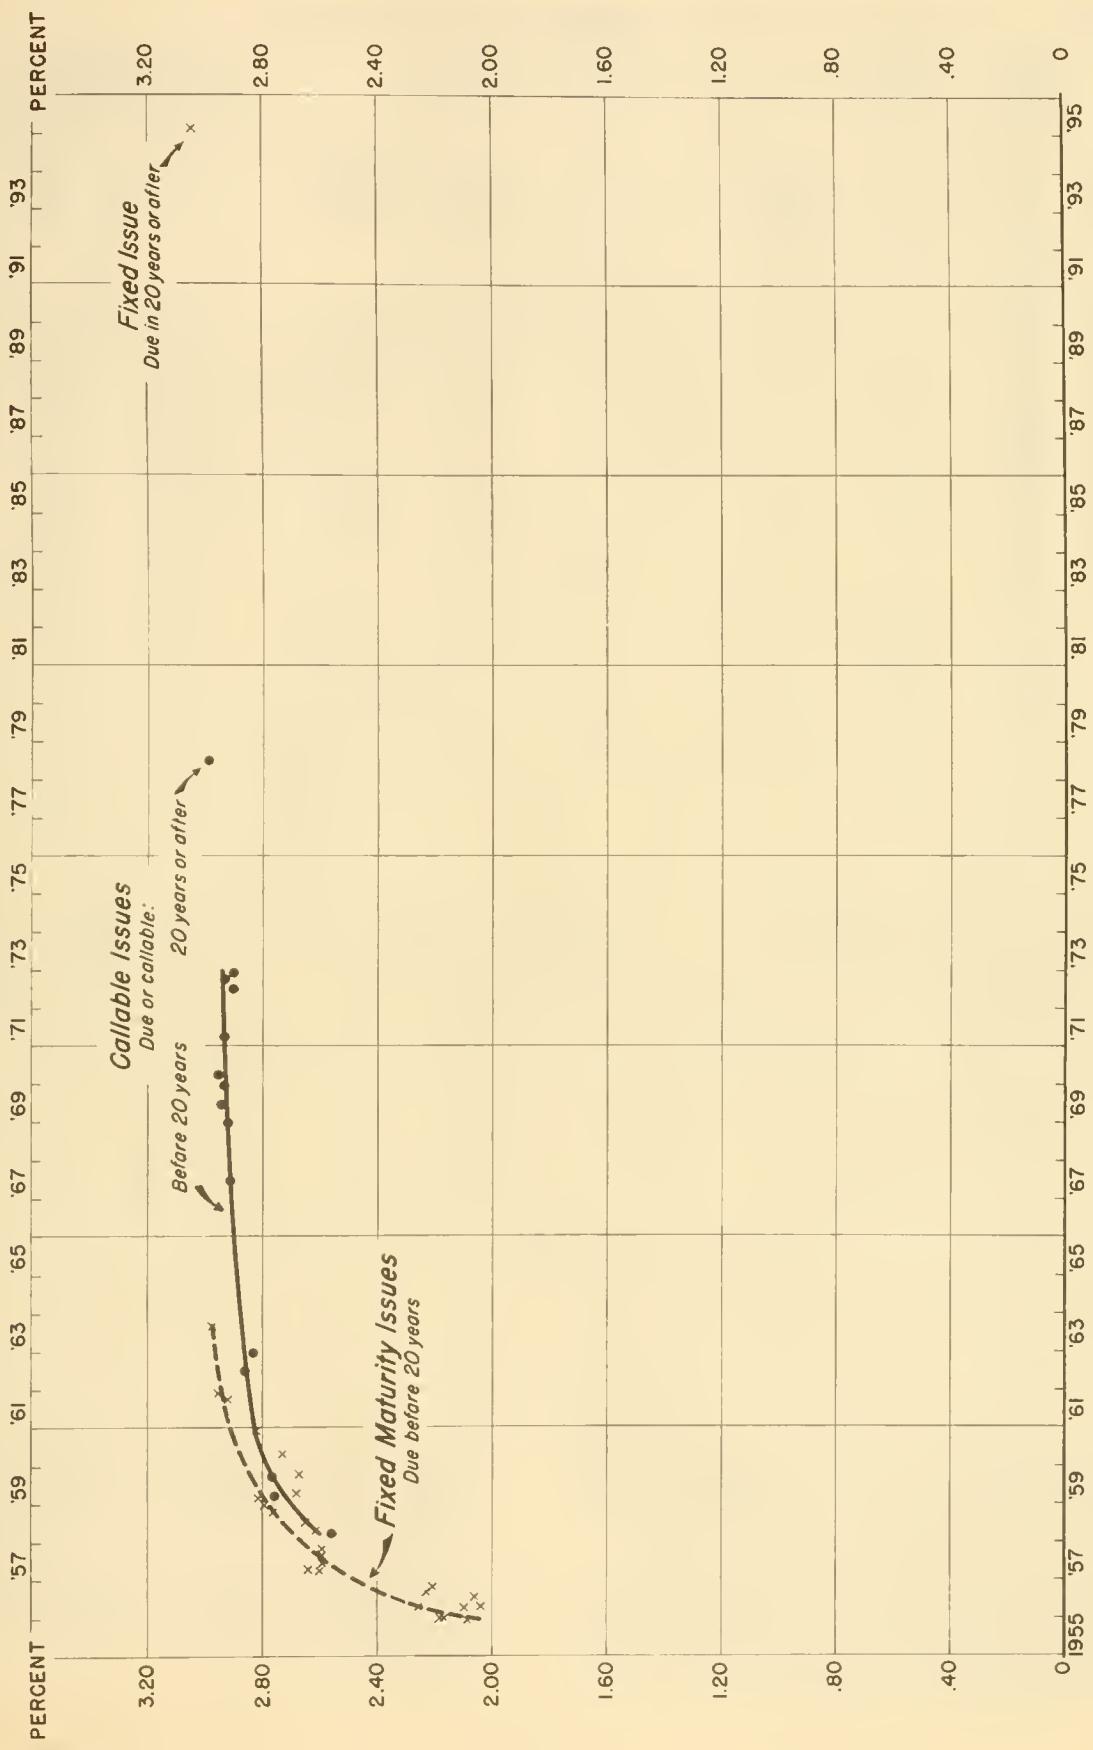

3/ Beginning April 1953, prices are closing bid quotations in the over-the-counter market. Prices for prior dates are the mean of closing bid and ask quotations, except that before October 1, 1939, they are closing prices on the New York Stock Exchange. "When issued" prices are included in history beginning October 1, 1939. Dates of highs and lows in case of recurrence are the latest date.

4/ Included in the average of taxable Treasury bonds due or callable from 10 to 20 years beginning April 1, 1953, as shown under "Average Yields of Long-Term Bonds."

5/ Included in the average of taxable Treasury bonds due or callable 20 years and after, as shown under "Average Yields of Long-Term Bonds."

6/ Yield to first call. Yields are computed to call date when the price is above par and to maturity when the price is at or below par.

YIELDS OF TAXABLE TREASURY SECURITIES, AUG. 31, 1955
 Based on Closing Bid Quotations

Explanation: The points represent yields to call when prices are above par, and to maturity date when prices are at par or below. The smooth curves for the various classes of points are fitted by eye. Issues for which an exchange after has been made or which are due or callable in less than 3 months are excluded.

1/ Beginning April 1953, Treasury bond yields are reported to the Treasury by the Federal Reserve Bank of New York, based on closing bid quotations in the over-the-counter market. Yields for prior periods were computed on the basis of the mean of closing bid and ask quotations. For definition of taxable bonds, see footnotes to the "Treasury Survey of Ownership" in this issue of the "Treasury Bulletin."	vviously shown in this table, which was discontinued after March 1953.
2/ Prior to April 1953, the single series on long-term taxable Treasury bonds included the following: April 1952 through March 1953, bonds neither due nor callable for 12 years; October 1941 through March 1952, bonds neither due nor callable for 15 years. For a discussion of the composition of these Treasury bond averages, see the "Treasury Bulletin" for March 1944, page 58.	Beginning with the August 1955 issue of the "Treasury Bulletin" this average (bonds due or callable from 10-20 years) replaces the average of those due or callable from 12-20 years, previously shown in this column.
3/ Moody's Investors Service average of Aaa corporate bonds. This series supersedes the Treasury average of high-grade corporate bonds pre-	2/ Average covers 8-1/2 months beginning April 15, the inception date of this series.
	6/ The long-term taxable Treasury bond average was revised beginning April 1, 1952; see footnote 2. The old average for April 1952 was 2.62 percent.
	7/ Includes the 3% bonds of February 15, 1955, first quoted on January 28, 1955.

Source: Internal Revenue Service reports for detail of collections by type of tax; daily Treasury statement for budget receipts from internal revenue through the fiscal year 1954, and the "Monthly Statement of Receipts and Expenditures of the United States Government" for receipts thereafter. Certain detail by the type of tax is available only on the basis of returns filed with the Internal Revenue Service. The figures shown include collections for credit to special accounts for certain island possessions, as reported by the Internal Revenue Service. June 1955 is the latest month for which Internal Revenue Service figures have been released as yet.

1/ Differences between the amounts of internal revenue reported by the Internal Revenue Service as collections for given periods and the amounts reported in Treasury statements as budget receipts for the same periods arise because of differences in the time when payments are included in the respective reports. Tax payments are included in budget receipts when they are reported as credits to the account of the Treasurer of the United States. Prior to July 1954, they were included in Internal Revenue Service collection reports after the returns to which they applied had been received in internal revenue offices. Under procedure begun in 1950 with withheld income tax and old-age insurance taxes and later extended to railroad retirement taxes and many excises, these taxes are paid currently into Treasury depositories and the depository receipts, as evidence of such payment, are attached to quarterly returns to the Internal Revenue Service. Under this procedure, the payments are included in budget receipts in the month in which the depository receipts are issued to the taxpayers.

Revised accounting procedures effective July 1, 1954, extended the same practice to Internal Revenue Service collection reports.

2/ Monthly figures include old-age insurance tax on self-employment income, which is levied and collected as part of the individual income tax beginning with the taxable year 1951. Fiscal year figures exclude this tax, on the basis of estimates beginning 1952 (see footnote 3), and it is included under "Old-age insurance taxes."

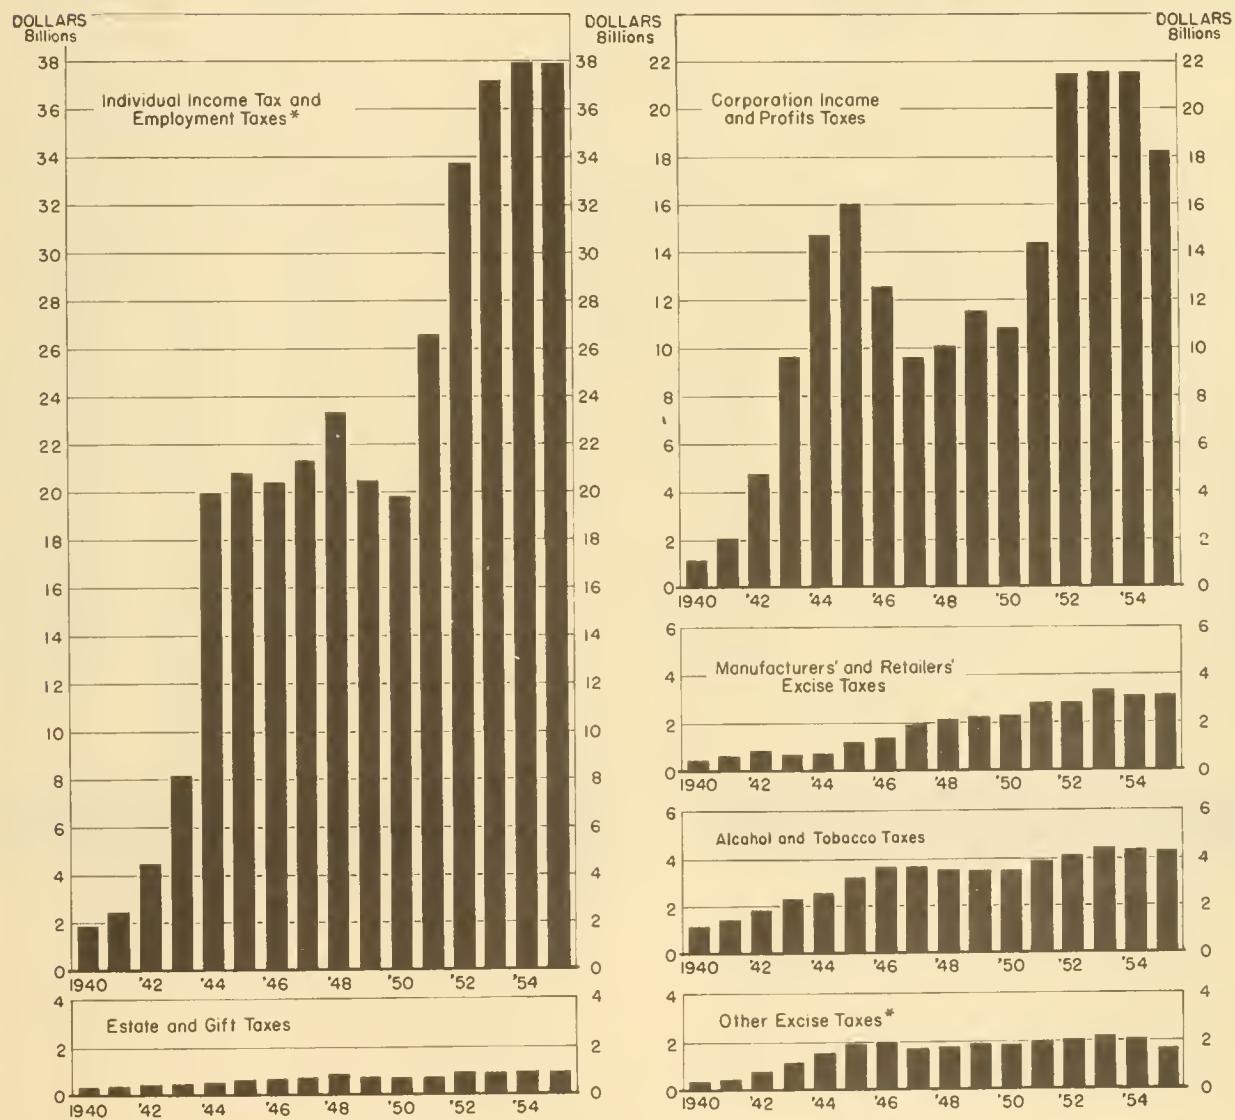

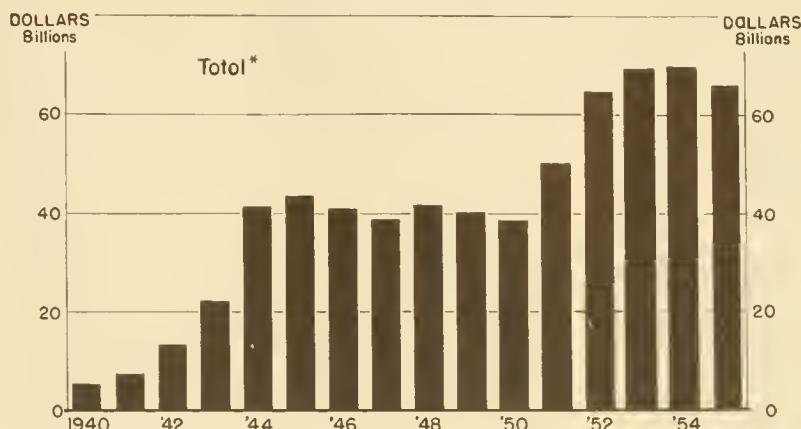

3/ Withheld income tax and old-age insurance taxes on employers and employees are paid into the Treasury in combined amounts beginning January 1951. In Internal Revenue Service reports, current collections have not been separated as to type of tax but the breakdown shown for fiscal years beginning 1951 is based on estimates made in accordance with provisions of Sec. 109 (e) (2) of the Social Security Act Amendments of 1950, for transfer of tax receipts to the Federal Old-Age and Survivors Insurance Trust Fund. New reporting basis beginning with the fiscal year 1953; for explanation, see footnote on page 1.

4/ Beginning July 1954, collections shown include undistributed depositary receipts. It will be noted that for excise taxes the undistributed depositary receipts are included in the total only.

5/ Repealed for years ending after June 30, 1945. Beginning 1951, included under "Miscellaneous taxes."

CAPITAL MOVEMENTS

Data relating to capital movements between the United States and foreign countries have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, Executive Order 10033 of February 8, 1949, and Treasury regulations promulgated thereunder. Information covering the principal types of data and the principal countries is reported monthly, and is published regularly in the "Treasury Bulletin." Supplementary information is published at less frequent intervals. Reports by banks, bankers, securities brokers and dealers, and industrial and commercial concerns in the United States are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury. Beginning April 1954, data reported by banks in the Territories and possessions of the United States are included in the published data.

The term "foreigner" as used in these reports covers all institutions and individuals domiciled outside the United States and its Territories and possessions, the official institutions of foreign countries, wherever such institutions may be located, and international organizations. "Short-term" refers to original maturities of one year or less, and "long-term" refers to all other maturities. A detailed discussion of the reporting coverage, statistical presentation, and definitions appeared in the June 1954 issue of the "Treasury Bulletin,"

pages 45-47. As a result of changes in presentation introduced in that issue, not all breakdowns previously published will be exactly comparable to those now presented.

The first three sections which follow are published monthly. They provide summaries, by periods and by countries, of data on short-term banking liabilities to and claims on foreigners and transactions in long-term securities by foreigners, and present detailed breakdowns of the latest available preliminary data.

Section IV provides supplementary data in five tables which appear at less frequent intervals. Table 1, short-term foreign liabilities and claims reported by nonfinancial concerns, is published quarterly in the January, April, July, and October issues of the Bulletin. Table 2, long-term foreign liabilities and claims reported by banks and bankers, and Table 3, estimated gold and short-term dollar resources of foreign countries, are published quarterly in the March, June, September, and December issues. Table 4, foreign credit and debit balances in brokerage accounts, appears semiannually in the March and September issues. Table 5, short-term liabilities to foreigners in countries and areas not regularly reported separately by banking institutions, is presented annually in the April issue.

CORPORATIONS AND CERTAIN OTHER BUSINESS-TYPE ACTIVITIES

Financial statements of corporations in which the United States Government has a proprietary interest, direct or indirect, and of certain other business-type activities of the United States Government are submitted quarterly to the Treasury Department, in accordance with Budget-Treasury Regulation No. 3, issued under Executive Order No. 8512 of August 13, 1940, as amended by Executive Order No. 9084 of March 3, 1942. Data from these reports, adjusted for consistency where necessary, are compiled in a series of tables covering balance sheets, statements of income and expenses, and statements of source

and application of funds, which are published in the "Treasury Bulletin".

The balance sheet tables for June 30, 1955, appear in this issue. They are published for each quarter. The tables on income and expense and source and application of funds are published at six-month intervals, and cover periods ending June 30 and December 31. They appear in each case in a Bulletin issue subsequent to that carrying the corresponding balance sheet data.
