Source: Actual figures are from the old Daily Treasury Statement through the calendar year 1953 except as noted; actual figures on the new reporting basis (see footnote 6) are from the new Daily Treasury Statement and the new Monthly Statement of Receipts and Expenditures of the United States Government; estimates are based on the "Review of the 1955 Budget", released September 14, 1954. More detailed information with respect to the figures on this page is given in succeeding tables.

- 1/ Gross receipts less appropriations to the Federal Old-Age and Survivors Insurance Trust Fund and the Railroad Retirement Account, and refunds of receipts.
- 2/ Transactions of the Foreign Economic Cooperation Trust Fund, established under Section 114 (f) of the Economic Cooperation Act of 1948 (62 Stat. 150), are consolidated with budget expenditures.
- 3/ Consists of transactions of trust and deposit funds, investments of Government agencies in public debt securities, and sales and redemptions of obligations of Government agencies in the market; excess of receipts, or expenditures (-).
- 4/ For checks and interest coupons outstanding and telegraphic reports from Federal Reserve Banks, and beginning with the fiscal year 1954, also deposits in transit and cash held outside the Treasury; net increase, or decrease (-).
- 5/ For current month detail, see section on "Statutory Debt Limitation" in each issue of the Bulletin. The limitations in effect during the

period covered by this table and the date when each became effective are as follows: March 28, 1942, \$125 billion; April 11, 1943, \$210 billion; June 9, 1944, \$260 billion; April 3, 1945, \$300 billion; June 26, 1946, \$275 billion; and August 28, 1954, \$281 billion (temporary increase ending on June 30, 1955). Guaranteed securities are included under the limitation beginning April 3, 1945. Savings bond are included at current redemption value beginning June 26, 1946; prior to that time they were included at maturity value. In the debt outstanding, savings bonds are carried at current redemption value.

- 6/ New reporting basis as announced February 17, 1954 (see April 1954 "Treasury Bulletin", page A-2). The new Daily Treasury Statement shows cash deposits and withdrawals in the account of the Treasurer of the United States. The new Monthly Statement includes agency transactions not cleared through the Treasurer's account, and shows receipts when they are received by collecting officers and expenditures when checks are issued or payments are made by disbursing officers. Figures for July 1953 through January 1954 will be shown by months in a subsequent issue, after analysis of the monthly data on the new basis has been completed.

8/ Includes proceeds from sale of surplus property and from Government-owned securities; sainiorage; deposits resulting from renegotiation of war contracts (see "Treasury Bulletin" for February 1948, page 5); and railroad unemployment insurance contributions for administrative expenses through 1953, after which they are carried as trust account receipts under the Railroad Retirement Board.

9/ Amounts appropriated to the Federal Old-Age and Survivors Insurance Trust Fund are equivalent to the amounts of taxes collected and deposited for old-age insurance (42 U.S.C. 401 (a)). The Social Security Act Amendments of 1950, approved August 28, 1950 (64 Stat. 471), changed in certain respects the basis of transferring the appropriated funds to the trust fund. Beginning January 1951, the amounts trans-

ferred currently as appropriations to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury pursuant to the provisions of Sec. 109 (a)(2) of the Amendments of 1950, and are adjusted in later transfers on the basis of wage and self-employment income records maintained in the Social Security Administration.

10/ Excludes the Government's contribution for creditable military service under the act of April 8, 1942 (56 Stat. 204). Beginning 1952, amounts are appropriated to the Railroad Retirement Account equal to the amount of taxes under the Railroad Retirement Tax Act deposited in the Treasury, less refunds, during each fiscal year (65 Stat. 222 and 66 Stat. 371), and transfers are made currently. Previously, annual appropriations were based, in effect, on estimated tax collections, with any necessary adjustments made in succeeding appropriations.

BUDGET RECEIPTS AND EXPENDITURES

Footnotes for Tables 1 through 5 - (Continued)

- 12/ Expenditures are "net", after allowance for reimbursements to appropiations, receipts of revolving fund appropiations, and receipts credited to disbursing accounts of corporations and agencies having authority to use collections without formal covering into the Treasury. The figures include transfers to trust accounts. They exclude net investments of wholly owned Government corporations and agencies in public debt securities beginning 1951 (when these investments were grouped with those of trust funds and accounts), and public debt retirements chargeable to the sinking fund, etc., under special provisions of law. Payments to the Treasury, principally by wholly owned Government corporations, for retirement of capital stock and disposition of earnings are excluded from both receipts and expenditures. Further information on these capital transfers may be found in the 1953 Annual Report of the Secretary of the Treasury, page 332.
- 13/ Beginning November 1949, interest on the public debt is reported as an expenditure when such interest becomes due and payable, as distinguished from the previous practice of showing the expenditure on the basis of interest paid by the Treasurer of the United States.
- 14/ Consists of Veterans' Administration expenditures, including the direct loan program.
- 15/ Includes transactions relating to the Foreign Economic Co-operation Trust Fund (see page 1).
- 16/ Net transactions by the Departments of the Air Force and the Army relating to "Deposit fund accounts" are included under "Trust Account and Other Transactions" instead of "Budget Receipts and Expenditures" beginning 1952.
- 17/ Includes interest on refunds of taxes and on uninvested trust funds, for which separate estimates are not available.
- 18/ Includes retired pay for the military services beginning September 1949.
- 19/ Excludes certain expenditures made on behalf of the Department of the Air Force out of appropriations to the Department of the Army.
- 20/ Includes certain expenditures on behalf of the Department of the Air Force (see footnote 19).
- 21/ Consists of expenditures from funds appropriated to the President under the Mutual Security Act, approved October 10, 1951 (22 U.S.C. 1651), and the preceding Economic Cooperation Act; and Greek-Turkish assistance.
- 22/ Consists of expenditures of the Atomic Energy Commission.
- 23/ Consists of payments under the Armed Forces Leave Act, expenditures for surplus property disposal, and in 1947 also national defense expenditures of the Reconstruction Finance Corporation and certain other agencies.
- 24/ Excludes Bank expenditures under the Mutual Security Act and the preceding Economic Cooperation Act of 1948, as amended.
- 25/ Consists of expenditures from funds appropriated to the President under the Mutual Security Act, and the preceding Economic Cooperation Act.
- 26/ Consists of expenditures under the Bretton Woods Agreements Act (1947); credit to the United Kingdom (1947 and 1948); expenditures of the United Nations Relief and Rehabilitation Administration; relief to countries devastated by war; various other foreign relief programs; international children's emergency funds; and loan for construction and furnishing of United Nations Headquarters.
- 27/ Expenditures for this purpose by the Department of State are included under "Department of State" in this table; expenditures by other agencies, no longer shown separately in monthly reports to the Treasury, are not included in this table.
- 28/ Consists of expenditures of the Department of Health, Education, and Welfare except the Office of Education, and of the corresponding component organizations prior to the establishment of this department on April 11, 1953; the Government's contribution under the Railroad Retirement Act for creditable military service and certain other Railroad Retirement Board expenditures through 1953; and also, beginning 1950, the school lunch program under the Department of Agriculture.
- 29/ Consists of expenditures of the Housing and Home Finance Agency, and of component organizations prior to the establishment of this agency on July 27, 1947; Federal Civil Defense Administration; and disaster relief.
- 30/ Consists of expenditures of the Department of Agriculture except the Forest Service and the school lunch program; and of the Farm Credit Administration.
- 31/ Consists of expenditures of the Department of the Interior; the Tennessee Valley Authority; the Corps of Engineers in the Department of the Army (river and harbor works and flood control); and the Forest Service in the Department of Agriculture.
- 32/ Consists of expenditures of the Civil Aeronautics Administration, Civil Aeronautics Board, Maritime activities and predecessor agencies, and Bureau of Public Roads, all now in the Department of Commerce; the Coast Guard in the Treasury Department; and the Postal Service Fund (advances to cover the postal deficit) in the Post Office Department.
- 33/ Consists of expenditures of the Department of Commerce except those included under "Transportation and communication"; the Reconstruction Finance Corporation (as in liquidation by the Treasury Department beginning July 1954); Federal Facilities Corporation beginning July 1954; the Small Business Administration; the Economic Stabilization Agency; and funds appropriated to the President for the promotion of defense production.

1/ Consists of Civil Service and Foreign Service retirement funds.

2/ Consists of Adjusted Service Certificate Fund prior to 1951; beginning with that year, includes also investments of other accounts which for prior years are included in Table 3 under "Other trust funds and accounts" and "Deposit fund accounts (net)".

3/ Consists of net investments of Government corporations which for prior years are included in Table 3 under "Deposit fund accounts (net)", and net investments of wholly owned Government corporations and agencies, which for prior years are included in budget expenditures.

5/ Less than \$500,000. p Preliminary. n.e. Not available.

The cash income and outgo of the Treasury shown in Table 1 consist of cash deposits and withdrawals in the account of the Treasurer of the United States. This is in line with the new reporting basis of the "Daily Statement of the United States Treasury". Effective February 17, 1954, the Daily Treasury Statement shows deposits and withdrawals in the account of the Treasurer of the United States. Budget results and trust account and other transactions are now reported once each month in the "Monthly Statement of Receipts and Expenditures of the United States Government" (see page A-2 in the April 1954 issue of the "Treasury Bulletin").

Figures for previous fiscal years heretofore published have been revised to the basis of deposits and withdrawals by eliminating corporation and agency transactions included in the old Daily Statement but not cleared through the Treasurer's account. The cash borrowing or repayment of borrowing as now shown is likewise based only on transactions cleared through the Treasurer's account.

In Tables 2, 3, and 4 is given the reconciliation of the cash transactions with the budget and other transactions which formerly appeared in the old Daily Statement and now appear in the new Monthly Statement. These tables

follow the method used previously for deriving cash income and outgo from the transactions carried in the old Daily Statement. Some rearrangement has been made in the table setup, principally to combine all receipts and all expenditures instead of deriving separately the cash budget and trust account transactions.

Reporting bases for the two statements differ in two respects. Certain corporation and agency transactions in securities which are not effected through the account of the Treasurer of the United States are included in the Monthly Statement but excluded from the Daily Statement. These are eliminated from the Monthly Statement figures in arriving at the cash transactions shown in the tables which follow. Other differences arise because of the differences in timing, as between checks issued (Monthly Statement) and checks paid (Daily Statement) for expenditures or between collections (Monthly Statement) and clearances (Daily Statement) for receipts. Thus an individual transaction near the end of a month may be included during that month in one statement but not until the following month in the other. These differences tend to correct themselves over a period of time, but for a given reporting date it is necessary to include an adjustment figure to cover them.

Source: Actual figures through 1953 on the old basis are based on the old Daily Treasury Statement; actual figures on the new reporting basis are based on the new Daily Treasury Statement, except the memorandum item, which is from the new "Monthly Statement of Receipts and Expenditures of the United States Government"; estimates are based on the "Review of the 1955 Budget", released September 14, 1954.

1/ Consists of seigniorage on silver and increment resulting from reduction in weight of the gold dollar. This item is part of the cash budget receipts shown in these tables, but is excluded from the Bureau

of the Budget figures for "Receipts from the public".
2/ In addition to this decrease in the balance in the Treasurer's account, the Exchange Stabilization Fund was drawn down by the \$1,800 million for subscription to the capital of the International Monetary Fund.

3/ For explanation, see headnote. Figures for July 1953 through January 1954 will be shown by months in a subsequent issue, after analysis of the monthly data on the new basis has been completed.

Source: Actual figures through 1953 on the old basis are based on the old Daily Treasury Statement; actual figures on the new reporting basis are based on the new "Monthly Statement of Receipts and Expenditures of the United States Government"; estimates are based on the "Review of the 1955 Budget", released September 14, 1954. The Monthly Statement figures for a given month appear in the Bulletin issue following that which carries the corresponding Daily Statement figures in Table 1.

1/ For further detail, see "Budget Receipts and Expenditures", Table 1. As explained in that table, figures have been revised to treat appropriations of receipts to the Railroad Retirement Account as deductions from receipts.

2/ Deduction from budget receipts of the tax refunds represented by these bonds is treated as a noncash deduction at the time of issuance of the bonds and as a cash deduction at the time of redemption of the bonds (see Table 4); net issuance, or redemption (-).

3/ See Table 1, footnote 3.

4/ By Federal Old-Age and Survivors Insurance Trust Fund through October 1948. Thereafter includes also reimbursements from the District of Columbia, etc.

5/ Includes proceeds of ship sales carried in trust accounts pending allocation to budget receipts from sale of surplus property, transfers between trust accounts, and payment of earnings or repayment of capital stock to the Treasury by corporations not wholly owned. Figures for 1947 and 1948 include \$53 million and \$8 million, respectively, of armed forces leave bonds redeemed for insurance premiums; after August 31, 1947, these bonds were redeemable for cash.

6/ For explanation, see headnote. Excess of receipts on Monthly Statement basis is deducted.

1/ For further detail, see "Budget Receipts and Expenditures", Table 2. As explained in that table, figures have been revised to treat appropriations of receipts to the Railroad Retirement Account as deductions from receipts instead of budget expenditures for transfers to trust accounts.

5/ Prior to 1951, consists of net investments of corporations not wholly owned; beginning with that year, includes also those of wholly owned corporations and agencies which for prior years are included in budget expenditures.

6/ See Table 1, footnote 3.

7/ Treated as noncash expenditures at the time of issuance and as cash ex-

penditures at the time of redemption; net issuance, or redemption (-). For explanation, see headnote. Excess of expenditures on Monthly Statement basis is deducted.

8/ As shown in the "Monthly Statement of Receipts and Expenditures of the United States Government"; consists of changes in checks and interest coupons outstanding and telegraphic reports from Federal Reserve Banks, and beginning with the fiscal year 1954, also changes in deposits in transit and cash held outside the Treasury.

9/ Net investments of Government agencies in public debt securities and net redemptions of obligations of Government agencies in the market. Since deposit funds (net) are included under trust account expenditures, the interest received by corporations not wholly owned is carried there as a negative expenditure. Thus when budget expenditures and trust account expenditures are combined, the payment and receipt of this interest offset each other. Payment of interest to wholly owned Government corporations is offset because it is treated as a negative budget expenditure when received by the corporations.

1/ Original call and maturity dates are used.

2/ All by investors other than Federal Reserve Banks.

3/ These nonmarketable bonds, dated April 1, 1951, and maturing April 1, 1980, are exchangeable for 1-1/2% marketable Treasury notes; see Table 3, footnote 2. In the reopening, the Investment Series bonds were offered for cash subscriptions as well as exchange, and not less than one quarter of each subscription had to be paid in cash. The 2% certificates maturing August 15, 1953, were reopened for the December 1, 1952, refunding (see Table 3).

4/ The 2-1/2% bonds maturing December 15, 1958, were reopened for the December 1, 1953, refunding (see Table 3).

6/ On November 9, 1953, the Treasury purchased from the Federal Reserve System and retired \$500 million of the 2-1/8% Treasury notes maturing December 1, 1953. For further details see "Treasury Bulletin" for November 1953, page A-1.

7/ For details of exchange offering see Table 3, footnote 15.

8/ It had been announced that holders of these bonds would be given an opportunity to exchange them for another Treasury issue after February 15, 1954. This exchange offering was included in the refundings of May 17, 1954.

UNITED STATES SAVINGS BONDS.

United States savings bonds were first offered in March 1935 and began to mature in March 1945. Series A-D were sold between March 1935 and the end of April 1941, and Series E, F, and G were first offered in May 1941. When Series E began to mature on May 1, 1951, owners of the matured bonds were offered three options: To redeem the bonds in cash in accordance with the original terms; to retain them with an extended maturity of 10 years at specified rates of interest accrual; or to exchange them for Series G bonds. A number of changes became effective May 1, 1952. The principal ones were: The rate of interest accrual on Series E was increased, especially for the near term, with corresponding changes in extended Series E; and Series F and G were replaced by two new issues, Series J and K, also at higher interest rates. A new new current-income bond, Series H, similar in interest return to Series E, was offered beginning June 1. For

details of these changes see "Treasury Bulletin" for May 1952, page A-1. Series F and G began to mature on May 1, 1953. For the exchange offering made to holders of these bonds maturing through December 31, 1953, see the May 1953 issue, page A-1. The Treasury invited holders of Series F and G which began to mature in January 1954 to reinvest the proceeds in other series of savings bonds. In the tables which follow, Series A-F and J sales are included at issue price and total redemptions and amounts outstanding at current redemption values. Series G, H, and K are included at face value throughout. Matured bonds which have been redeemed are included in redemptions. Matured F and G bonds outstanding are included in the interest-bearing debt until all bonds of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

- 1/ Details by series on a cumulative basis and by periods for Series A-D combined will be found in the February 1952 and previous issues of the "Treasury Bulletin".
 2/ Includes exchanges of matured Series E bonds for Series G bonds beginning May 1951 and for Series K bonds beginning May 1952.
 3/ Includes both matured and unmatured bonds; see Table 4.
 4/ Includes total value of redemptions not yet classified between matured and unmatured bonds.
 5/ A change in procedure, beginning in June 1954, for processing redeemed savings bonds has resulted in high level of redemptions not yet classified between matured and unmatured bonds. This increase temporarily obscures the relationship between the redemption columns

showing sales price and accrued discount in Tables 2 through 4 and also the relationship between the matured and unmatured sections of Table 4. (See also footnote 4.) The subsequent distribution of this high level of unclassified redemptions in the months following June may be large enough in any month to show redemptions of matured bonds for a series in Table 4 which are greater than the total redemptions of that series as shown in Table 3.

6/ Sales begin June 1, 1950.

7/ Comparable data are not available prior to January 1950.

8/ Includes exchanges of Series 1941 F and G savings bonds for Treasury 3-1/4% bonds of 1978-83.

* Less than \$500,000.

TREASURY SAVINGS NOTES

Treasury tax and savings notes have been issued as follows: Tax Series A from August 1, 1941, through June 22, 1943; Tax Series B from August 1, 1941, through September 12, 1942; Savings Series C (originally designated Tax Series C) from September 14, 1942, through August 31, 1948; Savings Series D from September 1, 1948, through May 14, 1951; Savings Series A from May 15, 1951, through May 14, 1953; Savings Series B from May 15, 1953, through September 25, 1953; and a new Savings Series C from October 1, through October 23, 1953, when sale of these notes was suspended. Details concerning terms and conditions for purchase and redemption and information on investment yields of Savings Series C appear in the October 1953 issue of the "Treasury Bulletin", page A-1.

Similar information with respect to the offering of the earlier series was published currently in the "Treasury Bulletin", and appears also in the "Annual Report of the Secretary of the Treasury" for appropriate years.

In the following tables sales and redemptions of Treasury savings notes are shown at par value. Matured notes redeemed (either for cash or for tax payment) are included in the figures on redemptions. Matured notes outstanding are reflected in the interest-bearing debt until all notes of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

1/ Consists of purchases or sales made by the Treasury of securities issued or guaranteed by the U. S. Government for (1) trust funds which by law are under the control of the Secretary of the Treasury or of the Treasurer of the United States, and (2) accounts under the control of certain U. S. Government agencies whose investments are handled through the facilities of the Treasury Department. It will be noted that these

transactions differ from those reflected in Table 1 because they exclude those Government investment accounts for which investments are not handled by the Treasury. Table 2 also includes purchases under Section 19 of the Second Liberty Bond Act, as amended (31 U.S.C. 754 a), and excludes the Exchange Stabilization Fund.

TREASURY SURVEY OF OWNERSHIP, AUGUST 31, 1954

The Treasury Survey of Ownership covers securities issued by the United States Government and by Federal agencies. The banks and insurance companies included in the Survey account for approximately 95 percent of such securities held by all banks and insurance companies in the United States. Data were first published for March 31, 1941, in the May 1941 "Treasury Bulletin".

Distribution of ownership by types of banks and insurance companies is published each month. Holdings by commercial banks distributed according to Federal Reserve member-bank classes and nonmember banks are published for June 30 and December 31. Holdings by corporate pension trust funds are published quarterly and first appeared in the March 1954 Bulletin for quarters beginning December 31, 1949.

3/ Includes trust companies and, beginning with figures for July 1949, also includes stock savings banks. Formerly these banks were shown as a separate classification, but they are no longer so reported.

4/ Includes those banks and insurance companies not reporting in the Treasury Survey.

"Partially" tax-exempt securities are those with the income exempt from the normal tax except that in the case of partially tax-exempt Treasury bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax. "Taxable" securities are those with the income subject to normal tax and surtax.

1/ Tax Anticipation Series.

2/ Beginning April 1953, prices are closing bid quotations in the over-the-counter market. Prices for prior dates are the mean of closing bid and ask quotations, except that before October 1, 1939, they are closing prices on the New York Stock Exchange. "When issued" prices are included in history beginning October 1, 1939. Dates of highs and lows in case of recurrence are the latest dates.

3/ Excess of price over zero yield.

4/ Amount issued on October 4, 1954, was \$4,155 million.

5/ Called on August 12, 1954, for redemption on December 15, 1954.

6/ Not called for redemption on June 15, 1954. Will mature on December 15, 1954.

7/ Yield to maturity. Yields are computed to call date when the price is above par and to maturity when the price is at or below par.

8/ Included in the average of taxable Treasury bonds due or callable from 12 to 20 years beginning April 15, 1953; as shown under "Average Yield of Long-Term Bonds".

9/ First quoted April 15, 1953. This issue is listed under a new long-term taxable Treasury bond class due or callable 20 years and after as shown under "Average Yield of Long-Term Bonds".

10/ For definition, see "Debt Outstanding and Treasurer's Account", Table 2, footnote 1.

YIELDS OF TAXABLE TREASURY SECURITIES, SEPT. 30, 1954
Based on Closing Bid Quotations

Explanation: The points represent yields to call when prices are above par, and to maturity date when prices are at par or below. The smooth curves for the various classes of points are fitted by eye. Issues for which an exchange offer has been made or which are due or callable in less than 3 months are excluded.

1/ Beginning April 1953, Treasury bond yields are reported to the Treasury by the Federal Reserve Bank of New York, based on closing bid quotations in the over-the-counter market. Yields for prior periods were computed on the basis of the mean of closing bid and ask quotations. For definition of taxable bonds, see footnotes to the "Treasury Survey of Ownership" in this issue of the "Treasury Bulletin".

2/ Prior to April 1953, the single series on long-term taxable Treasury bonds included the following: April 1952 through March 1953, bonds neither due nor callable for 12 years; October 1941 through March 1952, bonds neither due nor callable for 15 years. For a discussion of the

composition of these Treasury bond averages, see the "Treasury Bulletin" for March 1944, page 58.

3/ Moody's Investors Service average of Aaa corporate bonds. This series supersedes the Treasury average of high-grade corporate bonds previously shown in this table, which was discontinued after March 1953.

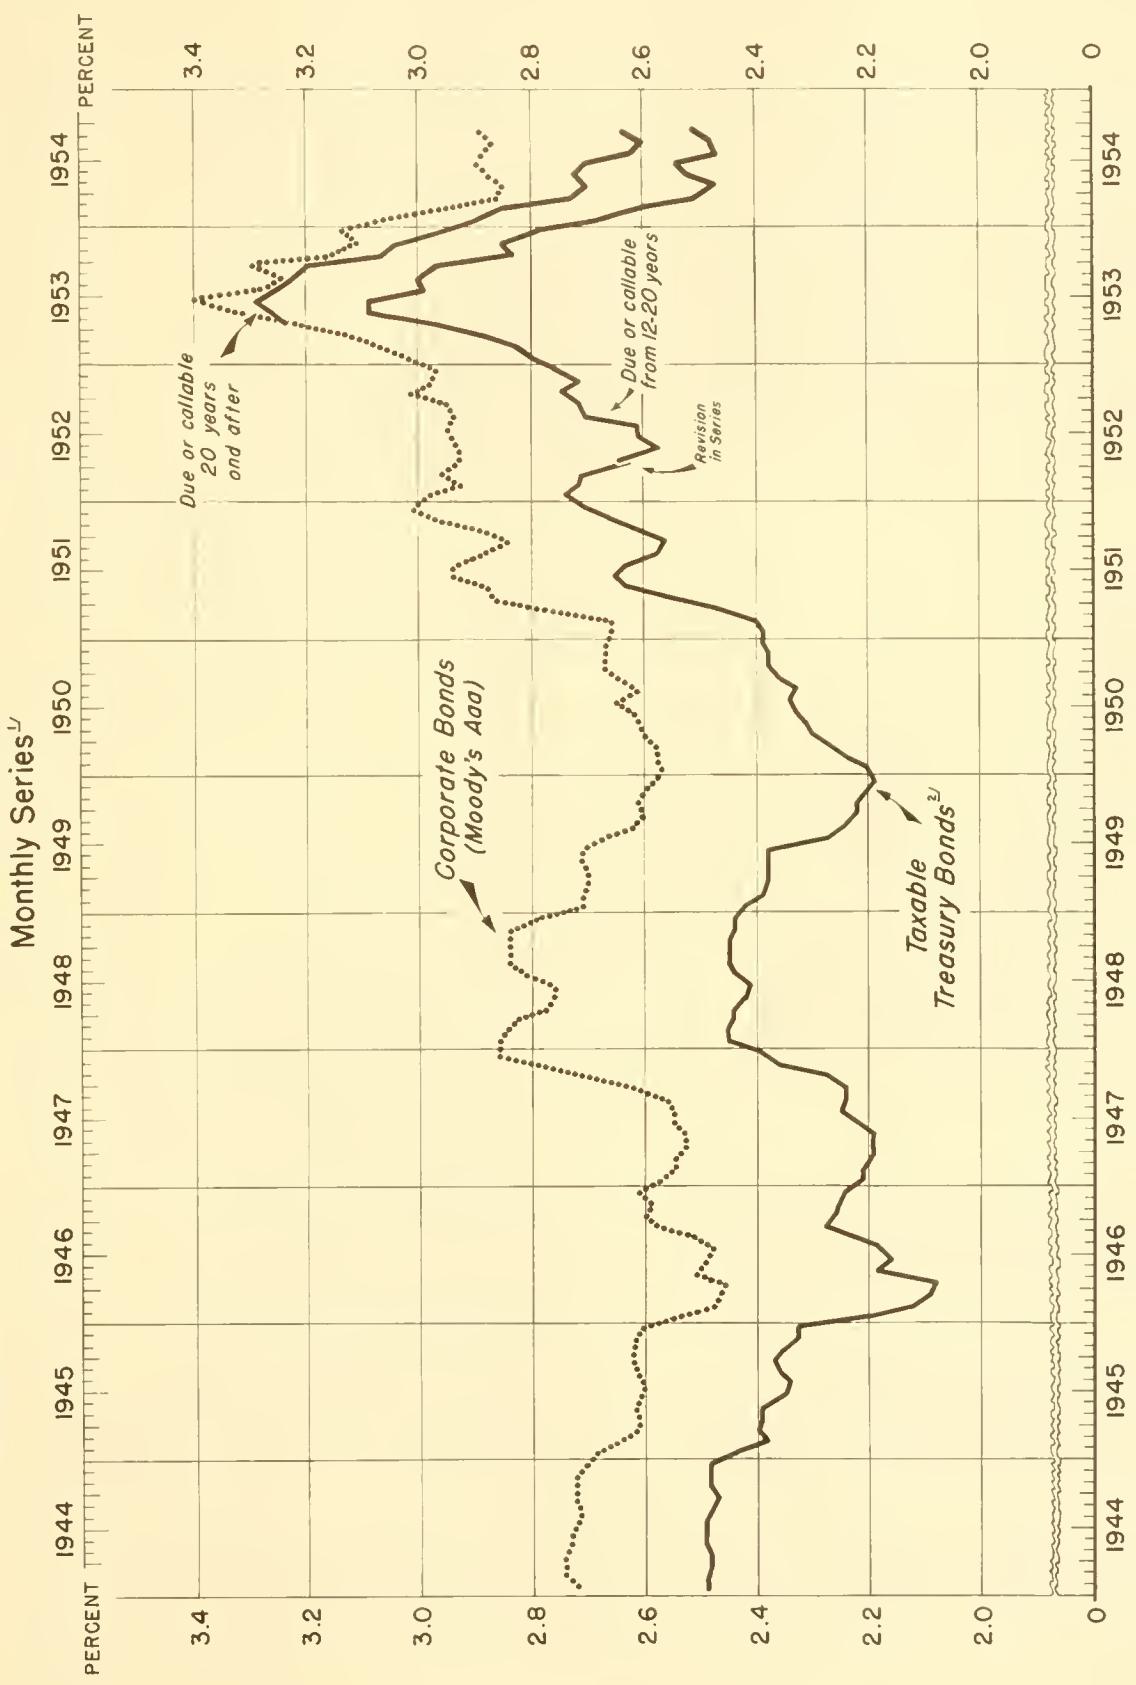

4/ Average covers 8-1/2 months beginning April 15, the inception date of this series.

5/ The long-term taxable Treasury bond average was revised beginning April 1, 1952, see footnote 2. The old average for April 1952 was 2.62 percent.

6/ Market closed.

Source: Internal Revenue Service for detail of collections by type of tax; Daily Treasury Statement for budget receipts from internal revenue through the fiscal year 1953, and the new "Monthly Statement of Receipts and Expenditures of the United States Government" for receipts thereafter. Certain detail by type of tax is available only on the basis of returns filed with the Internal Revenue Service.

1/ Excludes collections for credit to certain trust accounts for island possessions; includes corporation income tax on Alaska Railroad (repealed by Public Law 386, approved June 10, 1952, for taxable years ending after that date).

2/ Differences between the amounts of internal revenue reported by the Internal Revenue Service as collections for given periods and the amounts reported in Treasury statements as budget receipts for the same periods arise because of differences in the time when payments are included in the respective reports. Tax payments are included in budget receipts when they are reported as credits to the account of the Treasurer of the United States. Prior to July 1954, they were included in Internal Revenue Service collection reports after the returns to which they applied had been received in internal revenue offices. Under arrangements begun in 1950 with withheld income tax and old-age insurance taxes and later extended to railroad retirement taxes and many excises, these taxes are paid currently into Treasury depositories and the depository receipts, as evidence of such payment, are attached to quarterly returns to the Internal Revenue Service. Under this procedure, the payments are included in budget receipts in the month in which the depository receipts are issued to the taxpayers. Revised accounting procedures

effective July 1, 1954, extended the same practice to Internal Revenue Service collection reports.

3/ Monthly and 1954 fiscal year figures include old-age insurance tax on self-employment income, which is levied and collected as part of the individual income tax beginning with the taxable year 1951. Other fiscal year figures exclude this tax, on the basis of estimates beginning 1952 (see footnote 4), and it is included under "Old-age insurance taxes".

4/ Withheld income tax and old-age insurance taxes on employees and employees are paid into the Treasury in combined amounts beginning January 1951. In Internal Revenue Service reports, current collections have not been separated as to type of tax but the breakdown shown for fiscal years beginning 1951 is based on estimates made in accordance with provisions of Sec. 109 (a) (2) of the Social Security Act Amendments of 1950, for appropriations to the Federal Old-Age and Survivors Insurance Trust Fund.

5/ New reporting basis beginning with the fiscal year 1954; for explanation, see footnote on page 1. Figures for the month of January 1954 are not yet available on the new basis.

6/ Beginning July 1954, collections shown include undistributed depositary receipts. For the amount of such receipts, see Table 2.

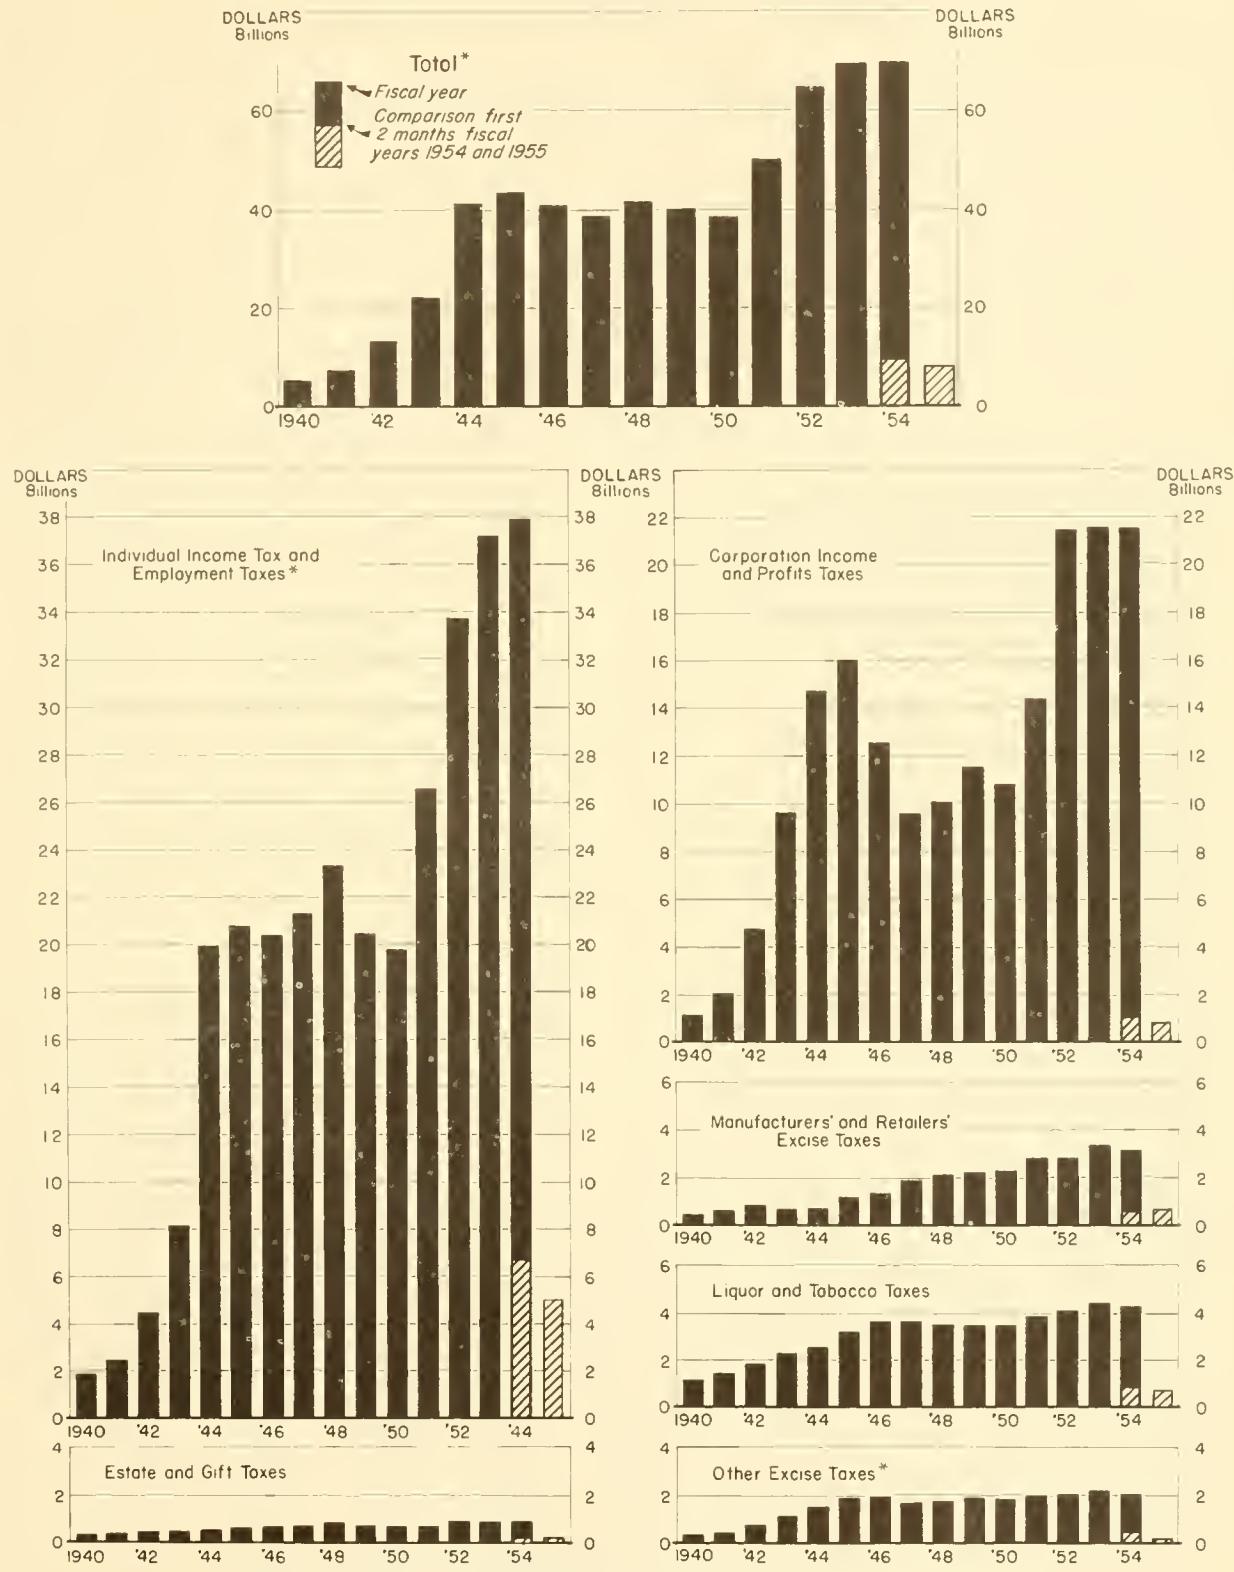

7/ Repealed for years ending after June 30, 1945. Beginning 1951, included under "Miscellaneous taxes".

8/ See Table 2, footnote 6, regarding change to quarterly returns in the fiscal year 1954.

9/ Beginning July 1954, total includes the whole amount of undistributed depositary receipts for excise taxes.

3/ Includes old-age insurance tax on self-employment income, imposed by the Social Security Act Amendments of 1950 (Public Law 734), approved August 28, 1950. The tax is levied and collected as part of the individual income tax beginning with the taxable year 1951. For estimated fiscal year breakdown, see Table 1.

4/ Beginning January 1951, withheld income tax and social security employment taxes on employers and employees are paid into the Treasury in combined amounts, pursuant to the Social Security Act Amendments of

1950. For estimated fiscal year breakdown, see Table 1.

5/ Under revised accounting procedures effective July 1, 1954, tax payments made to banks under the depositary receipts system are included in Internal Revenue Service reports of collections in the month in which the depositary receipts are issued instead of the month in which tax returns supported by the depositary receipts are received in internal revenue offices, as was the previous practice. The "Undistributed depositary receipts" included in the collections represent the amount of depositary receipts issued during the period less the amount received with returns. In the case of excise taxes, it is not possible to classify the depositary receipt by type of tax until the returns are received. Accordingly, the amount of such undistributed depositary receipts is included only in the total of excise taxes. Beginning July 1954, therefore, the totals are not strictly comparable with those for preceding periods.

6/ Collections in fiscal year 1954 are not comparable month by month with those in the prior year because of the institution of quarterly returns, effective with the quarter beginning July 1953.

7/ Applies to diesel oil used in highway vehicles.

8/ See Table 1, footnote 2.

9/ New reporting basis beginning with the fiscal year 1954; for explanation, see footnote on page 1.

* Less than \$500.

CAPITAL MOVEMENTS

Data relating to capital movements between the United States and foreign countries have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, Executive Order 10033 of February 8, 1949, and Treasury regulations promulgated thereunder. Information covering the principal types of data and the principal countries is reported monthly, and is published regularly in the "Treasury Bulletin". Supplementary information is published at less frequent intervals. Reports by banks, bankers, securities brokers and dealers, and industrial and commercial concerns in the United States are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury. Beginning April 1954, data reported by banks in the Territories and possessions of the United States are included in the published data.

The term "foreigner" as used in these reports covers all institutions and individuals domiciled outside the United States and its Territories and possessions, the official institutions of foreign countries, wherever such institutions may be located, and international organizations. "Short-term" refers to original maturities of one year or less, and "long-term" refers to all other maturities. A detailed discussion of the reporting coverage, statistical presentation, and definitions appeared in the June 1954 issue of the "Treasury Bulletin", pages 45-47. As a result of changes in presentation introduced in that issue, not all breakdowns previously published will be exactly comparable to those now presented.

The first three sections which follow are published monthly. They provide summaries of the principal data

by periods and by countries and present detailed breakdowns of the latest available preliminary data.

Section IV provides supplementary data which appear at less frequent intervals. The five tables included in this section, under the revised presentation begun in the June 1954 issue of the Bulletin, and the dates of their publication are as follows:

Table 1.- Short-term foreign liabilities and claims reported by nonfinancial concerns - published quarterly beginning July 1954 - previously published October 1949 and 1950, July 1951, 1952, and 1953.

Table 2.- Long-term foreign liabilities and claims reported by banks and bankers - published quarterly beginning June 1954 - previously published December 1949 and 1950, June 1951, 1952, and 1953.

Table 3.- Estimated gold and short-term dollar resources of foreign countries - beginning June 1954, published quarterly.

Table 4.- Foreign credit and debit balances in brokerage accounts - published semiannually beginning September 1954 - published as part of regular monthly series through May 1954.

Table 5.- Short-term liabilities to foreigners in countries and areas not regularly reported separately by banking institutions - published annually since April 1950.

4/ In accordance with Public Law 665, 83d Congress, approved August 26, 1954, the Institute shall, on and after July 1, 1954, be subject to the applicable provisions of the Budget and Accounting Act, 1921, as amended (31 U.S.C. 1), in lieu of the provisions of the Government Corporation Control Act, as amended (31 U.S.C. 841).
5/ Represents accrual of interest in lieu of dividends on capital stock.
6/ Represents activities under the United States Housing Act, as amended. War housing and other operations of the Administration are shown under "Certain other business-type activities."

8/ On September 29, 1953, pursuant to the act approved July 30, 1953 (67 Stat. 230), the Reconstruction Finance Corporation started liquidation of its activities, except those carried on by the Corporation pursuant to Section 409 of the Federal Civil Defense Act of 1950 (64 Stat. 2357), and those carried on pursuant to the Defense Production Act of 1950, as amended (50 U.S.C. App. 2091-2094), which were transferred to the Secretary of the Treasury as of September 28, 1953, and as of the close of business on September 28, 1953 respectively. In accordance with the act approved July 30, 1953 (67 Stat. 230), certain activities of the Corporation were transferred to the Secretary of the Treasury for liquidation on July 1, 1954. Pursuant to Reorganization Plan No. 2 of 1954, effective at the close of business June 30, 1954, certain loans, securities, and other assets, together with the functions relating thereto, were transferred from the Corporation to the Export-Import Bank of Washington, the Federal National Mortgage Association, and the Small Business Administration. War Damage Corporation (in liquidation), shown on pages 62 and 63 in the October 1954 "Treasury Bulletin", did not have any activity during the fiscal year 1954.
9/ Represents accounts held for the United States Treasury in accordance with the act approved June 30, 1948 (62 Stat. 1187-1188), which provided for cancellation of Reconstruction Finance Corporation notes in the amount of \$9,313,736 thousand, plus interest accrued thereon subsequent to June 30, 1947, representing unrecovered costs to the Corporation as of June 30, 1947, in its national defense, war, and reconversion activities, and stipulated that any amounts recovered by the Corporation with respect to these activities subsequent to June 30, 1947, should, after deduction of related expenses, be deposited in the United States Treasury as miscellaneous receipts. The national defense, war, and reconversion activities consist of the synthetic rubber, tin, and abaca programs, and liquidating activities relating principally to the rental and disposal of World War II defense plants and facilities, the settlement of claims and collection of receivables. In accordance with Executive Order No. 10539, dated June 22, 1954, the President authorized and directed the Secretary of the Treasury to organize a corporation under the authority of and subject to the provisions of Section 10 of the Rubber Act of 1948, as amended (50 U.S.C. App. 1929). The corporation is known as the Federal Facilities Corporation. By Executive Order No. 10539, the President transferred the synthetic rubber and tin programs to the Federal Facilities Corporation and the abaca fiber program to the General Services Administration, all effective at the close of business on June 30, 1954. On the same date, the Secretary of the Treasury took over the liquidation of the World War II activities, with the exception of the World War II activities which were transferred to the Export-Import Bank of Washington in accordance with Reorganization Plan No. 2 of 1954. Figures for source and application of funds are shown on a net basis.
10/ The equity of the Reconstruction Finance Corporation in the net assets of this Corporation and the function of liquidating these assets were transferred to the Federal National Mortgage Association effective at the close of business June 30, 1954, pursuant to Reorganization Plan No. 2 of 1954.

15/ The cumulative unreserved surplus or deficit cannot be segregated from the Government's equity in the activity, which consists of expended appropriations and cumulative unreserved surplus or deficit.
16/ This figure will not agree with the corresponding figure shown as excess of income, or expense (-), in the total column of the balance sheets of certain other business-type activities which appear in the October issue of the "Treasury Bulletin", because this figure excludes reserve for contingencies held by the Housing and Home Finance Administrator - Community facilities service, amounting to \$250 thousand, and reserve for amortization held by the General Services Administration - Revolving fund, amounting to \$10,444 thousand.
17/ The revolving fund for development of isolated defense sites, shown under this heading in Table 5, has been terminated. The fund did not have any income or expense during the fiscal year 1954 prior to the date of its termination.
18/ In accordance with Public Law 428, 83d Congress, approved June 24, 1954, a revolving fund was established, effective July 1, 1954, for use in connection with the liquidation of this activity.
20/ Pursuant to Public Law 560, 83d Congress, approved August 2, 1954, the functions of the Housing and Home Finance Administrator, including the function of making payments to the Secretary of the Treasury under Section 2 of Reorganization Plan No. 22 of 1950, together with the notes and capital stock of the Federal National Mortgage Association held by the Administrator, are transferred to the Federal National Mortgage Association.

29/ Represents appropriations made by Congress during the fiscal year 1954, less lapsed appropriations transferred to the "Payment of certified claims" account of the United States Treasury.
30/ This revolving fund was terminated during the fiscal year 1954.
* Less than \$500.
