## Reporting Bases

Data on receipts, expenditures, and debt which appear in the "Treasury Bulletin" are based largely on two Treasury financial reports, the "Daily Statement of the United States Treasury" and the "Monthly Statement of Receipts and Expenditures of the United States Government." Certain monetary statistics are based at least in part on the "Circulation Statement of United States Money." Where these statements are given as sources for individual tables, they are cited by name only. Their respective reporting bases are described below. For other data in the Bulletin, information on sources or reporting bases is given in connection with the tables themselves.

The monthly statement of receipts and expenditures was first published for February 1954, and replaced the daily statement as the primary source of information on budget results and other receipt and expenditure data classified by type of account. At the same time, the daily statement was changed to a statement of cash deposits and withdrawals affecting the account of the Treasurer of the United States. Both publications have provided comparative figures on their respective bases from the beginning of the fiscal year 1953. The announcement of February 17, 1954, with respect to these reporting changes may be found in the April 1954 issue of the Bulletin.

The monthly statement shows all receipts and expenditures of the Government, including those made from cash accounts held outside the United States Treasury. The information is compiled from reports by the Treasurer of the United States and by all other collecting and disbursing agencies, including those agencies which maintain checking accounts in commercial banks. These reports cover transactions recorded in the accounts of the agencies during the reporting period. The net of the transactions as compiled from these reports is reconciled in the monthly statement to changes in the balance in the Treasurer's account and in cash held outside the Treasurer's account and changes in the public debt outstanding.

Receipts of taxes and customs duties are reported on a collections basis. Other receipts are reported partially on a collections basis and partially on a deposits basis. Expenditures, except interest on the public debt, are reported on the basis of checks issued or cash payments made by disbursing officers. Transactions of an interfund or intragovernmental nature are included on the same basis even though the actual issuance of checks may not be involved. Interest on the public debt is included on an accrual basis beginning with figures for June 1955 and the fiscal year 1955. Prior to that, it was included on a due and payable basis. The same reporting basis as that in the monthly statement provides the fiscal year figures for the Treasury's "Combined Statement of Receipts, Expend-

itures and Balances of the United States Government" and for actual receipts and expenditures in the "Budget of the United States Government."

Beginning with the final statement for the fiscal year 1960, the monthly statement reports totals for net budget receipts and budget expenditures after deduction of certain interfund transactions which are included in the detail of both budget receipts and budget expenditures. The transactions deducted consist of interest payments and minor amounts of certain other payments made by Government agencies to the Treasury. This reporting change was made in accordance with the plan stated in the President's Budget Message of January 18, 1960. It does not affect the surplus or deficit. Figures for earlier periods shown in the Treasury Bulletin were revised to the new reporting basis in the September 1960 issue. The interfund transactions deducted under this procedure do not include payments to the Treasury by wholly owned Government corporations for retirement of their capital stock and for disposition of earnings. These capital transfers have been excluded currently from budget receipts and budget expenditures beginning July 1, 1948, and figures for prior fiscal years back through 1932 were revised accordingly at that time.

The daily statement on the new basis was first issued for February 17, 1954. In the deposits and withdrawals as shown, no distinction is made as to the type of accounts (budget, trust, etc.). The deposits are on the basis of certificates of deposit cleared through the account of the Treasurer of the United States. Total withdrawals are on the basis of checks paid or cash disbursements made out of the Treasurer's account. Some of the withdrawal classifications shown are reported on the basis of mailed reports of checks issued and are adjusted by means of clearing accounts to the total of checks paid. Except for relatively minor amounts, noncash interfund and other intragovernmental transactions are excluded. The public debt figures in the daily statement also are on a "clearance" basis, with the exception of those issuance and retirement transactions reported on the basis of telegrams from Federal Reserve Banks. Noncash debt transactions are included, however.

The daily statement before February 17, 1954, covered not only transactions cleared through the Treasurer's account but also certain Government agency transactions which were handled through commercial bank accounts, and included noncash interfund and other intragovernmental transactions. It provided information similar to that in the present daily statement with respect to the status of the Treasurer's account, and similar to that in the present end-of-month daily statement with respect to debt issuance, retirement, and amount outstanding. Receipts and expenditures, however, were classified by type of account, and the budget results shown

January 1965

### Reporting Bases - (Continued)

in the daily statement were used as the basis for reflecting the results under the President's budget program as enacted by the Congress.

Receipts were on the basis of deposits as they cleared the Treasurer's account. Expenditures cleared through the Treasurer's account were reported on two successive bases. Through 1946 they were on the basis of checks paid by the Treasurer of the United States. Beginning with 1947, expenditures made through the facilities of the Treasury Department's Division of Disbursement were on the basis of checks issued, while certain others, principally those of the Department of Defense and its predecessor organizations, were on the basis of checks paid. Transactions han-

dled through commercial bank accounts, consisting of market transactions in public debt and guaranteed securities, were as reported by the agencies. Interest on the public debt was included on a due and payable basis beginning with November 1949 and on a checks-paid basis prior to that time.

The circulation statement reflects transactions through the Treasurer's account which affect monetary stocks of gold and silver and the amounts of coin and currency in the money supply of the country. It is issued later than the daily statement, however, and the figures are based on transactions consummated during the reporting period even though some may not have cleared the Treasurer's account during that period.

## Treasury Financing Operations

### Treasury Bonds Sold to Syndicate

A new issue, designated Treasury bonds of 1988-93, was sold in the amount of \$250 million, to a syndicate on January 8, 1963, on the basis of competitive bidding. The winning bid was \$99.85111 per \$100 of face amount for a 4 percent coupon, which resulted in a net basis cost to the Treasury of 4.008210 percent, calculated to maturity. The syndicate reoffered the bonds to the public at par. On January 2 the Treasury had offered bidders the option of bidding upon either a 4 percent or 4-1/8 percent coupon rate. Each bidder could submit only one bid which was to specify one of the two coupon rates. The successful bidder was required to make a bona fide reoffering of all the bonds.

The winning syndicate was headed by C. J. Devine & Co., Salomon Brothers & Hutzler, Bankers Trust Company, The Chase Manhattan Bank, First National City Bank, Chemical Bank New York Trust Company, The First National Bank of Chicago, and 68 others.

The three other bidders and their bids were:

A syndicate headed by Morgan Guaranty Trust Company of New York, Bank of America--National Trust and Savings Association, Blyth & Co., Inc., Halsey, Stuart & Co., Inc., and Aubrey G. Lanston & Co., Inc., and 47 others: \$99.85100 for a 4 percent coupon, resulting in a net basis cost of money of 4.008216 percent;

A syndicate headed by the First Boston Corporation, Continental Illinois National Bank and Trust Company of Chicago, Discount Corporation of New York, and 80 others: \$99.71014 for a 4 percent coupon, resulting in a net basis cost of money of 4.016334 percent; and

C. F. Childs and Company, Incorporated: \$100.00000 for a 4-1/8 percent coupon, resulting in a net basis cost of money of 4.124621 percent.

Secretary of the Treasury Dillon, in comment, said,

"The bidding by the four syndicates indicates that the market has responded with keen interest to this first offering of bonds at competitive bidding and has provided the base for the potential development of an important new instrument for debt management. The winning bid is highly satisfactory to the Treasury from the standpoint of interest cost; the second bid was within \$275 of the winning bid."

"The experience in the distribution of these securities, of course, will be of great interest to the Treasury in demonstrating the efficacy of this approach to the wider distribution of Treasury offerings for cash in the long-term area."

"The bidding of the various syndicates indicates their combined judgment that borrowing of this amount can be readily fitted into the existing rate structure. It clearly indicates that it is possible for the Treasury to tap the long-term market in this amount with a minimum impact on the supply of funds related to the needs of the economy."

Regulations governing the sale of Treasury bonds through competitive bidding were issued on December 17, 1962, and were published in the Federal Register dated December 18, 1962. They comprehended the basic features of the bonds except, principally, the maturity period, coupon rates, and interest dates; and the rules governing

bids, awards, payment, and delivery. These regulations were the culmination of the Treasury announcement on September 13 of its intention to test this technique, a public meeting on the plan on October 17 conducted in New York City by the Under Secretary of the Treasury for Monetary Affairs, and a notice of proposed rule making governing the sale, which was published in the Federal Register of November 16.

Four criteria were cited by the Treasury in the regulations issued December 17, as relevant to the judgment which it would have to make in any specific case as to whether a bona fide reoffering had been made:

1. The bonds could not be taken down for the underwriter's own investment or trading accounts until a good faith reoffering had been made and the underwriter had been unable to sell all of the bonds to the investing public at an established reoffering price. Individual syndicate members could not take down the bonds for their own investment or trading accounts until the syndicate, after making a good faith effort to sell all of the bonds to the investing public at the reoffering price, was dissolved and the unsold bonds distributed among the syndicate members.

2. The opportunity to obtain bonds from the underwriter had to be open to all investors (except members of competing underwriting groups).

3. Liability to the United States would be borne solely by the successful bidder, and purchasers of the bonds on the reoffering would have no underwriting liability to the United States.

4. Underwriters could, of course, obtain indications of interest from investors prior to the bidding but had to give investors the right to withdraw from any such previous arrangements made with them when the terms of the reoffering became known.

On December 20, 1962, the Secretary of the Treasury issued a public notice of invitation for bids on the Treasury bonds of 1988-93. The accompanying announcement stated that a supplemental notice, to be published on January 2, 1963, would set forth the provisions relating to the coupon rate or rates of interest upon which bids would be received. It also stated that bidders must file a notice of intent to bid at the Federal Reserve Bank of New York not later than 12:00 noon, eastern standard time, on January 4, 1963. Terms of the bond issue other than the coupon rates also were given.

The public notice of invitation to bid, on December 20, stated that the bonds would be offered only as a single block on a competitive bid basis. The bid accepted was to be the one resulting in the lowest basis cost of money computed from the date of the bonds to the date of maturity determined in accordance with the terms of the invitation, or any supplement or amendment thereto. Provisions were made also in event of bids which might result in identical basis costs of money computed to maturity.

A bid submitted by a syndicate was required to be supplemented by a list of its members which must specify the amount of each member's underwriting participation.

## Treasury Financing Operations - (Continued)

Each bidder could submit only one bid, which had to be for the purchase of all of the bonds described. The price to be paid to the United States by the bidder was required to be expressed as a percentage of the principal amount of the bonds and not to exceed five decimals, e.g., 100.01038 percent. Each bid was required to be accompanied by a payment to the Federal Reserve Bank of New York, as fiscal agent of the United States, of an amount equal to 3 percent of the principal amount of the bonds in immediately available funds. The bids and the names of the bidders were to be considered as matters of public record, including, in the case of a syndicate, the names of the members and the amount of each member's underwriting participation.

When the successful bidder was announced, his deposit was to be retained as security for the performance of his obligation and applied toward payment of the bonds. Thereafter, the deposits of all other bidders were to be returned immediately. No interest was to be allowed on any of the deposits.

The 4 percent bonds of 1966-93 are dated January 17, 1963, and bear interest from that date at the rate of 4 percent per annum, payable on a semiannual basis on August 15, 1963, and thereafter on February 15 and August 15 in each year until the principal amount becomes payable. They will mature February 15, 1993, but may be redeemed at the option of the United States on and after February 15, 1966, at par and accrued interest, on any interest day, on four months' notice of redemption given in such manner as the Secretary of the Treasury shall prescribe.

Bearer bonds with interest coupons attached and bonds registered as to principal and interest were issued in denominations of \$500, \$1,000, \$5,000, \$10,000, \$100,000, and \$1,000,000.

If the bonds are owned by a decedent at the time of his death and thereupon constitute a part of his estate, they will be redeemed at par and accrued interest at the option of the representative of the estate, provided the Secretary of the Treasury is authorized by the decedent's estate to apply the entire proceeds of redemption to payment of the Federal estate taxes on each decedent's estate.

One-Year Bills Increased

On January 2, 1963, the Treasury Department announced an offering on January 9 for \$2.5 billion, or thereabouts, of 365-day Treasury bills for cash and in exchange for \$2.0 billion of Treasury bills maturing January 15, 1963.

Tenders totaled \$5,244 million, of which \$2,496 million, on the basis of preliminary reports, was accepted at the average bank discount rate of 3.015 percent. Noncompetitive tenders for \$400,000 or less (without stated price) from any one bidder were accepted in full at the average price of accepted competitive bids. These amounted to \$243 million.

Payment for accepted tenders was required to be made or completed on January 15, 1963, in cash or other immediately available funds, or in a like face amount of the Treasury bills maturing on January 15. Banking institutions generally could submit tenders for account of customers provided the names of the customers were set forth in such tenders. Others than banking institutions were not permitted to submit tenders except for their own account. Tenders were received without deposit from incorporated banks and trust companies and from responsible and recognized dealers in investment securities. Tenders from others were required to be accompanied by payment of 2 percent of the face amount of Treasury bills applied for, or an express guaranty of payment by an incorporated bank or trust company.

The new one-year bills are dated January 15, 1963, and will mature January 15, 1964, when the face amount will be payable without interest. Issued in bearer form only the bills are in denominations of \$1,000, \$5,000, \$10,000, \$50,000, \$100,000, \$500,000, and \$1,000,000 (maturity value).

Weekly Treasury Bills Also Increased

New weekly Treasury bills in December totaled \$8.4 billion, which refunded \$8.0 billion maturing and provided \$0.4 billion in new cash. In the first half of the fiscal year 1963, by increasing the amounts of the weekly 3-month and 6-month bills the Treasury raised \$4.5 billion of "new money." The four December issues of 91-day bills were for \$1.3 billion each and the four 182-day bills were for \$0.8 billion each. Average rates of discount on the bills are shown in the following table.

Retirement Plan Bonds

The Secretary of the Treasury announced on January 10, 1963, the offering of United States Retirement Plan Bonds under the Self-Employed Individuals Tax Retirement Act of 1962. 1/ (The purpose of the legislation is to encourage the establishment of voluntary pension plans by self-employed individuals.) The bonds are available for investment only to (1) bond purchase plans and (2) pension and profit-sharing plans as described in the act. Applications for the new bonds were available at banks and other financial institutions in the week beginning January 21.

## Treasury Financing Operations - (Continued)

The bonds are sold at par in denominations of \$50, \$100, \$500, and \$1,000. The interest accrues through the increase in redemption values at the beginning of each half-year period, providing an investment yield of 3-3/4 percent per annum, compounded semiannually. Interest, together with principal, will be paid only upon redemption. The bonds bear interest from the first of the month in which the authorized issuing agent receives payment for them; bonds bought during January will bear interest from January 1, 1963. Purchases in any one year are limited to \$5,000 in the name of one owner.

Bond purchase plans using the new retirement plan bonds and meeting the requirements of the new law will enjoy income tax advantages similar to those granted to pension and profit-sharing plans. Self-employed persons may deduct from income subject to tax up to \$1,250 annually for contributions to their own retirement. When a self-employed person redeems his bond, he becomes liable for income tax purposes for the interest earned on the bond, and for the amount of the deduction taken for the year in which the bond was purchased. When an employee redeems his bonds, he is subject to tax for the interest on the bonds and any amount contributed by his employer. The bonds are subject to estate, inheritance, or other excise taxes, Federal and State.

The bonds cannot be redeemed until the owner reaches 59-1/2 years of age, except upon the owner's death or disability. The bonds cannot be transferred, sold, or used

as collateral. Issued in registered form only, they must be registered in the name of the self-employed person or the employee for whom they are bought, in single ownership or beneficiary form. The bonds will be reissued to add, eliminate, or substitute a beneficiary; and also, if lost, stolen, or destroyed.

Like Series H savings bonds, the new bonds may be purchased at any Federal Reserve Bank or branch, or direct from the Office of the Treasurer of the United States, the only authorized issuing agents. Banks and other financial institutions will take applications for issue and redemption of these bonds, as for Series H bonds, for transmittal to the issuing agents.

Detailed information on the terms and conditions applicable to United States Retirement Plan Bonds are published in Treasury Department Circular, Public Debt Series, No.1-63.

The accompanying table shows how the retirement plan bonds bearing issue dates beginning January 1, 1963, by denomination, increase in redemption value during successive half-year periods following issue. The period to maturity is indeterminate in accordance with the provisions of the Treasury regulations governing these bonds. At a future date before January 1, 1983 (20 years after the issue date of the first bonds) this table will be extended to show redemption values for periods of holding of 20-1/2 years and beyond.

Source: Actual figures through the fiscal year 1952 and the calendar year 1953 are from the daily Treasury statement, and thereafter from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates are from the 1964 Budget document, released January 17, 1963, including effects of proposed legislation. More detail for data on this page will be found in succeeding tables.

1/ Fiscal year figures beginning with the September 1960 issue of the Treasury Bulletin, and calendar year figures beginning with the June 1961 issue exclude certain interfund transactions from both net budget receipts and budget expenditures (see page II, 2, and 4). Figures previously published for these series have been revised to the new reporting basis. The change does not affect the budget surplus or deficit.

2/ Excess of receipts, or expenditures(-). For detail, see pages 10 - 14.  
3/ For checks outstanding and telegraphic reports from Federal Reserve banks; public debt interest accrued and unpaid beginning with June

and the fiscal year 1955 (previously included from November 1949 as interest checks and coupons outstanding); also deposits in transit and changes in cash held outside the Treasury and in certain other accounts beginning with the fiscal year 1954. Net increase, or decrease (-).

4/ For current month detail and list of acts, see section on "Statutory Debt Limitation" in each issue of the Bulletin. The limitations in effect during the period covered by this table and the date when each became effective are as follows: \$275 billion, on June 26, 1946; \$281 billion, on August 28, 1954; \$278 billion, on July 1, 1956; \$275 billion, on July 1, 1957; \$280 billion, on February 26, 1958; \$288 billion, on September 2, 1958; \$290 billion, on June 30, 1959; \$295 billion, on July 1, 1959; \$293 billion, on July 1, 1960; \$298 billion, on July 1, 1961; and \$300 billion on March 13, 1962. The limit is \$308 billion from July 1, 1962, through March 31, 1963, \$305 billion from April 1 through June 24, 1963, and \$300 billion from June 25 through June 30, 1963. Under proposed legislation the statutory debt limitation for June 30, 1963 as estimated in the 1964 Budget document is \$308 billion.

Source: Actual figures are from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases see page II); estimates from the 1964 Budget document, released January 17, 1963, will be shown in a subsequent issue of the Bulletin.

1/ The distribution of receipts between individual income taxes and old-age and disability insurance taxes is made in accordance with provisions of Sec. 201 of the Social Security Act, as amended (42 U.S.C. 401), for transfer to the Federal Old-Age and Survivors Insurance Trust Fund (see footnote 8), and also for transfer to the Federal Disability Insurance Trust Fund (see footnote 9).

2/ Taxes on employers and employees under the Federal Insurance Contributions Act, as amended (26 U.S.C. 3101-3125), and tax on self-employed individuals under the Self-Employment Contributions Act, as

amended (26 U.S.C. 1401-1403). The Social Security Act Amendments of 1956, approved August 1, 1956, increased the rates of tax applicable to wages paid and taxable years beginning after December 31, 1956, to provide for disability insurance.

3/ Taxes on carriers and their employees under the Railroad Retirement Tax Act, as amended (26 U.S.C. 3201-3233).

4/ Tax on employers of 4 or more under the Federal Unemployment Tax Act, as amended (26 U.S.C. 3301-3308); with respect to services performed before January 1, 1956, the tax was imposed on employers of 8 or more.

5/ Beginning 1957, includes collections under increased rates in the Highway Revenue Act of 1956 (see footnote 12).

Source: Actual figures through 1961 are from reports to the Treasury Department by disbursing officers and administrative agencies, on the monthly statement reporting basis (see page II); and from the monthly statement of receipts and expenditures thereafter. Estimates from the 1964 Budget document, released January 17, 1963, will be shown in a subsequent issue of the Bulletin.

1/ Consists of miscellaneous taxes (principally the tonnage tax on foreign vessels entering U. S. ports), bullion charges, and gifts and contributions.

2/ Includes \$210 million received from the French Government and \$179 million from the Italian Government for prepayment of loans.

\* Less than \$500,000. r Revised.

## Footnotes to Table 1 - (Continued)

6/ Includes adjustments as follows for: Income taxes not withheld, January -\$6 million, April -\$450 million, June -\$12 million, and October -\$4 million; income taxes withheld, January -\$47 million, April +\$74 million, June +\$89 million, and October -\$142 million; transfers to Federal Old-Age and Survivors Insurance Trust Fund, January +\$49 million, April +\$348 million, June -\$70 million, and October +\$134 million; and transfers to Federal Disability Insurance Trust Fund, January +\$3 million, April +\$29 million, June -\$8 million, and October +\$12 million. See also footnote 8.

7/ Interest on refunds is included in expenditures in Table 3. 8/ Amounts appropriated to the Federal Old-Age and Survivors Insurance Trust Fund are equivalent to the amounts of taxes collected and deposited for old-age insurance. Amounts transferred currently for appropriation to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury (42 U.S.C. 401 (a)), and are adjusted in later transfers on the basis of wage and self-employment income records maintained in the Social Security Administration. See also footnote 16.

9/ The Federal Disability Insurance Trust Fund was established by the Social Security Act Amendments of 1956, approved August 1, 1956 (42 U.S.C. 401 (b)). The act appropriated to the trust fund amounts equivalent to specified percentages of the wages and self-employment income, respectively, which are taxed for old-age insurance, and provided that the amounts appropriated should be transferred from time to time to the trust fund on the same basis as transfers to the Federal Old-Age and Survivors Insurance Trust Fund. Rates of tax were increased by the percentages appropriated to the Federal Disability Insurance Trust Fund, the increase being applicable to wages paid and taxable years beginning after December 31, 1956.

10/ Amounts are appropriated to the Railroad Retirement Account equal to the amount of taxes under the Railroad Retirement Tax Act deposited in the Treasury, less refunds, during each fiscal year (65 Stat. 222 and 66 Stat. 371) and transfers are made currently.

11/ The Employment Security Act of 1960, approved September 13, 1960 (42 U.S.C. 1101), established in the Unemployment Trust Fund an administra-

tion account, and appropriated for credit to that account, beginning with fiscal 1961, amounts equivalent to taxes collected and deposited under the Federal Unemployment Tax Act. The tax receipts are transferred currently on the basis of estimates by the Secretary of the Treasury, with later adjustments as necessary. From that account are to be paid the administrative expenses of the employment security program. Previously the corresponding amounts were included, respectively, in budget receipts and budget expenditures.

12/ The Highway Revenue Act of 1956, as amended, (23 U.S.C. 120, note) established a Highway Trust Fund from which are to be made, as provided by appropriation acts, Federal-aid highway expenditures after June 30, 1956, and before October 1, 1972. The act appropriated to this fund amounts equivalent to specified percentages of receipts from certain excise taxes on motor fuels, motor vehicles, tires and tubes, and use of certain vehicles, and provided that the amounts appropriated should be transferred currently to the trust fund on the basis of estimates by the Secretary of the Treasury with proper adjustments to be made in subsequent transfers. Before fiscal 1957 corresponding excise tax receipts were included in net budget receipts and Federal-aid highway expenditures were included in budget expenditures.

13/ For content, see Table 4. These transactions are included in the detail of both budget receipts and budget expenditures, but are deducted from the totals (see Reporting Bases, p. II).

14/ Figures in this column differ from those published under the same caption prior to the September 1960 Treasury Bulletin because of the exclusion of certain interfund transactions (see footnote 13).

15/ Transfers reduced by \$300 million to adjust those made earlier on basis of estimates (see footnote 8).

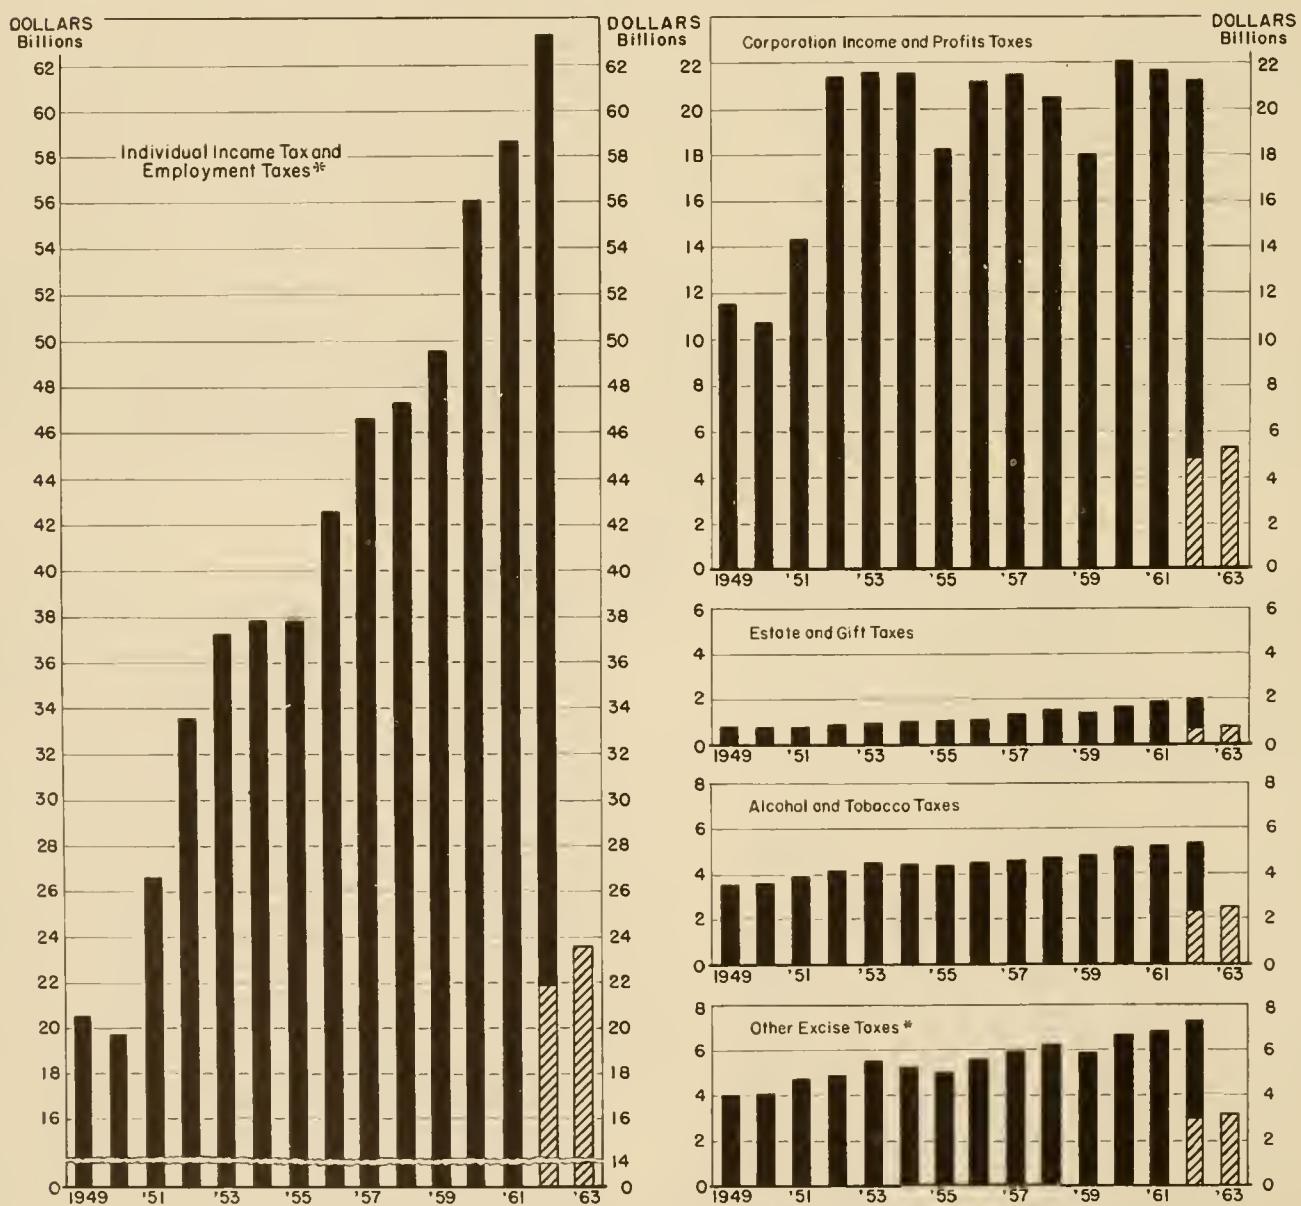

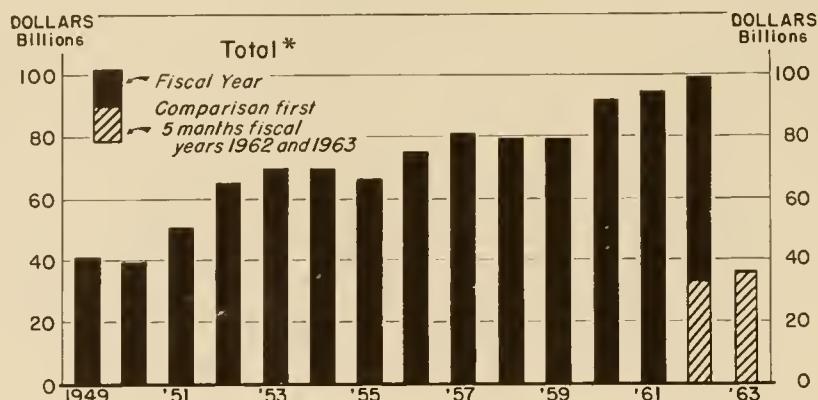

16/ Beginning fiscal 1961, the principal amounts for refunds of employment taxes and certain excise taxes (highway) are excluded from the transfers of tax receipts shown herein, and are included with refunds of internal revenue receipts, applicable to trust accounts.

17/ Reflects gross amounts based on reimbursements by trust accounts for refunds of taxes which were made in previous months or fiscal years.

\* Less than \$500,000.

Source: Actual figures are from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates from the 1964 Budget document, released January 17, 1963, will be shown in a subsequent issue of the Bulletin.

Note: Figures in this table are for agencies as constituted at the time the expenditures were made, and therefore do not necessarily represent functions which are comparable over a period of time. For expenditures by functions on a consistent basis, see Table 6. Agency shifts are reflected in this table as follows: Beginning 1957, Alaska Road Construction from "Interior Department" to "Commerce Department," and Federal intermediate credit banks and production credit corporations as indicated in footnote 12; beginning 1958, Federal Facilities Corporation (remaining functions) from "Treasury Department" to "General Services Administration," and Informational Media's Guaranty Fund from "Funds appropriated to the President" to "Independent agencies"; beginning 1959, Federal Civil Defense Administration from "Independent

agencies" to "Executive Office of the President," Civil Aeronautics Board from "Commerce Department" to "Independent agencies," Civil Aeronautics Administration from "Commerce Department" and Airways Modernization Board from "Independent agencies" to the "Federal Aviation Agency," National Advisory Commission for Aeronautics from "Independent agencies" to "National Aeronautics and Space Administration"; beginning 1960, military assistance from "Funds appropriated to the President" to "Defense Department, military," pursuant to budgeting instruction in the Mutual Security Act of 1959, as amended by the International Peace and Security Act of 1961 (22 U.S.C. 2312 (b)); and beginning 1962, subscriptions to international institutions from "Treasury Department" to "Funds appropriated to the President."

1/ Consists of net expenditures of the Postal Fund, reflecting the change in classification of Post Office transactions to a public enterprise revolving fund basis, and beginning fiscal 1960 payment for public services.

1/ By Government agencies operated as revolving funds; on loans (see "Debt Outstanding," Table 6) and other interest-bearing U. S. investments.

2/ Excludes transactions under Defense Production Act.

3/ Consists of payments by: Office of the Administrator for college housing, urban renewal, prefabricated housing loans for 1955, and public facility loans beginning 1957; Federal National Mortgage Association; and Public Housing Administration.

4/ Direct loan program.

5/ By various agencies for programs under the Defense Production Act.

6/ Consists of payments by: Reconstruction Finance Corporation for 1955; Colorado River Dam Fund, Boulder Canyon project; Virgin Islands Corpo-

ration; Bureau of Federal Credit Unions; Civil Defense Program Fund; Farmers' Home Administration: Agricultural Credit Insurance Fund (formerly the Farm Tenant Mortgage Insurance Fund) beginning 1956, and the direct loan account, both established pursuant to Title III of the Agricultural Act of 1961, approved August 8, 1961; Informational Media Guaranty Fund beginning 1959; Federal Ship Mortgage Insurance Fund beginning 1960; and St. Lawrence Seaway Development Corporation beginning 1960.

7/ For net cost of Canal Zone Government, less tolls on Government vessels, and for part of treaty payment for use of Canal Zone.

8/ Realization on the Government's investment.

\* Less than \$500,000.

## Footnotes to Table 3.- (Continued)

2/ Beginning 1957, Federal aid for highways is excluded from budget expenditures and included in trust account expenditures (see Table 1).

3/ Adjusted for reclassification.

4/ Beginning with fiscal 1961, administrative expenses of the employment security program are handled as trust account expenditures rather than budget expenditures, pursuant to the Employment Security Act of 1960, approved September 13, 1960 (42 U.S.C. 1101); see Table 1, footnote 11.

5/ Reported on an accrual basis effective June 30, 1955.

6/ Includes Reconstruction Finance Corporation except beginning July 1, 1954, certain functions transferred: Under Reorganization Plan No. 2 of 1954 (15 U.S.C. 609, note) to the Export-Import Bank, the Federal National Mortgage Association, and the Small Business Administration; and under Executive Order 10539, as amended, (15 U.S.C. 603, note) to the General Services Administration. The corporation was abolished at the close of June 30, 1957, by Reorganization Plan No. 1 of 1957, and its remaining functions were transferred to the Housing and Home Finance Administrator, Administrator of General Services, Administrator of Small Business Administration, and Secretary of the Treasury.

7/ Established pursuant to the Federal Aviation Act of 1958 (49 U.S.C. 1341 (a)), approved August 23, 1958.

8/ Established pursuant to the National Aeronautics and Space Act of 1958 (42 U.S.C. 2472 (a)), approved July 29, 1958.

9/ Consists of Federal payment and loans and advances.

10/ For content, see Table 4. These transactions are included in the detail of both budget receipts and budget expenditures, but are deducted from the totals (see Reporting Bases, p. II).

11/ Figures in this column differ from those published under the same caption prior to the September 1960 Treasury Bulletin because of the exclusion of certain interfund transactions (see footnote 10).

12/ Effective January 1, 1957, the production credit corporations were merged in the Federal intermediate credit banks, pursuant to the Farm Credit Act of 1956, approved July 26, 1956 (12 U.S.C. 1027), and operations of the merged agencies (as mixed-ownership corporations) were classified as trust enterprise funds (see "Trust Account and Other Transactions," Table 3); previously the operations of the banks and the corporations, respectively, were classified as public enterprise funds and were included net in budget expenditures.

13/ Includes \$1,375 million paid to the International Monetary Fund for the additional United States subscription, authorized by an act approved June 17, 1959, consisting of \$344 million in gold (see "Monetary Statistics," Table 3) and \$1,031 million in special notes. The special notes of the United States issued to international institutions are nonnegotiable and noninterest-bearing and are payable on demand. See also "Cash Income and Outgo," Table 5 and "Debt Outstanding," Table 1.

\* Less than \$500,000.

Source: Expenditures for 1963 are from reports received from disbursing, collecting, and administrative agencies of the Government, on the monthly statement reporting basis (see page II). They are classified in accordance with classifications used in the 1964 Budget document, Table 18, as nearly as can be done on an individual appropriation and fund item basis. Prior year figures are from the same source but have been adjusted below the appropriation level in some instances by the Bureau of the Budget for use in Table 18. Where current classifications differ on this account, they are footnoted. Revolving fund transactions are included net in the expenditures.

1/ Expenditures by major functions for fiscal 1963 through December 1962, and fiscal 1962 through December 1961 are shown below. Details by functions are not available for publication in this issue but will appear in the February 1963 Bulletin.

Source: Actual figures are from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates from the 1964 Budget document, released January 17, 1963, will be published in a subsequent issue of the Bulletin.

1/ Certain intertrust fund transactions are excluded from both receipts and expenditures beginning with the July 1961 issue of the Bulletin. For detail see Table 6.

2/ Also includes guaranteed securities (see Table 4).

3/ Effective July 1, 1955, security transactions of Government-sponsored enterprises are included in deposit fund account expenditures (net)

and excluded from net investment by Government agencies in public debt securities (see Table 4) and from net redemption or sale of obligations of Government agencies in the market (see Table 5).

Figures for 1955 have been revised to the new classification basis.

4/ Adjusted for reclassification of certain repayments of advances from the general fund.

5/ Beginning fiscal 1961, refunds of taxes (principal only) are deducted from receipts, and therefore are excluded from expenditures.

1/ Payments are made between the Railroad Retirement Account and the Federal Old-Age and Survivors and Federal Disability Insurance trust funds so as to place those funds in the position in which they would have been if railroad employment after 1936 had been included under social security coverage.

2/ Includes interest on amounts reimbursed to the Federal Old-Age and Survivors Insurance Trust Fund for administrative expenses.

3/ Includes temporary advances to the Railroad Unemployment Insurance Account in the Unemployment Trust Fund when the balance in the

account is insufficient to meet payments of benefits and refunds due or to become due.

4/ Repayment of advances plus interest to the Railroad Retirement Account. See footnote 3.

5/ Transfers from the Civil Service Retirement and Disability Fund to the Foreign Service Retirement and Disability Fund.

6/ Contributions and beginning with 1958, transfers of deductions from employees' salaries to the Civil Service Retirement and Disability Fund.

## CASH INCOME AND OUTGO

The cash income and outgo data appearing in the Treasury Bulletin, beginning with the February 1956 issue, are on a basis consistent with receipts from and payments to the public as derived in the 1957 and subsequent Budgets of the United States (in the Budget for 1963 in Special Analysis B). Reconciliation to cash deposits and withdrawals in the account of the Treasurer of the United States is shown on the same basis as in the Budget documents. There is also shown the amount of net cash borrowing from, or repayment of borrowing to, the public. By these arrangements, data in accordance with the Budget classifications are made available month by month. Figures for back years have been revised where necessary in order to make them as nearly comparable with current Budget classifications as available data will permit. For this reason certain of the figures differ somewhat from those published in earlier Budget documents as well as in the Bulletin.

The Bureau of the Budget series of cash transactions is designed to provide information on the flow of money between the public and the Federal Government as a whole, and therefore includes transactions not cleared through the Treasurer's account. Receipts and payments include transactions both in budget accounts and in trust and deposit fund accounts. Operations of Government-sponsored enterprises are included in payments on a net basis as reflected in Treasury reports. Major intragovernmental trans-

actions which are reported as both expenditures and receipts are excluded from both. Noncash items representing the obligation of the Government to make payments in the future also are eliminated from expenditures but are added later when actual payments are made. These items consist of certain interest accrued on the public debt, expenditures involving the issuance of a few special public debt securities, and clearing accounts. Receipts from the exercise of monetary authority are excluded as not representing cash received from the public. Federal cash borrowing from the public includes net borrowing by the Treasury through public debt transactions and also net borrowing by Government agencies and Government-sponsored enterprises through sales of their own securities. It excludes changes in the public debt which do not represent direct cash borrowing from the public. The net effect of all these transactions with the public is reflected in changes in the balance in the Treasurer's account and in cash held outside the Treasury.

Cash transactions through the Treasurer's account are similar in general concept to those included in the Bureau of the Budget series, but are limited in coverage to transactions which affect the balance in that account. On the other hand, they include receipts from the exercise of monetary authority, which are excluded from receipts from the public in the Bureau of the Budget series.

Source: Actual figures are based on the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page 11); estimates are from the 1964 Budget document, released January 17, 1963, including effects of proposed legislation.

1/ Figures in this column differ from those published prior to the September 1960 Treasury Bulletin because of the exclusion of a few additional items of budget receipts which are also budget expenditures (see Tables 2 and 3).

- <sup>1/</sup> Previously published figures were revised in the September 1960 Bulletin to take account of the deduction of certain interfund transactions from both net budget receipts and budget expenditures; and further revised in the July 1961 issue for deductions of certain intertrust fund transactions from both trust account receipts and trust account expenditures (see pp. 2, 5, 10, and 11). Formerly such transactions were included in the intragovernmental transactions which were deducted in deriving receipts from and payments to the public.
- <sup>2/</sup> Treated as noncash refund deductions from receipts when issued and as cash refund deductions when redeemed.
- <sup>3/</sup> Consists of seigniorage and the increment resulting from reduction in the weight of the gold dollar; excluded from receipts from the public

but included in cash deposits in the Treasurer's account.

<sup>4/</sup> Figures in this column differ from those published prior to the September 1960 Treasury Bulletin because a few additional items of budget receipts which are also budget expenditures are included in the interfund transactions deducted from budget receipts and budget expenditures (see footnote 1).

<sup>5/</sup> Adjusted for reclassification of certain repayments of advances from the general fund.

<sup>6/</sup> Beginning fiscal 1961, principal amounts for refunds of taxes applicable to trust accounts, formerly included with trust account expenditures, are deducted from trust account receipts.

Source: See Table 1. Details of basic expenditure figures appear in preceding sections in the Bulletin.

1/ See Table 2, footnote 1.

2/ In this table, in accordance with treatment in Budget documents, net investment in United States securities by Government-sponsored enterprises includes a small amount by other enterprises regarded as representing net transactions with the public. In table 3 under "Trust Account and Other Transactions," these amounts are included with other trust accounts.

3/ Net operating expenditures, or receipts (-), as measured by funds provided by or applied to net security transactions reflected in Treasury reports (see Table 6). To a large extent, these Government-sponsored enterprises secure funds for their operations by direct

borrowing from the public or by cashing Federal securities which they hold, and they apply the net income received from operations to repayment of borrowing from the public or to investment in Federal securities. On that basis, net expenditures for operations are shown in this table in terms of the combined net of disinvestment in Federal securities and sale of agency obligations in the market. Net receipts from operations are shown in terms of the combined net of investment in Federal securities and redemption of agency obligations in the market.

4/ See Table 2, footnote 4.

5/ Does not include revolving fund receipts representing acquired securities amounting to \$1,643,070 (par value).

<sup>1/</sup> Includes reimbursements for administrative expenses by the Federal Old-Age and Survivors and the Federal Disability Insurance Trust Funds, and beginning 1961, the Unemployment Trust Fund; reimbursements for refunds of employment and certain excise taxes (highway) through fiscal 1960; reimbursement by the District of Columbia; Federal National Mortgage Association for payment of dividends, interest, etc., under secondary market operations; and Federal intermediate credit bank franchise tax and repayment of capital stock to the Treasury after December 1956 and before January 1959.

<sup>2/</sup> Consists of payment of franchise tax by banks for cooperatives, and also by Federal intermediate credit banks beginning January 1959.

<sup>3/</sup> Includes relatively small amounts of deductions from salaries paid by trust funds and Government-sponsored enterprises. Beginning with fiscal 1958 excludes deductions from salaries of District of Columbia employees, and beginning with fiscal 1959 excludes voluntary contributions.

<sup>4/</sup> Consists of payments to employees' retirement funds representing United States and Government corporation shares of contributions; payments to the Railroad Retirement Account (for creditable military service), the Unemployment Trust Fund, veterans' life insurance funds, Judicial Survivors Annuity Fund, trust fund for technical services and other assistance under the agricultural conservation program, and District of Columbia; and awards of Indian Claims Commission.

<sup>5/</sup> Figures in this column differ from those previously published because budget receipts which are also budget expenditures, and trust fund receipts which are also trust fund expenditures are no longer included; see Tables 2 and 3.

1/ In this table, in accordance with treatment in Budget documents, net investment in United States securities by Government-sponsored enterprises includes a small amount by other enterprises regarded as representing net transactions with the public. In Table 3 under "Trust Account and Other Transactions," these amounts are included with other trust accounts.

2/ Does not include investments representing acquired securities amounting to \$1,643,070 (par value) and donation of securities amounting to \$45,800 (par value).

3/ Includes \$1,412 million of 2-3/4 percent Treasury bonds of 1960-65 acquired by Treasury in the November 15, 1962 refunding and held in a Treasury suspense account until maturity on December 15, 1962.

4/ Accrued discount on savings bonds and bills, which is included in the

principal of the public debt, less interest paid on savings bonds and bills redeemed.

5/ Treated as noncash transactions at the time of issuance and as cash transactions at the time of redemption; net issuance, or redemption (-).

6/ Excluded from borrowing because the transactions are treated as expenditures in Table 5.

7/ Excluded from borrowing because the transactions are treated as deductions from receipts in Table 2.

8/ Market transactions in public debt securities and agency obligations.

9/ Includes balance in the account "Payment for 2-3/4 percent Treasury bonds of 1960-65 called for redemption on December 15, 1962." See footnote 3.

\* Less than \$500,000.

## ACCOUNT OF THE TREASURER OF THE UNITED STATES

## Source and Availability of the Balance in the Treasurer's Account

The account of the Treasurer of the United States reflects not only budget receipts and expenditures but also trust, deposit fund, and public debt transactions.

The working cash of the Treasury is held mainly in Treasurer's accounts with Federal Reserve Banks and branches. As the balances in these accounts become depleted, they are restored by calling in (transferring) funds from the tax and loan accounts with thousands of commercial banks throughout the country.

Deposits to tax and loan accounts occur in the normal course of business under a uniform procedure applicable to all banks whereby customers of banks deposit with them tax payments and funds for the purchase of Government securities. In most cases the transaction involves merely the transfer of money from a customer's

account to the tax and loan account in the same bank. On occasions, to the extent authorized by the Treasury, banks are permitted to deposit in these accounts proceeds from subscriptions to public debt securities entered for their own account as well as for the account of their customers.

The tax and loan account system permits the Treasury to leave funds in banks and in the communities in which they arise until such time as the Treasury needs the funds for its operations. In this way the Treasury is able to neutralize the effect of its fluctuating operations on bank reserves and the economy.

A detailed description of the Treasury's depositary system may be found in the Annual Report of the Secretary of the Treasury for 1955, pages 275-284.

1/ Includes reserves and other deposits of the Board of Trustees, Postal Savings System, and uncollected items, exchanges, etc. Post Office Department and postmasters' disbursing accounts also are included through November 1954. (See footnote 2). Treasurer's checks outstanding are included through June 1958, after which they are included in the balance in the Treasurer's account. (See footnote 3).

2/ Beginning December 1954, Post Office Department and postmasters' disbursing accounts are not treated as liability accounts of the Treasurer of the United States, but are classified and treated

as other disbursing accounts, in accordance with the change in method of reporting Post Office transactions (see "Budget Receipts and Expenditures," Table 3). An adjustment of -\$207 million in the balance in the Treasurer's account (and in the "clearing account") reflects this change.

3/ Through June 1958, the balance of the Treasurer was reduced when Treasurer's checks were issued and the amount of the checks was carried as a liability until paid. Effective July 1958, the balance is not reduced until the checks are paid, a procedure also applying to checks drawn on the Treasurer by Government disbursing officers and agencies.

1/ Special depositaries are permitted to make payment in the form of a deposit credit for the purchase price of U. S. Government obligations purchased by them for their own account, or for the account of their customers who enter subscriptions through them, when this method of payment is permitted under the terms of the circulars inviting subscriptions to the issues.

2/ Taxes eligible for credit consist of those deposited by taxpayers in the depository banks, as follows: Withheld income tax beginning

March 1948; taxes on employers and employees under the Federal Insurance Contributions Act beginning January 1950, and under the Railroad Retirement Tax Act beginning July 1951; and a number of excise taxes beginning July 1953.

3/ Under a special procedure begun in March 1951, authorization may be given for income tax payments, or a portion of them, made by checks of \$10,000 or more drawn on a special depository bank, to be credited to the tax and loan account in that bank. This procedure is followed during some of the quarterly periods of heavy tax payments.

Note: The computed annual interest charge represents the amount of interest that would be paid if each interest-bearing issue outstanding at the end of each month or year should remain outstanding for a year at the applicable annual rate of interest. The charge is computed for each issue by applying the appropriate annual interest rate to the amount outstanding on that date (the amount actually borrowed in the case of securities sold at a premium or discount, beginning with May 1960). The aggregate charge for all interest-bearing issues constitutes the total computed annual interest charge. The average annual interest rate is computed by dividing the computed annual interest charge for the total, or for

any group of issues, by the corresponding principal amount. Beginning with data for December 31, 1958, the computation is based on the rate of effective yield for issues sold at premium or discount. Prior to that date it was based on the coupon rate for all issues.

1/ Guaranteed securities included are those held outside the Treasury. Total includes "Other bonds" through May 1961; see Table 3.

2/ Included in debt outstanding at face amount, but discount value is used in computing annual interest charge and annual interest rate.

4/ On United States savings bonds the rate to maturity is applied against the amount outstanding.

## STATUTORY DEBT LIMITATION

The Second Liberty Bond Act (31 U.S.C. 757b), as amended by an act approved June 30, 1959, provides that the face amount of obligations issued under authority of that act, and the face amount of obligations guaranteed as to principal and interest by the United States (except guaranteed obligations held by the Secretary of the Treasury) shall not exceed in the aggregate \$285 billion outstanding at any one time. The corresponding limitation in effect under the act of June 26, 1946, was \$275 billion and that under the act of September 2, 1958, was \$283 billion. In addition, temporary increases have been authorized as follows: \$6 billion from August 28, 1954, through June 30, 1956 (acts of August 28, 1954, and June 30, 1955); \$3 billion from July 1, 1956, through June 30, 1957 (act of July 9,

1956); \$5 billion from February 26, 1958, through June 30, 1959 (act of February 26, 1958); \$10 billion from July 1, 1959, through June 30, 1960 (act of June 30, 1959); \$8 billion from July 1, 1960, through June 30, 1961 (act of June 30, 1960); \$13 billion from July 1, 1961, and an additional \$2 billion from March 13, 1962, through June 30, 1962 (acts of June 30, 1961, and March 13, 1962); and \$23 billion from July 1, 1962, through March 31, 1963, \$20 billion from April 1 through June 24, 1963, \$15 billion from June 25 through June 30, 1963 (act approved July 1, 1962). Obligations issued on a discount basis and subject to redemption prior to maturity at the option of the owner are included in the statutory debt limitation at current redemption values.

## PUBLIC DEBT OPERATIONS

## Footnotes to Table 4

- 1/ Issued at par except as noted. For bill issues sold at auction the rate shown is the equivalent average rate (bank discount basis) on accepted bids. For details of bill offerings, see Table 2. In reopenings, the amount issued is in addition to the amount in original offering.
- 2/ From date of additional issue in case of a reopening.
- 3/ Subscriptions shown are from the public, but amounts issued include allotments to Government investment accounts.
- 4/ For maturing securities exchanged for the new issues, see Table 6.
- 5/ Exchange offering available to owners of nonmarketable 2-3 1/4% Treasury bonds, Investment Series B-1975-80, dated April 1, 1951. For further information on the original offering see "Treasury Bulletin" for April 1951, page A-1. Amounts shown are as of December 31, 1962.
- 6/ The bond offering was made available for exchange of Series F and G savings bonds maturing from May 1 through December 31, 1953.
- 7/ Total allotments on cash subscriptions were limited to approximately \$1,000 million. Nonbank subscriptions in amounts up to and including \$5,000 were allotted in full. All other subscriptions were allotted 20 percent. Commercial banks subscriptions were restricted to an amount not exceeding 5 percent of their time deposits as of December 31, 1952. The Treasury also reserved the right to allot limited amounts of these bonds to Government investment accounts, which subscribed to a total amount of \$118 million. Payment for the bonds allotted could be made with accrued interest at any time not later than July 31, 1953.
- 8/ Tax anticipation bill, acceptable at face value in payment of income and profits taxes due on the quarterly payment date immediately preceding maturity.
- 9/ Tax anticipation certificate, acceptable at par plus accrued interest to maturity in payment of income and profits taxes due on the quarterly payment date immediately preceding maturity.
- 10/ Subscriptions for amounts up to and including \$100,000 were allotted in full. Subscriptions for amounts over \$100,000 were allotted 67 percent but in no case less than \$100,000.
- 11/ Subscriptions for amounts up to and including \$10,000 were allotted in full. Subscriptions from mutual savings banks, insurance companies, pension and retirement funds, and State and local governments were allotted 24 percent. All others, including commercial banks, were allotted 16 percent but not less than \$10,000 on any one subscription.
- 12/ Subscriptions for amounts up to and including \$10,000 were allotted in full. All other subscriptions were allotted 22 percent but in no case less than \$10,000.
- 13/ Subscriptions for amounts up to and including \$50,000 were allotted in full. Subscriptions for amounts over \$50,000 were allotted 40 percent but in no case less than \$50,000.
- 14/ Subscriptions for amounts up to and including \$50,000 were allotted in full. Subscriptions for amounts over \$50,000 were allotted 50 percent but in no case less than \$50,000.

## PUBLIC DEBT OPERATIONS

## Footnotes to Table 6.- (Continued)

- 10/ Reopening of November 28, 1955, offering (see Table 4).  
11/ During June 1956, \$159 million of these notes were purchased by the Treasury for account of the Sinking Fund and retired.  
12/ Also designated tax anticipation certificates.  
13/ Two issues of bills, maturing January 16, 1957, and February 15, 1957 respectively, were rolled over into two issues of tax anticipation bills, both maturing June 24, 1957.  
14/ During June and July 1958, \$491 million of the 2-5/8% Treasury bonds of 1965 were purchased by the Treasury for retirement under section 19 of the Second Liberty Bond Act, as amended (31 U.S.C. 754a).  
15/ Called on May 14, 1958, for redemption on September 15, 1958.  
16/ Represents amount which owners exercised the option to redeem on August 1, 1959 (see Table 4, footnote 22).  
17/ Holders of the 4% notes, who had the option to redeem at par on February 15, 1960, by giving notice not later than November 16, 1959, were permitted to exchange their holdings on November 15, 1959, for the 4-7/8% notes.  
18/ Rolled over into a one-year bill (see Table 4).  
19/ Amount which owners exercised the option to redeem on February 15, 1960 (see Table 4, footnote 24).  
20/ Advance refunding offering. Pursuant to the provisions of section 1037 (a) of the Internal Revenue Code of 1954 as added by Public Law 86-346, approved September 22, 1959, the Secretary of the Treasury has declared that no gain or loss shall be recognized for Federal income tax purposes upon the exchange of the eligible outstanding securities solely for the new securities. For tax purposes, therefore, the investor will carry the new securities on his books at the same amount as he had been carrying the eligible securities exchanged. Gain or loss, if any, upon the obligations surrendered in exchange will be taken into account upon the disposition or redemption of the new obligations.  
21/ Holders of 2-1/2% Treasury bonds maturing November 15, 1961, were offered the option to exchange the bonds during the period from June 8, 1960, to June 13, 1960, inclusive, subject to allotment if subscriptions exceeded by 10 percent the offering limits of \$3.5 billion for the notes and \$1.5 billion for the bonds.  
22/ Holders of the maturing notes were not offered preemptive rights to exchange their holdings, but were permitted to present them in payment or exchange, in whole or in part, for the 3-1/8% certificates or the 3-7/8% bonds, which were offered in an aggregate of around \$8-3/4 billion. For detail of offering, see Table 4.  
23/ Excess of maturing 4-3/4% Treasury notes over allotments of new securities on subscriptions from holders of those notes (see Table 4, footnotes 44 and 46).  
24/ Reopening of an earlier issue.  
25/ Holders of 2-1/2% Treasury bonds maturing June 15, 1967, December 15, 1968, June 15, 1969, and December 15, 1969, were offered the option to exchange the bonds during the period from September 12, 1960, to September 20, 1960, inclusive, the first for 3-1/2% bonds of 1980, the second for 3-1/2% bonds of 1990, and the other two for 3-1/2% bonds of 1998, subject to allotment if the combined total of subscriptions for the bonds of 1990 and 1998 exceeded an outside limit of \$4.5 billion.  
26/ Holders of the maturing certificates were not offered preemptive rights to exchange their holdings, but were permitted to present them in payment or exchange, in whole or in part, for the 3-1/4% notes offered in the amount of around \$6.9 billion. For detail of offering, see Table 4.  
27/ Excess of maturing 4-7/8% certificates over allotments of new securities on subscriptions from holders of those certificates (see Table 4, footnotes 51 and 52).  
28/ From March 20 through March 22, 1961, owners of 2-1/4% bonds of June 15, 1959-62, 2-1/4% bonds of December 15, 1959-62, 2-5/8% notes maturing February 15, 1963, and 2-1/2% bonds maturing August 15, 1963, were granted the option of exchanging their holdings. The first three were exchangeable for a new 3-5/8% bond due November 15, 1967, and the last for a new 3-3/8% bond due November 15, 1966. Exchanges were subject to allotment if subscriptions exceeded \$5 billion for the bonds of 1967 or \$3 billion for the bonds of 1966.

- 29/ Holders of the maturing certificates and notes were not offered preemptive rights to exchange their holdings, but were permitted to present them in payment or exchange, in whole or in part, for the \$5,250 million offering of 3% certificates or the \$2,500 million offering of 3-1/4% notes. For detail of offering, see Table 4.  
30/ Excess of maturing 4-3/8% certificates and 3-5/8% notes over allotments of new securities on subscriptions from holders of those certificates and notes (see Table 4, footnotes 55 and 56).  
31/ \$1,569 million were redeemed for cash and \$168 million were exchanged for the tax anticipation bills dated March 23, 1962 (see Table 4).  
32/ Holders of the maturing notes were not offered preemptive rights to exchange their holdings, but were permitted to present them in payment or exchange, in whole or in part, for the \$6,500 million offering of 3-1/2% certificates, the \$1,500 million offering of 4% bonds, or the \$750 million offering of 4-1/4% bonds. For detail of offering, see Table 4.  
33/ Excess of maturing 4% notes and 3-1/4% notes over allotments of new securities on subscriptions from holders of those notes (see Table 4, footnotes 70 and 71).  
34/ From September 10 through September 12, 1962, owners of securities maturing February 15, 1963 (3-1/2% certificates, 2-5/8% notes, 3-1/4% notes), and May 15, 1963 (3-1/4% certificates, 3-1/4% notes, 4% notes) were granted the option of exchanging their holdings, subject to allotment if subscriptions exceeded the offering limits of \$6 billion for the notes and \$3 billion for the bonds.  
35/ Called on August 14, 1962, for redemption on December 15, 1962.

Note: In these tables sales of Series A-F and J bonds are included at issue price, and redemptions and amounts outstanding at current redemption value. Series G, H, and K are included at face value throughout. Matured bonds which have been redeemed are included in redemptions. Matured F and G bonds outstanding are included in the interest-bearing debt until all bonds of the annual series have matured, and are then transferred to matured debt upon which interest has ceased.

<sup>1/</sup> Sales and redemption figures include exchanges of minor amounts of (1) matured Series E bonds for Series G and K bonds from May 1951 through April 1957 and (2) Series F and J bonds for Series H bonds beginning January 1960; however, they exclude exchanges of Series E bonds for Series H bonds, which are reported in Table 3.

<sup>2/</sup> Details by series on a cumulative basis and by periods for Series A-D combined will be found in the February 1952 and previous issues of the Treasury Bulletin.

<sup>3/</sup> Because there is a normal lag in classifying redemptions the distribution of redemptions between sales price and accrued discount has been estimated. Beginning with the Treasury Bulletin of March 1961 the method of distributing redemptions between sales price and accrued discount has been changed to reflect the distribution shown in final

reports of classified redemptions. All periods shown have been revised on this basis.

<sup>4/</sup> Reductions were made in issues and redemptions of Series E, H, F, G, J, and K bonds in July 1954 to compensate for the erroneous inclusion of reissue transactions in June 1954 as reported in the daily Treasury statement. The amounts involved were as follows: \$18 million for issues of Series E and H, \$17 million for issues of Series F, G, J, and K, and \$35 million for unclassified retirements.

<sup>5/</sup> Series F and G sales were discontinued April 30, 1952, and Series J and K sales were discontinued April 30, 1957. Sales figures after April 30, 1957, represent adjustments.

<sup>6/</sup> Includes exchanges of Series 1941 F and G savings bonds for 3-1/4% marketable bonds of 1978-83.

<sup>7/</sup> Includes exchanges of Series 1948 F and G bonds for 4-3/4% marketable notes of 1964.

<sup>8/</sup> Includes exchanges of Series 1949 F and G bonds for 4% marketable bonds of 1969.

<sup>9/</sup> Includes exchanges of Series 1950 F and G bonds for 3-7/8% marketable bonds of 1968.

<sup>10/</sup> Includes exchanges of Series 1951 and 1952 F and G bonds for 3-7/8% marketable bonds of 1971 and 4% marketable bonds of 1980.

<sup>11/</sup> Represents changes in the amounts of redemptions not yet classified between matured and unmatured issues. \* Less than \$500,000.

Source: Daily Treasury statement for total amounts outstanding; reports from agencies and trust funds for securities held by U. S. Government investment accounts; and reports from Federal Reserve System for securities held by Federal Reserve Banks.

1/ Includes certain obligations not subject to statutory limitation. For amounts subject to limitation, see page 1.

2/ Includes accounts under the control of certain U. S. Government agencies whose investments are handled outside the Treasury.

3/ The total amount of interest-bearing securities held by private inves-

tors is calculated by deducting from the total amount outstanding the amount held by U. S. Government investment accounts and Federal Reserve Banks.

4/ Consists of guaranteed securities held outside the Treasury. All are public marketable issues.

5/ Includes \$1,412 million of securities acquired by the Treasury in the November 15, 1962 refunding and held in a suspense account until maturity on December 15, 1962.

r Revised.

1/ Consists of purchases or sales made by the Treasury of securities issued or guaranteed by the U. S. Government for (1) trust funds which by law are under the control of the Secretary of the Treasury or of the Treasurer of the United States, and (2) accounts under the control of certain U. S. Government agencies whose investments are handled through the facilities of the Treasury Department. It will be noted that these

transactions differ from those reflected in Table 1 because they exclude those Government investment accounts for which investments are not handled by the Treasury. Table 2 also includes purchases under Section 19 of the Second Liberty Bond Act, as amended (31 U.S.C. 754a), and excludes the Exchange Stabilization Fund.

\* Less than \$50,000.

## TREASURY SURVEY OF OWNERSHIP, NOVEMBER 30, 1962

The monthly Treasury Survey of Ownership covers securities issued by the United States Government and by Federal agencies. The banks and insurance companies included in the Survey currently account for about 90 percent of all such securities held by these institutions. The similar proportion for corporations and for savings and loan associations is 50 percent, and for State and local governments, 60 percent. Data were first published for banks and insurance companies in the May 1941 Treasury Bulletin, for

corporations and savings and loan associations in the September 1960 Bulletin, and for State and local governments in the February 1962 Bulletin.

Holdings by commercial banks distributed according to Federal Reserve member bank classes and nonmember banks are published for June 30 and December 31. Holdings by corporate pension trust funds are published quarterly, first appearing in the March 1954 Bulletin.

1/ Includes certain obligations not subject to statutory debt limitation. For amount subject to limitation, see page 1.

2/ Excludes trust departments.

3/ Includes trust companies and, beginning with figures for July 1949, also includes stock savings banks. Previously, those banks were reported as a separate classification.

4/ Included with all other investors are those banks, insurance companies, savings and loan associations, corporations, and State and local government funds not reporting in the Treasury Survey.

5/ United States savings bonds, Series E, F, and J, are shown at current redemption value. They were reported to the Treasury Survey at maturity value but have been adjusted to current redemption value for use in this statement.

6/ Includes \$31 million depository bonds held by commercial banks not included in the Treasury Survey.

7/ Holdings by reporting investors not available.

8/ Guaranteed securities are those held outside the Treasury.

9/ Partially tax-exempt securities are those with the income exempt

from the normal tax except that in the case of partially tax-exempt Treasury bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax. For all other securities, the income is subject to normal tax and surtax.

10/ The Treasury bonds of 1960-65 are partially tax-exempt (see footnote 9). They were called on August 15, 1962, for redemption on December 15, 1962. In the November 15, 1962 refunding \$1,412 million was exchanged and held in a Treasury suspense account until maturity on December 15, 1962.

11/ Includes guaranteed securities which are classified as taxable although a small indeterminate amount of the Federal Housing Administration debentures is partially tax-exempt.

12/ Includes only publicly offered issues.

13/ The proprietary interest of the United States in these banks ended in July 1951.

14/ The proprietary interest of the United States in these banks ended in June 1947.

\* Less than \$500,000.

## MARKET QUOTATIONS ON TREASURY SECURITIES, DECEMBER 31, 1962

Current market quotations shown here are over-the-counter closing bid quotations in the New York market for the last trading day of the month, as reported to the Treasury by the Federal Reserve Bank of New York. The securities listed include all regularly quoted public

marketable securities issued by the United States Government. Outstanding issues which are guaranteed by the United States Government are excluded because they are not regularly quoted in the market.

1/ Includes approximately \$100 million issued for cash on November 15, 1962, as part of a "strip" of additional amounts of ten series of Treasury bills, maturing each week from January 17 to March 21, 1963.

2/ Amount issued on January 3, 1963, was \$1,301 million.

3/ Amount issued on January 3, 1963, was \$800 million.

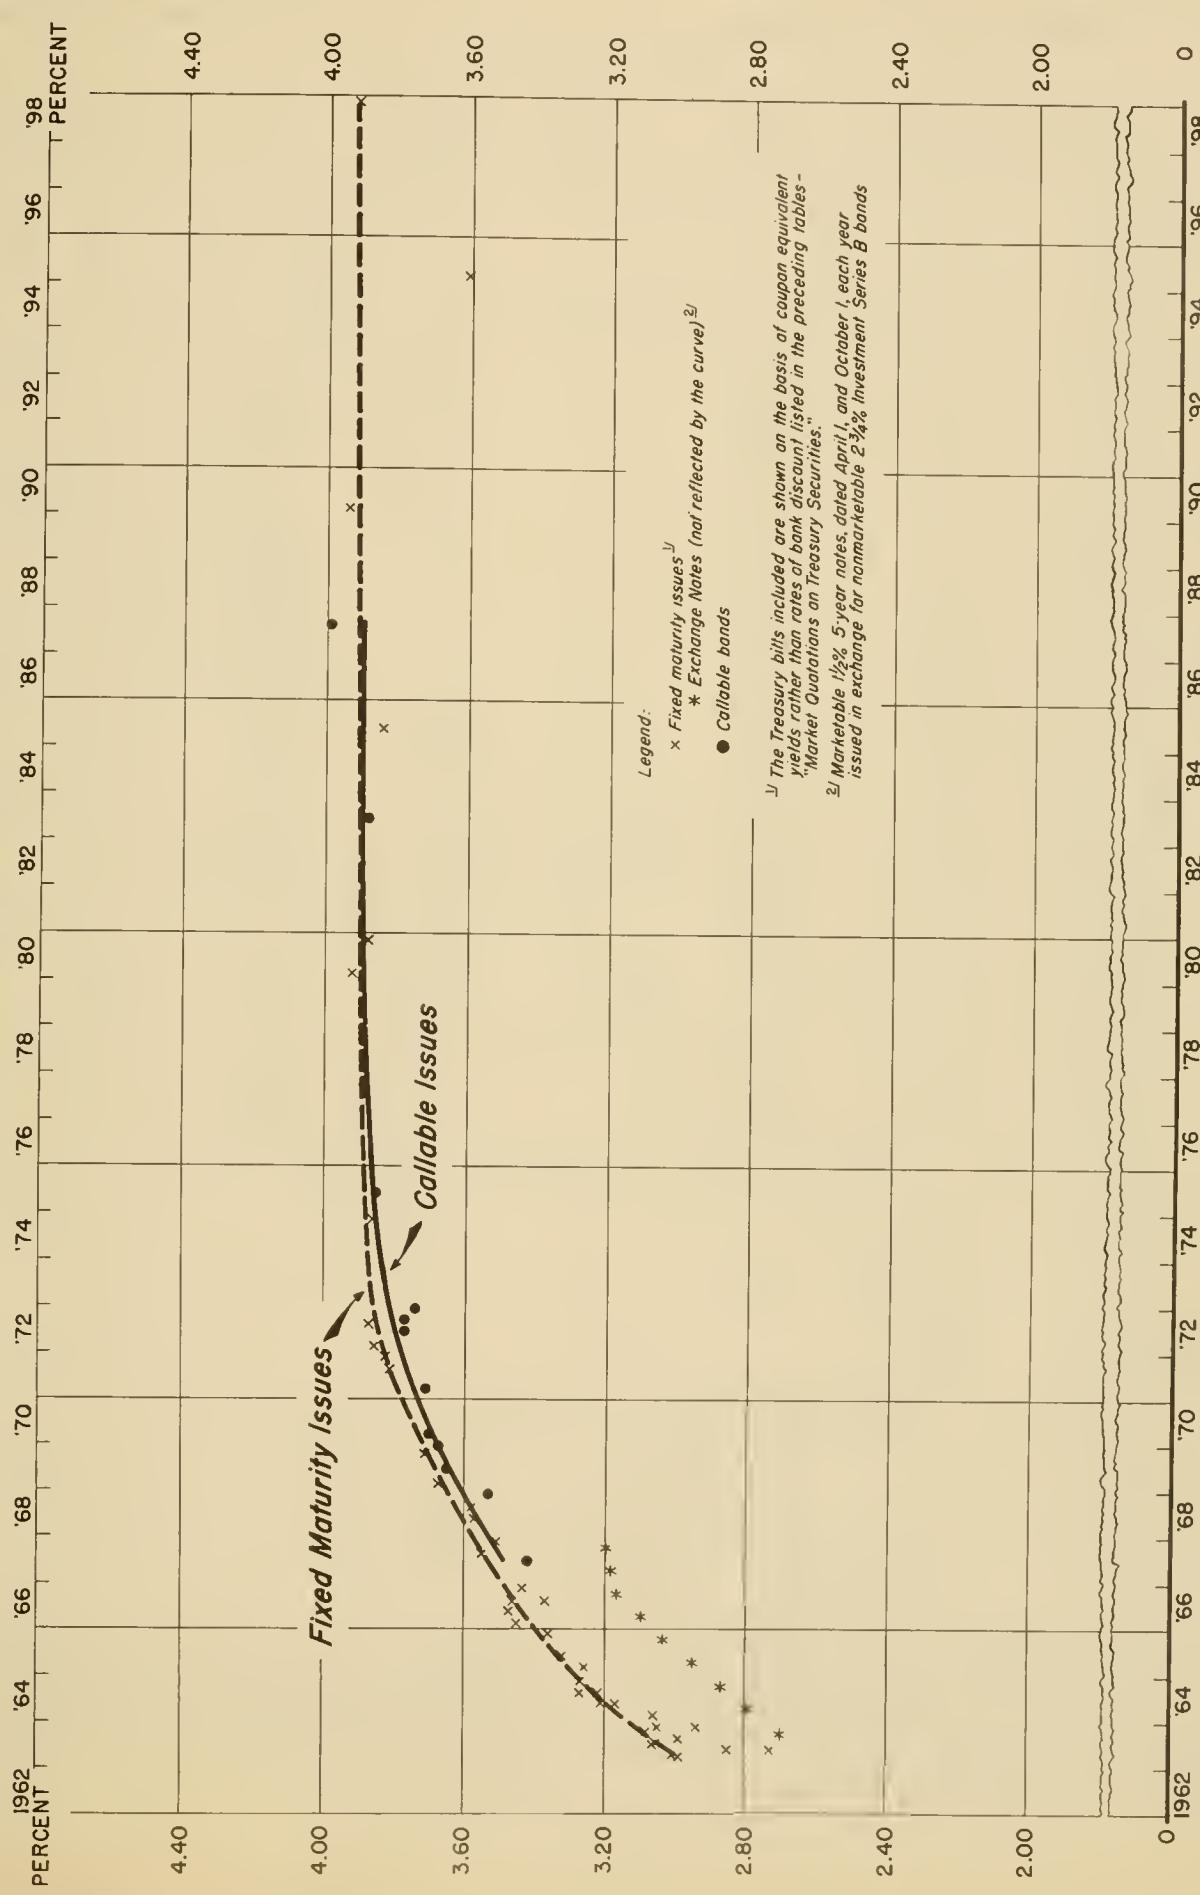

4/ Beginning April 1953, prices are closing bid quotations in the over-the-counter market. Prices for prior dates are the mean of closing bid and ask quotations, except that before October 1, 1939, they are closing

prices on the New York Stock Exchange. "When issued" prices are included in the history beginning October 1, 1939. Dates of highs and lows in case of recurrence are the latest dates.

5/ On callable issues market convention treats the yield to earliest call date as more significant when an issue is selling above par, and to maturity when it is selling at par or below.

6/ Included in the average yield of long-term taxable Treasury bonds as shown under "Average Yields of Long-Term Bonds."

**YIELDS OF TAXABLE TREASURY SECURITIES, DEC. 31, 1962**  
Based on Closing Bid Quotations

*Explanation: The points represent yields to call when prices are above par, and to maturity date when prices are at par or below. The smooth curves for the two classes of points are fitted by eye. Market yields on regular weekly bills other than those offered the latest week and on maturing coupon issues for which an exchange offer has been made and on any issues which are due in less than 3 months are excluded.*

Source: Beginning April 1953, Treasury bond yields are reported to the Treasury by the Federal Reserve Bank of New York, based on closing bid quotations in the over-the-counter market. Yields for prior periods were computed on the basis of mean of closing bid and ask quotations. Moody's Investor Service is the source for the average of Aaa Corporate bonds. For definition of taxable bonds, see footnotes to the "Treasury Survey of Ownership" in this issue of the Bulletin.

1/ Series includes bonds which are neither due nor callable before a

given number of years as follows: April 1953 to date, 10 years; April 1952 - March 1953, 12 years; October 1941 - March 1952, 15 years. For bonds currently in the series, see Table 4 under "Market Quotations on Treasury Securities" in this issue of the Bulletin.

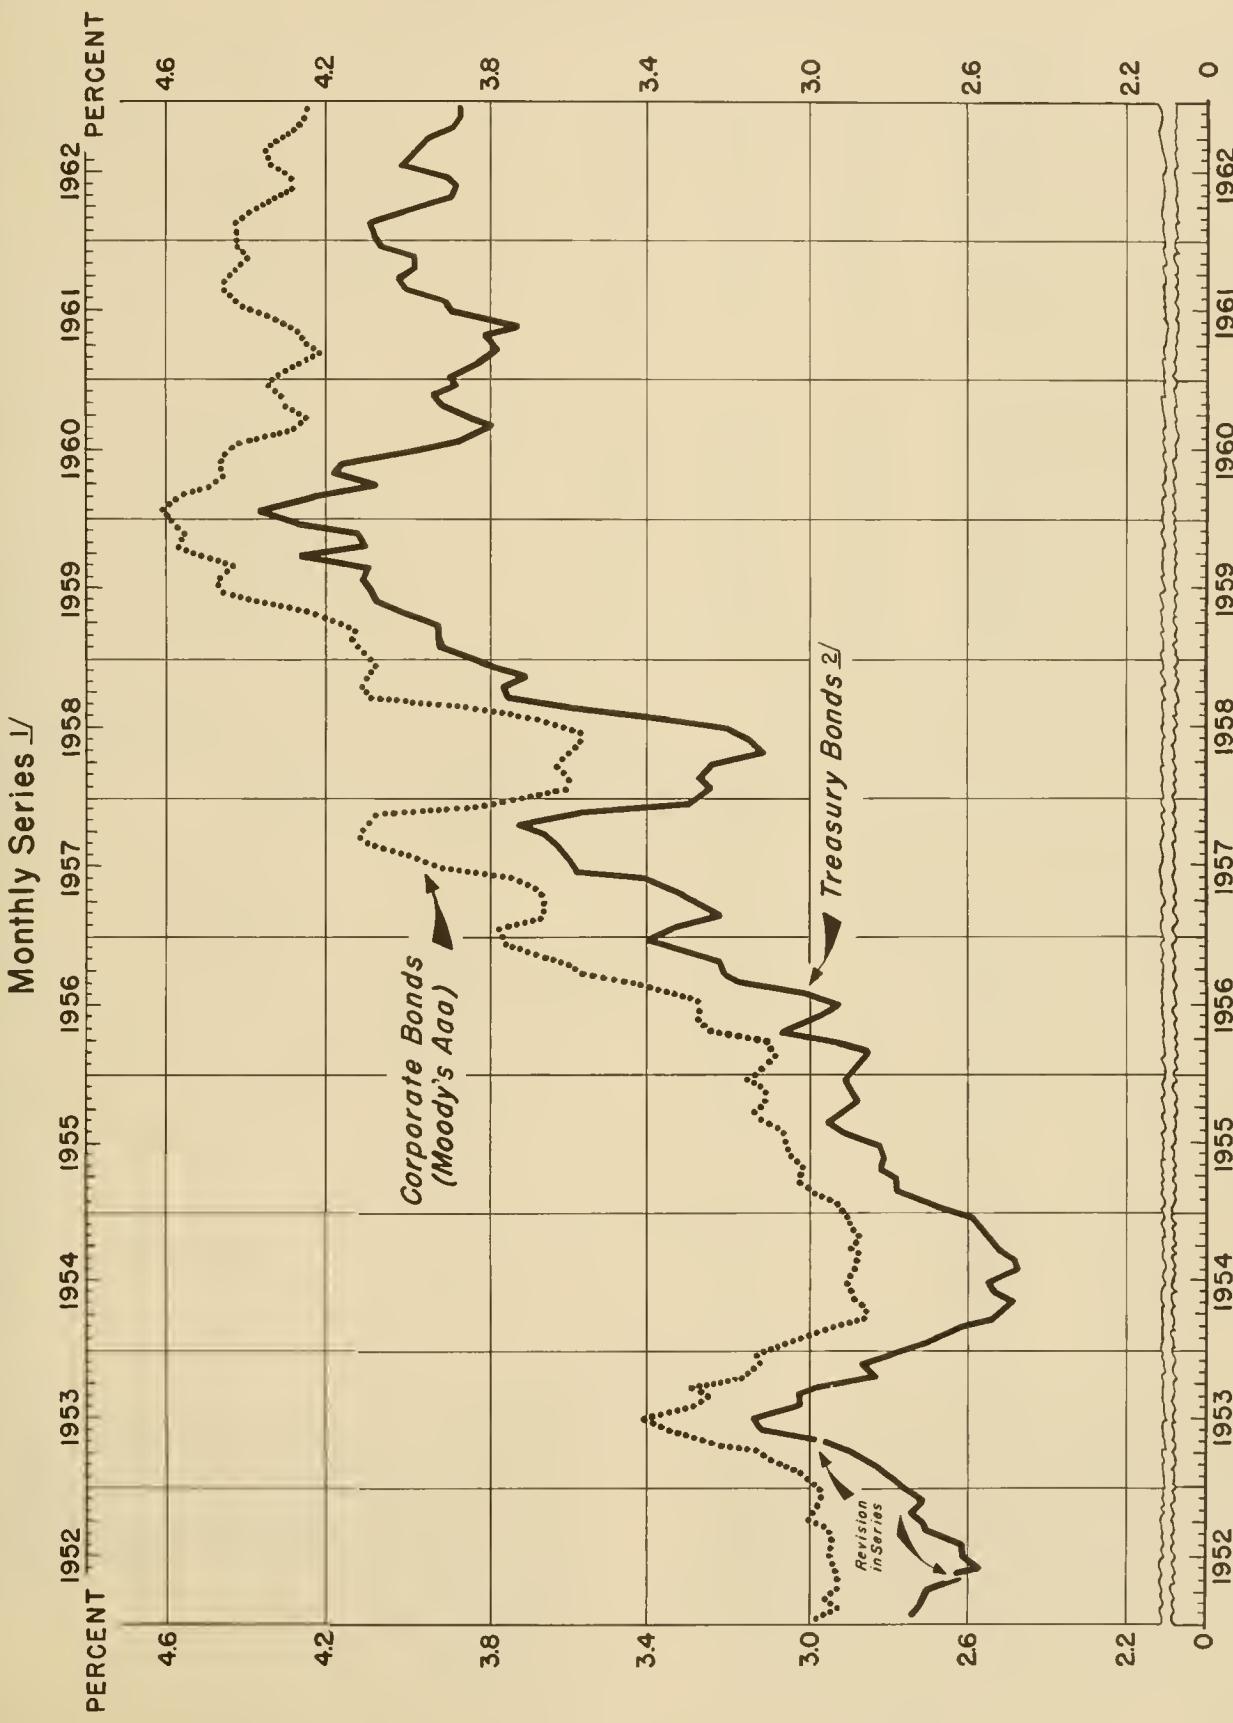

2/ One or more new long-term bonds added to the average.

3/ An existing bond dropped from the average (see footnote 1).

4/ Market closed.

Source: Circulation Statement of United States Money.

1/ Excludes money held by the Treasury and money held by or for the account of the Federal Reserve Banks and agents.

2/ The following paper currencies are in process of retirement and are redeemable from the general fund of the Treasury: Gold certificates issued before January 30, 1934, silver certificates issued before July 1, 1929, Treasury notes of 1890, Federal Reserve notes issued before the series of 1928, Federal Reserve Bank notes, and national bank notes. The Treasury notes of 1890 have been in process of retirement since March 1900 (31 U.S.C. 411) upon receipt by the Treasury, the Federal Reserve Bank notes since June 12, 1945 (12 U.S.C. 445 note), and the national bank notes since December 23, 1915 (12 U.S.C. 441). Retirement of the others was authorized by the Old Series Currency Adjustment Act, approved June 30, 1961 (31 U.S.C. 912-916). The act authorizes the Secretary of the Treasury to determine from time to time the amount of currency of the following types which have been destroyed or lost, and to reduce the amounts thereof on the books of the Treasury: Gold certificates issued before January 30, 1934; silver certificates, United States notes, Federal Reserve Bank

notes, and national bank notes all issued before July 1, 1929; Federal Reserve notes issued prior to the series of 1928; and Treasury notes of 1890. Accordingly, the Secretary of the Treasury has determined that the following paper currencies have been destroyed or irretrievably lost and so will never be presented for redemption: On October 20, 1961, \$1 million of Treasury notes of 1890; and on August 27, 1962, \$9 million of gold certificates, \$15 million of silver certificates, \$18 million of Federal Reserve notes, \$1 million of Federal Reserve Bank notes, and \$15 million of national bank notes.

Highest amount to date.

3/ Issued prior to January 30, 1934.

4/ Includes \$15 million issued before July 1, 1929.

5/ Includes \$18 million issued prior to the series of 1928.

6/ Based on the Bureau of the Census estimated population. Through fiscal 1958 the estimated population is for the conterminous United States (that is, exclusive of Alaska, Hawaii, and the outlying areas such as Puerto Rico, Guam, and the Virgin Islands). Beginning with fiscal 1959 the estimates include Alaska, and with fiscal 1960, Hawaii.

1/ These items represent the difference between the cost value and the monetary value of silver bullion revalued and held to secure silver certificates.

2/ Total of seigniorage on coins and on newly mined silver, beginning

with that for July 1959, is included under coins; the breakdown is not available after June 1959.

2/ The figures in this column are not cumulative; as the amount of bullion held changes, the potential seigniorage thereon changes.

1/ The authority, purpose, and amount through 1940 of these allocations are summarized in the 1940 Annual Report of the Secretary of the Treasury, pages 128-30.

2/ Pursuant to Public Law 85-699, approved August 21, 1958 (72 Stat. 698) the \$111,753,246.03 unexpended balance of this allocation was covered

into the Treasury as miscellaneous receipts; and the \$27,546,310.97 which had been advanced to the Federal Reserve Banks under this allocation was repaid into a special fund from which it was appropriated to the Small Business Administration. Under subsequent legislation (73 Stat. 209) the unused portion of this appropriation was rescinded and the balance, \$23,653,582.01, was covered into the Treasury.

Note: The United States also has certain drawing rights on the International Monetary Fund, in which the United States has a quota of \$4,125 million. In accordance with Fund policies, these drawing rights include the right to draw virtually automatically an amount equal to the sum of the United States gold subscription to the Fund (\$1,031.2 million) and the Fund's net use of dollars; on December 31, 1962, these two amounts totaled \$1,064.4 million. Under appropriate circumstances the United States could draw an additional amount equal to the United States quota.

1/ Includes gold sold to the United States by the International Monetary

Fund with the right of repurchase, the proceeds of which are invested by the Fund in U. S. Government securities; as of December 31, 1962, this amounted to \$800 million.

2/ Includes gold in Exchange Stabilization Fund, which is not included in Treasury gold figures shown in "Circulation Statement of United States Money." See "Monetary Statistics," Table 3.

3/ Includes holdings of Treasury and Federal Reserve System.

## CAPITAL MOVEMENTS

Data relating to capital movements between the United States and foreign countries have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, Executive Order 10033 of February 8, 1949, and Treasury regulations promulgated thereunder. Information on the principal types of data and the principal countries is reported monthly, and is published regularly in the "Treasury Bulletin." Supplementary information is published less frequently. Reports by banks, bankers, securities brokers and dealers, and industrial and commercial concerns in the United States are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury. Beginning April 1954, data reported by banks in the Territories and possessions of the United States are included in the published data.

The term "foreigner" as used in these reports covers all institutions and individuals domiciled outside the United States and its Territories and possessions, the official institutions of foreign countries, wherever such institutions may be located, and international organizations. "Short-term" refers to original maturities of one year or less, and "long-term" refers to all other maturities. A detailed discussion of the reporting coverage, statistical presentation, and definitions appeared in the June 1954 issue of the "Treasury Bulletin," pages 45-47. As a result of changes in presentation introduced in that issue, not all breakdowns previously published

will be exactly comparable to those now presented.

The first three sections which follow are published monthly. They provide summaries, by periods and by countries, of data on short-term banking liabilities to and claims on foreigners and transactions in long-term securities by foreigners, and present detailed breakdowns of the latest available preliminary data.

Section IV provides supplementary data in six tables which appear at less frequent intervals. Table 1, short-term foreign liabilities and claims reported by nonfinancial concerns, is published quarterly in the February, May, August, and November issues of the Bulletin. Table 2, long-term foreign liabilities and claims reported by banks and bankers, and Table 3, estimated gold reserves and dollar holdings of foreign countries and international institutions, are published quarterly in the March, June, September, and December issues. Table 4, foreign credit and debit balances in brokerage accounts, appears semi-annually in the March and September issues. Table 5, short-term liabilities to foreigners in countries and areas not regularly reported separately by banking institutions, is presented annually, appearing in the April issue through 1958 and in the March issue thereafter. Table 6, purchases and sales of long-term securities by foreigners during the preceding calendar year, also appears annually, beginning with the May 1959 issue.

FOREIGN CURRENCIES ACQUIRED BY THE UNITED STATES WITHOUT PURCHASE WITH DOLLARS

---

Foreign currencies reported herein in United States dollar equivalents were acquired without purchase with dollars, for the most part in connection with foreign assistance and agricultural trade development programs authorized by various provisions of law. The currencies are held in the custody of the Treasury Department until such time as they are either sold for dollars to Government agencies or transferred to Government agencies for expenditure without charge to appropriations, as specifically authorized by law.

Prior to July 1, 1953, foreign currencies acquired by Government agencies without payment of dollars generally were available to the collecting agencies to defray operating expenses and were not subject to the regular appropriation processes.

The act of July 15, 1952, Sec. 1415 (66 Stat. 662), provided that after June 30, 1953, United States agencies could no longer expend foreign currencies belonging to the United States except as provided annually in appropriation acts. Subsequent legislation required executive departments and agencies, with certain exceptions, to reimburse the Treasury in dollars for the foreign currencies used. Executive Orders No. 10488 dated September 23, 1953, and No. 10900 dated January 5, 1961, as amended, provided for the issuance of regulations by the Secretary of the Treasury governing the purchase, custody, transfer, or sale of foreign exchange by the United States.

Accordingly, Treasury Department Circular No. 930 was issued on October 19, 1953, effective December 1, 1953. These regulations provided for the transfer of department and agency foreign currency balances as of November 30,

1953, into Treasury custody, and the flow of future collections through Treasury accounts; and established requirements with respect to withdrawals from Treasury accounts; limitations on purchases and amounts of holdings; the use of foreign depositaries; and accounting for the currencies. Department Circular No. 930 as revised October 20, 1961, added certain requirements governing foreign currency reporting and accounting.

Figures are stated in dollar equivalents, computed for reporting purposes, to provide a common denominator for the currencies of the many foreign countries involved. It should not be assumed that dollars, in amounts equal to the balances, are actually available for the general use of the United States Government, since most of the currencies are inconveritible and restricted as to uses by the terms of agreements between the United States and the foreign governments.

The tables exclude the counterpart funds owned by and held in accounts of the foreign governments. The use of such funds is subject to approval of the United States, and transactions therein are included in reports of the Agency for International Development. The tables also exclude the United States purchases of foreign currencies which are under dollar accountability and reported as dollar transactions.

Detailed data, by account, agency, program, foreign country, units of currency, and related dollar equivalents, are published annually in the Combined Statement of Receipts, Expenditures and Balances, beginning with fiscal 1958.
