### Reporting Bases

Data on receipts, expenditures, and debt which appear in the "Treasury Bulletin" are based largely on two Treasury financial reports, the "Daily Statement of the United States Treasury" and the "Monthly Statement of Receipts and Expenditures of the United States Government." Certain monetary statistics are based at least in part on the "Circulation Statement of United States Money." Where these statements are given as sources for individual tables, they are cited by name only. Their respective reporting bases are described below. For other data in the Bulletin, information on sources or reporting bases is given in connection with the tables themselves.

The monthly statement of receipts and expenditures was first published for February 1954, and replaced the daily statement as the primary source of information on budget results and other receipt and expenditure data classified by type of account. At the same time, the daily statement was changed to a statement of cash deposits and withdrawals affecting the account of the Treasurer of the United States. Both publications have provided comparative figures on their respective bases from the beginning of the fiscal year 1953. The announcement of February 17, 1954, with respect to these reporting changes may be found in the April 1954 issue of the Bulletin.

The monthly statement shows all receipts and expenditures of the Government, including those made from cash accounts held outside the United States Treasury. The information is compiled from reports by the Treasurer of the United States and by all other collecting and disbursing agencies, including those agencies which maintain checking accounts in commercial banks. These reports cover transactions recorded in the accounts of the agencies during the reporting period. The net of the transactions as compiled from these reports is reconciled in the monthly statement to changes in the balance in the Treasurer's account and in cash held outside the Treasurer's account and changes in the public debt outstanding.

Receipts of taxes and customs duties are reported on a collections basis. Other receipts are reported partially on a collections basis and partially on a deposits basis. Expenditures, except interest on the public debt, are reported on the basis of checks issued or cash payments made by disbursing officers. Transactions of an interfund or intragovernmental nature are included on the same basis even though the actual issuance of checks may not be involved. Interest on the public debt is included on an accrual basis beginning with figures for June 1955 and the fiscal year 1955. Prior to that, it was included on a due and payable basis. The same reporting basis as that in the monthly statement provides the fiscal year figures for the Treasury's "Combined Statement of Receipts, Expenditures and Balances of the United States Government" and for actual receipts and expenditures in the "Budget of the United States Government."

The daily statement on the new basis was first issued for February 17, 1954. In the deposits and withdrawals as shown, no distinction is made as to the type of accounts (budget, trust, etc.). The deposits are on the basis of certificates of deposit cleared through the account of the Treasurer of the United States. Total withdrawals are on the basis of checks paid or cash disbursements made out of the Treasurer's account. Some of the withdrawal classifications shown are reported on the basis of mailed reports of checks issued and are adjusted by means of clearing accounts to the total of checks paid. Except for relatively minor amounts, noncash interfund and other intragovernmental transactions are excluded. The public debt figures in the daily statement also are on a "clearance" basis, with the exception of those issuance and retirement transactions reported on the basis of telegrams from Federal Reserve Banks. Noncash debt transactions are included, however.

The daily statement before February 17, 1954, covered not only transactions cleared through the Treasurer's account but also certain Government agency transactions which were handled through commercial bank accounts, and included noncash interfund and other intragovernmental transactions. It provided information similar to that in the present daily statement with respect to the status of the Treasurer's account, and similar to that in the present end-of-month daily statement with respect to debt issuance, retirement, and amount outstanding. Receipts and expenditures, however, were classified by type of account, and the budget results shown in the daily statement were used as the basis for reflecting the results under the President's budget program as enacted by the Congress.

Receipts were on the basis of deposits as they cleared the Treasurer's account. Expenditures cleared through the Treasurer's account were reported on two successive bases. Through 1946 they were on the basis of checks paid by the Treasurer of the United States. Beginning with 1947, expenditures made through the facilities of the Treasury Department's Division of Disbursement were on the basis of checks issued, while certain others, principally those of the Department of Defense and its predecessor organizations, were on the basis of checks paid. Transactions handled through commercial bank accounts, consisting of market transactions in public debt and guaranteed securities, were as reported by the agencies. Interest on the public debt was included on a due and payable basis beginning with November 1949 and on a checks-paid basis prior to that time.

The circulation statement reflects transactions through the Treasurer's account which affect monetary stocks of gold and silver and the amounts of coin and currency in the money supply of the country. It is issued later than the daily statement, however, and the figures are based on transactions consummated during the reporting period even though some may not have cleared the Treasurer's account during that period.

## Treasury Financing Operations

### November Financing Announcements

The Treasury Department announced on November 19, 1959, the offering for cash of \$2,000 million, or thereabouts, of 320-day Treasury bills to be dated December 2, 1959, and to mature October 17, 1960; and an exchange offering for Series F and G savings bonds issued in 1948, and maturing in 1960 (\$1,600 million outstanding), from November 23 through November 30, at face value, with certain interest and other adjustments to December 15, 1959, of 4-3/4 percent Treasury notes of Series A-1964 dated July 20, 1959, maturing May 15, 1964, to be issued at 99-3/4 percent and accrued interest to December 15, 1959.

Any commercial bank qualified as a depository was permitted to make payment for any cash payments authorized or required to be made for the new securities allotted to itself and its customers by credit in its Treasury tax and loan account up to the amount for which it was qualified in excess of existing deposits.

The Treasury also made a preliminary announcement of a plan to permit holders of Series E savings bonds, and unmatured Series F and J savings bonds, to exchange them, effective January 1, 1960, and thereafter, for Series H savings bonds, subject to deferral of unpaid accruals on the exchange for Federal income tax purposes.

### Treasury 320-day Bills

The offering of 320-day Treasury bills was the fourth and final step in the Treasury program for the establishment of a pattern of one-year maturities on quarterly dates in January, April, July, and October, which was initiated on April 1, 1959. The bills were sold on an auction basis on November 24.

Subscribers to the bills were required to agree not to purchase or to sell, or to make any agreements with respect to the purchase or sale or other disposition of, the Treasury bills for which tenders were submitted under this offering, until after 1:30 p.m. on November 24, the closing hour for tenders.

Tenders for the 320-day bills opened on November 24 were received without deposit from incorporated banks and trust companies and from responsible and recognized dealers in investment securities. Tenders from others were required to be accompanied by payment of 2 percent of the face amount of Treas-

ury bills applied for, unless the tenders were accompanied by an express guaranty of payment by an incorporated bank or trust company. Except for the depositaries' making payment by credit in their Treasury tax and loan accounts, payment of accepted tenders at the prices offered was required to be made or completed in cash or other immediately available funds on December 2. The average rate of discount for the issue was 4.860 percent. Tenders amounting to more than \$2,007 million were accepted. Included in the total were noncompetitive tenders for \$400,000 or less aggregating approximately \$400 million, which were accepted in full at the average price of accepted competitive bids.

### Weekly Bills Refunded

Regular weekly issues of Treasury bills totaled \$6.2 billion in November, refunding the total and weekly amounts of the maturing 13-week and 26-week bills. The four issues of 13-week bills amounted to \$4.6 billion and the four 26-week issues to \$1.6 billion. Issues for the first three dates have 91-day and 182-day maturities, and for the fourth, 90-day and 181-day terms. The new 13-week issues were \$1.2 billion each except that for November 5 which was for \$1.0 billion. Each 26-week issue was for \$0.4 billion. Average rates of discount on the new bills were as follows:

		13-week (Additional amount of bills of original maturity of 26 weeks)		26-week	
Date of -		Approximate equivalent annual average rate	Date of issue	Approximate equivalent annual average rate	
Additional issues	Original issue				
Nov. 5	Aug. 6	4.137%	Nov. 5	4.437%	
	12	4.089		12	4.534
	19	4.332		19	4.744
	27	4.279		27	4.625

### Redemption and Exchange of B-1962 Notes

The Treasury Department announced on November 23 that on the basis of preliminary reports holders of \$157 million of the remaining \$317 million of outstanding 4 percent Treasury notes of Series B-1962 (originally issued in the amount of \$2 billion) had exercised the option to redeem their notes on February 15, 1960, at par and accrued interest on that date. The notes were issued on September 26, 1957, and will mature on August 15, 1962.

Holders of \$1,684 million of the notes took advantage of the offering to exchange their notes for 4-7/8 percent Treasury notes of Series C-1963, dated November 15, 1959, and maturing November 15, 1963. The books were open for this exchange on November 2 through November 4. With the redemption on February 15, 1960, of \$157 million of the notes of Series B-1962, the amount of the issue remaining outstanding for redemption on August 15, 1962, will be \$160 million.

Notice of intention to redeem on February 15, 1960, must have been given in writing directly to any Federal Reserve Bank or Branch or to the Office of the Treasurer of the United States, or placed in the mail prior to midnight November 16, 1959. A notice may not be revoked. The notes to be redeemed on February 15, 1960, will be stamped to show that they are payable on that date, and the coupons maturing after that date, attached to the notes, have been cancelled.

#### Exchange of Notes for F and G Savings Bonds

The 4-3/4 percent Treasury notes constitute an amount additional to the \$4,184 million of notes previously outstanding (including \$2,678 million held by the Federal Reserve Banks and Treasury investment accounts), and which were issued on July 20, 1959. Interest is payable on the notes on May 15 and November 15. Although the subscription books were open only from November 23 through 30, subscribers who were unable to consummate their subscriptions within that period but who submitted a letter of intent postmarked November 30 or earlier were given until the close of business on December 10 to complete their subscriptions.

Exchanges of Series F and G savings bonds maturing in 1960 were made on the basis of equal face amounts and were allotted in full. Since holders

of the Series F and G bonds receive interest on the new notes at the rate of 4-3/4 percent from November 15, 1959, interest adjustments were made as follows: All subscribers were charged accrued interest on the notes from November 15, 1959, to December 15, 1959 (\$4.00 per \$1,000), and were credited with the discount on the issue price of the notes (\$2.50 per \$1,000).

The Series F and G bonds were accepted in the exchange at amounts set forth in the two accompanying tables as set forth in the offering circular. These exchange values were fixed to provide the holders of such bonds an investment yield approximately 1 percent more than otherwise would accrue from December 15, 1959, until their respective maturity dates, less an amount equal to the interest which will accrue on the 4-3/4 percent Treasury notes during the corresponding period. The effect of these adjustments will also provide for the notes an investment yield of approximately 4.81 percent per annum from the respective maturity dates of the Series F and G bonds to May 15, 1964, the maturity date of the notes.

The notes were made available in registered form, as well as in bearer form, and were issued in denominations of \$1,000, \$5,000, \$10,000, \$100,000, \$1,000,000, \$100,000,000, and \$500,000,000. Holders of smaller denomination Series F and G bonds could exchange them for the next higher multiple of \$1,000 upon payment of any cash difference.

The exchange values of Series F bonds, the differences between such values and the offering price of the 4-3/4 percent notes, the interest which will accrue on such notes, and the total amounts to be collected from holders of Series F bonds per \$100 (face amount) are as follows:

1/ In addition, for each \$100, or multiple or fraction thereof, between the face amount of Series F bonds submitted and the face amount of notes subscribed (to next higher multiple of \$1,000) the subscriber must pay \$100.15 (\$99.75 issue price plus \$.40 accrued interest).

The exchange values of Series G bonds, the differences between such values and the offering price of the 4-3/4 percent notes, the accrued interest to be credited on the G bonds, the interest

1/ In addition, for each \$100, or multiple thereof, between the face amount of Series G bonds submitted and the face amount of notes subscribed (to next higher multiple of \$1,000) the subscriber must pay \$100.15 (\$99.75 issue price plus \$.40 accrued interest).

2/ The net amount to be paid to subscribers will be paid following acceptance of the bonds by the agency through which the exchange is made.

3/ Interest will be paid to January 1, 1960, on bonds maturing July 1, 1960, in regular course on January 1, 1960, by checks mailed by the Treasury Department. As these checks will include unearned interest for the period from December 15, 1959, to January 1, 1960, each subscriber who tenders these bonds will be required to make an interest refund of \$.10 per \$100 (face amount). The above amount in column 6 of \$.95 includes such refund.

#### Exchange of E, F, and J for H Savings Bonds

The Treasury further announced that regulations would be issued in December, effective on January 1, 1960, and thereafter, under which holders of outstanding Series E savings bonds, and unmatured Series F and J savings bonds, may exchange them at current redemption values for Series H bonds, and have the privilege of treating the increase in redemption value (to the extent not previously includable in gross income) in excess of the amount paid for such Series E and unmatured Series F or J bonds, includable in gross income in the taxable year in which the Series H bonds are finally redeemed or disposed of, or in the taxable year of final maturity, whichever is earlier. Exchanges of Series E and unmatured Series F and J savings bonds under these conditions are authorized in the law requested by the Treasury, and enacted by the Congress during its last session, approved September 22, 1959.

The offering circular will contain a provision with respect to this exchange, reading as follows:

"Pursuant to the provisions of section 1037 (a) of the Internal Revenue Code of 1954 as added by Public Law 86-346 (approved September 22, 1959), the Secretary of the Treasury hereby declares that no gain or loss shall be recognized for Federal income tax purposes upon the exchange with the United

States of the Series E, F, and J savings bonds solely for the Series H savings bonds. Gain or loss, if any, upon the obligations surrendered in exchange will be taken into account upon the disposition or redemption of the new obligations."

The effect of this proposed action by the Treasury will permit many persons who hold amounts of Series E and unmatured Series F and J bonds on which the interest earnings are reflected in the increase in redemption value from date of issue until maturity, or earlier redemption prior to maturity, to exchange them for Series H current income bonds on which interest is payable each six months by check issued to the bondowner.

Hitherto, persons redeeming their Series E, F, and J savings bonds to purchase Series H bonds have been required to include the increase in value (difference between cost and redemption value) in their income tax returns in the years in which the transactions occurred, unless such increment has been included previously in their gross income. Under the proposed exchanges effective after January 1, 1960, payment of income taxes on the increase in value may be deferred until the Series H bonds are finally redeemed or disposed of, or until the taxable year of final maturity, whichever is earlier.

Exchanges of the Series E and unmatured Series F and J bonds for Series H bonds will be authorized without regard to the annual limitation of \$10,000 of Series H bonds which may be purchased under current regulations.

Series H savings bonds are issued at par. They are dated the first day of the month in which payment is received and mature ten years thereafter. Interest is payable on a graduated basis and is equivalent to a rate of 3-3/4 percent if the bonds are held until maturity. The bonds are issued in denominations of \$500, \$1,000, \$5,000, and \$10,000. For each \$100 of investment, interest is paid amounting to \$2.25 for the first year, \$3.60 for the second year, and \$4.00 for each year thereafter until maturity.

#### Detail of Improved E and H Savings Bonds

The Treasury's announcement of September 22 contained substantial improvements in rates of return for both new and old Series E and H savings bonds (see October Treasury Bulletin page A-2). The application of the new terms to outstanding bonds varies, depending on their original rates of return and their dates of issue. A summary of the effect of the new terms on existing bonds is outlined below.

Complete schedules by dates of issue, of past and, effective June 1, 1959, future redemption values (for a \$100 Series E bond) and amounts of interest checks (for a \$1,000 Series H bond), as well as investment yields, are shown in Tables 1 and 2 which follow. Similar information for each denomination is set forth in the official offering circulars (Department Circular No. 653, Fifth Revision, for Series E and Department Circular No. 905, Second Revision, for Series H, both dated September 23, 1959).

A summary of terms and conditions on the new 3-3/4% Series E and H savings bonds with issue dates beginning June 1, 1959, is included for comparative purposes.

#### SERIES E

##### NEW E BONDS WITH ISSUE DATES JUNE 1959 OR AFTER

Earn 3-3/4% when held to maturity compared to the former 3-1/4% (compounded semiannually).

Mature in 7 years and 9 months — 1 year and 2 months earlier than the former 8 years and 11 months. The higher interest rate means a shorter time to maturity.

Pay a higher return for shorter terms of holding:

3% when held 2 years, as against 2-3/4% before;  
3-1/2% when held 4-1/2 years, as against 3-1/8% before.

Same denominations as before — \$25, \$50, \$100, \$200, \$500, \$1,000, \$10,000.

Same prices as before — \$18.75 for a \$25 bond; \$37.50 for a \$50 bond; \$75 for a \$100 bond; etc.

Extension privilege for 10 additional years of holding is provided. Interest rates and other terms and conditions to be determined as the bonds approach maturity.

New terms apply regardless of what is printed on the bond if the issue date is June 1959 or after. Accurate payment is assured by the table of redemption values furnished all paying agents, on which current redemption values are automatically keyed to the issue date on each bond sold. Those who have purchased bonds beginning June 1959, but before the newly printed bonds were available, may exchange their old bonds for the new if desired, but they get the benefit of the new terms regardless.

#### ALL OUTSTANDING E BONDS WITH ISSUE DATES PRIOR TO JUNE 1959

Earn at least 1 1/2% more than before from now to next maturity, with lesser improvement in yields if redeemed earlier. The improved rates start with the next full interest period beginning on or after June 1959. There is no retroactive increase in interest rates for periods prior to June 1959.

Term to maturity or extended maturity is unchanged. The higher rate for the remaining time means an increase in the new as against the former redemption values.

Here is how the improved rates to the next maturity will apply. The improvement depends on the former rates on these bonds for holding to maturity or for the full extension.

1. Unmatured bonds reaching original maturity beginning December 1959 (dated December 1949 through May 1959):

- a. 1 1/2% more on former 3-1/4% bonds with issue dates of February 1957 through May 1959 (new maturity values ranging from \$103.20 to \$104.24 vs. old \$100.00);
- b. 1 1/2% more on former 3% bonds with issue dates of May 1952 through January 1957 (new maturity values ranging from \$101.08 to \$103.60 vs. old \$100.00);
- c. 6/10% more on former 2.9% bonds with issue dates of December 1949 through April 1952 (new maturity values ranging from \$100.92 to \$101.48 vs. old \$100.00).

Example: Former 3% bond dated June 1955.

Redemption values (for \$100 bond) and investment yields from June 1, 1959:

If held for:	Redemption values		Investment yields	
	Formerly	Now	Formerly	Now
1 more year.....	\$85.00	\$85.08	3.38%	3.47%
2 more years.....	87.80	88.08	3.32	3.48
3 more years.....	90.60	91.28	3.27	3.52
4 more years.....	93.60	94.84	3.27	3.61
5 more years.....	96.80	98.80	3.30	3.71
5-2/3 more years (maturity).....	100.00	102.84	3.49	3.99

Continuing to hold unmatured bonds. In all cases it is more advantageous to hold these bonds to original maturity and beyond to extended maturity (see description of improved extension below) than to cash them in to buy new ones.

2. Bonds maturing (reaching original maturity June to November 1959), dated June to November 1949. See description of improved extension below.
3. Matured bonds which reached original maturity before June 1959 (dated May 1941 through May 1949):
- 1 1/2% more on former 3% (extension) bonds with issue dates of May 1942 through May 1949 (new extended maturity values ranging from \$136.36 to \$141.12 vs. old \$134.68);
  - 6 1/10% more on former 2.9% (extension) bonds with issue dates of May 1941 through April 1942 (new extended maturity values ranging from \$134.52 to \$135.32 vs. old \$133.33).

Example: Former 3% (extension) bond dated December 1943. Redemption values (for \$100 bond) and investment yields from June 1, 1959:

If held for:	Redemption values		Investment yields	
	Formerly	Now	Formerly	Now
1 more year.....	\$121.20	\$121.32	3.04%	3.14%
2 more years.....	124.80	125.36	2.99	3.22
3 more years.....	128.60	129.88	3.00	3.34
4 more years.....	132.60	134.96	3.02	3.47
4 1/2 more years (maturity).....	134.68	137.72	3.04	3.54

Continuing to hold matured bonds.

It is more advantageous to hold all former 2.9% (extension) bonds to extended maturity than to cash now and buy new bonds. See "b" above.

It is also more advantageous in most cases to continue to hold former 3% (extension) bonds. See "a" above. All of these bonds earn 3-1/2% or slightly more on their current redemption value if held to extended maturity. Many will reach extended maturity before the new bonds (dated June 1959 or after) earn 3-1/2% (at 4-1/2 years). However, even if the new bond does catch up, the difference in practically all cases is negligible.

In addition, for income tax purposes, most people treat the total interest earned since issue date as income for the year in which the bonds are redeemed. They prefer this to paying a tax each year as interest accrues. The interest on matured bonds amounts to 25 percent or more of their total value and even at the lowest income tax rate the tax payable upon redemption mounts up. However, continuing to hold these bonds means that this tax money stays invested and earns more interest. Therefore, in most cases there is no gain at all from redeeming the old bonds to buy new ones.

4. Improved extension on bonds with issue dates of June 1949 through April 1957 (reaching maturity June 1959 and after) on which a 3% extension had already been promised:

Earn 3-3/4% for the entire extension if held to extended maturity (new extended maturity values ranging from \$145.00 to \$150.20 vs. old \$134.68);

Extension period is 10 years, the same as before;

For shorter periods of holding during extension, earning rates will begin at approximately 3-1/2% for the first 1/2 year of holding and increase uniformly to 3-3/4% at maturity;

Redemption value of a bond at the beginning of the new extension will be the base on which interest will accrue during the 10-year extension period.

5. Other extension privileges:

- Bonds with issue dates of May 1957 and after (including the new bonds) will have a 10-year extension privilege, with interest rates and

other terms and conditions to be determined as they approach maturity;

- Bonds with issue dates of May 1941 through May 1949 (already in their first extension period prior to June 1959, reaching extended maturity beginning May 1961) will have a second 10-year extension privilege. Interest rates and other terms and conditions will be determined as the bonds approach their present extended maturity.

In addition to the tax advantage in continued holding of old bonds, by allowing the tax money to earn more interest, there is also an advantage in deferring the tax for people who expect to be in a lower tax bracket when they redeem their bonds after retirement.

## SERIES H

Series H bonds pay interest by check every six months.

### NEW H BONDS WITH ISSUE DATES OF JUNE 1959 OR AFTER HAVE BEEN IMPROVED ALSO

Earn 3-3/4%, the same as E bonds when held to maturity.

Mature in 10 years as before.

Pay a higher return for shorter terms of holding:

3-1/4% when held 3 years, as against former 3%; 3-1/2% when held 5 years, as against former 3-1/8%.

Same denominations as before — \$500, \$1,000, \$5,000, \$10,000.

Price as well as redemption value at all times (including maturity) is per as before.

High current income. Interest checks after the first three will be level, providing 4% current income after 1-1/2 years of holding.

### ALL OUTSTANDING H BONDS WITH ISSUE DATES PRIOR TO JUNE 1959

Earn 1 1/2% more than before from now on to maturity, with lesser improvement in yields if redeemed earlier. The improved rates start with the next full interest period beginning on or after June 1959.

Term to maturity is unchanged. The higher rate means an increase in the amounts of the remaining interest checks over the former scheduled amounts of checks to provide the 1 1/2% increase in yield if the bond is held to maturity.

Example: Former 3% bond dated June 1955.

Amounts of remaining semiannual checks for \$1,000 bond after June 1, 1959:

Checks	Formerly	Now
First 3 checks.....	\$17.00	\$17.50
Next 4 checks.....	17.00	19.10
Last 5 checks.....	17.00	21.00

Continuing to hold outstanding bonds to maturity is more advantageous in all cases than cashing them in to buy new ones.

## OTHER SERIES

Holders of matured and maturing Series F and G bonds other than commercial banks may apply the redemption proceeds to the purchase of new Series E or Series H bonds without regard to limit on holdings (see below).

## LIMIT ON HOLDINGS

Investors in Series E and H bonds other than commercial banks may purchase and hold \$10,000 face amount (original maturity) of each series in each calendar year.

Source: Actual figures through the fiscal year 1952 and the calendar year 1953 are from the daily Treasury statement, and thereafter in each case they are from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates are from the Midyear Review of the 1960 Budget, released September 24, 1959, including effects of proposed legislation. More detailed information with respect to the figures on this page will be found in succeeding tables.

1/ Gross receipts less transfers of tax receipts to certain trust funds (see page 2), and refunds of receipts.

2/ Transactions of the Foreign Economic Cooperation Trust Fund, established under Section 114 (f) of the Economic Cooperation Act of 1948 (62 Stat. 150), are consolidated with budget expenditures.

3/ Consists of transactions of trust and deposit funds, investment by Government agencies in public debt securities, and redemption or sale of obligations of Government agencies in the market; excess of receipts, or expenditures (-). For detail of content, see page 8.

4/ For checks outstanding and telegraphic reports from Federal Reserve Banks; public debt interest accrued and unpaid beginning with June and the fiscal year 1955 (previously included from November 1949 as interest checks and coupons outstanding); also deposits in transit and changes in cash held outside the Treasury and in certain other accounts beginning with the fiscal year 1954. Net increase, or decrease (-).

5/ For current month detail and list of acts, see section on "Statutory Debt Limitation" in each issue of the Bulletin. The limitations in effect during the period covered by this table and the date when each became effective are as follows: \$275 billion, on June 26, 1946; \$281 billion, on August 28, 1954; \$278 billion, on July 1, 1956; \$275 billion, on July 1, 1957; \$280 billion, on February 26, 1958; \$288 billion, on September 2, 1958; and \$290 billion on June 30, 1959. From July 1, 1959 to June 30, 1960, the limit is \$295 billion. Thereafter it will revert to \$285 billion.

Source: Actual figures for 1952 are from the daily Treasury statement and thereafter from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases see page II); estimates are from the Midyear Review of the 1960 Budget, released September 24, 1959, and supporting data, including effects of proposed legislation.

1/ For further detail, see tables under "Internal Revenue Collections." Breakdown was not made in the daily Treasury statement and the monthly statement for years prior to 1954.

2/ Beginning January 1951, the distribution of receipts between individual income taxes and old-age and disability insurance taxes is made in accordance with provisions of Sec. 201 of the Social Security Act, as amended (42 U.S.C. 401), for transfer to the Federal Old-Age and Survivors Insurance Trust Fund (see footnote 11), and after December 1956 also for transfer to the Federal Disability Insurance Trust Fund (see footnote 12).

4/ Taxes on employers and employees under the Federal Insurance Contributions Act, as amended (26 U.S.C. 3101-3125), and, beginning with the taxable year 1951, tax on self-employed individuals under the Self-Employment Contributions Act, as amended (26 U.S.C. 1401-1403). The Social Security Act Amendments of 1956, approved August 1, 1956, increased the rates of tax applicable to wages paid and taxable years beginning after December 31, 1956, to provide for disability insurance (see footnote 12).

5/ Taxes on carriers and their employees under the Railroad Retirement Tax Act, as amended (26 U.S.C. 3201-3203).

6/ Tax on employees of 4 or more under the Federal Unemployment Tax Act, as amended (26 U.S.C. 3301-3308); with respect to services performed before January 1, 1956, the tax was imposed on employers of 8 or more. Remaining footnotes on following page.

BUDGET RECEIPTS AND EXPENDITURES

---

## Footnotes to Table 1 - (Continued)

- 2/ Through 1953, contributions to the Railroad Unemployment Insurance Administration Fund were carried in the daily Treasury statement as miscellaneous receipts, while the 1960 Budget document, Special Analysis L, includes them in employment taxes through 1952. Beginning 1954 the contributions are credited direct to the trust account. For amounts of the contributions included in budget receipts, see "Treasury Bulletin" for February 1954, page 7.
- 3/ In the 1960 Budget document, Special Analysis L, taxes not otherwise classified are included in miscellaneous receipts.
- 2/ Beginning 1957, includes collections under increased rates in the Highway Revenue Act of 1956 (see footnote 14).
- 10/ Figures shown include adjustments (see footnote 11) as follows: In January, decreases in income tax of \$82 million withheld and \$7 million not withheld, and increases in transfers of \$83 million to Federal Old-Age and Survivors Insurance Trust Fund and \$5 million to Federal Disability Insurance Trust Fund; in April, increase in income tax withheld of \$129 million and decreases in income tax not withheld of \$2 million and in transfers of \$114 million to Federal Old-Age and Survivors Insurance Trust Fund and \$13 million to Federal Disability Insurance Trust Fund; in June, increase in income tax withheld of \$138 million and decreases in income tax not withheld of \$14 million, and in transfers of \$111 million to Federal Old-Age and Survivors Insurance Trust fund and \$19 million to Federal Disability Insurance Trust Fund.
- 11/ Amounts appropriated to the Federal Old-Age and Survivors Insurance Trust Fund are equivalent to the amounts of taxes collected and deposited for old-age insurance (42 U.S.C. 401 (a)). Beginning January 1951, the amounts transferred currently for appropriation to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury pursuant to the provisions of Sec. 201 (a) of the Social Security Act, as amended (42 U.S.C. 401 (a)), and are adjusted in later transfers on the basis of wage and self-employment income records maintained in the Social Security Administration. The amount of old-age insurance tax refunds is reimbursed to the general fund by the trust fund.
- 12/ The Federal Disability Insurance Trust Fund was established by the Social Security Act Amendments of 1956, approved August 1, 1956

(42 U.S.C. 401 (b)). The act appropriated to the trust fund amounts equivalent to specified percentages of the wages and self-employment income, respectively, which are taxed for old-age insurance, and provided that the amounts appropriated should be transferred from time to time to the trust fund on the same basis as transfers to the Federal Old-Age and Survivors Insurance Trust Fund. Rates of tax were increased by the percentages appropriated to the Federal Disability Insurance Trust Fund, the increase being applicable to wages paid and taxable years beginning after December 31, 1956.

13/ Excludes the Government's contribution for creditable military service (45 U.S.C. 228c-1 (n)). Beginning 1952, amounts are appropriated to the Railroad Retirement Account equal to the amount of taxes under the Railroad Retirement Tax Act deposited in the Treasury, less refunds, during each fiscal year (65 Stat. 222 and 66 Stat. 371), and transfers are made currently.

14/ The Highway Revenue Act of 1956, approved June 29, 1956 (23 U.S.C. 173) established Highway Trust Fund from which are to be made, as provided by appropriation acts, Federal-aid highway expenditures after June 30, 1956, and before July 1, 1972. The act appropriated to this fund amounts equivalent to specified percentages of receipts from certain excise taxes on motor fuels, motor vehicles, tires and tubes, and use of certain vehicles, and provided that the amounts appropriated should be transferred currently to the trust fund on the basis of estimates by the Secretary of the Treasury with proper adjustments to be made in subsequent transfers. The use tax was imposed by the act and rates were increased for the other taxes. Previous to the fiscal year 1957 corresponding excise tax receipts were included in net budget receipts, and Federal-aid highway expenditures were included in budget expenditures.

- 15/ Interest on refunds is included in expenditures in Table 2.
- 16/ Transfers reduced by \$300 million to correct those made earlier on basis of estimates (see footnote 11).
- 17/ Net of reimbursement of \$23 million from the Federal Old-Age and Survivors Insurance Trust Fund for tax refunds (see footnote 11).
- \* Less than \$500,000.
- p Preliminary.

## Footnotes to Table 2 - (Continued)

- Footnotes 1 through 3 follow Table 2 on page 4.
- 4/ Includes unclassified expenditure transfers until these have been distributed in final fiscal year figures.
- 5/ Differs from monthly statement of receipts and expenditures because expenditures for the Civil Aeronautics Administration and Civil Aeronautics Board prior to December 1958 are shown under "Commerce Department" (see Note).
- 6/ Total includes allowance for contingencies of \$75 million.

- 7/ Beginning 1955, consists of net expenditures of the Postal Fund, reflecting the change in classification of Post Office transactions to a public enterprise revolving fund basis.
- 8/ Reported on an accrual basis effective June 30, 1955.
- 9/ Consists of Federal payment and loans and advances.
- 10/ Includes \$1,375 million additional subscription to the International Monetary Fund pursuant to Public Law 86-48, approved June 17, 1959.
- \* Less than \$500,000.
- p Preliminary.

Source: Actual figures are from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates are from the Midyear Review of the 1960 Budget, released September 24, 1959, including effects of proposed legislation.

Note: Figures in this table are for agencies as constituted at the time the expenditures were made, and therefore do not necessarily represent functions which are comparable over a period of time. For expenditures by functions on a consistent basis, see Table 4. Agency shifts are reflected in this table as follows: Beginning 1955, Federal Home Loan Bank Board from "Housing and Home Finance Agency" to "Independent offices," and Reconstruction Finance Corporation as indicated in footnote 1; beginning 1957, Alaska Road Construction from "Interior Department" to "Commerce Department," and Federal intermediate credit banks and production credit corporations as indicated in footnote 3; beginning 1958, Federal Facilities Corporation (remaining functions) from "Treasury Department" to "General Services Administration," and Informational Media Guaranty Fund from "Funds appropriated to the President" to "Independent offices"; beginning 1959, Federal Civil Defense Administration from "Independent offices" to "Executive Office of the President"; and beginning December 1958, the former Civil Aeronautics Administration and the Civil Aeronautics Board from "Commerce Department" to "Independent offices."

1/ Reconstruction Finance Corporation is included under "Independent offices" through 1954, and under "Treasury Department" beginning 1955, except functions transferred to Export-Import Banks, Federal National Mortgage Association, General Services Administration, and Small Business Administration. The corporation was abolished at the close of June 30, 1957, by Reorganization Plan No. 1 of 1957, and its remaining functions were transferred to the Housing and Home Finance Administrator, Administrator of General Services, Administrator of Small Business Administration, and Secretary of the Treasury.

2/ Beginning 1957, Federal aid for highways is excluded from budget expenditures and included in trust account expenditures (see Table 1).

3/ Effective January 1, 1957, the production credit corporations were merged in the Federal intermediate credit banks, pursuant to the Farm Credit Act of 1956, approved July 26, 1956 (12 U.S.C. 1027), and operations of the merged agencies (as mixed-ownership corporations) were classified as trust enterprise funds (see "Trust Account and Other Transactions," Table 3); previously the operations of the banks and the corporations, respectively, were classified as public enterprise funds and were included net in budget expenditures.

Source: Expenditures for 1959 and 1960 are from reports to the Treasury Department by disbursing officers, on the monthly statement reporting basis (see page II). They are classified in accordance with the classification used in the 1960 Budget document, Special Analysis L, as nearly as can be done on an individual appropriation and fund item basis. Prior year figures are from the same source but have been adjusted below the appropriation level in some instances by the Bureau of the Budget for use in the Special Analysis. Where current classifications differ on this account, they are footnoted. Revolving fund transactions are included net in the expenditures.

1/ For description of items included, see Table 3. Although not expended, a substantial portion of these amounts is obligated for outstanding purchase orders and contracts for equipment and supplies, for payrolls and for similar items.

2/ See footnote 7.

3/ Expenditures for 1959 and 1960 include those made from "Readjustment Benefits, Veterans' Administration," applicable to functional code 102.

4/ See footnotes 3 and 14.

5/ See footnote 6.

6/ Expenditures for 1959 and 1960 include those for promotion of education in science made from "Salaries and Expenses, National Science Foundation," applicable to functional code 214.

7/ Expenditures for 1959 and 1960 include those for emergency family relief to friendly peoples, applicable to functional code 152; for special milk program - restoration of capital impairment, applicable

to functional code 217; for loans to Secretary of Agriculture for conservation purposes, and soil bank program - conservation reserve, applicable to functional code 354; and for animal disease eradication activities, and grading and classing activities, applicable to functional code 355. These expenditures were made from "Commodity Credit Corporation Capital Fund."

8/ Expenditures for 1959 and 1960 include those for farm housing made from "Loans, Farmers' Home Administration," applicable to functional code 517.

9/ For shift of Federal intermediate credit banks from budget to trust account classification effective January 1957, see Table 2, footnote 3.

10/ Excludes Federal-aid highway expenditures, which are made from the Highway Trust Fund beginning with 1957 (see Table 1, footnote 14); corresponding expenditures for previous years are included in budget expenditures.

11/ See Footnote 8.

12/ Expenditures for 1959 and 1960 include those for disaster loans and relief made from "Revolving Fund, Small Business Administration," and from "Reconstruction Finance Corporation Liquidation Fund, Small Business Administration," applicable to functional code 521.

Source: Actual figures for 1952 are from the daily Treasury statement and thereafter from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates are from Midyear Review of the 1960 Budget, released September 24, 1959, including effects of proposed legislation.

1/ Under a revised classification in the monthly statement, effective July 1, 1955, the security transactions of Government-sponsored

enterprises are included in deposit fund account expenditures (net) and excluded from net investment by Government agencies in public debt securities (see Table 4) and from net redemption or sale of obligations of Government agencies in the market (see Table 5). Figures previously published for the fiscal year 1955 have been revised to the new classification basis.

2/ Includes guaranteed securities beginning 1955 (see Table 4).

1/ Includes security transactions of Government-sponsored enterprises beginning 1955 (see Table 1, footnote 1).

2/ Does not include revolving fund receipts representing acquired securities amounting to \$1,643,070 (per value); see also Table 4.

3/ Operated as a trust enterprise fund beginning January 1, 1957, at which time the production credit corporations were merged in the Federal intermediate credit banks, pursuant to the Farm Credit Act of 1956 (12 U.S.C. 1027); previously the banks and corporations, respectively, were classified as public enterprise funds, and were included net in budget expenditures. Beginning January 1959 they were classified as Government-sponsored enterprises, and the net transactions of the operating fund were then transferred from the trust fund and included under "Deposit fund accounts." Secondary market operations, as provided in the Housing Act of 1954,

approved August 2, 1954 (12 U.S.C. 1719). Funds provided by the Treasury (-), or repaid to the Treasury, are shown in a separate column (and correspondingly are reflected net in budget expenditures).

5/ Includes District of Columbia operating expenditures; Indian tribal funds; expenditures chargeable against increment on gold; and trust enterprise funds (net) which are not shown separately. The Railroad Unemployment Insurance Administration Fund is included for the period 1954 through November 1958 (see Table 7), and the Employees' Life Insurance Fund (net) from its establishment in August 1954.

6/ Excluded from deposit fund account expenditures and included with similar security transactions of other agencies (see Table 4 and 5).

7/ The combined estimate for "Other trust accounts," trust enterprise funds, and total deposit fund accounts is \$594 million.

CASH INCOME AND OUTGO

---

The cash income and outgo data appearing in the "Treasury Bulletin," beginning with the February 1956 issue, are on a basis consistent with receipts from and payments to the public as derived in the 1957 and subsequent Budgets of the United States, Special Analysis A. Reconciliation to cash deposits and withdrawals in the account of the Treasurer of the United States is shown on the same basis as in the Budget documents. There is also shown the amount of net cash borrowing from, or repayment of borrowing to, the public. By these arrangements, data in accordance with the Budget classifications are made available month by month. Figures for back years have been revised where necessary in order to make them as nearly comparable with the Budget classifications as available data will permit. For this reason certain of the figures differ somewhat from those published in earlier Budget documents as well as in the Bulletin.

The Budget series of cash transactions is designed to provide information on the flow of money between the public and the Federal Government as a whole, and therefore includes transactions not cleared through the Treasurer's account. Receipts and payments include transactions both in budget accounts and in trust and deposit fund accounts. Operations of Government-sponsored enterprises are included in payments on a net basis as reflected in Treasury reports. Major intragovernmental transactions which are reported as both expenditures and receipts are eliminated from both. Noncash items which represent accrued obligations of the Government to make payments in the future are also eliminated from expenditures but are added later when actual payments are made. Receipts from the exercise of monetary authority (mostly seigniorage on silver) are excluded as not

representing cash received from the public. Federal cash borrowing from the public includes net borrowing by the Treasury through public debt transactions and also net borrowing by Government agencies and Government-sponsored enterprises through sales of their own securities. It excludes changes in the public debt which do not represent direct cash borrowing from the public. The net effect of all these transactions with the public is reflected in changes in the balance in the Treasurer's account and in cash held outside the Treasury.

Cash transactions through the Treasurer's account are similar in general concept to those included in the Budget series, but are limited in coverage to transactions which affect the balance in that account. On the other hand, they include receipts from the exercise of monetary authority, which are excluded from receipts from the public in the Budget series.

Beginning with figures for the fiscal year 1953, the series of transactions with the public is based on the "Monthly Statement of Receipts and Expenditures of the United States Government," which is compiled from reports by all collecting and disbursing officers and includes those transactions not cleared through the Treasurer's account. Cash deposits and withdrawals in the Treasurer's account, beginning with the figures for the same year, are reported in daily Treasury statements. For those years prior to 1953 both cash transactions series are based on a single source, namely, the earlier basis of daily Treasury statements which reported separate classifications for budget results, trust account transactions, etc.

## CASH INCOME AND OUTGO

## Footnotes to Table 4

1/ Net operating expenditures, or receipts (-), as measured by funds provided by or applied to net security transactions reflected in Treasury reports (see Table 7). To a large extent, these Government-sponsored enterprises secure funds for their operations by direct borrowing from the public or by cashing Federal securities which they hold, and they apply the net income received from operations to repayment of borrowing from the public or to investment in Federal securities. On that basis, net expenditures for operations are shown in this table in terms of the combined net of disinvestment in Federal securities and sale of agency obligations in the market,

and net receipts from operations are shown in terms of the combined net of investment in Federal securities and redemption of agency obligations in the market.

2/ Not reported prior to 1954.

3/ See Table 7, footnote 1.

4/ Does not include revolving fund receipts representing acquired securities amounting to \$1,643,070 (par value).

p Preliminary.

## Footnotes to Table 5

- 1/ Federal intermediate credit bank franchise tax through December 1956 and, beginning 1953, also reimbursement by Panama Canal Company for expenses and services.
- 2/ Includes reimbursement by Federal Old-Age and Survivors Insurance Trust Fund and Federal Disability Insurance Trust Fund for Administrative expenses, and also for refunds of taxes (treated as an offset to refunds rather than being credited to receipts) beginning with 1953 for the former and 1959 for the latter; reimbursement by Highway Trust Fund for refunds of taxes; reimbursement by the District of Columbia; payment of dividends, interest, etc., by Federal National Mortgage Association's secondary market operations; and Federal intermediate credit bank franchise tax and repayment of capital stock to the Treasury after December 1956 and before January 1959.
- 3/ Consists of payment of earnings and repayment of capital stock to the Treasury for 1952; and payment of franchise tax by banks for cooperatives beginning 1955, and by Federal intermediate credit banks beginning January 1959.
- 4/ Includes relatively small amounts of deductions from salaries paid by trust funds and Government-sponsored enterprises. Beginning with fiscal year 1958 excludes deductions from salaries of District of

Columbia employees (see footnote 6), and beginning with fiscal year 1959 excludes voluntary contributions.

5/ Consists of payments to employees' retirement funds representing United States and Government corporation shares of contributions; payments to the Railroad Retirement Account (for creditable military service), the Unemployment Trust Fund, veterans' life insurance funds, Judicial Survivors Annuity Fund, trust fund for technical services and other assistance under the agricultural conservation program, and District of Columbia; and awards of Indian Claims Commission.

6/ Includes payment by District of Columbia to the Civil Service retirement fund for its share of contributions, and beginning with 1958 also deductions from its payroll; payments between Railroad Retirement Account and Federal Old-Age and Survivors Insurance Trust Fund; transfers from Civil Service retirement fund to Foreign Service retirement fund from 1955 through 1957; and transfers from Railroad Unemployment Insurance Administration Fund to Unemployment Trust Fund through 1955.

\* Less than \$500,000.

## Footnotes to Table 6

- 1/ Accrued discount on savings bonds and bills less interest paid on savings bonds and bills redeemed.
- 2/ Public debt interest due and accrued beginning June 30, 1955, effective date of the change in accounting and reporting from a due and payable basis to an accrual basis; for 1954, consists only of public debt interest checks and coupons outstanding; net increase, or decrease (-). Not reported as a separate clearing account prior to 1954.
- 3/ Treated as noncash expenditures at the time of issuance of the securities and as cash expenditures at the time of their redemption; net issuance, or redemption (-).
- 4/ Issued in 1936 in exchange for adjusted service certificates held by veterans of World War I. The bonds matured in 1945.

5/ Issued in 1947 in payment for accumulated leave. The last of these bonds matured in 1951.

6/ Part of the United States subscription to the capital of the International Monetary Fund was paid in the form of noninterest-bearing nonnegotiable notes payable on demand (see 1947 Annual Report of the Secretary of the Treasury, pages 48, 350, and 385).

7/ Checks outstanding less deposits in transit, and changes in other accounts; net increase, or decrease (-). Prior to 1954 includes also public debt interest due and unpaid (see footnotes 2).

8/ Includes \$1,031 million notes issued as part of the additional United States subscription authorized by Public Law 86-48, approved June 17, 1959. \* Less than \$500,000.

p Preliminary.

## Footnotes to Table 7

- 1/ In this table, beginning 1954, in accordance with treatment in Budget documents, net investment in United States securities by Government-sponsored enterprises includes a small amount by other enterprises regarded as representing net transactions with the public. In Table 4 under "Trust Account and Other Transactions," these amounts are included in trust and deposit fund account investment.
- 2/ Does not include investments representing acquired securities amounting to \$1,643,070 (par value) and donation of securities amounting to \$45,800 (par value).
- 3/ Accrued discount on savings bonds and bills, which is included in the principal of the public debt, less interest paid on savings bonds and bills redeemed.

4/ Treated as noncash transactions at the time of issuance and as cash transactions at the time of redemption; net issuance, or redemption (-).

5/ Excluded from borrowing because the transactions are treated as expenditures in Table 6.

6/ Excluded from borrowing because the transactions are treated as deductions from receipts in Table 3.

7/ Market transactions in public debt securities and agency obligations.

\* Less than \$500,000.

## ACCOUNT OF THE TREASURER OF THE UNITED STATES

## Source and Availability of the Balance in the Treasurer's Account

The account of the Treasurer of the United States reflects not only budget receipts and expenditures but also trust, deposit fund, and public debt transactions.

The working cash of the Treasury is held mainly in Treasurer's accounts with Federal Reserve Banks and branches. As the balances in these accounts become depleted, they are restored by calling in (transferring) funds from the tax and loan accounts with thousands of commercial banks throughout the country.

Deposits to tax and loan accounts occur in the normal course of business under a uniform procedure applicable to all banks whereby customers of banks deposit with them tax payments and funds for the purchase of Government securities. In most cases the transaction involves merely the transfer of money from a customer's

account to the tax and loan account in the same bank. On occasions, to the extent authorized by the Treasury, banks are permitted to deposit in these accounts proceeds from subscriptions to public debt securities entered for their own account as well as for the account of their customers.

The tax and loan account system permits the Treasury to leave funds in banks and in the communities in which they arise until such time as the Treasury needs the funds for its operations. In this way the Treasury is able to neutralize the effect of its fluctuating operations on bank reserves and the economy.

A detailed description of the Treasury's depositary system may be found in the Annual Report of the Secretary of the Treasury for 1955, pages 275-284.

1/ Consists of Treasurer's checks outstanding, reserve and other deposits of Board of Trustees of the Postal Savings System, uncollected items, exchanges, etc., beginning December 1954; prior to that time included also Post Office Department and Postmasters' disbursing accounts (see footnote 2).

2/ Beginning December 1954, Post Office Department and Postmasters'

disbursing accounts are no longer treated as liability accounts of the Treasurer of the United States, but are classified and treated in the same manner as other disbursing accounts, in accordance with the change in method of reporting Post Office transactions (see "Budget Receipts and Expenditures," Table 2). An adjustment of - \$207 million in the balance in the Treasurer's account (and in the "clearing account") reflects this change.

1/ Special depositaries are permitted to make payment in the form of a deposit credit for the purchase price of United States Government obligations purchased by them for their own account, or for the account of their customers who enter subscriptions through them, when this method of payment is permitted under the terms of the circulars inviting subscriptions to the issues.

2/ Taxes eligible for credit consist of those deposited by taxpayers in the depositary banks, as follows: Withheld income tax beginning

March 1948; taxes on employers and employees under the Federal Insurance Contributions Act beginning January 1950, and under the Railroad Retirement Tax Act beginning July 1951; and a number of excise taxes beginning July 1953.

2/ Under a special procedure begun in March 1951, authorization may be given for income tax payments, or a portion of them, made by checks of \$10,000 or more drawn on a special depositary bank to be credited to the tax and loan account in that bank. This procedure is followed during some of the quarterly periods of heavy tax payments.

Note: The computed annual interest charge represents the amount of interest that would be paid if each interest-bearing issue outstanding at the end of each month or year should remain outstanding for a year at the applicable annual rate of interest. The charge is computed for each issue by applying the appropriate annual interest rate to the amount outstanding on that date. The aggregate charge for all interest-bearing issues constitutes the total computed annual interest charge. The average annual interest rate is computed by dividing the computed annual interest charge for the total, or for any group of issues, by the corresponding

principal amount. Beginning with data for December 31, 1958, computation of the average annual interest charge and rate is based on the rate of effective yield for issues sold at premium or discount. Prior to that date it was based on the coupon rate for all issues.

1/ Excludes guaranteed securities held by the Treasury.

2/ Total includes "Other bonds"; see Table 3.

3/ Included in debt outstanding at face amount, but discount value is used in computing annual interest charge and annual interest rate.

4/ On United States savings bonds the rate to maturity is applied against the amount outstanding.

Note: The securities shown in this table were issued to the Treasury to finance Government corporations and other agencies with the Treasury itself raising the necessary funds through public debt operations. To avoid duplication, these securities are not included in the guaranteed debt outstanding as shown in preceding tables. The issuance of these securities is provided for by law, see "authority to expend from public debt receipts." Further detail may be found in the 1958 Annual Report of the Secretary of the Treasury, page 674, and the 1958 Combined Statement of Receipts, Expenditures and Balances of the United States Government, page 512.

1/ Farm housing and other loan programs, and Farm Tenant Mortgage Insurance Fund.

2/ Excludes securities issued under Defense Production Act.

3/ Consists of notes issued to borrow for the urban renewal program (formerly urban clearance program); college housing loans; the prefabricated housing loans program from September 1950, when it was transferred from the Reconstruction Finance Corporation, through November 1954; and public facility loans beginning January 1956. Notes issued to borrow for the Federal National Mortgage Association from September 1950 through July 1954 are shown under the Association.

4/ From September 1950 through July 1954, consists of notes of the Housing and Home Finance Administrator, issued to borrow for the Association. Beginning August 1954, consists of liabilities taken over by the Association from the Administrator in accordance with the act approved August 2, 1954, and notes issued by the Association under authority of that act (12 U.S.C. 1720, 1723 (d)); and beginning September 1954, also securities transferred from the Reconstruction Finance Corporation (see footnote 6). Prior to September 1950, the Association was financed from funds of the Reconstruction Finance Corporation, which owned the capital stock.

5/ And predecessor agencies. Beginning September 1956, figures exclude notes previously issued by the Administrator in connection with informational media guarantees. The obligation of these notes was assumed by the Director of the United States Information Agency, pursuant to the act approved July 18, 1956 (22 U.S.C. 1442), and the notes together with others issued for the same purpose are included in "Other."

6/ Excludes securities issued under Defense Production Act of 1950; includes securities issued under Federal Civil Defense Act of 1950 through November 1953, after which they were taken over by the Secretary of the Treasury, pursuant to the act approved July 30, 1953 (15 U.S.C. 609), and are included under "Other." See also footnote 4. During September 1954, under Reorganization Plan No. 2 of 1954, the remaining securities issued by the Corporation to the Treasury were transferred as follows: \$42 million to Export-Import Bank of Washington, \$92 million to Federal National Mortgage Association, and \$14 million to Small Business Administration.

7/ Consists of notes of the Administrator, General Services Administration, beginning January 1951 (Administrator, Defense Materiel Procurement Agency, January 1952 through July 1953) for defense materiel procurement; Reconstruction Finance Corporation, January 1951 through September 1953 (after which its activities under this act were transferred to the Secretary of the Treasury), and the Secretary of the Treasury beginning October 1953; the Secretary of the Interior (Defense Minerals Exploration Administration) beginning June 1951; the Export-Import Bank of Washington beginning April 1952; and the Secretary of Agriculture beginning June 1954.

8/ Consists of notes issued by Secretary of the Treasury beginning December 1953 (see footnote 6); Small Business Administration, September 1954 through April 1958; for informational media guarantees by the United States Information Agency beginning September 1956 (see footnote 5); Secretary of Commerce (Maritime Administration) for Federal Ship Mortgage Insurance Fund beginning February 1959; and Virgin Islands Corporation beginning September 1959.

## STATUTORY DEBT LIMITATION

The Second Liberty Bond Act (31 U.S.C. 757 b), as amended by an act approved June 30, 1959, provides that the face amount of obligations issued under authority of that act, and the face amount of obligations guaranteed as to principal and interest by the United States (except guaranteed obligations held by the Secretary of the Treasury), shall not exceed in the aggregate \$285 billion outstanding at any one time. The corresponding limitation in effect under the act of June 26, 1946, was \$275 billion and that under the act of September 2, 1958, was \$283 billion. In addition, temporary increases have been

authorized as follows: \$6 billion beginning on August 28, 1954, and ending on June 30, 1956 (acts approved August 28, 1954, and June 30, 1955); \$3 billion beginning on July 1, 1956, and ending on June 30, 1957 (act approved July 9, 1956); \$5 billion beginning on February 26, 1958, and ending on June 30, 1959 (act approved February 26, 1958); and \$10 billion beginning on July 1, 1959, and ending on June 30, 1960 (act approved June 30, 1959). Obligations issued on a discount basis, and subject to redemption prior to maturity at the option of the owner, are included in the statutory debt limitation at current redemption values.

- 1/ Issued at par except as noted. For bill issues sold at auction, the rate shown is the equivalent average rate (bank discount basis) on accepted bids. For details of bill offerings, see Table 2. In reopenings, the amount issued is in addition to the amount in original offering.  
 2/ From date of additional issue in case of a reopening.  
 3/ Consists of all public cash subscriptions and subscriptions by United States Government investment accounts.  
 4/ For maturing securities exchanged for the new issues, see Table 6.  
 5/ Exchange offering available to owners of nonmarketable 2-3/4% Treasury Bonds, Investment Series B-1975-80, dated April 1, 1951. For further information on the original offering see "Treasury Bulletin" for April 1951, page A-1. Amounts shown are as of November 30, 1959.  
 6/ The bond offering was made available for exchange of Series F and G savings bonds maturing from May 1 through December 31, 1953.  
 7/ Total allotments on cash subscriptions were limited to approximately \$1,000 million. Nonbank subscriptions in amounts up to and including \$5,000 were allotted in full. All other subscriptions were allotted 20 percent. Commercial banks' subscriptions were restricted to an amount not exceeding 5 percent of their time deposits as of December 31, 1952. The Treasury also reserved the right to allot limited amounts of these bonds to Government investment accounts, which subscribed to a total amount of \$118 million. Payment for the bonds allotted could be made with accrued interest at any time not later than July 31, 1953.  
 8/ Tax anticipation bill, acceptable at face value in payment of income and profits taxes due on the quarterly payment date immediately preceding maturity.  
 9/ Tax anticipation certificate, acceptable at par plus accrued interest to maturity in payment of income and profits taxes due on the quarterly payment date immediately preceding maturity.  
 10/ Subscriptions for amounts up to and including \$100,000 were allotted in full. Subscriptions for amounts over \$100,000 were allotted 67 percent but in no case less than \$100,000.  
 11/ Subscriptions for amounts up to and including \$10,000 were allotted in full. Subscriptions from mutual savings banks, insurance companies, pension and retirement funds, and State and local governments were allotted 24 percent. All others, including commercial banks, were allotted 16 percent but not less than \$10,000 on any one subscription.  
 12/ Subscriptions for amounts up to and including \$10,000 were allotted in full. All other subscriptions were allotted 22 percent but in no case less than \$10,000.  
 13/ Subscriptions for amounts up to and including \$50,000 were allotted in full. Subscriptions for amounts over \$50,000 were allotted 40 percent but in no case less than \$50,000.  
 14/ Subscriptions for amounts up to and including \$50,000 were allotted in full. Subscriptions for amounts over \$50,000 were allotted 50 percent but in no case less than \$50,000.

Subscriptions from all other investors totaled \$610 million and were allotted 15 percent. Subscriptions for \$25,000 or less were allotted in full when accompanied by 100 percent payment at the time of entering the subscriptions. All other subscriptions for \$50,000 were allotted in full. Subscriptions for more than \$5,000 were allotted not less than \$5,000. In addition to the amount allotted to the public, \$50 million of the bonds were allotted to Government investment accounts. Savings-type investors were given the privilege of paying for the bonds allotted to them in installments up to April 23, 1959 (not less than 25 percent by January 23, 1959, the issue date; 50 percent by February 24, 1959; 75 percent by March 23, 1959; and full payment by April 23, 1959).
- 36/ Subscriptions for \$100,000 or less were allotted in full. Subscriptions for more than \$100,000 were allotted 50 percent but in no case less than \$100,000. In addition, \$100 million of the notes were allotted to Government investment accounts.
- 37/ Subscriptions from savings-type investors totaled \$240 million and were allotted 65 percent. Subscriptions from commercial banks for their own account totaled \$941 million and were allotted 35 percent. Subscriptions from all other investors totaled \$322 million and were allotted 20 percent. Subscriptions for \$25,000 or less from savings-type investors and commercial banks, and for \$10,000 or less from all others, were allotted in full. Subscriptions for more than these minimums were allotted not less than the minimums. In addition, \$50 million of the bonds were allotted to Government investment accounts.
- 38/ Full-paid subscriptions of \$25,000 or less, totaling \$941 million, were allotted in full. Subscriptions from savings-type investors totaled \$1,361 million and were allotted 45 percent. Subscriptions from commercial banks for their own account totaled \$6,390 million and were allotted 8 percent, but not less than \$1,000 on any one subscription. Subscriptions from all other investors totaled \$2,433 million and were allotted 5 percent, but not less than \$1,000 on any one subscription. In addition to the amounts allotted to the public, \$100 million of the notes were allotted to Government investment accounts.
- 39/ Holders of approximately \$1,600 million of Series F and G savings bonds issued in 1948, which mature in 1960, were offered in exchange the 4-3/4% notes, with certain adjustments as of December 15, 1959, at a price of 99-3/4%. The Treasury announced on November 25, 1959, that certain holders, who had been unavoidably delayed in completing their subscriptions, would have until December 10, 1959, to do so. Amounts exchanged are not yet available.

Source: Bureau of the Public Debt. Preliminary figures are from subscription and allotment reports; final figures are on "clearance" basis in daily Treasury statement.

1/ Original call and maturity dates are used.

2/ All by investors other than Federal Reserve Banks.

3/ Tax anticipation issue; for detail of offerings beginning 1953, see Table 4; for amounts redeemed for taxes and for cash, see tabular note below.

4/ On November 9, 1953, the Treasury purchased from the Federal Reserve System and retired \$500 million of the 2-1/8% Treasury notes maturing December 1, 1953. For further detail see "Treasury Bulletin" for November 1953, page A-1.

5/ Reopening of February 2, 1953, offering (see Table 4).

6/ It had been announced that holders of these bonds would be given an opportunity to exchange them for another Treasury issue after February 15, 1954. This exchange offer was included in the refundings of May 17, 1954.

7/ Reopening of August 3, 1954, offering (see Table 4).

8/ Also designated tax anticipation certificates, acceptable at par plus accrued interest to maturity in payment of income and profits taxes due June 15, 1956.

9/ Reopening of May 3, 1955, offering (see Table 4).

10/ Reopening of November 28, 1955, offering (see Table 4).

11/ During June 1956, \$159 million of 2% Treasury notes maturing August 15, 1956, were purchased by the Treasury for account of the Sinking Fund and retired.

12/ Also designated tax anticipation certificates, acceptable at par plus accrued interest to maturity in payment of income and profits taxes due June 15, 1957.

13/ Two issues of special bills, maturing January 16, 1957, and February 15, 1957, respectively, were rolled over into two issues of tax anticipation bills, both maturing June 24, 1957.

14/ During June and July 1958, \$4.91 million of the 2-5/8% Treasury bonds of 1965 were purchased by the Treasury for retirement under Section 19 of the Second Liberty Bond Act, as amended (31 U.S.C. 754a).

15/ Called on May 14, 1958, for redemption on September 15, 1958.

16/ Represents amount which owners exercised the option to redeem on August 1, 1959 (see Table 4, footnote 22).

17/ Holders of the 4% notes, who have the option to redeem at par on February 15, 1960, by giving notice not later than November 16, 1959, were permitted to exchange their holdings on November 15, 1959, for the 4-7/8% notes.

Note: In these tables Series A-F and J sales are included at issue price and redemptions and amounts outstanding at current redemption values. Series G, H, and K are included at face value throughout. Matured bonds which have been redeemed are included in redemptions. Matured F and G bonds outstanding are included in the interest-bearing debt until all bonds of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

1/ Details by series on a cumulative basis and by periods for Series A-D combined will be found in the February 1952 and previous issues of the "Treasury Bulletin."

2/ Includes exchanges of matured Series E bonds for Series G bonds beginning May 1951 and for Series K bonds beginning May 1952.

3/ Includes both matured and unmatured bonds; see Table 4.

4/ Includes total value of redemptions not yet classified between matured and unmatured bonds.

5/ A change in procedure, beginning in June 1954, for processing redeemed savings bonds has resulted in a high level of redemptions not yet classified between matured and unmatured bonds. This increase tempo-

rarily obscures the relationship between the redemption columns showing sales price and accrued discount in Tables 2 through 4 and also the relationship between the matured and unmatured sections of Table 4. (See also footnote 4).

The subsequent distribution of this high level of unclassified redemptions may be large enough in any month to show redemptions of matured bonds for a series in Table 4 which are greater than the total redemptions of that series as shown in Table 3, and to show a negative in the unmatured section of Table 4. 6/ Reductions were made in issues and redemptions of Series E, R, F, G, J, and K in July 1954 to compensate for the erroneous inclusion of reissue transactions in June 1954 as reported in the daily Treasury statement. The amounts involved were as follows: \$18 million for issues of Series E and H and \$17 million for issues of Series F, G, J, and K; and \$35 million for unclassified retirements.

7/ Series F and G sales were discontinued April 30, 1952, and Series J and K sales were discontinued April 30, 1957. Sales figures after April 30, 1957, represent adjustments.

8/ Includes exchanges of Series 1941 F and G savings bonds for Treasury 3-1/4% bonds of 1978-83.

\* Less than \$500,000.

1/ Includes certain obligations not subject to statutory limitation. For amounts subject to limitation, see page 1.

2/ Includes accounts under the control of certain U. S. Government agencies whose investments are handled outside the Treasury.

2/ The total amount of interest-bearing securities held by private investors is calculated by deducting from the total amount outstanding the amount held by U. S. Government investment accounts and Federal Reserve Banks.

4/ Excludes guaranteed securities held by the Treasury.

5/ All public marketable issues.

6/ All public marketable issues except for 1952, which includes \$1 million of Commodity Credit Corporation demand obligations.

1/ Consists of purchases or sales made by the Treasury of securities issued or guaranteed by the U. S. Government for (1) trust funds which by law are under the control of the Secretary of the Treasury or of the Treasurer of the United States, and (2) accounts under the control of certain U. S. Government agencies whose investments are handled through the facilities of the Treasury Department. It will be noted that these

transactions differ from those reflected in Table 1 because they exclude those Government investment accounts for which investments are not handled by the Treasury. Table 2 also includes purchases under Section 19 of the Second Liberty Bond Act, as amended (31 U.S.C. 754a), and excludes the Exchange Stabilization Fund.

1/ United States savings bonds, Series A-F and J, are included at current redemption value.

2/ Securities issued or guaranteed by the U. S. Government, excluding guaranteed securities held by the Treasury. For amounts subject to statutory debt limitation, see page 1.

3/ Consists of commercial banks, trust companies, and stock savings banks in the United States and in Territories and island possessions. Figures exclude securities held in trust departments.

4/ Holdings by Federal land banks are included under "Miscellaneous investors" instead of "U. S. Government investments accounts" after June 26, 1947, when the proprietary interest of the United States in these banks ended.

5/ Includes partnerships and personal trust accounts. Nonprofit

institutions and corporate pension trust funds are included under "Miscellaneous investors."

6/ Exclusive of banks and insurance companies.

7/ Consists of trust, sinking, and investment funds of State and local governments and their agencies, and Territories and island possessions.

8/ Includes savings and loan associations, nonprofit institutions, corporate pension trust funds, dealers and brokers, and investments of foreign balances and international accounts in this country. Beginning December 1946, includes investments by the International Bank for Reconstruction and Development and the International Monetary Fund in special noninterest-bearing notes issued by the U. S. Government.

2/ Immediate postwar debt peak.

## TREASURY SURVEY OF OWNERSHIP, SEPTEMBER 30, 1959

The Treasury Survey of Ownership covers securities issued by the United States Government and by Federal agencies. The banks and insurance companies included in the Survey account for approximately 95 percent of such securities held by all banks and insurance companies in the United States. Data were first published for March 31, 1941, in the May 1941 "Treasury Bulletin".

Distribution of ownership by types of banks and insurance companies is published each month. Holdings by commercial banks distributed according to Federal Reserve member-bank classes and nonmember banks are published for June 30 and December 31. Holdings by corporate pension trust funds are published quarterly and first appeared in the March 1954 Bulletin for quarters beginning December 31, 1949.

1/ Includes certain obligations not subject to statutory debt limitation. For amount subject to limitation, see page 1.2/ Excludes trust departments.3/ Includes trust companies and, beginning with figures for July 1949, also includes stock savings banks. Previously, those banks were reported as a separate classification.4/ Includes those banks and insurance companies not reporting in the Treasury Survey.5/ Consists of corporate pension trust funds and profit sharing plans which involve retirement benefits. The data are compiled from quarterly reports by trustee of funds which account for approximately 90 percent of United States Government securities held by all corporate pension trust funds. Since the data are not available each month, the regular monthly Survey includes holdings by these funds under "Held by all other investors." The quarterly data are presented as supplemental information in a memorandum column accompanying the Survey for each reporting date, beginning with December 31, 1953. The corresponding information from earlier reports, beginning with December 31, 1949, is summarized on page 30 of the March 1954 "Treasury Bulletin."6/ United States savings bonds, Series E, F, and J, are shown at current redemption value. They were reported at maturity value by the banks and insurance companies included in the Treasury Survey but have been adjusted to current redemption value for use in this statement.7/ Includes \$70 million depositary bonds held by commercial banks not included in the Treasury Survey.8/ Holdings by reporting investors not available.9/ Excludes guaranteed securities held by the Treasury.10/ Federal securities fall into three broad classes with respect to the imposition of Federal income taxes on income derived from them. "Wholly" tax-exempt securities are those with the income exempt from both normal tax and surtax. "Partially" tax-exempt securities are those with the income exempt from the normal tax except that in the case of partially tax-exempt Treasury bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax. "Taxable" securities are those with the income subject to normal tax and surtax.

## MARKET QUOTATIONS ON TREASURY SECURITIES, OCTOBER 30, 1959

Current market quotations shown here are over-the-counter closing bid quotations in the New York market for the last trading day of the month, as reported to the Treasury by the Federal Reserve Bank of New York. The securities listed include all regularly quoted

public marketable securities issued by the United States Government except Panama Canal bonds. Outstanding issues which are guaranteed by the United States Government are excluded because they are not regularly quoted in the market.

1/ Issued after October 31, 1959; for amount issued see "Public Debt Operations," Table 4.

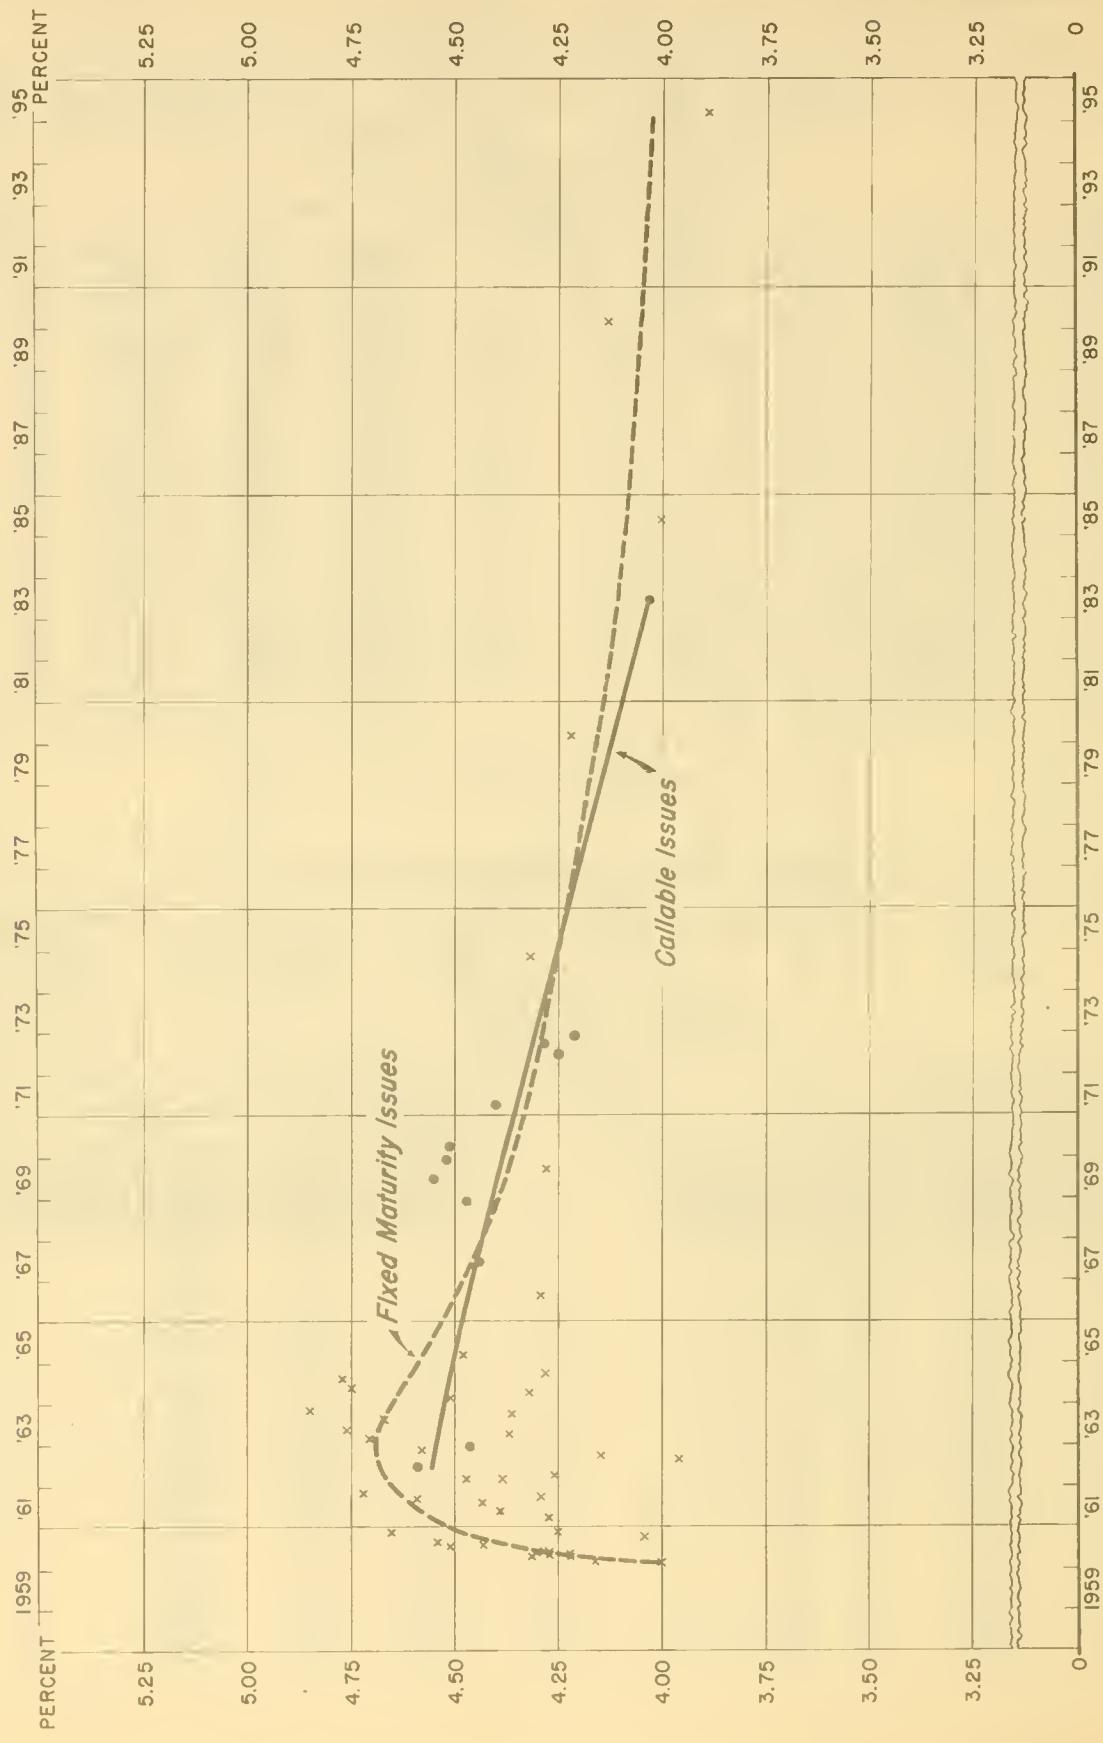

2/ Beginning April 1953, prices are closing bid quotations in the over-the-counter market. Prices for prior dates are the mean of closing bid and ask quotations, except that before October 1, 1939, they are closing prices on the New York Stock Exchange. "When issued" prices are included in the history beginning October 1, 1939. Dates of highs and lows in case of recurrence are the latest dates.

3/ Redeemable on February 15, 1960, at option of holder upon 3 months' notice.

4/ On callable issues market convention treats the yield to earliest call date as more significant when an issue is selling above par, and to maturity when it is selling at par or below.

5/ Included in the average yield of long-term taxable Treasury bonds as shown under "Average Yields of Long-Term Bonds."

## MARKET QUOTATIONS ON TREASURY SECURITIES, OCTOBER 30, 1959

YIELDS OF TAXABLE TREASURY SECURITIES, OCT. 30, 1959  
Based on Closing Bid Quotations

Explanation: The points represent yields to call when prices are above par, and to maturity date when prices are at par or below. The smooth curves for the two classes of points are fitted by eye. Market yields on bills other than those offered the latest week and on coupon issues for which an exchange offer has been made or which are due or callable in less than 3 months are excluded.

Source: Beginning April 1953, Treasury bond yields are reported to the Treasury by the Federal Reserve Bank of New York, based on closing bid quotations in the over-the-counter market. Yields for prior periods were computed on the basis of mean of closing bid and ask quotations. Moody's Investor Service is the source for the average of Aaa corporate bonds. For definition of taxable bonds, see footnotes to the "Treasury Survey of Ownership" in this issue of the Bulletin.

1/ Beginning April 1953, the average includes bonds neither due nor callable for 10 years; April 1952 through March 1953, the minimum length (neither due nor callable) was 12 years; October 1941 through March 1952, the minimum length was 15 years. For bonds currently in the average, see Table 4 under "Market Quotations on Treasury Securities" in this issue of the Bulletin.

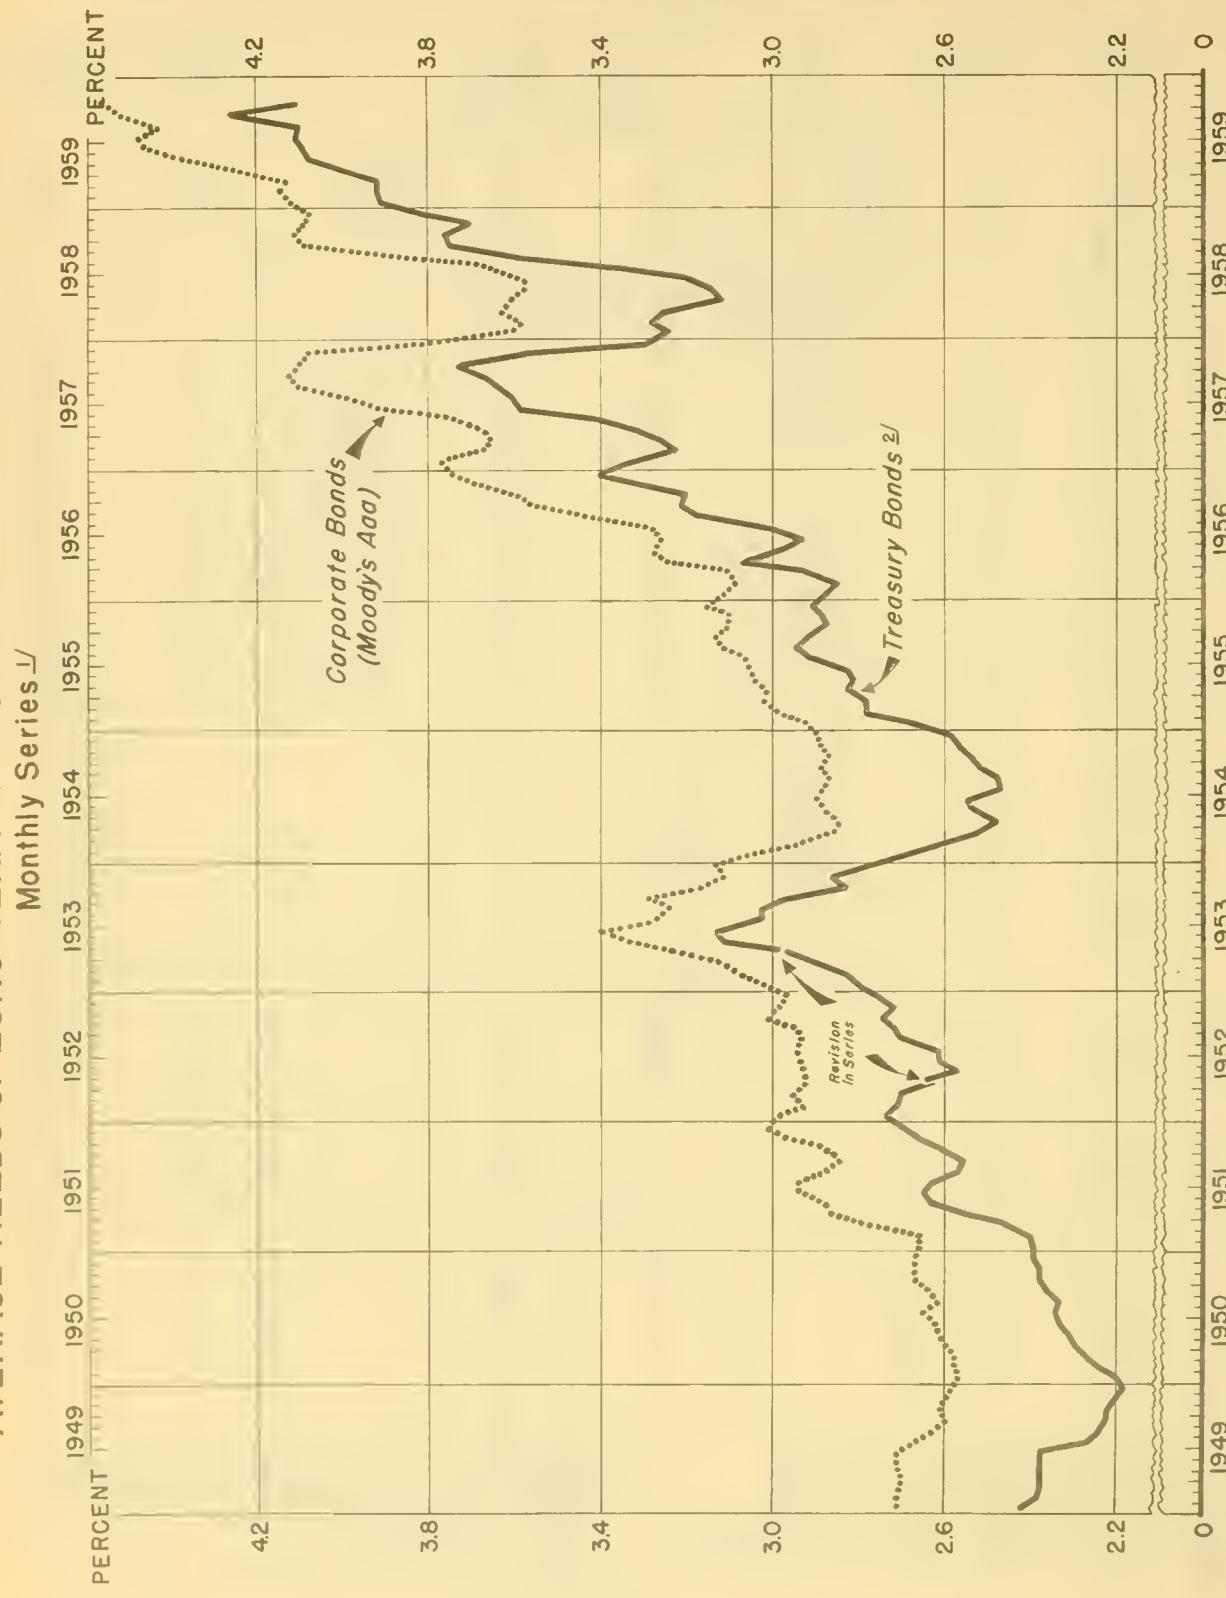

2/ A new long-term bond added to the average.

3/ An existing bond dropped from the average (see footnote 1).

4/ Market closed.

Source: Internal Revenue Service reports for detail of collections by type of tax; daily Treasury statement for budget receipts from internal revenue for the fiscal year 1952, and the monthly statement of receipts and expenditures of the Government for receipts thereafter (for explanation of reporting bases in these publications, see page II). Certain detail by type of tax is available only from returns filed with the Internal Revenue Service. The figures shown include collections for credit to special accounts for certain island possessions, as reported by the Internal Revenue Service. Beginning with the fiscal year 1955, they include the amounts of tax collected in Puerto Rico upon articles of merchandise of Puerto Rican manufacture coming into the United States. Figures for 1954 have been revised to the same basis. Figures for previous years include only amounts collected at ports of entry into the United States.

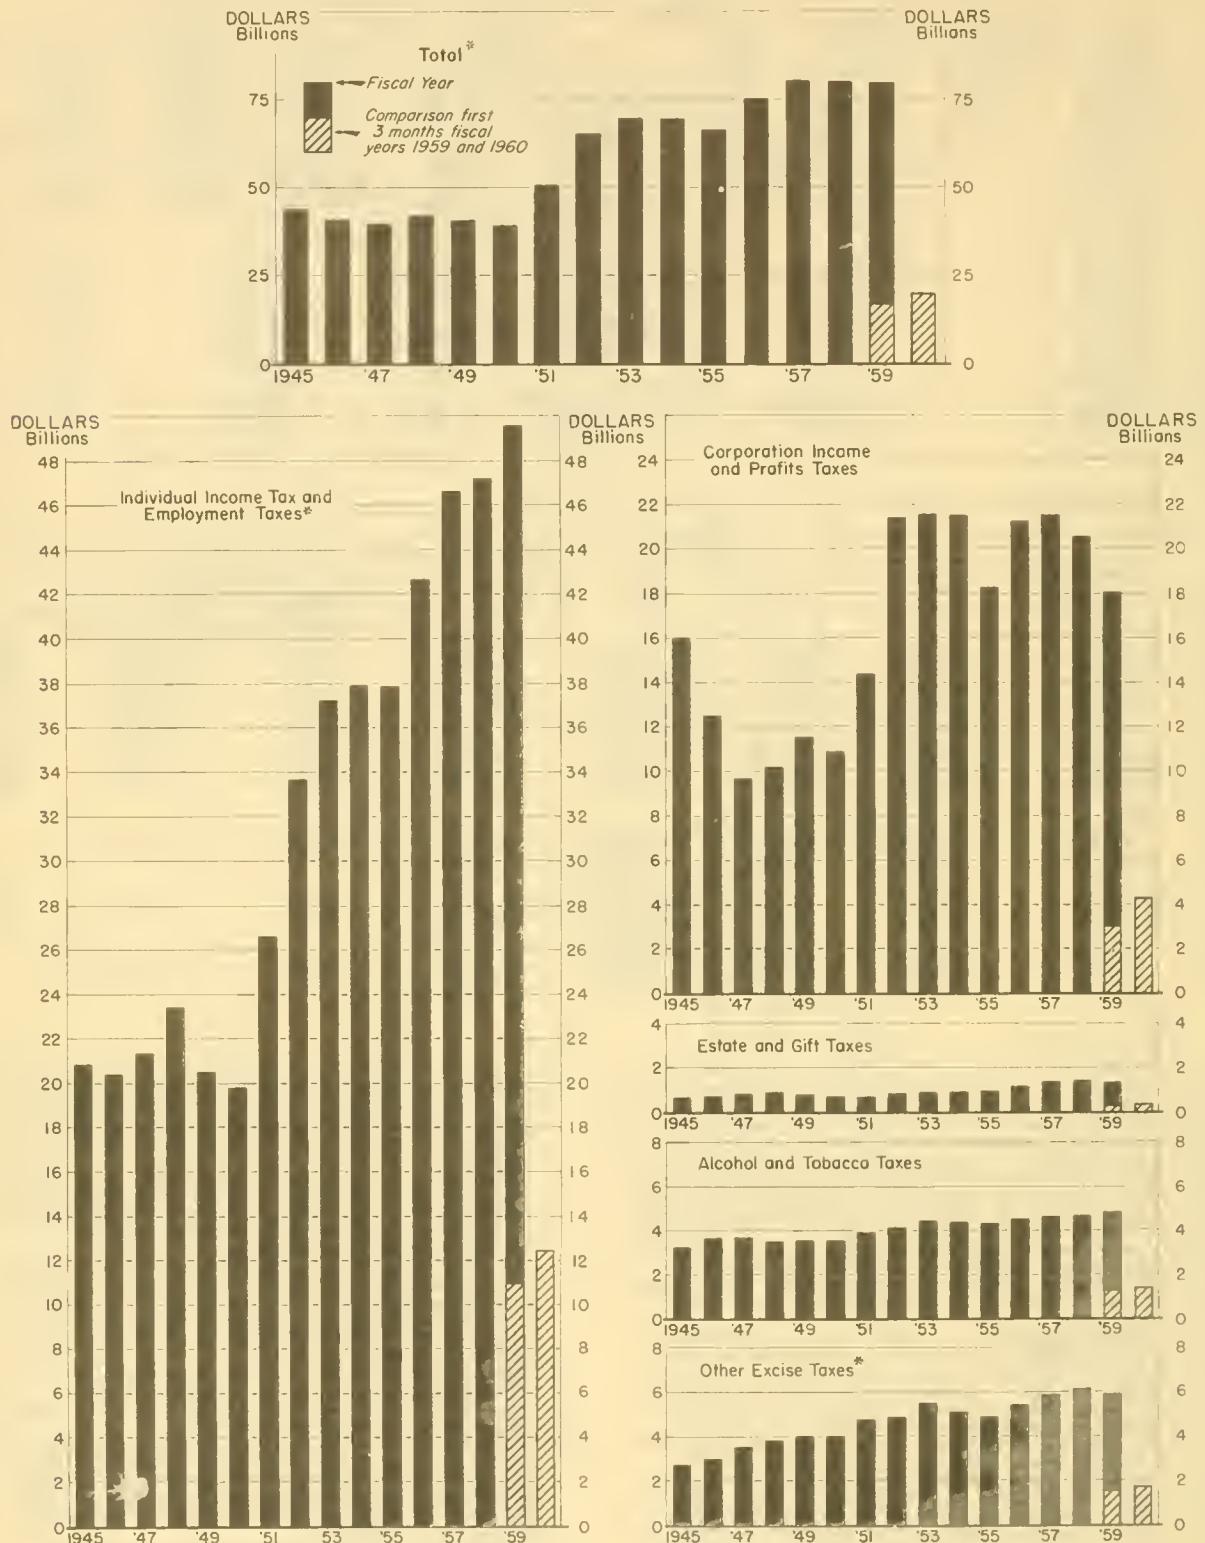

1/ Differences between the amounts of internal revenue reported by the Internal Revenue Service as collections for given periods and the amounts reported in Treasury statements as budget receipts for the same periods arose because of differences in the time when payments were included in the respective reports. Tax payments are included in budget receipts when they are reported as credits to the account of the Treasurer of the United States. Prior to July 1954, they were included in Internal Revenue Service collection reports after the returns to which they applied had been received in internal revenue offices. Under procedure begun in 1950 with withheld income tax and old-age insurance taxes and later extended to railroad retirement taxes and many excises, these taxes are paid directly into Treasury depositories and the depositary receipts, as evidence of such payments, are attached to quarterly returns to the Internal Revenue Service.

Under this procedure, the payments are included in budget receipts in the month in which the depositary receipts are issued to the taxpayers. Revised accounting procedures effective July 1, 1954, extended the same practice to Internal Revenue Service collection reports.

- 2/ Monthly and 1959 fiscal year figures include social security tax on self-employment income, which is levied and collected as part of the individual income tax. Prior fiscal year figures exclude this tax, on the basis of estimates (see footnote 3), and it is included under "Old-age and disability insurance."
- 3/ In Internal Revenue Service reports current collections are not separated as to type of tax; the breakdown shown for fiscal years is based on estimates made in accordance with provisions of Sec. 201 of the Social Security Act, as amended (42 U.S.C. 401), for transfer of tax receipts to the trust funds (see "Budget Receipts and Expenditures," Table 1).
- 4/ Beginning with the fiscal year 1955, collections shown include undistributed depositary receipts and unapplied collections. For excise taxes these receipts are included in the total only. Total collections include "taxes not otherwise classified."
- 5/ Budget receipts for 1956 were reduced by \$3,566 thousand representing tax collections transferred to the Government of Guam pursuant to the act approved August 1, 1950 (64 Stat. 392), but this amount was included in collections reported by the Internal Revenue Service. Beginning with 1957, such collections are excluded also in Internal Revenue Service reports.
- 6/ Detail is reported by quarters beginning with the fiscal year 1956.

1/ These items represent the difference between the cost value and the monetary value of silver bullion revalued and held to secure silver certificates.

2/ The figures in this column are not cumulative; as the amount of

bullion held changes, the potential seigniorage thereon changes.

2/ Total of seigniorage on coins and on newly mined silver, beginning with that for July 1959, is included under coins; the breakdown is not available after June 1959.

## CAPITAL MOVEMENTS

Data relating to capital movements between the United States and foreign countries have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, Executive Order 10033 of February 8, 1949, and Treasury regulations promulgated thereunder. Information covering the principal types of data and the principal countries is reported monthly, and is published regularly in the "Treasury Bulletin." Supplementary information is published at less frequent intervals. Reports by banks, bankers, securities brokers and dealers, and industrial and commercial concerns in the United States are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury. Beginning April 1954, data reported by banks in the Territories and possessions of the United States are included in the published data.

The term "foreigner" as used in these reports covers all institutions and individuals domiciled outside the United States and its Territories and possessions, the official institutions of foreign countries, wherever such institutions may be located, and international organizations. "Short-term" refers to original maturities of one year or less, and "long-term" refers to all other maturities. A detailed discussion of the reporting coverage, statistical presentation, and definitions appeared in the June 1954 issue of the "Treasury Bulletin," pages 45-47. As a result of changes in presentation introduced in that issue, not all breakdowns previously

published will be exactly comparable to those now presented.

The first three sections which follow are published monthly. They provide summaries, by periods and by countries, of data on short-term banking liabilities to and claims on foreigners and transactions in long-term securities by foreigners, and present detailed breakdowns of the latest available preliminary data.

Section IV provides supplementary data in six tables which appear at less frequent intervals. Table 1, short-term foreign liabilities and claims reported by non-financial concerns, is published quarterly in the January, April, July, and October issues of the Bulletin. Table 2, long-term foreign liabilities and claims reported by banks and bankers, and Table 3, estimated gold reserves and dollar holdings of foreign countries and international institutions, are published quarterly in the March, June, September, and December issues. Table 4, foreign credit and debit balances in brokerage accounts, appears semi-annually in the March and September issues. Table 5, short-term liabilities to foreigners in countries and areas not regularly reported separately by banking institutions, is presented annually, appearing in the April issue through 1958 and in the March issue thereafter. Table 6, purchases and sales of long-term securities by foreigners during the preceding calendar year, also appears annually, beginning with the May 1959 issue.

CORPORATIONS AND CERTAIN OTHER BUSINESS-TYPE ACTIVITIES

---

The current financial statements of corporations and certain other business-type activities of the United States Government which appear in the "Treasury Bulletin" beginning with the August 1956 issue are compiled from reports submitted to the Treasury under Department Circular No. 966, issued January 30, 1956, and Supplement No. 1, issued June 1, 1956. The regulations so issued are pursuant to Section 114 of the Budget and Accounting Procedures Act of 1950 (31 U.S.C. 66 b), and represent another step in the program of comprehensive and integrated Government accounting and financial reporting for which authority was provided in that act. They supersede Budget-Treasury Regulation No. 3, issued under Executive Order No. 8512 of August 13, 1940, as amended by Executive Order No. 9084 of March 3, 1942, under which financial statements previously published in the Bulletin were submitted.

In coverage, Department Circular No. 966 requires submission of financial statements by all wholly owned and mixed-ownership Government corporations specifically included in the Government Corporation Control Act, as amended (31 U.S.C. 846, 856); and all other activities of the Government operating as revolving funds for which business-type public enterprises or intragovernmental fund budgets are required by the Bureau of the Budget. Other activities and agencies whose operations, services, or functions are largely self-liquidating or primarily of a revenue-producing nature, and activities and agencies whose operations result in the accumulation of substantial inventories, investments and other recoverable assets, may be brought under the regulations as agency accounting systems are developed to the point where they are capable of furnishing the financial reports required.

Four kinds of financial statements are called for by Department Circular No. 966. They are statements of financial condition, income and expense, source and application of funds, and certain commitments and contingencies. The statements of financial condition are

published quarterly and appear as Section I in the series of tables. The first data under the new regulations are for March 31, 1956, and were presented in the August 1956 Bulletin. Statements of income and expense and source and application of funds are published semiannually, for June 30 and December 31 reporting dates, and appear as Sections II and III. The first of these statements under the new regulations cover the fiscal year 1956, and were published in the January 1957 Bulletin. Within the sections, the agencies are grouped in separate tables by type, as follows: public enterprise revolving funds, intragovernmental revolving funds, certain other activities, deposit funds, and trust revolving funds.

Supplement No. 1 added to the coverage by including all executive agencies and activities not reporting under Department Circular No. 966, but required only a statement of financial condition annually as of June 30. These are mainly not business-type activities, and those which had not yet developed formal accounting procedures to provide complete balance sheet types of statements were authorized temporarily to report only the asset side. Thus the supplement rounds out provision for the information on properties and assets of the United States Government which the Treasury has been asked to furnish to the Committee on Government Operations, House of Representatives, for a continuing study of the assets of the Government. The first comprehensive reporting under Supplement No. 1 is for June 30, 1957, and the data were published in the December 1957 issue of the Bulletin as Part B of Table 4 in Section I.

A summary of loans outstanding for a series of dates is included in Section I of the Bulletin presentation beginning with the June 1956 issue. Two classifications of the loans are shown, one by type and one by agency. Data prior to 1956 are based on the earlier reporting requirements, which provided for complete coverage of Government lending agencies.

1/ The dollar equivalents of these loans are computed for reporting purposes at varying rates. Where the loan agreements stipulate a dollar denominated figure, the loans outstanding are generally valued at agreement rates of exchange. Loans executed in units of foreign currency are valued at the market rates (i. e., the rates of exchange at which Treasury sells such currencies to Government agencies).

2/ Includes certificates of interest.

3/ Certain other activity (Part A).

4/ Public enterprise revolving fund.

5/ Certain other activities (Parts A and B).

6/ Does not include foreign currency loans.

## CORPORATIONS AND CERTAIN OTHER BUSINESS-TYPE ACTIVITIES

## Footnotes to Table 1

- 1/ Business-type activities reporting pursuant to Department Circular No. 966.
- 2/ Activities reporting pursuant to Supplement No. 1 to Department Circular No. 966. These are mainly not business-type activities. Excluded from the June 30, 1959, figures are those activities whose reports for that date cover assets only (see Headnote), and also certain activities of the Department of Defense, which have not yet furnished the data required by Supplement No. 1.
- 3/ With the exceptions indicated in footnote 2.
- 4/ These amounts consist in the main of unexpected balances of general, special, and revolving fund accounts against which checks may be drawn to pay proper charges under these funds. The funds are considered as assets of the agencies, but are not assets of the United States Government since funds must be provided out of cash balances of the Treasurer of the United States and future receipts to take care of checks to be issued against the balances.
- 5/ Includes foreign currency assets, representing loans and other receivables recoverable in foreign currency as well as balances of

foreign currencies in United States depositaries, aggregating \$3,841,471 thousand in dollar equivalent. These currencies, acquired without the payment of dollars, were generated under various Government programs, principally the Agricultural Trade Development and Assistance Act of 1954, as amended, and the Mutual Security Act, as amended. Dollar equivalents are computed for reporting purposes, to provide a common denominator for the currencies of the many countries involved. The rates of exchange used in the conversion of foreign currency units to United States dollar equivalent generally depend on the ultimate utilization of these currencies. Loans and other foreign currency receivables that are dollar denominated in loan agreements are valued at agreement rates of exchange. Loans stated in units of foreign currency and receivables in currencies that are available for sale for dollars and certain other United States uses are converted at market rates of exchange in effect on reporting dates, i. e., the rates at which the Treasury sells such currency to Government agencies.

## Footnotes to Table 2

**Footnotes to Table 8**

- 1/ Table 8 covers all Government loans outstanding. It includes foreign currency loans and those not included in Table 7 beginning 1956 which have been made by deposit and trust revolving funds.
- 2/ Includes guaranteed loans held by lending agencies.
- 3/ The major portion of the loans of the Veterans' Administration loan guaranty program are included under "Mortgage loans" through 1955 and under "Other" to aid home owners thereafter.
- 4/ Figures representing loans made by the International Cooperation Administration prior to 1952 are not available at this time.
- 5/ Includes the loan to the United Kingdom and guaranteed loans held by lending agencies.
- 6/ Reports on maritime activities were not received by the United States Treasury Department during the period from March 31, 1947, through March 31, 1953. Reorganization Plan No. 21, effective May 24, 1950, abolished the United States Maritime Commission and transferred its functions into the Department of Commerce.
- 7/ Reports have been received from the Commerce Department on maritime activities for the fiscal year 1953 and thereafter, but no loans were reported prior to December 31, 1955. Beginning with that date, certain mortgage notes are classified as mortgage loans.
- 8/ Established in the Department of State by Executive Order No. 10610, dated May 9, 1955, and effective at the close of business June 30, 1955, as successor to the Foreign Operations Administration. Data for earlier periods are for predecessor agencies.
- 9/ On September 29, 1953, pursuant to the act approved July 30, 1953 (15 U.S.C. 609), the Reconstruction Finance Corporation started liquidation of its activities, except those carried on by the Corporation pursuant to Section 409 of the Federal Civil Defense Act of 1950 (50 App. U.S.C. 2261) and expansion of defense production activities carried on pursuant to the Defense Production Act of 1950, as amended (50 App. U.S.C. 2091-2094), which had been transferred to the Secretary of the Treasury as of September 28, 1953, and as of the close of business on September 28, 1953, respectively. Effective at the close of business June 30, 1954, pursuant to Reorganization Plan No. 2 of 1954, certain functions and related assets of the Corporation were transferred to the Export-Import Bank of Washington, the Federal National Mortgage Association, and the Small Business Administration. On July 1, 1954, the remaining activities of the Corporation were transferred to the Secretary of the Treasury to complete their liquidation, pursuant to the act of July 30, 1953, as amended June 29, 1954. The Corporation was abolished effective at the close of business June 30, 1957, by Reorganization Plan No. 1 of 1957, and the remaining functions of the Corporation were transferred to the Housing and Home Finance Administrator, Administrator of General Services, Administrator of the Small Business Administration, and the Secretary of the Treasury.
- 10/ Totals include loans of Home Owners' Loan Corporation amounting to \$84.2 million as of June 30, 1950, and \$9.6 million as of December 31, 1950.
- 11/ Beginning 1956 notes receivable which had previously been classified as loans are classified as other assets and are not included in this table.
- 12/ Figure for June 30, 1950, consists of Alaska housing loans. Subsequent figures include also: beginning December 31, 1950, loans for community facilities service (previously included under Public Works Administration), prefabricated housing loans (transferred from the Reconstruction Finance Corporation), and urban renewal loans authorized by the Housing Act of 1949, as amended (42 U.S.C. 1452 (a)); beginning December 31, 1951, college housing loans authorized by the Housing Act of 1950, as amended (12 U.S.C. 1749); beginning December 31, 1954, loans held by the revolving fund established pursuant to the act approved June 24, 1954 (68 Stat. 295) for liquidation of not only Alaska housing, community facilities service, and prefabricated housing loans already included but also loans under the Farm Security Administration program, the public war housing program, and the veterans' re-use housing program, all three of which previously were handled by the Public Housing Administration; as of December 31, 1955, public works planning loans authorized by the Housing Act of 1954 approved August 2, 1954 (40 U.S.C. 462); beginning December 31, 1956, public facility loans authorized by the Housing Amendments of 1955 approved August 11, 1955 (42 U.S.C. 1491); and from December 31, 1956, through September 30, 1957, community disposal operations loans authorized by the Atomic Energy Community Act of 1955 approved August 4, 1955 (42 U.S.C. 2301 note) and Executive Order No. 10657 of February 14, 1956.
- 13/ The Federal National Mortgage Association Charter Act approved August 2, 1954 (12 U.S.C. 1716), authorized the Association to carry on three functions consisting of management and liquidating functions, secondary market operations, and special assistance functions. Its activities under these three functions began on November 1, 1954.
- 14/ All figures in this column include the loans of the United States Housing Act program. Also included are the homes conversion programs as of June 30, 1950, the Farm Security Administration and public war housing programs from June 30, 1950, through June 30, 1954, and the veterans' re-use housing program from June 30, 1953 through June 30, 1954 (see footnote 12).
- 15/ Consists of the Farmers' Home Administration loan programs, the disaster loans, etc., revolving fund, the farm tenant mortgage insurance fund, and the State rural rehabilitation funds beginning June 30, 1956. Prior to June 30, 1956, the farm tenant mortgage insurance fund was included in the statement of financial condition of the loan programs.
- 16/ Consists of the loan to the United Kingdom and other miscellaneous loans, Federal civil defense loans beginning December 31, 1955, and the loans of the Reconstruction Finance Corporation liquidation fund beginning September 30, 1957 (see footnote 9).
- 17/ The major portion of the loans are held by the Inland Waterways Corporation; Department of the Interior - Puerto Rico Reconstruction Administration through December 31, 1954, fisheries loan fund beginning June 30, 1957, and Indian loans; Department of the Army - guaranteed loans (World War II) through March 31, 1958; the development loan fund beginning June 30, 1958; Office of Education - loans to educational institutions as of June 30, 1959; and agencies reporting loans pursuant to the Defense Production Act of 1950, as amended (50 App. U.S.C. 2091), which consist of the Departments of the Army beginning June 30, 1951, Navy beginning December 31, 1951, and Air Force beginning June 30, 1956.
- 18/ Beginning 1956 mortgage notes and sales contracts which had previously been classified as loans are classified as other assets and are not included in this table.
- \* Less than \$50,000.
