### Reporting Bases

Data on receipts, expenditures, and debt which appear in the "Treasury Bulletin" are based largely on two Treasury financial reports, the "Daily Statement of the United States Treasury" and the "Monthly Statement of Receipts and Expenditures of the United States Government." Certain monetary statistics are based at least in part on the "Circulation Statement of United States Money." Where these statements are given as sources for individual tables, they are cited by name only. Their respective reporting bases are described below. For other data in the Bulletin, information on sources or reporting bases is given in connection with the tables themselves.

The monthly statement of receipts and expenditures was first published for February 1954, and replaced the daily statement as the primary source of information on budget results and other receipt and expenditure data classified by type of account. At the same time, the daily statement was changed to a statement of cash deposits and withdrawals affecting the account of the Treasurer of the United States. Both publications have provided comparative figures on their respective bases from the beginning of the fiscal year 1953. The announcement of February 17, 1954, with respect to these reporting changes may be found in the April 1954 issue of the Bulletin.

The monthly statement shows all receipts and expenditures of the Government, including those made from cash accounts held outside the United States Treasury. The information is compiled from reports by the Treasurer of the United States and by all other collecting and disbursing agencies, including those agencies which maintain checking accounts in commercial banks. These reports cover transactions recorded in the accounts of the agencies during the reporting period. The net of the transactions as compiled from these reports is reconciled in the monthly statement to changes in the balances in the Treasurer's account and in cash held outside the Treasurer's account and changes in the public debt outstanding.

Receipts of taxes and customs duties are reported on a collections basis. Other receipts are reported partially on a collections basis and partially on a deposits basis. Expenditures, except interest on the public debt, are reported on the basis of checks issued or cash payments made by disbursing officers. Transactions of an interfund or intragovernmental nature are included on the same basis even though the actual issuance of checks may not be involved. Interest on the public debt is included on an accrual basis beginning with figures for June 1955 and the fiscal year 1955. Prior to that, it was included on a due and payable basis. The same reporting basis as that in the monthly statement provides the fiscal year figures for the Treasury's "Combined Statement of Receipts, Expenditures and Balances of the United States Government" and for actual receipts and expenditures in the "Budget of the United States Government."

The daily statement on the new basis was first issued for February 17, 1954. In the deposits and withdrawals as shown, no distinction is made as to the type of accounts (budget, trust, etc.). The deposits are on the basis of certificates of deposit cleared through the account of the Treasurer of the United States. Total withdrawals are on the basis of checks paid or cash disbursements made out of the Treasurer's account. Some of the withdrawal classifications shown are reported on the basis of mailed reports of checks issued and are adjusted by means of clearing accounts to the total of checks paid. Except for relatively minor amounts, noncash interfund and other intragovernmental transactions are excluded. The public debt figures in the daily statement also are on a "clearance" basis, with the exception of those issuance and retirement transactions reported on the basis of telegrams from Federal Reserve Banks, but they include noncash debt transactions.

The daily statement before February 17, 1954, covered not only transactions cleared through the Treasurer's account but also certain Government agency transactions which were handled through commercial bank accounts, and included noncash interfund and other intragovernmental transactions. It provided information similar to that in the present daily statement with respect to the status of the Treasurer's account, and similar to that in the present end-of-month daily statement with respect to debt issuance, retirement, and amount outstanding. Receipts and expenditures, however, were classified by type of account, and the budget results shown in the daily statement were used as the basis for reflecting the results under the President's budget program as enacted by the Congress.

Receipts were on the basis of deposits as they cleared the Treasurer's account. Expenditures cleared through the Treasurer's account were reported on two successive bases. Through 1946 they were on the basis of checks paid by the Treasurer of the United States. Beginning with 1947, expenditures made through the facilities of the Treasury Department's Division of Disbursement were on the basis of checks issued, while certain others, principally those of the Department of Defense and its predecessor organizations, were on the basis of checks paid. Transactions handled through commercial bank accounts, consisting of market transactions in public debt and guaranteed securities, were as reported by the agencies. Interest on the public debt was included on a due and payable basis beginning with November 1949 and on a checks-paid basis prior to that time.

The circulation statement reflects transactions through the Treasurer's account which affect monetary stocks of gold and silver and the amounts of coin and currency in the money supply of the country. It is issued later than the daily statement, however, and the figures are based on transactions consummated during the reporting period even though some may not have cleared through the Treasurer's account during that period.

## Treasury Financing Operations

### Tax Certificate Offering

A cash offering of \$3 billion, or thereabouts, of 2-3/4 percent tax anticipation certificates of indebtedness was announced by the Secretary of the Treasury on August 3. The certificates are dated August 15, 1956, and will mature March 22, 1957. They will be receivable at par plus accrued interest to maturity in payment of income and profits taxes due on March 15, 1957. The subscription books were open for one day only, on August 6.

Subscriptions received totaled more than \$10,613 million and allotments \$3,221 million. Subscriptions in excess of \$100,000 were allotted 29 percent but not less than \$100,000. Those for \$100,000 or less were allotted in full. Approximately \$1,045 million was allotted to nonbank subscribers on original issue.

Commercial banks, which for this purpose are defined as banks accepting demand deposits, were permitted to subscribe for their own account without deposit, but were restricted in each case to an amount not exceeding the combined capital, surplus, and undivided profits of the subscribing bank. A payment of 3 percent of the amount of certificates subscribed for, not subject to withdrawal until after payment, was required on all other subscriptions. Any commercial bank qualified as a depository was permitted to make payment for the new certificates by credit in its Treasury tax and loan account for not more than 80 percent of the amount of certificates allotted to it for itself and its customers up to the amount for which it was qualified in excess of existing deposits.

Commercial banks and other lenders were requested to refrain from making unsecured loans or

loans collateralized in whole or in part by the certificates subscribed for, to cover the 3 percent deposits required to be paid when subscriptions were entered. A certification by the subscribing bank that no such loan was made was required on each subscription entered by it for account of its customers. A certification that the bank had no beneficial interest in its customers' subscriptions, and that no customers had any beneficial interest in the bank's own subscriptions, also was required.

The new securities, designated Series B-1957, Tax Anticipation Series, will bear interest at the rate of 2-3/4 percent per annum, payable with the principal at maturity. They were issued in bearer form only, in denominations of \$1,000, \$5,000, \$10,000, \$100,000, and \$1,000,000.

### Cash Payoff of Bonds of 1956-59

The Secretary of the Treasury also announced on August 3 that the Treasury would pay off in cash on September 15, 1956, the issue of partially tax-exempt 2-3/4 percent Treasury bonds of 1956-59. These bonds, outstanding in the amount of \$982 million, had been called for redemption on May 14, 1956.

### Treasury Bills Refunded

New issues of weekly Treasury bills in August refunded the five 91-day maturities in the equivalent total of \$8.0 billion. Each new issue and each maturity amounted to \$1.6 billion. Average rates of discount on the new issues were 2.378 percent for August 2; 2.399 percent for August 9; 2.603 percent for August 16; 2.818 percent for August 23; and 2.832 percent for August 30. The new issues consisted of four 91-day maturities and one 92-day maturity dated August 23.

Note: Details of Treasury market financing operations are shown elsewhere in this issue of the "Treasury Bulletin," in the tables on "Offerings," "Allot-

ments," and "Disposition," respectively, of marketable issues of bonds, notes, and certificates of indebtedness, and in the table "Offerings of Treasury Bills."

Sources: Actual figures through the fiscal year 1952 and the calendar year 1953 are from the daily Treasury statement, and thereafter in each case they are from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates are from the midyear review of the 1957 Budget, released August 28, 1956, including expenditures from 1957 appropriations anticipated for later transmission to the Congress.

1/ Gross receipts less transfers of tax receipts to the Federal Old-Age and Survivors Insurance Trust Fund and the Railroad Retirement Account, and refunds of receipts.

2/ Transactions of the Foreign Economic Cooperation Trust Fund, established under Section 114 (f) of the Economic Cooperation Act of 1948 (62 Stat. 150), are consolidated with budget expenditures. Beginning with the fiscal year 1951, net investment by wholly owned Government enterprises in public debt securities is excluded from budget expenditures, and is included with other such investment under "Trust account and other transactions."

3/ Consists of transactions of trust and deposit funds, investment by Government agencies in public debt securities, and redemption or sale of obligations of Government agencies in the market; excess of receipts, or expenditures (-). For detail of content, see page 6.

4/ For checks outstanding, telegraphic reports from Federal Reserve Banks, public debt interest accrued and unpaid beginning with June and the fiscal year 1955 (previously included from November 1949 as interest checks and coupons outstanding), and deposits in transit and cash held outside the Treasury beginning with the fiscal year 1954; net increase, or decrease (-).

5/ For current month detail, see section on "Statutory Debt Limitation" in each issue of the Bulletin. The limitations in effect during the period covered by this table and the date when each became effective are as follows: June 9, 1944, \$260 billion; April 3, 1945, \$300 billion; June 26, 1946, \$275 billion; August 28, 1954, \$281 billion (temporary increase ending on June 30, 1956); and July 1, 1956, \$278 billion (temporary increase ending on June 30, 1957). Guaranteed securities are included under the limitation beginning April 3, 1945. Savings bonds are included at current redemption value beginning June 26, 1946; prior to that time they were included at maturity value. In the debt outstanding, savings bonds are carried at current redemption value.

6/ Immediate postwar debt peak of \$279,764 million was on February 28, 1946.

\* Less than \$500,000.

Source: Actual figures through 1952 are from the daily Treasury statement and thereafter from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates are from the midyear review of the 1957 Budget, released August 28, 1956.

1/ For further detail, see tables under "Internal Revenue Collections."

2/ Breakdown was not made in the daily Treasury statement and the monthly statement for years prior to 1954.

3/ Beginning January 1951, the distribution of receipts between individual income taxes and old-age insurance taxes is made in accordance with provisions of Sec. 109 (a)(2) of the Social Security Act

Amendments of 1950, for transfer to the Federal Old-Age and Survivors Insurance Trust Fund (see footnote 11).

4/ Taxes on employers and employees under the Federal Insurance Contributions Act, as amended (26 U.S.C. 1400-1432) and, beginning with the taxable year 1951, tax on self-employed individuals under the Self-Employment Contributions Act (26 U.S.C. 480-482).

5/ Taxes on carriers and their employees under the Railroad Retirement Tax Act (26 U.S.C. 1500-1538).

6/ Tax on employers of 8 or more under the Federal Unemployment Tax Act, as amended (26 U.S.C. 1600-1611). Remaining footnotes on page 5.

Source: Actual figures are from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates are from the midyear review of the 1957 Budget, released August 28, 1956, including expenditures from 1957 appropriations anticipated for later transmission to the Congress.

Note: Figures in this table are for agencies as constituted at the time the expenditures were made, and therefore do not necessarily represent functions which are comparable over a period of time. For expenditures by functions on a consistent basis, see Table 3.

1/ Expenditures for Reconstruction Finance Corporation are included under "Independent offices" through 1954, and under "Treasury Department, Other" thereafter.

2/ Expenditures for Federal Home Loan Bank Board are included under "Housing and Home Finance Agency" through 1955, and under "Independent offices" thereafter.

3/ Total includes reserve for contingencies amounting to \$200 million.

4/ Beginning with the fiscal year 1957, expenditures for Federal-aid highways are excluded from budget expenditures and included in trust account expenditures, see Table 1, footnote 13.

5/ Effective June 30, 1955, interest on the public debt is reported on an accrual basis.

6/ Consists of Federal payment and loans and advances.

7/ Includes estimate of interest on uninvested funds.

Source: Figures for 1953-55 are from the 1957 Budget of the United States Government, Special Analysis L; figures for 1956 are based on reports submitted by Government disbursing officers and are classified by individual appropriation items. Expenditures are net of receipts of public enterprise funds. This table supersedes the one published prior to the July 1956 issue of the "Treasury Bulletin," which showed expenditures by major functions only, with 1956 figures based on monthly statement detail.

<sup>1/</sup> See footnote 4.<sup>2/</sup> Expenditures for 1956 include those made from "Readjustment Benefits, Veterans' Administration," applicable to functional classification 102, "Other veterans' readjustment benefits," the separate amounts of which cannot be readily determined.<sup>3/</sup> See footnote 2.<sup>4/</sup> Expenditures for 1956 include those for emergency assistance to Pakistan -- wheat, aid to friendly peoples, applicable to functional classification 152, "Economic and technical development"; for emergency feed program -- cost of commodities, applicable to functional classification 352, "Financing farm ownership and operation"; for loan to Secretary of Agriculture for conservation program, applicable to functional classification 354, "Conservation and development of agricultural land and water resources"; and for transfers and other costs for eradication of foot-and-mouth disease and brucellosis in cattle, applicable to functional classification 355, "Research and other agricultural services." These expenditures were made from "Commodity Credit Corporation Capital Fund" and the separate amounts cannot be readily determined.<sup>5/</sup> Expenditures for 1956 include those for farm housing made from "Loans, Farmers' Home Administration, Agriculture," applicable to functional classification 517, "Other aids to housing," the separate amounts of which cannot be readily determined.<sup>6/</sup> Expenditures for 1956 include those for navigation projects made from "Construction, General, Corps of Engineers, Civil," applicable to

functional classification 511, "Promotion of water transportation," the separate amounts of which cannot be readily determined.

<sup>7/</sup> See footnote 8.<sup>8/</sup> Expenditures for 1956 include those for flood control and multiple purpose projects, including power, made from "Operation and Maintenance, General, Corps of Engineers, Civil," applicable to functional classification 401, "Conservation and development of land and water resources," the separate amounts of which cannot be readily determined.<sup>9/</sup> See footnote 6.<sup>10/</sup> See footnote 12.<sup>11/</sup> See footnote 15.<sup>12/</sup> Expenditures for 1956 include those for defense community facilities and services and for advance planning of non-Federal public works, applicable to functional classification 515, "Community development and facilities"; and for Alaska housing and loans for prefabricated housing, applicable to functional classification 517, "Other aids to housing." These expenditures were made from "Revolving Fund, Liquidating Programs, Office of the Administrator, Housing and Home Finance Agency" and the separate amounts cannot be readily determined.<sup>13/</sup> See footnote 5.<sup>14/</sup> Expenditures for 1956 include those for disaster loans and relief made from "Operations, Small Business Administration" and for disaster loans made from "Revolving Fund, Small Business Administration," applicable to functional classification 521, "Disaster insurance, loans and relief," the separate amounts of which cannot be readily determined.<sup>15/</sup> Expenditures for 1956 include those for lending program - public agencies made from "Reconstruction Finance Corporation Liquidation, Treasury," applicable to functional classification 515, "Community development and facilities," the separate amounts of which cannot be readily determined.<sup>16/</sup> See footnote 14.<sup>p</sup> Preliminary.

## Footnotes to Table 1 - (Continued)

Footnotes 1 through 6 follow Table 1.

<sup>1/</sup> Through 1953, contributions to the Railroad Unemployment Insurance Administration Fund were carried in the daily Treasury statement as miscellaneous receipts, while the 1957 Budget document includes them in employment taxes through 1952. This difference in classification accounts for the difference in figures from the two sources. Beginning 1954 the contributions are credited direct to the trust account. For amounts of the contributions included in budget receipts, see "Treasury Bulletin" for February 1954, page 7.<sup>2/</sup> In the 1957 Budget, internal revenue taxes not otherwise classified are included in miscellaneous receipts.<sup>2/</sup> For change in treatment of certain excise tax receipts beginning with the fiscal year 1957, see footnote 13.<sup>10/</sup> Individual income taxes withheld have been increased by \$249 million representing adjustments to correct estimates for the quarter ended June 30, 1955, and prior quarters by \$149 million and for the quarter ended September 30, 1955, by \$100 million. Individual income taxes not withheld have been reduced by \$4 million representing adjustment to correct estimates for 1953 and prior calendar years. The old-age insurance taxes and the transfers to the trust fund have been reduced by the net of these adjustments or \$246 million. The adjustments were made pursuant to Sec. 109 (e)(2) of the Social Security Act Amendments of 1950.<sup>11/</sup> Amounts appropriated to the Federal Old-Age and Survivors Insurance Trust Fund are equivalent to the amounts of taxes collected and deposited for old-age insurance (42 U.S.C. 401 (e)). The Social Security Act Amendments of 1950, approved August 28, 1950 (64 Stat. 477), changed in certain respects the basis of transferring the appropriated funds to the trust fund. Beginning January 1951, the amounts transferred currently for appropriation to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury pursuant to the provisions of Sec. 109 (e)(2) of the Amendments of 1950, and are adjusted in later transfers on the basis of wage and self-employment income records

maintained in the Social Security Administration. The amount of old-age insurance tax refunds is paid from the trust fund as a reimbursement to the general fund.

<sup>12/</sup> Excludes the Government's contribution for creditable military service under the act of April 8, 1942 (56 Stat. 204). Beginning 1952, amounts are appropriated to the Railroad Retirement Account equal to the amount of taxes under the Railroad Retirement Tax Act deposited in the Treasury, less refunds, during each fiscal year (65 Stat. 222 and 66 Stat. 371), and transfers are made currently. Previously, annual appropriations were based, in effect, on estimated tax collections, with any necessary adjustments made in succeeding appropriations.<sup>13/</sup> The Highway Revenue Act of 1956 (Title II of Public Law 627, 84th Congress, approved June 29, 1956) established a Highway Trust Fund from which are made Federal-aid highway expenditures after June 30, 1956. The act appropriated to this fund amounts equivalent to specified percentages of receipts from certain excise taxes on motor fuels, motor vehicles, tires and tubes, and use of certain vehicles, and provided (Sec. 203 (c)(3)), that the amounts appropriated should be transferred currently to the trust fund on the basis of estimates by the Secretary of the Treasury with proper adjustments to be made in subsequent transfers. Previous to the fiscal year 1957, corresponding excise tax receipts were included in budget receipts, and Federal aid highway expenditures were included in budget expenditures.<sup>14/</sup> Interest on refunds is included in expenditures in Table 2. Reimbursement by Federal Old-Age and Survivors Insurance Trust Fund for refunds of taxes for the fiscal year (see footnote 11) is netted against internal revenue refunds for the month in which the reimbursement is made.<sup>15/</sup> Transfers for the fiscal year 1955 were reduced by \$300 million as an adjustment for excess transfers to the trust fund of \$90 million in 1952 and \$210 million in 1953, pursuant to Sec. 109 (e)(2) of the Social Security Act Amendments of 1950.

Source: Actual figures through 1952 are from the daily Treasury statement and thereafter from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates are from the midyear review of the 1957 Budget, released August 28, 1956.

1/ Prior to 1951 net investment in public debt securities by certain trust accounts and by deposit fund accounts is included in trust and deposit fund account expenditures and excluded from net investment by Government-agencies (See Tables 3 and 4).

2/ Excludes Foreign Economic Cooperation Trust Fund (see page 1); receipts were excluded in 1948.

3/ Under a revised classification in the monthly statement, effective July 1, 1955, the security transactions of Government-sponsored enterprises are included in deposit fund account expenditures (net) and excluded from net investment by Government agencies in public debt securities (see Table 4) and from net redemption or sale of obligations of Government agencies in the market (see Table 5). Figures previously published for the fiscal year 1955 have been revised to the new classification basis.

1/ See "Budget Receipts and Expenditures," Table 1, footnote 13.

2/ Includes District of Columbia, receipts from taxes and from Federal contributions, loans, and grants; Indian tribal funds; increment resulting from reduction in the weight of the gold dollar; and through 1950 seigniorage on silver under the Silver Purchase Act of 1934. Thereafter any such seigniorage is included with other

seigniorage under budget receipts. Beginning with the fiscal year 1954, the Railroad Unemployment Insurance Fund is classified as a trust account, instead of being handled through budget accounts as formerly (see "Budget Receipts and Expenditures," Table 1, footnote 7).

CASH INCOME AND OUTGO

---

The cash income and outgo data appearing in the "Treasury Bulletin" have been revised, beginning with the February 1956 issue, to a basis consistent with receipts from and payments to the public as derived in the 1957 Budget of the United States, Special Analysis A. Reconciliation to cash deposits and withdrawals in the account of the Treasurer of the United States is shown on the same basis as in the Budget document. There is also shown the amount of net cash borrowing from, or repayment of borrowing to, the public. By these arrangements, data in accordance with the Budget classifications are made available month by month. Figures for back years have been revised where necessary in order to make them as nearly comparable with the 1957 Budget classifications as available data will permit. For this reason certain of the figures differ somewhat from those published in earlier Budget documents as well as in the Bulletin.

The Budget series of cash transactions is designed to provide information on the flow of money between the public and the Federal Government as a whole, and therefore includes transactions not cleared through the Treasurer's account. Receipts and payments include transactions both in budget accounts and in trust and deposit fund accounts. Operations of Government-sponsored enterprises are included in payments on a net basis as reflected in Treasury reports. Major intragovernmental transactions which are reported as both expenditures and receipts are eliminated from both. Noncash items which represent accrued obligations of the Government to make payments in the future are also eliminated from expenditures but are added later when actual payments are made. Receipts from the exercise of monetary authority (mostly seigniorage on silver) are excluded as not

representing cash received from the public. Federal cash borrowing from the public includes net borrowing by the Treasury through public debt transactions and also net borrowing by Government agencies and Government-sponsored enterprises through sales of their own securities. It excludes changes in the public debt which do not represent direct cash borrowing from the public. The net effect of all these transactions with the public is reflected in changes in the balance in the Treasurer's account and in cash held outside the Treasury.

Cash transactions through the Treasurer's account are similar in general concept to those included in the Budget series, but are limited in coverage to transactions which affect the balance in that account. On the other hand, they include receipts from the exercise of monetary authority, which are excluded from receipts from the public in the Budget series.

Beginning with figures for the fiscal year 1953, the series of transactions with the public is based on the "Monthly Statement of Receipts and Expenditures of the United States Government," which is compiled from reports by all collecting and disbursing officers and includes those transactions not cleared through the Treasurer's account. Cash deposits and withdrawals in the Treasurer's account, beginning with the figures for the same year, are reported in daily Treasury statements. For those years prior to 1953 both cash transactions series are based on a single source, namely, the earlier basis of daily Treasury statements which reported separate classifications for budget results, trust account transactions, etc.

## Footnotes to Table 3

- 1/ For further detail, see "Budget Receipts and Expenditures," Table 1.  
 2/ For further detail, see "Trust Account and Other Transactions," Table 2.  
 3/ Treated as noncash refund deductions from receipte when issued and as cash refund deductions when redeemed.  
 4/ Consists of seigniorage on silver and increment resulting from reduction in the weight of the gold dollar; excluded from receipte from the public

- but included in cash deposits in the Treasurer's account.  
 5/ Includes excess profits tax refund bond redemptions, for which a separate estimate is not available.  
 \* Less than \$500,000.  
 p Preliminary.

## Footnotes to Table 4

- 1/ For further detail, see "Budget Receipts and Expenditures," Table 2.  
 2/ For further detail, see "Trust Account and Other Transactions," Tables 3, 4, and 5. Includes net change in balances in Government-sponsored enterprise deposit fund accounts with the Treasurer of the United States.  
 3/ Net operating expenditures, or receipts (-), as measured by funds provided by or applied to net security transactions reflected in Treasury reports (see Table 7). To a large extent, these Government-sponsored enterprises secure funds for their operations by direct borrowing from the public or by cashing Federal securities which they hold, and they apply the net income received from operations to repayment of borrowing from the public or to investment in Federal securities. On that basis, net ex-

- penditure for operations are shown in this table in terms of the combined net of dieinvestment in Federal securities and sale of agency obligations in the market, and net receipts from operations are shown in terms of the combined net of investment in Federal securities and redemption of agency obligations in the market.  
 4/ Not reported prior to 1954.  
 5/ Consists of only three market transactions not cleared through the Treasurer's account.  
 6/ See Table 7, footnote 1.  
 \* Less than \$500,000.  
 p Preliminary.

## Footnotes to Table 5

- 1/ Federal intermediate credit bank franchise tax and, beginning 1953, also reimbursement by Panama Canal Company for expense and service.  
 2/ Includes reimbursement by Federal Old-Age and Survivors Insurance Trust Fund for administrative expenses and, beginning fiscal year 1953, also for refunds of taxes (treated as an offset to refunds rather than being credited to receipte); reimbursement by the District of Columbia; and in 1949, proceeds of ship sales which had been carried in trust accounts pending allocation to budget receipte from sale of surplus property.  
 3/ Consists of payment of earnings and repayment of capital stock to the Treasury through 1952, and beginning 1955, payment of franchise tax by banks for cooperatives.  
 4/ Includes relatively small amounts of deductions from salaries paid by trust funds and Government-sponsored enterprises.

- 5/ Consists of United States and Government corporation shares of contributions to employees' retirement funds, and payments to the Railroad Retirement Account (for creditable military service), the Unemployment Trust Fund, veterans' life insurance funds, trust fund for technical services and other assistance under the agricultural conservation program, and District of Columbia.  
 6/ Includes District of Columbia share of contributions to the Civil Service retirement fund, payments by Railroad Retirement Board to Federal Old-Age and Survivors Insurance Trust Fund, transfers from Civil Service retirement fund to Foreign Service retirement fund except in 1956 and 1957, and transfers from Railroad Unemployment Insurance Administration Fund to Unemployment Trust Fund.  
 \* Less than \$500,000.  
 p Preliminary.

## Footnotes to Table 6

- 1/ Accrued discount on savings bonds and bills less interest paid on savings bonds and bills redeemed.  
 2/ Public debt interest accrued and unpaid beginning June 30, 1955, effective date of the change in accounting and reporting from a due and payable basis to an accrual basis; for 1954, consists only of public debt interest checks and coupons outstanding; net increase, or decrease (-). Not reported as a separate clearing account prior to 1954; interest reported when paid by Treasurer prior to November 1949.  
 3/ Treated as noncash expenditures at the time of issuance of the securities and as cash expenditures at the time of their redemption; net issuance, or redemption (-).  
 4/ Issued in 1936 in exchange for adjusted service certificates held by veterans of World War I. The bonds matured in 1945.  
 5/ Issued in 1947 in payment for accumulated leave. The last of these bonds matured in 1951.

- 6/ Part of the United States subscription to the capital of the International Bank for Reconstruction and Development and to the International Monetary Fund was paid in the form of noninterest-bearing, nonnegotiable notes payable on demand (see 1947 Annual Report of the Secretary of the Treasury, pages 48, 350, and 385). The last of the notes issued to the Bank was redeemed in 1950.  
 7/ By wholly owned Government enterprises; beginning 1951, such net investments are reported separately and are not included in expenditures (see "Trust Account and Other Transactions," Table 4).  
 8/ Checks outstanding less deposits in transit, and telegraphic reports from Federal Reserve Banks; increase, or decrease (-). For public debt interest included prior to 1954, see footnote 2.  
 \* Less than \$500,000.  
 p Preliminary.

## Footnotes to Table 7

- 1/ In this table, beginning 1954, in accordance with treatment in Budget documents, net investment in United States securities by Government-sponsored enterprises includes a small amount by other enterprises regarded as representing net transactions with the public. In Table 4 under "Trust Account and Other Transactions," these amounts are included in trust and deposit fund account investment.  
 2/ Accrued discount on savings bonds and bills, which is included in the principal of the public debt, less interest paid on savings bonds and bills redeemed.  
 3/ Treated as noncash transactions at the time of issuance and as cash

- transactions at the time of redemption; net issuance, or redemption (-).  
 4/ Excluded from borrowing because the transactions are treated as expenditures in Table 6.  
 5/ Excluded from borrowing because the transactions are treated as deductions from receipts in Table 3.  
 6/ Market transactions in public debt securities and agency obligations.  
 \* Less than \$500,000.  
 p Preliminary.

Note: The computed annual interest charge represents the amount of interest that would be paid if each interest-bearing issue outstanding at the end of each month or year should remain outstanding for a year at the applicable annual rate of interest. The charge is computed for each issue by applying the appropriate annual interest rate to the amount outstanding on that date. The aggregate charge for all interest-bearing issues constitutes the total computed annual interest charge. The average annual interest rate is computed

by dividing the computed annual interest charge for the total, or for any group of issues, by the corresponding principal amount.

1/ Excludes guaranteed securities held by the Treasury.

2/ Total includes "Other bonds"; see Table 2.

3/ Included in debt outstanding at face amount, but discount value is used in computing annual interest charge and annual interest rate.

4/ The annual interest charge and annual interest rate on United States savings bonds are computed on the basis of the rate to maturity applied against the amount outstanding.

1/ The securities shown in this table were issued to the Treasury to finance Government corporations and other agencies with the Treasury itself raising the necessary funds through public debt operations.

To avoid duplication, these securities are not included in the guaranteed debt outstanding as shown in preceding table.

2/ Excludes securities issued under Defense Production Act.

3/ From September 1950 through July 1954, consists of notes of the Housing and Home Finance Administrator, issued to borrow for the Association. Beginning August 1954, consists of liabilities taken over by the Association from the Administrator in accordance with Public Law 560, approved August 2, 1954, and notes issued by the Association under authority of that act; and beginning September 1954, also securities transferred from the Reconstruction Finance Corporation (see footnote 6). Prior to September 1950, the Association was financed from funds of the Reconstruction Finance Corporation, which owned the capital stock.

4/ Consists of notes issued to borrow for the urban renewal program (formerly slum clearance program); the prefabricated housing loans program from September 1950, when it was transferred from the Reconstruction Finance Corporation, through November 1954; college housing loans beginning July 1951; and public facility loans beginning January 1956. Notes issued to borrow for the Federal National Mortgage Association from September 1950 through July 1954 are shown under the Association.

5/ Established in the Department of State by Executive Order No. 10610, dated May 9, 1955, and effective at the close of business June 30, 1955, as successor to the Foreign Operations Administration. Data for earlier periods are for predecessor agencies.

6/ Excludes securities issued under Defense Production Act of 1950; includes securities issued under Federal Civil Defense Act of 1950 through November 1953, after which they were taken over by the Secretary of the Treasury, pursuant to the act approved July 30, 1953 (67 Stat. 230), and are included under "Other." During September 1954, under Reorganization Plan No. 2 of 1954, the remaining securities issued by the Corporation to the Treasury were transferred as follows: \$42 million to Export-Import Bank of Washington, \$92 million to Federal National Mortgage Association, and \$14 million to Small Business Administration.

7/ For Farmers' Home Administration program.

8/ Consists of notes of the Administrator, General Services Administration beginning January 1951 (Administrator, Defense Materials Procurement Agency, January 1952 through July 1953) for defense materials procurement; Reconstruction Finance Corporation, January 1951 through September 1953 (after which its activities under this act were transferred to the Secretary of the Treasury), and the Secretary of the Interior (Defense Minerals Exploration Administration) beginning June 1951; the Export-Import Bank of Washington beginning April 1952; and the Secretary of Agriculture beginning June 1954.

9/ Consists of notes issued by Federal Farm Mortgage Corporation and Home Owners' Loan Corporation prior to 1950, Virgin Islands Company, 1948-49, Secretary of the Army (Natural Fibers Revolving Fund) 1949-51, Secretary of the Treasury beginning 1953 (see footnote 6), and Small Business Administration beginning September 1954; and revenue bonds issued by Saint Lawrence Seaway Development Corporation, beginning November 1954.

1/ On account of withheld taxes and sales of Government securities.

2/ Beginning December 1954, Post Office Department and Postmasters' disbursing accounts are no longer treated as liability accounts of the

Treasurer of the U. S., but are classified and treated in the same manner as other disbursing accounts, in accordance with the change in method of reporting Post Office Department transactions.

## STATUTORY DEBT LIMITATION

The Second Liberty Bond Act, as amended (31 U.S.C. 757 b), provides that the face amount of obligations issued under authority of that act, and the face amount of obligations guaranteed as to principal and interest by the United States (except guaranteed obligations held by the Secretary of the Treasury), shall not exceed in the aggregate \$275 billion outstanding at any one time, except that this amount was increased by \$6 billion be-

ginning on August 28, 1954, and ending on June 30, 1956, by acts approved August 28, 1954, and June 30, 1955; and by \$3 billion beginning on July 1, 1956, and ending on June 30, 1957, by an act approved July 9, 1956. Obligations issued on a discount basis, and subject to redemption prior to maturity at the option of the owner, are included in the statutory debt limitation at current redemption values.

<sup>1/</sup> It should be noted that callable issues appear twice in this column, once in the year of first call and again in the year of final maturity. Callable issues with respect to which a definite notice of call has been made, however, are listed as fixed maturities. For

date of issue of each security, see "Market Quotations"; for tax status, see "Treasury Survey of Ownership."

<sup>2/</sup> Called on May 14, 1956, for redemption on September 15, 1956.<sup>3/</sup> Not called for redemption on September 15, 1956. Callable on four months' notice on March 15, 1957, succeeding interest payment date.

## UNITED STATES SAVINGS BONDS

United States savings bonds were first offered in March 1935 and began to mature in March 1945. Series A-D were sold between March 1935 and the end of April 1941, and Series E, F, and G were first offered in May 1941. When Series E began to mature on May 1, 1951, owners of the matured bonds were offered three options: To redeem the bonds in cash in accordance with the original terms; to retain them with an extended maturity of 10 years at specified rates of interest accrual; or to exchange them for Series G bonds. A number of changes became effective May 1, 1952. The principal ones were: The rate of interest accrual on Series E was increased, especially for the near term, with corresponding changes in extended Series E; and Series F and G were replaced by two new issues, Series J and K, also at higher interest rates. A new current-income bond, Series H, similar in interest return to Series E, was offered beginning June 1. For

details of these changes see "Treasury Bulletin" for May 1952, page A-1. Series F and G began to mature on May 1, 1953. For the exchange offering made to holders of these bonds maturing through December 31, 1953, see the May 1953 issue, page A-1. The Treasury invited holders of Series F and G which began to mature in January 1954 to reinvest the proceeds in other series of savings bonds. In the tables which follow, Series A-F and J sales are included at issue price and total redemptions and amounts outstanding at current redemption values. Series G, H, and K are included at face value throughout. Matured bonds which have been redeemed are included in redemptions. Matured F and G bonds outstanding are included in the interest-bearing debt until all bonds of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

1/ Details by series on a cumulative basis and by periods for Series A-D combined will be found in the February 1952 and previous issues of the "Treasury Bulletin."

2/ Includes exchanges of matured Series E bonds for Series G bonds beginning May 1951 and for Series E bonds beginning May 1952.

3/ Includes both matured and unmatured bonds; see Table 1.

4/ Includes total value of redemptions not yet classified between matured and unmatured bonds.

5/ A change in procedure, beginning in June 1954, for processing redeemed savings bonds has resulted in a high level of redemptions not yet classified between matured and unmatured bonds. This increase temporarily obscures the relationship between the redemption columns showing sales price and accrued discount in Tables 2 through 4 and also the relationship between the matured and unmatured sections of Table 4. (See also footnote 4.) The subsequent distribution of this high level

of unclassified redemptions may be large enough in any month to show redemptions of matured bonds for a series in Table 4 which are greater than the total redemptions of that series as shown in Table 3, and to show a negative in the unmatured section of Table 4.

6/ Reductions were made in issues and redemptions of Series E, H, F, G, J, and K in July 1954 to compensate for the erroneous inclusion of reissue transactions in June 1954 as reported in the daily Treasury statement. The amounts involved were as follows: \$18 million for issues of Series E and H and \$17 million for issues of Series F, G, J, and K; and \$35 million for unclassified retirements.

Sales began June 1, 1952.

7/ Comparable data are not available prior to January 1950.

8/ Includes exchanges of Series 1941 F and G savings bonds for Treasury 3-1/4% bonds of 1978-83.

\* Less than \$500,000.

Sources: Daily Treasury statement for total amounts outstanding; reports from agencies and trust funds for securities held by U. S. Government investment accounts; and reports from Federal Reserve System for securities held by Federal Reserve Banks.

1/ Includes certain obligations not subject to statutory limitation.

For amounts subject to limitation, see page 1.

2/ Includes accounts under the control of certain U. S. Government agencies whose investments are handled outside the Treasury; excludes Federal land banks after June 26, 1947, when the proprietary interest of the United States in these banks ended.

3/ The total amount of interest-bearing securities held by private investors is calculated by deducting from the total amount outstanding the amount held by U. S. Government investment accounts and Federal Reserve Banks.

4/ Excludes guaranteed securities held by the Treasury.

5/ All public marketable issues.

6/ Consists of Commodity Credit Corporation demand obligations stated as of the close of the previous month.

1/ Consists of purchases or sales made by the Treasury of securities issued or guaranteed by the U. S. Government for (1) trust funds which by law are under the control of the Secretary of the Treasury or of the Treasurer of the United States, and (2) accounts under the control of certain U. S. Government agencies whose investments are handled through the facilities of the Treasury Department. It will be noted that these

transactions differ from those reflected in Table 1 because they exclude those Government investment accounts for which investments are not handled by the Treasury. Table 2 also includes purchases under Section 19 of the Second Liberty Bond Act, as amended (31 U.S.C. 754 e), and excludes the Exchange Stabilization Fund.

## TREASURY SURVEY OF OWNERSHIP, JUNE 30, 1956

The Treasury Survey of Ownership covers securities issued by the United States Government and by Federal agencies. The banks and insurance companies included in the Survey account for approximately 95 percent of such securities held by all banks and insurance companies in the United States. Data were first published for March 31, 1941, in the May 1941 "Treasury Bulletin."

Distribution of ownership by types of banks and insurance companies is published each month. Holdings by commercial banks distributed according to Federal Reserve member-bank classes and nonmember banks are published for June 30 and December 31. Holdings by corporate pension trust funds are published quarterly and first appeared in the March 1954 Bulletin for quarters beginning December 31, 1949.

1/ Includes certain obligations not subject to statutory debt limitation. For amount subject to limitation, see page 1.

2/ Excludes trust departments.

3/ Includes trust companies and, beginning with figures for July 1949, also includes stock savings banks. Previously, those banks were reported as a separate classification.

4/ Includes those banks and insurance companies not reporting in the Treasury Survey.

5/ Consists of corporate pension trust funds and profit sharing plans which involve retirement benefits. The data are compiled from quarterly reports by trustees of funds which account for an estimated three-fourths of United States Government securities held by all corporate pension trust funds. Since the data are not available each month, the regular monthly Survey includes holdings by these funds under "Held by all other investors." The quarterly data are presented as supplemental information in a memorandum column accompanying the Survey for each reporting date, beginning with December 31, 1953. The corresponding information from earlier reports, beginning with December 31, 1949, is summarized on page 30 of the March 1954 "Treasury Bulletin."

6/ United States savings bonds, Series E, F, and J, are shown at current redemption value. They were reported at maturity value by the banks and insurance companies included in the Treasury Survey but have been

adjusted to current redemption value for use in this statement.

7/ Holdings by reporting investors not available.

8/ Excludes guaranteed securities held by the Treasury.

9/ Federal securities fall into three broad classes with respect to the imposition of Federal income taxes on income derived from them. "Wholly tax-exempt securities are those with the income exempt from both normal tax and surtax. "Partially" tax-exempt securities are those with the income exempt from the normal tax except that in case of partially tax-exempt Treasury bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax. "Taxable" securities are those with the income subject to normal tax and surtax. Includes Federal Housing Administration debentures; see footnote 11.

10/ A small indeterminate amount of these debentures is partially tax-exempt.

11/ Includes \$90 million depository bonds held by commercial banks not included in the Treasury Survey.

12/ Includes only publicly offered issues.

13/ Central Bank for Cooperatives debentures.

14/ The proprietary interest of the United States in these banks ended in July 1951.

15/ The proprietary interest of the United States in these banks ended in June 1947.

\* Less than \$500,000.

## TREASURY SURVEY - COMMERCIAL BANK OWNERSHIP, JUNE 30, 1956

The tables which follow provide an analysis of the security holdings of commercial banks reporting in the Treasury survey of ownership of securities issued by the United States Government and by Federal agencies. The figures show the total holdings distributed according to Federal Reserve member-bank classes and nonmember banks.

This analysis of commercial bank ownership was first published in the May 1944 issue of the "Treasury Bulletin," based on the survey data for December 31, 1943. It has appeared at semiannual or quarterly intervals since that time, and is now being published for the June 30 and December 31 survey data.

1/ Includes trust companies and stock savings banks but excludes securities held in trust departments.

2/ United States savings bonds, Series F and J, are shown at current redemption values. They were reported at maturity value by the banks included in the Treasury Survey but have been adjusted to current redemption value for use in this statement.

3/ Federal securities fall into three broad classes with respect to the imposition of Federal income taxes on income derived from them. "Wholly" tax-exempt securities are those with the income exempt from both normal tax and surtax. "Partially" tax-exempt securities are those with the income exempt from the normal tax except that in the case of partially tax-exempt Treasury bonds, interest derived from \$5,000 or principal amount owned by any one holder is also exempt from the surtax. "Taxable"

securities are those with the income subject to both normal tax and surtax.

4/ Includes Federal Housing Administration debentures; see footnote 5.

5/ A small indeterminate amount of these debentures is partially tax-exempt.

6/ Total includes \$90 million depositary bonds held by commercial banks not included in Treasury Survey.

7/ Central Bank for Cooperatives debentures.

8/ The proprietary interest of the United States in these banks ended in July 1951.

9/ The proprietary interest of the United States in these banks ended in June 1947.

\* Less than \$500,000.

## MARKET QUOTATIONS ON TREASURY SECURITIES, JULY 31, 1956

Current market quotations shown here are over-the-counter closing bid quotations in the New York market for the last trading day of the month, as reported to the Treasury by the Federal Reserve Bank of New York. The securities listed include all regularly quoted

public marketable securities issued by the United States Government except Panama Canal bonds. Outstanding issues which are guaranteed by the United States Government are excluded because they are not regularly quoted in the market.

1/ Not quoted on July 31, 1956.

2/ Amount issued August 2, 1956, was \$1,601 million.

3/ Beginning April 1955, prices are closing bid quotations in the over-the-counter market. Prices for prior dates are the mean of closing bid and ask quotations, except that before October 1, 1939, they are closing prices on the New York Stock Exchange. "When issued" prices are included in history beginning October 1, 1939. Dates of highs and lows in the case of recurrence are the latest dates.

4/ Included in the average of taxable Treasury bonds due or callable

from 10 to 20 years beginning April 1, 1953, as shown under "Average Yields of Long-Term Bonds."

5/ Included in the average of taxable Treasury bonds due or callable 20 years and after, as shown under "Average Yields of Long-Term Bonds."

6/ Yields to first call. Yields are computed to call date when the price is above par and to maturity when the price is at or below par.

7/ Called May 14, 1956, for redemption September 15, 1956.

## MARKET QUOTATIONS ON TREASURY SECURITIES, JULY 31, 1956

YIELDS OF TAXABLE TREASURY SECURITIES, JULY 31, 1956  
Based on Closing Bid Quotations

*Explanation: The points represent yields to call when prices are above par, and to maturity date when prices are at par or below. The smooth curves for the various classes of points are fitted by eye. Issues for which an exchange offer has been made or which are due or callable in less than 3 months are excluded.*

Source: Beginning April 1953, Treasury bond yields are reported to the Treasury by the Federal Reserve Bank of New York, based on closing bid quotations in the over-the-counter market. Yields for prior periods were computed on the basis of mean of closing bid and ask quotations. For definition of taxable bonds, see footnotes to the "Treasury Survey of Ownership" in this issue of the "Treasury Bulletin." Moody's Investor Service is the source for the average of Aaa corporate bonds.

1/ Prior to April 1953, the single series on long-term taxable Treasury bonds included the following: April 1952 through March 1953, bonds neither due nor callable for 12 years; October 1941 through March 1952,

bonds neither due nor callable for 15 years.

2/ The long-term taxable Treasury bond average was revised beginning April 1, 1952; see footnote 1. The old average for April 1952 was 2.62 percent.

3/ Annual average is based on the single long-term series January through March (see footnote 1) and the 10-20 year series thereafter.

4/ Average covers 8-1/2 months beginning April 15, the inception date of this series.

5/ Includes the 3% bonds of February 15, 1955, first quoted on January 28, 1955.

6/ Market closed.

Source: Internal Revenue Service reports for detail of collections by type of tax; daily Treasury statement for budget receipts from internal revenue through the fiscal year 1952, and the monthly statement of receipts and expenditures of the Government for receipts thereafter (for explanation of reporting bases in these publications, see page II). Certain detail by type of tax is available only from returns filed with the Internal Revenue Service. The figures shown include collections for credit to special accounts for certain island possessions, as reported by the Internal Revenue Service. Beginning with the fiscal year 1955, they include the amounts of tax collected in Puerto Rico upon articles of merchandise of Puerto Rican manufacture coming into the United States. Figures for 1954 have been revised to the same basis. Figures for previous years include only amounts collected at ports of entry into the United States.

1/ Differences between the amounts of internal revenue reported by the Internal Revenue Service as collections for given periods and the amounts reported in Treasury statements as budget receipts for the same periods arose because of differences in the time when payments were included in the respective reports. Tax payments are included in budget receipts when they are reported as credits to the account of the Treasurer of the United States. Prior to July 1954, they were included in Internal Revenue Service collection reports after the returns to which they applied had been received in internal revenue offices. Under procedure begun in 1950 with withheld income tax and old-age insurance taxes and later extended to railroad retirement taxes and many excises, these taxes are paid currently to Treasury depositaries and the depository receipts, as evidence of such payments, are attached to quarterly returns to the Internal Revenue Service. Under this procedure, the payments are included in budget

receipts in the month in which the depository receipts are issued to the taxpayers. Revised accounting procedures effective July 1, 1954, extended the same practice to Internal Revenue Service collection reports.

2/ Monthly and fiscal year 1956 figures include old-age insurance tax on self-employment income, which is levied and collected as part of the individual income tax beginning with the taxable year 1951. Previous fiscal year figures exclude this tax, on the basis of estimates beginning 1952 (see footnote 3), and it is included under "Old-age insurance taxes."

3/ Withheld income tax and old-age insurance taxes on employers and employees are paid into the Treasury in combined amounts beginning January 1951. In Internal Revenue Service reports, current collections have not been separated as to type of tax but the breakdown shown for fiscal years beginning 1951 is based on estimates made in accordance with provisions of Sec. 109(a)(2) of the Social Security Act Amendments of 1950, for transfer of tax receipts to the Federal Old-Age and Survivors Insurance Trust Fund.

4/ Beginning with the fiscal year 1955, collections shown include undistributed depository receipts and unclassified advance payments. For excise taxes these receipts are included in the total only. Total collections include "Taxes not otherwise classified," which were included with miscellaneous excise taxes prior to the August 1956 issue of the Bulletin. (See Table 2).

5/ Repealed for years ending after June 30, 1945. Beginning 1951, included under "Miscellaneous excise taxes."

6/ Detail is reported by quarters beginning with the fiscal year 1956. r Revised.

Source: Internal Revenue Service reports for detail of collections by type of tax; monthly statement of receipts and expenditures of the Government for budget receipts from internal revenue. Certain detail by type of tax is available only on the basis of returns filed with the Internal Revenue Service. The figures shown include collections for credit to special accounts for certain island possessions, as reported by the Internal Revenue Service. Beginning with the fiscal year 1955, they include the amount of tax collected in Puerto Rico on merchandise of Puerto Rican manufacture coming into the United States. Figures for 1954 have been revised to the same basis.

- 1/ Includes old-age insurance tax on self-employment income, imposed by the Social Security Act Amendments of 1950 (Public Law 734), approved August 28, 1950. The tax is levied and collected as part of the individual income tax. For estimated fiscal year breakdown, see Table 1.  
 2/ Withheld income tax and social security employment taxes on employers and employees are paid into the Treasury in combined amounts, pursuant to the Social Security Act Amendments of 1950. For estimated fiscal year breakdown, see Table 1.  
 3/ Under revised accounting procedures effective July 1, 1954, tax payments made to banks under the depositary receipt system are included in

Internal Revenue Service reports of collections in the month in which the depositary receipts are issued instead of the month in which tax returns supported by the depositary receipts are received in internal revenue offices, as was the previous practice. The "Undistributed depositary receipts" included in the collections represent the amount of depositary receipts issued during the period less the amount received with the returns. In the case of excise taxes, it is not possible to classify the depositary receipts by type of tax until the returns are received. Accordingly, the amount of such undistributed depositary receipts is included only in the total of excise taxes. Unclassified advance payments were included with undistributed depositary receipts prior to June and the fiscal year 1955.

- 4/ Includes \$16,116,000 advance payments of estate and gift taxes not further classified.  
 5/ Includes unidentified and excess collections and profit from sale of acquired property. These collections were included with "Other excise taxes" prior to the August 1956 issue of the Bulletin. See Table 1, footnote 1.  
 • Less than \$500.

## CAPITAL MOVEMENTS

Data relating to capital movements between the United States and foreign countries have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, Executive Order 10033 of February 8, 1949, and Treasury regulations promulgated thereunder. Information covering the principal types of data and the principal countries is reported monthly, and is published regularly in the "Treasury Bulletin." Supplementary information is published at less frequent intervals. Reports by banks, bankers, securities brokers and dealers, and industrial and commercial concerns in the United States are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury. Beginning April 1954, data reported by banks in the Territories and possessions of the United States are included in the published data.

The term "foreigner" as used in these reports covers all institutions and individuals domiciled outside the United States and its Territories and possessions, the official institutions of foreign countries, wherever such institutions may be located, and international organizations. "Short-term" refers to original maturities of one year or less, and "long-term" refers to all other maturities. A detailed discussion of the reporting coverage, statistical presentation, and definitions appeared in the June 1954 issue of the "Treasury Bulletin."

pages 45-47. As a result of changes in presentation introduced in that issue, not all breakdowns previously published will be exactly comparable to those now presented.

The first three sections which follow are published monthly. They provide summaries, by periods and by countries, of data on short-term banking liabilities to and claims on foreigners and transactions in long-term securities by foreigners, and present detailed breakdowns of the latest available preliminary data.

Section IV provides supplementary data in five tables which appear at less frequent intervals. Table 1, short-term foreign liabilities and claims reported by non-financial concerns, is published quarterly in the January, April, July, and October issues of the Bulletin. Table 2, long-term foreign liabilities and claims reported by banks and bankers, and Table 3, estimated gold reserves and dollar holdings of foreign countries and international institutions, are published quarterly in the March, June, September, and December issues. Table 4, foreign credit and debit balances in brokerage accounts, appears semi-annually in the March and September issues. Table 5, short-term liabilities to foreigners in countries and areas not regularly reported separately by banking institutions, is presented annually in the April issue.
