### Reporting Bases

II

Data on receipts, expenditures, and debt which appear in the "Treasury Bulletin" are based largely on two Treasury financial reports, the "Daily Statement of the United States Treasury" and the "Monthly Statement of Receipts and Expenditures of the United States Government." Certain monetary statistics are based at least in part on the "Circulation Statement of United States Money." Where these statements are given as sources for individual tables, they are cited by name only. Their respective reporting bases are described below. For other data in the Bulletin information on sources or reporting bases is given in connection with the tables themselves.

The monthly statement of receipts and expenditures was first published for February 1954, and replaced the daily statement as the primary source of information on budget results and other receipt and expenditure data classified by type of account. At the same time, the daily statement was changed to a statement of cash deposits and withdrawals affecting the account of the Treasurer of the United States. Both publications have provided comparative figures on their respective bases from the beginning of the fiscal year 1953. The announcement of February 17, 1954, with respect to these reporting changes may be found in the April 1954 issue of the Bulletin.

The monthly statement shows all receipts and expenditures of the Government, including those made from cash accounts held outside the United States Treasury. The information is compiled from reports by the Treasurer of the United States and by all other collecting and disbursing agencies, including those agencies which maintain checking accounts in commercial banks. These reports cover transactions recorded in the accounts of the agencies during the reporting period. The net of the transactions as compiled from these reports is reconciled in the monthly statement to changes in the balance in the Treasurer's account and in cash held outside the Treasurer's account and changes in the public debt outstanding.

Receipts of taxes and customs duties are reported on a collections basis. Other receipts are reported partially on a collections basis and partially on a deposits basis. Expenditures, except interest on the public debt, are reported on the basis of checks issued or cash payments made by disbursing officers. Transactions of an interfund or intragovernmental nature are included on the same basis even though the actual issuance of checks may not be involved. Interest on the public debt is included on an accrual basis beginning with figures for June 1955 and the fiscal year 1955. Prior to that, it was included on a due and payable basis. The same reporting basis as that in the monthly statement provides the fiscal year figures for the Treasury's "Combined Statement of Receipts, Expenditures and Balances of the United States Government" and for actual receipts and expenditures in the "Budget of the United States Government."

The daily statement on the new basis was first issued for February 17, 1954. In the deposits and withdrawals as shown, no distinction is made as to the type of accounts (budget, trust, etc.). The deposits are on the basis of certificates of deposit cleared through the account of the Treasurer of the United States. Total withdrawals are on the basis of checks paid or cash disbursements made out of the Treasurer's account. Some of the withdrawal classifications shown are reported on the basis of mailed reports of checks issued and are adjusted by means of clearing accounts to the total of checks paid. Except for relatively minor amounts, noncash interfund and other intragovernmental transactions are excluded. The public debt figures in the daily statement also are on a "clearance" basis, with the exception of those issuance and retirement transactions reported on the basis of telegrams from Federal Reserve Banks. Noncash debt transactions are included, however.

The daily statement before February 17, 1954, covered not only transactions cleared through the Treasurer's account but also certain Government agency transactions which were handled through commercial bank accounts, and included noncash interfund and other intragovernmental transactions. It provided information similar to that in the present daily statement with respect to the status of the Treasurer's account, and similar to that in the present end-of-month daily statement with respect to debt issuance, retirement, and amount outstanding. Receipts and expenditures, however, were classified by type of account, and the budget results shown in the daily statement were used as the basis for reflecting the results under the President's budget program as enacted by the Congress.

Receipts were on the basis of deposits as they cleared the Treasurer's account. Expenditures cleared through the Treasurer's account were reported on the successive bases. Through 1946 they were on the basis of checks paid by the Treasurer of the United States. Beginning with 1947, expenditures made through the facilities of the Treasury Department's Division of Disbursement were on the basis of checks issued, while certain others, principally those of the Department of Defense and its predecessor organizations, were on the basis of checks paid. Transactions handled through commercial bank accounts, consisting of market transactions in public debt and guaranteed securities, were as reported by the agencies. Interest on the public debt was included on a due and payable basis beginning with November 1949 and on a checks-paid basis prior to that time.

The circulation statement reflects transactions through the Treasurer's account which affect monetary stocks of gold and silver and the amounts of coin and currency in the money supply of the country. It is issued later than the daily statement, however, and the figures are based on transactions consummated during the reporting period even though some may not have cleared the Treasurer's account during that period.

## Treasury Financing Operations

April Financing

A cash offering to borrow \$2-1/2 billion, or thereabouts, was announced by the Treasury Department on March 31, to cover its estimated requirements for the balance of the fiscal year 1960. The offering consisted of two securities, as follows:

**4-1/4% Treasury bonds of 1975-85 to be dated April 5, 1960, and to mature May 15, 1985, callable at the option of the United States on any interest date on and after May 15, 1975.** The amount of the bonds offered for public subscription was up to \$1,500 million, or thereabouts;

**4% Treasury notes of Series E-1962 to be dated April 14, 1960, and to mature May 15, 1962.** The amount of the notes offered for public subscription was \$2,000 million, or thereabouts.

In addition to the amount offered for public subscription, the Secretary of the Treasury reserved the right to allot up to \$100 million each of the bonds and notes to Government investment accounts. The announcement stated also that to the extent that the amount of the public subscriptions to the bonds, when added to the amount of the notes issued, exceeded \$2-1/2 billion in the aggregate, the excess would be used to reduce the amounts of weekly issues of 91-day Treasury bills in the weeks ahead.

At the same time it was announced that the Treasury would issue on April 15, 1960, \$2 billion, or thereabouts, of 1-year Treasury bills, the proceeds of which would be used to redeem \$2 billion of quarterly Treasury bills maturing on that date.

The subscription books for the bonds and notes were open only on April 4 and April 5. The Treasury bills were sold at auction on April 12.

Any commercial bank qualified as a depository was permitted to make payment for the new bonds allotted to itself and its customers by credit in its Treasury tax and loan account up to the amount for which it was qualified in excess of existing deposits. For the new notes payment by credit in the bank's Treasury tax and loan account was limited to 75 percent of the amount of notes allotted to itself and its customers.

Allotments on subscriptions to the bonds totaled about \$470 million, including \$100 million allotted to Government investment accounts. Subscriptions received from savings-type investors totaled \$186 million; from commercial banks for their own account, \$87 million; and from all others \$96 million. All subscriptions to the bonds were allotted in full.

Savings-type investors were permitted to defer payment for part of the bonds allotted. Not less than 40 percent must have been paid by April 14,

1960, not less than 70 percent by May 15, 1960, and payments must have been completed by June 15, 1960. All payments made subsequent to April 5, 1960, were required to be accompanied by accrued interest from that date, at the rate of \$0.12 per \$1,000 per day.

Investors classified as savings-type for the allotments were as follows:

- Pension and retirement funds, public and private
- Endowment funds
- Common trust funds under regulation F of the Board of Governors of the Federal Reserve System
- Insurance companies
- Mutual savings banks
- Fraternal benefit associations and labor unions' insurance funds
- Savings and loan associations
- Credit unions
- Other savings organizations (not including commercial banks)
- States, political subdivisions or instrumentalities thereof, and public funds

Where subscribers in this group (except States, political subdivisions or instrumentalities thereof, and public pension and retirement and other public funds) elected to pay for such bonds in installments, delivery of 5 percent of the total par amount allotted will be withheld until payment for the total amount allotted has been completed.

Subscriptions for the bonds from commercial banks for their own account were received without deposit but were restricted in each case to an amount not exceeding 4 percent of the combined amount of time certificates of deposit (but only those issued in the names of individuals, and of corporations, associations, and other organizations not operated for profit), and of savings deposits, or 10 percent of the combined capital, surplus and undivided profits of the subscribing bank, whichever was greater. Subscriptions from States, political subdivisions or instrumentalities thereof, and public pension and retirement and other public funds also were received without deposit. Subscriptions for the notes from commercial banks were restricted to an amount not exceeding 50 percent of the combined capital, surplus and undivided profits of the subscribing bank. From all others payment of 20 percent of the amount of the bonds applied for, and a payment of 2 percent of the amount of the notes applied for, not subject to withdrawal until after allotment, were required.

Allotments on subscriptions to the notes totaled \$2,211 million, including \$27 million allotted to Government investment accounts. Subscriptions in excess of \$100,000 were allotted 30 percent, those for \$100,000 or less were allotted in full, and

## Treasury Financing Operations - (Continued)

those for more than \$100,000 were allotted not less than \$100,000. Commercial banks submitted subscriptions for their own account totaling \$5,029 million. All other subscriptions totaled \$1,686 million.

Commercial banks and other lenders were requested to refrain from making unsecured loans, or loans collateralized in whole or in part by the bonds or notes subscribed for, to cover the deposits required to be paid when subscriptions were entered, and banks were required to make the usual certification to that effect.

All subscribers to the bonds and notes were required to agree not to purchase or to sell, or to make any agreements with respect to the purchase or sale or other disposition of the securities subscribed for under this offering, until after midnight, April 5.

The new bonds are dated and bear interest from April 5, 1960. Interest at the rate of 4-1/4 percent per annum is payable on a semiannual basis on November 15, 1960, and thereafter on May 15 and November 15 in each year until the principal amount becomes payable. The bonds will mature May 15, 1985, but may be redeemed at the option of the United States on and after May 15, 1975, in whole or in part, at par and accrued interest on any interest day or days, on four months' notice of redemption given by the Secretary of the Treasury. Interest on bonds called for redemption will cease from the date of redemption designated in any such notice. Bearer bonds, with interest coupons attached, and bonds registered as to principal and interest were issued in denominations of \$500, \$1,000, \$5,000, \$10,000, \$100,000, and \$1,000,000.

The new notes are dated and bear interest from April 14, 1960. Interest at the rate of 4 percent per annum is payable on a semiannual basis on November 15, 1960, and thereafter on May 15 and November 15 in each year until the principal amount becomes payable. The notes mature May 15, 1962, and will not be subject to call for redemption prior to maturity. Bearer notes, with interest coupons attached, and notes registered as to principal and interest were issued in denominations of \$1,000, \$5,000, \$10,000, \$100,000, \$1,000,000, \$100,000,000, and \$500,000,000.

Weekly Bills Refunded

Issues of regular weekly Treasury bills during March totaled \$7.5 billion, the equivalent of the 13-week and 26-week bill maturing. The five issues of 13-week bills amounted to \$5.8 billion and the five 26-week issues to \$2.0 billion. The new 13-week issues for March 3 and March 31 were for \$1.1 billion each, and the other three issues were for \$1.2 billion each. The five new 26-week issues were for \$0.4 billion each. Average rates of discount on the new bills follow:

2/ Transactions of the Foreign Economic Cooperation Trust Fund, established under Section 112 (f) of the Economic Cooperation Act of 1948 (62 Stat. 150), are consolidated with budget expenditures.

3/ Consists of transactions of trust and deposit funds, investment by Government agencies in public debt securities, and redemption or sale of obligations of Government agencies in the market; excess of receipts, or expenditures (-). For detail of content, see page 8.

4/ For checks outstanding and telegraphic reports from Federal Reserve Banks; public debt interest accrued and unpaid beginning with June and the fiscal year 1955 (previously included from November 1949 as interest checks and as浮存); also deposits in transit and changes in cash held outside the Treasury and in certain other accounts beginning with the fiscal year 1954. Net increase, or decrease (-).

5/ For current month detail and list of acts, see section on "Statutory Debt Limitation" in each issue of the Bulletin. The limitations in effect during the period covered by this table and the date when each became effective are as follows: \$278 billion, on June 1, 1946; \$281 billion, on August 28, 1954; \$278 billion, on July 1, 1956; \$275 billion, on July 1, 1957; \$280 billion, on February 26, 1958; \$288 billion, on September 2, 1958; and \$290 billion, on June 30, 1959. From July 1, 1959, to June 30, 1960, the limit is \$295 billion. Thereafter it will revert to \$285 billion.

Sources: Actual figures for 1952 are from the daily Treasury statement and thereafter from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases see page II); estimates are from the 1961 Budget document, released January 18, 1960, and supporting data, including effects of proposed legislation.

1/ For further detail, see tables under "Internal Revenue Collections." 2/ Breakdown was not made in the daily Treasury statement and the monthly statement for years prior to 1954.

3/ Beginning January 1951, the distribution of receipts between individual income taxes and old-age and disability insurance taxes is made in accordance with provisions of Sec. 201 of the Social Security Act, as amended (42 U.S.C. 401), for transfer to the Federal Old-Age and Survivors Insurance Trust Fund (see footnote 11), and after December 1956 also for transfer to the Federal Disability Insurance Trust Fund (see footnote 12).

4/ Taxes on employers and employees under the Federal Insurance Contributions Act, as amended (26 U.S.C. 3101-3125), and, beginning with the taxable year 1951, tax on self-employed individuals under the Self-Employment Contributions Act, as amended (26 U.S.C. 1401-1403). The Social Security Act Amendments of 1956, approved August 1, 1956, increased the rates of tax applicable to wages paid and taxable years beginning after December 31, 1956, to provide for disability insurance (see footnote 12).

5/ Taxes on carriers and their employees under the Railroad Retirement Tax Act, as amended (26 U.S.C. 3201-3233).

6/ Tax on employers of 4 or more under the Federal Unemployment Tax Act, as amended (26 U.S.C. 3301-3308); with respect to services performed before January 1, 1956, the tax was imposed on employers of 8 or more. Remaining footnotes on following page.

## BUDGET RECEIPTS AND EXPENDITURES

## Footnotes to Table 1 - (Continued)

- 2/ Through 1953, contributions to the Railroad Unemployment Insurance Administration Fund were carried in the daily Treasury statement as miscellaneous receipts, while the 1961 Budget document, Special Analysis G, includes them in employment taxes in 1952. Beginning 1954, the contributions are credited direct to the trust account. For amounts of the contributions included in budget receipts, see "Treasury Bulletin" for February 1954, page 7.
- 8/ In the 1961 Budget document, Special Analysis G, taxes not otherwise classified are included in miscellaneous receipts.
- 9/ Beginning 1957, includes collections under increased rates in the Highway Revenue Act of 1956 (see footnote 14).
- 10/ Figures shown include (see footnote 11) decreases in income tax of \$9 million withheld and \$4 million not withheld and increases in transfers of \$90 million to Federal Old-Age and Survivors Insurance Trust Fund and \$11 million to Federal Disability Insurance Trust Fund.
- 11/ Amounts appropriated to the Federal Old-Age and Survivors Insurance Trust Fund are equivalent to the amounts of taxes collected and deposited for old-age insurance (42 U.S.C. 401 (a)). Beginning January 1951, the amounts transferred currently for appropriation to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury pursuant to the provisions of Sec. 201 (e) of the Social Security Act, as amended (42 U.S.C. 401 (a)), and are adjusted in later transfers on the basis of wage and self-employment income records maintained in the Social Security Administration. The amount of old-age insurance tax refunds is reimbursed to the general fund by the trust fund. The Federal Disability Insurance Trust Fund was established by the Social Security Act Amendments of 1956, approved August 1, 1956 (42 U.S.C. 401 (b)). The net appropriated to the trust fund amounts equivalent to specified percentages of the wages and self-employment income, respectively, which are taxed for old-age insurance, and provided that the amounts appropriated should be transferred from time to time to the trust fund on the same basis as transfers to the Federal Old-Age and Survivors Insurance Trust Fund. Rates of tax were increased by the percentages appropriated to the Federal Disability Insurance Trust Fund, the increase being applicable to wages paid and taxable years beginning after December 31, 1956.
- 12/ Excludes the Government's contribution for creditable military service (45 U.S.C. 2282-1 (n)). Beginning 1952, amounts are appropriated to the Railroad Retirement Account equal to the amount of taxes under the Railroad Retirement Tax Act deposited in the Treasury, less refunds, during each fiscal year (65 Stat. 222 and 66 Stat. 371), and transfers are made currently.
- 14/ The Highway Revenue Act of 1956, approved June 29, 1956 (23 U.S.C. 173) established a Highway Trust Fund from which are to be made, as provided by appropriation acts, Federal-aid highway expenditures after June 30, 1956, and before July 1, 1972. The act appropriated to this fund amounts equivalent to specified percentages of receipts from certain excise taxes on motor fuels, motor vehicles, tires and tubes, and use of certain vehicles, and provided that the amounts appropriated should be transferred currently to the trust fund on the basis of estimates by the Secretary of the Treasury with proper adjustments to be made in subsequent transfers. The use tax was imposed by the act, and rates were increased for the other taxes. Previous to the fiscal year 1957 corresponding excise tax receipts were included in net budget receipts, and Federal-aid highway expenditures were included in budget expenditures.
- 15/ Interest on refunds is included in expenditures in Table 2.
- 16/ Transfers reduced by \$300 million to correct those made earlier on basis of estimates (see footnote 11).
- 17/ Net of reimbursement of \$89 million from the Federal Old-Age and Survivors Insurance and Federal Disability Insurance trust funds.
- \* Less than \$500,000.

## Footnotes to Table 2 - (Continued)

- Footnotes 1 through 3 follow Table 2 on page 4.
- 4/ The 1959 figures in the Bulletin differ from those in the 1961 Budget document because of a reclassification in the latter by which military assistance under the Mutual Security program in the amount of \$2,340 million is shifted from "Funds appropriated to the President" to "Defense Department, military functions," and \$8 million is shifted from "State Department" to "Funds appropriated to the President." Monthly figures in the bulletin are on the same classification basis as 1959 fiscal year figures.
- 5/ Totals include allowance for contingencies of \$75 million for 1960 and \$200 million for 1961.
- 6/ Includes unclassified expenditure transfers until these have been distributed in final fiscal year figures.

- 7/ Beginning 1955, consists of net expenditures of the Postal Fund, reflecting the change in classification of Post Office transactions to a public enterprise revolving fund basis.
- 8/ Reported on an accrual basis effective June 30, 1955.
- 9/ Consists of Federal payment and loans and advances.
- 10/ Includes \$1,375 million additional subscription to the International Monetary Fund in June 1959 pursuant to Public Law 86-48, approved June 17, 1959. Of the total, \$34 million were paid in gold (see "Monetary Statistics," Table 3) and the remaining \$1,031 million were paid in special notes of the United States (see "Debt Outstanding," Table 1).
- \* Less than \$500,000.

Source: Actual figures are from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates are from the 1961 Budget document, released June 18, 1960, including effects of proposed legislation.

Note: Figures in this table are for functions as constituted at the time the expenditures were made, and therefore do not necessarily represent functions which are comparable over a period of time. For expenditures by functions on a consistent basis, see Table 4. Agency shifts are reflected in this table as follows: Beginning 1955, Federal Home Loan Bank Board from "Housing and Home Finance Agency" to "Independent offices," and Reconstruction Finance Corporation as indicated in footnote 1; beginning 1957, Alaska Road Construction from "Interior Department" to "Commerce Department," and Federal Intermediate credit banks and production credit corporations as indicated in footnote 3; beginning 1958, Federal Facilities Corporation (remaining functions) from "Treasury Department" to "General Services Administration," and Informational Media Guaranty Fund from "Fund appropriated to the President" to "Independent offices"; beginning 1959, Federal Civil Defense Administration from "Independent offices" to "Executive Office of the President"; and the former Civil Aeronautics Administration and the Civil Aeronautics Board from "Commerce Department" to "Independent offices."

1/ Reconstruction Finance Corporation is included under "Independent offices."

through 1954, and under "Treasury Department" beginning 1955, except functions transferred to Export-Import Bank, Federal National Mortgage Association, General Services Administration, and Small Business Administration. The corporation was abolished at the close of June 30, 1957, by Reorganization Plan No. 1 of 1957, and its remaining functions were transferred to the Housing and Home Finance Administrator, Administrator of General Services, Administrator of Small Business Administration, and Secretary of the Treasury.

2/ Beginning 1957, Federal aid for highways is excluded from budget expenditures and included in trust account expenditures (see Table 1).

3/ Effective January 1, 1957, the production credit corporations were merged in the Federal intermediate credit banks, pursuant to the Farm Credit Act of 1956, approved July 26, 1956 (12 U.S.C. 1027), and operations of the merged agencies (as mixed-ownership corporations) were classified as trust enterprise funds (see "Trust Account and Other Transactions," Table 3); previously the operations of the banks and the corporations, respectively, were classified as public enterprise funds and were included net in budget expenditures.

Source: Expenditures for 1960 are from reports to the Treasury Department by disbursing officers, on the monthly statement reporting basis (see page II). They are classified in accordance with the classification used in the 1961 Budget document, Special Analysis G, as nearly as can be done on an individual appropriation and fund item basis. Prior year figures are from the same source but have been adjusted below the appropriation level in some instances by the Bureau of the Budget for use in the Special Analysis. Where current classifications differ on this account, they are footnoted. Revolving fund transactions are included net in the expenditures.

1/ For description of items included, see Table 3. Although not expended, a substantial portion of these amounts is obligated for outstanding purchase orders and contracts for equipment and supplies, for payrolls and for similar items.

2/ See footnote 7.

3/ Expenditures for 1960 include those made from "Readjustment Benefits, Veterans' Administration," applicable to functional code 102.

4/ See Footnotes 3 and 14.

5/ See footnote 6.

6/ Expenditures for 1960 include those for promotion of education in science made from "Salaries and Expense, National Science Foundation," applicable to functional code 214.

7/ Expenditures for 1960 include those for emergency family relief to friendly people, applicable to functional code 152; for special milk program - restoration of capital impairment, applicable

to functional code 217; for loans to Secretary of Agriculture for conservation purposes and conservation resource programs applicable to functional code 354; and for animal disease eradication activities, and grading and classing activities, applicable to functional code 355. These expenditures were made from "Commodity Credit Corporation Capital Fund" and "National Wool Act, Commodity Stabilization Service."

8/ Expenditures for 1960 include those for farm housing made from "Loans, Farmers' Home Administration," applicable to functional code 517.

9/ For shift of Federal intermediate credit banks from budget to trust account classification effective January 1957, see Table 2, footnote 3.

10/ Excludes Federal-aid highway expenditures, which are made from the Highway Trust Fund beginning with 1957 (see Table 1, footnote 14); corresponding expenditures for previous years are included in Budget expenditures.

11/ See footnote 8.

12/ Expenditures for 1960 include those for disaster loans and relief made from "Revolving Fund, Small Business Administration," applicable to functional code 521.

13/ See footnote 12.

14/ Expenditures for 1960 include those for unemployment compensation for Federal employees and ex-servicemen applicable to functional code 102.

\* Less than \$500,000.

Sources: Actual figures for 1952 are from the daily Treasury statement and thereafter from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates are from the 1961 Budget document released January 18, 1960, including effects of proposed legislation.

1/ Under a revised classification in the monthly statement, effective July 1, 1955, the security transactions of Government-sponsored

enterprises are included in deposit fund account expenditures (net) and excluded from net investment by Government agencies in public debt securities (see Table 4) and from net redemption or sale of obligations of Government agencies in the market (see Table 5). Figures previously published for the fiscal year 1955 have been revised to the new classification basis.

2/ Includes guaranteed securities beginning 1955 (see Table 4).

Source: See Table 1.

1/ Includes security transactions of Government-sponsored enterprises beginning 1955 (see Table 1, footnote 1).

2/ Does not include amounts involving fund receipts representing acquired securities amounting to \$1,643,070 (present value); see also Table 4.

2/ Operated as a trust enterprise fund beginning January 1, 1957, at which time the production credit corporations were merged in the Federal intermediate credit banks, pursuant to the Farm Credit Act of 1956 (12 U.S.C. 1027); previously the banks and corporations, respectively, were classified as public enterprise funds, and were included net in budget expenditures. Beginning January 1959 they are classified as Government-sponsored enterprises, and the net transactions of the operating fund were then transferred from the trust fund and included under "Deposit fund accounts."

4/ Secondary market operations, as provided in the Housing Act of 1954,

approved August 2, 1954 (12 U.S.C. 1719). Funds provided by the Treasury (-), or repaid to the Treasury, are shown in a separate column (and correspondingly are reflected, net in budget expenditures).

5/ Includes District of Columbia, Alaska, and Hawaii, Indian tribal funds; expenditures chargeable against increment on gold; and trust enterprise funds (net) which are not shown separately. The Railroad Unemployment Insurance Administration Fund is included for the period 1954 through November 1958 (see Table 7), and the Employees' Life Insurance Fund (net) from its establishment in August 1954.

6/ Excluded from deposit fund account expenditures and included with similar security transactions of other agencies (see Tables 4 and 5).

\* Less than \$500,000.

CASH INCOME AND OUTGO

The cash income and outgo data appearing in the "Treasury Bulletin," beginning with the February 1956 issue, are on a basis consistent with receipts from and payments to the public as derived in the 1957 and subsequent Budgets of the United States, Special Analysis A. Reconciliation to cash deposits and withdrawals in the account of the Treasurer of the United States is shown on the same basis as in the Budget documents. There is also shown the amount of net cash borrowing from, or repayment of borrowing to, the public. By these arrangements, data in accordance with the Budget classifications are made available month by month. Figures for back years have been revised where necessary in order to make them as nearly comparable with the Budget classifications as available data will permit. For this reason certain of the figures differ somewhat from those published in earlier Budget documents as well as in the Bulletin.

The Budget series of cash transactions is designed to provide information on the flow of money between the public and the Federal Government as a whole, and therefore includes transactions not cleared through the Treasurer's account. Receipts and payments include transactions both in budget accounts and in trust and deposit fund accounts. Operations of Government-sponsored enterprises are included in payments on a net basis as reflected in Treasury reports. Major intragovernmental transactions which are reported as both expenditures and receipts are eliminated from both. Noncash items which represent accrued obligations of the Government to make payments in the future are also eliminated from expenditures but are added later when actual payments are made. Receipts from the exercise of monetary authority (mostly seigniorage on silver) are excluded as not

representing cash received from the public. Federal cash borrowing from the public includes net borrowing by the Treasury through public debt transactions and also net borrowing by Government agencies and Government-sponsored enterprises through sales of their own securities. It excludes changes in the public debt which do not represent direct cash borrowing from the public. The net effect of all these transactions with the public is reflected in changes in the balance in the Treasurer's account and in cash held outside the Treasury.

Cash transactions through the Treasurer's account are similar in general concept to those included in the Budget series, but are limited in coverage to transactions which affect the balance in that account. On the other hand, they include receipts from the exercise of monetary authority, which are excluded from receipts from the public in the Budget series.

Beginning with figures for the fiscal year 1953, the series of transactions with the public is based on the "Monthly Statement of Receipts and Expenditures of the United States Government," which is compiled from reports by all collecting and disbursing officers and includes those transactions not cleared through the Treasurer's account. Cash deposits and withdrawals in the Treasurer's account, beginning with the figures for the same year, are reported in daily Treasury statements. For those years prior to 1953 both cash transactions series are based on a single source, namely, the earlier basis of daily Treasury statements which reported separate classifications for budget results, trust account transactions, etc.

## CASH INCOME AND OUTGO

## Footnotes to Table 4

<sup>1/</sup> Net operating expenditures, or receipts (-), as measured by funds provided by or applied to net security transactions reflected in Treasury reports (see Table 7). To a large extent, these Government-sponsored enterprises secure funds for their operations by direct borrowing from the public or by cashing Federal securities which they hold, and they apply the net income received from operations to repayment of borrowing from the public or to investment in Federal securities. On that basis, net expenditures for operations are shown in this table in terms of the combined net of disinvestment in Federal securities and sale of agency obligations in the market,

and net receipts from operations are shown in terms of the combined net of investment in Federal securities and redemption of agency obligations in the market.

<sup>2/</sup> Not reported prior to 1954.

<sup>3/</sup> See Table 7, Footnote 1.

<sup>4/</sup> Does not include revolving fund receipts representing acquired securities amounting to \$1,643,070 (par value).

## Footnotes to Table 5

<sup>1/</sup> Federal intermediate credit bank franchise tax through December 1956, beginning 1953; also reimbursement by Panama Canal Company for expenses and services.

<sup>2/</sup> Includes reimbursement by Federal Old-Age and Survivors Insurance Trust Fund and Federal Disability Insurance Trust Fund for Administrative expenses, and also for refunds of taxes (treated as an offset to refunds rather than being credited to receipts) beginning with 1953 for the former and 1959 for the latter; reimbursement by Highway Trust Fund for refunds of taxes; reimbursement by the District of Columbia; payment of dividends, interest, etc., by Federal National Mortgage Association's secondary market operations; and Federal intermediate credit bank franchise tax and repayment of capital stock to the Treasury after December 1956 and before January 1959.

<sup>3/</sup> Consists of payment of earnings and repayment of capital stock to the Treasury for 1952; and payment of franchise tax by banks for cooperatives beginning 1955, and by Federal intermediate credit banks beginning January 1959.

<sup>4/</sup> Includes relatively small amounts of deductions from salaries paid by trust funds and Government-sponsored enterprises. Beginning with fiscal year 1958 excludes deductions from salaries of District of

Columbia employees (see footnote 6), and beginning with fiscal year 1959 excludes voluntary contributions.

<sup>5/</sup> Consists of payments to employees' retirement funds representing United States and Government corporation share of contributions; payments to the Railroad Retirement Account (for creditable military service), the Unemployment Trust Fund, veterans' life insurance funds, and other assistance under the agricultural conservation program, and District of Columbia; and awards of Indian Claims Commission.

<sup>6/</sup> Includes payment by District of Columbia to the Civil Service retirement fund for its share of contributions, and beginning with 1958 also deductions from its payroll; payments between Railroad Retirement Account and Federal Old-Age and Survivors Insurance Trust Fund; transfers from Civil Service retirement fund to Foreign Service retirement fund from 1955 through 1957; and transfers from Railroad Unemployment Insurance Administration Fund to Unemployment Trust Fund through 1955.

\* Less than \$500,000.

## Footnotes to Table 6

<sup>1/</sup> Accrued discount on savings bonds and bills less interest paid on savings bonds and bills redeemed.

<sup>2/</sup> Public debt interest due and accrued beginning June 30, 1955, effective date of the change in accounting and reporting from a due and payable basis to an accrual basis; for 1954, consists only of public debt interest checks and coupons outstanding; net increase, or decrease (-). Not reported as a separate clearing account prior to 1954.

<sup>3/</sup> Treated as noncash expenditure at the time of issuance of the securities and as cash expenditures at the time of their redemption; net issuance, or redemption (-).

<sup>4/</sup> Issued in 1936 in exchange for adjusted service certificates held by veterans of World War I. The bonds matured in 1945.

<sup>5/</sup> Issued in 1947 in payment for accumulated leave. The last of these bonds matured in 1951.

<sup>6/</sup> Part of the United States subscription to the capital of the International Monetary Fund was paid in the form of noninterest-bearing nonnegotiable notes payable on demand (see 1947 Annual Report of the Secretary of the Treasury, pages 48, 350, and 385).

<sup>7/</sup> Checks outstanding less deposits in transit, and changes in other accounts; net increase, or decrease (-). Prior to 1954 include also public debt interest due and unpaid (see footnote 2).

<sup>8/</sup> Includes \$1,031 million notes issued as part of the additional United States subscription authorized by Public Law 86-48, approved June 17, 1959. \* Less than \$500,000.

## Footnotes to Table 7

<sup>1/</sup> In this table, beginning 1954, in accordance with treatment in Budget documents, net investment in United States securities by Government-sponsored enterprises includes a small amount by other enterprises regarded as representing net transactions with the public. In Table 4 under "Trust Account and Other Transactions," these amounts are included in trust and deposit fund account investment.

<sup>2/</sup> Does not include investments representing acquired securities amounting to \$1,643,070 (par value) and donation of securities amounting to \$45,800 (par value).

<sup>3/</sup> Accrued discount on savings bonds and bills, which is included in the principal of the public debt, less interest paid on savings bonds and bills redeemed.

<sup>4/</sup> Treated as noncash transactions at the time of issuance and as cash transactions at the time of redemption; net issuance, or redemption (-).

<sup>5/</sup> Excluded from borrowing because the transactions are treated as expenditures in Table 6.

<sup>6/</sup> Excluded from borrowing because the transactions are treated as deductions from receipts in Table 3.

<sup>7/</sup> Market transactions in public debt securities and agency obligations.

\* Less than \$500,000.

## ACCOUNT OF THE TREASURER OF THE UNITED STATES

## Source and Availability of the Balance in the Treasurer's Account

The account of the Treasurer of the United States reflects not only budget receipts and expenditures but also trust, deposit fund, and public debt transactions.

The working cash of the Treasury is held mainly in Treasurer's accounts with Federal Reserve Banks and branches. As the balances in these accounts become depleted, they are restored by calling in (transferring) funds from the tax and loan accounts with thousands of commercial banks throughout the country.

Deposits to tax and loan accounts occur in the normal course of business under a uniform procedure applicable to all banks whereby customers of banks deposit with them tax payments and funds for the purchase of Government securities. In most cases the transaction involves merely the transfer of money from a customer's

account to the tax and loan account in the same bank. On occasions, to the extent authorized by the Treasury, banks are permitted to deposit in these accounts proceeds from subscriptions to public debt securities entered for their own account as well as for the account of their customers.

The tax and loan account system permits the Treasury to leave funds in banks and in the communities in which they arise until such time as the Treasury needs the funds for its operations. In this way the Treasury is able to neutralize the effect of its fluctuating operations on bank reserves and the economy.

A detailed description of the Treasury's depositary system may be found in the Annual Report of the Secretary of the Treasury for 1955, pages 275-284.

1/ Consists of Treasurer's checks outstanding, reserve and other deposits of Board of Trustees of the Postal Savings System, uncollected items, exchanges, etc., beginning December 1954; prior to that time included also Post Office Department and Postmasters' disbursement accounts (see footnote 2).

2/ Beginning December 1954, Post Office Department and Postmasters'

disbursement accounts are no longer treated as liability accounts of the Treasurer of the United States, but are classified and treated in the same manner as other disbursement accounts in accordance with the change in method of reporting Post Offices transactions (see "Budget Receipts and Expenditures," Table 2). An adjustment of - \$207 million in the balance in the Treasurer's account (and in the "clearing account") reflects this change.

1/ Special depositaries are permitted to make payment in the form of a deposit credit for the purchase price of United States Government obligations purchased by them for their own account, or for the account of their customers who enter subscriptions through them, when this method of payment is permitted under the terms of the circulars inviting subscriptions to the issues.

2/ Taxes eligible for credit consist of those deposited by taxpayers in the depository banks, as follows: Withheld income tax beginning

March 1948; taxes on employers and employees under the Federal Insurance Contributions Act beginning January 1950, and under the Railroad Retirement Tax Act beginning July 1951; and a number of excise taxes beginning July 1953.

3/ Under a special procedure begun in March 1951, authorization may be given for income tax payments, or a portion of them, made by checks of \$10,000 or more drawn on a special depository bank to be credited to the tax and loan account in that bank. This procedure is followed during some of the quarterly periods of heavy tax payments.

Notes: The computed annual interest charge represents the amount of interest that would be paid if each interest-bearing issue outstanding at the end of each month or year should remain outstanding for a year at the applicable annual rate of interest. The charge is computed for each issue by applying the appropriate annual interest rate to the amount outstanding on that date. The aggregate charge for all interest-bearing issues constitutes the total computed annual interest charge. The average annual interest rate is computed by dividing the computed annual interest charge for the total, or for any group of issues, by the corresponding

principal amount. Beginning with data for December 31, 1958, the computation is based on the rate of effective yield for issues sold at premium or discount. Prior to that date it was based on the coupon rate for all issues.

1/ Excludes guaranteed securities held by the Treasury.

2/ Total includes "Other bonds"; see Table 3.

3/ Includes in debt outstanding at face amount, but discount value is used in computing annual interest charge and annual interest rate.

4/ On United States savings bonds the rate to maturity is applied against the amount outstanding.

Note: The securities shown in this table were issued to the Treasury to finance government corporations and other agencies with the Treasury itself raising the necessary funds through public debt operations. To avoid duplication, these securities are not included in the guaranteed debt outstanding as shown in preceding tables. The issuance of these securities is provided for by law, as "authority to expend from public debt receipts." Further detail may be found in the 1959 Annual Report of the Secretary of the Treasury, page 666, and the 1959 Combined Statement of Receipts, Expenditures and Balances of the United States Government, page 51A.

## STATUTORY DEBT LIMITATION

The Second Liberty Bond Act (31 U.S.C. 757 b), as amended by an act approved June 30, 1959, provides that the face amount of obligations issued under authority of that act, and the face amount of obligations guaranteed as to principal and interest by the United States (except guaranteed obligations held by the Secretary of the Treasury), shall not exceed in the aggregate \$285 billion outstanding at any one time. The corresponding limitation in effect under the act of June 26, 1946, was \$275 billion and that under the act of September 2, 1958, was \$283 billion. In addition, temporary increases have been

authorized as follows: \$6 billion beginning on August 28, 1954, and ending on June 30, 1956 (acts approved August 28, 1954, and June 30, 1955); \$3 billion beginning on July 1, 1956, and ending on June 30, 1957 (act approved July 9, 1956); \$5 billion beginning on February 26, 1958, and ending on June 30, 1959 (act approved February 26, 1958); and \$10 billion beginning on July 1, 1959, and ending on June 30, 1960 (act approved June 30, 1959). Obligations issued on a discount basis, and subject to redemption prior to maturity at the option of the owner, are included in the statutory debt limitation at current redemption values.

1/ Issued at par except as noted. For bill issues sold at auction, the rate shown is the equivalent average rate (bank discount basis) on accepted bids. For details of bill offerings, see Table 2. In reopenings, the amount issued is in addition to the amount in original offering.

2/ From date of additional issue in case of a reopening.  
3/ Subscriptions shown are from the public, but amounts issued include allotments to Government investment accounts.

4/ For maturing securities exchanged for the new issues, see Table 6.

5/ Exchange offering available to owners of nonmarketable 2-3/4% Treasury Bonds, Investment Series B-1975-80, dated April 1, 1951. For further information on the original offering see "Treasury Bulletin" for April 1951, page A-1. Amounts shown are as of March 31, 1960.

6/ The bond offering was made available for exchange of Series F and G savings bonds maturing from May 1 through December 31, 1953.

7/ Total allotments on cash subscriptions were limited to approximately \$1,000 million. Nonbank subscriptions in amounts up to and including \$5,000 were allotted in full. All other subscriptions were allotted 20 percent. Commercial banks' subscriptions were restricted to an amount not exceeding 5 percent of their time deposits as of December 31, 1952. The Treasury also reserved the right to allot limited amounts of these bonds to Government investment accounts, which subscribed to a total amount of \$118 million. Payment for the bonds allotted could be made with accrued interest at any time not later than July 31, 1953.

8/ Tax anticipation bill, acceptable at face value in payment of income and profits taxes due on the quarterly payment date immediately preceding maturity.

9/ Tax anticipation certificates, acceptable at par plus accrued interest to maturity in payment of income and profits taxes due on the quarterly payment date immediately preceding maturity.

10/ Subscriptions for amounts up to and including \$100,000 were allotted in full. Subscriptions for amounts over \$100,000 were allotted 67 percent but in no case less than \$100,000.

11/ Subscriptions for amounts up to and including \$10,000 were allotted

in full. Subscriptions from mutual savings banks, insurance companies, pension and retirement funds, and State and local governments were allotted 24 percent. All others, including commercial banks, were allotted 16 percent but not less than \$10,000 on any one subscription.

12/ Subscriptions for amounts up to and including \$10,000 were allotted in full. All other subscriptions were allotted 22 percent but in no case less than \$10,000.

13/ Subscriptions for amounts up to and including \$50,000 were allotted in full. Subscriptions for amounts over \$50,000 were allotted 40 percent but in no case less than \$50,000.

14/ Subscriptions for amounts up to and including \$50,000 were allotted in full. Subscriptions for amounts over \$50,000 were allotted 50 percent but in no case less than \$50,000.

15/ Cash subscriptions for \$100,000 or less were allotted in full. Subscriptions for more than \$100,000 were allotted 62 percent but in no case less than \$100,000.

16/ Subscriptions for \$100,000 or less were allotted in full. Subscriptions for more than \$100,000 were allotted 19 percent but in no case less than \$100,000.

17/ Subscriptions from savings-type investors totaled \$749 million and were allotted 65 percent. Subscriptions from all other investors totaled \$970 million and were allotted 30 percent. Subscriptions for more than \$25,000 or less were allotted in full. Subscriptions for more than \$25,000 were allotted not less than \$25,000. In addition to the amount allotted to the public, \$2 million of the bonds were allotted to Government investment accounts. Savings-type investors were given the option of deferring payment for the bonds provided that not less than 70 percent of the bonds allotted were paid for by July 20, 1955, not less than 60 percent by September 1, 1955, and full payment by October 3, 1955.

18/ Subscriptions for \$100,000 or less were allotted in full. Subscriptions for more than \$100,000 were allotted 32 percent but in no case less than \$100,000.

19/ Subscriptions for \$100,000 or less were allotted in full. Subscriptions for more than \$100,000 were allotted 29 percent but in no case less than \$100,000.

20/ Issued as a roll-over of bills maturing January 16, 1957, and February 15, 1957, respectively.

Source: Bureau of the Public Debt. Preliminary figures are from subscription and allotment reports; final figures are on "clearance" basis in daily Treasury statement.								
1/ Original call and maturity dates are used.								
2/ All by investors other than Federal Reserve Banks.								
3/ Tax anticipation issue; for detail of offerings beginning 1953, see Table 4; for amounts redeemed for taxes and for cash, see tabular note below.								
4/ On November 9, 1953, the Treasury purchased from the Federal Reserve System and retired \$500 million of the 2-1/8% Treasury notes maturing December 1, 1953. For further detail see "Treasury Bulletin" for November 1953, page A-1.								
5/ Reopening of February 2, 1953, offering (see Table 4).								
6/ It had been announced that holders of these bonds would be given an opportunity to exchange them for another Treasury issue after February 15, 1954. This exchange offer was included in the refundings of May 17, 1954.								
7/ Reopening of August 3, 1954, offering (see Table 4).								
8/ Also designated tax anticipation certificates, acceptable at par plus accrued interest to maturity in payment of income and profits taxes due June 15, 1956.								
9/ Reopening of March 3, 1956, offering (see Table 4).								
10/ Reopening of November 28, 1956, offering (see Table 4).								
11/ During June 1956, \$159 million of 2% Treasury notes maturing August 15, 1956, were purchased by the Treasury for account of the Sinking Fund and retired.								
12/ Also designated tax anticipation certificates, acceptable at par plus accrued interest to maturity in payment of income and profits taxes due June 15, 1957.								
13/ Two issues of bills, maturing January 16, 1957, and February, 1957, respectively, were rolled over into two issues of tax anticipation bills, both maturing June 24, 1957.								
14/ During June and July 1958, \$491 million of the 2-5/8% Treasury bonds of 1965 were purchased by the Treasury for retirement under Section 19 of the Second Liberty Bond Act, as amended (31 U.S.C. 754a).								
15/ Called on May 14, 1958, for redemption September 15, 1958.								
16/ Represents amount which owners exercised the option to redeem on August 1, 1959 (see Table 4, footnote 22).								
17/ Holders of the 4% notes, who had the option to redeem at par on February 15, 1960, by giving notice not later than November 16, 1959, were permitted to exchange their holdings on November 15, 1959, for the 4-7/8% notes.								
18/ Partially rolled over into a new bill issue dated January 15, 1960; see Table 4.

Note: In these tables Series A-F and J sales are included at issue price and redemptions and amounts outstanding at current redemption values. Series G, H, K are included at face value throughout. Matured bonds which have been redeemed are included in redemptions. Matured F and G bonds outstanding are included in the interest-bearing debt until all bonds of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

1/ Sales and redemption figures include exchanges of minor amounts of (1) matured series E bonds for series G and K bonds from May 1951 through April 1957 and (2) series F and J bonds for series H bonds beginning January 1960; however, they exclude exchanges of series E bonds for series I bonds, which are reported in Table 3.

2/ Details by series on a cumulative basis and by periods for Series A-D combined will be found in the February 1952 and previous issues of the "Treasury Bulletin."

2/ Includes both matured and unmatured bonds; see Table 4.

2/ Includes total value of redemptions not yet classified between sales price and accrued discount.

2/ A change in procedure, beginning in June 1954, for processing redeemed savings bonds has resulted in a high level of redemptions not yet classified by yearly series of issue. This increase temporarily

obscures the relationship between the redemption columns showing sales price and accrued discount in Tables 2 and 3 and also the relationship between the matured and unmatured sections of Table 4. (See also footnote 4.) The subsequent distribution of this high level of unclassified redemptions may be large enough in any month to show redemptions of matured and unmatured bonds in Table 4 which are greater than the total redemptions for that month.

6/ Reductions were made in issues and redemptions of Series E, H, F, G, J, and K in July 1954 to compensate for the erroneous inclusion of release transactions in June 1954 as reported in the daily Treasury statement. The amounts involved were as follows: \$18 million for issues of Series E and H, \$17 million for issues of Series F, G, J, and K, and \$35 million for issues of unclassified retirements.

2/ Series F and G sales were discontinued April 30, 1952, and Series J and K sales were discontinued April 30, 1957. Sales figures after April 30, 1957, represent adjustments.

2/ Includes the December 1959 exchanges of series 1948 F and G bonds for 4-3/4% marketable notes of which \$692 million were reported in December 1959, \$51 million in January 1960, and \$3 million in February 1960.

2/ Represents changes in the amounts of redemptions not yet classified as between matured and unmatured issues.

10/ Includes exchanges of Series 1941 F and G savings bonds for Treasury 3-1/4% bonds of 1978-83. \* Less than \$500,000.

Sources: Daily Treasury statement for total amounts outstanding; reports from agencies and trust funds for securities held by U. S. Government investment accounts; and reports from Federal Reserve System for securities held by Federal Reserve Banks.

1/ Includes certain obligations not subject to statutory limitation.

For amounts subject to limitation, see page 1.

2/ Includes accounts under the control of certain U. S. Government agencies whose investments are handled outside the Treasury.

3/ The total amount of interest-bearing securities held by private investors is calculated by deducting from the total amount outstanding the amount held by U. S. Government investment accounts and Federal Reserve Banks.

4/ Excludes guaranteed securities held by the Treasury.

5/ All public marketable issues.

6/ All public marketable issues except for 1952, which includes \$1 million of Commodity Credit Corporation demand obligations.

\* Less than \$500,000.

1/ Consists of purchases or sales made by the Treasury of securities issued or guaranteed by the U. S. Government for (1) trust funds which by law are under the control of the Secretary of the Treasury or of the Treasurer of the United States, and (2) accounts under the control of certain U. S. Government agencies whose investments are handled through the facilities of the Treasury Department. It will be noted that these

transactions differ from those reflected in Table 1 because they exclude these Government investment accounts for which investments are not handled by the Treasury. Table 2 also includes purchases under Section 19 of the Second Liberty Bond Act, as amended (31 U.S.C. 751a), and excludes the Exchange Stabilization Fund.

Sources: Debt Analysis Staff in the Office of the Secretary.

1/ United States Savings bonds, Series A-F and J, are included at current redemption value.

2/ Securities issued or guaranteed by the U. S. Government, excluding guaranteed securities held by the Treasury. For amounts subject to statutory debt limitation, see page 1.

3/ Consists of commercial banks, trust companies, and stock savings banks in the United States and in Territories and island possessions. Figures exclude securities held in trust departments.

4/ Holdings of Federal land banks are included under "Miscellaneous investors" instead of "U. S. Government investments accounts" after June 26, 1947, when the proprietary interest of the United States in these banks ended.

5/ Includes partnerships and personal trust accounts. Nonprofit

institutions and corporate pension trust funds are included under "Miscellaneous investors."

6/ Exclusive of banks and insurance companies.

7/ Countries of trust, sinking, and investment funds of State and local governments and their agencies, and Territories and island possessions.

8/ Includes savings and loan associations, nonprofit institutions, pension trust funds, dealers and brokers, and investments of foreign balances and international accounts in this country. Beginning December 1946, includes investments by the International Bank for Reconstruction and Development and the International Monetary Fund in special noninterest-bearing notes issued by the U. S. Government.

9/ Immediate postwar debt peak.

## TREASURY SURVEY OF OWNERSHIP, JANUARY 31, 1960

The Treasury Survey of Ownership covers securities issued by the United States Government and by Federal agencies. The banks and insurance companies included in the Survey account for approximately 95 percent of such securities held by all banks and insurance companies in the United States. Data were first published for March 31, 1941, in the May 1941 "Treasury Bulletin".

Distribution of ownership by types of banks and insurance companies is published each month. Holdings by commercial banks distributed according to Federal Reserve member bank classes and nonmember banks are published for June 30 and December 31. Holdings by corporate pension trust funds are published quarterly and first appeared in the March 1954 Bulletin for quarters beginning December 31, 1949.

1/ Includes certain obligations not subject to statutory debt limitation.  
 For amount subject to limitation, see page 1.

2/ Excludes trust departments.

2/ Includes trust companies and, beginning with figures for July 1949, also includes stock savings banks. Previously, those banks were reported as a separate classification.

4/ Includes those banks and insurance companies not reporting in the Treasury Survey.

5/ United States savings bonds, Series E, F, and J, are shown at current redemption value. They were reported at maturity value by the banks and insurance companies included in the Treasury Survey but have been adjusted to current redemption value for use in this statement.

6/ Includes \$76 million depository bonds held by commercial banks not included in the Treasury Survey.

7/ Holdings by reporting investors not available.

8/ Excludes guaranteed securities held by the Treasury.

9/ Includes \$157 million August 15, 1962, note on which holders have exercised their option to redeem on February 15, 1960. Holdings by banks and insurance companies were not obtained in the Treasury Survey.

10/ Except partially tax-exempt bonds, which are classified to earliest call date.

11/ Federal securities fall into three broad classes with respect to the imposition of Federal income tax on income derived from them. "Wholly" tax-exempt securities are those with the income exempt from both normal tax and surtax. "Partially" tax-exempt securities are those with the income exempt from the normal tax except that in the case of partially tax-exempt Treasury bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax. "Taxable" securities are those with the income subject to normal tax and surtax.

## MARKET QUOTATIONS ON TREASURY SECURITIES, FEBRUARY 29, 1960

Current market quotations shown here are over-the-counter closing bid quotations in the New York market for the last trading day of the month, as reported to the Treasury by the Federal Reserve Bank of New York. The securities listed include all regularly quoted

public marketable securities issued by the United States Government except Panama Canal bonds. Outstanding issues which are guaranteed by the United States Government are excluded because they are not regularly quoted in the market.

1/ Beginning April 1963, prices are closing bid quotations in the over-the-counter market. Prices for prior dates are the mean of closing bid and ask quotations, except that before October 1, 1959, they are closing prices on the New York Stock Exchange. "When issued" prices are included in the history beginning October 1, 1959. Dates of highs and lows in case of recurrences are the latest dates.

2/ Of the \$2,000 million 4% notes of August 15, 1962, outstanding on October 31, 1959, \$1,684 million were exchanged for the 4-7/8% notes of November 15, 1963, and \$157 million were presented for stamping for redemption on February 15, 1960, leaving \$160 million to mature August 15, 1962.

3/ Amount outstanding includes an additional issue of \$746 million December 15, 1959, accepted in exchange for F and G savings bonds due to mature in 1960.

4/ Not quoted on February 29, 1960. On February 15, 1960, \$142 million were exchanged for other securities. For further details see "Public Debt Operations," Table 6.

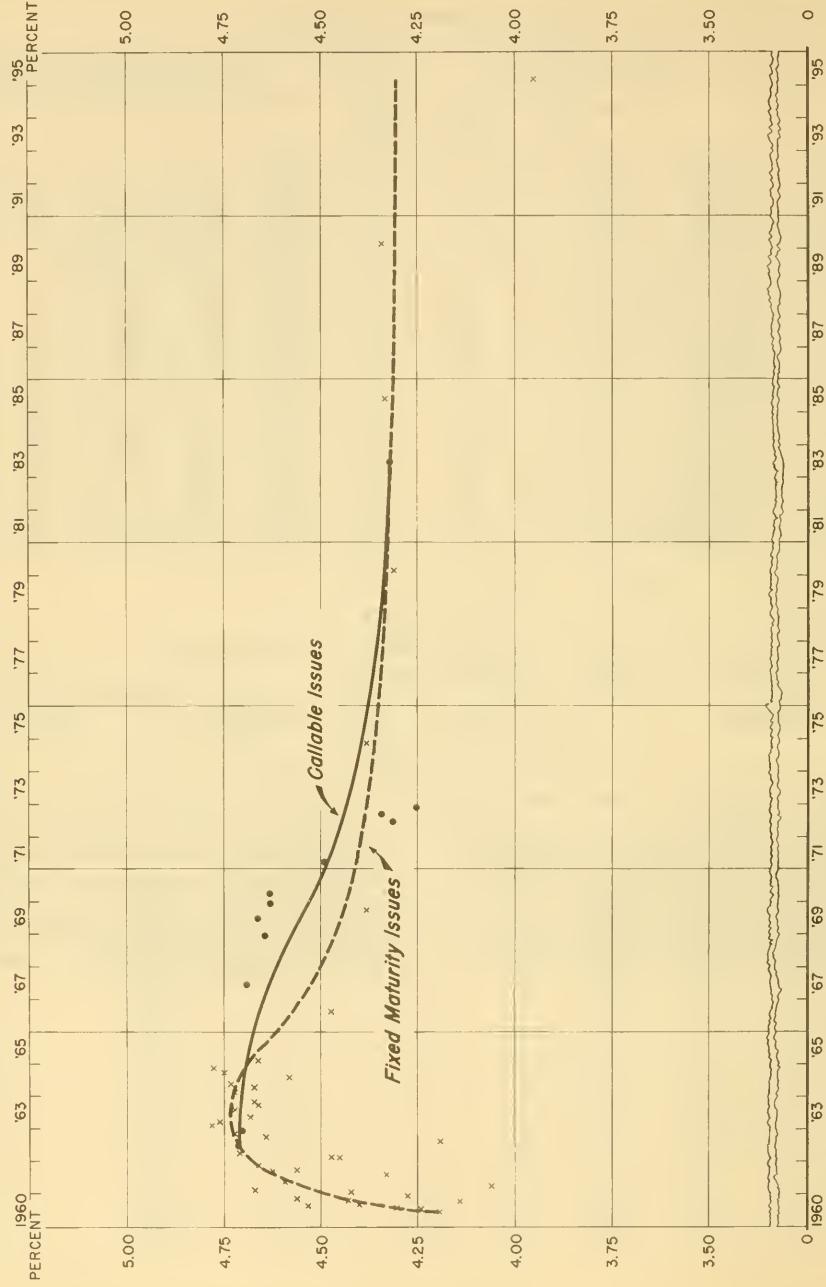

5/ On callable issues market convention treats the yield to earliest call date as more significant when an issue is selling above par, and to maturity when it is selling at par or below.

6/ Included in the average yield of long-term taxable Treasury bonds as shown under "Average Yields of Long-Term Bonds."

MARKET QUOTATIONS ON TREASURY SECURITIES, FEBRUARY 29, 1960

## YIELDS OF TAXABLE TREASURY SECURITIES, FEB. 29, 1960

Based on Closing Bid Quotations

Explanation: The points represent yields to call when prices are above par, and to maturity when prices are at or below par. The smooth curves for the two classes of points are fitted by eye. Market yields on bills other than those offered the latest week and on coupon issues for which an exchange after has been made or which are due or callable in less than 3 months are excluded.

Source: Beginning April 1953, Treasury bond yields are reported to the Treasury by the Federal Reserve Bank of New York, based on closing bid quotations in the over-the-counter market. Yield for prior periods were computed on the basis of mean of closing bid and ask quotations. Moody's Investor Service is the source for the average of Aaa corporate bonds. For definition of taxable bonds, see footnotes to the "Treasury Survey of Ownership" in this issue of the Bulletin.

<sup>1/</sup> Beginning April 1953, the average includes bonds neither due nor callable for 10 years; April 1952 through March 1953, the minimum length (months) due but not callable was 12 years; October 1941 through March 1952, the minimum length was 12 years. For bonds currently in the average, see Table 4 under "Market Quotations on Treasury Securities" in this issue of the Bulletin.

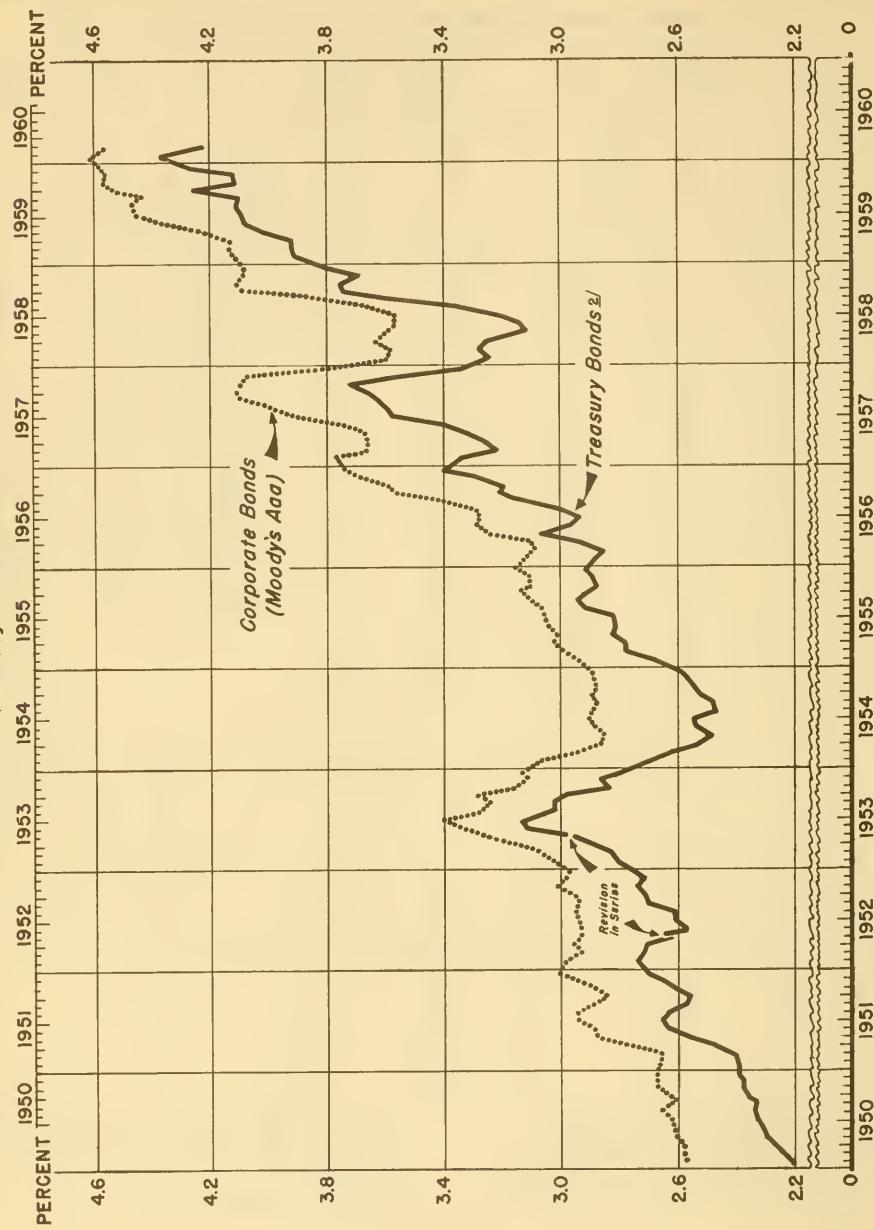

<sup>2/</sup> A new long-term bond added to the average.

<sup>3/</sup> An existing bond dropped from the average (see footnote 1).

Source: Internal Revenue Service reports for detail of collections by type of tax; daily Treasury statement for budget receipts from internal revenue for the fiscal year 1952, and the monthly statement of receipts and expenditures of the Government for receipts therefrom (for explanation of reporting by months see Table 1). Certain detail by type of tax is available only from returns filed with the Internal Revenue Service. The figures shown include collections for credit to special accounts for certain island possessions, as reported by the Internal Revenue Service. Beginning with the fiscal year 1955, they include the amounts of tax collected in Puerto Rico upon articles of merchandise of Puerto Rican manufacture coming into the United States. Figures for 1954 have been revised to the same basis. Figures for previous years include only amounts collected at ports of entry into the United States.

1/ Differences between the amounts of internal revenue reported by the Internal Revenue Service as collections for given periods and the amounts reported in Treasury statements as budget receipts for the same periods arose because of differences in the time when payments were included in the respective reports. Tax payments are included in budget receipts when they are reported as credits to the account of the Treasurer of the United States. Prior to July 1954, they were included in Internal Revenue Service collection reports after the return to which they applied had been received in Internal revenue offices. Under procedure begun in 1950 with withheld income tax and old-age insurance taxes and later extended to railroad retirement taxes and many excises, these taxes are paid currently into Treasury depositories and the depositary receipts, as evidence of such payments, are attached to quarterly returns to the Internal Revenue Service.

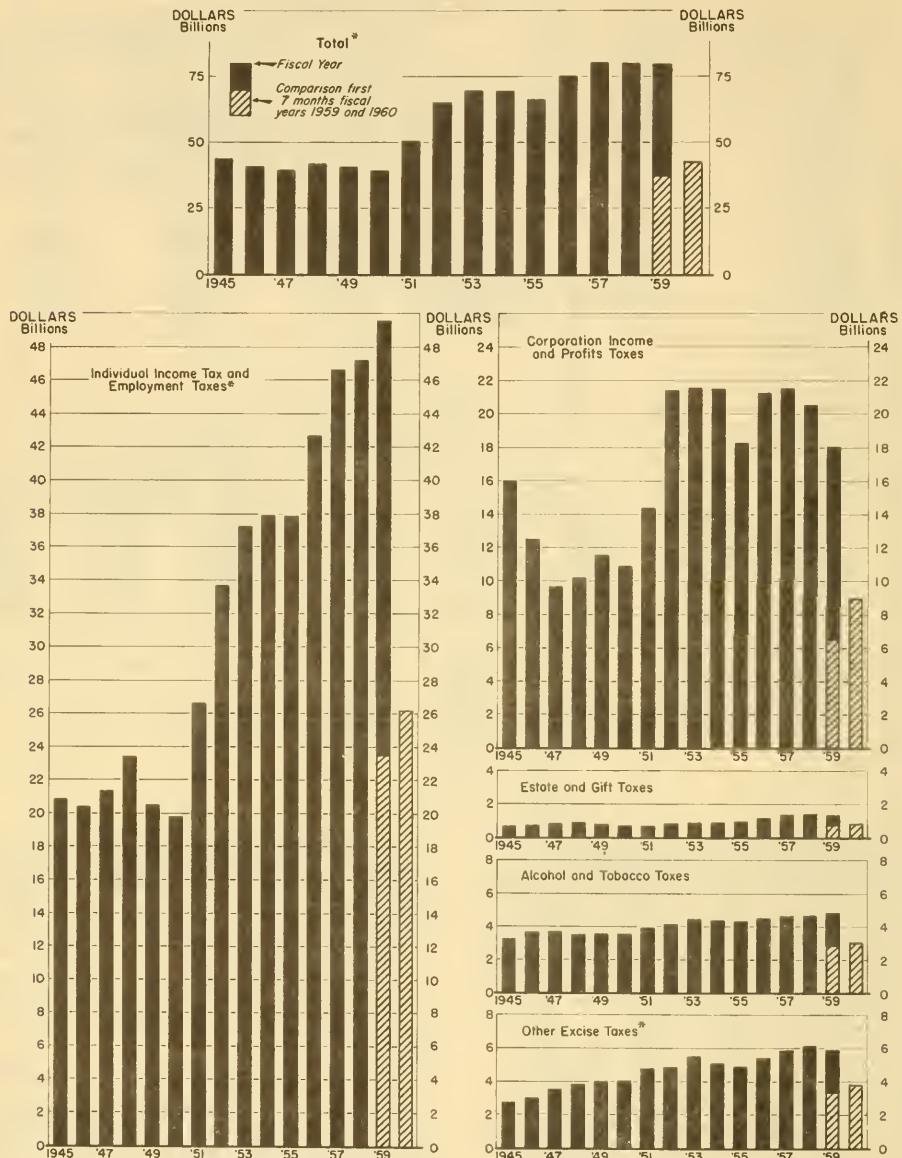

Under this procedure, the payments are included in budget receipts in the month in which the depositary receipts are issued to the taxpayer.

Revised accounting procedures effective July 1, 1954, extended the same practice to Internal Revenue Service collection reports.

- 2/ Monthly figures include social security tax on self-employment income, which is levied and collected as part of the individual income tax. Fiscal year figures exclude this tax, on the basis of estimates (see footnote 3), and it is included under "Old-age and disability insurance."
- 3/ In Internal Revenue Service reports current collections are not separated as to type of tax; the breakdown shown for fiscal years is based on estimates made in accordance with provisions of Sec. 201 of the Social Security Act, as amended (42 U.S.C. 401), for transfer of tax receipts to the trust funds (see "Budget Receipts and Expenditures," Table 1).
- 4/ Beginning with the fiscal year 1955, collections shown include undistributed depositary receipts and unmapped collections. For excise taxes these receipts are included in the total only. Total collections include "Taxes not otherwise classified."
- 5/ Budget receipts for 1956 were reduced by \$3,566 thousand representing tax collections transferred to the Government of Guam pursuant to the act approved August 1, 1950 (42 Stat. 392), but this amount was included in collections reported by the Internal Revenue Service. Beginning with 1957, such collections are excluded also in Internal Revenue Service reports.
- 6/ Detail is reported by quarters beginning with the fiscal year 1956.

## INTERNAL REVENUE COLLECTIONS

## INTERNAL REVENUE COLLECTIONS BY PRINCIPAL SOURCES

\* Beginning with the fiscal year 1955, includes undistributed depositary receipts and unapplied collections. The whole amount of such receipts for excise taxes is included under "Other excise taxes."

1/ These items represent the difference between the cost value and the monetary value of silver bullion revalued and held to secure silver certificates.

2/ The figures in this column are not cumulative; as the amount of

bullion held changes, the potential seigniorage thereon changes.

3/ Total of seigniorage on coins and on newly mined silver, beginning with that for July 1959, is included under coins; the breakdown is not available after June 1959.

## CAPITAL MOVEMENTS

Data relating to capital movements between the United States and foreign countries have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, Executive Order 10033 of February 8, 1949, and Treasury regulations promulgated thereunder. Information covering the principal types of data and the principal countries is reported monthly, and is published regularly in the "Treasury Bulletin." Supplementary information is published at less frequent intervals. Reports by banks, bankers, securities brokers and dealers, and industrial and commercial concerns in the United States are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury. Beginning April 1954, data reported by banks in the Territories and possessions of the United States are included in the published data.

The term "foreigner" as used in these reports covers all institutions and individuals domiciled outside the United States and its Territories and possessions, the official institutions of foreign countries, wherever such institutions may be located, and international organizations. "Short-term" refers to original maturities of one year or less, and "long-term" refers to all other maturities. A detailed discussion of the reporting coverage, statistical presentation, and definitions appeared in the June 1954 issue of the "Treasury Bulletin," pages 45-47. As a result of changes in presentation introduced in that issue, not all breakdowns previously

published will be exactly comparable to those now presented.

The first three sections which follow are published monthly. They provide summaries, by periods and by countries, of data on short-term banking liabilities to and claims on foreigners and transactions in long-term securities by foreigners, and present detailed breakdowns of the latest available preliminary data.

Section IV provides supplementary data in six tables which appear at less frequent intervals. Table 1, short-term foreign liabilities and claims reported by non-financial concerns, is published quarterly in the January, April, July, and October issues of the Bulletin. Table 2, long-term foreign liabilities and claims reported by banks and bankers, and Table 3, estimated gold reserves and dollar holdings of foreign countries and international institutions, are published quarterly in the March, June, September, and December issues. Table 4, foreign credit and debit balances in brokerage accounts, appears semi-annually in the March and September issues. Table 5, short-term liabilities to foreigners in countries and areas not regularly reported separately by banking institutions, is presented annually, appearing in the April issue through 1958 and in the March issue thereafter. Table 6, purchases and sales of long-term securities by foreigners during the preceding calendar year, also appears annually, beginning with the May 1959 issue.

CORPORATIONS AND CERTAIN OTHER BUSINESS-TYPE ACTIVITIES

---

The current financial statements of corporations and certain other business-type activities of the United States Government which appear in the "Treasury Bulletin" beginning with the August 1956 issue are compiled from reports submitted to the Treasury under Department Circular No. 966, issued January 30, 1956, and Supplement No. 1, issued June 1, 1956. The regulations so issued are pursuant to Section 114 of the Budget and Accounting Procedures Act of 1950 (31 U.S.C. 66 b), and represent another step in the program of comprehensive and integrated Government accounting and financial reporting for which authority was provided in that act. They supersede Budget-Treasury Regulation No. 3, issued under Executive Order No. 8512 of August 13, 1940, as amended by Executive Order No. 9084 of March 3, 1942, under which financial statements previously published in the Bulletin were submitted.

In coverage, Department Circular No. 966 requires submission of financial statements by all wholly owned and mixed-ownership Government corporations specifically included in the Government Corporation Control Act, as amended (31 U.S.C. 846, 856); and all other activities of the Government operating as revolving funds for which business-type public enterprise or intragovernmental fund budgets are required by the Bureau of the Budget. Other activities and agencies whose operations, services, or functions are largely self-liquidating or primarily of a revenue-producing nature, and activities and agencies whose operations result in the accumulation of substantial inventories, investments and other recoverable assets, may be brought under the regulations as agency accounting systems are developed to the point where they are capable of furnishing the financial reports required.

Four kinds of financial statements are called for by Department Circular No. 966. They are statements of financial condition, income and expense, source and application of funds, and certain commitments and contingencies. The statements of financial condition are

published quarterly and appear as Section I in the series of tables. The first data under the new regulations are for March 31, 1956, and were presented in the August 1956 Bulletin. Statements of income and expense and source and application of funds are published semiannually, for June 30 and December 31 reporting dates, and appear as Sections II and III. The first of these statements under the new regulations cover the fiscal year 1956, and were published in the January 1957 Bulletin. Within the sections, the agencies are grouped in separate tables by type, as follows: public enterprise revolving funds, intragovernmental revolving funds, certain other activities, deposit funds, and trust revolving funds.

Supplement No. 1 added to the coverage by including all executive agencies and activities not reporting under Department Circular No. 966, but required only a statement of financial condition annually as of June 30. These are mainly not business-type activities, and those which had not yet developed formal accounting procedures to provide complete balance sheet types of statements were authorized temporarily to report only the asset side. Thus the supplement rounds out provision for the information on properties and assets of the United States Government which the Treasury has been asked to furnish to the Committee on Government Operations, House of Representatives, for a continuing study of the assets of the Government. The first comprehensive reporting under Supplement No. 1 is for June 30, 1957, and the data were published in the December 1957 issue of the Bulletin as Part B of Table 4 in Section I.

A summary of loans outstanding for a series of dates is included in Section I of the Bulletin presentation beginning with the June 1958 issue. Two classifications of the loans are shown, one by type and one by agency. Data prior to 1956 are based on the earlier reporting requirements, which provided for complete coverage of Government lending agencies.

## CORPORATIONS AND CERTAIN OTHER BUSINESS-TYPE ACTIVITIES

## Footnotes to Table 1

<sup>1/</sup> These amounts consist in the main of unexpended balances of general, special, and revolving fund accounts against which checks may be drawn to pay proper charges under these funds. The funds are considered as assets of the agencies, but are not assets of the United States Government since funds must be provided out of cash balances of the Treasurer of the United States and future receipts to take care of checks to be issued against the balances.

<sup>2/</sup> Includes foreign currency assets, representing loans and other receivables recoverable in foreign currency as well as balances of foreign currencies in United States depositories, aggregating \$1,501,599 thousand in dollar equivalent. These currencies, acquired without the payment of dollars, were generated under various Government programs, principally the Agricultural Trade Development and

Assistance Act of 1954, as amended, and the Mutual Security Acts, as amended. Dollar equivalents are computed for reporting purposes, to provide a common denominator for the currencies of the many countries involved. The rates of exchange used in the conversion of foreign currency units to United States dollar equivalent generally depend on the ultimate utilization of these currencies. Loans and other foreign currency receivables that are dollar denominated in loan agreements are valued at agreement rates of exchange. Loans stated in units of foreign currency and receivables in currencies that are available for sale for dollars and certain other United States uses are converted at market rates of exchange in effect on reporting dates, i. e., the rates at which the Treasury sells such currency to Government agencies.

## CORPORATIONS AND CERTAIN OTHER BUSINESS-TYPE ACTIVITIES

## Footnotes to Table 8

- 1/ Table 8 covers all Government loans outstanding. It includes foreign currency loans and those not included in Table 7 beginning 1956 which have been made by deposit and trust revolving funds.
- 2/ Includes guaranteed loans held by lending agencies.
- 3/ The major portion of the loans of the Veterans' Administration loan guarantee program are included under "Mortgage loans" through 1955 and under "Other" to aid home owners thereafter.
- 4/ Figures representing loans made by the International Cooperation Administration prior to 1952 are not available at this time.
- 5/ Includes guaranteed loans held by lending agencies through March 31, 1959, and the loan to the United Kingdom.
- 6/ Reports on maritime activities were not received by the United States Treasury Department during the period from March 31, 1947, through March 31, 1953. Reorganization Plan No. 21, effective May 24, 1950, abolished the United States Maritime Commission and transferred its functions into the Department of Commerce.
- 7/ Reports have been received from the Commerce Department on maritime activities for the first half year 1953 and thereafter, but no loans were reported prior to December 31, 1953. Beginning with that date, certain mortgage notes are classified as mortgage loans.
- 8/ Established in the Department of State by Executive Order No. 10610, dated May 9, 1955, and effective at the close of business June 30, 1955, as successor to the Foreign Operations Administration. Data for earlier periods are for predecessor agencies.
- 9/ On September 29, 1953, pursuant to the act approved July 30, 1953 (15 U.S.C. 609), the Reconstruction Finance Corporation started liquidation of its activities, except those carried on by the Corporation pursuant to Section 409 of the Federal Civil Defense Act of 1950 (50 App. U.S.C. 2261) and expansion of defense production activities carried on pursuant to the Defense Production Act of 1950, as amended (50 App. U.S.C. 2091-2094), which had been transferred to the Secretary of the Treasury as of September 28, 1953, and as of the close of business on September 28, 1953, respectively. Effective at the close of business June 30, 1954, pursuant to Reorganization Plan No. 2 of 1954, certain functions and related assets of the Corporation were transferred to the Export-Import Bank of Washington, the Federal National Mortgage Association, and the Small Business Administration. On July 1, 1954, the remaining activities of the Corporation were transferred to the Secretary of the Treasury to complete their liquidation, pursuant to the act of July 30, 1953, as amended January 29, 1954. This corporation was abolished effective at the close of business June 30, 1957, by Reorganization Plan No. 1 of 1957, and the remaining functions of the Corporation were transferred to the Housing and Home Finance Administrator, Administrator of General Services, Administrator of the Small Business Administration, and the Secretary of the Treasury.
- 10/ Totals include loans of Home Owners' Loan Corporation amounting to \$42.2 million as of June 30, 1950, and \$9.6 million as of December 31, 1950.
- 11/ Beginning 1956 notes receivable which had previously been classified as loans are classified as other assets and are not included in this table.
- 12/ Figure for June 30, 1950, consists of Alaska housing loans. Subsequent figures include also: beginning December 31, 1950, loans for community facilities service (previously included under Public Works Administration), prefabricated housing loans (transferred from the Reconstruction Finance Corporation), and urban renewal loans authorized by the Housing Act of 1949, as amended (42 U.S.C. 1452 (s)); beginning December 31, 1951, college housing loans authorized by the Housing Act of 1950, as amended (12 U.S.C. 1749); beginning December 31, 1954, loans held by the revolving fund established pursuant to the act approved June 24, 1954 (68 Stat. 295) for liquidation of not only Alaska housing, community facilities service, and prefabricated housing loans already included but also loans under the Farm Security Administration program, the public war housing program, and the veterans' re-use housing program, all three of which previously were handled by the Public Housing Administration; as of December 31, 1955, public works planning loans authorized by the Housing Act of 1954, approved August 2, 1954 (40 U.S.C. 462); beginning December 31, 1956, public facility loans authorized by the Housing Amendments of 1955 approved August 11, 1955 (40 U.S.C. 1491); end from December 31, 1956, through June 30, 1957, community disposal operations loans authorized by the Atlantic Energy Community Act of 1955 approved August 4, 1955 (42 U.S.C. 2301 note) and Executive Order No. 10657 of February 14, 1956.
- 13/ The Federal National Mortgage Association Charter Act approved August 2, 1954 (12 U.S.C. 1716), authorized the Association to carry on three functions consisting of management and liquidating functions, secondary market operations, and special assistance functions. Its activities under these three functions began on November 1, 1954. All figures in this column include the loans of the low-rent public housing program fund (formerly known as the United States Housing Act program). Also included are the homes conversion programs as of June 30, 1950, the Farm Security Administration end public war housing programs from June 30, 1950, through June 30, 1954, and the veterans' re-use housing program from June 30, 1953 through June 30, 1954 (see footnote 12).
- 14/ Consists of the Farmers' Home Administration loan programs, the disaster loans, etc., revolving fund, the farm tenant mortgage insurance fund, and the State rural rehabilitation funds beginning June 30, 1956. Prior to June 30, 1956, the farm tenant mortgage insurance was included in the statement of financial condition of the loan programs.
- 15/ Consists of the loan to the United Kingdom and other miscellaneous loans. Federal civil defense loans beginning December 31, 1953, and the loans of the Reconstruction Finance Corporation liquidation fund beginning December 31, 1957 (see footnote 9).
- 17/ The major portion of the loans are held by the Island Waterways Corporation; Department of the Interior Puerto Rico Reconstruction Administration through December 31, 1954, fisheries loan fund beginning June 30, 1957, and Indian loans; Department of the Army - guaranteed loans (World War II) through March 31, 1958; the development loan fund beginning June 30, 1958; Office of Education - loans to educational institutions as of June 30, 1959; end agencies reporting loans pursuant to the Defense Production Act of 1950, as amended (50 App. U.S.C. 2091), which consist of the Departments of the Army beginning June 30, 1951, Navy beginning December 31, 1951, and Air Force beginning June 30, 1956, and the General Services Administration beginning September 30, 1959.
- 18/ Beginning 1956 mortgage notes and sales contracts which had previously been classified as loans are classified as other assets and are not included in this table.
- \* Less than \$50,000.
