What We Gain from the Proposed Financial Agreement with Britain

The following address was delivered by Secretary Vinson before the North Carolina Newspaper Institute at Chapel Hill, North Carolina on January 24, 1946.

Coming from Kentucky I feel that I am visiting my friends and neighbors when I come to North Carolina. All of us in the South are proud of what you are doing. We are proud of the great forward strides you are making in industrial and agricultural development. We are proud of the great forward strides you are making in education and public welfare. We see in North Carolina a vigorous and progressive democracy built on the finest traditions and highest ideals of the South.

Tonight we shall discuss a measure, on which the representatives of two democratic nations reached agreement, that will better our chances of establishing a sound world economy. That measure, which is subject to the consideration and approval of the Congress, is the proposed financial agreement between the United Kingdom and the United States.

The American people should understand fully the nature and effects of the proposed agreement in order that Congress can have the benefit of their views in applying its best judgment to the proposal.

One part of this agreement provides that the United States will offer a credit of \$3,750 million to Britain. There are certain misconceptions about this line of credit to Britain which should be dispelled at the outset. In some quarters this credit is still said to be, through inadvertence, misunderstanding, or purpose, a gift.

The proposed line of credit is not a gift; it is a loan. It is not merely a loan of so many dollars to be repaid, but it is an interest-bearing loan. The interest is not a nominal fee, but it is reasonably comparable to what it costs the United States Government to borrow money.

The repayment of the loan and the interest, moreover, is not all of the consideration or benefit that the United States receives under this financial agreement. Britain promises, in addition to repaying the loan with interest, to remove currency restrictions. Moreover, Britain promises to avoid trade controls which would discriminate against American products. On top of this Britain has agreed with the United States on the principles that should be followed by a pro-

posed International Trade Organization to improve world trade practices.

In addition to these benefits which the United States receives, a general purpose of the loan, as stated in the agreement, "is to facilitate purchases by the United Kingdom of goods and services in the United States." This will be a real contribution to our domestic program of high production, employment and national income.

A strong case could be made that in view of these benefits to the United States which I have mentioned last -- the expansion of our markets abroad, the principles for an International Trade Organization -- the elimination of trade discriminations -- the abolition of monetary controls which restrict trade -- that in view of these substantial gains, we could have made the \$3,750 million a gift instead of a loan. While \$3,750 million is a lot of money, it is a small investment if it contributes to an expansion of world trade and to peace and to general prosperity.

Some may ask that if it could be claimed that these considerations fully supported a gift, why did we bargain for a loan and an interest-bearing one at that. The answer is simple. The Administration wanted to make the best agreement possible from our viewpoint and to offer a plan which would be acceptable to our people and the Congress.

Now in regard to this financial agreement we have an anomalous situation. If the benefits are as great as I have indicated, and they are, why is there as much opposition as there is? The only explanation, I believe, is that there are so many benefits extending in so many directions in so many direct and indirect ways that the total picture appears to be complex, whereupon, particular economic isolationist or defeatist groups muddy the water and parade their pet prejudices in picturesque and sometimes demagogic language.

It is my hope, therefore, to explain some of these benefits in such plain language that those who wish to understand will not be lured away by colorful statements without substance. As we proceed to this more detailed examination, keep this over-all summary of the proposed financial

agreement in mind: the money extended Britain is not a gift but an interest-bearing loan wherein we receive not only a return of the dollars and interest but benefits that in truth many believe would have supported a gift.

The prosperity of this country is closely linked with our export trade. Even during the 1930's, when world trade was severely reduced, our exports accounted for some 7 or 8 percent of our agricultural and industrial production. For many of the products of our factories and farms, foreign trade meant the difference between prosperity and depression. And of all our foreign trade, no part was more important than that with the British Empire.

It is hardly necessary for a Southerner addressing Southerners to state that British trade is important to the South. But just look at cotton and tobacco, the two principal crops of the South. In the four years before the war, from 1935 to 1938, for every two pounds of tobacco we consumed in this country, we sold one pound abroad. In that same period England alone bought more than two-thirds of all our tobacco exports. Of our flue-cured tobacco a much larger proportion went abroad, principally to England. And the same thing is true with cotton. In the four years from 1935 to 1938, for every bale of cotton consumed in this country we sold a bale abroad. England alone bought nearly one-fourth of all our cotton exports. It is plain that without the British market it would not have been possible to maintain our cotton and tobacco production and price levels.

During the war Britain adopted certain monetary and trade controls which if continued would hurt seriously peacetime trade. I say, frankly, American business cannot afford to see Britain's wartime trade and currency restrictions continued.

In connection with these wartime controls you have heard of the sterling area, blocked sterling, and the dollar pool. What does this mean?

Most of us spend our entire lives in the United States. We are accustomed to money in the form of dollars and cents. When we work we are paid in dollars. When we buy we spend in dollars. When we travel up North, we find that they take our dollars, too.

In the world, however, there are other cur-

rencies. There are a few of inter-country application, but the world-wide currencies are primarily the dollar and the pound-sterling. If you have a dollar and want to buy something in another country you may have to change your money into its kind. If someone abroad wants to buy your cotton or tobacco, he has to change his money into dollars.

In this convertibility of money from one kind to another, restrictions and impediments can grow up or be imposed. As you can readily see, this puts a brake on trade between nations.

Now what do we mean by the sterling area? These are the countries of the British Empire and some European countries who keep their monetary reserves in the form of sterling in London. Australia, for example, keeps its reserves on deposit in English banks. Before the war, the sterling area countries could draw on these reserves to buy goods all over the world. If Australia wanted to buy American cotton, it sold sterling for dollars. But during the war, Britain had to stop the convertibility of sterling.

That brings us to blocked sterling. Britain had to say to these countries of the sterling area -- to India, Egypt, Australia and all the rest -- the reserve you now have in sterling cannot be converted into dollars. You can use these sterling reserves for making payments to each other but not to outsiders.

One reason for restricting the convertibility of sterling was that England did not have enough gold and dollars. During the war not only did Britain sell \$4,500 million worth of her foreign investments to finance her expenditures, but also she incurred an enormous debt of \$13,000 million, measured in our money, held by foreign countries in the form of sterling balances in London banks and sterling securities of the British Treasury. Britain had to restrict the convertibility of sterling. She couldn't convert such large amounts into dollars or other currencies. She had to block their use.

But it wasn't enough to block the wartime sterling balances and end the convertibility of sterling. England had to mobilize all of its dollar resources to pay for war needs. The British Treasury took over private holdings of American securities in England, paying for them in sterling, and sold many of these investments in the United States for dollars. And it took steps

to see that all of the dollar receipts of the sterling area countries were mobilized for war.

This was done through the so-called dollar pool. For example, when an Egyptian exporter sold goods in the United States, he turned over the dollars he received to the National Bank of Egypt and received Egyptian pounds. These dollars were then sold by the National Bank of Egypt to the British Treasury for sterling. In this way all of the dollar receipts of the sterling area are pooled in London. Then when a country in the sterling area needs dollars, say Egypt, it applies to London which allocates these dollars on the basis of the most essential needs. To conserve dollars, London does not allocate funds to buy goods in America if they can be secured from sterling area countries.

Of course, along with these financial controls, there are direct controls of imports in all sterling area countries. And these controls, like import licenses, are used to keep out goods that must be paid for in foreign exchange. In practice, this meant keeping to a minimum imports from countries that had to be paid for in foreign exchange.

These wartime restrictions are still in effect in Britain. Clearly, they were essential for the war. They helped Britain to mobilize her foreign exchange resources and devote them to war purposes. They restricted the use of her foreign exchange resources for non-essential purposes. But these wartime restrictions are dangerous in peace. During war, ordinary trade must give way to war; but trade is the very life-blood of peace. To restrict trade in time of peace is to force poverty on the world. That is why we and all countries have an interest in seeing the prompt removal of Britain's wartime restrictions.

Neither England nor the countries of the sterling area have any wish to continue these wartime restrictions. But until Britain finds some other means to pay for its imports it cannot remove these restrictions. Until the blocked sterling balances are settled, sterling cannot be made convertible. Until Britain's dollar receipts are increased, she cannot permit the sterling she pays for her imports to be used freely in any country, and particularly the United States. Until Britain can earn enough to pay for her imports from the dollar area, she must continue the dollar pool. Until Britain exports enough to pay for its essential imports it must

continue to limit imports from outside the sterling area, and particularly from the United States.

The elimination of all these wartime restrictions and discriminations is the major international economic problem for the entire world. Whether they are eliminated depends on what we do. We are the largest exporting country in the world. It depends on what England does. England is the largest importing country in the world.

As you know, England's attitude will influence other countries, just as ours will. A number of countries in the British Empire and in Europe are so completely dependent on British currency and trade, that they are invariably guided by British policy. That is why Britain's decision to terminate her wartime restrictions and discriminations is an essential prerequisite to establishing fair trade and currency practices.

This country has a particular interest in the removal of England's currency and trade restrictions. England is our best customer. One-sixth of all our exports before the war went to England. Nearly 40 percent of all our exports were sold to the British Empire and the sterling area. Every section of this country, every American industry has a vital interest in the opening of British markets to our products on fair and non-discriminatory terms. The people of this country, the people of the South, cannot afford to see England continue and extend her wartime restrictions on currency and trade.

Let's see, for example, what that means to the South. It means that England would concentrate its trade within the sterling area where countries would take payment in sterling for the cotton and tobacco and other things England would buy. It means that England would buy cotton primarily from India and Egypt; she would buy tobacco primarily from Rhodesia and the Near East. England would stimulate production in her trading area, and once such production was built up, the British market might be lost to us forever.

You know the consequences to the South if Britain should adopt such a policy. In plain language, we would have no other alternative than to cut the production of cotton and tobacco by 20 or 30 percent. More than that! With the decline in tobacco and cotton exports the downward pressure on prices would be heavily increased. We might once again see 8-cent tobacco and 5-cent cotton.

I speak of cotton and tobacco, only, because they are Southern crops that we know so well. But the situation would be much the same in other industries. Wherever American farms and factories depend on exports, the closing of the markets of the British Empire and the sterling area would mean economic disaster.

A good deal of progress has been made toward establishing a world in which countries can trade together. We have agreed on the fair currency and trade principles that are necessary to make it possible for world trade to expand and grow. But it will do no good to agree on thesee principles unless all of the trading countries are ready to put them into practice. We can move ahead on this program only after Britain removes the restrictions on the use of sterling outside the sterling area; only after the wartime dollar pool is abandoned; only after the blocked sterling problem is settled. When these wartime restrictions have been removed it will be possible for world trade to expand and to make its full contribution to world prosperity.

Frankly, we have told England that we should like to see her wartime currency and trade restrictions brought to an end. We want importers in England and the entire sterling area to have an opportunity to buy American products if they prefer our products. The British Government, in turn, has told us frankly that they have no wish to continue thesee wartime restrictions. If they could find some other means to secure the flow of essential imports of food, raw materials and equipment into Britain they would be prepared to abandon at once thesee wartime restrictions and discriminations.

We all know that Britain, as an island nation, relies heavily upon trade. During the war what she shipped in and bought and what she shipped out and sold was thrown out of kilter. In 1944 she shipped out only 30 percent of what she did in 1938. Her export industries were converted to war production. She has lost a large part of her merchant fleet. Her income from foreign banking and insurance services declined. She sold many of her most marketable foreign investments, and lost the income from thesee. Britain must somehow make good the fall in her foreign exchange income because she needs to import large amounts of food and raw materials to feed her people and industries.

This is the basic reason that Britain needs

the money in this loan. The loan will help balance the difference between what she must buy abroad and what she sells until she reestablishes a full flow of export trade. And may I add that though in the transition period her imports will far exceed her exports that the resulting standard of living for Britain will be little different from the austere wartime levels.

In return for the loan, in addition to repaying principal and interest, here is what Britain undertakes to do by way of removing within a year, unless we agree to a temporary exteneion, the wartime trade and currency controls:

First, all countries of the sterling area will be allowed to use the proceeds of their exports to England to buy goods in any other country, including the United States. That's because sterling arising from current trade will be made convertible.

Second, all countries of the sterling area will be able to use the dollars they acquire from their trade with the United States to make purchases in the United States. That's because the sterling area dollar pool will be dissolved.

Third, England's import controls will be administered in a manner which will not discriminate against American products. Any exports from the United States to England will be paid for in dollars or in sterling that can be converted into dollars by American exporters.

Fourth, England will settle the blocked sterling obligations out of her own resources. The funds that are released in settling thesee balances, whether as an immediate payment or as future payments, can be freely used for purchases in any country, including the United States.

Fifth, England will support the American proposal for the establishment of an International Trade Organization, for the reduction of trade barriers and for the elimination of trade discriminations.

This agreement, then, will be a big step in preventing economic warfare. It will also be a big step in creating a world in which countries live and work together in peace and prosperity. For England it will mean a chance to feed her

people and reconvert her industries in a world of expanding trade. For the United States it will mean the opening of the markets of our beat customers, England and all the countries in the British Empire and the sterling area, to the products of our factories and farms. It will mean a larger American share in a larger world trade. For the South it will mean the stimulation of the great industrial development which now beckons. Just as there cannot be national prosperity in the United States without international prosperity, there cannot be that great economic development of the South without general prosperity in the United States and the world. For all countries it will mean a chance to reconstruct a war-shattered world with expanding trade, great employment and higher standards of living.

The alternative is as unhappy as it is clear. If England cannot secure the financial assistance of this loan, she will have to take drastic steps to curtail her imports and force her sales on other countries. This means that England and the countries that depend on England's currency and trade -- the sterling area countries -- would reduce their purchases in the United States and in the dollar area. Our exports would be excluded as far as possible from British markets. Britain would enter into bilateral agreements with countries in Europe and South America, offering to swap her manufactures for their food and raw materials. Such a policy would inevitably divide the world into conflicting economic blocs.

I have no doubt we could defend ourselves. We would have to fight fire with fire. We would be forced to retaliate. We would set up restrictions and discriminations of our own. In blunt language, the world would be at war -- economic war. And if we won, at best we would win a sorry victory. World trade would be destroyed and all countries would suffer.

That is not the kind of a world our people want. Our basic goal is to establish a world in which countries can live and work together in peace and prosperity. Two world wars and a world-wide depression have taught this generation the bitter lesson that there is no other road to peace -- there is no other road to prosperity except through international cooperation. The political and economic problems of the world cannot continue to be solved by force. That road leads to destruction.

This is nothing new to the people of the South. They have long known that expanded trade among nations will contribute to the prosperity of all. It was Woodrow Wilson, a Southerner brought up in Virginia, North Carolina, and Georgia, who warned an unheeding world that only through international cooperation will it be possible to maintain peace. Without regret for what might have been we must finish the job we have at last begun. That job is to build through international cooperation a peaceful and prosperous world.

The people of the United States and the United Nations have agreed on a program in which countries cooperate to maintain peace and prosperity. The United Nations Organization, with its Security Council, General Assembly, International Court of Justice, and Social and Economic Council, constitutes one side of this program. The Food and Agricultural Organization, the International Monetary Fund and the International Bank for Reconstruction and Development, and the proposed International Trade Organization constitute another side of the same program. The financial agreement with the United Kingdom is a sound, big step to the realization of this entire program for peace and prosperity. This is what I hope the people and Congress will bear in mind in considering the financial agreement.

Our System of Government Has Stood the Test

The following address was delivered by Secretary Vinson before the Baltimore Association of Commerce at Baltimore, Maryland on January 31, 1946.

Americans have never been ones to rest upon their laurels or to engage in the luxury of living merely to cite their history. From our past, however, we do gain experience and secure confidence.

The Association of Commerce is honoring the

institution of banking which is celebrating its 150th anniversary in Maryland and Baltimore. One of the most satisfying aspects of banking is that it is a part of the agricultural, industrial, and commercial life of the community.

The banker in making his decisions must take

into consideration the welfare of the entire business community. Others depend upon the banker for advice and guidance. The banker has a great opportunity for leadership. Our democratic system of government requires leadership in all groups in and out of government.

Bankers have performed a real service in the financing of the war. The problems of peace are also important. In two of our basic problems the banker can play a very large role. There is the restoration and maintenance of full production in a peacetime economy. There is the preservation and enlargement of our system of free enterprise in a world which has so recently been regimented for war.

Primarily it is the banker who must supply the credit for high levels of production and trade. In this regard, as in others, we must raise our sights. New as well as established enterprises must have credit. Financial aid is a necessity for an expanding economy. Financial aid is a necessity for small enterprise to hold its own against giant concentration. A high and diversified level of production, employment and income, is both a cause and an effect of free enterprise. In short, we want our whole economy in high gear.

Since banking is a part of the entire community, the Association of Commerce in honoring the 150th anniversary of banking is, in a broader sense, honoring the City of Baltimore for its long and notable part in the development of this country.

Even before we had grown to nationhood, Baltimore was an important center of colonial industry and commerce. Your enterprise and initiative contributed to the building of the nation. The highways and railroads that started from Baltimore pushed into the West and helped open a new continent.

You have played an equally notable part in the development of the foreign commerce of the United States. The ships built in Baltimore yards were the glory of the American merchant marine of a century ago. The famous Baltimore clipper ships sailed all over the world, carrying American produce of a strange and distant world. Today, you are the third largest seaport of the country.

Baltimore has not been content to live on

its past. The country has reason to be grateful for what you did during the critical years of the war. You gave a full share of your youth to the fighting services. The workers and businessmen of Baltimore produced steel, copper, oil, planes and ships that went to war. And through this port, more than 100 million tons of cargo passed during the war with the precious freight of victory.

Instead of trying to review the last 150 years of our history, let us review in more detail the last tenth of it. In the last 15 years we have participated in the writing of more history than most people ever see during their entire lives. We have seen tremendous developments in the natural sciences. More important, we have seen our way of life, our form of government, put in the crucible and found not wanting.

Since the Fall of 1929 our way of life, our form of government, has stood trial under the worst depression this country has ever had, and the worst war that has ever engulfed the world. When our way of doing things has stood two such tests as these, we can be supremely confident of our ability to grapple with any problem that may confront us. We need no further assurance to face the future.

It is easy not to recognize the import of our success. It is so easy to forget. Without a great faculty of memory or imagination we cannot reconstruct our life during the gloomy days of the depression or the dark days of the war.

During the depression many of our people suffered, fighting for the stark necessities of life: some food, some clothing. Our unemployment problem then was mass unemployment. It was not a matter of a little transitional unemployment. Several millions of our people were out of work, not by choice, not through lack of initiative, but simply because they were not offered a job of any kind.

Even the lot of many who were employed was unfortunate. Many were in jobs that stifled their ambition. And most jobs carried poor pay. Our economy did not permit the pursuit of life, liberty and happiness in the way our founders must have pictured when they wrote that stirring constitutional phrase.

That depression with its closed banks, its heartaches, its 5-cent cotton, 10-cent corn, and

8-cent tobacco, was a stern trial for our system of government. Not long afterwards our way of life faced the test of fire.

We saw the peoples of Europe maimed, killed and conquered. Those were dark days. Mere survival was a question. Remember Dunkirk.

Later we were attacked. War brought us urgent, tough problems. We had to grind to a halt much of our peacetime production. We had to lick shortages. We had to remove bottlenecks. In short, we were faced with the task of converting a civilian economy into military preparedness after the fighting had started. And we were fighting against countries that had been building up their military might for years. You can lose a war that way. We almost did.

Mobilization for war put terrific strains upon our nation. Thousands of men and women changed jobs. Other thousands marched out of their homes, out of school, out of retirement. Materials in short supply had to be controlled. Inflation threatened. That meant the control of wages and prices.

In spite of this colossal effort, it appeared that we were losing the war in the summer of 1942. It appeared that Stalingrad, Alexandria, and the Suez Canal would fall. Australia was threatened. The U-Boats roamed the oceans. If we had gained our military might just a little slower, or if the Axis had been just a little stronger, we would be living tonight under the heels of men who now stand trial at Nuernberg as criminals against civilization.

On the firing line, where the might of this nation met the might of the enemy, our men in uniform bore the brunt reality of war. These men, their families, and their loved ones, made the great and noble sacrifices. We must thank our soldiers, whether they be the living, the dead, or the living dead, by getting out and working for the peace every bit as fully as we worked for victory.

We gathered sufficient strength to whip the depression and to win the war. That is a great lesson. But there is a greater lesson. We mustered that strength and licked the depression and whipped the Axis without impairing in any way our basic principles of government.

If you will recall, we did not stick to our

way of life simply because temptation did not beckon. During the depression the stage was set for starry-eyed plans of salvation. Not only was the situation ripe for the appeals of demagogic despots, but the appeals were made. It would have been easy to turn to men with liquid promises.

Likewise, when the war clouds gathered and later when we were in it to the hilt, it would have been so easy for our people, burdened with suffering and sacrifice, to turn to some fatalistic course. Some asked us to bury our heads in the sand. Some asked for a negotiated peace. Instead we out-produced, out-fought, out-thought, and out-lasted the enemy. We did all this without selling any of our birthright. We preserved our democratic way of life, up to and including our constitutional right to gripe.

When we think of our constitutional right to gripe we think of those "confounded" war measures --wage control, priorities, allocations, rations, manpower and price controls. Those controls were necessary. We were waging a total war. We were preserving a sound economy. Those controls were promulgated under law and if any individual thought that as to him the application of any control violated the due process of law he could go to the courthouse. That latchstring was never removed. But few went and fewer won.

How did we fare under those "odious" controls? Every group in this country, worker, farmer, manufacturer, distributor, retailer, had a higher degree of prosperity than at any time in the history of our nation. Moreover, our standard of living was high. Oh yes, we had to put up with the old car and the old radio. But our people ate more food, better food, and a wider variety than ever before. We were clothed and housed. We even bought more jewelry and perfume, and went to more movies.

We whipped an enemy from within and from without, and neither during the depression nor during the war was any life, liberty or property taken from any citizen without due process of law; neither during the depression nor during the war was the Bill of Rights abrogated; neither during the depression nor during the war was the election of our governing officials suspended.

During the depression and the war we had

our headaches and our heartaches. But we did the job, and our way of life, our system of government, stood the acid and the fire.

We have our problems today and we will have our problems tomorrow. But we had some tough ones yesterday too. During the war we overwhelmed an enemy with our might, lived well at home, and kept inflation from our door. When we have proved ourselves like that, we can face the future with full confidence.

Not only does this record give us confidence but also the record itself gives us a sound base upon which to build. We can face our veterans with less embarrassment than we did last time.

We can tell our boys as they return that the things they dreamed America stood for as they fought from foxhole, plane or ship have been preserved. We can tell them that while they fought we produced the articles of war and kept our country on her course with even keel. We can tell them that we have laid the foundation for full production, full employment and a high national income.

We can tell them that reconversion has come along in pretty good shape. We can point out, for example, that physical reconversion of war plants is virtually complete. We can point out that unemployment is only about one-half that of estimates made just after the guns were laid down.

There are, of course, some kinks in the machine. Just as we had annoyances and difficulties, such as shortages and bottlenecks during the war, we have temporary impediments today as we swing toward high levels of production. Prodigious production is sorely needed, not only to build our standard of living in which we have always prided ourselves, but to counteract the inflationary pressure which is still our number one problem at home.

The American people have done a good job on the inflation front, so far. The cost of living in the 72 months of this war went up one-half of what it did in the 52 months of World War I, and after November 18, 1918, the cost of living continued to increase rapidly until June 1920. At that time the cost of living was over twice what it was at the start of the war. In the next 12

months came the crash. The cost of living has been stable since the close of World War II and we are in a much better position to avoid a similar collapse. While everyone knows the increase in the cost of living during this war has pinched some of us, and was a minor irritation to all of us, it is an excellent record compared with 25-cent sugar last time.

The feeling of the businessman who wants to remove price controls is not hard to understand. He cooperated, as did we all, to win the war. He may now see a mirage of big profits going by the board every day because he cannot charge more than ceiling prices for his goods. His conclusion that price controls should be abandoned is faulty.

There are many proverbs and fables that counsel against grabbing today's chances without regard for the future. There is sound philosophy in the old saws: don't kill the goose that lays the golden eggs; look before you leap.

Likewise, we know beyond peradventure that America's great business tradition was not built upon the quicksand base of short range operations. Every successful businessman knows that it is tomorrow's profit that is the most important. We do not want the boom-crash that followed the last war.

Disastrous inflation is still possible. It is likely that none of us has too much of a heart interest in coconuts, so let us use them for an example. The ceiling on coconuts was \$61.50 per thousand. They took the ceiling off. Next day the price was \$140, the second day \$175, and the third day \$252.

We don't want price increases like that on sugar, flour, meat, or even on shirts, dresses and suits, when we can find them. Until the goods on the shelves of our stores can match the money in our pocketbooks, in our safe deposit boxes, in our socks, and in our readily convertible deposits, there will be a danger of inflation. There are symptoms in the air, such as real estate and stock markets, wage-price contests, to remind us that the atmosphere is still charged.

We have the tools to finish the job: price control, the buying of government bonds or saving in other ways, control of credit purchases,

and most of all the will to prevent inflation. We should extend the Price Control Act just as soon as possible to remove the lingering hope of the minority that they can profit out of the scarcity that exists before our total reconversion makes available all of the items for which our appetite is whetted.

It is my belief that more of our people than ever before realize the importance of the continuation of price control. The Iowa Poll of January 27 shows that of the several recommendations the President made in his recent radio talk the continuation of price and rent control was considered the most necessary. From more and more quarters comes support for the extension of the Stabilization Act. Just this week an Anti-Inflation Committee representing nearly all of the leading businessmen and merchants in the District of Columbia began a campaign to prevent inflation and to keep the O. P. A.

We have won the inflation battle for nine rounds. It would be pathetic if we lost the tenth and last round.

The battle against inflation, while the most important today, is only one of the problems that confront us at home. There are all of the problems of finding and carrying out the means of full production, full employment, mass purchasing power, and efficient distribution. Each of these factors augments the others. These objectives, like total war, require vigilance and action on many fronts.

We must conquer the housing problem. This is a field wherein the realization has never been up to the ideal of a truly American standard of living. The inadequacy of our housing has been accentuated by the war, so we are further behind

than ever before. A real housing program will be a great contribution to our entire economic condition because it is a big market for many materials and it has a great effect upon employment.

Our way of life means a decent wage for all. The present law sets a forty-cents-an-hour minimum. That is far too low. We must have a substantial increase in the minimum wage unless we mean to render only lip service to our American standard of living.

We must do everything in our power to aid the veteran. He is the one that made the genuine sacrifices in this war. Not only has he rendered the great service, but now he must face the problems of becoming an integral part of our peace-time economy. We must make the interruption to his career of as little disadvantage as possible.

These, and other problems, confront us on the home front. In addition we have the political, social, and economic problems among nations that twice in our generation rocked us into war. If the nations of the world can solve their problems by peaceful discussion and at the same time be ready, willing and able to stamp out the international gangster before he commits his high felonies, we will have prevented war. Since wars are not ordained but are man made, man can avoid war by solving the problems that cause war.

We would be less than frank if we did not recognize that at times there will be darkness. But Americans are not by nature pessimistic and should not be now. There is a proverb that he who lights a candle is better than he who curses the darkness. Let us all go forth and light a candle in whatever place or station we be. These specks of light, multiplied many times will dispel the darkness.

Individual Income Tax Returns for 1944 With Adjusted Gross Income Under \$25,000

Income and Tax Liability

The Bureau of Internal Revenue recently completed preliminary tabulations of individual income tax returns for 1944 covering Forms W-2 and Forms 1040 with adjusted gross income under \$25,000. This is the first of two articles summarizing the data tabulated. This article presents data with respect to amounts of income and patterns of income. The second article will present data on the marital and dependency status and the number of employers reported on returns showing receipt of salaries or wages.

In preparing these data, the Bureau of Internal Revenue used a preliminary sample of returns which was extended to give national coverage. This sample is discussed further in the section on "Composition of Sample". By this technique, the Bureau is able to make data available on 1944 individual returns much sooner than was possible for earlier years. A fuller coverage of returns with adjusted gross income under \$25,000, and complete representation of returns with adjusted gross income of \$25,000 and over will be presented in the final Statistics of Income reports which will be published at some future date.

Forms W-2 and Forms 1040 were the two types of returns which could be filed for 1944. The Form W-2 is the withholding receipt which persons with incomes under \$5,000 derived wholly from wages, dividends or interest, and including not more than \$100 from income not subject to withholding, were given the option of filing as the final tax return. The Form 1040 was used by all other persons including those with incomes under \$5,000 who were given the option of filing a short-form return on Form 1040. Facsimiles of the two forms are presented on page A-14.

Number of Returns, Income, and Tax

An estimated total of 46.2 ^{1/} million returns (Forms W-2 and Forms 1040) with adjusted gross income under \$25,000 were covered in the preliminary study, comprising returns with adjusted gross income of under \$7,000 and those with adjusted gross income from \$7,000 to \$25,000 which showed tax liability in excess of the sum

of any withholdings and payments on 1944 declarations of estimated tax. Excluded from the study were approximately 300,000 Forms 1040 with adjusted gross income from \$7,000 to \$25,000 which reported withholdings and declaration payments totalling an amount equal to or in excess of liability, if any. These 46.2 million returns reported \$104.6 billion of adjusted gross income. Taxable returns totalled 41.4 million and accounted for about 98 percent of the adjusted gross income reported. The tax liability on the taxable returns aggregated \$11.8 billion. Data have not yet been prepared for returns with adjusted gross income of \$25,000 or more. It is estimated that such returns number approximately 150,000 and have an aggregate tax liability of less than \$5 billion. The table below summarizes the number of returns, adjusted gross income and tax liability for the estimated 46.2 million returns with adjusted gross income under \$25,000 included in the study.

Returns with adjusted gross income under \$25,000	Amount	Percent
	(In millions)	
Number of returns:		
Taxable returns.....	41.4	89.6
Nontaxable returns.....	4.8	10.4
Total.....	<u>46.2</u>	<u>100.0</u>
	(In billions of dollars)	
Adjusted gross income:		
Taxable returns.....	102.9	98.3
Nontaxable returns.....	1.7	1.7
Total.....	<u>104.6</u>	<u>100.0</u>
	Tax liability.....	11.8
		100.0

Table 1, at the end of this article, presents more detailed data on income and tax liability classified by size of adjusted gross income.

Income Patterns

Sources of Income and Loss. The \$104.6 billion of adjusted gross income reported on the 46.2 million returns comprised positive items of income totaling \$105.5 billion offset by \$0.9 billion of losses. The sources and amounts of

^{1/} Estimated on the basis of preliminary figures available in August 1945. Subsequent information, though still not final, indicates that the estimate of 46.2 million may be overstated to the extent of about three-fourths of a million returns.

income or loss used to arrive at adjusted gross income are listed below.

Source of income or loss	Income	Loss	Net income or loss
(In millions of dollars)			
Salaries or wages.....	86,002	-	86,002
Dividends and/or interest.....	2,257	-	2,257
Annuities and pensions.....	149	-	149
Rents and royalties - net profit or loss.....	1,535	137	1,399
Business or profession - net profit or loss.....	10,949	413	10,536
Partnerships - net profit or loss.....	3,063	60	3,003
Sale or exchange of capital assets - net gain or loss.....	626	173	454
Sale or exchange of property other than capital assets - net gain or loss.....	59	95	-35
Estate and trusts.....	417	-	417
Other sources, not specified.....	465	-	465
Total.....	<u>105,522</u>	<u>878</u>	<u>-</u>
Adjusted gross income.....	<u>-</u>	<u>-</u>	<u>104,646</u>

The frequencies with which the various sources of income or loss were reported on the 46.2 million returns with adjusted gross income under \$25,000 are as follows:

Source of income or loss	Number of returns reporting	
	Income	Loss
(In thousands)		
Salaries or wages.....	40,045	-
Dividends and/or interest.....	5,404	-
Annuities and pensions.....	246	-
Rents and royalties - net profit or loss.....	3,330	627
Business or profession - net profit or loss.....	5,992	518
Partnerships - net profit or loss.....	1,004	69
Sale or exchange of capital assets - net gain or loss.....	899	367
Sale or exchange of property other than capital assets - net gain or loss.....	93	69
Estate and trusts.....	263	-
Other sources, not specified.....	894	-

From Table 2 it is possible to compare the income pattern on returns in the under \$5,000 adjusted gross income range with the income pattern for the \$5,000 to \$25,000 range. In summary, almost 88 percent of all returns with adjusted gross income under \$5,000 reported salaries or wages; over 10 percent reported dividends or interest; about 22 percent showed other income. In contrast, less than 70 percent of the returns with adjusted gross income from \$5,000 to \$25,000 reported salaries or wages; over 40 percent re-

ported dividends or interest, and almost 60 percent reported other income.

Returns with Salaries or Wages. Of the 46.2 million returns covered in the study, over 40 million or 87 percent, reported receipt of salaries or wages. The following table presents the number of these returns reporting salaries or wages alone or salaries and wages together with income from other sources.

Returns with salaries or wages	Number of returns	Percent of total
(In millions)		
Salaries or wages only...	32.5	81.1
Salaries or wages and dividends and/or interest.....	2.7	6.7
Salaries or wages and other income 1/.....	3.5	8.5
Salaries or wages, dividends and/or interest, and other income.....	1.3	3.3
Total.....	<u>40.0</u>	<u>100.0</u>

As the table shows, of the 40 million returns reporting salaries or wages, 32.5 million or 81 percent reported no income from any other source.

The item "salaries or wages" in the case of Forms W-2 comprises only such income as was subject to withholding. About 1.1 million Forms W-2 reported, in addition to salaries or wages of the above category, amounts of salaries or wages not subject to withholding and dividends and interest aggregating about \$40 million. Amounts of income from each of these sources were not separately reported. They were tabulated in total as dividends and interest, and the 1.1 million returns involved were classified among the 2.7 million returns having dividends or interest only in addition to salaries or wages.

The distribution of all 40 million returns with salaries or wages in Table 3 by size of such income indicates that over one-fifth of the returns showed salaries or wages of less than \$1,000, and over one-half showed salaries or wages of less than \$2,000. Of the 4 million returns reporting dividends or interest in addition to salaries or wages, over two-thirds had dividends and interest totalling less than \$100, and

1/ "Other income" includes income (or loss) from annuities and pensions, rents and royalties, business, partnerships, sale or exchange of capital assets or other property, estates and trusts and miscellaneous sources, other than salaries or wages, dividends or interest.

only about 10 percent had dividends and interest of \$500 or more. On Forms W-2, amounts of dividends and interest were limited to a maximum of \$100. The 1.1 million Forms W-2 reporting this item are included among the two-thirds having such income of less than \$100.

Of approximately 5 million returns which reported other income in addition to salaries or wages, almost one-third had net positive income from sources other than salaries or wages and dividends or interest totalling less than \$100, or had a net loss from such sources. An additional one-third had net other income of \$100 to \$500, and the remaining one-third had net other income of \$500 or more.

Returns with Dividends and/or Interest. Dividends and/or interest as the sole sources of income were reported on about 150,000 returns. Dividends and/or interest and other income, but no salaries or wages, were reported on 1.2 million returns. These returns, in addition to the earlier mentioned 2.7 million having salaries or wages and dividends or interest, and the 1.3 million returns having salaries or wages, dividends or interest, and other income, yield a total of 5.4 million returns (12 percent of the 46.2 million) reporting the receipt of dividends or interest. More than 3.1 million, or over one-half of the 5.4 million returns had dividends and interest of less than \$100. These 3.1 million returns include the 1.1 million Forms W-2 for which the item "dividends or interest" includes salaries or wages not subject to withholding.

Returns with Other Income 1/. A total of 10.9 million returns on Forms 1040, or 24 percent of those covered by the study, reported income (or loss) from sources other than salaries or wages, or dividends or interest. The 10.9 million returns include (1) about 4-3/4 million returns which showed only income from sources other than salaries or wages, dividends or interest; (2) the earlier mentioned 3.5 million having salaries or wages as well as other income; (3) the 1.2 million having dividends or interest in addition to other income; and (4) the 1.3 million having salaries or wages, dividends or interest, and other income.

Of the total of 10.9 million returns report-

ing income (or loss) from other than salaries or wages, dividends or interest, about 1 million, or 10 percent, had a net loss from such other sources. About one-half of the returns reported net positive incomes from other sources of less than \$1,000.

Type of Deductions

Returns classified as having taken the standard deduction comprise (a) all Forms W-2, (b) Forms 1040 with adjusted gross income under \$5,000 using the tax table, and (c) Forms 1040 with adjusted gross income of \$5,000 or more using the \$500 standard deduction. All other returns were classified as having itemized deductions.

Table 1 at the end of this article shows that a total of 44.2 million returns reported adjusted gross income of less than \$5,000. Of these, 37.2 million or 84 percent, with adjusted gross income aggregating about \$73 billion, took the standard deduction. The remaining 7 million returns with itemized deductions had an aggregate adjusted gross income of \$16 billion and deductions of \$3 billion, leaving a net income of \$13 billion.

Of the 2 million returns with adjusted gross income from \$5,000 to \$25,000 included in the study, almost 1.2 million or 60 percent, with aggregate adjusted gross income of \$8.2 billion, took the \$500 standard deduction. These returns had net incomes equal to adjusted gross income less \$500 per return, or an aggregate of about \$7.7 billion net income. Over 0.8 million of the returns with adjusted gross income from \$5,000 to \$25,000 itemized deductions. These returns had adjusted gross income aggregating \$7.4 billion, and deductions aggregating \$0.9 billion, with resultant net income of \$6.5 billion.

Composition of Sample

The data contained in the preliminary study were derived from a sample of 428,000 returns, stratified according to size of adjusted gross income, and comprising 342,000 Forms W-2 and Forms 1040 with adjusted gross income under \$7,000, 29,000 Forms 1040 with adjusted gross income from \$7,000 to \$10,000 and 56,000 Forms 1040 with adjusted gross income from \$10,000 to \$25,000. The sub-sample of returns with adjusted gross income under \$7,000 was itself composed of four strata independently selected.

Data with respect to the above six sub-

1/ "Other income" includes income (or loss) from annuities and pensions, rents and royalties, businesses, partnerships, sale or exchange of capital assets or other property, estates and trusts and miscellaneous sources, other than salaries or wages, dividends or interest.

samples were extended to their separate estimated sub-universes, which combined to yield an estimated total universe of 46.2 million individual returns with adjusted gross income under \$25,000. From this universe were excluded Forms 1040 with adjusted gross income from \$7,000 to \$25,000 which either were nontaxable or else were taxable but reported withholdings and declaration payments equal to or in excess of liability. These are estimated to number about 300,000.

Changes in the Internal Revenue Code

The comparability of the income and tax data for 1944 with that of the previous year is affected by amendments to the Internal Revenue Code which were contained in the Individual Income Tax Act of 1944. The principal changes affecting the data tabulated from individual returns were as follows:

(a) For 1944 all citizens or residents of the United States, including minors, who had gross income of \$500 or more were required to file income tax returns. In 1943 a single person or married person not living with husband or wife was required to file if gross income equalled or exceeded \$500. Married persons living with husbands or wives were required to file if gross incomes equalled or exceeded \$624, or if combined gross income equalled or exceeded \$1,200. In addition, all persons liable for tax for 1942 were required to file for 1943. A number of persons who had incomes of less than \$500 from wages subject to withholding filed returns for 1944 in order to secure refund of taxes withheld during the year. Joint returns were permissible for 1944 even though one spouse had no income; on joint returns the aggregate income, deductions and credits were treated as though husband and wife were one person, and exemptions were allowed for both.

(b) The personal exemption for surtax purposes was changed to a uniform \$500 for the taxpayer, for his (or her) spouse, and for each dependent.

(c) A dependent was redefined as any closely related person for whom the taxpayer furnishes over half of the support, provided that such person does not receive an annual gross income of \$500 or more, and is a citizen of the United

States or a resident of the United States or a contiguous country.

(d) The Victory Tax was repealed and a new normal tax of 3 percent was imposed on the net income on each return in excess of a flat exemption of \$500. However, a husband and wife filing a joint return were allowed a normal tax exemption of \$500 plus an additional \$500 or the amount of the smaller of the two incomes whichever is less.

(e) The previous normal tax and surtax were combined into a new surtax with rates ranging from 20 percent on the first \$2,000 of surtax net income to 91 percent of the portion in excess of \$200,000.

(f) The item "adjusted gross income" introduced by the Act, is defined as gross income minus allowable trade and business deductions, expenses of travel and lodging in connection with employment, reimbursed expenses in connection with employment, deductions attributable to rents and royalties, certain deductions of life tenants and income beneficiaries of property and losses from sale or exchange of property.

(g) The scope of the simplified table method of tax computation was broadened (1) by raising the upper limit of the table from \$3,000 to \$5,000, (2) by extending its use to all types of income, and (3) by raising the standard allowance for deductions incorporated in the table from 6 to 10 percent.

(h) Persons with gross income of less than \$5,000 derived entirely from wages, interest, and dividends and including not more than \$100 from sources not subject to withholding were given the option of filing the withholding receipt, Form W-2 as a final tax return. In such instances the tax was determined by the collector on the basis of the gross income and exemptions reported by the taxpayer, from a tax table provided by law which allows about 10 percent of total income in lieu of deductions for charitable contributions, interest, taxes, medical expenses, etc.

(i) For returns with adjusted gross income of \$5,000 or more, the Act provided a standard allowance for deductions of \$500.

Form W-2 (Rev.) U. S. Treasury Department Internal Revenue Service		WITHHOLDING RECEIPT—1944 For Income Tax Withheld on Wages		ORIGINAL
EMPLOYER BY WHOM PAID (Name and address)		To EMPLOYEE: This Withholding Receipt may be used as your income tax return if your 1944 income meets the TEST below.		
		A married couple <u>may</u> make a combined return on this Withholding Receipt, if their total income meets the test. Their incomes should be combined on Lines 1, 2, and 3, and shown separately on Line 4. The Collector of Internal Revenue will figure the tax on either the combined or separate returns, whichever gives the taxpaying advantage.		
		LINE 1 Write total of wages shown on this and all other 1944 Withholding Receipts (Form W-2). \$ _____		
		LINE 2 If you got <u>any</u> wages from which no tax was withheld, or any dividends or interest, write total. \$ _____		
		LINE 3 Add Lines 1 and 2. Write total here. \$ _____		
		TEST: If Line 2 is over \$100 AND Line 3 is less than \$5,000, you may use this Withholding Receipt as your return provided you had <u>no</u> income other than wages, dividends, and interest. If your income does not meet this test, use Form 1040.		
		LINE 4 If Line 3 includes income of both husband and wife, show husband's income here. _____ wife's income here. _____		
		LINE 5 If you filed a 1944 Declaration of Estimated Tax (Form 1040-ES), write total of estimated tax paid. \$ _____		
		DO NOT WRITE IN THIS SPACE

Footnotes for Tables 1, 2, and 3

- 1/ The item "salaries or wages" herein is restricted, in the case of Forms W-2, to salaries or wages subject to withholding. Any salaries or wages not subject to withholding are, on Forms W-2, included in the item dividends and/or interest.
- 2/ Includes all taxable dividends and all wholly and partially taxable interest received.
- 3/ Excluded are amounts of interest on obligations of a State or political subdivision; interest on obligations of the United States issued prior to March 1, 1941, if made wholly exempt from taxation by the Act authorizing their issuance; and interest on not exceeding \$5,000 of United States savings bonds (at face value) which were issued before March 1, 1941. The amounts of dividends and interest reported include partially tax-exempt interest and dividends on share accounts in Federal savings and loan associations issued prior to March 28, 1942 received through partnerships and franchises. Partially tax-exempt interest consists of interest on certain Government obligations issued prior to March 1, 1941, namely, United States savings bonds and Treasury bonds owned in excess of \$5,000, and obligations of instrumentalities of the United States other than those issued under the Federal Farm Loan Act or that Act as amended. Interest reported is the amount before the deduction for amortizable bond premium which is reported in other deductions. Partially tax-exempt interest is not subject to normal tax and such interest less amortizable bond premium for the taxable year is deducted in computing income subject to normal tax in the case of persons itemizing deductions. For persons using the standard deduction, allowance for partially tax-exempt interest, less amortizable bond premium, is made in that deduction. Included in the item "dividends and interest" is a total of \$1 million dollars of salaries or wages not subject to withholding, dividends and interest reported on Forms W-2.
- 4/ Net profit or loss from business or profession (sole proprietorship) after net operating loss deduction.
- 5/ Partnership profit or loss, as reported on the income tax return of the partner, exclude (1) partially tax-exempt interest on Government obligations and (2) dividends on share account in Federal savings and loan associations issued prior to March 28, 1942, which are reported as dividends and interest and (3) net gain or loss from sales or exchanges of capital assets, which is reported as such. In computing partnership profit or loss, charitable contributions are not deductible nor is the net operating loss deduction allowed. However, the pro rata shares of contributions prior year income, and losses of the partnership are taken into account by each partner in determining his own contributions and net operating loss deduction if he itemizes deductions; otherwise these items are provided for in the tax table or the \$500 standard deduction.
- 6/ Net gain from sales or exchanges of capital assets is the amount taken into account in computing net income whether or not the alternative tax is imposed. It is a combination of net short- and long-term capital gain and loss; also the net capital losses carried over from 1942 and 1943 have been deducted. Net gain from such sales includes each participant's share of net short- and long-term capital gains and losses to be taken into account from partnerships and common trust funds, worthless stocks, worthless bonds if they are capital assets, non-business bad debts, and certain distributions from employees' trust plans.
- 7/ Net loss from sales or exchanges of capital assets is the result of combining net short- and long-term capital gain and loss and the net capital losses carried over from 1942 and 1943, but the allowable deduction for such a loss is limited to net income, or adjusted gross income if the tax is computed by use of the tax table provided by law. (Computed in either case without regard to capital gains and losses) or \$1,000, whichever is smaller. Loss from sales of capital assets includes each participant's share of net short- and long-term capital gains and losses.
- 8/ Net gain or loss from the sales of property other than capital assets: (1) Property used in trade or business of a character which is subject to the allowance for depreciation, (2) obligations of the United States or any of its possessions, a State or Territory or any political subdivision thereof, or the District of Columbia, issued on or after March 1, 1941, on a discount basis and payable without interest at a fixed maturity date not exceeding one year from date of issue, and (3) real property used in trade or business.
- 9/ Income from estates and trusts, as reported on the income tax return of the beneficiary, excludes (1) partially tax-exempt interest on Government obligations and (2) dividends on share accounts in Federal savings and loan associations issued prior to March 28, 1942, which are reported as dividends and interest and (3) net gain or loss from sales or exchanges of capital assets received from common trust funds, which is reported as such. The net operating loss deduction is allowed to estates and trusts generally, and is deducted in computing the income to be distributed. In the case of a common trust fund, however, the net operating loss deduction is not allowable, but each participant's share of prior year income and loss of the fund is taken into account in determining his own net operating loss deduction.
- 10/ Other income includes alimony received, prizes, recoveries of bad debts for which a deduction was taken in a prior year, and health and accident insurance benefits received as reimbursement for medical expenses for which a deduction was taken in a prior year. Unlike prior years, earnings of minors were not reported on the parent's return in 1944.
- 11/ Includes income (or loss) from annuities and pensions, rents and royalties, business, partnerships, sales or exchanges of capital assets or other property, estates and trusts or other sources except salaries or wages, dividends or interest.
- 12/ Includes all nontaxable returns.
- 13/ Returns classified as having taken the standard deduction include (a) all Forms W-2, (b) all Forms 1040 with adjusted gross income under \$5,000 and with tax determined from the tax table, and (c) all Forms 1040 with adjusted gross income of \$5,000 and over using the \$500 standard deduction. All other returns were classified as having itemized deductions.
- 14/ This section of the table contains some duplication since returns reporting more than one source of other income were tabulated under each of the sources of income reported.
- 15/ Includes total of amounts of net income less amounts of net loss from all sources other than salaries or wages, dividends or interest.
- 16/ Deficit.
- 17/ Aggregates of 2,976 million dollars of itemized deductions and 13,046 million dollars of net income were reported on these returns.
- 18/ Aggregates of 912 million dollars of itemized deductions and 6,522 million dollars of net income were reported on these returns.

Publication of Statistics of Income for 1942, Part 1

The Treasury Department recently released the final report, "Statistics of Income for 1942, Part 1". This report, which is prepared each year by the Bureau of Internal Revenue, is compiled from individual income tax returns, taxable fiduciary income tax returns, estate tax returns, and gift tax returns. Summary tables from "Statistics of Income for 1942" were published in the April 1945 issue of the "Treasury Bulletin". The recently published complete report may be purchased from the U. S. Government Printing Office, Washington 25, D. C., price \$.55.

The report sets forth by various classifications, data relative to the income, deductions, exemptions, credits, tax liability, and other pertinent facts reported on income tax returns for 1942 filed in 1943. There are included historical presentations of significant data reported on the returns filed for earlier years, and a synopsis of tax rates, credits, and other provisions of the Federal tax laws which affect the comparability of these historical data.

Treasury Market Financing

Historical details of Treasury market financing operations involving bonds, notes, and certificates of indebtedness, beginning with the Fourth War Loan, are published in the tables on pages 32 and 33. Details of weekly Treasury bill offerings are shown on pages 34 and 35.

Refunding in January

On January 21, 1946, the Secretary of the Treasury announced the offering of new one-year 7 1/8% Certificates of Indebtedness in exchange for the certificate issue maturing February 1, 1946. Cash subscriptions were not accepted.

The maturing issue was outstanding in the amount of \$5,043 million. The Treasury reports on the ownership of Government securities indicate that on December 31, 1945 about 77% of the maturing certificates were owned by reporting commercial banks and Federal Reserve Banks.

The new certificates were dated February 1, 1946 and will mature February 1, 1947. Interest at the rate of 7 1/8% per annum is payable on

August 1, 1946 and February 1, 1947. Interest on these certificates is subject to all Federal taxes now or hereafter imposed.

The certificates were issued in bearer form only, in denominations of \$1,000, \$5,000, \$10,000, \$100,000, and \$1,000,000. The exchange was on a par for par basis. The subscription books were open from January 21 to the close of business on January 23 except for the receipt of subscriptions from holders of \$100,000 or less of the maturing certificates, for which the books remained open through January 26.

Exchanges amounted to \$4,954 million or 98% of the maturing issue, leaving \$89 million to be paid in cash.

SUMMARY OF FISCAL STATISTICS

Source: Daily Treasury Statements, except as noted.

1/ Based upon the 1947 Budget.

2/ For further details, see following chapter, Tables 1 and 2.

3/ Includes chiefly alcoholic beverage taxes, tobacco taxes, manufacturers' and retailers' excise taxes, and estate taxes.

4/ Includes deposits resulting from the renegotiation of war contracts. Information on the amount of such deposits is not available on the basis of Daily Treasury Statements. On the basis of covering warrants, such deposits were as follows: fiscal year 1943, \$558 million; fiscal year 1944, \$2,235 million; and fiscal year 1945, \$2,041 million. These figures include so-called voluntary returns.

5/ Classification changed to reflect expenditures of surplus property disposal agencies for the fiscal years 1946 and 1947. Prior year expenditures are included under "Other".

6/ Includes transfers to trust accounts, etc.

7/ Includes expenditures for public works undertaken by Veterans' Administration.

8/ "Refunds of taxes" include amounts transferred to public debt accounts to cover issuance of excess profits tax refund bonds and exclude refunds of taxes under the social security program. For discussion of excess profits tax refund bonds, see following chapter, Table 3.

9/ Includes railroad retirement and railroad unemployment activities and excludes expenditures made by Office for Emergency Management, War Manpower Commission (U. S. Employment Service) under authority of the Social Security Act.

10/ Fiscal years 1946 and 1947 include expenditures based on proposed legislation (excluding international finance) in the amounts of \$250 million and \$1,500 million, respectively.

Source: Daily Treasury Statements.

1/ Revised to reflect expenditures of surplus property disposal agencies under "War activities" for the fiscal year 1946. Prior year expenditures are included under "General".

• Less than \$500,000.

1/ Excludes amounts for public debt retirement which are chargeable to the sinking fund, etc. under special provisions of law.

2/ For further details, see Table 2.

3/ For explanation see tables which follow entitled "Social Security Program".

4/ For further details, see Table 3.

5/ For further details, see Table 4.

6/ For further details, see Table 5.

7/ Total expenditures less net receipts.

8/ Represents expenditures for public debt retirements which are chargeable to the sinking fund, etc. under special provisions of law.

9/ Includes recoveries of U. S. investments in capital funds. Such recoveries totaled \$54 million in the fiscal year 1940; \$319 million in the fiscal year 1941; \$18 million in the fiscal year 1942; and \$10 million in the fiscal year 1943.

10/ Receipts from reductions in capital stock and paid-in surplus available to be reissued under existing law are included as negative items under expenditures. Such reductions totaled \$315 million.

11/ Includes deposits resulting from the renegotiation of war contracts. Information on the amount of such deposits is not available on the basis of Daily Treasury Statements. On the basis of covering warrants, such deposits were as follows: fiscal year 1943, \$558 million; fiscal year 1944, \$2,235 million; and fiscal year 1945, \$2,041 million. These figures include so-called voluntary returns.

Source: Daily Treasury Statements.

• Less than \$500,000.

1/ For further details, see chapter entitled "Internal Revenue Statistics".

2/ Excludes receipt of victory taxes withheld pursuant to the Revenue Act of 1942. Such receipts have been classified as "Other" income and profits taxes.

3/ Includes unjust enrichment tax.

4/ For the period prior to September 1939, the data in the columns entitled "Federal Insurance Contributions Act" and "Federal Unemployment Tax Act" represent collections under Titles VIII and IX, respectively, of the Social Security Act.

Source: Daily Treasury Statements.

Back Figuree: For monthly data for the period July 1941 through July 1944, see "Treasury Bulletin" for September 1945, pages 6 and 7.

r Revised to exclude Surplus property disposal agencies expenditures classified as "War activities" for fiscal year 1946. Prior year expenditures included under "General".

• Less than \$500,000.

1/ General expenditures now include expenditures for revolving funds; back figures have been revised accordingly.

2/ Includes public works undertaken by the Veterans' Administration. 3/ Does not include transfers to trust accounts, etc. These are shown in Table 5.

4/ "Refunds of taxes" include amounts transferred to public debt accounts to cover issuance of excess profits tax refund bonds and exclude refunds of taxes under the Social security program. Excess profits tax refund bonds were formerly issued to corporations entitling them to a post-war credit equal to 10% of the excess profits tax paid. The Tax Adjustment Act of 1945 reduced by 10% the amount of excess profits tax to be paid and abolished the post-war credit. For amounts of excess profits tax refund bonds issued, see the first table in chapter entitled "Public Debt and Guaranteed Obligations of the United States Government". Outstanding excess profits tax refund bonds may be redeemed at the option of the holder commencing January 1, 1946; when such redemptions occur, they will appear as retirements of public debt.

5/ Consists of Administration of Sugar Act of 1937, Agricultural Adjustment Agency, exportation and domestic consumption of agricultural commodities, Farm Credit Administration, Farm Security Administration, Federal Farm Mortgage Corporation, Federal land banks, Rural Electrification Administration, Soil Conservation and Extension Service, Department of Agriculture departmental expenditures, and other.

6/ Includes railroad retirement and railroad unemployment activities

and excludes expenditures made by Office for Emergency Management, War Manpower Commission (U. S. Employment Service) under authority of Social Security Act. For further details, see tables which follow on the Social security program.

1/ Includes public buildings, public highways (including forest roads and trails), river and harbor work and flood control, Tennessee Valley Authority, Federal Public Housing Authority (formerly U. S. Housing Authority), reclamation projects and the Public Works Administration. Excludes certain expenditures for public works in connection with war activities by the Federal Works Agency, beginning July 1941.

2/ Excludes expenditures for the U. S. Maritime Commission, departmental expenditures under the Social security program and the Department of Agriculture departmental expenditures.

3/ For additional information, see "Treasury Bulletin" for August 1945, page 6.

4/ Includes expenditures for the following: Office of Education, and Public Health Service of the Federal Security Agency; Post Office Department postal deficiencies; Federal Housing Administration; Treasury Department investments in Federal savings and loan associations; certain expenditures of the Panama Canal; and capital stock of the Federal Deposit Insurance Corporation, Home Owners' Loan Corporation, Federal home loan banks, and Disaster Loan Corporation.

11/ Gross expenditures have been reduced \$160 million representing the repayment of capital funds by certain United States Government agencies. For further details see "Treasury Bulletin" for June 1943, page 9, footnote 12.

12/ Includes \$257 million for restoration of capital impairment of Commodity Credit Corporation applicable to fiscal years 1943 and 1944.

13/ Classified as miscellaneous expenditures commencing July 1, 1945.

14/ Includes \$174 million, Export-Import Bank of Washington - capital stock.

Back Figures: Monthly figures for the period July 1940 through April 1943 appeared in the "Treasury Bulletin" for May 1943, page 7.

r Revised.

• Less than \$500,000.

1/ Includes war public housing functions.

2/ Similar items for periods prior to fiscal year 1941 are classified under "Other departmental" and "Other general expenditures" in Table 3. Includes war expenditures of Commerce, Justice, Interior, Labor, and State Departments; Civil Service Commission; Executive Office of the President (including Office for Emergency Management); Panama Canal; and capital stock of Smaller War Plants Corporation.

Includes Defense Aid Special Fund through the fiscal year 1943; thereafter such expenditures are reflected within the respective departments.

3/ Classification changed to reflect expenditures for the fiscal year 1946 under "War activities". Prior year expenditures are included under "General".

4/ Payment of \$370,286,944 was made on Dec. 29, 1945, by the Federal Surplus Commodities Corporation of the Department of Agriculture to the Commodity Credit Corporation in reimbursement for agricultural commodities procured in connection with the lend-lease program and reflected in previous expenditures by the Commodity Credit Corporation.

• Less than \$500,000.

1/ Additional transactions are shown in Table 3.

2/ Comprises Adjusted Service Certificate Fund and the National Service Life Insurance Fund, administered by the Veterans' Administration.

3/ Includes railroad retirement and railroad unemployment activities.

For further explanations see tables which follow on Social security program.

4/ Represents transactions in commodity food stamps by Department of Agriculture. This activity formerly came under the Office of Distribution and prior thereto under the Agricultural Marketing Administration.

* Less than \$50,000.

1/ Formerly Title VIII of the Social Security Act.

2/ Formerly Title IX of the Social Security Act. Includes amounts equal to appropriations to Railroad Unemployment Insurance Administration Fund equivalent to amounts of taxes collected with respect to the period from January 1936 to June 1939, inclusive, from employers subject to the Railroad Unemployment Insurance Act (See Table 3 of Section I).

3/ Prior to January 1, 1940, figures represent amounts transferred to the Old-Age Reserve Account. From January 1 to July 1, 1940 "Transfers" were made to the Federal Old-Age and Survivors Insurance Trust Fund. Subsequently receipts have been deposited in the General Fund of the Treasury and "appropriated" directly to the Federal Old-Age and Survivors Insurance Trust Fund. Amounts shown as transfers reflect deductions made for reimbursement to the General Fund account to cover administrative expenses, which are shown as expenditures in

Section II, Table 1.

4/ Includes only expenditures from appropriations made specifically for administrative expenses relating to the Social Security Act; namely, Social Security Board, Department of Commerce, and Department of Labor; and administrative expenses reimbursed to the General Fund of the Treasury under Section 201 (f) of the Social Security Act, as amended. Beginning July 1, 1940, includes also administrative expenses under the Wagner-Peyser Act. Excludes administrative expenses payable from other appropriations, principally for the following agencies: Bureau of Internal Revenue of the Treasury Department, and Public Health Service and Office of Education of the Federal Security Agency.

5/ Covered by appropriations by Congress.

Second Deficiency Appropriation Act, fiscal year 1938, appropriated \$41 million for refunding to certain States portions of Federal employers' tax for 1936 collected under the Social Security Act.

* Less than \$50,000.

1/ Operated as Railroad Unemployment Insurance Administration Fund.

2/ Represents 10% of contributions under the Railroad Unemployment

Insurance Act; the remaining 90% is deposited in the Railroad Unemployment Insurance Account, Unemployment Trust Fund (See Section II, Table 3). Excludes amounts appropriated to Railroad Unemployment Insurance Administration Fund equivalent to amounts of taxes collected for the period January 1936 through June 1939 from employers subject to the Railroad Unemployment Insurance Act. These amounts aggregated \$15.0 million and were distributed by calendar

years, as follows: 1937, \$5.3 million; 1938, \$6.8 million; and for the first six months of the calendar year 1939, \$2.9 million. These amounts are included in Table I under Federal Unemployment Tax Act (unemployment insurance).

3/ Includes only expenditures from appropriations made specifically for administrative expenses relating to the Railroad Unemployment Insurance Act.

4/ Represents excess funds of the Railroad Unemployment Insurance Administration Fund (under Act of Oct. 10, 1940).

5/ Covered by appropriations by Congress.

		Total pending (79th Congress, First Session).....	<u>-47,552,917,106</u>	<u>-2,223,872,671</u>
		Liquidations of 1940 and prior contract authorizations.....	<u>-467,872,846</u>	<u>-</u>
		Total approved, rescinded, pending appropriations or rescissions, and net contract authorizations 1/.....	<u>\$362,313,293,087</u>	<u>\$9,383,866,861</u>

- 1/ Consists of appropriations and net contract authorizations available on and after July 1, 1940. Excludes: (1) authorizations of the Reconstruction Finance Corporation and its affiliates for war purposes, and (2) unexpended balances of appropriations on June 30, 1940 (except immediately available funds from fiscal year 1941 appropriations), available for expenditure in the fiscal year 1941.
- 2/ Contract authorizations have been reduced by later appropriations which were earmarked in authorizing acts for this purpose.
- 3/ Includes appropriations made available for prior years. For amounts, see appropriate footnotes in "Treasury Bulletin" for July, 1945, page 16.
- 4/ Unappropriated contract authorizations for the naval expansion program are as follows:

 Public Law No. 441.....\$2,171,000,000
 Public Law No. 204 (Estimated by Navy Department) 2,354,213,727

 Public Law No. 375.....55,000,000
 Public Law No. 375 (Estimated by Navy Department) 2,021,828,396

 Public Law No. 529.....60,000,000

5/ The amounts of appropriations repealed by Congress and carried to the surplus fund in accordance with the provisions of this act are shown separately below.

6/ This figure has been increased by amounts which were made available for this purpose during the month of January 1946.

11/ Includes \$180,000,000 for the fiscal year 1945.
12/ Revised to adjust classification.

9/ Pending appropriations, as used herein, represent appropriation bills reported from the Committee on Appropriations to the House, or in subsequent stages of Congressional action before Presidential approval. Estimates of appropriations for national defense purposes reported by the President to Congress and submitted to the Committee on Appropriations, amounting to \$12,176,528,000.00, are not included.

10/ Excludes rescission of the unobligated portion of the contract authorization under Bureau of Aeronautics, Aviation, Navy, included in H. R. 5258.

11/ For details of appropriations made by the 76th Congress, Third Session and 77th Congress, First Session, see "Treasury Bulletin" for March, 1944, page 5.

12/ Includes actual transfer of balances of the Bureau of Marine Inspection and Navigation from the Department of Commerce to Coast Guard, Navy, in the amount of \$1,153,802 in accordance with Executive Order 9083, dated February 28, 1942. Also includes \$57,153,291 received as war contributions under authority of the Second War Powers Act and deposits of advance payments made by foreign governments to the Defense Aid Special Fund for the procurement of defense articles amounting to \$282,702,268.89.

* Less than \$500,000.

1/ This is the net budgetary deficit. Excludes amounts for public debt retirement which are chargeable to the sinking fund, etc., under special provisions of law.

2/ This represents the increases in the gross public debt, except as noted. (See footnote 6.)

3/ Comprises Federal Old-Age and Survivors Insurance Trust Fund, National Service Life Insurance Fund, Unemployment Trust Fund, Railroad Retirement Account, Government insurance and retirement funds and other trust accounts. (See footnote 5.)

4/ Charges for retirement of national bank notes are reflected in this statement directly against increment on gold, in the years during which the retirements were actually made. (See footnote 6.)

5/ Comprises Public Works Administration revolving fund, special deposits (net), and, during the fiscal years 1940 through 1945, transactions in commodity food stamps by the Department of Agriculture. Commencing July 1, 1945, such transactions are classified in the column "Trust accounts".

6/ Expenditures for the retirement of national bank notes from increment on gold for the fiscal years 1936 to 1939 (as shown below) are not reflected herein, but are reflected under increment on gold as follows: 1936, \$397 million; 1937, \$99 million; 1938, \$51 million; and 1939, \$5 million. The increases in the public debt shown in the table "Means of Financing Cash Requirements" for the above fiscal years will not agree for the reason stated above.

6/ Includes inactive gold in the amount of \$1,087 million.

Source: Daily Treasury Statements.

* Less than \$500,000.

1/ Guaranteed securities held by the Treasury and securities guaranteed as to interest only are not included in this table.

2/ Bank restricted issues are those which commercial banks (banks accepting demand deposits) are not permitted to acquire prior to a specified date, with two exceptions: (1) concurrently with the 4th, 5th and 6th War Loans and the Victory Loan, commercial banks were permitted to subscribe for limited investment of their savings deposits; (2) commercial banks may temporarily acquire such issues through forfeiture of collateral.

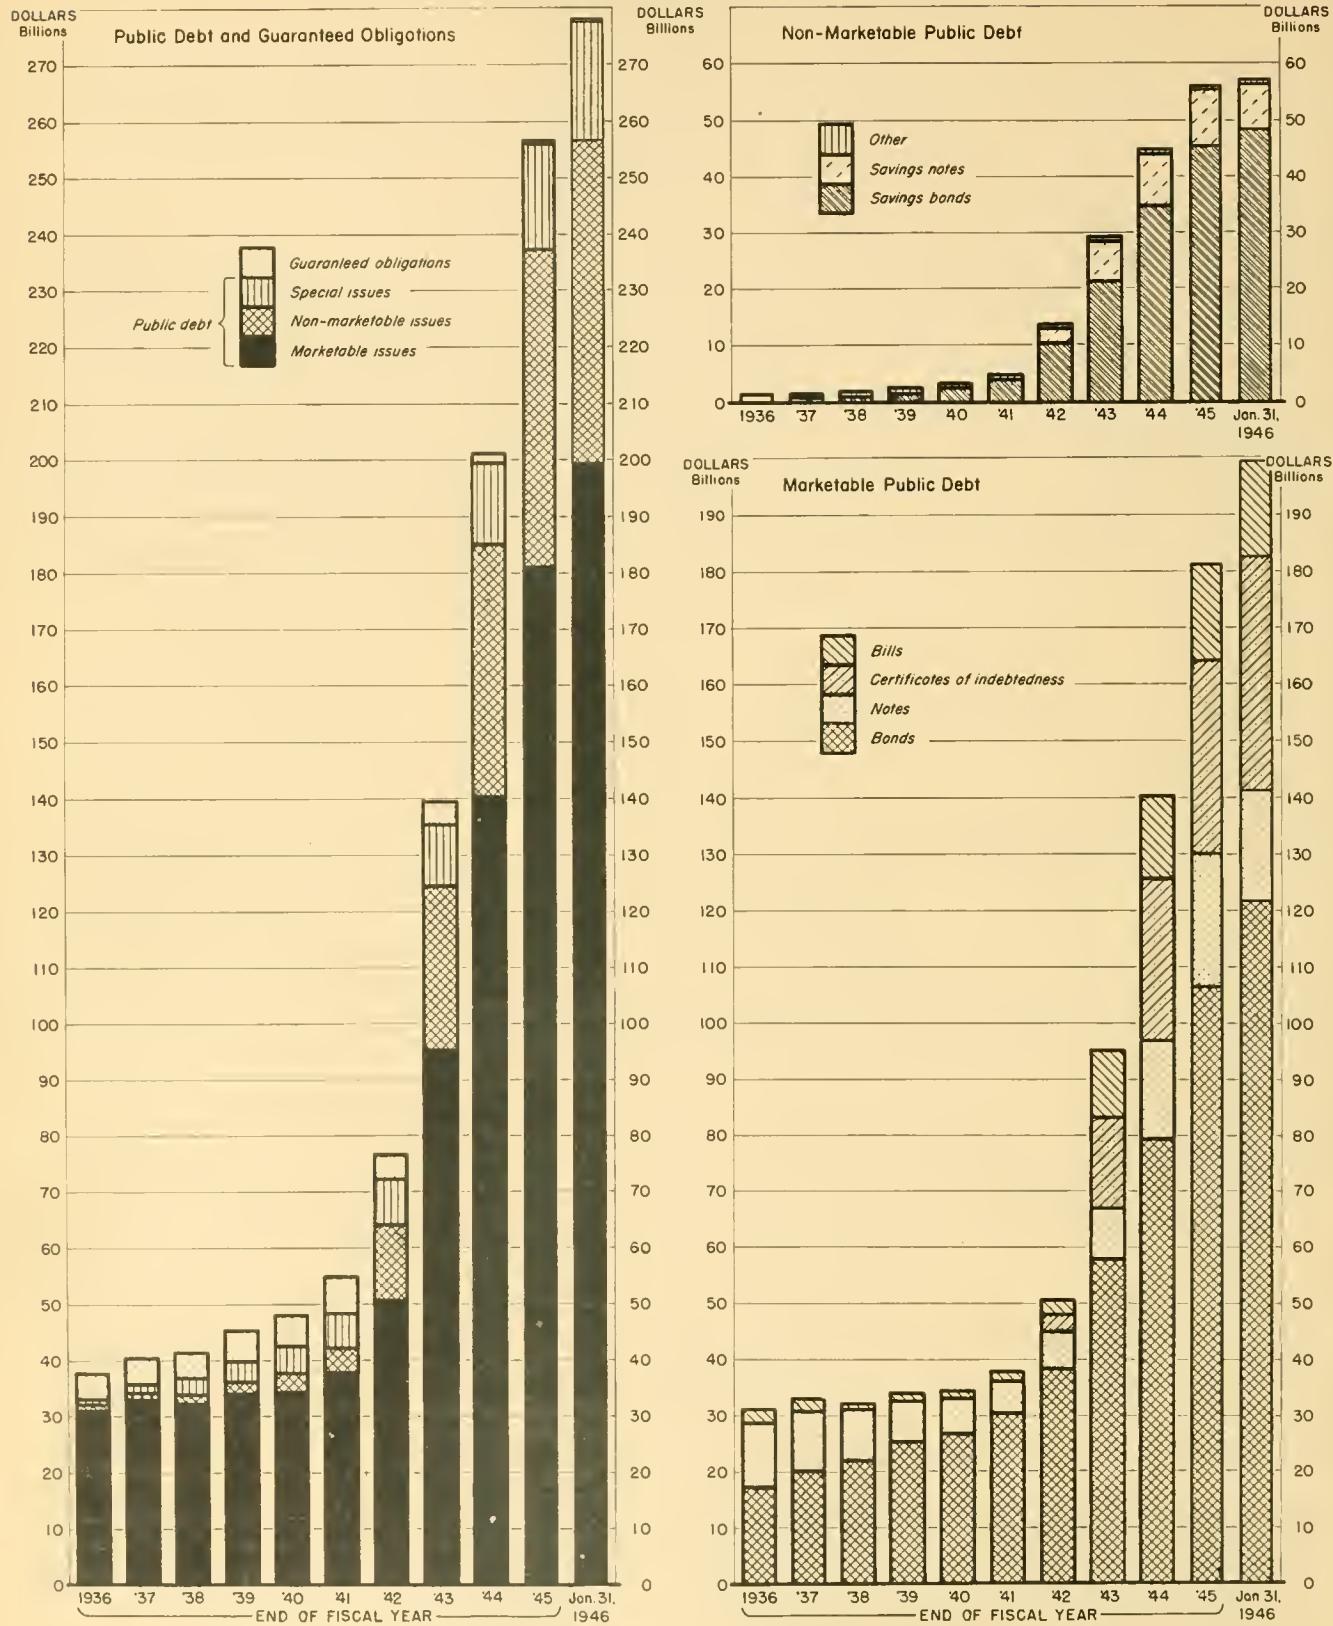

3/ The face value of any yearly series of United States savings bonds and Treasury savings notes maturing from month to month which are not currently presented for retirement are included in the interest-bearing debt until all the bonds or notes of the series have matured.

4/ Demand obligations.

5/ Consists of Reconstruction Finance Corporation notes, Series X-A, X-B, and X-C, which were held by United States Government corporations and credit agencies.

6/ Includes prepayments on securities.

Source: Daily Treasury Statements.

1/ Treasury bills are included in interest-bearing debt figures at face amount, but for purposes of calculating the computed annual interest charge and the computed rate of interest, the discount value is used. For the purposes of computing the annual interest charge and rate of

interest on United States savings bonds, Series A-E are considered to yield 2.90% per annum and Series F is considered to yield 2.53%. 2/ Guaranteed securities held by the Treasury, and securities guaranteed as to interest only, are not included in this table.

Statutory Limitation on the Public Debt

Section 21 of the Second Liberty Bond Act, as amended, provides that the face amount of obligations issued under authority of that Act, and the face amount of obligations guaranteed as to principal and

interest by the United States (except such guaranteed obligations as may be held by the Secretary of the Treasury), shall not exceed in the aggregate \$300 billion outstanding at any one time.

Table I.- Condition as of January 31, 1946

(In millions of dollars)

Maximum amount of securities which may be outstanding at any one time, under limitations imposed by Section 21 of the Second Liberty Bond Act, as amended.....	300,000
 Amount of securities outstanding subject to such statutory debt limitation:	
U. S. Government securities issued under the Second Liberty Bond Act, as amended 1/.....	288,768
Guaranteed securities 2/.....	558
Total amount of securities outstanding subject to statutory debt limitation.....	289,326
 Balance issuable under such authority.....	
	10,674

1/ For comparison with the public debt outstanding, see following table 2.
 2/ Includes guaranteed securities held by the Treasury.

Table 2.- Analysis of U. S. Government Securities Outstanding Subject to Statutory Debt Limitation and Comparison with the Public Debt Outstanding, January 31, 1946

(In millions of dollars)

	U. S. Government securities outstanding subject to statutory debt limitation 1/	Total public debt outstanding
 Interest-bearing securities:		
Marketable issues:		
Treasury bills.....	17,042	17,042
Certificates of indebtedness.....	41,502	41,502
Treasury notes.....	19,551	19,551
Treasury bonds - bank restricted 2/.....	53,151	53,151
Treasury bonds - bank eligible.....	68,207	68,207
Postal savings and other bonds.....	-	180
Total marketable issues.....	199,454	199,633
Non-marketable issues:

Source: Daily Treasury Statement, and reports to the Treasury.

^{1/} Excludes (1) postal savings bonds and (2) Federal Housing Administration debentures (the only interest-bearing public marketable guaranteed securities outstanding).^{2/} It should be noted that callable issues appear twice in this column, once in the year of first call and again in the year of final maturity. Callable issues with respect to which a definite notice of call has been made, however, are listed as fixed maturities.^{3/} Federal securities fall into three broad groups with respect to im-

position of Federal income taxes on income derived therefrom. "Wholly" tax-exempt securities are exempt from both the normal and surtax rates. "Partially" tax-exempt securities are exempt from the normal rates except that in the case of partially tax-exempt Treasury and savings bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax rates. "Taxable" securities are subject to both normal and surtax rates. Issues which commercial banks may not acquire prior to a specified date (with minor exceptions). See footnote 2, page 25.

Note: For period December 1941 through October 1943, see "Treasury Bulletin" for November 1944, page 32.

Preliminary.

1/ In the case of the reopening of a previously offered security, the period to first call and to maturity are calculated from the date interest commenced on the reopening.

2/ Restricted issues are those which commercial banks (defined for this purpose as banks which accept demand deposits) are not permitted to acquire prior to a specified date, with two exceptions: (1) concurrently with the 4th, 5th and 6th War Loans and the Victory Loan, commercial banks were permitted to subscribe to the restricted issue offered in the War Loan for limited investment of their savings deposits; (2) commercial banks may temporarily acquire restricted issues through foreclosure when such issues have been used as collateral.

3/ Consists of all public cash subscriptions and of subscriptions by

U. S. Government agencies and trust funds.

4/ Reopening of previously offered security.

5/ Interest commenced on October 15, 1943.

6/ Announcement of exchange offering was included in announcement of Third War Loan, August 16, 1943.

7/ Figures on amount of War Loan securities issued consist both of amounts issued in connection with the Drive, and of amounts issued concurrently with Drive to commercial banks and to Treasury investment accounts.

8/ Interest commenced on March 15, 1944.

9/ Interest commenced on June 26, 1944.

10/ Interest commenced on September 15, 1944.

11/ This is the same security that was offered in the Sixth War Loan.

12/ Exchanged as of December 15, 1944 and accrued interest charged from December 1 to December 15.

13/ Amounts not yet available.

Sales and Redemptions of United States Savings Bonds

United States savings bonds were first offered for sale in March 1935. Bonds of series A-D were sold between March 1935 and April 1941. Series E, F, and G bonds have been on sale since May 1, 1941.

Series A-E bonds are 10-year discount bonds sold at 75% of maturity value, and yield 2.90% per annum if held to maturity. Series F bonds are 12-year discount bonds sold at 74% of maturity value, and yield 2.53% per annum if held to maturity. Series G bonds are 12-year current income bonds, sold at par, bearing interest at 2-1/2% per annum, and redeemable at par at maturity or at stated prices less than par before maturity.

Purchases of series A-D bonds were limited to \$7,500 issue price in any one calendar year. These bonds were available to all subscribers prior to April 1, 1940, and to individuals only after that date. Purchases of series E bonds are limited to \$3,750 issue price in any one calendar year, and may be made only by individuals (defined as natural persons only). The limit for series F and G combined is \$100,000 issue price in any one calendar year (\$50,000 in calendar year 1941).

Series F and G bonds are available to all subscribers except commercial banks. Commercial banks, however, were permitted to purchase these bonds during certain periods and with certain restrictions. For details concerning these periods and restrictions see "Treasury Bulletin" for December 1944, page 36, footnote 9, and "Treasury Bulletin" for February 1946, page 37, footnote 9. For details concerning features, investment yields, and redemption values see "Treasury Bulletin" for May 1945, pages A-3 and A-4.

Series A bonds matured in 1945, and bonds of series B began to mature in January 1946. Matured bonds turned in for redemption are included in the figures on redemptions. Matured bonds outstanding are reflected in the interest-bearing debt until all bonds of the series have matured, when they are transferred to matured debt upon which interest has ceased, in accordance with the practice of the Daily Treasury Statement.

In the following tables sales figures are quoted at issue price, and redemptions and amounts outstanding at current redemption values. Amounts of series G outstanding are quoted at par.

Table 1.- Summary of Sales and Redemptions, by Series, as of January 31, 1946

United States savings bonds	Sales	Accrued discount	Sales plus accrued discount	Redemptions	Amounts outstanding		Percent of redemptions to sales plus accrued discount

Notes: It should be noted that State figures presented in this table are not necessarily comparable with sales data by States inasmuch as bonds which have been purchased in one State may have been redeemed in another. Moreover, the figures shown in this table are based on

current redemption values, whereas the sales figures are shown at issue prices. Data on redemptions by States are not available prior to October 1944.

• Less than \$500.

Sales and Redemptions of Treasury Savings Notes

Treasury savings notes were issued in three series, series A from August 1, 1941 through June 22, 1943, series B from August 1, 1941 through September 12, 1942, and series C which have been on continuous sale since September 14, 1942. All of series A and B and some of series C notes have matured.

Series C notes are sold at par, and accrue in value each month, yielding 1.07% per annum if held to maturity (3 years from date of issue). These notes may be used in payment of taxes any time after 2 months after issue, or may be redeemed for cash any time after 6 months after issue. For details concerning features, investment yields, and tax-payment or redemption values see "Treasury Bulletin" for October 1945, pages A-4 and A-5. For details concerning the features of series

A and B notes, see "Annual Report of the Secretary of the Treasury" for 1942, pages 207 and 220.

In the following tables sales and redemptions of Treasury savings notes are shown at par value. Matured notes turned in for redemption (either for cash or for tax-payment) are included in the figures on redemptions. Matured notes outstanding are reflected in the interest-bearing debt until all notes of the series have matured, when they are transferred to matured debt upon which interest has ceased, in accordance with the practice of the Daily Treasury Statement. For sales and redemptions of series A and B notes by fiscal years and months see "Treasury Bulletin" for February 1946, pages 42 and 43.

* Less than \$50,000.

1/ Consists of purchases or sales made by the Treasury. Treasury investment accounts comprises (1) trust funds which by law are under the control of the Secretary of the Treasury or of the Treasurer of the United States, and (2) accounts under the control of certain

U. S. Government agencies whose investments are handled through the facilities of the Treasury Department. This table also includes purchases under Section 19 of the Second Liberty Bond Act, as amended, and excludes the Exchange Stabilization Fund.

**Treasury Survey of Ownership of Securities Issued by the United States
Government and by Federal Agencies, December 31, 1945**

Section I - Securities Issued or Guaranteed by the United States Government

The tables in Section I present summary data as of December 31, 1945 from the Treasury Survey of Ownership of Securities Issued or Guaranteed by the United States. The banks and insurance companies covered in the survey account for approximately 95 percent of the amount of such securities

owned by all banks and insurance companies in the United States.

Section II presents summary data on the ownership of Federal land bank bonds and Federal intermediate credit bank debentures.

Table 1.- Summary: All Interest-Bearing Securities

(In millions of dollars)

Classification	Total amount outstanding	Held by investors covered in Treasury Survey							Held by all other investors 3/

Back Figures: The Treasury Survey commenced with data for March 31, 1941 and has been published regularly in the "Treasury Bulletin" since May 1941. Revisions of data for September 30, 1944 appeared in the February 1945 issue, page 53; reclassification of data on banks for the period November 1943 through February 1944 appeared in the May 1944 issue, page 52-57; revisions of data on insurance companies for May 31, 1943 and prior months appeared in the November 1943 issue, page 52-63.

* Less than \$500,000 or less than .05%.

1/ Securities held in trust departments are excluded.

2/ Includes trust companies.

3/ This column includes securities held by those banks and insurance companies which are not covered in the Treasury Survey. See headnote to this section.

4/ Issues which commercial banks may not acquire prior to a specified

date (with minor exceptions). See footnote 2, page 25.

5/ Guaranteed securities held by the Treasury are not included.

Federal securities fall into three broad groups with respect to imposition of Federal income taxes on income derived therefrom. "Wholly" tax-exempt securities are exempt from both the normal and surtax rates. "Partially" tax-exempt securities are exempt from the normal rates except that in the case of partially tax-exempt Treasury and savings bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax rates. "Taxable" securities are subject to both normal and surtax rates.

6/ Includes an estimated amount of Federal Housing Administration debentures.

g/ Actual figures by tax status are unavailable.

* Less than \$500,000.

- ^{1/} United States savings bonds, Series B-D, E, and F are shown at current redemption values. They were reported at maturity value by the banks and insurance companies covered in the Treasury Survey but have been adjusted to current redemption values for use in this statement.
^{2/} Federal securities fall into three broad groups with respect to imposition of Federal income taxes on income derived therefrom. "Wholly" tax-exempt securities are exempt from both the normal and surtax rates. "Partially" tax-exempt securities are exempt from the normal rates except that in the case of partially tax-exempt Treasury and savings bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the sur-

tax rates. "Taxable" securities are subject to both normal and surtax rates.

^{3/} Securities held in trust departments are excluded.

^{4/} Includes trust companies.

^{5/} This column includes securities held by those banks and insurance companies which are not covered in the Treasury Survey. See headnote to this section.

^{6/} Series B-D savings bonds sold prior to March 1, 1941 are partially tax-exempt; those sold on and after that date are taxable.

^{7/} ^{8/} Guaranteed securities held by the Treasury are not included. C.C.C. demand obligations in the amount of \$512 million held by all commercial banks are shown only in total amount outstanding.

* Less than \$500,000 or less than .05%.

1/ Included trust companies but excludes securities held in trust departments.

2/ Issues which commercial banks may not acquire prior to a specified date (with minor exceptions). See footnote 2, page 25.

3/ Guaranteed securities held by the Treasury are not included.

4/ Federal securities fall into three broad groups with respect to imposition of Federal income taxes on income derived therefrom.

"Wholly" tax-exempt securities are exempt from both the normal and

surtax rates. "Partially" tax-exempt securities are exempt from the normal rates except that in the case of partially tax-exempt Treasury and savings bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax rates.

"Taxable" securities are subject to both normal and surtax rates.

5/ Includes an estimated amount of Federal Housing Administration

debentures.

6/ Actual figures by tax status are unavailable.

- 1/ Excludes Federal Housing Administration debentures (the only interest-bearing public marketable guaranteed securities outstanding).
 2/ Prices represent the mean of closing bid and ask quotations in the over-the-counter market, except that prices of Treasury bonds for the period prior to October 1, 1939, represent closing prices on the New York Stock Exchange. "When issued" prices are included in history beginning October 1, 1939. Dates of highs and lows, in case of recurrence, are the latest dates.
 3/ Market convention treats the yield to earliest call date as more significant when an issue is selling above par; the yield to maturity as more significant when an issue is selling at or below par.
 4/ Included in the Average Yield of Long-Term Taxable Treasury Bonds.
 5/ Issues which commercial banks may not acquire prior to a specified

- date (with minor exceptions). See footnote 2, page 25.
 6/ Quoted on a yield basis.
 7/ Not quoted on January 31, 1946; quoted on price basis at par from January 23 through January 30; from January 14 through January 22, quoted on basis of zero yield plus premium per thousand dollars; prior to January 14, quoted on a yield basis.
 8/ For amount of this security issued on February 1, 1946, see table on "Offerings of Marketable Issues of Treasury Bonds, Notes, and Certificates" in the chapter on "Public Debt and Guaranteed Obligations of the United States Government."
 9/ Called on November 14, 1945, for redemption on March 15, 1946.
 10/ Excludes postal savings bonds.

Over-the-Counter Closing Quotations on Public Marketable Securities Issued by the
United States Government and by Federal Agencies

1/ Prices represent the mean of closing bid and ask quotations in the over-the-counter market. "When issued" prices for all securities except Federal Intermediate Credit Bank debentures are included beginning November 1, 1941. Dates of highs and lows, in case of recurrence, are the latest dates.

2/ Market convention treats the yield to earliest call date as more

significant when an issue is selling above par; the yield to maturity as more significant when an issue is selling at or below par. Prices quoted are subject to a dealer's commission. These securities are not shown until date of issue.

3/ Excludes issues completely held by Farm Credit Administration agencies.

YIELDS OF TREASURY SECURITIES JAN. 31, 1946
 Based on Mean of Closing Bid and Asked Quotations

Explanation The points represent yields to call date when prices are above par, and to maturity date when prices are at par or below. The smooth curves for the various classes of points are fitted by eye. Issues for which an exchange offer has been made or which are due or callable in less than 3 months are excluded.

Basis of Computation: (1) Treasury bond yields are computed on the basis of the mean of closing bid and ask quotations in the over-the-counter market, beginning September 2, 1941; previously, closing prices on the New York Stock Exchange were used on days when sales took place on the Exchange in a particular issue and the mean of closing bid and ask quotations on the New York Stock Exchange on days when no sales took place. (2) Corporate bond yields are computed on the basis of closing prices on the New York Stock Exchange and the New York Curb Exchange; on days when an issue does not sell, the price of the last preceding sale is used.

Back Figures: Monthly and weekly data for the period January 1933 through March 1944 appeared in the "Treasury Bulletin" for April 1944.

1/ Average of Treasury bonds neither due nor callable for fifteen years. For discussion of composition of average see "Treasury Bulletin" for March 1944, page 53. Partially tax-exempt bonds are those the interest on which is exempt from the normal rates of the Federal income tax, except that in the case of partially tax-exempt Treasury and United States savings bonds, interest derived from

\$5,000 of principal amount owned by any one holder is also exempt from the surtax rates of the Federal income tax. Taxable bonds are those the interest on which is subject to both the normal and surtax rates of the Federal income tax.

2/ For discussion of present composition of high-grade corporate bond average, see "Treasury Bulletin" for January 1945, page 56; for discussion of its previous composition, as well as the considerations underlying its construction, see "Treasury Bulletin" for April 1943, page 61.

3/ Monthly averages of daily figures. Prior to April 1, 1938, corporate bonds are average of Saturday figures.

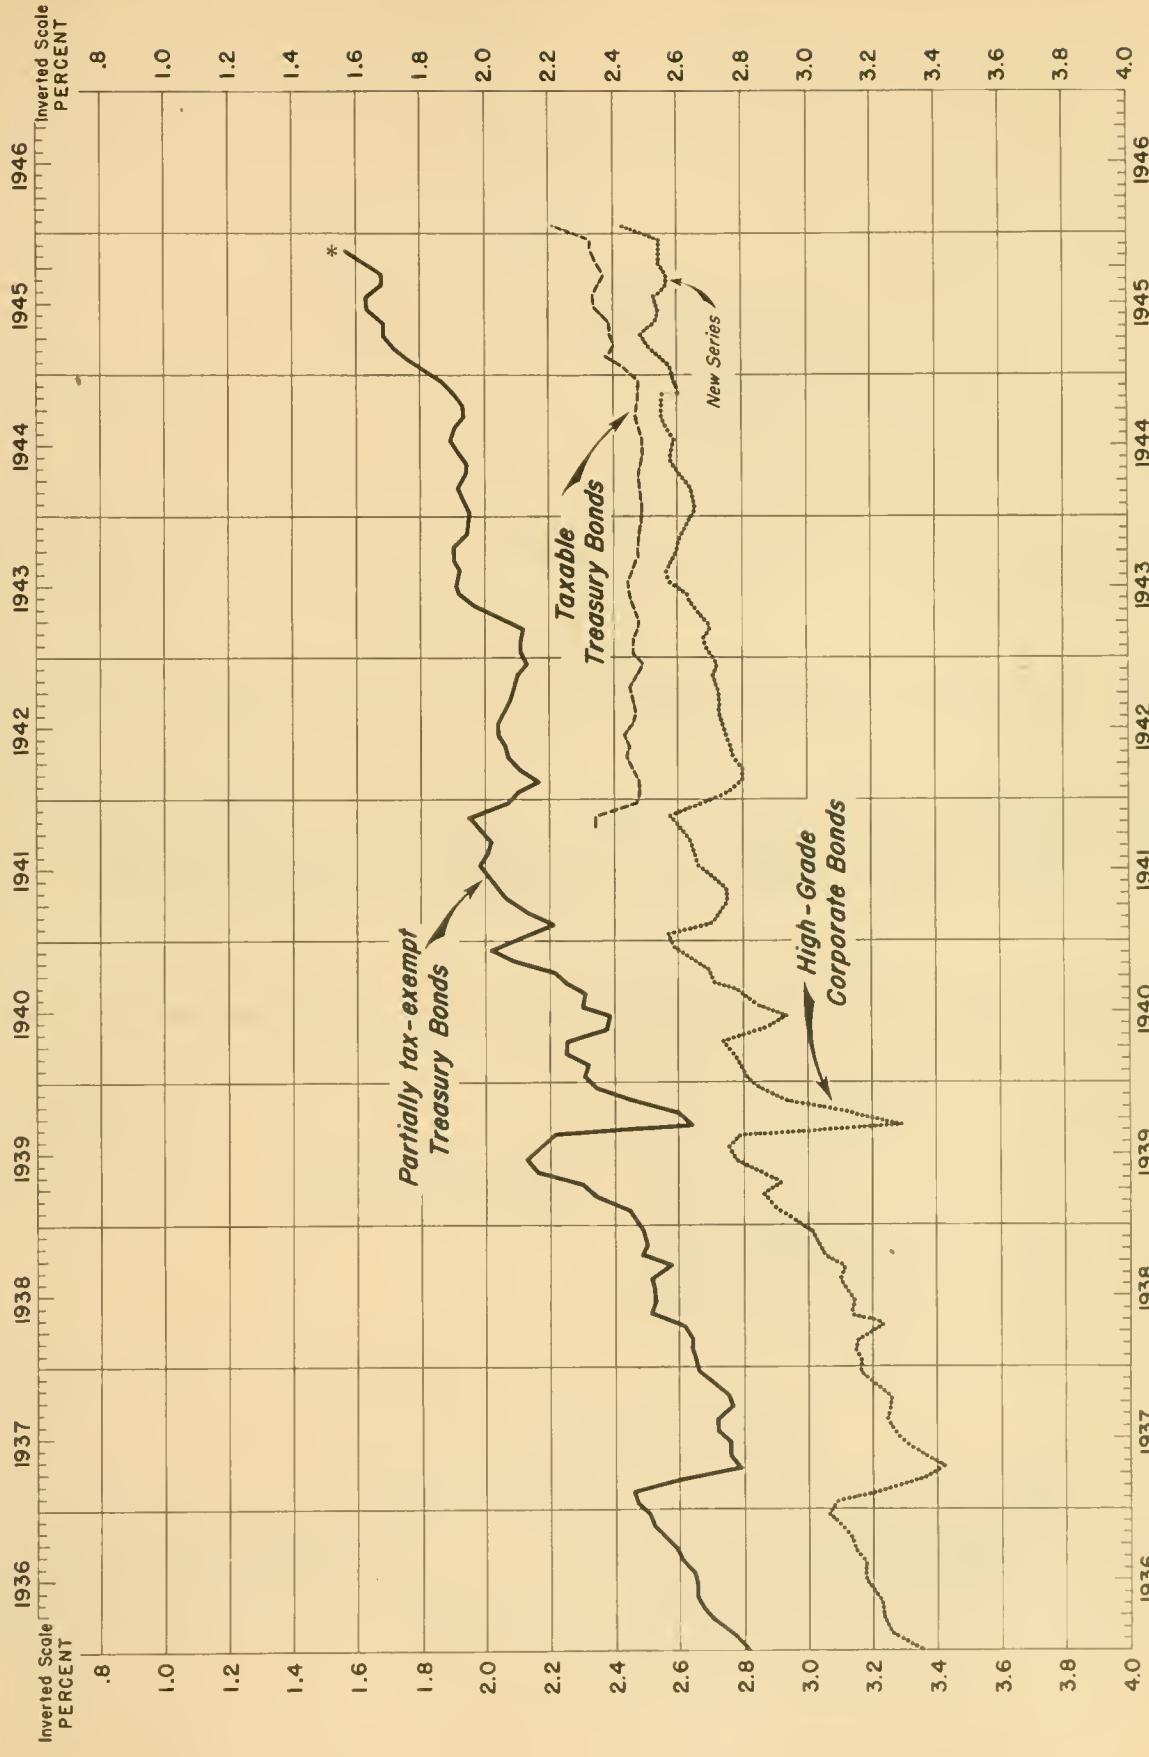

4/ The composition of the high-grade corporate bond average was revised commencing with November 1, 1944. The old average for November 1944 was 2.56%. See footnote 2.

5/ Discontinued on December 15 because after that date there were no bonds outstanding due or callable after 15 years.

6/ On days when the exchanges are closed, the date and price of the previous day are used.

7/ Holiday.

AVERAGE YIELDS OF LONG-TERM TREASURY AND CORPORATE BONDS

1/ Consists of accounts and notes receivable, accrued assets, and advances to contractors and agents.

2/ Paper purchased under C.C.C. programs reclassified as "Loans receivable from others".

3/ Consists of deferred charges, undistributed charges, and other assets.

10/ Includes notes for short-term borrowings.

11/ Includes \$2,000,000 note in transit.

12/ The figure for demand obligations of the Commodity Credit Corporation reflected in this statement differs from that shown elsewhere

in the "Treasury Bulletin" because in other tables this figure is partially as of November 30, 1945.

13/ Consists of deferred credits, undistributed credits, and other liabilities (including liability reserves).

14/ Negative figures indicate deficit.

15/ Consists of paid-in capital (U. S. owned), Treasury loans to Government corporations, and earned surplus or deficit (U. S. share).

16/ Negative figures indicates amounts due from Government agencies. Figures are as of November 30, 1945 and include Warrior River

Source: Daily Treasury Statement, February 15, 1946.

* Less than \$50,000.

1/ Figures are as of November 30, 1945, with exception of those of Lend-Lease and U.N.R.R.A. activities.

2/ Consists of Agricultural Marketing Act Revolving Fund and Emergency Crop and Feed Loans.

3/ Consists of Indian Loans, Puerto Rican Hurricane Relief Loan Section, and Puerto Rico Reconstruction Administration.

4/ Consists of Public Works Administration and War Public Works, Community Facilities.

5/ Figures are a combination of accrual and cash bases.

6/ Consists of Navy Department, sale of surplus supplies (World War I), and guaranteed loans (World War II); War Department, guaranteed loans (World War II); Federal Public Housing Authority, war housing and subsistence homesteads; Federal Security Agency, loans to students; and Treasury Department, miscellaneous loans and certain other assets.

7/ Excludes unexpired balances of appropriated funds.

8/ Consists of accounts and notes receivable, accrued assets, and advances to contractors and agents.

9/ Consists of deferred charges, undistributed charges, and other assets.

10/ Consists of deferred credits, undistributed credits, and other liabilities (including liability reserves).

11/ Includes the value of vessels and other expenses transferred from the U. S. Maritime Commission.

12/ Excludes the value of vessels and other expenses transferred to the War Shipping Administration for which no transfer of funds will be required.

13/ Represents excess of expenditures incurred pursuant to legislation for such activities as: Construction and operation of merchant marine fleet in interest of the war effort; relief to farmers; loans and grants for rural rehabilitation and subsistence homesteads; relief and rehabilitation in Puerto Rico; loans, grants, and relief in construction of housing, public works, and community facilities; and others.

14/ Negative figures indicate excess of expense.

15/ Includes \$70.8 million representing equity of mortgagors in earnings of group accounts of the Mutual Mortgage Insurance Fund.

16/ Consists of paid-in capital (U. S. owned), less Treasury loans to Government corporations, plus excess of income (or expense).

17/ Negative figures indicate amounts due from Government agencies.

Source: (1) Total receipts from internal revenue: Daily Treasury Statements; (2) Detailed collections by type of tax: Reports of collections made by collectors of internal revenue.

^r Revised.

^{1/} Excludes collections for credit to certain trust accounts for territories and insular possessions, etc.

^{2/} Includes collection of taxes withheld by employers pursuant to the Revenue Act of 1942 and the Current Tax Payment Act of 1943.

^{3/} Includes income tax collections on Alaskan Railroads. The excess profits tax included in this column is that imposed under the Second Revenue Act of 1940, as amended.

^{4/} Consists of the declared value excess profits tax, the profit limit-

ing provisions of the Vinson Act, and the tax on unjust enrichment.

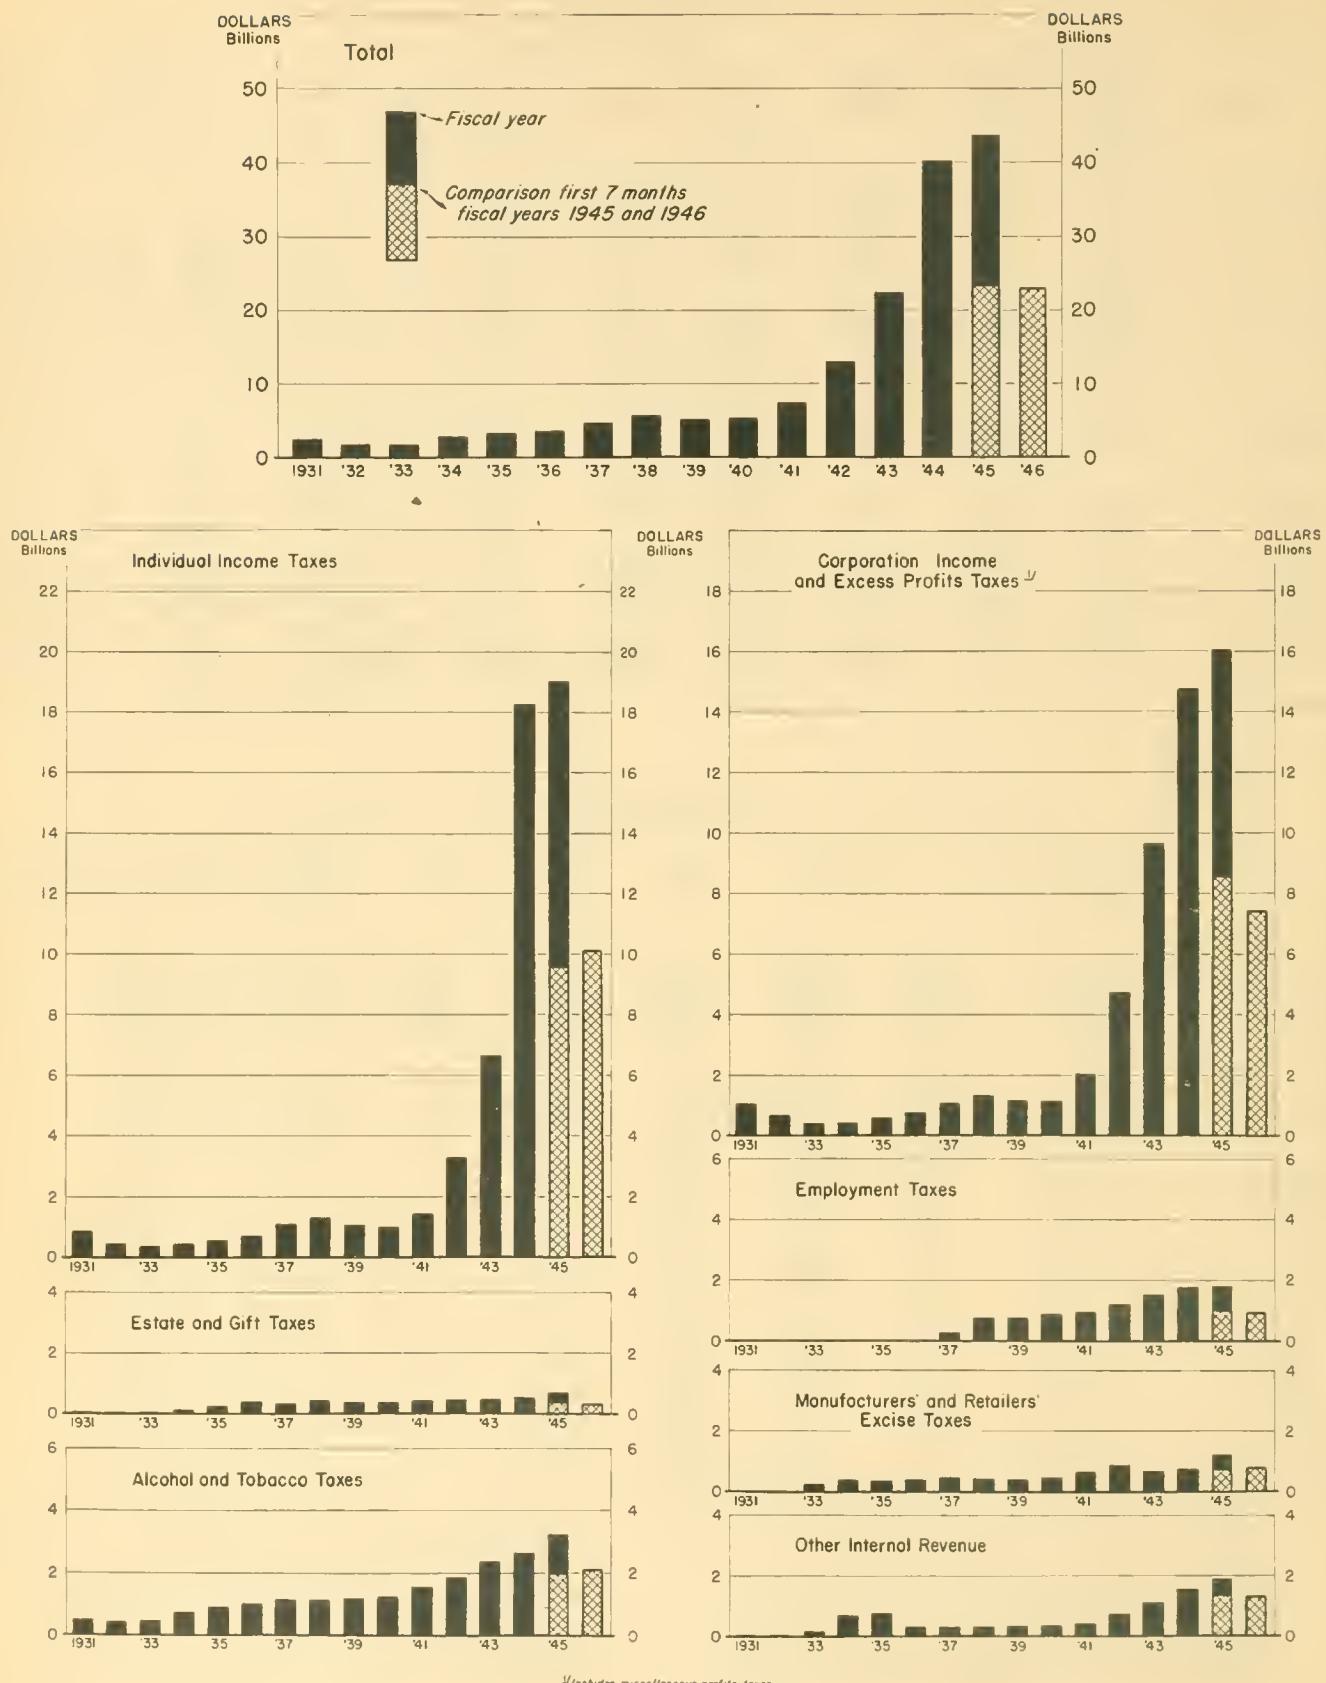

^{5/} Represents collections under the Federal Insurance Contributions Act commencing September 1939; prior thereto, collections under Title VIII of the Social Security Act.

^{6/} Represents collections under the Federal Unemployment Tax Act commencing September 1939; prior thereto, collections under Title IX of the Social Security Act.

^{7/} Represents collections under the Carriers Taxing Act of 1937.

^{8/} Includes tax collections under the Sugar Act of 1937 and under the dividends tax imposed by the Act of June 16, 1933.

Source: (1) Total receipts from internal revenue: Daily Treasury Statements; (2) Detailed collections by type of tax: Reports of collections made by collectors of internal revenue.

* Revised.

• Less than \$500.

1/ Excludes collections for credit to certain trust accounts for territories and insular possessions, etc.

2/ Consists only of collections for which returns have been filed with the Collector of Internal Revenue. Collections under this act as shown in Daily Treasury Statements consist of withholdings deposited in Government depositories in addition to payments accompanying returns filed with the Collector of Internal Revenue.

3/ Current collections consist in general of taxes paid within twelve months after the close of the taxable year for which the return was

filed.

4/ Current individual income tax collections for the fiscal year 1945 include payments on unforgiven portion of 1942 tax, due March 15, 1945, of \$308,605 thousand for the period January 1, 1945 through April 30, 1945.

5/ Revisions represent payments on 1944 estimated tax (Form 1040 ES for 1944) previously classified as back taxes, now classified as current taxes.

6/ Represents collections under the Federal Insurance Contributions Act.

7/ Represents collections under the Federal Unemployment Tax Act.

8/ Represents collections under the Carriers' Taxing Act of 1937.

9/ Tax imposed upon the manufacture and sale of, and the occupational tax on, mixed flour repealed as of November 1, 1942.

Source: Daily Treasury Statements.

1/ These items represent the difference between the cost value and the monetary value of silver bullion revalued and held to secure

silver certificates.

2/ The figures in this column are not cumulative; as the amount of bullion held changes, the potential seigniorage thereon changes.
