Treasury Financing Operations

May Bills Refunded

Five new issues of 91-day Treasury bills refunded the May maturities in the full amount of \$8.0 billion. Each new issue amounted to \$1.6 billion, the amount equivalent to the weekly maturity. The average rates of discount on the May issues were 2.741 percent for May 3; 2.524 percent for May 10; 2.708 percent for May 17; 2.702 percent for May 24; and 2.573 percent for May 31.

Note: Details of Treasury market financing operations are shown elsewhere in this issue of the "Treasury Bulletin," in the tables on "Offerings" and "Disposition," respectively, of marketable issues of bonds, notes, and certificates of indebtedness, and in the table "Offerings of Treasury Bills."

Source: Actual figures are from the old daily Treasury statement through the fiscal year 1952 and the calendar year 1953; actual figures on the new reporting basis (see footnotes 6) are from the new daily Treasury statement and the "Monthly Statement of Receipts and Expenditures of the United States Government"; 1957 estimates are based on the 1957 Budget document, released January 16, 1956, including effects of proposed legislation; 1956 estimates are as revised in the release of May 17, 1956. More detailed information with respect to the figures on this page is given in succeeding tables.

1/ Gross receipts less transfers of tax receipts to the Federal Old-Age and Survivors Insurance Trust Fund and the Railroad Retirement Account, and refunds of receipts.

2/ Transactions of the Foreign Economic Cooperation Trust Fund, established under Section 114 (f) of the Economic Cooperation Act of 1948 (62 Stat. 150), are consolidated with budget expenditures. Beginning with the fiscal year 1951, net investment by wholly owned Government enterprises in public debt securities is excluded from budget expenditures, and is included with other such investment under "Trust account and other transactions."

3/ Consists of transactions of trust and deposit funds, investment by Government agencies in public debt securities, and redemption or sale of obligations of Government agencies in the market; excess of receipts, or expenditures (-). For detail of content, see page 5.

4/ For checks outstanding, telegraphic reports from Federal Reserve Banks, public debt interest accrued and unpaid beginning with June and the first

cal year 1955 (previously included from November 1949 as interest checks and coupons outstanding), and deposits in transit and cash held outside the Treasury beginning with the fiscal year 1954; net increase, or decrease (-).

For current month detail, see section on "Statutory Debt Limitation" in each issue of the Bulletin. The limitations in effect during the period covered by this table and the date when each became effective are as follows: June 9, 1944, \$260 billion; April 3, 1945, \$300 billion; June 26, 1946, \$275 billion; and August 28, 1954, \$281 billion (temporary increases ending on June 30, 1956). Guaranteed securities are included under the limitation beginning April 3, 1945. Savings bonds are included at current redemption value beginning June 26, 1946; prior to that time they were carried at maturity value. In the debt outstanding, savings bonds are carried at current redemption value.

New reporting basis as announced February 17, 1954 (see April 1954 "Treasury Bulletin," page A-2), beginning with the fiscal year 1953 and the calendar year 1954. The new daily Treasury statement shows cash deposits and withdrawals in the account of the Treasurer of the United States. The monthly statement includes agency transactions not cleared through the Treasurer's account, and shows receipts when they are received by collecting officers and expenditures when checks are issued or payments are made by disbursing officers.

5/ No estimate was made for these items in the release of May 17, 1956.

6/ Immediate postwar debt peak of \$279,764 million was on February 28, 1946. n.e. Not available.

Source: Actual figures through 1952 are from the old daily Treasury statement; actual figures on the new reporting basis are from the "Monthly Statement of Receipts and Expenditures of the United States Government"; 1957 estimates are based on the 1957 Budget document, released January 16, 1956, including effects of proposed legislation; 1956 estimated total is from the revised estimates released May 17, 1956.

1/ For further detail, see tables under "Internal Revenue Collections."

2/ Breakdown was not made in the daily Treasury statement and the monthly statement for years prior to 1954.

3/ Beginning January 1951, the distribution of receipts between individual income taxes and old-age insurance taxes is made in accordance with provisions of Sec. 109 (e)(2) of the Social Security Act Amendments of

1950, for transfer to the Federal Old-Age and Survivors Insurance Trust Fund (see footnote 13).

4/ Taxes on employers and employees under the Federal Insurance Contributions Act, as amended (26 U.S.C. 1400-1432) and, beginning with the taxable year 1951, tax on self-employed individuals under the Self-Employment Contributions Act (26 U.S.C. 480-482).

5/ Taxes on carriers and their employees under the Railroad Retirement Tax Act (26 U.S.C. 1500-1538).

6/ Tax on employers of 8 or more under the Federal Unemployment Tax Act, as amended (26 U.S.C. 1600-1611).

Source: Fiscal year figures by functions and 1957 estimated total are from the 1957 Budget document, released January 16, 1956, including effects of proposed legislation; 1956 estimated total is from the revised estimates released May 17, 1956; totals of actual expenditures for years prior to 1953 are from the old daily Treasury statement; beginning with 1953, they are from the Treasury's "Monthly Statement of Receipts and Expenditures of the United States Government." Figures by months are based on the monthly statement. Transactions by public enterprise funds are included on a net expenditure basis throughout. Net investment in United States securities is included in expenditures by functions through 1949 and in the total through 1950.

1/ As announced February 17, 1954; see page 1, footnote 6.

2/ Detailed estimates were not made in the release of May 17, 1956, on the basis of classifications in this table.

3/ Total includes reserve for contingencies amounting to \$225 million in 1957.

4/ Beginning July 1955 figures by months include undistributed foreign transactions by Air Force and Army.

5/ Effective June 30, 1955, interest on the public debt is reported on an accrual basis.

6/ Differs from figure in Budget document because total includes net investment in United States securities by wholly owned Government enterprises (see source note).

Source: See Table 2.

1/ Expenditures for Army defense include some expenditures for the Air Force financed from 1949 and prior year appropriations.

2/ As announced February 17, 1954; see page 1, footnote 6.

3/ Estimates for 1956 were not made in the release of May 17, 1956, so the

basis of classifications in this table.

4/ Total includes \$200 million for Department of Defense under proposed legislation.

5/ Beginning July 1955 figures by months include undistributed foreign transactions by Air Force and Army.

Footnotes to Table 1 - (Continued)

Footnotes 1 through 6 follow Table 1.

7/ Through 1953, contributions to the Railroad Unemployment Insurance Administration Fund were carried in the daily Treasury statement as miscellaneous receipts, while the 1957 Budget document includes them in employment taxes through 1952. This difference in classification accounts for the difference in figures from the two sources. Beginning 1954 the contributions are credited direct to the trust account. For amounts of the contributions included in budget receipts, see "Treasury Bulletin" for February 1954, page 7.

8/ As announced February 17, 1954; see page 1, footnote 6.

9/ In the 1957 Budget, internal revenue taxes not otherwise classified are included in miscellaneous receipts.

10/ Estimates in full detail for 1956 were not made in the release of May 17, 1956.

11/ Individual income taxes withheld have been increased by \$249 million representing adjustments to correct estimates for the quarter ended June 30, 1955, and prior quarters by \$149 million and for the quarter ended September 30, 1955, by \$100 million. Individual income taxes not withheld have been reduced by \$4 million representing adjustment to correct estimates for 1953 and prior calendar years. The old-age insurance taxes and the transfers to the trust fund have been reduced by the net of these adjustments or \$246 million. The adjustments were made pursuant to Sec. 109 (a)(2) of the Social Security Act Amendments of 1950.

12/ Includes proceeds from sale of surplus property and from Government-owned securities; seigniorage; deposits resulting from renegotiation of war contracts (see "Treasury Bulletin" for February 1948, page 5); and railroad unemployment insurance contributions for administrative expenses through 1953, after which they are carried as trust account receipts under the Railroad Retirement Board.

13/ Amounts appropriated to the Federal Old-Age and Survivors Insurance

Trust Fund are equivalent to the amounts of taxes collected and deposited for old-age insurance (42 U.S.C. 401 (a)). The Social Security Act Amendments of 1950, approved August 28, 1950 (64 Stat. 477), changed in certain respects the basis of transferring the appropriated funds to the trust fund. Beginning January 1951, the amounts transferred currently for appropriation to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury pursuant to the provisions of Sec. 109(a)(2) of the Amendments of 1950, and are adjusted in later transfers on the basis of wage and self-employment income records maintained in the Social Security Administration. The amount of old-age insurance tax refunds is paid from the trust fund as a reimbursement to the general fund.

14/ Excludes the Government's contribution for creditable military service under the act of April 8, 1942 (56 Stat. 204). Beginning 1952, amounts are appropriated to the Railroad Retirement Account equal to the amount of taxes under the Railroad Retirement Tax Act deposited in the Treasury, less refunds, during each fiscal year (65 Stat. 222 and 66 Stat. 371), and transfers are made currently. Previously, annual appropriations were based, in effect, on estimated tax collections, with any necessary adjustments made in succeeding appropriations.

15/ Interest on refunds is included in expenditures in Table 2. Reimbursement by Federal Old-Age and Survivors Insurance Trust Fund for refunds of taxes for the fiscal year (see footnote 13) is netted against internal revenue refunds for the month in which the reimbursement is made.

16/ Transfers for the fiscal year 1955 were reduced by \$300 million as an adjustment for excess transfers to the trust fund of \$90 million in 1952 and \$210 million in 1953 pursuant to Sec. 109 (a) (2) of the Social Security Act Amendments of 1950.

Sources: Actual figures through 1952 are from the old daily Treasury statement; actual figures on the new reporting basis are from the "Monthly Statement of Receipts and Expenditures of the United States Government"; estimates are based on the 1957 Budget document, released January 16, 1956, including effects of proposed legislation; revised estimates for 1956 released May 17, 1956, did not include estimates for "trust account and other transactions."

1/ Prior to 1951 net investment in public debt securities by certain trust accounts and by deposit fund accounts is included in trust and deposit fund account expenditures and excluded from net investment by Government agencies (see Tables 3 and 4); for treatment of security transactions of Government-sponsored enterprises beginning 1955, see footnote 4.

2/ Excludes Foreign Economic Cooperation Trust Fund (see page 1).

3/ As announced February 17, 1954; see page 1, footnote 6.

4/ Under a revised classification in the monthly statement, effective July 1, 1955, the security transactions of Government-sponsored enterprises are included in deposit fund account expenditures (net) and excluded from net investment by Government agencies in public debt securities (see Table 4) and from net redemption or sale of obligations of Government agencies in the market (see Table 5). Figures previously published for the fiscal year 1955 have been revised to the new classification basis.

5/ Guaranteed securities included beginning 1955 (see Table 4).

1/ Consists of Civil Service and Foreign Service retirement funds.

2/ Includes Adjusted Service Certificate Fund, District of Columbia, Indian tribal funds, increment resulting from reduction in the weight of the gold dollar, and through 1950 seigniorage on silver under the Silver Purchase Act of 1934. Thereafter any such seigniorage is included with other seigniorage under budget receipts. Beginning

with the fiscal year 1954, the Railroad Unemployment Insurance Administration Fund is classified as a trust account, instead of being handled through budget accounts as formerly (see "Budget Receipts and Expenditures," Table 1, footnote 12).

3/ Excludes Foreign Economic Cooperation Trust Fund (see page 1).
4/ As announced February 17, 1954; see page 1, footnote 6.

CASH INCOME AND OUTGO

The cash income and outgo data appearing in the "Treasury Bulletin" have been revised, beginning with the February 1956 issue, to a basis consistent with receipts from and payments to the public as derived in the 1957 Budget of the United States, Special Analysis A. Reconciliation to cash deposits and withdrawals in the account of the Treasurer of the United States is shown on the same basis as in the Budget document. There is also shown the amount of net cash borrowing from, or repayment of borrowing to, the public. By these arrangements, data in accordance with the Budget classifications are made available month by month. Figures for back years have been revised where necessary in order to make them as nearly comparable with the 1957 Budget classifications as available data will permit. For this reason certain of the figures differ somewhat from those published in earlier Budget documents as well as in the Bulletin.

The Budget series of cash transactions is designed to provide information on the flow of money between the public and the Federal Government as a whole, and therefore includes transactions not cleared through the Treasurer's account. Receipts and payments include transactions both in budget accounts and in trust and deposit fund accounts. Operations of Government-sponsored enterprises are included in payments on a net basis as reflected in Treasury reports. Major intragovernmental transactions which are reported as both expenditures and receipts are eliminated from both. Noncash items which represent accrued obligations of the Government to make payments in the future are also eliminated from expenditures but are added later when actual payments are made. Receipts from the exercise of monetary authority (mostly seigniorage on silver) are excluded as not

representing cash received from the public. Federal cash borrowing from the public includes net borrowing by the Treasury through public debt transactions and also net borrowing by Government agencies and Government-sponsored enterprises through sales of their own securities. It excludes changes in the public debt which do not represent direct cash borrowing from the public. The net effect of all these transactions with the public is reflected in changes in the balance in the Treasurer's account and in cash held outside the Treasury.

Cash transactions through the Treasurer's account are similar in general concept to those included in the Budget series, but are limited in coverage to transactions which affect the balance in that account. On the other hand, they include receipts from the exercise of monetary authority, which are excluded from receipts from the public in the Budget series.

Beginning with figures for the fiscal year 1953, the series of transactions with the public is based on the "Monthly Statement of Receipts and Expenditures of the United States Government," which is compiled from reports by all collecting and disbursing officers and includes those transactions not cleared through the Treasurer's account. Cash deposits and withdrawals in the Treasurer's account, beginning with the figures for the same year, are reported in daily Treasury statements. For those years prior to 1953 both cash transactions series are based on a single source, namely, the earlier basis of daily Treasury statements which reported separate classifications for budget results, trust account transactions, etc.

CASH INCOME AND OUTGO

Footnotes to Table 3

- 1/ For further detail, see "Budget Receipts and Expenditures," Table 1.
 2/ For further detail, see "Trust Account and Other Transactions," Table 2.
 3/ Treated as noncash refund deductions from receipts when issued and as cash refund deductions when redeemed.
 4/ Consists of seigniorage on silver and increment resulting from reduction in the weight of the gold dollar; excluded from receipts from the public

- but included in cash deposits in the Treasurer's account.
 5/ Total includes \$8 million of armed forces leave bonds redeemed for insurance premiums; after August 31, 1947, these bonds were redeemable for cash (see Tables 6 and 7).
 6/ As announced February 17, 1954; see page 1, footnote 6.
 * Less than \$500,000.

Footnotes to Table 4

- 1/ For further detail, see "Budget Receipts and Expenditures," Table 2.
 2/ For further detail, see "Trust Account and Other Transactions," Tables 3, 4, and 5. Includes net change in balances in Government-sponsored enterprise deposit fund accounts with the Treasurer of the United States. Net operating expenditures, or receipts (-), as measured by funds provided by or applied to net security transactions reflected in Treasury reports (see Table 7). To a large extent, these Government-sponsored enterprises secure funds for their operations by direct borrowing from the public or by cashing Federal securities which they hold, and they apply the net income received from operations to repayment of borrowing from the public or to investment in Federal securities. On that basis, net ex-

- penditures for operations are shown in this table in terms of the combined net of disinvestment in Federal securities and sale of agency obligations in the market, and net receipts from operations are shown in terms of the combined net of investment in Federal securities and redemption of agency obligations in the market.
 4/ Not reported prior to 1954.
 5/ Consists of only those market transactions not cleared through the Treasurer's account.
 6/ As announced February 17, 1954; see page 1, footnote 6.
 7/ See Table 7, footnote 2.

Footnotes to Table 5

- 1/ Federal intermediate credit bank franchise tax and, beginning 1953, also reimbursement by Panama Canal Company for expenses and services.
 2/ Includes reimbursement by Federal Old-Age and Survivors Insurance Trust Fund for administrative expenses and, beginning fiscal year 1953, also for refunds of taxes (treated as an offset to refunds rather than being credited to receipts); reimbursement by the District of Columbia; and through 1949, proceeds of ship sales which had been carried in trust accounts pending allocation to budget receipts from sale of surplus property.
 3/ Consists of payment of earnings and repayment of capital stock to the Treasury through 1952, and beginning 1955, payment of franchise tax by banks for cooperatives.
 4/ Includes relatively small amounts of deductions from salaries paid by trust funds and Government-sponsored enterprises.

- 5/ Consists of United States and Government corporation shares of contributions to employees' retirement funds, and payments to the Railroad Retirement Account (for creditable military service), the Unemployment Trust Fund, veterans' life insurance funds, trust fund for technical services and other assistance under the agricultural conservation program, and District of Columbia.
 6/ Includes District of Columbia share of contributions to the Civil Service retirement fund, payments by Railroad Retirement Board to Federal Old-Age and Survivors Insurance Trust Fund, transfers from Civil Service retirement fund to Foreign Service retirement fund, and transfers from Railroad Unemployment Insurance Administration Fund to Unemployment Trust Fund.
 7/ As announced February 17, 1954; see page 1, footnote 6.
 * Less than \$500,000.

Footnotes to Table 6

- 1/ Accrued discount on savings bonds and bills less interest paid on savings bonds and bills redeemed.
 2/ Public debt interest accrued and unpaid beginning June 30, 1955, effective date of the change in accounting and reporting from a due and payable basis to an accrual basis; for 1954, consists only of public debt interest checks and coupons outstanding; net increase, or decrease (-). Not reported as a separate clearing account prior to 1954; interest reported when paid by Treasurer prior to November 1949.
 3/ Treated as noncash expenditures at the time of issuance of the securities and as cash expenditures at the time of their redemption; net issuance, or redemption (-).
 4/ Issued in 1936 in exchange for adjusted service certificates held by veterans of World War I. The bonds matured in 1945.
 5/ Issued in 1947 in payment for accumulated leave. Figure for 1948 excludes \$8 million redeemed for insurance premiums prior to August 31, 1947, which was included in trust account receipt (see Table 3,

- footnote 5); after that date they were redeemable for cash. The last of these bonds matured in 1951.
 6/ Part of the United States subscription to the capital of the International Bank for Reconstruction and Development and to the International Monetary Fund was paid in the form of noninterest-bearing, nonnegotiable notes payable on demand (see 1947 Annual Report of the Secretary of the Treasury, pages 48, 350, and 385). The last of the notes issued to the Bank was redeemed in 1950.
 7/ By wholly owned Government enterprises; beginning 1951, such net investments are reported separately and are not included in expenditures (see "Trust Account and Other Transactions," Table 4).
 8/ Checks outstanding less deposits in transit, and telegraphic reports from Federal Reserve Banks; increase, or decrease (-). For public debt interest included prior to 1954, see footnote 2.
 9/ As announced February 17, 1954; see page 1, footnote 6.
 * Less than \$500,000.

Footnotes to Table 7

- 1/ As announced February 17, 1954; see page 1, footnote 6.
 2/ In this table, beginning 1954, in accordance with treatment in Budget documents, net investment in United States securities by Government-sponsored enterprises includes a small amount by other enterprises regarded as representing net transactions with the public. In Table 4 under "Trust Account and Other Transactions," these amounts are included in trust and deposit fund account investment.
 3/ Accrued discount on savings bonds and bills, which is included in the principal of the public debt, less interest paid on savings bonds and bills redeemed.

- 4/ Treated as noncash transactions at the time of issuance and as cash transactions at the time of redemption; net issuance, or redemption (-).
 5/ Excluded from borrowing because the transactions are treated as expenditures in Table 6.
 6/ Excluded from borrowing because the transactions are treated as deductions from receipts in Table 3.
 7/ Market transactions in public debt securities and agency obligations.
 * Less than \$500,000.

Note: The computed annual interest charge represents the amount of interest that would be paid if each interest-bearing issue outstanding at the end of each month or year should remain outstanding for a year at the applicable annual rate of interest. The charge is computed for each issue by applying the appropriate annual interest rate to the amount outstanding on that date. The aggregate charge for all interest-bearing issues constitutes the total computed annual interest charge. The average annual interest rate is computed

by dividing the computed annual interest charge for the total, or for any group of issues, by the corresponding principal amount.

1/ Excludes guaranteed securities held by the Treasury.

2/ Total includes "Other bonds"; see Table 2.

3/ Included in debt outstanding at face amount, but discount value is used in computing annual interest charge and annual interest rate.

4/ The annual interest charge and annual interest rate on United States savings bonds are computed on the basis of the rate to maturity applied against the amount outstanding.

1/ The securities shown in this table were issued to the Treasury to finance Government corporations and other agencies with the Treasury itself raising the necessary funds through public debt operations. To avoid duplication, these securities are not included in the guaranteed debt outstanding as shown in preceding tables.

2/ Excludes securities issued under Defense Production Act.

3/ From September 1950 through July 1954, consists of notes of the Housing and Home Finance Administrator, issued to borrow for the Association. Beginning August 1954, consists of liabilities taken over by the Association from the Administrator in accordance with Public Law 560, approved August 2, 1954, and notes issued by the Association under authority of that act; and beginning September 1954, also securities transferred from the Reconstruction Finance Corporation (see footnote 6). Prior to September 1950, the Association was financed from funds of the Reconstruction Finance Corporation, which owned the capital stock.

4/ Consists of notes issued to borrow for the urban renewal program (formerly slum clearance program); the prefabricated housing loans program from September 1950, when it was transferred from the Reconstruction Finance Corporation, through November 1954; and housing loans for educational institutions beginning July 1951. Notes issued to borrow for the Federal National Mortgage Association are shown under the Association.

5/ Established in the Department of State by Executive Order No. 10610, dated May 9, 1955, and effective at the close of business June 30, 1955, as successor to the Foreign Operations Administration. Date for earlier periods are for predecessor agencies.

6/ Excludes securities issued under Defense Production Act of 1950; includes securities issued under Federal Civil Defense Act of 1950

through November 1953, after which they were taken over by the Secretary of the Treasury, pursuant to the act approved July 30, 1953 (67 Stat. 230), and are included under "Other." During September 1954, under Reorganization Plan No. 2 of 1954, the remaining securities issued by the Corporation to the Treasury were transferred as follows: \$42 million to Export-Import Bank of Washington, \$92 million to Federal National Mortgage Association, and \$14 million to Small Business Administration.

7/ For Farmers' Home Administration program.

8/ Consists of notes of the Administrator, General Services Administration beginning January 1951 (Administrator, Defense Materials Procurement Agency, January 1952 through July 1953) for defense materials procurement; Reconstruction Finance Corporation, January 1951 through September 1953 (after which its activities under this act were transferred to the Secretary of the Treasury), and the Secretary of the Treasury beginning October 1953; the Secretary of the Interior (Defense Minerals Exploration Administration) beginning June 1951; the Export-Import Bank of Washington beginning April 1952; and the Secretary of Agriculture beginning June 1954.

9/ Consists of notes issued by Federal Farm Mortgage Corporation and Home Owners' Loan Corporation prior to 1950, Virgin Islands Company, 1948-49, Secretary of the Army (Natural Fibers Revolving Fund), 1949-51, Secretary of the Treasury beginning 1953 (see footnote 6), and Small Business Administration beginning September 1954; and revenue bonds issued by Saint Lawrence Seaway Development Corporation, beginning November 1954.

10/ Notes outstanding in the amount of \$9,365 million, including interest, were canceled on June 30, 1948 (62 Stat. 1187).

1/ On account of withheld taxes and sales of Government securities.
2/ Beginning December 1954, Post Office Department and Postmasters' disbursing accounts are no longer treated as liability accounts of the

Treasurer of the U. S., but are classified and treated in the same manner as other disbursing accounts, in accordance with the change in method of reporting Post Office Department transactions.

STATUTORY DEBT LIMITATION

The Second Liberty Bond Act, as amended (31 U.S.C. 757 b), provides that the face amount of obligations issued under authority of that act, and the face amount of obligations guaranteed as to principal and interest by the United States (except guaranteed obligations held by the Secretary of the Treasury), shall not exceed in the aggregate \$275 billion outstanding at any one time,

except that this amount was increased by \$6 billion beginning on August 28, 1954, and ending on June 30, 1956, by acts approved August 28, 1954, and June 30, 1955. Obligations issued on a discount basis, and subject to redemption prior to maturity at the option of the owner, are included in the statutory debt limitation at current redemption values.

Subscriptions for \$25,000 or less were allotted in full. Subscriptions for more than \$25,000 were allotted not less than \$25,000. In addition to the amount allotted to the public, \$25 million of the bonds were allotted to Government investment accounts. Savings-type investors were given the privilege of deferring payment for the bonds, provided that not less than 25 percent of the bonds allotted were paid for by July 20, 1955, not less than 60 percent by September 1, 1955, and full payment by October 3, 1955.
- 32/ Also designated tax anticipation certificates, acceptable at par plus accrued interest to maturity in payment of income and profits taxes due June 15, 1956.
- 33/ Holders of the 1-1/8% certificates which matured August 15, 1955, were offered a choice of exchanging the securities on August 1, 1955, for either the ten-and-one-half-month certificates or the one-year, three-month notes.
- 34/ Subscriptions for \$100,000 or less were allotted in full. Subscriptions for more than \$100,000 were allotted 32 percent but in no case less than \$100,000.
- 35/ The 2-7/8% notes dated December 1, 1955, were reopened with all the notes of the series identical in all respects, as a partial exchange offering for the 1-5/8% notes maturing March 15, 1956. Total exchanges in the two offerings amounted to \$4,392 million.
- 36/ Holders of the 1-1/4% certificates and 1-3/4% notes, both maturing December 15, 1955, were offered a choice of exchanging the securities on December 1, 1955, for either the one-year certificates or the two-and-one-half-year notes.
- 37/ Holders of the 1-5/8% notes maturing March 15, 1956, were offered a choice of exchanging the securities on March 5, 1956, for either the eleven-and-one-half-month certificates or the two-and-one-half-year notes. Holders of the 1-1/2% notes maturing April 1, 1956, were permitted to exchange their securities only for the certificates.

UNITED STATES SAVINGS BONDS

United States savings bonds were first offered in March 1935 and began to mature in March 1945. Series A-D were sold between March 1935 and the end of April 1941, and Series E, F, and G were first offered in May 1941. When Series E began to mature on May 1, 1951, owners of the matured bonds were offered three options: To redeem the bonds in cash in accordance with the original terms; to retain them with an extended maturity of 10 years at specified rates of interest accrual; or to exchange them for Series G bonds. A number of changes became effective May 1, 1952. The principal ones were: The rate of interest accrual on Series E was increased, especially for the near term, with corresponding changes in extended Series E; and Series F and G were replaced by two new issues, Series J and K, also at higher interest rates. A new current-income bond, Series H, similar in interest return to Series E, was offered beginning June 1. For

details of these changes see "Treasury Bulletin" for May 1952, page A-1. Series F and G began to mature on May 1, 1953. For the exchange offering made to holders of these bonds maturing through December 31, 1953, see the May 1953 issue, page A-1. The Treasury invited holders of Series F and G which began to mature in January 1954 to reinvest the proceeds in other series of savings bonds. In the tables which follow, Series A-F and J sales are included at issue price and total redemptions and amounts outstanding at current redemption values. Series G, H, and K are included at face value throughout. Matured bonds which have been redeemed are included in redemptions. Matured F and G bonds outstanding are included in the interest-bearing debt until all bonds of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

1/ Details by series on a cumulative basis and by periods for Series A-D combined will be found in the February 1952 and previous issues of the "Treasury Bulletin."

2/ Includes exchanges of matured Series E bonds for Series G bonds beginning May 1951 and for Series K bonds beginning May 1952.

3/ Includes both matured and unmatured bonds; see Table 4.

4/ Includes total value of redemptions not yet classified between matured and unmatured bonds.

5/ A change in procedure, beginning in June 1954, for processing redeemed savings bonds has resulted in a high level of redemptions not yet classified between matured and unmatured bonds. This increase temporarily obscures the relationship between the redemption columns showing sales price and accrued discount in Tables 2 through 4 and also the relationship between the matured and unmatured sections of Table 4. (See also footnote 4.) The subsequent distribution of these

high level of unclassified redemptions may be large enough in any month to show redemptions of matured bonds for a series in Table 4 which are greater than the total redemptions of that series as shown in Table 3, and to show a negative in the unmatured section of Table 4.

6/ Reductions were made in issues and redemptions of Series E, H, F, G, J, and K in July 1954 to compensate for the erroneous inclusion of reissue transactions in June 1954 as reported in the daily Treasury statement. The amounts involved were as follows: \$18 million for issues of Series E and H and \$17 million for issues of Series F, G, J, and K; and \$35 million for unclassified retirements.

7/ Sales began June 1, 1952.

8/ Comparable data are not available prior to January 1950.

9/ Includes exchanges of Series 1941 F and G savings bonds for Treasury 3-1/4% bonds of 1978-83.

* Less than \$500,000.

TREASURY SAVINGS NOTES

Treasury tax and savings notes have been issued as follows: Tax Series A from August 1, 1941, through June 22, 1943; Tax Series B from August 1, 1941, through September 12, 1942; Savings Series C (originally designated Tax Series C) from September 14, 1942, through August 31, 1948; Savings Series D from September 1, 1948, through May 14, 1951; Savings Series A from May 15, 1951, through May 14, 1953; Savings Series B from May 15, 1953, through September 25, 1953; and a new Savings Series C from October 1, through October 23, 1953, when sale of these notes was suspended. Details concerning terms and conditions for purchase and redemption and information on investment yields of Savings Series C appear in the October 1953 issue of the "Treasury Bulletin," page A-1.

Similar information with respect to the offering of the earlier series was published currently in the "Treasury Bulletin," and appears also in the "Annual Report of the Secretary of the Treasury" for appropriate years.

In the following tables sales and redemptions of Treasury savings notes are shown at par value. Matured notes redeemed (either for cash or for tax payment) are included in the figures on redemptions. Matured notes outstanding are reflected in the interest-bearing debt until all notes of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

1/ Consists of purchases or sales made by the Treasury of securities issued or guaranteed by the U. S. Government for (1) trust funds which by law are under the control of the Secretary of the Treasury or of the Treasurer of the United States, and (2) accounts under the control of certain U. S. Government agencies whose investments are handled through the facilities of the Treasury Department. It will be noted that these

transactions differ from those reflected in Table 1 because they exclude those Government investment accounts for which investments are not handled by the Treasury. Table 2 also includes purchases under Section 19 of the Second Liberty Bond Act, as amended (31 U.S.C. 754 e), and excludes the Exchange Stabilization Fund.

1/ United States savings bonds, Series A-F and J, are included at current redemption value.

2/ Securities issued or guaranteed by the U. S. Government, excluding guaranteed securities held by the Treasury. For amounts subject to statutory debt limitation, see page 1.

3/ Consists of commercial banks, trust companies, and stock savings banks in the United States and in Territories and island possessions. Figures exclude securities held in trust departments.

4/ Holdings by Federal land banks are included under "Miscellaneous investors" instead of "U. S. Government investment accounts" after June 26, 1947, when the proprietary interest of the United States in these banks ended.

5/ Includes partnerships and personal trust accounts. Nonprofit institu-

tions and corporate pension trust funds are included under "Miscellaneous investors."

6/ Exclusive of banks and insurance companies.

7/ Consists of trust, sinking, and investment funds of State and local governments and their agencies, and Territories and island possessions.

8/ Includes savings and loan associations, nonprofit institutions, corporate pension trust funds, dealers and brokers, and investments of foreign balances and international accounts in this country. Beginning December 1946, includes investments by the International Bank for Reconstruction and Development and the International Monetary Fund in special noninterest-bearing notes issued by the U. S. Government.

9/ Immediate postwar debt peak.

TREASURY SURVEY OF OWNERSHIP, MARCH 31, 1956

The Treasury Survey of Ownership covers securities issued by the United States Government and by Federal agencies. The banks and insurance companies included in the Survey account for approximately 95 percent of such securities held by all banks and insurance companies in the United States. Data were first published for March 31, 1941, in the May 1941 "Treasury Bulletin."

Distribution of ownership by type of banks and insurance companies is published each month. Holdings by commercial banks distributed according to Federal Reserve member-bank classes and nonmember banks are published for June 30 and December 31. Holdings by corporate pension trust funds are published quarterly and first appeared in the March 1954 Bulletin for quarters beginning December 31, 1949.

1/ Includes certain obligations not subject to statutory debt limitation. For amount subject to limitation, see page 1.

2/ Excludes trust departments.

3/ Includes trust companies and, beginning with figures for July 1949, also includes stock savings banks. Previously, those banks were reported as a separate classification.

4/ Includes those banks and insurance companies not reporting to the Treasury Survey.

5/ Consists of corporate pension trust funds and profit sharing plans which involve retirement benefits. The data are compiled from quarterly reports by trustees of funds which account for an estimated three-fourths of United States Government securities held by all corporate pension trust funds. Since the data are not available each month, the regular monthly Survey includes holdings by these funds under "Held by all other investors." The quarterly data are presented as supplemental information in a memorandum column accompanying the Survey for each reporting date, beginning with December 31, 1953. The corresponding information from earlier reports, beginning with December 31, 1949, is summarized on page 30 of the March 1954 "Treasury Bulletin."

6/ United States savings bonds, Series E, F, and J, are shown at current redemption value. They were reported at maturity value by the banks and insurance companies included in the Treasury Survey but have been adjusted to current redemption value for use in this statement.

7/ Holdings by reporting investors not available.

8/ Excludes guaranteed securities held by the Treasury.

9/ Federal securities fall into three broad classes with respect to the imposition of Federal income taxes on income derived from them. "Wholly" tax-exempt securities are those with the income exempt from both normal tax and surtax. "Partially" tax-exempt securities are those with the income exempt from the normal tax except that in case of partially tax-exempt Treasury bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax. "Taxable" securities are those with the income subject to normal tax and surtax.

10/ Includes Federal Housing Administration debentures; see footnote 12/.

11/ Tax anticipation series.

12/ A small indeterminate amount of these debentures is partially tax-exempt.

13/ Includes \$72 million depositary bonds held by commercial banks not included in the Treasury Survey.

14/ Includes only publicly offered issues.

15/ Central Bank for Cooperatives debentures.

16/ The proprietary interest of the United States in these banks ended in July 1951.

17/ The proprietary interest of the United States in these banks ended in June 1947.

* Less than \$500,000.

MARKET QUOTATIONS ON TREASURY SECURITIES, APRIL 30, 1956

Current market quotations shown here are over-the-counter closing bid quotations in the New York market for the last trading day of the month, as reported to the Treasury by the Federal Reserve Bank of New York. The securities listed include all regularly quoted

public marketable securities issued by the United States Government except Panama Canal bonds. Outstanding issues which are guaranteed by the United States Government are excluded because they are not regularly quoted in the market.

1/ Tax anticipation series.

2/ Beginning April 1953, prices are closing bid quotations in the over-the-counter market. Prices for prior dates are the mean of closing bid and ask quotations, except that before October 1, 1939, they are closing prices on the New York Stock Exchange. "When issued" prices are included in history beginning October 1, 1939. Dates of highs and lows in the case of recurrence are the latest dates.

3/ Included in the average of taxable Treasury bonds due or callable from

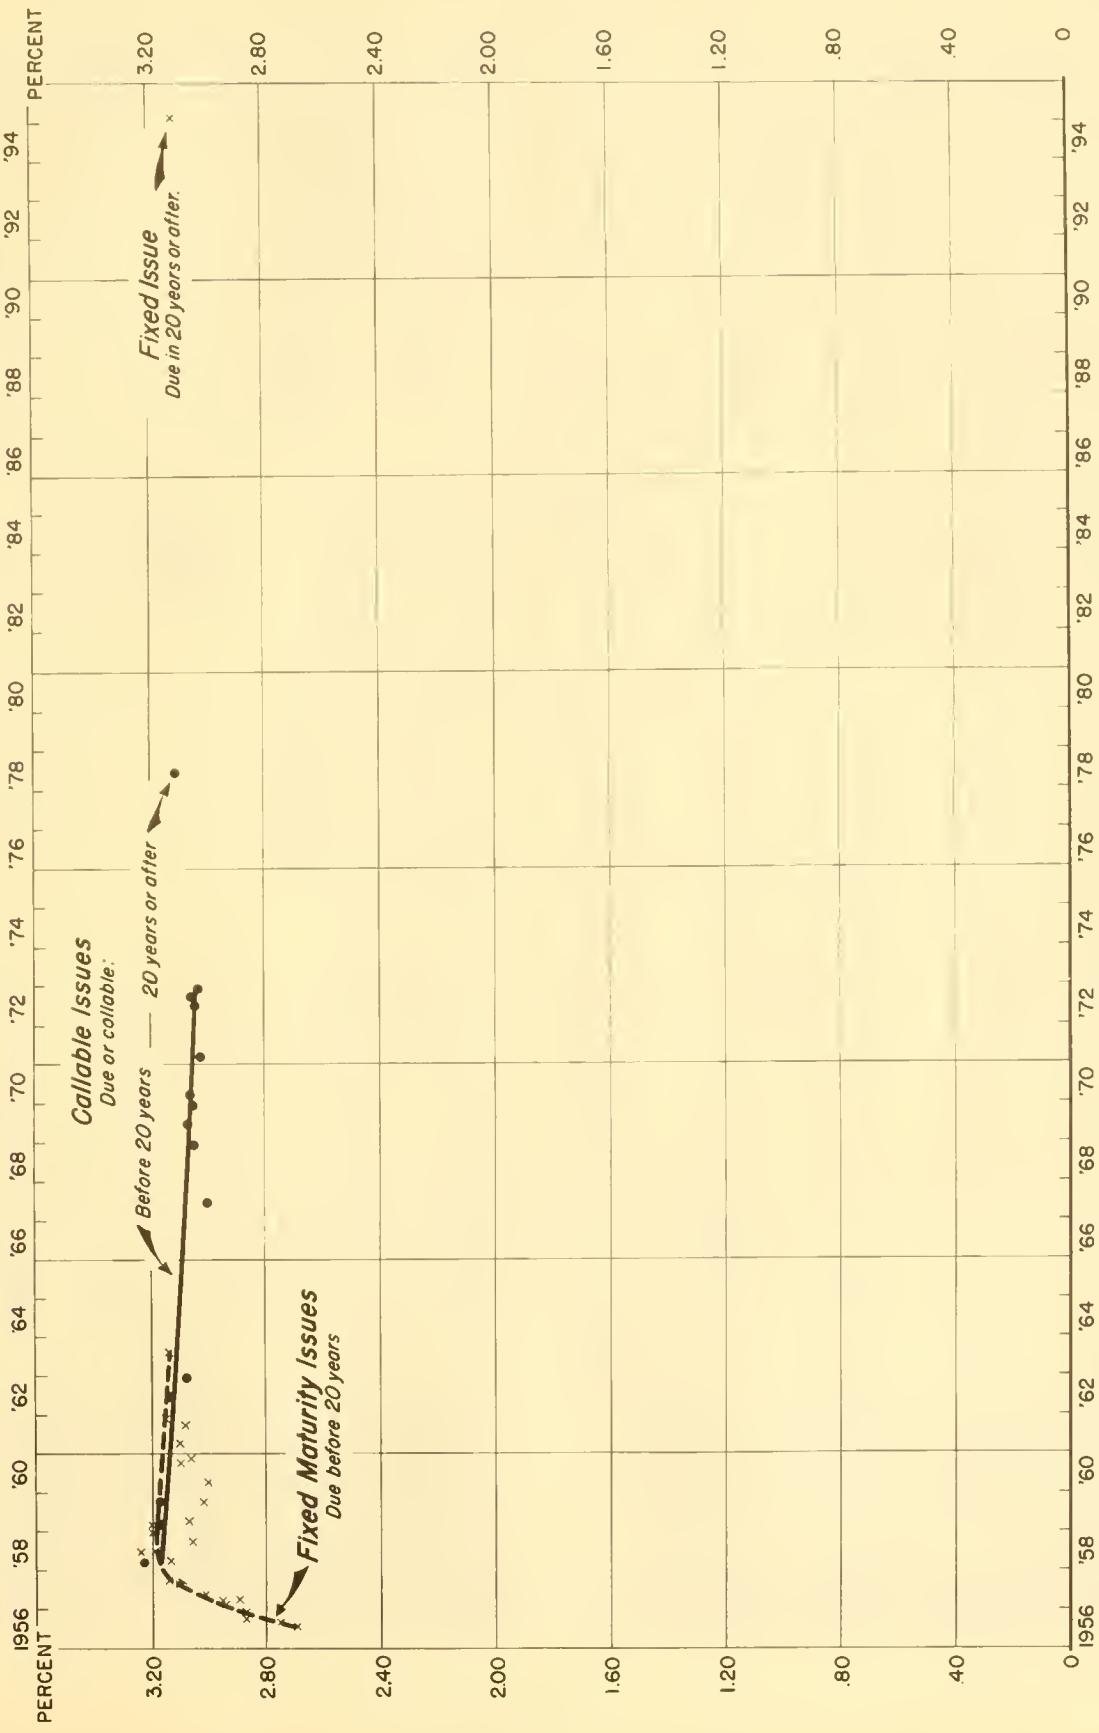

10 to 20 years beginning April 1, 1953, as shown under "Average Yields of Long-Term Bonds."

4/ Included in the average of taxable Treasury bonds due or callable 20 years and after, as shown under "Average Yields of Long-Term Bonds."

5/ Yield to first call. Yields are computed to call date when the price is above par and to maturity when the price is at or below par.

Source: Beginning April 1953, Treasury bond yields are reported to the Treasury by the Federal Reserve Bank of New York, based on closing bid quotations in the over-the-counter market. Yields for prior periods were computed on the basis of mean of closing bid and ask quotations. For definition of taxable bonds, see footnotes to the "Treasury Survey of Ownership" in this issue of the "Treasury Bulletin." Moody's Investor Service is the source for the average of Aaa corporate bonds.

1/ Prior to April 1953, the single series on long-term taxable Treasury bonds included the following: April 1952 through March 1953, bonds neither due nor callable for 12 years; October 1941 through March 1952, bonds neither due nor callable for 15 years. For a discussion of the composition of these Treasury bond averages, see the "Treasury Bulletin" for March 1944, page 58.

2/ The long-term taxable Treasury bond average was revised beginning April 1, 1952; see footnote 1. The old average for April 1952 was 2.62 percent.

3/ Beginning with the August 1955 issue of the "Treasury Bulletin" this average (bonds due or callable from 10-20 years) replaces the average of those due or callable from 12-20 years, previously shown in this column.

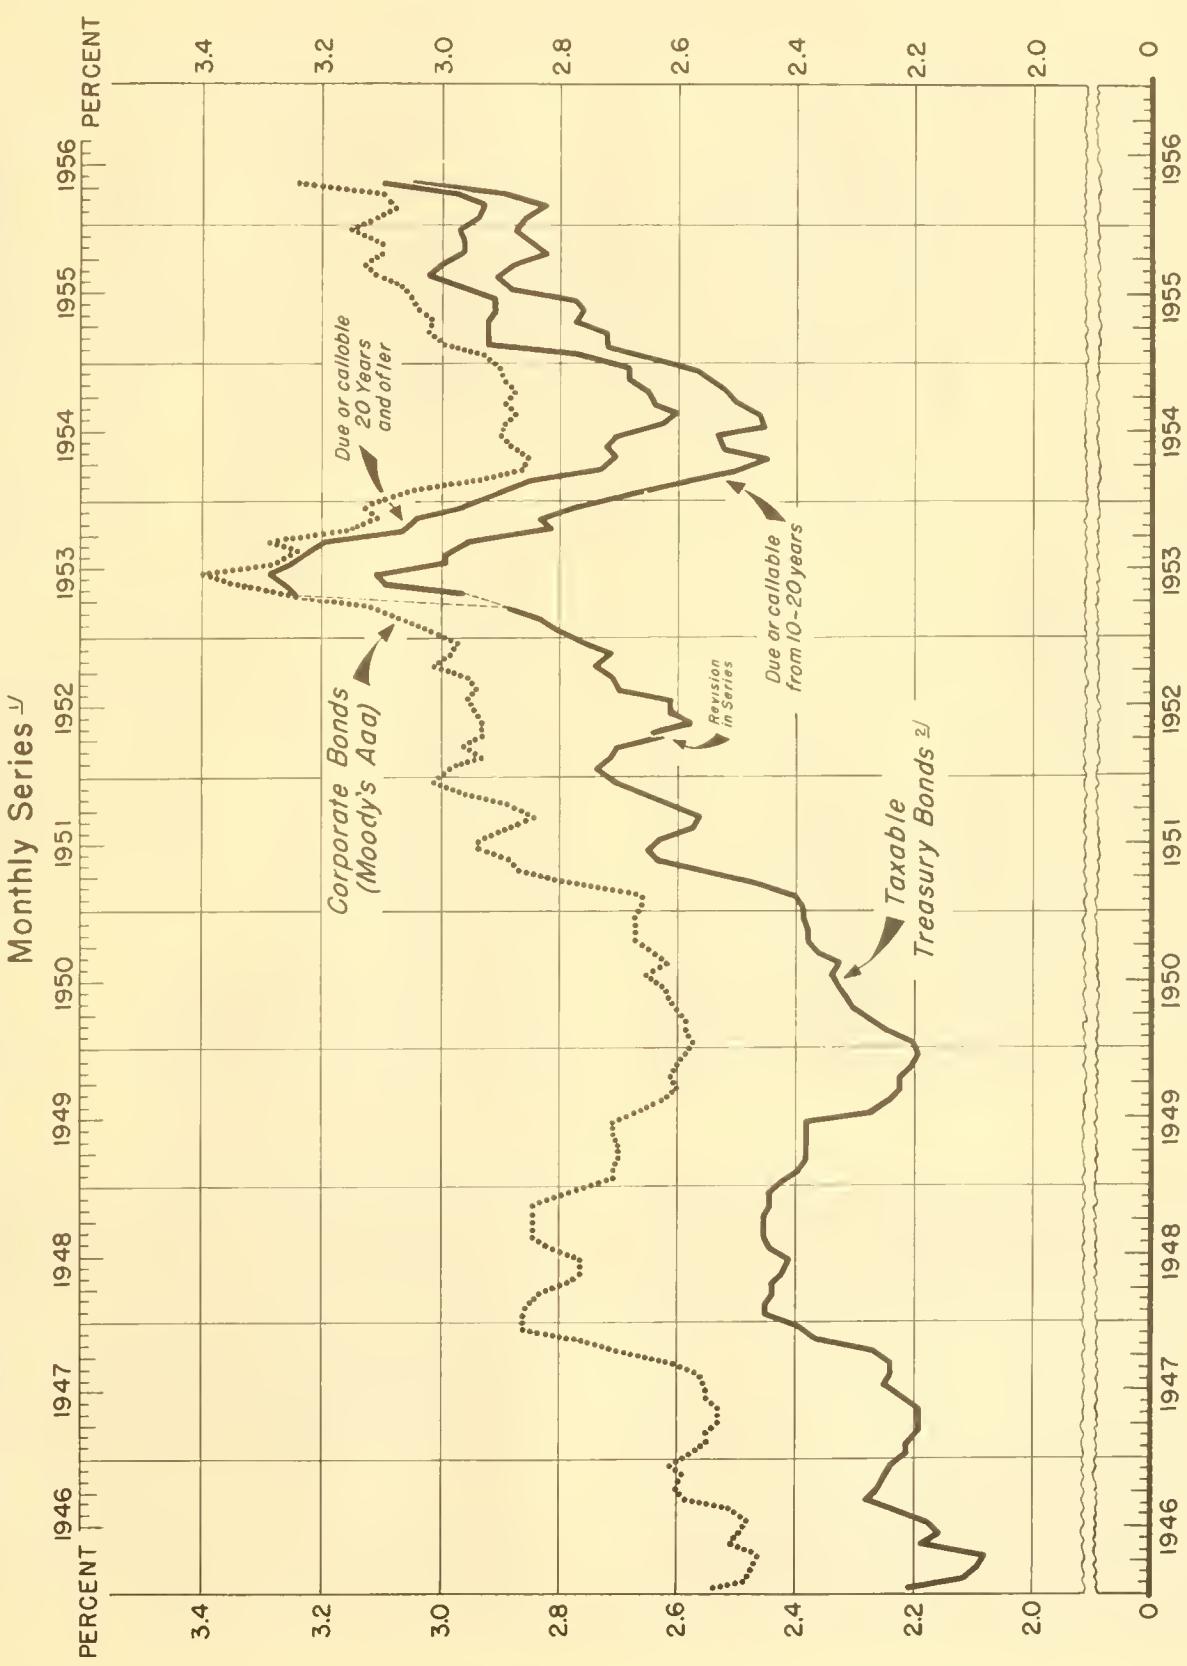

4/ Annual average is based on the single long-term series January through March (see footnote 1) and the 10-20 year series thereafter.

5/ Average covers 8-1/2 months beginning April 15, the inception date of this series.

6/ Includes the 3% bonds of February 15, 1955, first quoted on January 28, 1955.

Sources: Internal Revenue Service reports for detail of collections by type of tax; daily Treasury statement for budget receipts from internal revenue through the fiscal year 1952, and the "Monthly Statement of Receipts and Expenditures of the United States Government" for receipts thereafter.

Certain detail by type of tax is available only on the basis of returns filed with the Internal Revenue Service. The figures shown include collections for credit to special accounts for certain island possessions, as reported by the Internal Revenue Service. Beginning with the fiscal year 1955, they include the amounts of tax collected in Puerto Rico upon articles of merchandise of Puerto Rican manufacture coming into the United States. Figures for 1954 have been revised to the same basis. Figures for previous years include only amounts collected at ports of entry into the United States.

1/ Differences between the amounts of internal revenue reported by the Internal Revenue Service as collections for given periods and the amounts reported in Treasury statements as budget receipts for the same periods arose because of differences in the time when payments were included in the respective reports. Tax payments are included in budget receipts when they are reported as credits to the account of the Treasurer of the United States. Prior to July 1954, they were included in Internal Revenue Service collection reports after the returns to which they applied had been received in internal revenue offices. Under procedure begun in 1950 with withhold income tax and old-age insurance taxes and later extended to railroad retirement taxes and many excises, these taxes are paid currently into Treasury depositaries and the depositary receipts, as evidence of such payment, are attached to quarterly returns to the Internal Revenue Service. Under this procedure, the payments are included in budget receipts in the month in which the depositary receipts are issued to the taxpayers. Revised accounting procedures effective

July 1, 1954, extended the same practice to Internal Revenue Service collection reports.

2/ Monthly figures include old-age insurance tax on self-employment income, which is levied and collected as part of the individual income tax beginning with the taxable year 1951. Fiscal year figures exclude this tax, on the basis of estimates beginning 1952 (see footnote 3), and it is included under "Old-age insurance taxes."

3/ Withheld income tax and old-age insurance taxes on employers and employees are paid into the Treasury in combined amounts beginning January 1951. In Internal Revenue Service reports, current collections have not been separated as to type of tax but the breakdown shown for fiscal years beginning 1951 is based on estimates made in accordance with provisions of Sec. 109 (e) (2) of the Social Security Act Amendments of 1950, for transfer of tax receipts to the Federal Old-Age and Survivors Insurance Trust Fund.

4/ New reporting basis beginning with the fiscal year 1953; for explanation, see footnote on page 1.

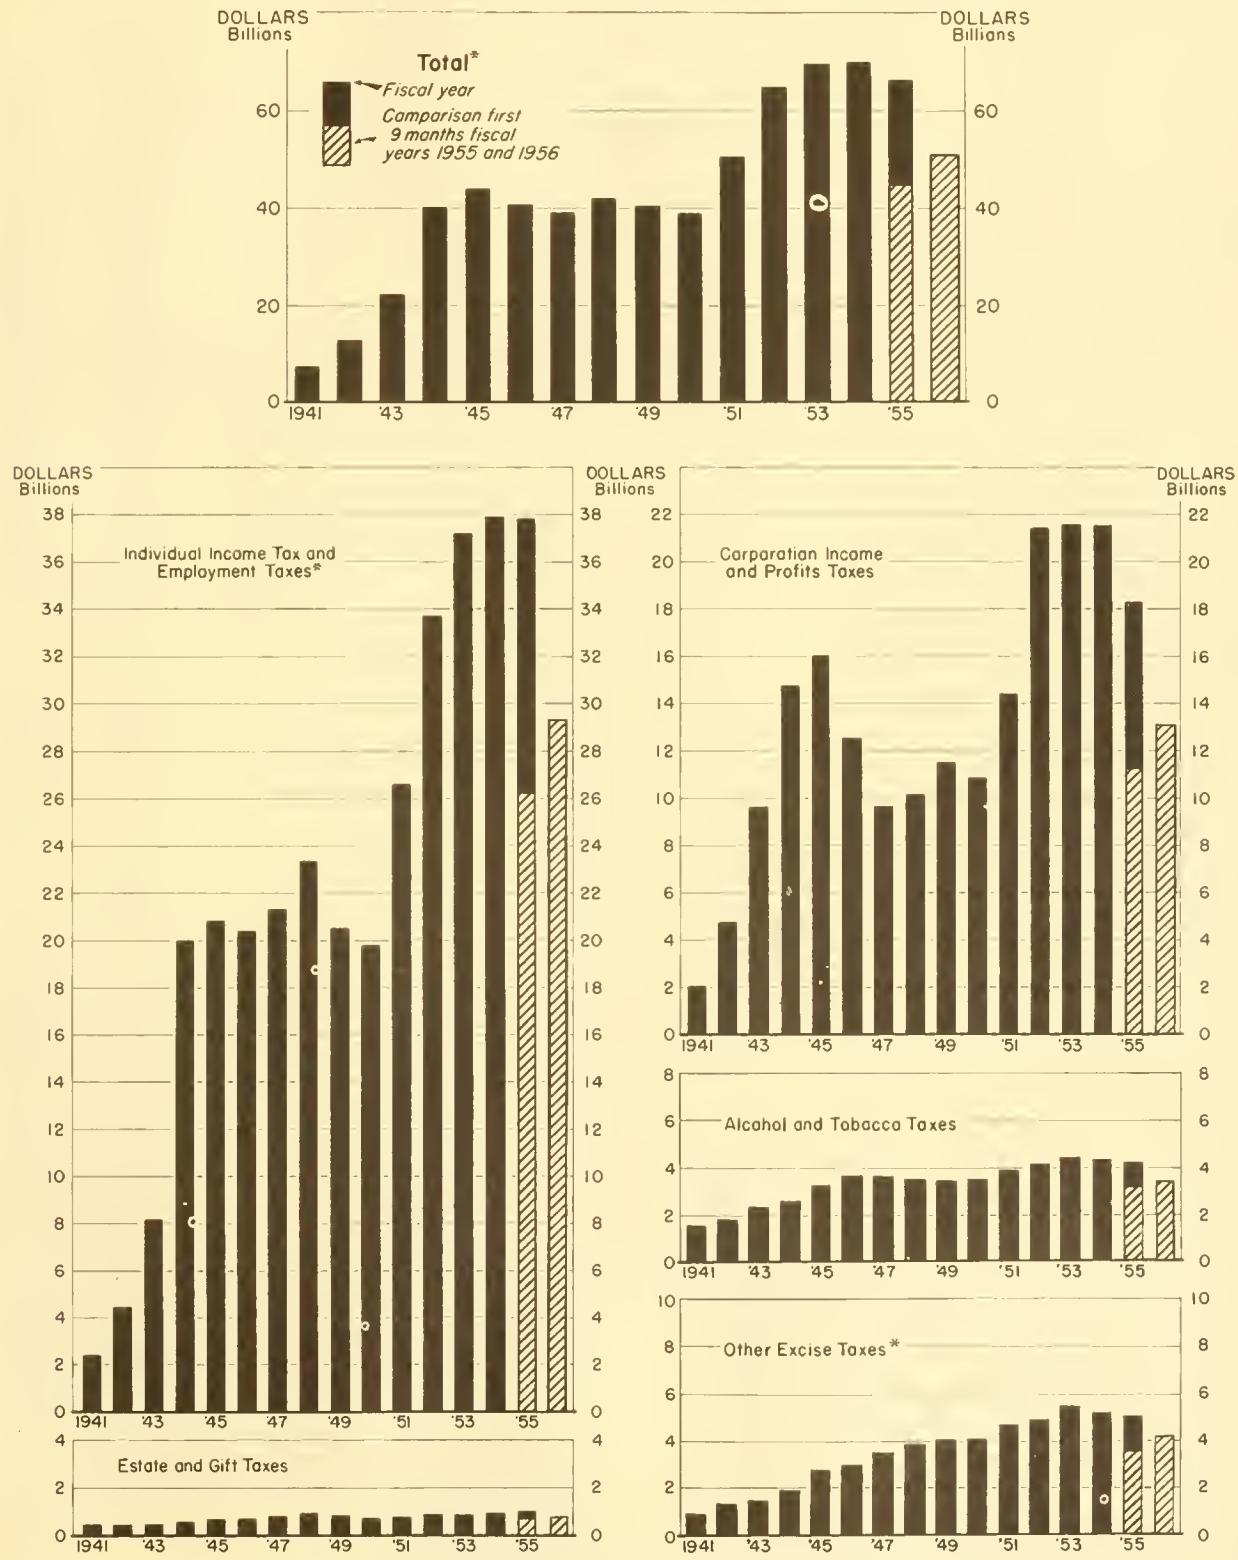

5/ Beginning with the fiscal year 1955, collections shown include undistributed depositary receipts and unclassified advance payments (see Table 2). For excise taxes these receipts are included in the total only.

6/ Repealed for years ending after June 30, 1945. Beginning 1951, included under "Miscellaneous excise taxes."

7/ Detail is reported by quarters beginning with the fiscal year 1956.

Source: Internal Revenue Service reports for detail of collections by type of tax; "Monthly Statement of Receipts and Expenditures of the United States Government" for budget receipts from internal revenue. Certain detail by type of tax is available only on the basis of returns filed with the Internal Revenue Service. The figures shown include collections for credit to special accounts for certain island possessions, as reported by the Internal Revenue Service. Beginning with the fiscal year 1955, they include the amount of tax collected in Puerto Rico on merchandise of Puerto Rican manufacture coming into the United States. Figures for 1954 have been revised to the same basis.

1/ Includes old-age insurance tax on self-employment income, imposed by the Social Security Act Amendments of 1950 (Public Law 734), approved August 28, 1950. The tax is levied and collected as part of the individual income tax. For estimated fiscal year breakdown, see Table 1.

2/ Withheld income tax and social security employment taxes on employees and employees are paid into the Treasury in combined amounts, pursuant to the Social Security Act Amendments of 1950. For estimated fiscal year breakdown, see Table 1.

3/ Under revised accounting procedures effective July 1, 1954, tax payments made to banks under the depositary receipts system are included in

Internal Revenue Service reports of collections in the month in which the depositary receipts are issued instead of the month in which tax returns supported by the depositary receipts are received in internal revenue office, as was the previous practice. The "Undistributed depositary receipts" included in the collections represent the amount of depositary receipts issued during the period less the amount received with the returns. In the case of excise taxes, it is not possible to classify the depositary receipts by type of tax until the returns are received. Accordingly, the amount of each undistributed depositary receipt is included only in the total of excise taxes. Unclassified advance payments were included with undistributed depositary receipts prior to June and the fiscal year 1955.

4/ Includes \$16,116,000 advance payments of estate and gift taxes not further classified.

5/ Included with undistributed depositary receipts prior to June 1955.

6/ See Table 1, footnote 1.

* Less than \$500.

CAPITAL MOVEMENTS

Data relating to capital movements between the United States and foreign countries have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, Executive Order 10033 of February 8, 1949, and Treasury regulations promulgated thereunder. Information covering the principal types of data and the principal countries is reported monthly, and is published regularly in the "Treasury Bulletin." Supplementary information is published at less frequent intervals. Reports by banks, bankers, securities brokers and dealers, and industrial and commercial concerns in the United States are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury. Beginning April 1954, data reported by banks in the Territories and possessions of the United States are included in the published data.

The term "foreigner" as used in these reports covers all institutions and individuals domiciled outside the United States and its Territories and possessions, the official institutions of foreign countries, wherever such institutions may be located, and international organizations. "Short-term" refers to original maturities of one year or less, and "long-term" refers to all other maturities. A detailed discussion of the reporting coverage, statistical presentation, and definitions appeared in the June 1954 issue of the "Treasury Bulletin."

pages 45-47. As a result of changes in presentation introduced in that issue, not all breakdowns previously published will be exactly comparable to those now presented.

The first three sections which follow are published monthly. They provide summaries, by periods and by countries, of data on short-term banking liabilities to and claims on foreigners and transactions in long-term securities by foreigners, and present detailed breakdowns of the latest available preliminary data.

Section IV provides supplementary data in five tables which appear at less frequent intervals. Table 1, short-term foreign liabilities and claims reported by non-financial concerns, is published quarterly in the January, April, July, and October issues of the Bulletin. Table 2, long-term foreign liabilities and claims reported by banks and bankers, and Table 3, estimated gold reserves and dollar holdings of foreign countries and international institutions, are published quarterly in the March, June, September, and December issues. Table 4, foreign credit and debit balances in brokerage accounts, appears semi-annually in the March and September issues. Table 5, short-term liabilities to foreigners in countries and areas not regularly reported separately by banking institutions, is presented annually in the April issue.

1/ "Gold and short-term dollars" include reported and estimated official gold reserves, and official and private short-term dollar holdings (principally deposits and U. S. Government securities with an original maturity of one year or less) reported by banks in the United States. "U. S. Government bonds and notes" include estimated official and private holdings of U. S. Government securities with an original maturity of more than one year; estimates are based on a survey of selected United States banks and on monthly reports by banks and brokers of securities transactions. For earlier data, see "Treasury Bulletin" for March 1956, p. 66.

2/ Includes gold reserves of Bank of France and French dependencies only.

3/ Reflects publication for the first time of certain previously unpublished

gold reserves which are included in "Other" in earlier periods.

4/ Includes holdings of Trieste, Bank for International Settlements (including European Payments Union account), gold to be distributed by Tripartite Commission for Restitution of Monetary Gold, and unpublished gold reserves of certain Western European countries.

5/ Includes latest available figure on Mexican gold reserves (January 31); estimated change for remainder of quarter included in "Other."

6/ Excludes gold reserves of the U. S. S. R.

* Less than \$500,000.
