Treasury Financing Operations

Treasury Bills Retired and Refunded

A reduction in Treasury bills outstanding was made again in April. The five issues maturing during the month totaled \$5.6 billion and the amount refunded was \$5.4 billion. The first two maturities were \$1.3 billion each and the last three \$1.0 billion each. Each of the first two

offerings was \$100 million less than the maturing issue; the last three issues were refunded in full. The average rates of discount for the first three April offerings, beginning with that dated April 1, were 0.996 percent, 0.997 percent, and 0.995 percent, and for the fourth and fifth the rate was 0.997 percent.

Notes: Historical details of Treasury market financing operations are shown in the tables on "Offerings" and "Disposition", respectively, of marketable issues of

bonds, notes, and certificates of indebtedness, and the table "Offerings of Treasury Bills", in this issue of the "Treasury Bulletin".

Source: Actual figures from Daily Treasury Statement; estimates based upon 1949 Budget document, including effect of proposed legislation as shown therein.

- 1/ Excludes amounts for public debt retirement which are chargeable to the sinking fund, etc., under special provisions of law. Includes transfers to trust accounts and net expenditures of wholly owned Government corporations, under appropriate classifications. Expenditure classifications in these tables are based on the Daily Treasury Statement, and therefore differ somewhat from those in the 1949 Budget document.
- 2/ Represents appropriations equal to "Social security -- employment taxes" collected and deposited as provided under Sec. 201 (a) of the Social Security Act Amendments of 1939. See also Table 7, following. Figures were revised in the February 1948 issue of the "Treasury Bulletin" to reflect the present classification of certain expenditures reimbursed from the Federal Old-Age and Survivors Insurance Trust Fund.
- 3/ Includes public works undertaken by the Veterans Administration. For further detail, see tables under "Internal Revenue Collections".
- 4/ Receipts of Victory taxes withheld pursuant to the Revenue Act of 1942 are classified as "Other" income and profits taxes.
- 5/ Excludes railroad unemployment insurance contributions, which are included in "All other receipts".
- 6/ At present consists largely of proceeds from the sale of surplus property; also includes deposits resulting from renegotiation of war contracts (for detail see "Treasury Bulletin" for February 1948, page 5), and recoveries of U. S. investment in capital funds (see tables on "Cash Income and Outgo" in the current issue of the "Treasury Bulletin").
- 7/ Department of the Army expenditures, including expenditures for the Department of the Air Force, which are being made from Army appropriations pending transfer of funds pursuant to the Act of July 26, 1947, but excluding expenditures for the following: payments under the Armed Forces Leave Act, UNRRA, and care and disposal of surplus property, shown elsewhere in this table; international finance and aid, shown in Table 4; rivers and harbors and flood control, included under "Public Works" in Table 5; and Panama Canal, included under "Miscellaneous" in Table 5.
- 8/ Department of the Navy expenditures except those for payments under the Armed Forces Leave Act and for UNRRA, shown elsewhere in this table, and those for international finance and aid, shown in Table 4. Beginning March 1948, includes reimbursement for expenditures by the

Departments of the Army and the Navy for care and handling of surplus property overseas.

- 11/ National defense and related activities of R.F.C. and its affiliates. After July 1, 1947, expenditures for these purposes were not segregated from the other expenditures of the Corporation and its affiliates, which are included under "Miscellaneous" expenditures in Table 5.
- 12/ For detail prior to July 1, 1947, see "Treasury Bulletin" for February 1948, page 7. Beginning July 1, 1947, consisted of expenditures for Office of Selective Service Records; beginning March 1948, expenditures for the Office of the Secretary of Defense are also included.
- 13/ Includes expenditures from prior year appropriations which are not shown separately in the Daily Treasury Statement but are included under the Department of the Army.
- 14/ Department of Agriculture expenditures except those for UNRRA, surplus property disposal, other national defense and related activities prior to July 1947; international finance and aid; and forest roads and trails, included under "Public works" in this table.
- 15/ For more detail of these expenditures, see Tables 7, 8, and 9 following. Tax refunds shown there are excluded from expenditures in this table and included in Table 1 preceding under "Refunds of taxes and duties".
- 16/ Federal Works Agency expenditures except those for surplus property disposal, other national defense and related activities prior to July 1947, and assistance to Greece and Turkey. Includes also rivers and harbors and flood control, forest roads and trails, Bureau of Reclamation, and Tennessee Valley Authority.
- 17/ Housing and Home Finance Agency expenditures except those for surplus property disposal, and for other national defense and related activities prior to July 1947.
- 18/ Not classified separately for fiscal years after 1945. For additional information for earlier years, see "Treasury Bulletin" for August 1945, page 6.
- 19/ Includes expenditures for executive departments not included elsewhere and legislative and judicial functions; Government contributions to Federal employees' retirement; atomic energy; aids to education, labor, finance, commerce and industry; Civil Aeronautics; Panama Canal; Post Office deficiency; stock-piling; and, for 1948 and 1949 estimates, a reserve for contingencies.

1/ Accrued discount on savings bonds and bills less interest paid on savings bonds and bills redeemed.

2/ Interest payments to wholly owned Government corporations are not deducted because they are treated as negative expenditures when received by corporations: hence payment and receipt offset each other in the expenditure series.

3/ Budget expenditures involving the issuance of Federal securities

are treated as noncash at the time of original payment and as cash expenditures at the time of redemption. The figures shown are net issuances, or net redemptions (-).

4/ See footnote 1 to Table 1, preceding.
* Less than \$500,000.

1/ For years prior to 1946, certain reimbursements from the General Fund to the Government Life Insurance Fund, which are included in Table 3 as "transfers to trust accounts", are reflected in Table 4 as negative noncash trust account expenditures rather than as receipts. Accordingly, the figures in this column for those years will not agree with transfers to trust accounts shown in Table 3.

2/ Excludes clearing account for outstanding checks and telegraphic reports from Federal Reserve Banks.

3/ Principally net redemption, or issuance (-), of securities of Government corporations in the market.

4/ Information not available after August 1947.

1/ Excludes postal savings bonds.

2/ It should be noted that callable issues appear twice in this column, once in the year of first call and again in the year of final maturity. Callable issues with respect to which a definite notice of

call has been made, however, are listed as fixed maturities. For date of issue of each security, see chapter on "Market Quotations"; for tax statute, see chapter on "Treasury Survey of Ownership".

3/ Bank restricted issues may not be acquired by commercial banks (with minor exceptions) prior to a specified date.

1/ Original call and maturity dates are used.

2/ Prior to the refunding operation of March 1, 1946, maturing issues were either paid off in full or the holders were given the privilege of exchange into another security in full. Beginning with that operation, some maturities have been split by the Treasury into a stated portion for cash retirement with the remainder covered by an offering of an exchange security.

3/ Beginning with the November 1947 operation, arrangements were made between the Treasury and the Federal Reserve System whereby all or a part of the System's holdings of certain maturing and called securities would be presented for cash redemption.

UNITED STATES SAVINGS BONDS

United States savings bonds were first offered for sale in March 1935. Series A-D were sold from March 1935 to April 1941. Series E, F, and G bonds have been on sale since May 1, 1941. For information on the terms and conditions of these bonds, see "Treasury Bulletin" issues for December 1947, page 71, and October 1935, pages A-4 and A-5. Sales and redemptions data by States are published at the end of each calendar and each fiscal year after June 30, 1947. Sales by denominations are also published semi-annually after December 31, 1947.

In the following tables sales figures are quoted at issue price, and redemptions and amounts outstanding at current redemption values. Amounts of Series G outstanding are quoted at par. Matured bonds which have been redeemed are included in the figures on redemptions. Matured bonds outstanding are reflected in the interest-bearing debt until all bonds of the series have matured, when they are transferred to matured debt upon which interest has ceased.

1/ Beginning with June 1947, Series E sales include small amounts of unclassified sales consisting of Series E, F, and G. These amounts are substantially less than the sales reported as unclassified in the Daily Treasury Statement. The greater part of that item consists of sales for which information is available as to the series but not the year of issue. On the basis of that information such sales are included in this table according to series. Prior to

June 1947, it was possible to distribute by series all sales reported as unclassified in the Daily Treasury Statement.

2/ Series E redemptions include small amounts of unclassified Series A-D redemptions beginning with October 1944, and small amounts also of unclassified F and G redemptions, beginning with June 1947.

3/ Not calculated for matured series.

TREASURY SAVINGS NOTES

Treasury savings notes have been issued in three series: Series A from August 1, 1941, through June 22, 1943; Series B from August 1, 1941, through September 12, 1942; and Series C on continuous sale since September 14, 1942. For details concerning terms and conditions, investment yields, and tax payment or redemption values of Series C notes, see "Treasury Bulletin" for October 1945, pages A-4 and A-5. For similar information regarding Series A and B notes, see "Annual Report of the Secretary of the Treasury" for 1942, pages 207 and 220. For sales and redemptions of Series A and B notes by fiscal years

and months, see "Treasury Bulletin" for February 1946, pages 42 and 43.

In the following tables sales and redemptions of Treasury savings notes are shown at par value. Matured notes redeemed (either for cash or for tax payment) are included in the figures on redemptions. Matured notes outstanding are reflected in the interest-bearing debt until all notes of the series have matured, when they are transferred to matured debt upon which interest has ceased, in accordance with the practice of the Daily Treasury Statement.

1/ United States savings bonds, Series A-D, E, and F, are included at current redemption value.

2/ Includes all securities issued or guaranteed by the U. S. Government, but excludes guaranteed securities held by the Treasury. In the April 1948 issue of the "Treasury Bulletin" figures in this table were revised to include matured debt and debt bearing no interest, as well as interest-bearing debt. For all practical purposes the addition of these items to the former series affects only the holdings by "Individuals" and by "Other corporations and associations", since other investors hold negligible amounts.

3/ Consists of commercial banks, trust companies, and stock savings banks in the United States and in Territories and insular possessions. Figures exclude securities held in trust departments.

4/ Includes partnerships and personal trust accounts.

5/ Includes savings and loan associations, dealers and brokers, and investments of foreign balances and international accounts in this country. Beginning with December 1946, figures include investments by the International Bank for Reconstruction and Development and International Monetary Fund in special noninterest-bearing notes issued by the U. S. Government.

6/ Holdings by Federal land banks are included under "Private Investors" instead of "U. S. Government agencies and trust funds" beginning with June 30, 1947, since the proprietary interest of the United States in these banks ended June 26, 1947.

7/ Comprises trust, sinking, and investment funds of State and local governments and their agencies, and Territories and insular possessions.

TREASURY SURVEY OF OWNERSHIP, MARCH 31, 1948

The Treasury Survey of Ownership covers securities issued by the United States Government and by Federal agencies. The banks and insurance companies included in the Survey account for approximately 95 percent of such securities held by all banks and insurance companies in the United States. Data were first published for March 31, 1941.

Information on the distribution of ownership by types of banks and insurance companies is published each month. Additional information showing the holdings of commercial banks distributed according to Federal Reserve member-bank classes and nonmember banks is published for June 30 and December 31.

^{1/} Excludes trust departments.^{2/} Includes trust companies.^{3/} Includes those banks and insurance companies not reporting in the Treasury Survey.^{4/} United States savings bonds, Series C-1938, D, E, and F, are shown at current redemption values. They were reported at maturity value by the banks and insurance companies included in the Treasury Survey but have been adjusted to current redemption values for use in this statement.^{5/} C. C. C. demand obligations in the amount of \$45 million, all held by commercial banks, are shown only in the total amount outstanding; date for reporting banks are not available.^{6/} Information for reporting agencies not available.^{7/} Excludes guaranteed securities held by the Treasury.^{8/} Ieuee which commercial banks may not acquire prior to a specified date (with minor exceptions); see footnotes to Table 2 under "Debt Outstanding".^{9/} Federal securities fall into three broad classes with respect to the imposition of Federal income taxes on income derived from them. "Wholly" tax-exempt securities are those with the income exempt from both normal tax and surtax. "Partially" tax-exempt securities are those with the income exempt from the normal tax except that in the case of partially tax-exempt Treasury and savings bonds, interest derived from \$5,000 or principal amount owned by any one holder is also exempt from the surtax. "Taxable" securities are those with the income subject to normal tax and surtax.^{10/} Includes F. B. A. debenturee; see footnote 11.^{11/} A small indeterminate amount of these debenturee is partially tax-exempt.^{12/} United States savings bonds sold prior to March 1, 1941, are partially tax-exempt; those sold on and after that date are taxable.^{13/} The proprietary interest of the United States in these banks ended on June 26, 1947.

MARKET QUOTATIONS, APRIL 30, 1948

Market quotations shown here are over-the-counter closing quotations in the New York market for the last trading day of the month. The securities listed in Section I include all public marketable securities issued or guaranteed by the United States Government except those not regularly quoted in the market. The is-

ues excluded are postal savings bonds and Federal Housing Administration debentures. The latter are the only public marketable interest-bearing guaranteed securities outstanding. Section II lists the public marketable securities issued by Federal agencies but not guaranteed by the United States Government.

1/ Prices represent the mean of closing bid and ask quotations in the over-the-counter market, except that prices of Treasury bonds for the period prior to October 1, 1939, represent closing prices on the New York Stock Exchange. "When issued" prices are included in

history beginning October 1, 1939. Dates of highs and lows, in case of recurrence, are the latest dates.
2/ Quoted on a yield basis beginning April 7, 1948; prior thereto quoted on a price basis. Price history ends April 6, 1948.

3/ Included in the average yield of long-term taxable Treasury bonds as shown under "Yields of Treasury and Corporate Bonds".

4/ Issues which commercial banks may not acquire prior to a specified date (with minor exceptions).

5/ All partially tax-exempt except Panama Canal bonds, which are wholly tax-exempt.

6/ These securities are not shown until date of issue.

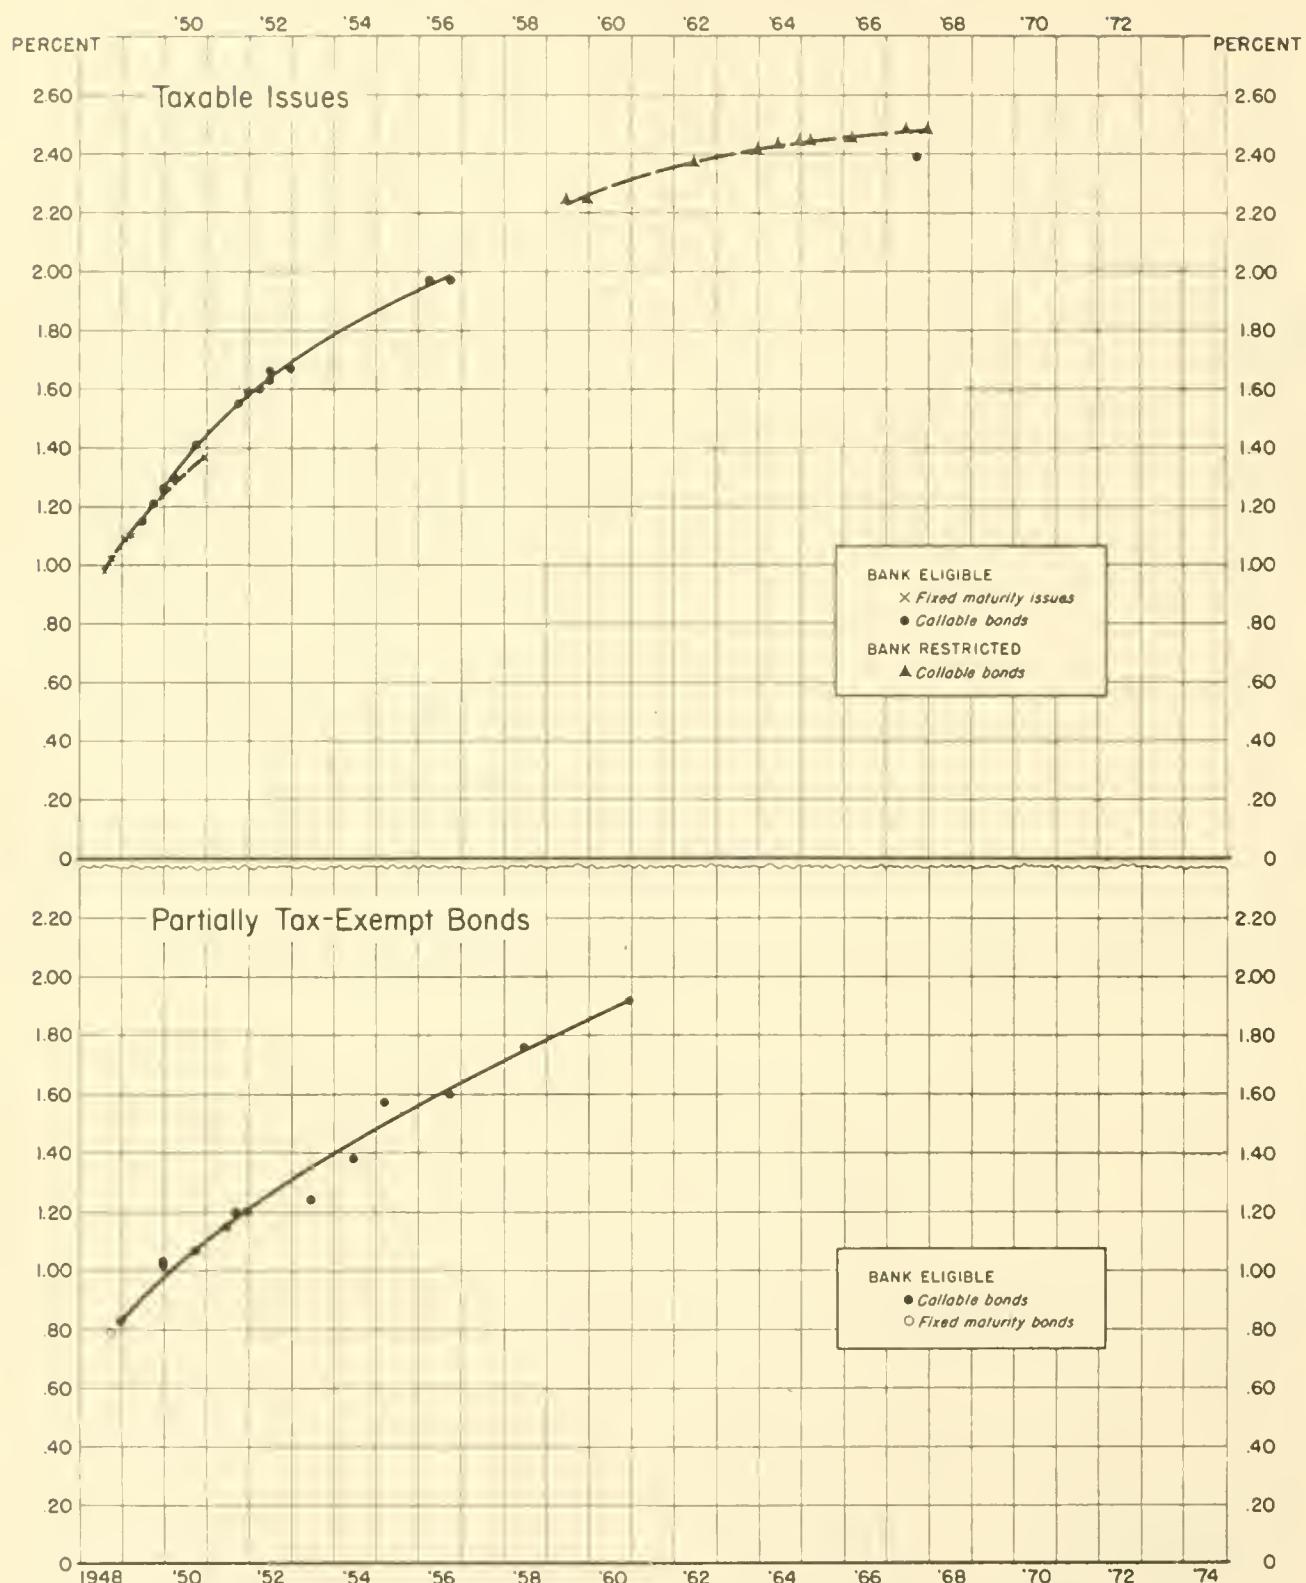

1/ Not quoted on April 30, 1948.

2/ Excludes issues completely held by Farm Credit Administration agencies. The proprietary interest of the United States in the Federal land banks ceased on June 26, 1947.

3/ Yield to maturity. Market convention treats the yield to earliest call date as more significant when an issue is selling above par; the yield to maturity as more significant when an issue is selling at or below par.

YIELDS OF TREASURY SECURITIES APR. 30, 1948

Based on Mean of Closing Bid and Ask Quotations

Explanation The points represent yields to call when prices are above par, and to maturity date when prices are at par or below. The smooth curves for the various classes of points are fitted by eye. Issues for which an exchange offer has been made or which are due or callable in less than 3 months are excluded.

Note: Treasury bonds included in the averages, beginning with December 1935, are those neither due nor callable for fifteen years. Prior to that time, for years shown in this table, the bonds included were neither due nor callable for twelve years. For a discussion of the composition of these averages, see the "Treasury Bulletin" for March 1944, page 58; for the composition of the high-grade corporate bond average, see the "Treasury Bulletin" for July 1947, page 59, and January 1945, page 56. Treasury bond yields are computed on the basis of the mean of closing bid and ask quotations in the over-the-counter market, beginning September 2, 1941. Prior to that time, yields were computed on the basis of closing prices on the New York Stock Exchange, except that on days when an issue did not sell the yield was computed on the mean of closing bid and ask quotations on the Exchange. Corporate bond yields are computed on the basis of closing prices on the New York Stock

Exchange and the New York Curb Exchange; on days when an issue does not sell, the price of the last preceding sale is used.

1/ For definitions of taxable and partially tax-exempt bonds, see footnotes to the "Treasury Survey of Ownership" in this issue of the "Treasury Bulletin". The partially tax-exempt series was discontinued on December 15, 1945, because there were no longer any bonds in this category with fifteen or more years to maturity or first call.

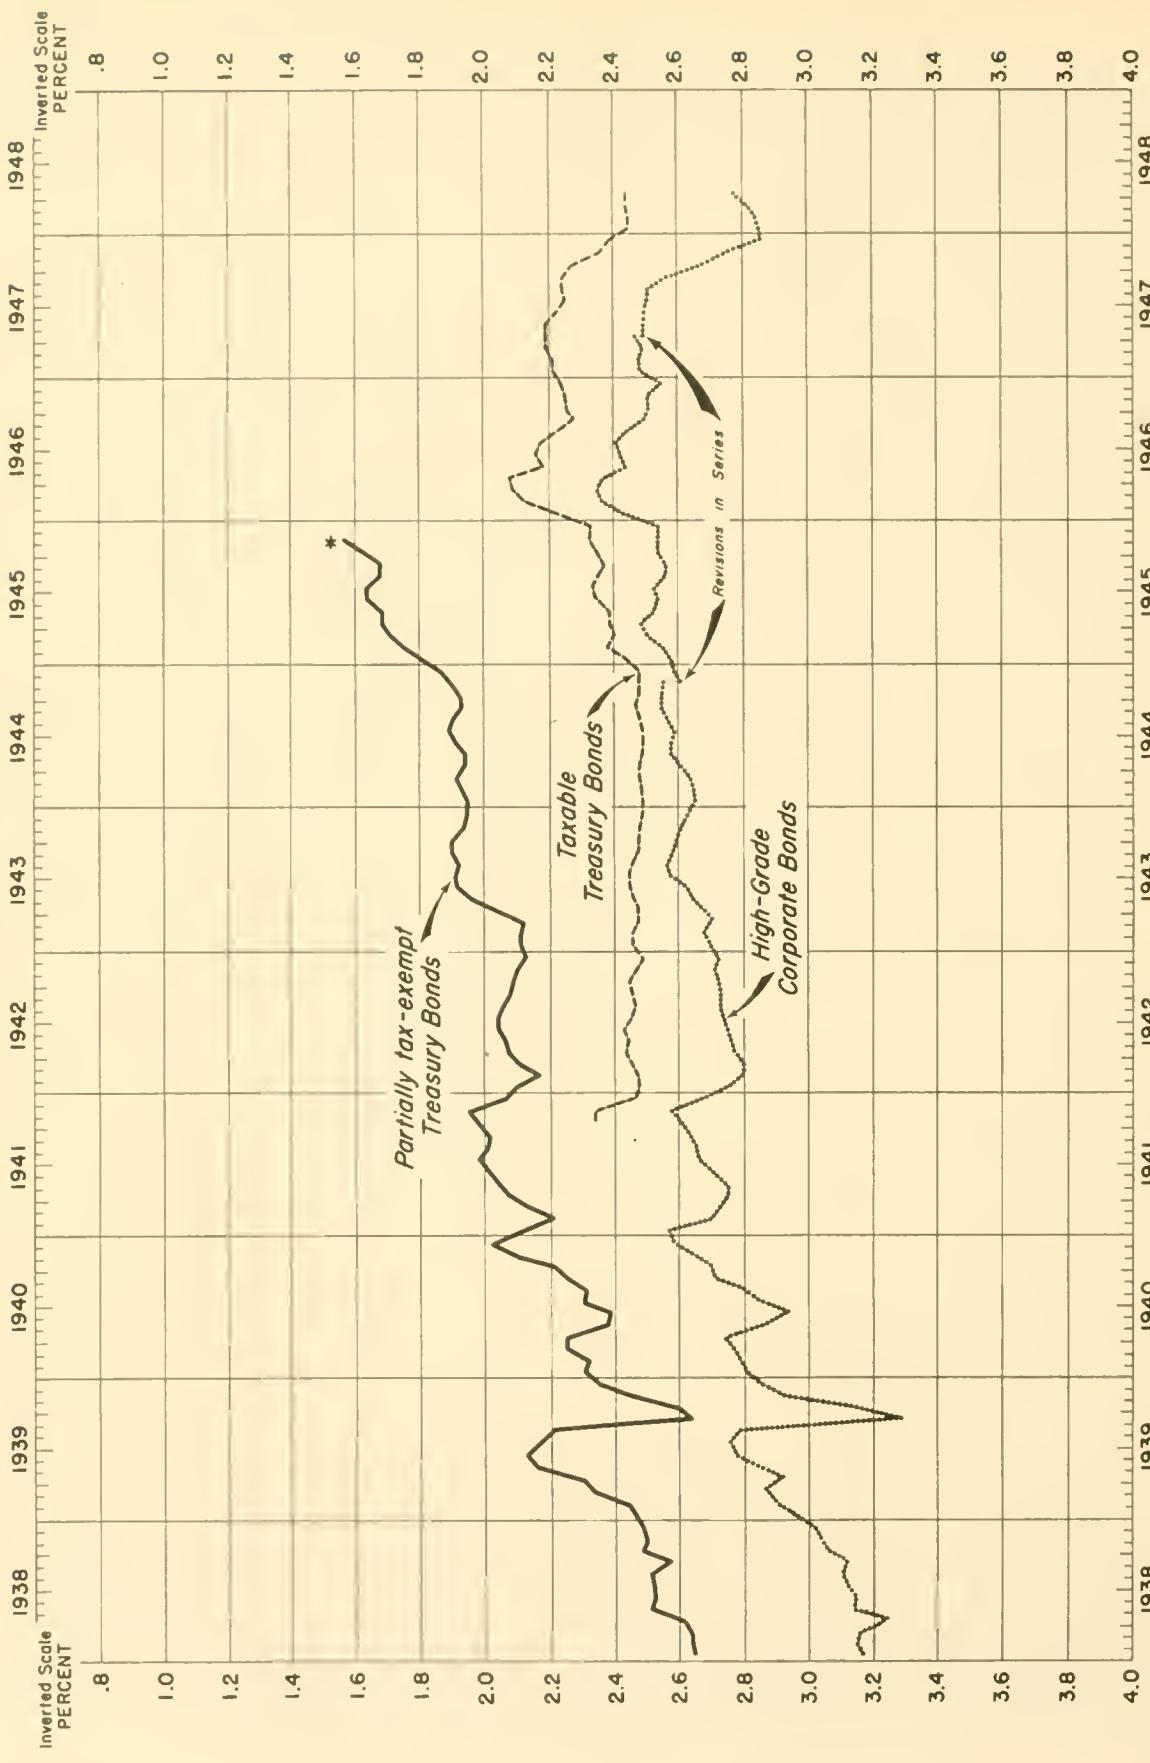

2/ Average revised beginning November 1, 1944. Old average for November 1944 was 2.56%.

3/ Average revised beginning April 1, 1947. Old average for April 1947 was 2.47%.

4/ Market closed.

Source: Daily Treasury Statement for total receipts from internal revenue; reports by collectors of internal revenue for collections by type of tax.

1/ Excludes collections for credit to certain trust accounts for Territories and insular possessions, etc.

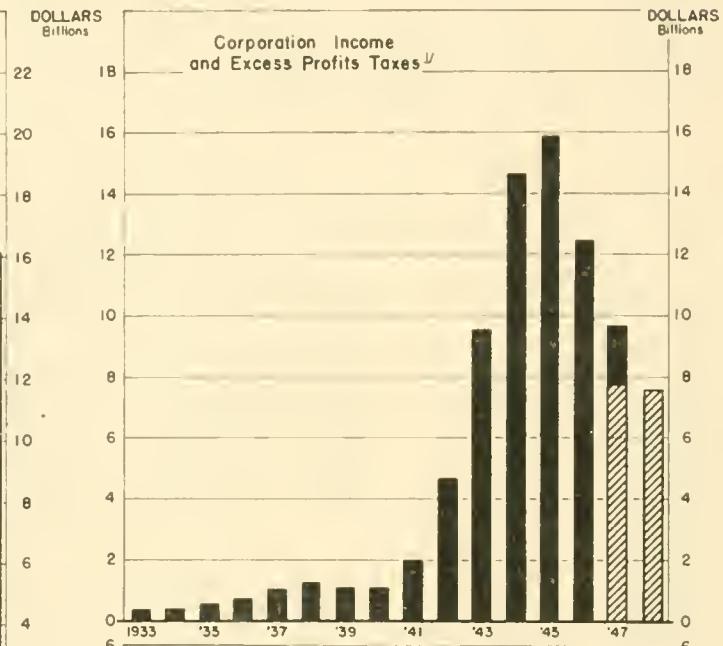

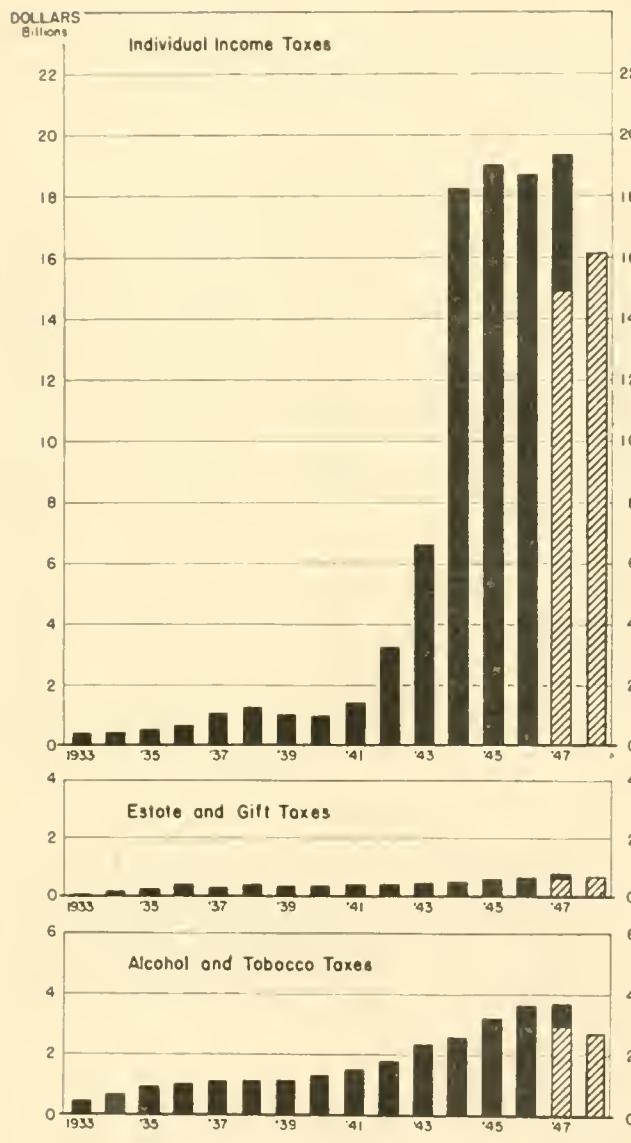

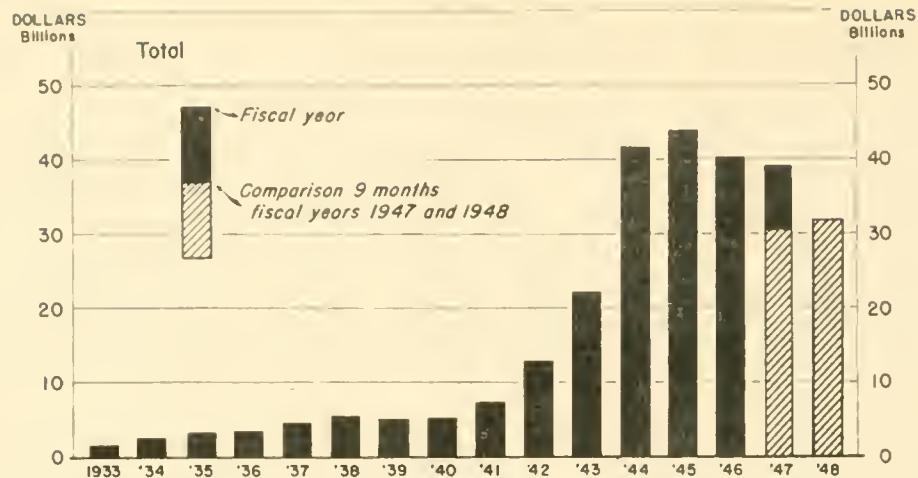

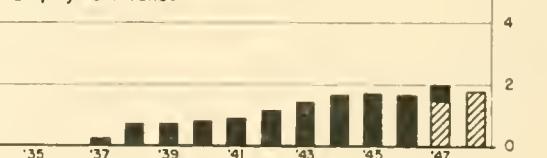

2/ Includes collection of taxes withheld by employers pursuant to the Revenue Act of 1942 and the Current Tax Payment Act of 1943.

3/ Includes income tax collections on Alaska Railroad. The excess profits tax included in this column is that imposed under the Second Revenue Act of 1940, as amended.

4/ Consists of the declared value excess profits tax, repealed for years ending after June 30, 1946, the profit limiting provisions of the Väinoo Act, and prior to July 1947 the tax on unjust enrichment. Beginning July 1947 the tax on unjust enrichment is included with repealed taxes under "Miscellaneous taxes".

5/ Repealed for years ending after June 30, 1945.
6/ Includes tax collections under the Sugar Act of 1937 and under the dividends tax imposed by the Act of June 16, 1933. See also footnote 4.

CAPITAL MOVEMENTS

Information relating to capital movements between the United States and foreign countries is presented in four sections. Section I contains the principal types of data on capital movements by years from 1935, and currently by months. Each type of data is then broken down into its chief components in the same chronological detail.

Section II supplies a geographic breakdown by principal countries for recent months. The total net capital movement is given first and then the principal categories are shown separately. In addition, at this point, the total outstanding claims on and liabilities to foreign countries are each presented.

Section III presents details with respect to capital movements and short-term claims and liabilities as

of the latest month for which the data are available.

Section IV contains data for recent months on outstanding contracts of banks for forward purchases and sales of foreign exchange.

The data in these four sections are based on reports filed each month by banks, bankers, and brokers throughout the United States. The reports are collected, checked, and tabulated by the twelve Federal Reserve Banks. The totals are then forwarded to the Treasury Department for consolidation and publication.

Publication of detailed figures on capital movements was discontinued between the March 1942 and the November 1945 issues of the "Treasury Bulletin", but data omitted during that period were supplied in the November 1945 issue and supplement.
