Treasury Financing Operations

Tax Anticipation Certificates Offered

An offering for cash subscription of \$3 billion of 82-day 1-3/8 percent tax anticipation certificates was announced by the Secretary of the Treasury on March 18, 1955. The certificates are dated April 1, 1955, and bear interest from that date until their maturity on June 22, 1955. They will be receivable at par plus accrued interest to maturity in payment of income and profits taxes due on June 15, 1955. The subscription books were open for one day only, on March 22.

Subscriptions of more than \$7.9 billion were announced on March 25 together with the basis of allotment. Subscriptions for \$50,000 and less were allotted in full. Remaining subscriptions were allotted 40 percent with a minimum of \$50,000 for each subscription. Allotments totaled \$3,210 million, with slightly over \$1.9 billion going to commercial banks and more than \$1.3 billion going to nonbank sources on original issue.

Commercial banks, which for this purpose are defined as banks accepting demand deposits, were permitted to subscribe for their own account without deposit, but were restricted in each case to an amount not exceeding 50 percent of the combined capital, surplus, and undivided profits of the subscribing bank as of December 31, 1954. A payment of 5 percent of the amount of certificates subscribed for, not subject to withdrawal until after allotment, was required on all other subscriptions. Commercial banks qualified as depositaries were permitted to

make payment for the new certificates by credit in Treasury tax and loan accounts.

Commercial banks and other lenders were requested to refrain from making unsecured loans or loans collateralized in whole or in part by the certificates subscribed for, to cover the 5 percent deposits required to be paid when subscriptions were entered. A certification by the subscribing bank that no such loan was made was required on each subscription entered by it for account of its customers. A certification that the bank had no beneficial interest in its customers' subscriptions, and that no customers had any beneficial interest in the bank's own subscription, also was required.

The securities were issued in bearer form only, in denominations of \$1,000, \$5,000, \$10,000, \$100,000, and \$1,000,000. They are designated 1-3/8 percent Treasury Certificates of Indebtedness, Series F-1955, Tax Anticipation Series.

91-Day Bills Refunded

Treasury bills which matured in March in the total of \$7.5 billion were refunded in full by five new issues of 91-day bills. Each new issue of \$1.5 billion was the approximate equivalent of the issue maturing. The average rates of discount on the new issues were 1.416 percent for March 3; 1.231 percent for March 10; 1.286 percent for March 17; 1.366 percent for March 24; and 1.374 percent for March 31.

Note: Details of Treasury market financing operations are shown elsewhere in this issue of the "Treasury Bulletin," in the tables on "Offerings" and "Dis-

position," respectively, of marketable issues of bonds, notes, and certificates of indebtedness, and in the table "Offerings of Treasury Bills."

BUDGET RECEIPTS AND EXPENDITURES

Footnotes to Tables 1 through 5

- 1/ For further detail, see tables under "Internal Revenue Collections." Breakdown was not made in the Daily Treasury Statement for years prior to 1954.
- 2/ Beginning January 1951, the distribution of receipts between individual income taxes and old-age insurance taxes is made in accordance with provisions of Sec. 109 (a) (2) of the Social Security Act Amendments of 1950, for appropriation to the Federal Old-Age and Survivors Insurance Trust Fund (see footnote 11).
- 4/ Taxes on employers and employees under the Federal Insurance Contributions Act, as amended (26 U.S.C. 1400-1432) and, beginning with the taxable year 1951, tax on self-employed individuals under the Self-Employment Contributions Act (26 U.S.C. 480-482).
- 5/ Taxes on carriers and their employees under the Railroad Retirement Tax Act (26 U.S.C. 1500-1538).
- 6/ Tax on employers of 8 or more under the Federal Unemployment Tax Act, as amended (26 U.S.C. 1600-1611).
- 7/ Through 1953, contributions to the Railroad Unemployment Insurance Administration Fund were carried in the Daily Treasury Statement as miscellaneous receipts, while the 1956 Budget document includes them in employment taxes for those years. This difference in classification accounts for the difference in figures from the two sources. After 1953 the contributions are credited direct to the trust account. For amounts of the contributions, see "Treasury Bulletin" for February 1954, page 7.
- 8/ As announced February 17, 1954 (see April 1954 "Treasury Bulletin," page A-2); see also page 1, footnote 6.
- 9/ In the 1956 Budget document, internal revenue taxes not otherwise classified are included in miscellaneous receipts.
- 10/ Includes proceeds from sale of surplus property and from Government-owned securities; seigniorage; deposits resulting from renegotiation of war contracts (see "Treasury Bulletin" for February 1948, page 5); and railroad unemployment insurance contributions for administrative expenses through 1953, after which they are carried as trust account receipts under the Railroad Retirement Board.
- 11/ Amounts appropriated to the Federal Old-Age and Survivors Insurance Trust Fund are equivalent to the amounts of taxes collected and deposited for old-age insurance (42 U.S.C. 401 (a)). The Social Security Act Amendments of 1950, approved August 28, 1950 (64 Stat. 477), changed in certain respects the basis of transferring the appropriated funds to the trust fund. Beginning January 1951, the amounts transferred currently as appropriations to the trust fund are based on estimates of old-age insurance tax receipts made by the Secretary of the Treasury pursuant to the provisions of Sec. 109 (a) (2) of the Amendments of 1950, and are adjusted in later transfers on the basis of wage and self-employment income records maintained in the Social Security Administration.
- 12/ Excludes the Government's contribution for creditable military service under the act of April 8, 1942 (56 Stat. 204). Beginning 1952, amounts are appropriated to the Railroad Retirement Account equal to the amount of taxes under the Railroad Retirement Tax Act deposited in the Treasury, less refunds, during each fiscal year (65 Stat. 222 and 66 Stat. 371), and transfers are made currently. Previously, annual appropriations were based, in effect, on estimated tax collections, with any necessary adjustments made in succeeding appropriations.
- 13/ Interest on refunds is included in Table 5 under "Other."
- 14/ Expenditures are "net," after allowances for reimbursements to appropriations, receipts of revolving fund appropriations, and receipts credited to disbursing accounts of corporations and agencies having authority to use collections without formal covering into the Treasury. The figures include transfers to trust accounts. They exclude net investments of wholly owned Government corporations and agencies in public debt securities beginning 1951 (when these investments were grouped with those of trust funds and accounts), and public debt retirements chargeable to the sinking fund, etc., under special provisions of law. Payments to the Treasury, principally by wholly owned Government corporations, for retirement of capital stock and disposition of earnings are excluded from both receipts and expenditures. Further information on these capital transfers may be found in the 1953 Annual Report of the Secretary of the Treasury, page 332.
- 15/ Beginning November 1949, interest on the public debt is reported as an expenditure when such interest becomes due and payable, as distinguished from the previous practice of showing the expenditure on the basis of interest paid by the Treasurer of the United States.
- 16/ Consists of Veterans' Administration expenditures, including the direct loan program.
- 17/ Includes transactions relating to the Foreign Economic Cooperation Trust Fund (see page 1).
- 18/ Net transactions by the Departments of the Air Force and the Army relating to "Deposit fund accounts" are included under "Trust Account and Other Transactions" instead of "Budget Receipts and Expenditures," beginning 1952.
- 19/ Includes retired pay for the military services beginning September 1949 and inter-service activities beginning July 1954.
- 20/ Excludes certain expenditures made on behalf of the Department of the Air Force out of 1949 and prior year appropriations to the Department of the Army.
- 21/ Includes certain expenditures on behalf of the Department of the Air Force (see footnote 20).
- 22/ Consists of expenditures from funds appropriated to the President under the Mutual Security Act, approved October 10, 1951 (22 U.S.C. 1651), and the preceding Economic Cooperation Act; and Greek-Turkish assistance.
- 23/ Consists of expenditures of the Atomic Energy Commission.
- 24/ Consists of payments under the Armed Forces Leaves Act, expenditures for surplus property disposal, and in 1947 also national defense expenditures of the Reconstruction Finance Corporation and certain other agencies; beginning 1954, includes direct forces support.
- 25/ Excludes Bank expenditures under the Mutual Security Act and the preceding Economic Cooperation Act of 1948, as amended.
- 26/ Consists of expenditures from funds appropriated to the President under the Mutual Security Act, and the preceding Economic Cooperation Act.
- 27/ After 1952, expenditures for this purpose are not shown separately in monthly reports to the Treasury; those made by the Department of State (the greater part, currently) are included under that heading in this table; those made by other agencies (principally the Department of the Army) are not included in this table.
- 28/ Consists of expenditures under the Bretton Woods Agreements Act (1947); credit to the United Kingdom (1947 and 1948); expenditures of the United Nations Relief and Rehabilitation Administration; relief to countries devastated by war; various other foreign relief programs; international children's emergency funds; and loan for construction and furnishing of United Nations Headquarters.
- 29/ Consists of expenditures of the Department of Health, Education, and Welfare except the Office of Education, and of the corresponding component organizations prior to the establishment of this department on April 11, 1953; the Government's contribution under the Railroad Retirement Act for creditable military service, and certain other Railroad Retirement Board expenditures through 1953; and also, beginning 1950, the school lunch program under the Department of Agriculture.
- 30/ Consists of expenditures of the Housing and Home Finance Agency, and of component organizations prior to the establishment of this agency on July 27, 1947; Federal Civil Defense Administration; and disaster relief.
- 31/ Consists of expenditures of the Department of Agriculture except the Forest Service and the school lunch program; and of the Farm Credit Administration.
- 32/ Consists of expenditures of the Department of the Interior; the Tennessee Valley Authority; the Corps of Engineers in the Department of the Army (river and harbor works and flood control); and the Forestry Service in the Department of Agriculture.
- 33/ Consists of expenditures of the Civil Aeronautics Administration, Civil Aeronautics Board, Maritime activities and predecessor agencies, and Bureau of Public Roads, all now in the Department of Commerce; the Coast Guard in the Treasury Department; and the Post Office Department. Figures prior to 1954 include net expenditures of certain working funds of the Department in addition to the Postal Service Fund (advances to cover the postal deficit). Beginning with 1954, net expenditures of the Department, including the Postal Service Fund, are on the basis of cash receipts and expenditures recorded in the accounts of the Department.
- 34/ Consists of expenditures of the Department of Commerce except those included under "Transportation and communication"; the Reconstruction Finance Corporation (as in liquidation by the Treasury Department beginning July 1954); Federal Facilities Corporation beginning July 1954; the Small Business Administration; the Economic Stabilization Agency; and funds appropriated to the President for the expansion of defense production.
- 35/ Includes expenditures for executive departments and other agencies not included elsewhere and for legislative and judicial functions.

TREASURY CASH INCOME AND OUTGO

The cash income and outgo of the Treasury shown in Table 1 consist of cash deposits and withdrawals in the account of the Treasurer of the United States. This is in line with the new reporting basis of the "Daily Statement of the United States Treasury." Effective February 17, 1954, the Daily Treasury Statement shows deposits and withdrawals in the account of the Treasurer of the United States. Budget results and trust account and other transactions are now reported once each month in the "Monthly Statement of Receipts and Expenditures of the United States Government" (see page A-2 in the April 1954 issue of the "Treasury Bulletin").

Figures for previous fiscal years heretofore published have been revised to the basis of deposits and withdrawals by eliminating corporation and agency transactions included in the old Daily Statement but not cleared through the Treasurer's account. The cash borrowing or repayment of borrowing as now shown is likewise based only on transactions cleared through the Treasurer's account.

In Tables 2, 3, and 4 is given the reconciliation of the cash transactions with the budget and other transactions which formerly appeared in the old Daily Statement and now appear in the new Monthly Statement. These tables

follow the method used previously for deriving cash income and outgo from the transactions carried in the old Daily Statement. Some rearrangement has been made in the table setup, principally to combine all receipts and all expenditures instead of deriving separately the cash budget and trust account transactions.

Reporting bases for the two statements differ in two respects. Certain corporation and agency transactions in securities which are not effected through the account of the Treasurer of the United States are included in the Monthly Statement but excluded from the Daily Statement. These are eliminated from the Monthly Statement figures in arriving at the cash transactions shown in the tables which follow. Other differences arise because of the differences in timing, as between checks issued (Monthly Statement) and checks paid (Daily Statement) for expenditures or between collections (Monthly Statement) and clearances (Daily Statement) for receipts. Thus an individual transaction near the end of a month may be included during that month in one statement but not until the following month in the other. These differences tend to correct themselves over a period of time, but for a given reporting date it is necessary to include an adjustment figure to cover them.

Source: Actual figures through 1952 are based on the old Daily Treasury Statement; actual figures on the new reporting basis are based on the New Daily Treasury Statement, except the memorandum item, which is from the new "Monthly Statement of Receipts and Expenditures of the United States Government"; estimates are based on the 1956 Budget document, released January 17, 1955, including effects of proposed legislation. Figures in the first four columns of this table may differ somewhat from those originally published in the Daily Treasury Statement because of subsequent reclassification of certain transactions.

1/ Consists of seigniorage on silver and increment resulting from reduction in weight of the gold dollar. This item is part of the cash budget receipts shown in these tables, but is excluded from the Bureau of the Budget figures for "Receipts from the public."

2/ In addition to this decrease in the balance in the Treasurer's account, the Exchange Stabilization Fund was drawn down by \$1,800 million for subscription to the capital of the International Monetary Fund.

Source: Actual figures through 1952 are based on the old Daily Treasury Statement; actual figures on the new reporting basis are based on the new "Monthly Statement of Receipts and Expenditures of the United States Government"; estimates are based on the 1956 Budget document, released January 17, 1955, including effects of proposed legislation. The Monthly Statement figures for a given month appear in the Bulletin issue following that which carries corresponding Daily Statement figures in Table 1.

1/ For further detail, see "Budget Receipts and Expenditures," Table 1.

2/ Deduction from budget receipts of the tax refunds represented by these bonds is treated as a noncash deduction at the time of issuance of the bonds and as a cash deduction at the time of redemption of the bonds (see Table 4); net issuance, or redemption (-).

3/ For explanation, see headnote.

4/ By Federal Old-Age and Survivors Insurance Trust Fund through October 1948.

Thereafter includes also reimbursements from the District of Columbia and Panama Canal Company.

5/ Includes proceeds of ship sales carried in trust accounts pending allocation to budget receipts from sale of surplus property, transfers between trust accounts, and payment of earnings or repayment of capital stock to the Treasury by corporations not wholly owned. Figures for 1947 and 1948 include \$53 million and \$8 million, respectively, of armed forces leave bonds redeemed for insurance premiums; after August 31, 1947, these bonds were redeemable for cash.

6/ For explanation, see headnote. Excess of receipts on Monthly Statement basis is deducted.

* Less than \$500,000.

1/ Accrued discount on savings bonds and bills less interest paid on savings bonds and bills redeemed.

2/ The issuance of these securities is treated as a noncash budget expenditure at the time of issuance and as a cash budget expenditure at the time of cash redemption; net issuance, or redemption (-).

3/ See Table 3, footnote 3.

4/ The issuance of these securities is treated as a noncash deduction from

budget receipts at the time of issuance and as a cash deduction at the time of cash redemption; net issuance, or redemption (-).

5/ Net investments of Government agencies in public debt securities and

net sales of obligations of Government agencies in the market.

6/ Includes borrowing through Postal Savings System.

7/ For explanation, see headnote.

* Less than \$500,000.

Footnotes to Table 3

1/ For further detail, see "Budget Receipts and Expenditures," Table 2.

2/ Includes net investments of Government agencies in public debt securities and net redemptions in the market of securities of Government agencies (see "Trust Account and Other Transactions," Table 1).

3/ The United States subscription to the capital of the International Monetary Fund was paid in part from the Exchange Stabilization Fund (see "Treasury Bulletin" for September 1947, page 17).

4/ Accrued discount on savings bonds and bills less interest paid on savings bonds and bills redeemed.

5/ Prior to 1951, consists of net investments of corporations not wholly owned; beginning with that year, includes also those of wholly owned corporations and agencies which for prior years are included in budget expenditures.

6/ For explanation, see headnote.

7/ Treated as noncash expenditures at the time of issuance and as cash expenditures at the time of redemption; net issuance, or redemption (-).

8/ For explanation, see headnote. Excess of expenditures on Monthly Statement basis is deducted.

9/ As shown in the "Monthly Statement of Receipts and Expenditures of the United States Government"; consists of changes in checks and interest coupons outstanding and telegraphic reports from Federal Reserve Banks, and beginning with the fiscal year 1954, also changes in deposits in transit and cash held outside the Treasury.

10/ Net investments of Government agencies in public debt securities and

net redemptions of obligations of Government agencies in the market.

11/ Since deposit funds (net) are included under trust account expenditures, the interest received by corporations not wholly owned is carried there as a negative expenditure. Thus when budget expenditures and trust account expenditures are combined, the payment and receipt of the interest offset each other. Payment of interest to wholly owned Government corporations is offset because it is treated as a negative budget expenditure when received by the corporations.

* Less than \$500,000.

STATUTORY DEBT LIMITATION

The Second Liberty Bond Act, as amended (31 U.S.C. 757 b), provides that the face amount of obligations issued under authority of that act, and the face amount of obligations guaranteed as to principal and interest by the United States (except guaranteed obligations held by the Secretary of the Treasury), shall not exceed in the aggregate \$275 billion outstanding at any one time,

except that this amount was increased by \$6 billion beginning on August 28, 1954, and ending on June 30, 1955, by Public Law 686, approved August 28, 1954 (68 Stat. 895). Obligations issued on a discount basis, and subject to redemption prior to maturity at the option of the owner, are included in the statutory debt limitation at current redemption values.

3/ The 2-1/2% bonds maturing December 15, 1958, were reopened for the December 1, 1953, refunding (see Table 3).

4/ On November 9, 1953, the Treasury purchased from the Federal Reserve System and retired \$500 million of the 2-1/8% Treasury notes maturing December 1, 1953. For further detail see "Treasury Bulletin" for November 1953, page A-1.

5/ For details of exchange offering see Table 3, footnote 13.

6/ It had been announced that holders of these bonds would be given an opportunity to exchange them for another Treasury issue after February 15, 1954. This exchange offering was included in the refinings of May 17, 1954.

7/ The 1-1/8% certificates maturing August 15, 1955, were reopened for the December 15, 1954, refunding. Preliminary.

UNITED STATES SAVINGS BONDS

United States savings bonds were first offered in March 1935 and began to mature in March 1945. Series A-D were sold between March 1935 and the end of April 1941, and Series E, F, and G were first offered in May 1941. When Series E began to mature on May 1, 1951, owners of the matured bonds were offered three options: To redeem the bonds in cash in accordance with the original terms; to retain them with an extended maturity of 10 years at specified rates of interest accrual; or to exchange them for Series G bonds. A number of changes became effective May 1, 1952. The principal ones were: The rate of interest accrual on Series E was increased, especially for the near term, with corresponding changes in extended Series E; and Series F and G were replaced by two new issues, Series J and K, also at higher interest rates. A new current-income bond, Series H, similar in interest return to Series E, was offered beginning June 1. For

details of these changes see "Treasury Bulletin" for May 1952, page A-1. Series F and G began to mature on May 1, 1953. For the exchange offering made to holders of these bonds maturing through December 31, 1953, see the May 1953 issue, page A-1. The Treasury invited holders of Series F and G which began to mature in January 1954 to reinvest the proceeds in other series of savings bonds. In the tables which follow, Series A-F and J sales are included at issue price and total redemptions and amounts outstanding at current redemption values. Series G, H, and K are included at face value throughout. Matured bonds which have been redeemed are included in redemptions. Matured F and G bonds outstanding are included in the interest-bearing debt until all bonds of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

1/ Details by series on a cumulative basis and by period for Series A-D combined will be found in the February 1952 and previous issues of the "Treasury Bulletin."

2/ Includes exchanges of matured Series E bonds for Series G bonds beginning May 1951 and for Series K bonds beginning May 1952.

3/ Includes both matured and unmatured bonds; see Table 4.

4/ Includes total value of redemptions not yet classified between matured and unmatured bonds.

5/ A change in procedure, beginning in June 1954, for processing redeemed savings bonds has resulted in a high level of redemptions not yet classified between matured and unmatured bonds. This increase temporarily obscures the relationship between the redemption columns

showing sales price and accrued discount in Tables 2 through 4 and also the relationship between the matured and unmatured sections of Table 4. (See also footnote 4.) The subsequent distribution of this high level of unclassified redemptions may be large enough in any month to show redemptions of matured bonds for a series in Table 4 which are greater than the total redemptions of that series as shown in Table 3, and to show a negative in the unmatured section of Table 4.

6/ Sales began June 1, 1952.

7/ Comparable data are not available prior to January 1950.

8/ Includes exchanges of Series 1941 F and G savings bonds for Treasury 3-1/4% bonds of 1978-83.

* Less than \$500,000.

TREASURY SAVINGS NOTES

Treasury tax and savings notes have been issued as follows: Tax Series A from August 1, 1941, through June 22, 1943; Tax Series B from August 1, 1941, through September 12, 1942; Savings Series C (originally designated Tax Series C) from September 14, 1942, through August 31, 1948; Savings Series D from September 1, 1948, through May 14, 1951; Savings Series A from May 15, 1951, through May 14, 1953; Savings Series B from May 15, 1953, through September 25, 1953; and a new Savings Series C from October 1, through October 23, 1953, when sale of these notes was suspended. Details concerning terms and conditions for purchase and redemption and information on investment yields of Savings Series C appear in the October 1953 issue of the "Treasury Bulletin," page A-1.

Similar information with respect to the offering of the earlier series was published currently in the "Treasury Bulletin," and appears also in the "Annual Report of the Secretary of the Treasury" for appropriate years.

In the following tables sales and redemptions of Treasury savings notes are shown at par value. Matured notes redeemed (either for cash or for tax payment) are included in the figures on redemptions. Matured notes outstanding are reflected in the interest-bearing debt until all notes of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

Source: Daily Treasury Statement for total amounts outstanding; reports from agencies and trust funds for securities held by U. S. Government investment accounts; and reports from Federal Reserve System for securities held by Federal Reserve Banks.

1/ Includes certain obligations not subject to statutory limitation.

For amounts subject to limitation, see page 1.

2/ Includes accounts under the control of certain U. S. Government agencies whose investments are handled outside the Treasury; excludes Federal land banks after June 26, 1947, when the proprietary interest of the United States in these banks ended.

3/ The total amount of interest-bearing securities held by private investors is calculated by deducting from the total amount outstanding the amount held by U. S. Government investment accounts and Federal Reserve Banks.

4/ Excludes guaranteed securities held by the Treasury.

5/ All public marketable issues.

6/ Comprises of Commodity Credit Corporation demand obligations stated as of the close of the previous month.

* Less than \$500,000.

1/ Consists of purchases or sales made by the Treasury of securities issued or guaranteed by the U. S. Government for (1) trust funds which by law are under the control of the Secretary of the Treasury or of the Treasurer of the United States, and (2) accounts under the control of certain U. S. Government agencies whose investments are handled through the facilities of the Treasury Department. It will be noted that these

transactions differ from those reflected in Table 1 because they exclude those Government investment accounts for which investments are not handled by the Treasury. Table 2 also includes purchases under Section 19 of the Second Liberty Bond Act, as amended (31 U.S.C. 754 a), and excludes the Exchange Stabilization Fund.

* Less than \$50,000.

1/ United States savings bonds, Series A-F and J, are included at current redemption value.

2/ Securities issued or guaranteed by the U. S. Government, excluding guaranteed securities held by the Treasury. For amounts subject to statutory debt limitation, see page 1.

3/ Consists of commercial banks, trust companies, and stock savings banks in the United States and in Territories and island possessions. Figures exclude securities held in trust departments.

4/ Holdings by Federal land banks are included under "Miscellaneous investors" instead of "U. S. Government investment accounts" after June 26, 1947, when the proprietary interest of the United States in these banks ended.

5/ Includes partnerships and personal trust accounts. Nonprofit institu-

tions and corporate pension trust funds are included under "Miscellaneous investors."

6/ Exclusive of banks and insurance companies.

7/ Consists of trust, sinking, and investment funds of State and local governments and their agencies, and Territories and island possessions.

8/ Includes savings and loan associations, nonprofit institutions, corporate pension trust funds, dealers and brokers, and investments of foreign balances and international accounts in this country. Beginning December 1946, includes investments by the International Bank for Reconstruction and Development and the International Monetary Fund in special noninterest-bearing notes issued by the U. S. Government.

TREASURY SURVEY OF OWNERSHIP, JANUARY 31, 1955

The Treasury Survey of Ownership covers securities issued by the United States Government and by Federal agencies. The banks and insurance companies included in the Survey account for approximately 95 percent of such securities held by all banks and insurance companies in the United States. Data were first published for March 31, 1941, in the May 1941 "Treasury Bulletin."

Distribution of ownership by types of banks and insurance companies is published each month. Holdings by commercial banks distributed according to Federal Reserve member-bank classes and nonmember banks are published for June 30 and December 31. Holdings by corporate pension trust funds are published quarterly and first appeared in the March 1954 Bulletin for quarters beginning December 31, 1949.

^{1/} Includes certain obligations not subject to statutory debt limitation. For amount subject to limitation, see page 1.

^{2/} Excludes trust departments.

^{3/} Includes trust companies and, beginning with figures for July 1949, also includes stock savings banks. Previously, these banks were reported as a separate classification.

^{4/} Includes those banks and insurance companies not reporting in the Treasury Survey.

^{5/} United States savings bonds, Series E, F, and J, are shown at current redemption value. They were reported at maturity value by the banks and insurance companies included in the Treasury Survey but have been adjusted to current redemption value for use in this statement.

^{6/} Holdings by reporting agencies not available.

^{7/} Excludes guaranteed securities held by the Treasury.

^{8/} Federal securities fall into three broad classes with respect to the imposition of Federal income taxes on income derived from them. "Wholly" tax-exempt securities are those with the income exempt from

both normal tax and surtax. "Partially" tax-exempt securities are those with the income exempt from the normal tax except that in the case of partially tax-exempt Treasury bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax. "Taxable" securities are those with the income subject to normal tax and surtax.

^{9/} Includes Federal Housing Administration debentures; see footnote 10.
^{10/} A small indeterminate amount of these debentures is partially tax-exempt.

^{11/} Includes \$136.4 million depositary bonds held by commercial banks not included in the Treasury Survey.

^{12/} The proprietary interest of the United States in these banks ended in July 1951.

^{13/} Excludes issue completely held by Farm Credit Administration agencies. The proprietary interest of the United States in these banks ended in June 1947.

* Less than \$500,000.

MARKET QUOTATIONS ON TREASURY SECURITIES, FEBRUARY 28, 1955

Current market quotations shown here are over-the-counter closing bid quotations in the New York market for the last trading day of the month, as reported to the Treasury by the Federal Reserve Bank of New York. The securities listed include all regularly quoted

public marketable securities issued by the United States Government except Panama Canal bonds. Outstanding issues which are guaranteed by the United States Government are excluded because they are not regularly quoted in the market.

1/ Tax Anticipation Series.

2/ Beginning April 1953, prices are closing bid quotations in the over-the-counter market. Prices for prior dates are the mean of closing bid and ask quotations, except that before October 1, 1939, they are closing prices on the New York Stock Exchange. "When issued" prices are included in history beginning October 1, 1939. Dates of highs and lows in case of recurrence are the latest dates.

3/ Not quoted on February 28, 1955.

4/ Yield to first call. Yields are computed to call date when the price

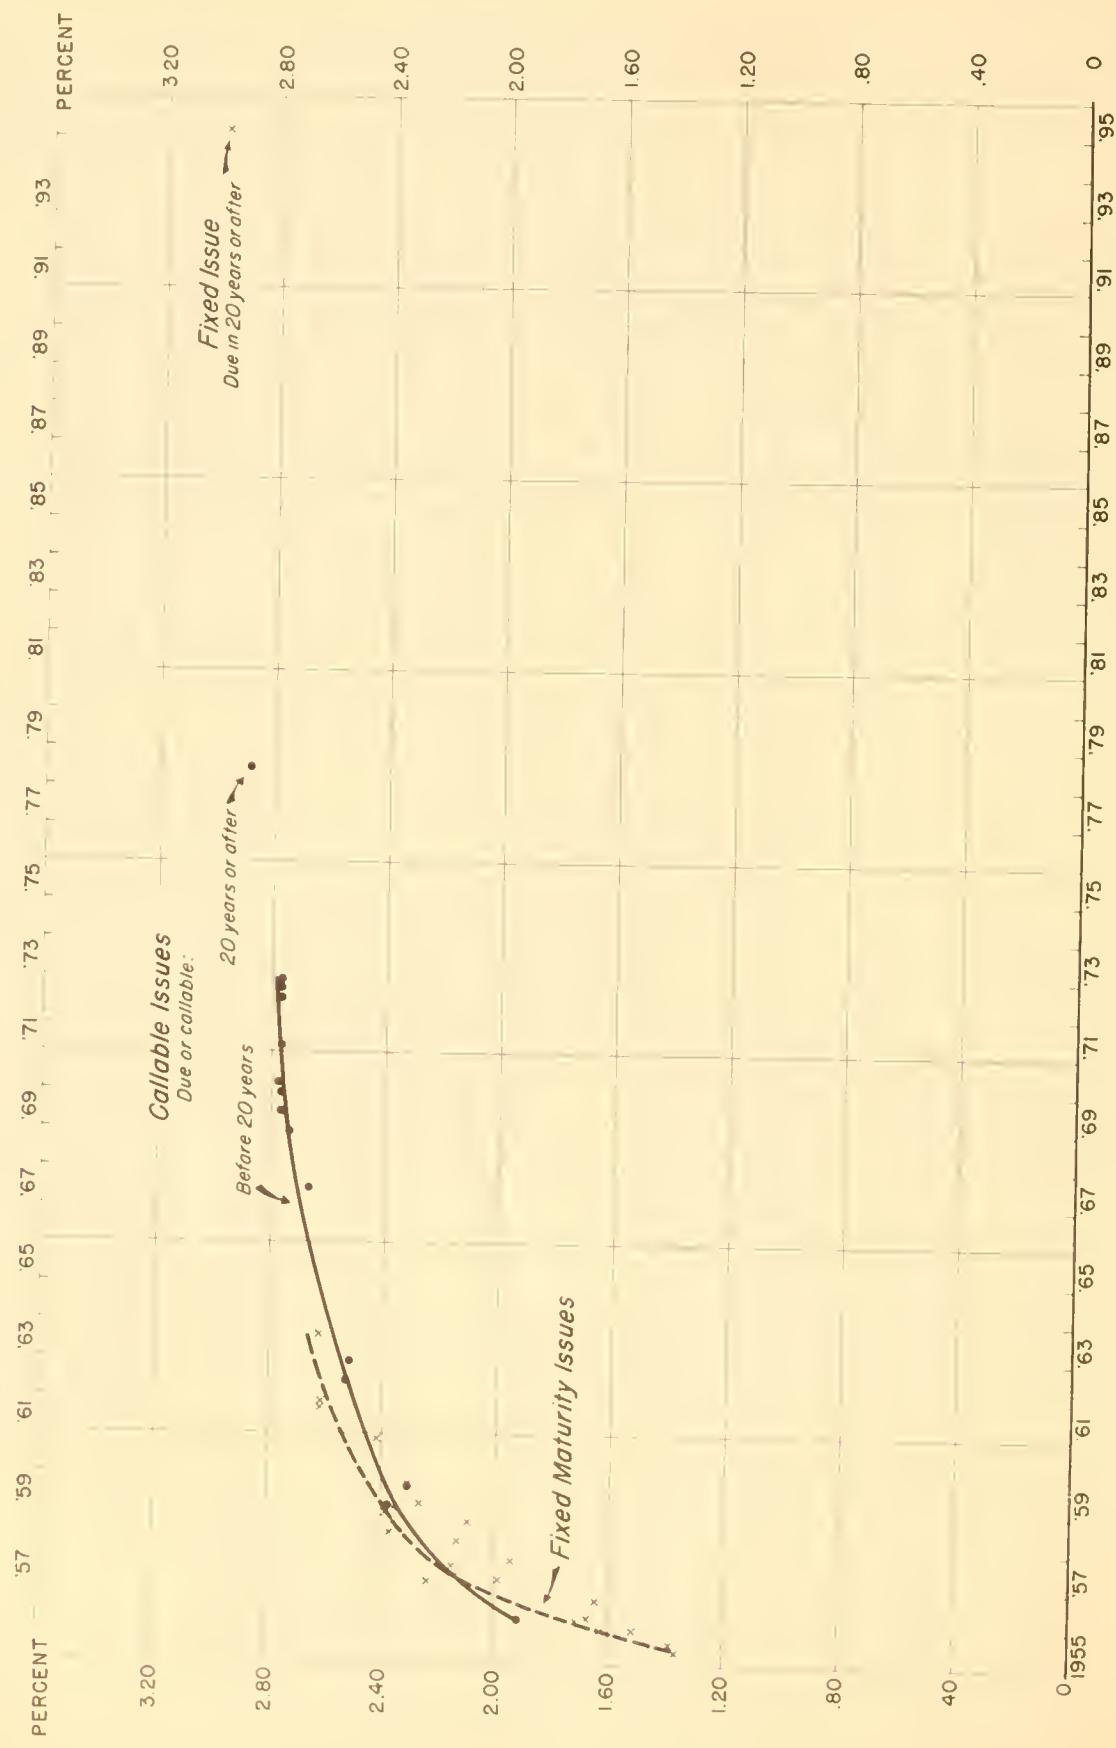

is above par and to maturity when the price is at or below par.

5/ Included in the average of taxable Treasury bonds 10 or callable from 12 to 20 years beginning April 15, 1953, as shown under "Average Yields of Long-Term Bonds."

6/ Included in the new long-term taxable Treasury bond class due or callable 20 years and after, as shown under "Average Yields of Long-Term Bonds."

7/ Called on November 15, 1954, for redemption on March 15, 1955.

YIELDS OF TAXABLE TREASURY SECURITIES, FEB. 28, 1955
Based on Closing Bid Quotations

Explanation: The points represent yields to call when prices are above par, and to maturity date when prices are at par or below. The smooth curves for the various classes of points are fitted by eye. Issues for which no exchange offer has been made or which are due or callable in less than 3 months are excluded.

1/ Beginning April 1953, Treasury bond yields are reported to the Treasury by the Federal Reserve Bank of New York, based on closing bid quotations in the over-the-counter market. Yields for prior periods were computed on the basis of the mean of closing bid and ask quotations. For definition of taxable bonds, see footnotes to the "Treasury Survey of Ownership" in this issue of the "Treasury Bulletin."

2/ Prior to April 1953, the single series on long-term taxable Treasury bonds included the following: April 1952 through March 1953, bonds neither due nor callable for 12 years; October 1941 through March 1952, bonds neither due nor callable for 15 years. For a discussion of the composition of these Treasury bond averages, see the "Treasury Bulletin" for March 1944, page 58.

3/ Moody's Investors Service average of Aaa corporate bonds. This series supersedes the Treasury average of high-grade corporate bonds previously shown in this table, which was discontinued after March 1953.

4/ Average covers 8-1/2 months beginning April 15, the inception date of this series.

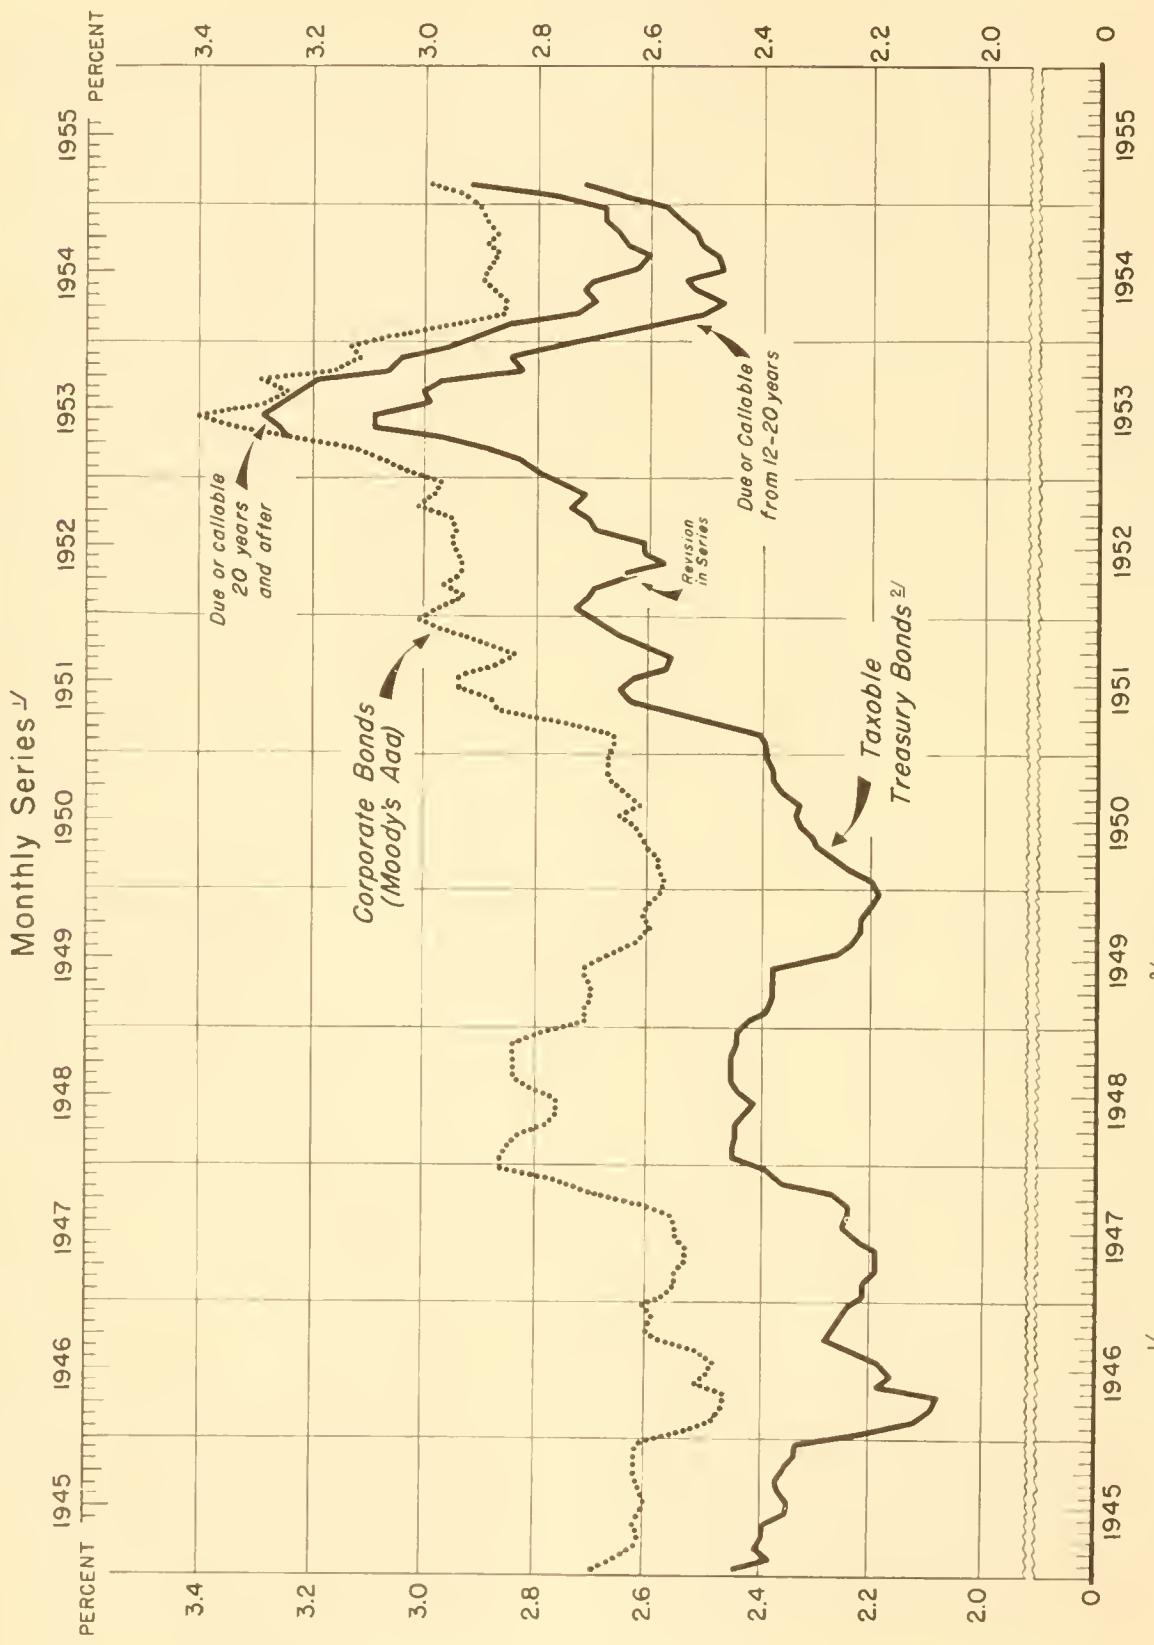

5/ The long-term taxable Treasury bond average was revised beginning April 1, 1952, see footnote 2. The old average for April 1952 was 2.62 percent.

6/ Includes the 3% bonds of February 15, 1955, first quoted on January 28, 1955.

7/ Market closed.

Source: Internal Revenue Service reports for detail of collections by type of tax; Daily Treasury Statement for budget receipts from internal revenue through the fiscal year 1952, and the new "Monthly Statement of Receipts and Expenditures of the United States Government" for receipts thereafter. Certain detail by type of tax is available only on the basis of returns filed with the Internal Revenue Service. The figures shown include collections for credit to special accounts for certain island possessions, as reported by the Internal Revenue Service.

1/ Differences between the amounts of internal revenue reported by the Internal Revenue Service as collections for given periods and the amounts reported in Treasury statements as budget receipts for the same periods arise because of differences in the time when payments are included in the respective reports. Tax payments are included in budget receipts when they are reported as credits to the account of the Treasurer of the United States. Prior to July 1954, they were included in Internal Revenue Service collection reports after the returns to which they applied had been received in internal revenue offices. Under procedure begun in 1950 with withheld income tax and old-age insurance taxes and later extended to railroad retirement taxes and many excises, these taxes are paid currently into Treasury depository and the depository receipts, as evidence of such payment, are attached to quarterly returns to the Internal Revenue Service. Under this procedure, the payments are included in budget receipts in the month in which the depository receipts are issued to the taxpayers.

Revised accounting procedures effective July 1, 1954, extended the same practice to Internal Revenue Service collection reports.

2/ Monthly figures include old-age insurance tax on self-employment income, which is levied and collected as part of the individual income tax beginning with the taxable year 1951. Fiscal year figures exclude this tax, on the basis of estimates beginning 1952 (see footnote 3), and it is included under "Old-age insurance taxes."

3/ Withheld income tax and old-age insurance taxee on employers and employees are paid into the Treasury in combined amounts beginning January 1951. In Internal Revenue Service reports, current collections have not been separated as to type of tax but the breakdown shown for fiscal years beginning 1951 is based on estimates made in accordance with provisions of Sec. 109 (a) (2) of the Social Security Act Amendments of 1950, for appropriations to the Federal Old-Age and Survivors Insurance Trust Fund.

4/ New reporting basis beginning with the fiscal year 1953; for explanation, see footnote on page 1.

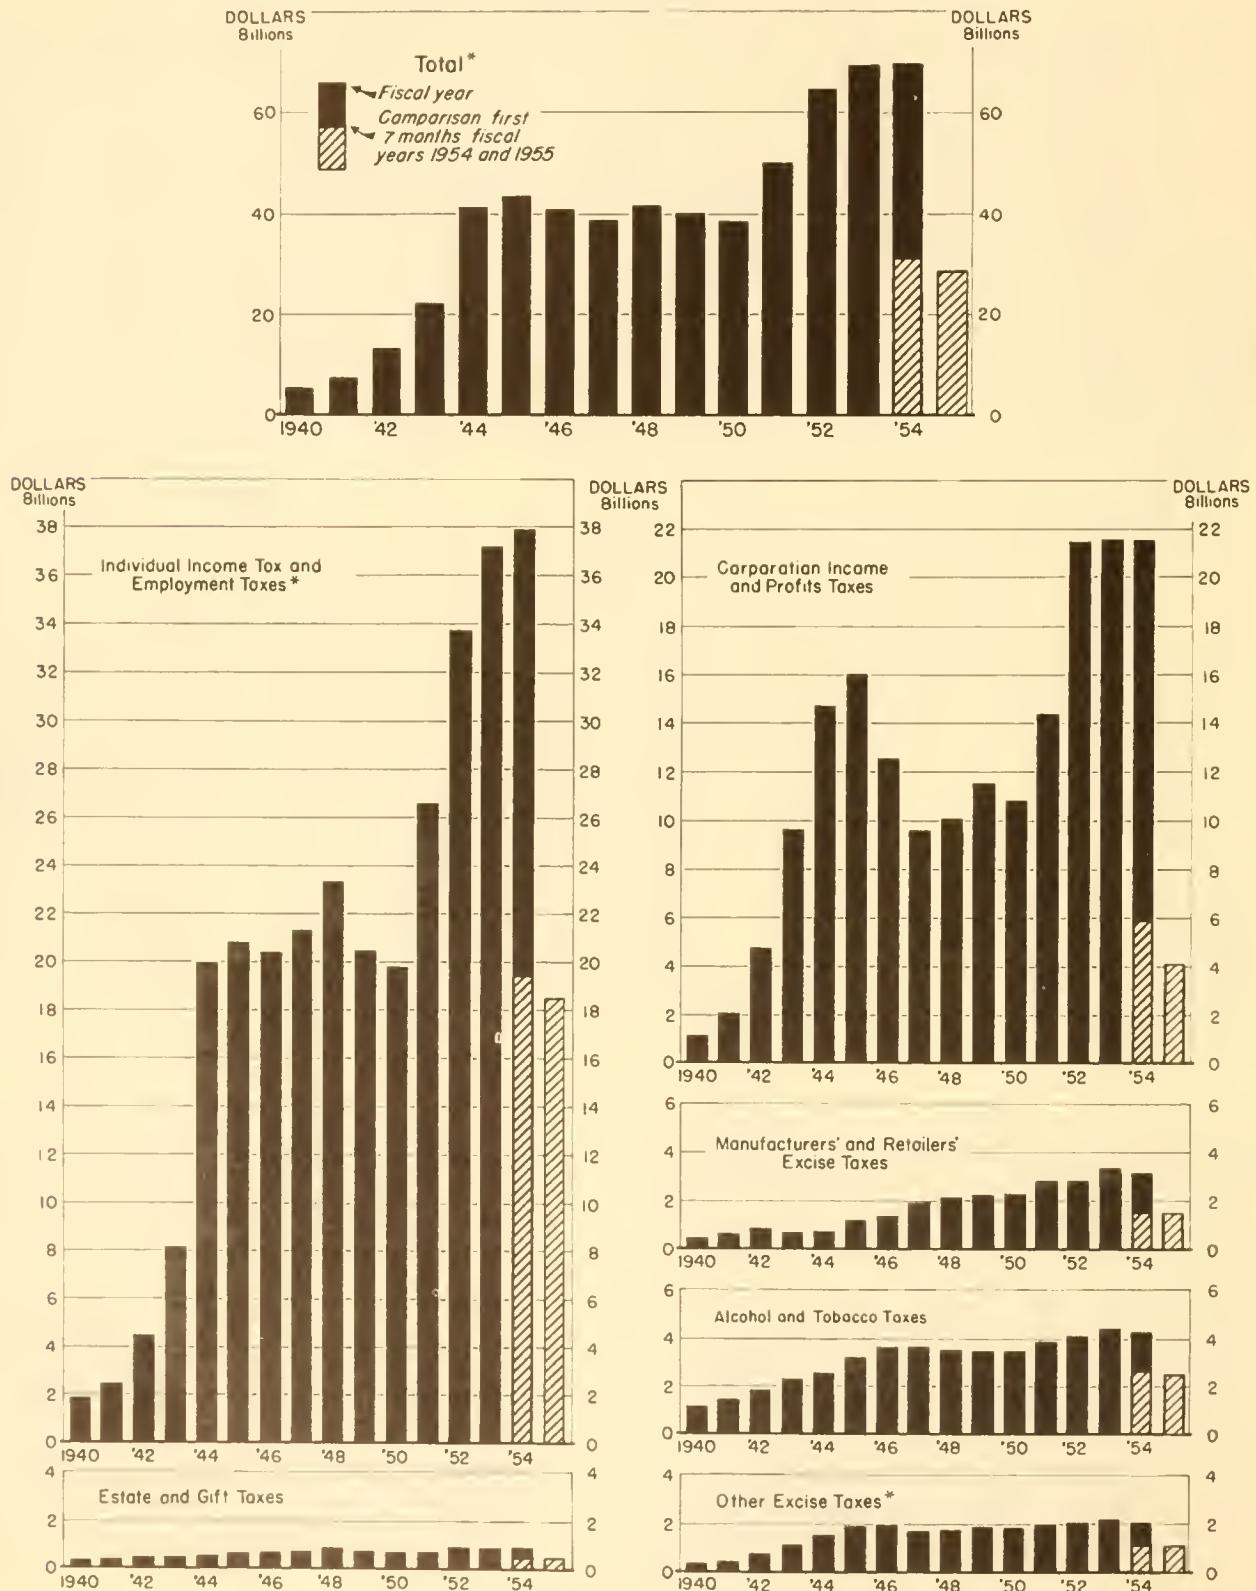

5/ Beginning July 1954, collections shown include undistributed depository receipts. For the amount of such receipts, see Table 2.

6/ Repealed for years ending after June 30, 1945. Beginning 1951, included under "Miscellaneous taxes."

7/ Beginning July 1954, total includes the whole amount of undistributed depository receipts for excise taxes.

Source: Internal Revenue Service reports for detail of collections by type of tax; Daily Treasury Statement for budget receipts from internal revenue through the fiscal year 1952, and the new "Monthly Statement of Receipts and Expenditures of the United States Government" for receipts thereafter. Certain detail by type of tax is available only on the basis of returns filed with the Internal Revenue Service. The figures shown include collections for credit to special accounts for certain island possessions, as reported by the Internal Revenue Service.

1/ Includes excess profits taxes on Army and Navy contracts imposed by the Vinson Act as amended (34 U.S.C. 496), and income tax on business income of exempt organizations imposed by the Revenue Act of 1951, approved October 20, 1951.

2/ Includes old-age insurance tax on self-employment income, imposed by the Social Security Act Amendments of 1950 (Public Law 734), approved August 28, 1950. The tax is levied and collected as part of the individual income tax beginning with the taxable year 1951. For estimated fiscal year breakdown, see Table 1.

3/ Beginning January 1951, withheld income tax and social security employment taxes on employers and employees are paid into the Treasury in

combined amounts, pursuant to the Social Security Act Amendments of 1950. For estimated fiscal year breakdown, see Table 1.

4/ Under revised accounting procedures effective July 1, 1954, tax payments made to banks under the depositary receipt system are included in Internal Revenue Service reports of collections in the month in which the depositary receipts are issued instead of the month in which tax returns supported by the depositary receipts are received in internal revenue offices, as was the previous practice. The "Undistributed depositary receipts" included in the collections represent the amount of depositary receipts issued during the period less the amount received with returns. In the case of excise taxes, it is not possible to classify the depositary receipts by type of tax until the returns are received. Accordingly, the amount of such undistributed depositary receipts is included only in the total of excise taxes.

5/ Applies to diesel oil used in highway vehicles.

6/ See Table 1, footnote 1.

7/ New reporting basis; for explanation, see footnote on page 1.

* Less than \$500.

1/ These items represent the difference between the cost value and the monetary value of silver bullion revalued and held to secure silver certificates.

2/ The figures in this column are not cumulative; as the amount of bullion held changes, the potential seigniorage thereon changes.

CAPITAL MOVEMENTS

Data relating to capital movements between the United States and foreign countries have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, Executive Order 10033 of February 8, 1949, and Treasury regulations promulgated thereunder. Information covering the principal types of data and the principal countries is reported monthly, and is published regularly in the "Treasury Bulletin." Supplementary information is published at less frequent intervals. Reports by banks, bankers, securities brokers and dealers, and industrial and commercial concerns in the United States are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury. Beginning April 1954, data reported by banks in the Territories and possessions of the United States are included in the published data.

The term "foreigner" as used in these reports covers all institutions and individuals domiciled outside the United States and its Territories and possessions, the official institutions of foreign countries, wherever such institutions may be located, and international organizations. "Short-term" refers to original maturities of one year or less, and "long-term" refers to all other maturities. A detailed discussion of the reporting coverage, statistical presentation, and definitions appeared in the June 1954 issue of the "Treasury Bulletin,"

pages 45-47. As a result of changes in presentation introduced in that issue, not all breakdowns previously published will be exactly comparable to those now presented.

The first three sections which follow are published monthly. They provide summaries, by periods and by countries, of data on short-term banking liabilities to and claims on foreigners and transactions in long-term securities by foreigners, and present detailed breakdowns of the latest available preliminary data.

Section IV provides supplementary data in five tables which appear at less frequent intervals. Table 1, short-term foreign liabilities and claims reported by non-financial concerns, is published quarterly in the January, April, July, and October issues of the Bulletin. Table 2, long-term foreign liabilities and claims reported by banks and bankers, and Table 3, estimated gold and short-term dollar resources of foreign countries, are published quarterly in the March, June, September, and December issues. Table 4, foreign credit and debit balances in brokerage accounts, appears semiannually in the March and September issues. Table 5, short-term liabilities to foreigners in countries and areas not regularly reported separately by banking institutions, is presented annually in the April issue.

Note: The information in this table is reported to the Treasury Department as of December 31 of each year. The totals will not agree with those shown for the corresponding dates for "Other Europe," "Other Latin America," "Other Asia," and "Other countries" in the regular monthly series in the "Treasury Bulletin." Reports have been requested only from banks and

bankers in the Second Federal Reserve District, and countries have been omitted or grouped to avoid revealing individual accounts or the foreign position of any reporting institutions.

1/ Prior to 1954, data represent liabilities to Indochina.

CORPORATIONS AND CERTAIN OTHER BUSINESS-TYPE ACTIVITIES

Financial statements of corporations in which the United States Government has a proprietary interest, direct or indirect, and of certain other business-type activities of the United States Government are submitted quarterly to the Treasury Department, in accordance with Budget-Treasury Regulation No. 3, issued under Executive Order No. 8512 of August 13, 1940, as amended by Executive Order No. 9084 of March 3, 1942. Data from these reports, adjusted for consistency where necessary, are compiled in a series of tables covering balance sheets, statements of income and expense, and statements of source

and application of funds, which are published in the "Treasury Bulletin."

The balance sheet tables for December 31, 1954, appear in this issue. They are published for each quarter. The tables on income and expense and source and application of funds are published at six-month intervals, and cover the periods ending June 30 and December 31. They appear in each case in a Bulletin issue subsequent to that carrying the corresponding balance sheet data.
