Reporting Bases

Data on receipts, expenditures, and debt which appear in the "Treasury Bulletin" are based largely on two Treasury financial reports, the "Daily Statement of the United States Treasury" and the "Monthly Statement of Receipts and Expenditures of the United States Government." Certain monetary statistics are based at least in part on the "Circulation Statement of United States Money." Where these statements are given as sources for individual tables, they are cited by name only. Their respective reporting bases are described below. For other data in the Bulletin, information on sources or reporting bases is given in connection with the tables themselves.

The monthly statement of receipts and expenditures was first published for February 1954, and replaced the daily statement as the primary source of information on budget results and other receipt and expenditure data classified by type of account. At the same time, the daily statement was changed to a statement of cash deposits and withdrawals affecting the account of the Treasurer of the United States. Both publications have provided comparative figures on their respective bases from the beginning of the fiscal year 1953. The announcement of February 17, 1954, with respect to these reporting changes may be found in the April 1954 issue of the Bulletin.

The monthly statement shows all receipts and expenditures of the Government, including those made from cash accounts held outside the United States Treasury. The information is compiled from reports by the Treasurer of the United States and by all other collecting and disbursing agencies, including those agencies which maintain checking accounts in commercial banks. These reports cover transactions recorded in the accounts of the agencies during the reporting period. The net of the transactions as compiled from these reports is reconciled in the monthly statement to changes in the balance in the Treasurer's account and in cash held outside the Treasurer's account and changes in the public debt outstanding.

Receipts of taxes and customs duties are reported on a collections basis. Other receipts are reported partially on a collections basis and partially on a deposits basis. Expenditures, except interest on the public debt, are reported on the basis of checks issued or cash payments made by disbursing officers. Transactions of an interfund or intragovernmental nature are included on the same basis even though the actual issuance of checks may not be involved. Interest on the public debt is included on an accrual basis beginning with figures for June 1955 and the fiscal year 1955. Prior to that, it was included on a due and payable basis. The same reporting basis as that in the monthly statement provides the fiscal year figures for the Treasury's "Combined Statement of Receipts, Expenditures and Balances of the United States Government" and for actual receipts and expenditures in the "Budget of the United States Government."

The daily statement on the new basis was first issued for February 17, 1954. In the deposits and withdrawals as shown, no distinction is made as to the type of accounts (budget, trust, etc.). The deposits are on the basis of certificates of deposit cleared through the account of the Treasurer of the United States. Total withdrawals are on the basis of checks paid or cash disbursements made out of the Treasurer's account. Some of the withdrawal classifications shown are reported on the basis of mailed reports of checks issued and are adjusted by means of clearing accounts to the total of checks paid. Except for relatively minor amounts, noncash interfund and other intragovernmental transactions are excluded. The public debt figures in the daily statement also are on a "clearance" basis, with the exception of those issuance and retirement transactions reported on the basis of telegrams from Federal Reserve Banks. Noncash debt transactions are included, however.

The daily statement before February 17, 1954, covered not only transactions cleared through the Treasurer's account but also certain Government agency transactions which were handled through commercial bank accounts, and included noncash interfund and other intragovernmental transactions. It provided information similar to that in the present daily statement with respect to the status of the Treasurer's account, and similar to that in the present end-of-month daily statement with respect to debt issuance, retirement, and amount outstanding. Receipts and expenditures, however, were classified by type of account, and the budget results shown in the daily statement were used as the basis for reflecting the results under the President's budget program as enacted by the Congress.

Receipts were on the basis of deposits as they cleared the Treasurer's account. Expenditures cleared through the Treasurer's account were reported on two successive bases. Through 1946 they were on the basis of checks paid by the Treasurer of the United States. Beginning with 1947, expenditures made through the facilities of the Treasury Department's Division of Disbursement were on the basis of checks issued, while certain others, principally those of the Department of Defense and its predecessor organizations, were on the basis of checks paid. Transactions handled through commercial bank accounts, consisting of market transactions in public debt and guaranteed securities, were as reported by the agency. Interest on the public debt was included on a due and payable basis beginning with November 1949 and on a checks-paid basis prior to that time.

The circulation statement reflects transactions through the Treasurer's account which affect monetary stocks of gold and silver and the amounts of coin and currency in the money supply of the country. It is issued later than the daily statement, however, and the figures are based on transactions consummated during the reporting period even though some may not have cleared the Treasurer's account during that period.

Treasury Financing Operations - (Continued)

91-Day Bills Again Increased

New weekly Treasury bills issued in January totaled \$8.5 billion. They raised \$400 million of cash and refunded \$8.1 billion of bills maturing. The first four issues were for \$1.7 billion each, \$100 million in excess of each maturing issue. The fifth issue refunded the maturity in the equivalent

amount of \$1.7 billion. Beginning with the weekly issue of December 19, 1957, through the issue of January 23, increases for cash totaled \$600 million. Average rates of discount on the new January issues were 2.753 percent for January 2; 2.858 percent for January 9; 2.591 percent for January 16; 2.587 percent for January 23; and 2.202 percent for January 30.

Note: Details of Treasury market financing operations are shown elsewhere in this issue of the "Treasury Bulletin," in the tables on "Offerings," "Allotments," and "Disposition," respectively, of marketable issues

of bonds, notes, and certificates of indebtedness, and in the tables "Offerings of Treasury Bills" and "Summary of New Money Financing through Treasury Bills."

Sources: Actual figures through the fiscal year 1952 and the calendar year 1953 are from the daily Treasury statement, and thereafter in each case they are from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see Part III); estimates are from the 1959 Budget document, released January 13, 1958, including effects of proposed legislation. More detailed information with respect to the figures on this page will be found in succeeding tables.

1/ Gross receipts less transfers of tax receipts to certain trust funds (see page 2), and refunds of receipts.

2/ Transactions of the Foreign Economic Cooperation Trust Fund, established under Section 1(b) (f) of the Economic Cooperation Act of 1948 (62 Stat. 150), are consolidated with budget expenditures.

3/ Consists of transactions of trust and deposit funds, investment by Government agencies in public debt securities, and redemption or sale of obligations of Government agencies in the market; excess of receipts, or expenditures (-). For detail of content, see page 6.

4/ For checks outstanding and telegraphic reports from Federal Reserve

Banks beginning with 1947; public debt interest accrued and unpaid from November 1949 as interest checks and coupon outstanding; also deposits in trust and changes in cash held outside the Treasury, except certain other accounts beginning with the fiscal year 1954. Net increase or decrease (-).

5/ For current details, see section on "Statutory Debt Limitation" in each issue of the Bulletin. The limitations in effect during the period covered by this table and the date when each became effective are as follows: April 3, 1945, \$300 billion; June 26, 1946, \$275 billion; August 28, 1946, \$281 billion; July 1, 1956, \$278 billion; and July 1, 1957, \$275 billion. Guaranteed securities are included under the limitation beginning April 3, 1945. Savings bonds are included at current redemption value prior to that time. In the debt outstanding, savings bonds are carried at current redemption value.

* Less than \$500,000.

Source: Actual figures through 1956 are from the daily Treasury statement and thereafter from the monthly statement of receipts and expenditures of the Government (for explanation of terms see page II); estimates are from the 1959 Budget document, released January 13, 1958, including effects of proposed legislation.

For further detail, see tables under "Internal Revenue Collections." Breakdown was not made in the daily Treasury statement and the monthly statement for years prior to 1954.

Beginning January 1951, the distribution of receipts between individual income taxes and old-age and disability insurance taxes is made in accordance with provisions of Sec. 201 of the Social Security Act, as amended (42 U.S.C. 401), for transfer to the Federal Old-Age and Survivor Insurance Trust Fund (see footnote 11), and after December 1956 also for transfer to the Federal Disability

Insurance Trust Fund (see footnote 12).

4/ Taxes on employees and employees under the Federal Insurance Contributions Act, as amended (26 U.S.C. 3101-3125), and, beginning with the taxable year 1951, tax on self-employed individuals under the Self-Employment Contributions Act, as amended (26 U.S.C. 1401-1403). The Social Security Act Amendments of 1956, approved August 1, 1956, increased the rates of tax applicable to wages paid and taxable wages beginning after December 31, 1956, to provide for disability insurance (see footnote 12).

5/ Taxes on carriers and their employees under the Railroad Retirement Tax act, as amended (26 U.S.C. 3201-3233).

6/ Tax on employers of 4 or more under the Federal Unemployment Tax Act, as amended (26 U.S.C. 3301-3308); with respect to services performed before January 1, 1956, the tax was imposed on employers of 8 or more. Remaining footnotes on page 5.

Source: Actual figures are from the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates are from the 1959 Budget document, released January 13, 1958, including effects of proposed legislation.

Note: Figures in this table are for agencies as constituted at the time the expenditures were made, and therefore do not necessarily represent functions which are comparable over a period of time. For expenditures by functions on a consistent basis, see Table 3.

1/ Expenditure for Reconstruction Finance Corporation are included under "Independent office" through 1954, and under "Treasury Department, Other," thereafter, except functions transferred to Export-Import Bank, Federal National Mortgage Association, and Small Business Administration.

2/ Expenditure for Federal Home Loan Bank Board are included under "Housing and Home Finance Agency" through 1955, and under "Independent office" thereafter.

3/ Beginning with 1957, Federal aid for highways is excluded from budget expenditures and included in trust account expenditures (see Table 1, footnote 14).

4/ Expenditures for Alaska road construction are included under Interior Department through 1956 and under Commerce Department beginning 1957.

5/ Total includes allowance for contingencies amounting to \$200 million.

6/ Total includes allowance for proposed legislation and contingencies amounting to \$1,139 million.

7/ Effective January 1, 1957, the production credit corporations were merged in the Federal intermediate credit banks, pursuant to the Farm Credit Act of 1956, approved July 26, 1956 (12 U.S.C. 1027). Thereafter until January 1959 operations of the banks (as mixed-ownership corporations) are classified as trust enterprise funds and are included net in trust account expenditures; previously the operations of the banks and the corporations, respectively, were classified as public enterprise funds and were included net in budget expenditures. Adjustments for this change in classification are incorporated in the January figure. Beginning January 1959 they will be classified as government-sponsored enterprises.

8/ Effective July 1, 1957, certain activities of the Federal Facilities Corporation were transferred to General Services Administration from the Treasury Department, pursuant to Executive Order 10720, dated July 11, 1957.

9/ Totals include unclassified expenditure transfers until these have been distributed in final figures.

10/ Effective June 30, 1955, interest on the public debt is reported on an accrual basis.

11/ Consists of Federal payment and loans and advances.

12/ Includes adjustment of receipts of approximately \$33 million applicable to the prior accounting period.

* Less than \$500,000.

Source: Figures for 1953-57 are from the 1959 Budget of the United States Government, Special Analysis K; figures for 1958 are based on reports by Government disbursing officers and are classified by individual appropriation items. Expenditures are net of public enterprise fund receipts.

1/ The defense support part of functional code 058 represents a reclassification of certain appropriations previously included under functional code 152.

2/ See footnote 6.

3/ Expenditures for 1958 include those made from "Readjustment Benefits, Veterans' Administration," applicable to functional classification 102, the separate amounts of which cannot be readily determined.

4/ See footnote 3.

5/ Educational activities of the National Science Foundation, previously included under functional code 215, have been reclassified to functional code 214.

6/ Expenditures for 1958 include those for emergency assistance to Pakistan — wheat, aid to friendly peoples, applicable to functional classification 152; for emergency feed program — cost of commodities, applicable to functional classification 352; for loan to Secretary of Agriculture for conservation program, applicable to functional classification 354; and for transfers and other costs for eradication of foot-and-mouth disease and brucellosis in cattle, applicable to functional classification 355. These expenditures were made from "Commodity Credit Corporation Capital Fund" and the separate amounts cannot be readily determined.

7/ Expenditures for 1958 include those for farm housing made from "Loans, Farmers' Home Administration, Agriculture," applicable to functional classification 517, the separate amounts of which cannot be readily determined.

8/ For shift of Federal intermediates credit banks from budget to trust account classification effective January 1957, see Table 2, footnote 7.

9/ Exclude Federal-aid highway expenditures, which are made from the Highway Trust Fund beginning with 1957 (see Table 1, footnote 14); corresponding expenditures for previous years are included in budget expenditures.

10/ See footnote 12.

11/ See footnote 15.

12/ Expenditures for 1958 include those for community facilities — grants, loans, and advances, applicable to functional classification 511; for loans for Alaska and populated holding, applicable to functional classification 517. These expenditures were made from "Revolving Fund, Liquidation Programs, Office of the Administrator, Housing and Home Finance Agency" and the separate amounts cannot be readily determined.

13/ See footnote 7.

14/ Expenditures for 1958 include those for disaster loans and relief made from "Revolving Fund, Small Business Administration," applicable to functional classification 521, the separate amounts of which cannot be readily determined.

15/ Expenditures for 1958 include those for lending program — public agencies, made from "Reconstruction Finance Corporation Liquidation, Treasury" and applicable to functional classification 515, the separate amounts of which cannot be readily determined.

16/ See footnote 14.

Footnotes to Table 1.- (Continued)

Footnotes 1 through 6 follow Table 1.

7/ Through 1953, contributions to the Railroad Unemployment Insurance Administration fund were carried in the daily Treasury statement as miscellaneous receipts, while the 1959 Budget document, Special Analysis K, includes them in employment taxes through 1952. Beginning 1954 the contributions are credited direct to the trust account. For amounts of the contributions included in budget receipts, see "Treasury Bulletin" for February 1954, page 7.

8/ In the 1959 Budget document, Special Analysis K, internal revenue taxes not otherwise classified are included in miscellaneous receipts.

9/ Beginning 1955, the figures shown reflect adjustments to correct prior estimates, pursuant to the provisions of Sec. 201 (e) of the Social Security Act, as amended (42 U.S.C. 401 (e)), in millions of dollars as follows:

Fiscal year or month	Income tax withheld	Income tax not withheld	Old-age insurance tax transferred
1955	-	-	-300
1956	+449	-4	-246
1957	+136	-1	-134

10/ Beginning 1957, includes collections under increased rates in the Highway Revenue Act of 1956 (see footnote 14).

11/ Amounts appropriated to the Federal Old-Age and Survivors Insurance Trust Fund are equivalent to the amounts of taxes collected and deposited for old-age insurance (42 U.S.C. 401 (e)). Beginning January 1951, the amounts transferred currently for appropriation to the trust fund are based on estimates of old-age insurance tax receipts by the Secretary of the Treasury pursuant to the provisions of Sec. 201 (e) of the act as amended, and are adjusted in later transfers by the basis of wage and self-employment income records maintained in the Social Security Administration. The amount of old-age insurance tax refunds is paid from the trust fund as a reimbursement to the general fund.

12/ The Federal Disability Insurance Trust Fund was established by the Social Security Act Amendments of 1956, approved August 1, 1956 (42 U.S.C. 401 (h)). The act appropriated to the trust fund amounts

equivalent to specified percentages of the wages and self-employment income, respectively, which are taxed for old-age insurance, and provided that the amounts appropriated should be transferred from time to time to the trust fund on the same basis as transfers to the Federal Old-Age and Survivors Insurance Trust Fund. Rates of tax were increased by the percentages appropriated to the Federal Disability Insurance Trust Fund, the increase being applicable to wages paid and taxable years beginning after December 31, 1956.

13/ Excludes the Government's contribution for creditable military service (45 U.S.C. 228c-1 (b)). Beginning 1952, amounts are appropriated to the Railroad Retirement Account equal to the amount of taxes under the Railroad Retirement Act deposited in the Treasury, less refunds, during each fiscal year (65 Stat. 222 and 66 Stat. 371), and transfers are made currently. Previously, annual appropriations were based, in effect, on estimated tax collections, with any necessary adjustments made in succeeding appropriations.

14/ The Highway Revenue Act of 1956, approved June 29, 1956 (23 U.S.C. 173) established a Highway Trust Fund from which are to be made, as provided by appropriation acts, Federal-aid highway expenditures after June 30, 1956, and before July 1, 1972. The act appropriated to this fund amounts equivalent to specified percentages of excise taxes on certain excise taxes on motor fuels, motor vehicles, tires and tubes, and use of certain vehicles, and provided that the amounts appropriated should be transferred currently to the trust fund on the basis of estimates by the Secretary of the Treasury with proper adjustments to be made in subsequent transfers. The use tax was imposed by the act and rates were increased for the other taxes. Previous to the fiscal year 1957 corresponding excise tax receipts were included in net budget receipts, and Federal-aid highway expenditures were included in budget expenditures.

15/ Interest on refunds is included in expenditures in Table 2. Reimbursement by Federal Old-Age and Survivors Insurance Trust Fund for refunds of taxes for the fiscal year (see footnote 11) is netted against internal revenue refunds for the month in which the reimbursement is made.

* Less than \$500,000.

Source: Actual figures through 1952 are from the daily Treasury statement of the monthly statement of receipts and expenditures of the Government (for explanation of reporting bases, see page II); estimates are from the 1955 Budget document, released January 13, 1958, including effect of proposed legislation.

1/ Prior to 1951 net investment in public debt securities by certain trust accounts and by deposit fund accounts is included in trust and deposit fund account expenditures and excluded from net investment by Government agencies. (See Tables 3 and 4).

2/ Under a revised classification in the monthly statement, effective July 1, 1955, the security transactions of Government-sponsored enterprises are included in deposit fund account expenditures (net) and excluded from net investment by Government agencies in public debt securities (see Table 4) and from net redemption or sale of obligations of Government agencies in the market (see Table 5). Figures previously published for the fiscal year 1955 have been revised to the new classification basis.

3/ Includes guaranteed securities beginning 1955 (see Table 4).

1/ See "Budget Receipts and Expenditures," Table 1, footnote 12.

2/ See "Budget Receipts and Expenditures," Table 1, footnote 14.

3/ Includes District of Columbia receipts from taxes and from Federal contributions, loans, and grants; Indian tribal funds; increment resulting from reduction in the weight of the gold dollar; and through 1950, seigniorage on silver under the Silver Purchase Act of 1934. Thereafter any such seigniorage is included with other

seigniorage under budget receipts. Beginning with the fiscal year 1954, the Railroad Unemployment Insurance Administration Fund is classified as a trust account, instead of being handled through budget accounts as formerly (see "Budget Receipts and Expenditures," Table 1, footnote 7).

4/ Does not include donation of public debt securities amounting to \$45,800 (par value); see also Table 4.

3/ Includes net investment in public debt securities by certain accounts (see Table 4).

4/ Does not include secondary transactions of Government-sponsored enterprises (see Table 1, footnote 2).

5/ Does not include revolving fund receipts representing acquired securities amounting to \$1,643,070 (par value); see also Table 4.

6/ Operated as a trust enterprise fund beginning January 1, 1957, at which time the production credit corporations were merged in the Federal intermediate credit banks, pursuant to the Farm Credit Act of 1956 (12 U.S.C. 1027); previously the banks and corporations, respectively, were classified as public enterprise funds, and were included net in budget expenditures. Adjustments for the change in classification are included in the January figures.

7/ Secondary market operations, as provided in the Housing Act of 1954, approved August 2, 1954 (12 U.S.C. 1719). Funds provided by the Treasury (-), or repaid to the Treasury, are shown in a separate column (and correspondingly are reflected net in budget expenditures).

8/ Includes District of Columbia operating expenditures; Indian tribal funds; expenditures chargeable against income on gold; and trust enterprise funds (net) which are not shown separately. The Railroad Unemployment Insurance Administration Fund is included beginning with the fiscal year 1954 (see Table 2, footnote 3), and the Federal Employees Insurance Fund (net) from its establishment in August 1954. Not reported separately.

9/ Excluded from deposit fund account expenditures and included with similar security transactions of other agencies (see Tables 4 and 5).

1/ Includes the Government's contribution for creditable military service (45 U.S.C. 228c - 1 (n)). Beginning 1952, appropriations of amounts deposited in the Treasury (less refunds) under the Railroad Retirement Tax Act, and transfers are made currently subject to later adjustments (see Budget Receipts and Expenditures, Table 1). For prior years, appropriations were included here when made, but were included in Table 2 when the funds were transferred from the general fund. Beginning 1954 includes unappropriated transfers of tax receipts.

2/ Paid from the trust fund beginning 1950 (65 Stat. 297).

3/ Pursuant to the financial interchange provisions of the Railroad Retirement Act, as amended October 30, 1951 (45 U.S.C. 228e).

4/ Includes unappropriated receipts beginning fiscal year 1954.

5/ Appropriations reduced by \$19.8 million in November 1951 and \$18.7 million in August 1953 and these amounts transferred to surplus (65 Stat. 755; 67 Stat. 245).

6/ Includes adjustments to monthly statement basis.

7/ Includes adjustment due to reporting change to a collection basis.

8/ Includes estimated transfer of \$110 million from Federal Old-Age and survivors insurance trust fund.

9/ Includes estimated net transfer of \$210 million representing \$220 million from Federal old-age and survivors insurance trust fund and \$10 million to Federal disability insurance trust fund.

CASH INCOME AND OUTGO

The cash income and outgo data appearing in the "Treasury Bulletin," beginning with the February 1956 issue, are on a basis consistent with receipts from and payments to the public as derived in the 1957 and subsequent Budgets of the United States, Special Analysis A. Reconciliation to cash deposits and withdrawals in the account of the Treasurer of the United States is shown on the same basis as in the Budget documents. There is also shown the amount of net cash borrowing from, or repayment of borrowing to, the public. By these arrangements, data in accordance with the Budget classifications are made available month by month. Figures for back years have been revised where necessary in order to make them as nearly comparable with the Budget classifications as available data will permit. For this reason certain of the figures differ somewhat from those published in earlier Budget documents as well as in the Bulletin.

The Budget series of cash transactions is designed to provide information on the flow of money between the public and the Federal Government as a whole, and therefore includes transactions not cleared through the Treasurer's account. Receipts and payments include transactions both in budget accounts and in trust and deposit fund accounts. Operations of Government-sponsored enterprises are included in payment on a net basis as reflected in Treasury reports. Major intragovernmental transactions which are reported as both expenditures and receipts are eliminated from both. Noncash items which represent accrued obligations of the Government to make payments in the future are also eliminated from expenditures but are added later when actual payments are made. Receipts from the exercise of monetary authority (mostly seigniorage on silver) are excluded as not

representing cash received from the public. Federal cash borrowing from the public includes net borrowing by the Treasury through public debt transactions and also net borrowing by Government agencies and Government-sponsored enterprises through sales of their own securities. It excludes changes in the public debt which do not represent direct cash borrowing from the public. The net effect of all these transactions with the public is reflected in changes in the balance in the Treasurer's account and in cash held outside the Treasury.

Cash transactions through the Treasurer's account are similar in general concept to those included in the Budget series, but are limited in coverage to transactions which affect the balance in that account. On the other hand, they include receipts from the exercise of monetary authority, which are excluded from receipts from the public in the Budget series.

Beginning with figures for the fiscal year 1953, the series of transactions with the public is based on the "Monthly Statement of Receipts and Expenditures of the United States Government," which is compiled from reports by all collecting and disbursing officers and includes those transactions not cleared through the Treasurer's account. Cash deposits and withdrawals in the Treasurer's account, beginning with the figures for the same year, are reported in daily Treasury statements. For those years prior to 1953 both cash transactions series are based on a single source, namely, the earlier basis of daily Treasury statements which reported separate classifications for budget results, trust account transactions, etc.

CASH INCOME AND OUTGO

Footnotes to Table 3

- 1/ For further detail, see "Budget Receipts and Expenditures," Table 1.
 2/ For further detail, see "Trust Account and Other Transactions," Table 2.
 3/ Treated as noncash refund deductions from receipts when issued and as cash refund deductions when redeemed.

- 4/ Consists of surcharges on silver and increment resulting from reduction in the weight of the gold dollar; excluded from receipts from the public but included in cash deposits in the Treasurer's account.
 * Less than \$500,000.

Footnotes to Table 4

- 1/ For further detail, see "Budget Receipts and Expenditures," Table 2.
 2/ For further detail, see "Trust Account and Other Transactions," Tables 3, 4, and 5. Includes net change in balances in Government-sponsored enterprise deposit fund accounts with the Treasurer of the United States. Net operating expenditures, or receipts (-), as measured by funds provided by or applied to net security transactions reflected in Treasury reports (see Table 7). To a large extent, these Government-sponsored enterprises secure funds for their operations by direct borrowing from the public or by cashing Federal securities which they hold, and they apply the net income received from operations to repayment of borrowing from the public or to investment in Federal securities. On that basis, net

expenditures for operations are shown in this table in terms of the combined net of disinvestment in Federal securities and sale of agency obligations in the market, and net receipts from operations are shown in terms of the combined net of investment in Federal securities and redemption of agency obligations in the market.

- 3/ Not reported prior to 1954.
 4/ Consists of only those market transactions not cleared through the Treasurer's account.
 5/ See Table 7, footnote 1.
 6/ Does not include revolving fund receipts representing acquired securities amounting to \$1,643,070 (par value).

Footnotes to Table 5

- 1/ Federal intermediate credit bank franchise tax through December 1956 and, beginning 1957, also reimbursement by Panama Canal Company for expenses and services.
 2/ Includes reimbursement by Federal Old-Age and Survivors Insurance Trust Fund and Federal Disability Insurance Trust Fund for administrative expenses, and also for refunds of taxes (treated as an offset to refunds rather than being credited to receipts) beginning with 1953 for the former and 1959 for the latter; reimbursement by Highway Trust Fund for refunds of taxes; reimbursement by the District of Columbia; payment of dividends, interest, etc., by Federal National Mortgage Association's secondary market operations; and Federal intermediate credit bank franchise tax and repayment of capital stock to the Treasury after December 1956 and before January 1959.
 3/ Consists of payment of earnings and repayment of capital stock to the Treasury through 1952; and payment of franchise tax by banks for cooperatives beginning 1955, and by Federal intermediate credit banks beginning January 1959.
 4/ Includes relatively small amounts of deductions from salaries paid

- by trust funds and Government-sponsored enterprises. Beginning with fiscal year 1958 excludes deductions from salaries of District of Columbia employees (see footnote 6).
 5/ Consists of net payments to Civil Service retirement funds representing contributions and Government corporation shares of contributions; payments to the Railroad Retirement Account (for creditable military service), the Unemployment Trust Fund, veterans' life insurance funds, Judicial Survivors Annuity Fund, trust fund for technical services and other assistance under the agricultural conservation program, and District of Columbia; and awards of Indian Claims Commission.
 6/ Includes payment by District of Columbia to the Civil Services retirement fund for its share of contributions, and beginning with 1958 also deductions from its payroll; payment by Railroad Retirement Board to Federal Old-Age and Survivors Insurance Trust Fund; transfers from Civil Service retirement fund to Foreign Service retirement fund except 1958 actual expenditures; and transfers from Railroad Unemployment Insurance Administration Fund to Unemployment Trust Fund through 1955.
 * Less than \$500,000.

Footnotes to Table 6

- 1/ Accrued discount on savings bonds and bills less interest paid on savings bonds and bills redeemed.
 2/ Public debt interest due and accrued beginning June 30, 1955, effective date of the change in accounting and reporting from a due and payable basis to an accrual basis; for 1954, consists only of public debt interest checks and coupons outstanding; net increase, or decrease (-). Not reported as a separate clearing account prior to 1954.
 3/ Treated as noncash expenditures at the time of issuance of the securities and as cash expenditures at the time of their redemption; net issuance, or redemption (-).
 4/ Issued in 1936 in exchange for adjusted service certificates held by veterans of World War I. The bonds matured in 1945.
 5/ Issued in 1947 in payment for accumulated leave. The last of these bonds matured in 1951.

- 6/ Part of the United States subscription to the capital of the International Bank for Reconstruction and Development and to the International Monetary Fund was paid in the form of noninterest-bearing nonnegotiable notes payable on demand (see 1947 Annual Report of the Secretary of the Treasury, pages 48, 350, and 389). The last of the notes issued to the Bank was redeemed in 1950.
 7/ By wholly owned Government enterprises; beginning 1953, such net investments are reported separately and are not included in expenditures (see "Trust Account and Other Transactions," Table 4).
 8/ Check outstanding less deposits in transit, and changes in other accounts; net increase, or decrease (-). Prior to 1954 includes also public debt interest due and unpaid (see footnote 2).
 * Less than \$500,000.

Footnotes to Table 7

- 1/ In this table, beginning 1954, in accordance with treatment in Budget documents, net investment in United States securities by Government-sponsored enterprises includes a small amount by other enterprises regarded as representing net transactions with the public. In Table 4 under "Trust Account and Other Transactions," these amounts are included in trust and deposit fund account investment.
 2/ Does not include investments representing acquired securities amounting to \$1,643,070 (par value) and donation of securities amounting to \$45,800 (par value).
 3/ Accrued discount on savings bonds and bills, which is included in the

- principal of the public debt, less interest paid on savings bonds and bills redeemed.
 4/ Treated as noncash transactions at the time of issuance and as cash transactions at the time of redemption; net issuance, or redemption (-).
 5/ Excluded from borrowing because the transactions are treated as expenditures in Table 6.
 6/ Excluded from borrowing because the transactions are treated as deductions from receipts in Table 3.
 7/ Market transactions in public debt securities and agency obligations.
 * Less than \$500,000.

ACCOUNT OF THE TREASURER OF THE UNITED STATES

Source and Availability of the Balance in the Treasurer's Account

The account of the Treasurer of the United States reflects not only budget receipts and expenditures but also trust, deposit fund, and public debt transactions.

The working cash of the Treasury is held mainly in Treasurer's accounts with Federal Reserve Banks and branches. As the balances in these accounts become depleted, they are restored by calling in (transferring) funds from the tax and loan accounts with thousands of commercial banks throughout the country.

Deposits to tax and loan accounts occur in the normal course of business under a uniform procedure applicable to all banks whereby customers of banks deposit with them tax payments and funds for the purchase of Government securities. In most cases the transaction involves merely the transfer of money from a customer's

account to the tax and loan account in the same bank. On occasions, to the extent authorized by the Treasury, banks are permitted to deposit in these accounts proceeds from subscriptions to public debt securities entered for their own account as well as for the account of their customers.

The tax and loan account system permits the Treasury to leave funds in banks and in the communities in which they arise until such time as the Treasury needs the funds for its operations. In this way the Treasury is able to neutralize the effect of its fluctuating operations on bank reserves and the economy.

A detailed description of the Treasury's depositary system may be found in the Annual Report of the Secretary of the Treasury for 1955, pages 275-284.

1/ Special depositories are permitted to make payment in the form of a deposit credit for the purchase price of United States Government obligations purchased by them for their own account, or for the account of their customers who enter subscriptions through them, when this method of payment is permitted under the terms of the circulars inviting subscriptions to the issues.

2/ Taxes eligible for credit consist of those deposited by taxpayers in the depository banks, as follows: Withheld income tax beginning

March 1948; taxes on employers and employees under the Federal Insurance Contributions Act beginning January 1950, and under the Railroad Retirement Tax Act beginning July 1951; and a number of excise taxes beginning July 1953.

3/ Under a special procedure begun in March 1951, authorization may be given for income tax payments on a portion of them, made by checks of \$10,000 or more drawn on a special depository bank to be credited to the tax and loan account in that bank. This procedure is followed during some of the quarterly periods of heavy tax payments.

Note: The computed annual interest charge represents the amount of interest that would be paid if each interest-bearing issue outstanding at the end of each month or year should remain outstanding for a year at the applicable annual rate of interest. The charge is computed for each issue by applying the appropriate annual interest rate to the amount outstanding on that date. The aggregate charge for all interest-bearing issues constitutes the total computed annual interest charge. The average annual interest rate is computed

by dividing the computed annual interest charge for the total, or for any group of issues, by the corresponding principal amount.

1/ Excludes guaranteed securities held by the Treasury.

2/ Total includes "Other bonds"; see Table 2.

3/ Included in debt outstanding at face amount, but discount value is used in computing annual interest charge and annual interest rate.

4/ The annual interest charge and annual interest rate on United States savings bonds are computed on the basis of the rate to maturity applied against the amount outstanding.

1/ The securities above in this table were issued to the Treasury to finance Government corporations and other agencies with the Treasury itself raising the necessary funds through public debt operations. To avoid duplication, these securities are not included in the guaranteed debt outstanding as shown in preceding tables.

2/ Excludes securities issued under Defense Production Act.

3/ From September 1950 through July 1954, consists of notes of the Housing and Home Finance Administrator, issued to borrow for the Association. Beginning August 1954, consists of liabilities taken over by the Association from the Administrator in accordance with the act approved August 2, 1954, and notes issued by the Association under authority of that act (12 U.S.C. 1720, 1723 (d)); and beginning September 1954, also securities transferred from the Reconstruction Finance Corporation (see footnote 5); prior to September 1950, the Association was financed from funds of the Reconstruction Finance Corporation, which owned the capital stock.

4/ Consists of notes issued to borrow for the urban renewal program (formerly slum clearance program); the prefabricated housing loans program from September 1950, when it was transferred from the Reconstruction Finance Corporation, through November 1954; college housing loans beginning July 1951; and public facility loans beginning January 1956. Notes issued to borrow for the Federal National Mortgage Association from September 1950 through July 1954 are shown under the Association.

5/ Established in the Department of State by Executive Order No. 10610, dated May 9, 1955, and effective at the close of business June 30, 1955, as successor to the Foreign Operations Administration. Data for earlier periods are for predecessor agencies. Beginning September 1956, figures exclude notes previously issued by the Administrator in connection with informational media guarantees. The obligation of these notes was assumed by the Director of the United

States Information Agency, pursuant to the act approved July 18, 1956 (22 U. S. C. 1442), and the notes together with others issued for the same purpose are included in "Other."

6/ Excludes securities issued under Defense Production Act of 1950; includes securities issued under Federal Civil Defense Act of 1950 through November 1953, after which they were taken over by the Secretary of the Treasury, pursuant to the act approved July 30, 1953 (15 U.S.C. 609), and are included under "Other." See also footnote 3. During September 1954, under Reorganization Plan No. 2 of 1954, the remaining securities issued by the Corporation to the Treasury were transferred as follows: \$42 million to Export-Import Bank of Washington, \$92 million to Federal National Mortgage Association, and \$14 million to Small Business Administration.

7/ Consists of notes of the General Services Administration program. Consists of notes of the Administrator, General Services Administration beginning January 1951 (Administrator, Defense Materials Procurement Agency, January 1952 through July 1953) for defense materials procurement; Reconstruction Finance Corporation, January 1951 through September 1953 (after which its activities under this act were transferred to the Secretary of the Treasury), and the Secretary of the Treasury beginning October 1953; the Secretary of the Interior (Defense Minerals Exploration Administration) beginning June 1951; the Export-Import Bank of Washington beginning April 1952; and the Secretary of Agriculture beginning June 1954.

8/ Consists of notes issued by Secretary of the Army (Natural Fibers Revolving Fund), 1950-51; Secretary of the Treasury beginning December 1953 (see footnote 6); Small Business Administration beginning September 1954; and for informational media guarantees by the United States Information Agency beginning September 1956 (see footnote 5); also revenue bonds issued by Saint Lawrence Seaway Development Corporation, beginning November 1954.

The Second Liberty Bond Act, as amended (31 U.S.C. 757 b), provides that the face amount of obligations issued under authority of that act, and the face amount of obligations guaranteed as to principal and interest by the United States (except guaranteed obligations held by the Secretary of the Treasury), shall not exceed in the aggregate \$275 billion outstanding at any one time, except that this amount was increased by \$6 billion be-

ginning on August 28, 1954, and ending on June 30, 1956, by acts approved August 28, 1954, and June 30, 1955; and by \$3 billion beginning on July 1, 1956, and ending on June 30, 1957, by an act approved July 9, 1956. Obligations issued on a discount basis, and subject to redemption prior to maturity at the option of the owner, are included in the statutory debt limitation at current redemption values.

UNITED STATES SAVINGS BONDS

United States savings bonds were first offered in March 1935 and began to mature in March 1945. Series A-D were sold between March 1935 and the end of April 1941, and Series E, F, and G were first offered in May 1941. When Series E began to mature on May 1, 1951, owners of the matured bonds were offered three options: To redeem the bonds in cash in accordance with the original terms; to retain them with an extended maturity of 10 years at specified rates of interest accrual; or to exchange them for Series G bonds. A number of changes became effective May 1, 1952. The principal ones were: The rate of interest accrual on Series E was increased, especially for the near term, with corresponding changes in extended Series E; and Series F and G were replaced by two new issues, Series J and K, also at higher interest rates. A new current-income bond, Series H, similar in interest return to Series E, was offered beginning June 1. Details

of these changes appear in the May 1952 Bulletin, page A-1. Series F and G began to mature on May 1, 1953. For the exchange offering made to holders of these bonds maturing through December 31, 1953, see the May 1953 issue, page A-1. Sales of Series J and K were discontinued after April 30, 1957. An increase in interest rates on Series E and H was announced on April 20, 1957, retroactive to February 1. Details of the changes appear in the May 1957 Bulletin, page A-1. In the tables which follow, Series A-F and J sales are included at issue price and total redemptions and amounts outstanding at current redemption values. Series G, H, and K are included at face value throughout. Matured bonds which have been redeemed are included in redemptions. Matured F and G bonds outstanding are included in the interest-bearing debt until all bonds of the annual series have matured, when they are transferred to matured debt upon which interest has ceased.

Sources: Daily Treasury statement.

1/ Details by series on a cumulative basis and by periods for Series A-D combined will be found in the February 1952 and previous issues of the "Treasury Bulletin."

2/ Includes exchanges of matured Series E bonds for Series G bonds beginning May 1951 and for Series K bonds beginning May 1952.

3/ Sales of Series J and K were discontinued at the close of business on April 30, 1957.

4/ Includes both matured and unmatured bonds; see Table 4.

5/ Includes total value of redemptions not yet classified between matured and unmatured bonds.

6/ A change in procedure, beginning in June 1954, for processing redeemed savings bonds has resulted in a high level of redemptions not yet classified between matured and unmatured bonds. This increase temporarily obscures the relationship between the redemption columns showing sales price and accrued discount in Tables 2 through 4 and also the relationship between the matured and unmatured sections of Table 4.

(See also footnote 5). The subsequent distribution of this high level of unclassified redemptions may be large enough in any month to show redemptions of matured bonds for a series in Table 4 which are greater than the total redemptions of that series as shown in Table 3, and to show a negative in the unmatured section of Table 4. Reductions were made in issues and redemptions of Series E, H, F, G, J, and K in July 1954 to compensate for the erroneous inclusion of release transactions in June 1954 as reported in the daily Treasury statement. The amounts involved were as follows: \$16 million for issues of Series E and H and \$17 million for issues of Series F, G, J, and K; and \$35 million for unclassified retirements.

8/ Sales began June 1, 1952.

9/ Comparable data are not available prior to January 1950.

10/ Includes exchanges of Series 1941 F and G savings bonds for Treasury 3-1/4% bonds of 1978-83.

* Less than \$500,000.

Sources: Daily Treasury statement for total amounts outstanding; reports from trust funds for securities held by U. S. Government investment accounts; and reports from Federal Reserve System for securities held by Federal Reserve Banks.

1/ Includes certain obligations not subject to statutory limitation.

For amounts subject to limitation, see page 1.

2/ Includes accounts under the control of certain U. S. Government agencies whose investments are handled outside the Treasury; excludes Federal land banks after June 26, 1947, when the proprietary interest of the United States in these banks ended.

3/ The total amount of interest-bearing securities held by private investors is calculated by deducting from the total amount outstanding the amount held by U. S. Government investment accounts and Federal Reserve Banks.

4/ Excludes guaranteed securities held by the Treasury.

5/ All public marketable issues.

6/ Consists of Commodity Credit Corporation demand obligations stated as of the close of the previous month.

* Less than \$500,000.

1/ Consists of purchases or sales made by the Treasury of securities issued or guaranteed by the U. S. Government for (1) trust funds which by law are under the control of the Secretary of the Treasury or of the Treasurer of the United States, and (2) accounts under the control of certain U. S. Government agencies whose investments are handled through the facilities of the Treasury Department. It will be noted that these

transactions differ from those reflected in Table 1 because they exclude those Government investment accounts for which investments are not handled by the Treasury. Table 2 also includes purchases under Section 19 of the Second Liberty Bond Act, as amended (31 U.S.C. 754a), and excludes the Exchange Stabilization Fund.

1/ United States savings bonds, Series A-F and J, are included at current redemption value.

2/ Securities issued or guaranteed by the U. S. Government, excluding guaranteed securities held by the Treasury. For amounts subject to statutory debt limitation, see page 1.

3/ Consists of commercial banks, trust companies, and stock savings banks in the United States and its Territories and Island possessions. Figures exclude securities held in trust departments.

4/ Holdings of Federal land banks are included under "Miscellaneous Investors" instead of "U. S. Government investment accounts" after June 26, 1947, when the proprietary interest of the United States in these banks ended.

5/ Includes partnerships and personal trust accounts. Nonprofit

institutions and corporate pension trust funds are included under "Miscellaneous investors."

6/ Exclusive of banks and insurance companies.

7/ Consists of trust, sinking, and investment funds of State and local governments and their agencies, and island associations.

8/ Includes saving and loan associations, nonprofit institutions, corporate pension trust funds, and foreign branches and investments of foreign balances and international accounts. In this country, beginning December 1946, includes investments by the International Bank for Reconstruction and Development and the International Monetary Fund in special noninterest-bearing notes issued by the U. S. Government.

9/ Immediate postwar debt peak.

TREASURY SURVEY OF OWNERSHIP, NOVEMBER 30, 1957

The Treasury Survey of Ownership covers securities issued by the United States Government and by Federal agencies. The banks and insurance companies included in the Survey account for approximately 95 percent of such securities held by all banks and insurance companies in the United States. Data were first published for March 31, 1941, in the May 1941 "Treasury Bulletin."

Distribution of ownership by types of banks and insurance companies is published each month. Holdings by commercial banks distributed according to Federal Reserve member-bank classes and nonmember banks are published for June 30 and December 31. Holdings by corporate pension trust funds are published quarterly and first appeared in the March 1954 Bulletin for quarters beginning December 31, 1949.

1/ Includes certain obligations not subject to statutory debt limitation. For amount subject to limitation, see page 1.

2/ Excludes trust departments.

3/ Includes trust companies and, beginning with figures for July 1949, also includes stock savings banks. Previously, these banks were reported as a separate classification.

4/ Includes those banks and insurance companies not reporting in the Treasury Survey.

5/ United States savings bonds, Series E, F, and J, are shown at current redemption value. They were reported at maturity value by the banks and insurance companies included in the Treasury Survey but have been adjusted to current redemption value for use in this statement.

6/ Includes \$48 million depository bonds held by commercial banks not included in the Treasury Survey.

7/ Holdings by reporting investors not available.

8/ Excludes guaranteed securities held by the Treasury.

9/ Federal securities fall into three broad classes with respect to the

imposition of Federal income taxes on income derived from them. "Wholly" tax-exempt securities are those with the income exempt from both normal tax and surtax. "Partially" tax-exempt securities are those with the income exempt from the normal tax except that in the case of partially tax-exempt Treasury bonds, interest derived from \$5,000 of principal amount owned by any one holder is also exempt from the surtax. "Taxable" securities are those with the income subject to normal tax and surtax.

10/ Includes Federal Housing Administration debentures; see footnote 11. 11/ A small indeterminate amount of these debentures is partially tax-exempt.

12/ Includes only publicly offered issues.

13/ The proprietary interest of the United States in these banks ended in July 1951.

14/ The proprietary interest of the United States in these banks ended in June 1947.

* Less than \$500,000.

MARKET QUOTATIONS ON TREASURY SECURITIES, DECEMBER 31, 1957

Current market quotations shown here are over-the-counter closing bid quotations in the New York market for the last trading day of the month, as reported to the Treasury by the Federal Reserve Bank of New York. The securities listed include all regularly quoted

public marketable securities issued by the United States Government except Panama Canal bonds. Outstanding issues which are guaranteed by the United States Government are excluded because they are not regularly quoted in the market.

1/ Not quoted on December 31, 1957.

2/ Amount issued January 2, 1958, was \$1,700 million.

3/ Beginning April 1953, prices are closing bid quotations in the over-the-counter market. Prices for prior dates are the mean of closing bid and ask quotations, except that before October 1, 1959, they are closing prices on the New York Stock Exchange. "When issued" prices are included in the history beginning October 1, 1959. Dates of highs and lows in case of recurrence are the latest dates.

4/ Redeemable on August 1, 1959, at option of holder upon 3 months' notice.

5/ Redeemable on February 15, 1960, at option of holder upon 3 months' notice.

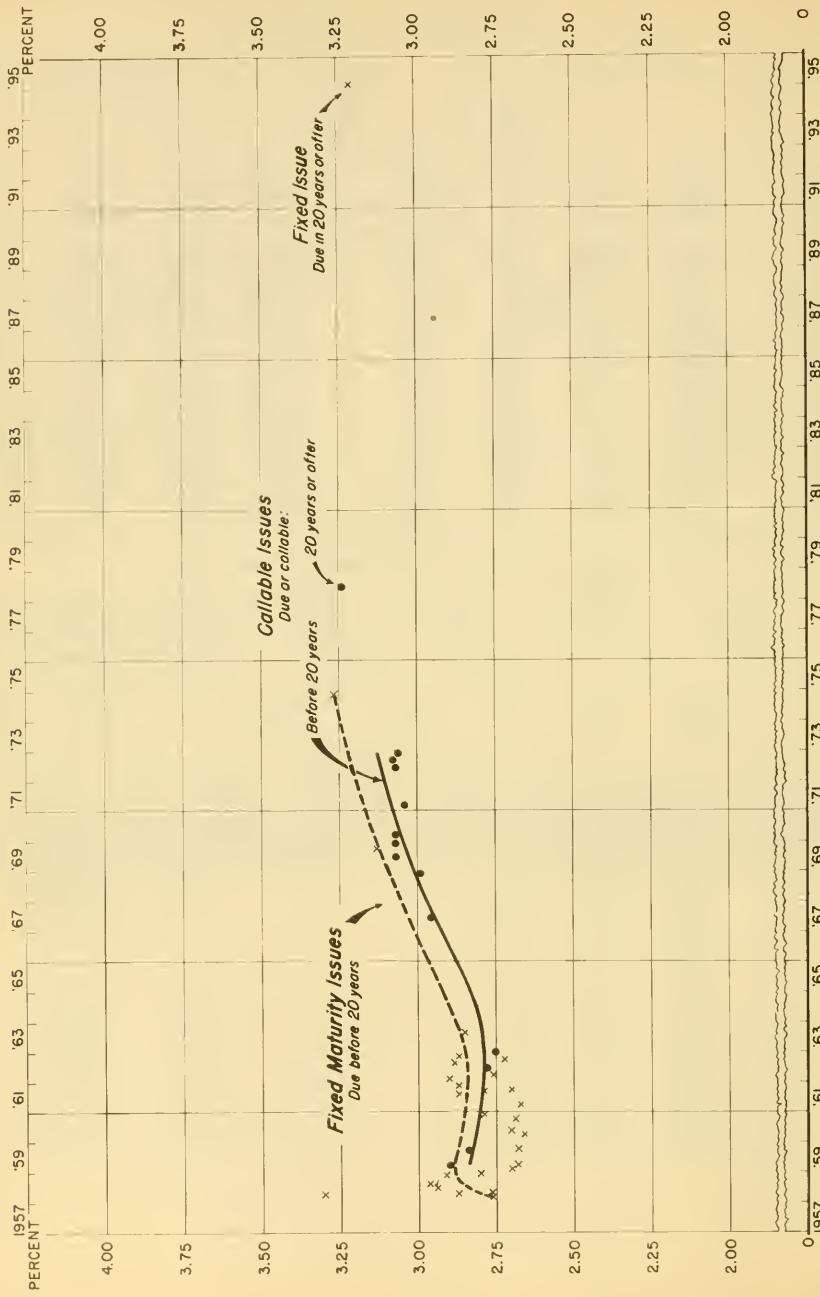

6/ Included in the average yield of long-term taxable Treasury bonds as shown under "Average Yields of Long-Term Bonds."

7/ Yield to first call. Yields are computed to call date when the price is above par and to maturity when the price is at or below par.

MARKET QUOTATIONS ON TREASURY SECURITIES, DECEMBER 31, 1957

YIELDS OF TAXABLE TREASURY SECURITIES, DEC. 31, 1957

Based on Closing Bid Quotations

Explanation: The points represent yields to call when prices are above par and to maturity date when prices are at par or below. The smooth curves for the various classes of points are fitted by eye. Issues for which an exchange offer has been made or which are due or callable in less than 3 months are excluded.

Source: Beginning April 1953, Treasury bond yields are reported to the Treasury by the Federal Reserve Bank of New York, based on closing bid quotations in the over-the-counter market. Yields for prior periods were computed on the basis of mean of closing bid and ask quotations. Moody's Investor Service is the source for the average of Aaa corporate bonds. For definition of taxable bonds, see footnotes to the "Treasury Survey of Ownership" in this issue of the "Treasury Bulletin."

1/ Beginning April 1953, the average includes bonds neither due nor

callable for 10 years; April 1952 through March 1953, the minimum length (whether due or callable) was 10 years; October 1941 through March 1952, the minimum length was 15 years. For bonds currently in the average, see Table 4 under "Market Quotations on Treasury Securities" in this issue of the Bulletin.

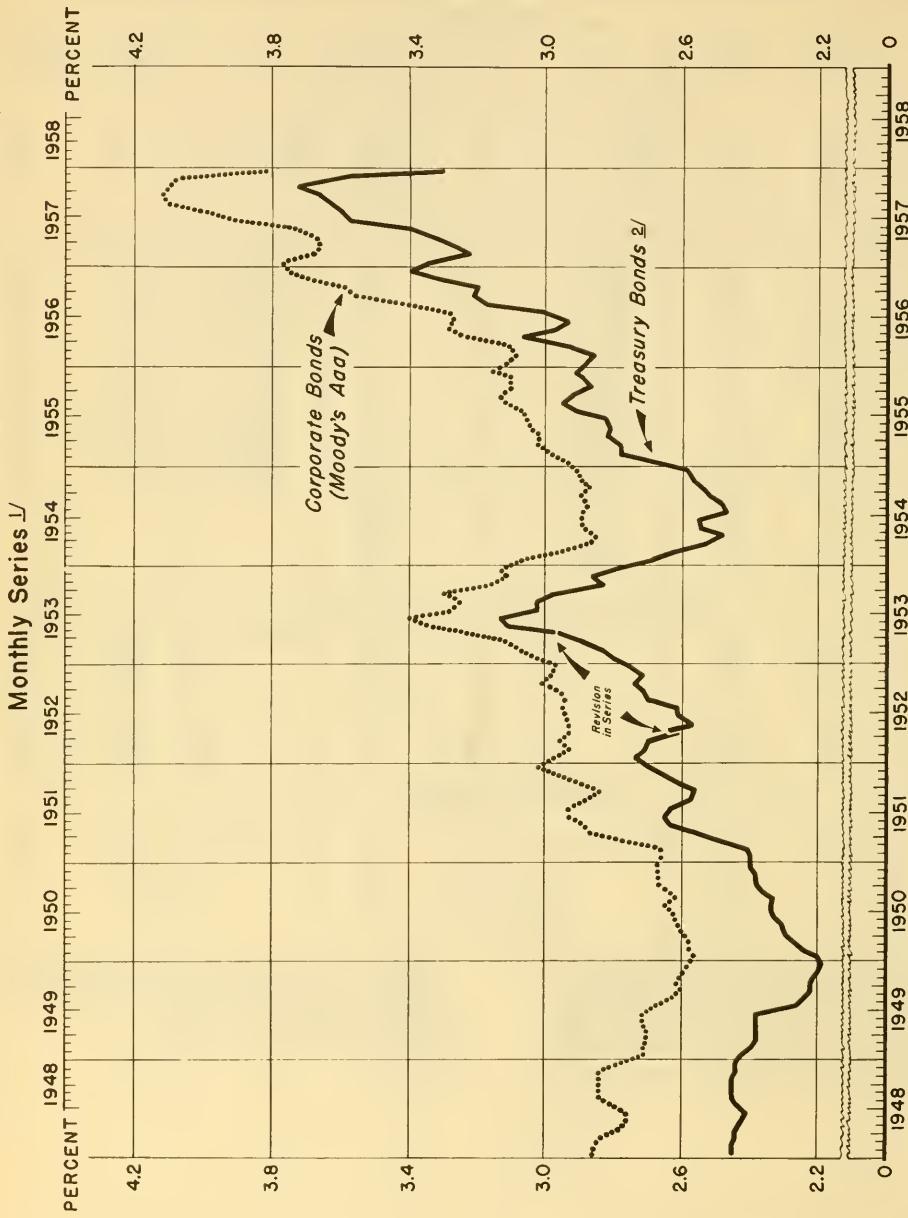

2/ A new long-term bond added to the average.

3/ An existing bond dropped from the average (see footnote 1).

4/ Market closed.

Sources: Internal Revenue Service Reports for detail of collections by type of tax daily Treasury statement for budget receipts from Internal Revenue through the fiscal year 1952, and the monthly statement of receipts and expenditures of the Government for receipts thereafter (for explanation of reporting bases in these publications, see page II). Certain detail by type of tax is available only from returns filed with the Internal Revenue Service. The figures shown include collections for credit to special accounts for certain island possessions, as reported by the Internal Revenue Service. Beginning with the fiscal year 1955, they include the amounts of tax collected in Puerto Rico upon articles of merchandise of Puerto Rican manufacture coming into the United States. Figures for 1954 have been revised to the same basis. Figures for previous years include only amounts collected at points of entry into the United States.

Differences between the amounts of internal revenue reported by the Internal Revenue Service as collections for given periods and the amounts reported in Treasury statements as budget receipts for the same periods arose because of differences in the time when payments were included in the respective reports. Tax payments are included in budget receipts when they are reported as credits to the account of the Treasurer of the United States. Prior to July 1954, they were included in Internal Revenue Service collection reports after the return to which they applied had been received in internal revenue offices. Under procedure begun in 1950 with withheld income tax and old-age insurance taxes and later extended to railroad retirement taxes and many excises, these taxes are paid currently into Treasury depositories and the depository receipts, as evidence of such payments, are attached to quarterly returns to the Internal Revenue Service. Under this procedure, the payments are included in budget receipts in the

month in which the depository receipts are issued to the taxpayers. Revised accounting procedures effective July 1, 1954, extended the same practice to Internal Revenue Service collection reports.

Monthly figures include social security tax on self-employment income, which is levied and collected as part of the individual income tax beginning with the taxable year 1954. Monthly figures exclude this tax, on the basis of estimates beginning 1952 (see footnote 3), and it is included under "Old-age and disability insurance."

In Internal Revenue Service reports beginning January 1951, current collections have not been separated as to type of tax but the breakdown shown for fiscal years is based on estimates made in accordance with provisions of Sec. 201 of the Social Security Act, as amended (42 U.S.C. 401), for transfer of tax receipts to the trust funds (see "Budget Receipts and Expenditures," Table 1).

Beginning with the fiscal year 1955, collections shown include undistributed depository receipts and unmapped collections. For excise taxes these receipts are included in the total only. Total collections include "Taxe not otherwise classified."

For the fiscal year 1956 were reduced to \$3,566 thousand representing tax collections transferred to the Government of tax payment of the act approved August 1, 1950 (42 Stat. 392), but this amount was included in collections reported by the Internal Revenue Service. Beginning with 1957, such collections are excluded also in Internal Revenue Service reports.

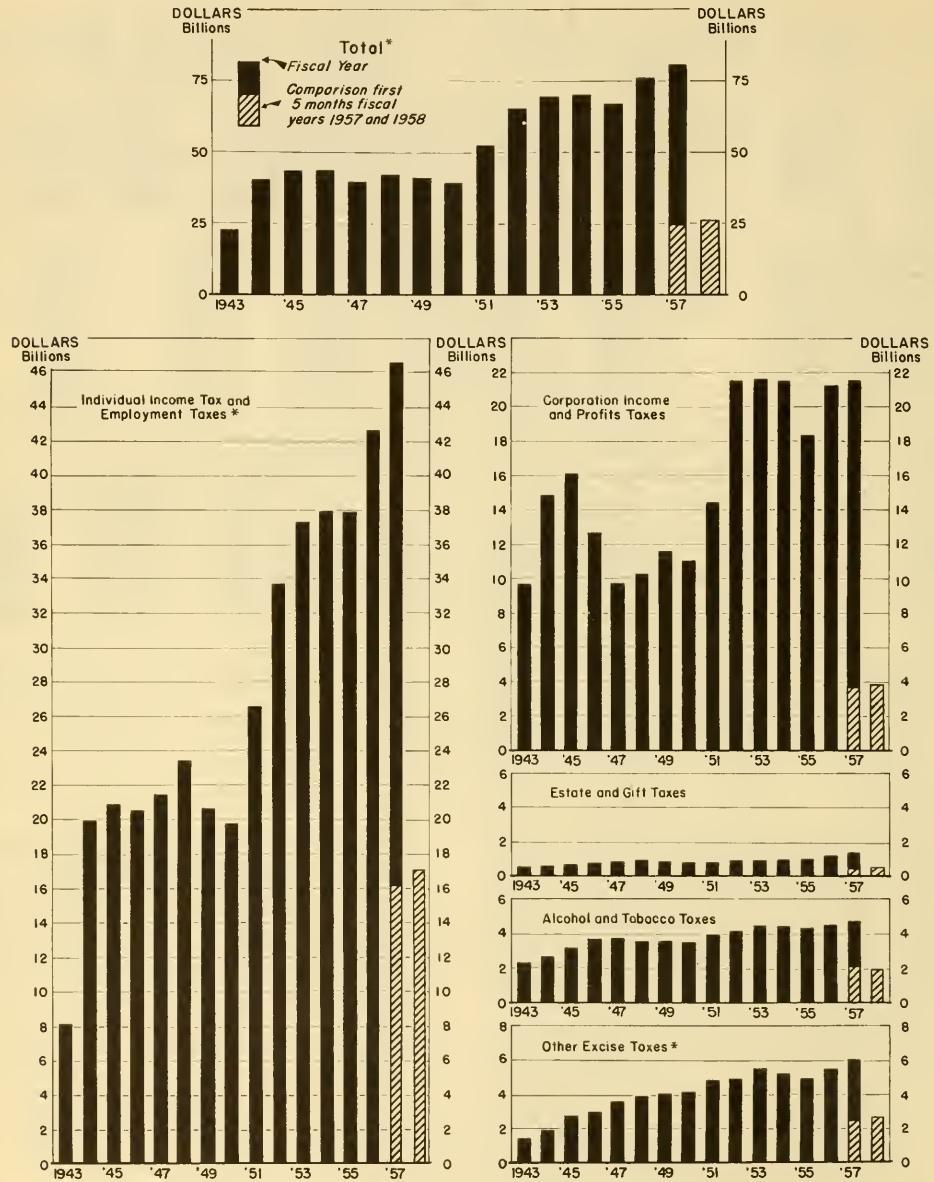

For years ending after June 30, 1945, collections are excluded also in Internal Revenue Service reports.

Detail is reported by quarters beginning with the fiscal year 1956.

Detail is reported by quarters beginning with the fiscal year 1956.

INTERNAL REVENUE COLLECTIONS

INTERNAL REVENUE COLLECTIONS BY PRINCIPAL SOURCES

* Beginning with the fiscal year 1955, includes undistributed depository receipts and unapplied collections. The whole amount of such receipts for excise taxes is included under "Other excise taxes."

CAPITAL MOVEMENTS

Data relating to capital movements between the United States and foreign countries have been collected since 1935, pursuant to Executive Order 6560 of January 15, 1934, Executive Order 10033 of February 8, 1949, and Treasury regulations promulgated thereunder. Information covering the principal types of data and the principal countries is reported monthly, and is published regularly in the "Treasury Bulletin." Supplementary information is published at less frequent intervals. Reports by banks, bankers, securities brokers and dealers, and industrial and commercial concerns in the United States are made initially to the Federal Reserve Banks, which forward consolidated figures to the Treasury. Beginning April 1954, data reported by banks in the Territories and possessions of the United States are included in the published data.

The term "foreigner" as used in these reports covers all institutions and individuals domiciled outside the United States and its Territories and possessions, the official institutions of foreign countries, wherever such institutions may be located, and international organizations. "Short-term" refers to original maturities of one year or less, and "long-term" refers to all other maturities. A detailed discussion of the reporting coverage, statistical presentation, and definitions appeared in the June 1954 issue of the "Treasury Bulletin."

pages 45-47. As a result of changes in presentation introduced in that issue, not all breakdowns previously published will be exactly comparable to those now presented.

The first three sections which follow are published monthly. They provide summaries, by periods and by countries, of data on short-term banking liabilities to and claims on foreigners and transactions in long-term securities by foreigners, and present detailed breakdowns of the latest available preliminary data.

Section IV provides supplementary data in five tables which appear at less frequent intervals. Table 1, short-term foreign liabilities and claims reported by non-financial concerns, is published quarterly in the January, April, July, and October issues of the Bulletin. Table 2, long-term foreign liabilities and claims reported by banks and bankers, and Table 3, estimated gold reserves and dollar holdings of foreign countries and international institutions, are published quarterly in the March, June, September, and December issues. Table 4, foreign credit and debit balances in brokerage accounts, appears semi-annually in the March and September issues. Table 5, short-term liabilities to foreigners in countries and areas not regularly reported separately by banking institutions, is presented annually in the April issue.
